AUDIO-VISUAL TECHNIQUES FOR RURAL DEVELOPMENT:  
A WORKING BIBLIOGRAPHY\*

by

David Van Dyk\*\*

Working Paper: Special Number

August 1980

\*Prepared under Grant Agreement (AID/afr-G-1261) between Michigan State University and the U.S. Agency for International Development

\*\*Audio-Visual Specialist working with the Eastern Regional Development Organization (ORD) in Fada N'Gourma, Upper Volta, Michigan State University Integrated Rural Development Contract (AID/afr-C-1314) with the U.S. Agency for International Development.

## FOREWORD

The African Rural Economy Program was established in 1976 as an activity of Michigan State University's Department of Agricultural Economics. The African Rural Economy Program is a successor to the African Rural Employment Research Network which functioned over the 1971-1976 period.

The primary mission of the African Rural Economy Program is to further comparative analysis of the development process in Africa with emphasis on both micro and macro level research on the rural economy. The research program is carried out by faculty and students in the Department of Agricultural Economics in cooperation with researchers in African universities and government agencies. Specific examples of ongoing research are, "Poor Rural Households, Income Distribution and Technical Change in Sierra Leone and Nigeria," "Rural and Urban Small-Scale Industry in West Africa," "Dynamics of Female Participation in the Economic Development Process in West Africa," and "The Economics of Small Farmer Production and Marketing Systems in the Sahelian Zone of West Africa".

Carl K. Eicher  
Professor of Agricultural Economics  
Michigan State University
