

SPICY leaves of TURKISH tobacco are strung to dry and cure in the sun.

Well, that's something about cigarettes
I never knew before

-the cigarette that's Milder
-the cigarette that Tastes Better

I'd never thought much about what's inside a Chesterfield cigarette. But I have just been reading something that made me think about it.

Just think of this, some of the tobacco in Chesterfield—the Turkish—comes from 4000 miles away! And before it is shipped every single leaf is packed by hand. All because Turkish tobacco is so small and delicate.

Of course I don't know much about making cigarettes, but I do know this—that Chesterfields are milder and have a very pleasing aroma and taste. They satisfy—and that's what counts with me!

NOTED SPEAKER WILL ADDRESS STUDENT CONVO

Religious Conference Has
"Honor in College and in
Life" for Theme.

DATES ARE MARCH 10-11

VanDusen Chosen to Give
Principle Talks of Two-Day
Gathering.

With the announcement of Dr. Henry VanDusen as the principle speaker, plans for the State Student Conference on Religion are rapidly nearing completion. The session will get under way here March 10 and will end the following noon.

The conference is being sponsored here by representatives from practically all the major campus organizations. A committee headed by Gordon Fischer is in charge.

The theme of the session will be "Honor in College and in Life," and any student interested in the subject is invited to attend. No registration fee will be charged and the only expense will be for lunch and dinner Saturday.

Dr. VanDusen will give three addresses during the meeting. The first on "Orientation Religion in the Life of Today," the second on "Fighting a Reasonable Religious Faith" and the last one on "Achieving Religious Maturity." Dr. VanDusen is well qualified to speak before a group of this kind. Following a brilliant career as a student at Princeton and at Edinburgh, Scotland, he engaged in college and conference addresses on the moral and religious problems of students. In the autumn of 1927 he became acting executive secretary of the student division of the N. M. C. A. during the first difficult year of its reorganization and encouragement. Since 1929 Mr. VanDusen has been giving full time to his duties as assistant professor in systematic theology at Union Theological Seminary, New York City.

In addition to these activities, Dr. VanDusen has written several articles for publication in addition to a book which is now entering its second edition.

Initial plans for this conference were drawn up by a meeting of the student leaders held February 12. With the securing of such a well qualified speaker and the inspiring one of such an interesting program, it is believed that this will prove to be one of the most valuable and interesting gatherings of the kind ever to be held here.

It is expected that students and religious leaders from all over the state will be present to take part in the discussion of the problems of honor in classes, examinations, student affairs and everyday life.

Mrs. Niles Talks
at Last Meeting
of Relations Club

Mrs. D. D. Niles spoke before the International Relations Club Tuesday evening at the regular bi-weekly meeting. Following the official reading of the minutes, Mrs. Niles presented a paper on "The Far Eastern Situation." Mrs. Niles spent five years in China teaching school and after a ten year absence returned to China two years ago to compare the conditions existing with the present situation.

Following the talk members of the club asked questions concerning recent developments in the Far East. Mrs. Niles was able to account for many of the more recent developments.

The next meeting of the club will be held March 6 in room 101 off the Library Arts building.

Dean E. E. Bessey Relates Experiences of Varied Life

By JIM QUELLO

It is experience is the best teacher. It is no wonder that Dr. Ernest Bessey, head of the college botany department and dean of the graduate school, is so well grounded in the fundamentals of botany that he has completed writing the manuscript for a text-book on the subject to be published soon.

The botanical experiences and works of Dean Bessey, who is considered one of the foremost agricultural botanists in the country, started in his home environment and have carried him through many countries of the world, doing special research work for the United States bureau of agriculture, Russia, Canada, Turkey, Germany, France, Egypt, Switzerland, Belgium, France, and Italy are among the countries in which he has experimented with the science of plants.

During his life, Dean Bessey's knowledge was gained from his study as a student from his parents. His great grandfather was a school-teacher and surveyor in Ohio and Pennsylvania. His grandfather was a graduate of New Jersey college and could read French, Latin, German, and Hebrew and three or four of our modern students could read the same languages. His grandfather was a botanist and his father was a professor of botany at Iowa State college from 1876 to 1884. He then accepted a position as head of the botany department of the University of Nebraska, where he came to be recognized as one of the leading botanists of the country publishing various text-books. The seventh edition of "Essentials of College Botany" was written jointly by Dean Bessey and his father and published in 1914, one year before the latter's death.

In keeping with family tradition, Dean Bessey's father saw to it that his son's education was not neglected. Ernest entered the University of Nebraska where he registered in the classical course, majoring in Greek and Latin and receiving his A. B. degree in 1896. In 1897 he was graduated from the general scientific course, majoring in botany with a B. S. degree. He received his master's degree in 1900 from the University of Nebraska also.

Upon completing his education at Nebraska, Dean Bessey started an interesting and varied career carrying on explorations and research work in different sections of the world.

Collecting plants in Montana and Yellowstone National park for the famous New York Botanical gardens was his first occupation and a year later he collected some plants in the mountains of Colorado for the University of Nebraska. In March 1899 he entered the service of the United States department of agriculture at Washington, as a consultant in plant pathology and two years later he was made acting head of the office of seed and plant introduction.

He was sent to Russia, Canada and Russian Turkey in July 1902 as agricultural explorer for the department of agriculture to select desirable kinds of grains and alfalfa for introduction into the United States.

His most interesting, although perhaps most uncomfortable, visit was in Turkey, where he lived with an exiled Afghan prince. An elaborate system of translation had to be devised so that Dean Bessey could communicate with the prince, who spoke only the Afghan language. One of the prince's servants would translate the Afghan into Russian, a Russian living in Bokhara translated it into Russian, and Dean Bessey's interpreter translated the Russian into English. The prince asked Mr. Bessey what country he was from and when Mr. Bessey told him America, the prince was much interested and asked if Columbia was still the prince of America. At that time most of the people of Turkey never heard of America and in many instances Mr. Bessey was the first American to appear in Turkish towns.

To one not used to the hot climate, Turkey was indeed an uncomfortable country. There had been no rain for five months and the country was dry and dusty. Mr. Bessey and his companions were allowed two quarts of water each day during their stay there.

Drinking so they didn't have any other.

Dr. Bessey's experiences in Turkey were indeed an interesting and varied life.

Dr. Bessey's experiences in Turkey were indeed an interesting and varied life.

LIBRARY HANGS TWO PICTURES

New Portrait Gallery Established in Basement Hallway.

Daniel Webster and Henry Wade, two Longfellow are the first two American whose pictures have been hung in the new portrait gallery established by the library in the basement hallway. Attached to the picture frames are typed thumb-nail descriptions of the subject of each portrait, taken from writers who tried to use the modern method of biography. It is hoped that the descriptions will contrast some of the multitudinous opinions of an earlier day.

It is expected that portraits of Lincoln and Roosevelt will be added to the gallery shortly. A selection from the Lincoln Life by Edgar Lee Masters will be used to provide a brief literary sketch of Lincoln. The portrait of Lincoln will be a copy of the one in the Lincoln Life by Edgar Lee Masters. The portrait of Roosevelt will be a copy of the one in the Roosevelt Life by Edgar Lee Masters. SEWAGE COURSE GIVEN IN MARCH

Civil Engineering Department to Open Short Class for Operators.

On March 20 and 21 a short course will be given by the Civil Engineering Department to the Michigan Sewage Works Operators Association. The course will be held in the laboratory of the department. The instructors will be Professors Thorne and Elsdredge and Dr. Madigan.

This two-day course is being held just prior to the annual convention of the association which will be held in Lansing, Mich., on March 22 and 23. This is the third time such a course has been offered and it will be more extensive this year than ever before, due to the completion of the new sanitary engineering laboratory, which has much better equipment than was previously owned by the department. An attendance of about 40 is expected.

Fix Courses for Home Economics Summer Session

Schedule Posted to Aid Students in Classifying Next Week.

The following courses will be offered by the home economics department during the 1938 summer session: H. E. 101, Domestic Science; H. E. 102, Home Management; H. E. 103, Home Economics; H. E. 104, Home Economics; H. E. 105, Home Economics; H. E. 106, Home Economics; H. E. 107, Home Economics; H. E. 108, Home Economics; H. E. 109, Home Economics; H. E. 110, Home Economics; H. E. 111, Home Economics; H. E. 112, Home Economics; H. E. 113, Home Economics; H. E. 114, Home Economics; H. E. 115, Home Economics; H. E. 116, Home Economics; H. E. 117, Home Economics; H. E. 118, Home Economics; H. E. 119, Home Economics; H. E. 120, Home Economics; H. E. 121, Home Economics; H. E. 122, Home Economics; H. E. 123, Home Economics; H. E. 124, Home Economics; H. BASKETEERS TO COMPLETE SEASON IN CONTESTS WITH RAMBLERS AND MARQUETTE

Starting Line-Up for Week-End Games is Uncertain; Van Alstyne Tries Light Workouts in Effort to Revive Spartan Cagemen From Recent Slump.

By TOM OTTEY

The Michigan State basketball forces wind up the season on the road this week-end against two formidable foes, meeting Notre Dame and Marquette on Friday and Saturday night, respectively.

The Spartan cagers will be out to avenge reverses suffered at the hands of the Ramblers and Hilltoppers in early season games. A victory over either opponent would add lustre to the season's record, and atone for the 27-16 Detroit defeat handed the Spartans by the Titans Saturday night.

Coach Ben VanAlstyne, however, is not optimistic over chances of victory either night as his team has slumped badly in recent games. Moreover, Marquette and Notre Dame have been setting a merry pace in the league, capturing the Indiana University of Chicago five, 44, in a few days ago.

Light Workouts Held. In hopes of shaking his men out of their lethargy, VanAlstyne prescribed a two day layoff, Monday and Tuesday, and Wednesday saw only a light workout. The Spartan men have had too much backache.

VanAlstyne is undecided as to his starting lineup. He will probably start Kirchner and Platten at the guards, McCaslin at one forward and the other position are still uncertain.

The Spartans caught Notre Dame on a "hot" night in the first meet, losing between the two schools, falling before the sharpshooters from South Bend have 36-18. The VanAlstyne cagers came back and waged a bitter battle with powerful Marquette, five being in the last minute of play 32-28.

The State cagers gave a brilliant exhibition in boxing to University of Detroit, 27-16, in Naval Armory at Detroit, Saturday, the first basketball setback received at the

THIS and THAT

BY THE SPORTS EDITOR

If John Kobs doesn't turn out a good basketball player for the Spartans this year, it won't be because he didn't get his men started early enough. The big interest of Demonstration Hall has been turned into a regular basketball training camp these days and most regulations for the team are exacting around in daily workouts. Incidentally, Kobs has the start on the major league since they won't be starting their spring warmups for a week or two yet.

A big net has been strung up in one end of the hall where the batters can check up their eye for the "old apple" without knocking out any glass windows, while at the other end Kobs takes his in-door practice. Though winter still reigns outside, the crack of the bat against the horseshoe and the cautious yell of "Whip it home" have made spring seem a lot nearer.

COURT STARS. It remained for the Demonstration Hall to do the unexpected. In their home game, the court of turning out a perfect game of basketball.

Personal fouls: 2 4 4
Substitutions: 1 0 2
Acheson, Jr. 1 0 2
B. Evers, Jr. 1 0 2
Totals: 10 2 27

Dicker, Jr. 0 0 0
Kirchner, Jr. 0 1 1
Platten, Jr. 0 0 0
Substitutions: 1 0 2
Pitchett, Jr. 1 0 2
VanAlstyne, Jr. 1 0 0
Totals: 6 1 16
Personal fouls: Detroit, Reister, Jr. 2, Chubb, Jr. 2, Hayes, Jr. 2, Michigan, Platten, Jr. 2, Dicker, Jr. 2, Kirchner, Jr. 2, Pitchett, Jr. 2, VanAlstyne, Jr. 2, Vanderhoest, Jr. 2, Official: Referee, John Schomberg (Chicago), Umpire, Jack Trivette (Ann Arbor Tech).

RELAY AWARDS. Ralph H. Young, director of athletics, has put upon a new scheme for awarding relay prizes in these days of depression. In former times, the plaques given to the winning relay teams have set back the athletic department close to \$10. The new plan is to give the first place team a neat green and white haton, which is just as symbolic of supremacy and a whole lot cheaper. The latter carries the inscription of the winning team and the time and place of the event. They will be presented to the relay winners in the coming indoor carnival to be held here next Saturday.

Eddie Riordan, one of Ben VanAlstyne's guards, is the latest cage star to blaze into prominence. In late games he has fit into the Spartan combination in sensational form, leading the scoring last Saturday against the Titans, and generally displaying brilliant play. His favorite shot is one from mid court which rarely misses, putting the meshes, throwing the opponent's defense into a panic. Keep him on your list as a coming Spartan star.

Woods, which the farmers attempted to identify during Farmers' Week, are now on display in Michigan State University building. All those who entered the contest have been invited to come in and talk over the exhibit.

KOBS DRILLS VARSITY NINE

Team Rounding Into Shape in Preparation for Annual Southern Trip.

With the regular schedule rapidly filling out and the annual tour into Dixie scarcely a month away, Coach John Kobs' varsity baseballers are rounding up their practice to major league pace. Infield drills, made possible by the removal of the basketball floor last week, occupied much of the Demonstration Hall arena, with battery practice being held nearby a net.

Two different southern routes are open to the Spartan nine, one through North Carolina, and the other through Mississippi. On the Carolina itinerary are games with Duke University, University of North Carolina, North Carolina State and Wake Forest. Should Kobs take the team into Mississippi, the University of Mississippi, Mississippi A and M, and possibly a Tennessee team will be opponent. Definite decision on these time will be made in the near future and the team will start the southern invasion on or about March 27.

Later in the spring the Spartans return to their home stand for games with numerous Big Ten clubs as well as other minor schools. Michigan and Notre Dame are already booked for games here.

Prospects for a good hitting squad are in view. Captain Powers leads the array of slingers with a .349 batting average made during the 1932 season. The pitching staff, which is not rated as high as the men at the plate, will be bolstered by Pemberton and McCaslin, both veterans. Ed Redmond, whose arm kept him out of the lineup last year, has shown signs of a comeback.

Messrs. Goddard, Lyons, Byr and Smith of the Detroit branch of the American Society of Mechanical Engineers were guests at a dinner given on the Union porch last Tuesday evening by the college branch of the society. About thirty students and faculty members were present.

State Man Loses Golden Gloves Tourney

Ray Aldrich, State wrestler and boxer, was defeated last Saturday at Detroit in one of the semi-final matches in the Golden Gloves boxing tourney by Al Nettles of Chisholm, A. C. The referee awarded a technical knockout to Nettles after he had felled Aldrich twice in the second round, once for a count of five. The State man boxed his opponent evenly in the opening round and was unhurt at the end.

Aldrich is also a member of the Spartan wrestling squad, holding his position in the 118 lb. class. He has appeared in several matches for the State team.

THE HUMAN CRICKET

BEATS OLYMPIC RECORD!

ILLUSION:
Josie, the lovely trapeze artist, stands upon a small platform. At the will of the magician she leaps twenty feet into the air to reach her trapeze. She uses no ropes, no ladders! A phenomenal leap for a woman... or a man!

EXPLANATION:
Josie didn't jump... she was sprung! The twenty-foot leap is not dependent on Josie's ability, but on a powerful spring mechanism hidden beneath the stage which propels the artist upward through the air. The force is so violent that the lady wears a light steel jacket which protects her from injury as she starts her astonishing leap.

It's FUN TO BE FOOLED

...IT'S MORE FUN TO KNOW

Magic has its place... but not in cigarette advertising.

Consider the illusion that there is a mysterious way to give cigarettes a superior "flavor."

EXPLANATION: Cigarette flavor can be controlled by adding artificial flavorings. By blending. And by the quality of tobaccos used.

Cheap, raw tobaccos can be "built up" or "fortified" by the lavish use of artificial flavorings.

Such magic, however, seldom holds the audience. Your taste finally tells you the truth.

The cigarette flavor that never stales, never varies, never loses its fresh appeal, comes from mild, ripe, fragrant, more expensive tobaccos... blended to bring out the full, round flavor of each type of leaf. It's the quality of the tobacco that counts!

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Because Camels actually pays millions more every year for choice tobaccos, you find in Camels an appealing mildness, a better flavor.

And Camels taste cooler because the welded Humidor Pack of three-ply, MOISTURE-PROOF cellophane keeps them fresh.

NO TRICKS

..JUST COSTLIER TOBACCOS

IN A MATCHLESS BLEND
