WOMAN SUFFRAGE.

JOINT RESOLUTION proposing an amendment to the Constitution, relative to the qualification of electors.

Resolved by the Senate and House of Representatives of the State of Michigan, That at the next election when the amended constitution shall be submitted to the electors of this State, there shall be submitted to such electors the following proposition, to be substituted in place of so much of section 1 of article VII as precedes the proviso thereto, to be present constitutional in this State as in force stands, and substituted for section 1, article 7, of the amended constitution, if the latter is adopted, to wit:

SECTION 1. In all elections, any person of the age of twenty-one years who shall have resided in this State one month, and in the township or ward in which he or she offers to vote, ten days immediately next preceding any election, or other officer of the following classes, shall be an elector and entitled to vote:

First, Citizens of the United States:

Second, Every female inhabitant of the United States who shall have resided in the United States two years and six months, and declared her intention to become a citizen of the United States, pursuant to the laws thereof, six months preceding an election:

Third, Every inhabitant residing in this State on the twenty-fourth day of June, one thousand eight hundred and thirty-five.

SECTION 2. The legislature, when assembled, is authorized to the electors of this State, for their adoption or rejection, in form following, to wit: A separate ballot may be given by every elector, for or against any law, which may be posted in a separate box.

The form of ballot for said proposition shall be written or printed, or partly written and partly printed, as follows: "Shall the law [here insert the title of the law] be adopted? Yes, No."

It shall be the duty of the Legislature, if the ballot be for the adoption of the amendments, to submit the same to the electors of this State in such manner as shall provide for the submission of the amendments proposed by the present constitution, and if a majority of the votes cast on the question shall be in favor of the adoption of the amendments, the same shall become a part of the constitution, and take effect at the commencement of the year following its adoption.

SEC. 3. At any time after the first day of January, one thousand eight hundred and seventy-five, the legislature may provide for a convention, to be chosen by the qualified electors of this State, for a term of two years, to be appointed by the governor by and with the advice and consent of the Senate, one member of Representatives in joint convention to represent each senatorial district, to revise, amend or amended constitution shall be submitted to the electors qualified to vote for members of the legislature, for their adoption or rejection, as the legislature may determine.

SEC. 4. Sections 1, 2, 3, 4, 5, 13 and 16, of the schedule of the present constitution, are repealed, and the remaining sections in the schedule to the amended constitution, shall be numbered consecutively, and when so amended shall be entitled as follows, to wit:

SCHEDULE.

That no inconvenience may arise from the amendments to the constitution of this State, and in order to carry the same into operation, it is declared and ordained:

SECTION 1. The common law, and the statutes of a general nature, as adopted by the constitution, shall remain in force until they shall expire by their limitation, or are altered or repealed by the Legislature.

SEC. 2. All fines, penalties, forfeitures and escheats accruing to the State under the present constitution, shall accrue to the State under this constitution.

SEC. 4. All recognizances, bonds, obligations or other instruments entered into or executed before the adoption of this constitution, to the people of this State, or any county or township, or to any public officer or public body, in pursuance of any law, or entered under existing laws, to the people of this State, or any county or township, or public officer or public body, shall be taken and deemed to be given to such county or township, or public officer or public body, as the case may require, and shall be prosecuted as provided by law, and all judgments, recognizances, and penal actions shall be prosecuted, tried and decided in the proper court, in the proper place, until otherwise provided by law.

SEC. 5. All officers, civil and military, now holding any office or appointment, shall continue in the exercise thereof, unless sooner removed by competent authority, until superseded under the laws not in force.

SEC. 6. It shall be the duty of the Legislature, at its first session after the adoption of this constitution, to adapt the present laws to the new constitution.

SEC. 7. Any territory attached, or that may hereafter be attached to this State for judicial purposes, if not otherwise represented, shall be considered as forming a judicial district, and be entitled to the same number of circuit judges as far as regards elections, for the purpose of organization.

SEC. 8. The terms of office of all State and county officers, of the judges of probate, members of the board of education, and members of the legislature, shall begin on the first day of January next succeeding their election.

SEC. 9. Sections 3, 4, 6, 13 and 16, of the schedule of the present constitution, are repealed, and the remaining sections in the schedule to the amended constitution, shall be numbered consecutively, and when so amended shall be entitled as follows, to wit:

SUGGESTION BY SALE.

In going to purchase, you will mind you don'ts: Beware of your bread, and take care of your hat: Don't be a fool from your money to part, Have an eye to the one and a brick in the other.

—"Now, can any of you tell me anything about Mahomet?" inquired a teacher of a class in geography. "Yes, sir. He was the only man who broke all the commandments of Moses."

—"Ma, has any pot been in her mouth?" inquired a little boy of his mother. "No, my child." "Cause that little man with a hoop o' hair on his head was lookin' in at the door, and was going to take the bones from her lips, and put them in his own!"

Spring baiting sufficiently advanced to show that the cobbler means to fix the price of his repairs, and the tinsmiths are receiving the attention of the youth of the land. The fellow who can "tie a can to a dog" with plenty of rope on the shoulders and then allow three-fourths of the noise to come from the dog's rear, is a man who can be relied on to raise a rare with a tare. But his racing days are over now, I suppose, for he will soon lose his stakes.

A bright little girl, not long ago, was told by her mother to go up-stairs and hear her say her prayers before retiring. Her mother, being busy, was interrupted by her child, who could hear them just as well. "But, mother," the little girl said, "I don't know how I can turn off the gas."

Home-made is wavering customer: "Well of course, we all know he's got his bad points, and a good point, he has got, too, for there is no deception about his bad points—we can see them. But, we can't none of us tell yet how good a points he may be, we will be content to wait 'im." The party took time to consider.

Passed at the Extra Session of the Legislature in 1874.

[No. 1.]

AN ACT to amend section one hundred and twenty-one of chapter one hundred and twenty of the revised statutes of the revised statutes of the revised statutes of the counts held by justices of the peace," approved March twenty-fourth, eighteen hundred and forty, being section five thousand three hundred and seventy-one of the revised statutes of eighteen hundred and seventy-one.

SECTION 1. The people of the State of Michigan enact, That section one hundred and twenty-eight, being section five thousand three hundred and seventy-one of the compiled laws of eighteen hundred and seventy-one, be amended to read as follows:

SECTION 128. Section 121 of this chapter shall be construed to mean that the jurisdiction of the justices of the peace, in cases in which the State shall be a party, shall be exclusive of the jurisdiction of the circuit court, in all cases in which the State shall be a party, and in all cases in which the State shall be a party, and a certified copy of the record of the proceedings in such cases, shall be sufficient evidence in all cases of appeal, and shall be taken and deemed to be the record of the proceedings in the circuit court, together with the record thereof, in the

TEMPERANCE.

The ladies were out again on Friday last and met with about the same success as on the previous occasions.

On Wednesday they established pickets guards at every saloon but the proprietors agreed to close their bars on Monday the 11th inst., so the guards were called away.

In many places we understand that the saloons have all been closed. And already the question arises, what army of occupation shall be left within these places to maintain the costly victory? For it is written that when the evil spirit re-visiting his old abode finds it empty, he returns thereto with seven others worse than himself.

The billiard table may be or may not represent its antidote. And it is quite possible that only by a judicious substitution of the billiard table on the saloons be kept out of their towns.

As a religious paper wisely and wisely instructs an anxious enquirer that "dancing is wicked when it is wicked, and is not wicked when it is not wicked." So a family journal may say, without fear of misconstruction, that billiards and ten-pins are the possible allies of the reformers. Wesley saw no reason why all the best tunes should belong to the devil, and Methodist hymns now stir the heart and dim the eyes of the devout, whose music once was fitted to the ballads of the slums and the cock pit.

And dear ladies, we think that there are other things still, in the way of competition against barrooms, which it would be wise and natural to bring into use. A beautiful, bright, cheerful home is a safe guard to a son or brother. Believe us, dear women, even though you are tired; though your head aches; though you feel of all things like slippers and easy chairs, it is worth while to cast off your fatigue and entertain the young men of the household, as you would entertain guests who you cared to honor. But there is still another duty which must be attended to if the dear gentlemen have sowed to the bitter fruit of a bad harvest. Let them provide for the young men a comfortable, well furnished and pleasant reading room.

A constant and abundant supply of magazines, news and literary papers, together with bank games, chess, and other games. The cost of such an undertaking need not be very heavy. An earnest effort will secure the necessary money. Will not the good women, leaders of the crusade try something of this sort?

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

DUNCAN, PHELPS & CO. SOLE AGTS. SAN FRANCISCO, CAL. & NEW YORK.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California. The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they restore the cause of disease, and the patient recovers his health. They are the great purifying and invigorating principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick, of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Scientific Thousands proclaim VINEGAR BITTERS the most wonderful Invigorating Tonic that ever sustained the staking system.

No Person can take these Bitters according to directions and remain unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our country during the summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other digestive organs. In their treatment, a purgative CATHARTIC, positive influence upon these various organs is necessary. Then, again, there is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, for they unite with the cathartic the tonic properties of VINEGAR BITTERS, and gently restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. Our bottles will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold beaters, and Miners, as they advance in life, are subject to paralysis of the limbs. A gentle dose of WALKER'S VINEGAR BITTERS will prevent the attack.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will give the mystery of worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

A Pleasant Visit.

Rev. G. W. Lowe of the M. E. church of this village has returned from the southern part of Lenawee County, where he has been visiting at his father's residence. While there he met for the first time, twenty years, all his brothers and their families. It did the Elder as much good to get home as it he were a gay lad improving a college vacation. By the report he gives they had a gay time, playing croquet, etc., and, before they separated they had their pictures taken in a group. We would like to speak more at length of this visit but cannot at present. We are glad the Elder enjoyed himself and hope that he may live to see many more such occasions.

A CARD.

EDITOR OF ENTERPRISE:—Carlyle says that "reality is the only remedy for nature minds," and as we look about us and witness the strange tragedies every day enacted in the busy world, we are inclined to accept the proposition. Even this little world within a world at college has a chequered experience, as well as the great world outside of which it is an epitome

Something more than a week ago six men, equally divided between the two lower classes, were suspended for that time sanctioned offence known as hazing. The affair created quite a breeze in college politics, and indignation meetings were frequent and enthusiastic. The names of more than a hundr d students, from the sophomore and freshman classes were signed to a petition to the Faculty. In this petition they stated that they had been as much implicated in hazing as their classmates who were under disciline, and requested that the latter might be restored, or that they might be allowed to suffer the same punishment. A few days after suspending the men, the Faculty reconsidered the matter, and had their names removed from the petition, but the majority were loyal to the end. The regents of the university were consulted, and at a meeting of the Faculty on Monday evening, eight-one students, whose names still remained on the paper, had one alternative of their petition granted, and were suspended for the remainder of the college year.

The action of the Faculty seems some what severe, especially when it is known that the freshman class, at least, has never been officially notified that hazing is contrary to the rules and regulations of the University. Futhermore, the custom, although perhaps a foolish one, has the sanction of immemorial usage, and is to be ranked among the generous rivalries which every college-bred man remembers with a smile, as one does the semi-ridiculous mishaps and vexations of a pleasant journey.

The present year has been, up to this time, remarkably quiet and prosperous. The Stewart of the University in his official capacity announced to the Board of Visitors, that the amount of property destroyed by the students during the past year would not amount to the sum of three dollars! Does this show malice? The u fortunates have the entire sympathy of the upper classes, and largely that of the community.

The efforts of the advocates of temperance at Ann Arbor have met with at least a temporary success. On Monday April 4th, every saloon in the town was closed, and many of the liquor sellers have advertised their places of business for sale or rent. J. B. M.

FACTS AND FIGURES.

For the purpose of establishing some facts in connection with the efforts now being made in this village and vicinity in the cause of temperance, and for the benefit of all persons who may have been led to suppose that the "Drug Store" sold more liquor than any saloon in town, and for the special benefit of those parties who on this, as on all other occasions when any special effort was made in the interest of temperance skulk behind the "drug store and say they sell more whiskey than we do! shut them up! pray for them." Now to throw a little light upon this subject, we have made a statement of facts and figures, based upon absolute proof which cannot be denied, and will be entitled schedule A

There has been shipped to and delivered at this village, from May 1st. 1873 to May 1st. 1874, to actual dealers by the different transportation lines leading here the enormous amount of

160 barrels of Beer.	
18 barrels of Wine.	
1 barrel of Alcohol.	
1 barrel of Whiskey.	
14 kegs of Brandy, containing 10 gallons each.	

A total of 18046 gallons, or 151568 pounds of liquor, or about 821 tons, not including packages which if included would make a total freighttage of about 1124 tons, or 11 full car loads, or about 40 gallons for every man, woman and child living within the corporate limits of this village.

In this fearful exhibit we have contributed as follows: Within the dates mentioned above we have purchased and received two barrels of whiskey, one keg port wine, one keg catawby brandy. We have on hand of the above purchase a trifle over one half, by actual inventory. The balance has been used in our own manufactory and sold for medicinal chemical, manufacturing and other purposes, such as the law contemplates in the sale of liquor.

This statement does not include the products of a large Brewery in this village, or what may have been shipped to this place for private purpose, which statement will be reserved and entitled schedule B. should the cause of justice, truth and temperance require it.

MERIT REWARDED.

From the Romeo Observer.

The Grove Mills, are now repaired, and in fine running condition, with an American Turbine water wheel from the factory of Reid, Murdock & Co., Dayton, Ohio. Thomas Baylis, of Tecumseh, the State agent for the Company, over-seeing the mill-wright work, putting there new machinery in operation where, on the present one. We are confident our company is largely interested with the present wheel, being a very much greater amount of work with the same water, and space of time, than any other wheel. I know of no wheel in use of the amount of power claimed for these Turbine wheels, but as I was shipped to put in a new wheel, and having looked the matter over pretty thoroughly in regard to the merits of the different turbine wheels, the steam Mills Temple wheel, seemed to me to be preferable, and through their agent I met Gen. my partner from Ohio, such wheel, and I can say with candor the wheel performs very satisfactory, and if I had forty mills to build, would not think of putting in any wheel other than the Temple. I found Mr. Baylis the agent of the Company, a man of ability and integrity, with his apparent desire to deserve. Jas. KEASEY Proprietor.

Our penal laws are so deficient if they provide no remedy for an attempted murder by poison, against the bend in human form, which has given unity to his kind by scratching the latter of a tomato bottle, having it to read, in its mutilated form thus:—"Man eats Catsup."

A correspondent, writing from Cape Coast Castle on the 20th of February, says: "I suppose you heard that the Ashantees could not actually stand our telegraph, and so they, in imitation, contained a little of Sidney Smith's, and sent a telegram from one tree to tree all along the road, passing it here and there through rags of white cotton.

A prominent bind man, who does a smashing business in Chicago by begging on the street corners, was observed, a few evenings ago, examining his special company by the light of a street lamp, to see if it was all right. It is supposed that this particular blind man is one of the best judges of counterfeit money in the city.

He was a quaint old fisherman, he said, as he slung toward dusk, he was fishing in a little stream, when a big swung his fly over the water it was suddenly swallowed by a large bat. The strange-looking thing darted off, flapped its wings at the end of the line, and then rose from the water, called out "Say, Sam, got anything?" "No, sir." "Well, I'm hooked on the hook." "What do you do?" "I dunno, unless it's a *chiroptera*?"

"How much better it would have been to have shaken hands and bolted it was all a mistake," said a lovelorn judge. "Then the lion and the lamb would have lain down together, and white-robed peace would have fanned the weary wings and elevated you with her smiles of approbation. But no, you went clawing and rolling in the mud, and here you are in five dollars apiece."

At a meeting in the northern part of Maine the pastor remarked that if any present had received a blessing in distant lands, prayer would be offered in their behalf. There rose up a simple-looking individual, and said, "I would like you to pray for my brother. He went away two weeks ago, and I haven't heard from him since. I don't know just where he is but you needn't pray below Bangor.

Power of Prejudice.

A gentleman was one day stoutly asserting that there were no gold fields except in Mexico and Peru. A nugget, dug up in California, was presented to him as evidence against his positive assertion. He was not in the least disconcerted by the argument. "Why I owe, is extremely like gold; and, if you tell me, that it passes as such in the market, having every property of the assayers to be indistinguishable from the precious metal. All this I will not dispute. Nevertheless, the metal is not gold, but *aurum mosaicum*; it cannot be gold, because it is found only from Mexico and Peru." In an age, the tolerably well-informed mechanic of a thousand kinds—the age of industry, and the main causes of the superiority of modern over ancient civilization. It was the age of commerce, of the soldier, the priest, the statesman, the philosopher, the scientist, the artist, and the mechanic—the age of iron and the foundation, but also most of the superstructure, of our culture."

Queer Proof.

Some time ago, bein' in company with a medical man, whom I will call Mr. B., we fell into conversation on one of the microscopes in the management of which he was an adept.

"Now," said he, "I will tell you a story of what happened to myself—one of which, I think, will illustrate the importance of this instrument to society, though I was put in a very unpleasant position, owing to my acquaintance with it.

"I have, as you know, given a good deal of attention to comparative anatomy, especially to the structure of the hair as it appears under the microscope. To the unaided eye, indeed, all hair appears very much alike, except that it is long or short, dark or fair, straight or curly, fine or coarse. Under the microscope, however, the differences of the hair's transverse section, the negroe's oval, the mouse's apparently jointed, the bat's jagged, and so on. Indeed, every animal has hair of a peculiar character, and what is more, this character varies according to the part of the body from which it is taken—an important circumstance, as will appear from my story, which is thus:

"I received a letter by post, containing a few hairs, and the request that I would examine them, and adding that they would be called for in a few days. Accordingly, I submitted the hairs to the microscope, when I discovered that they were from the human eyebrow, and had been pulled, I made a note to this effect, and folded it up in an envelope, ready for the person who sent them. In a few days a stranger called upon me, and I gave him the
