

## SOCIETIES JOIN TO PROTEST APPROPRIATION CUT

### SPRING TERM ENROLLMENT SHOWS SLIGHT DECREASE; 2650 REGISTERED TO DATE

Figures Released So Far Show Only a Ten Per Cent Drop in Total Number of Students; Liberal Arts Division is Largest; 600 Students Receive Aid From Loan Committee.

With slightly less than a 10 per cent drop in enrollment, figures released this week showed a much larger registration than officials had hoped for. To date, 2650 students have registered, with several late-comers and stragglers not yet included in the tabulating. Winter term of this year showed an enrollment of 2930, showing a nine and one-half per cent drop; the total number of students for spring term of 1932 was 2913. This year's enrollment shows a nine per cent decrease.

### PROTEST CUT IN APPROPRIATION

Figures given out include only the total enrollment in the school. Later, information will be given out as to the number in the various classes, number of men and women students, registration in the divisions of the school and the like. Definite tabulations will appear in the News as soon as these statistics are available.

As usual, the Liberal Arts division is the largest in the school. It is also the only division in which figures are given out yet. Of the 1010 students in that division last term, only about 875 have registered to date. This number, considerably below the 969 who registered for last spring term is being continually augmented by those who have been delayed in registering, according to a statement from the division.

Prof. L. C. Emmons, of the department of Institutional Administration, stated himself as being very delighted with the results and figures pertaining to registration. He further said that the number enrolled was much higher than he had expected.

Undoubtedly the reason for many of the students returning this term was the fact that a great number of loans were granted by the Student Loan committee. Members of this committee, Prof. L. C. Emmons, Jacob Shepers, H. H. Halladay, and Dean Elisabeth Conrad, met every day last week in an effort to aid any needy students to extend payment of fees, grant loans, and the like.

Because of the late date allowed in the payment of fees, no figures are yet given out as to the number of loans allowed. It is planned next week to have the loans classified as to the number of men, number of borrowers working, number allowed extension of fees, and the number granted loans. The only definite statement available on loans is that, roughly, 600 students received aid through the work of the committee.

Since the latter part of winter term, there has been a general feeling prevailing among the students and others on the campus that there would be a decided decrease in enrollment this term and that a great number of students would not return. With the information given out this week, a very small relative decrease is seen and a general feeling of optimism is noted.

### SENIOR PLAY IS 'LITTLE WOMEN'

Theta Alpha Phi to Sponsor Well Known Dramatic Production.

Theta Alpha Phi, national honorary dramatics fraternity, will sponsor a play this term, according to a statement by Paul Jewell, president of the organization. This group has been organized here for a number of years and each term puts on a group of dramatic productions.

"Little Women," from the story by the same name by Louisa May Alcott, will be presented as the annual senior play this year. The cast is not definitely chosen as yet, but the production will be directed by Prof. E. S. King of the dramatics department, and will be the only major play to be put on this term. The cast will consist of all veteran actors.

The senior play has come to be an annual affair given in the Forest of Arden about the time of Commencement. The play is sponsored by Theta Alpha Phi and is given with the cooperation of the college.

### MILITARY UNITS TO PARADE FOR CO-ED OFFICERS

First R. O. T. C. Review of Season Will Be Held Next Tuesday.

### ANNOUNCE SCHEDULE

Cadet Sponsors Named Last Fall Will Lead Various Military Units.

With the corps sponsors as guests of honor, Michigan State's R. O. T. C. regiment will inaugurate the annual spring parades next Tuesday afternoon, April 18, at 1:00 o'clock, weather permitting. The event will be given on the drill field north of the armory unless the grounds are wet, in which case the parade ground north of the gymnasium will be used.

The formation for this parade and for all others during the term will be as prescribed for a reinforced regiment. On the right will follow with Co's A and C in the first line and Co's B and D in the second line, each company in column of platoons. On the left of the infantry will be the coast artillery battalion with batteries A and C in the front line and batteries B and D in the second line, each battery in column of platoons. On the extreme left will be the cavalry squadron with troops B, C and D dismounted in line from right to left, each troop in column of platoons, and troop A mounted in line. While the troops are marching into line the band will play. The unit will then execute a retreat formation followed by various movements in the manual of arms. As their closing movement, the entire regiment in column of platoons will pass by the reviewing stand where Miss Florence Hess, honorary "colonel" of the entire corps, together with the sponsors for the three corps units and the band, will be seated.

This will include Miss Katherine (Continued on page 5)

### 'RECORD' GIVES LIST OF NAMES

Alumni Magazine Catalogues Students Who Are Sons, Daughters of Grads.

State students to the number of 59 are listed in the catalogue of sons and daughters of State Alumni in attendance here printed in the March-April issue of the alumni Record, which is just off the press.

Five cases are reported in which the grandfathers of present-time students attended M. A. C. and in 14 instances both parents of the student now at State are State alumni. Class dates of parents and grandparents extend from 1862 to 1913.

Since the registration of "second generation" students, the Record calls them, was wholly voluntary, there may be some who neglected to sign up. Even so, the number reported grew so large that Alumni Secretary Glen O. Stewart, editor of the Record, had to abandon his original intention of printing the pictures of all these students.

Listed alphabetically, the alumni-descended students now at M. S. C. are as follows:

- Arthur M. Bach, 35; Fred R. Bach, 33; Elizabeth H. Baker, 33; Philip J. Baker, Jr., 36; Frances A. Belknap, 35; Ralph C. Bird, Jr., 33; Fern L. Blanchard, 34; Carol M. Brody, 33; Clark Brody, Jr., 35; Warner Butterfield, 34; W. B. Campbell, 36; Marjorie Chase, 36; Esther B. Christopher, 34; Margaret Christopher, 35; Donald D. Davis, 34; Frances Davis, 36; Jack Davis, 35; Donald Pisk, 33; Lucille W. Pisk, 34; G. A. Gallup, 34; Dorothy A. Gilbert, 35; Sue Gilman, 34; Ruth E. Gregg, 35; Marian Hedrick, 33; Helen B. Hennickson, 36; Elizabeth Rose Holmes, 35; Winifred E. Hornbeck, 33; Benjamin M. Hornbeck, 35; Elizabeth M. Jerome, 35; Alfred Johnson, 34; Maurine King, 34; W. H. Krehl, 36; Allan Kunze, 34; G. W. McKibbin, 35; James McMillan, 34; Raymond M. McMillan, 34; Jean MacLachlan, 35; Carolyn Murdoch, 33; Richard F. O'Dell, 35; W. Gray Palm, Jr., 35; Ruth Robb, 36; Harvey Roby, 35; Irvyn Roby, 36; Jacqueline Sanborn, 35; Arthur L. Sergeant, 35; Lucy A. Schneider, 36; John E. Smith, 36; Hurren M. Smith, 35; June Betty Smith, 36; Helen Snow, 36; Mary Snow, 34; Carl B. Stringer, 33; Lucille R. Jilinson, 36; W. L. Vendette, 33; Helen Marie Wilson, 36; Robert P. Wilson, 34.

### "ORPHEUS" TO FULFILL RETURN ENGAGEMENT

Management of Student Opera Yields to Demands for Additional Showings.

Fulfilling consistent demands by the Lansing public for a return engagement, the opera "Orpheus," which scored such a tremendous hit in its two initial performances last term, will be repeated at the East Lansing high school auditorium Friday, April 28, at 8:15, and will then be taken to Detroit for a performance there at the Wilson theater the following night, April 29. It was announced by the music department today.

The opera was everywhere acclaimed a success and both those who saw its initial presentation and those who missed the first performance are anxious to witness it.

### REVERSE PLAN FOR BOOK SALE

Union to Sell Books at Prices Named by Students in New System.

Prompted by the demands of many students who did not want their books sold except at their own prices, the Union has reversed its plan for selling books to the book buyer as announced in last week's issue of the State News. Under the new system, as explained by Union Manager Ray H. Rices, only those books which students want offered to the book buyer will be sold.

Students who wish to dispose of their books at the prices the book-buying association fixes are asked to call soon at the Union desk, and have their books earmarked for quick disposal. The date for the coming of the book buyer is not yet set.

Principal reason for the change is that many students, though content to sell at their own figure, would rather keep some books as part of their library even though they would seldom use them, than sell them at the book-buying association prices. Students so pricing their old texts are so numerous that the Union decided it would be both easier and more fair to make the selling of permission to sell an active rather than a passive act.

Between 1929 and 1930 used text books are now on the Union shelves and these are being catalogued according to title, author, and the department in which they are used. As soon as the cataloguing is completed, the lists will be sent to all departments, where the instructors will note whether the text is obsolete, or whether it is still in use. Out of date books can then be cleared from the shelves.

### M. S. C. Alumnus Is Only Delegate For Dry Forces

D. E. Davenport, '84, Chosen as Lone Opponent of Repealists.

Dean Eugene Davenport who was much publicized recently when he was chosen the only dry delegate to Michigan's constitutional convention which ratified the amendment repealing the national prohibition act by a 99 to 1 vote this week, is a unique example of an M. A. C. alumnus who "made good."

After receiving his M. S. degree in 1884 at this college, he became the assistant botanist of the local experiment station and later professor of practical agriculture and superintendent of farms. In 1891 he accepted an invitation to become the president of the College of Agriculture at Sao Paulo, Brazil. He remained there for three years when he was afflicted with a severe case of homesickness. He was offered the deanship of the College of Agriculture at the University of Illinois and immediately took the next boat home.

Active at U. of Illinois 30 years, trained in practical and scientific agriculture, Dean Davenport joined the group of distinguished men who exerted a progressive influence upon the destiny of the institution. He entered upon an ambitious and aggressive program as dean of agriculture and later as director of the agricultural experiment station, reorganizing the work of the college and developing what had been considered one of the weakest departments of the institution to a prominent place in the University. Dean Davenport remained at the University of Illinois for 28 years, receiving his LL.D. degree in 1907 and his D. Sc. degree in 1920.

## Campaign Opens Battle Against House Measure

### JOURNALISTS PLAN BANQUET

Second Annual Publications Dinner is at Hunt's Next Thursday.

The second annual publications banquet will be held Thursday night, April 20, at 6:30 in Hunt's Food Shop, according to plans announced yesterday. Members of the State News, Wolverine, and Agricultural staffs will attend this journalistic affair this year. In the past it has been customary for the State News to give this banquet for its staff members only, but beginning with last year all publications people have been invited.

This meeting will be the occasion for a general discussion of the merits of a plan to replace the local chapter of the Delta Epsilon, a national organization honorary with a press club which would have a wider membership and larger scope of activity. First opinion regarding the feasibility of such a plan was taken at an informal meeting of publications men held last Thursday evening in the Union.

The main speaker for the evening has not been selected as yet but an invitation has been sent to Malcolm W. Binney, editorial director of the Detroit Free Press. It has always been the practice to secure some prominent journalist to address the publications group at their annual dinner.

At this time the State News and Wolverine will make their awards to staff members who have given special service on these publications.

With the addition of the Wolverine and Agricultural staffs, to the group it is expected that from 75 to 100 persons will attend. Reservations should be made this week.

### BLASTERS END SHORT COURSE

Annual Spring Vacation Dynamiting Class Held in Mud.

Working in the middle of a flooded field trying to dynamite was, according to the boys in the spring vacation dynamiting course, not as pleasant as might be expected. In the prerequisite course for juniors and seniors of the agriculture, engineering, and forestry departments, this was precisely what happened at a blasted almost every day during the course. Thirty-eight students took the course this spring, learning the history and chemistry of explosives, why certain ones are used for different jobs, and having actual experience in the use of explosives. Their work dealt mainly with stumps, stumps, and ditches.

The first two days were spent blasting stumps in a field. One day they blew stone with dynamite at Rhoca. Another day they spent shooting ditches near Leslie. For this they set a string of dynamite along the desired course and by setting one stick off the whole row goes off. The course is actually much work as the boys found out who took it. After all the field work a final exam was given.

In the advanced course, which the other prepares for, work was done in quarries, tunneling, making foundations, and highway work. In this latter they put a road through a swamp. "Beside these problems they cracked concrete, shot a big boat channel at Wampers lake, and spent one day at the Sibley quarry near Detroit. Here they did the biggest job of all by shooting 80,000 tons of rock in one shot. Those who took this course are: E. J. Carmody, J. W. Gauthier, B. R. Gibson, W. J. Northington, D. E. Pasco, C. P. Randall, M. Stollcker and H. B. Wildschut.

The following men took the beginning course: J. S. Aldrich, H. A. Balbach, R. W. Becker, J. T. Blakeslee, A. Chronos, W. A. Colby, R. E. Cooper, E. E. Cowles, M. J. Day, R. T. DeLant, R. E. DeWick, D. deZeeuw, G. C. Dowd, R. F. Durfee, E. W. Elder, D. A. Fisk, T. G. Goodhall, F. W. Holbrook, C. W. Heller, H. E. Isley, A. M. Johnson, W. H. Johnson, K. S. Lindeman, W. J. McClure, J. S. McCollough, W. Mollenhauer, J. Murray, Lee Padison, N. L. Peterson, C. N. Rix, L. T. Stachel, H. W. Stickle, L. E. Thompson, B. E. Wellemeyer, F. A. Wheeler, J. J. Zerbe, W. R. O'Brien, P. E. Cartwright.

### House to Consider Bill In Session Monday

Concerted action of every campus organization is now being given the movement started last week by the Student Council to protest passage of House Bill No. 11 (File No. 11) pending before the Michigan legislature, which would reduce the mill tax and cut M. S. C. appropriations by half a million dollars.

### HEADS CHOSEN BY UNION BOARD

Morgan to Be President of Group; McCauley and Lewis Are Vice-Presidents.

Sitting in joint session the night of Tuesday, April 11, the old and the new Union boards chose officers for the coming year. President, Gary S. Morgan, first vice president, William A. Macauley, second vice president, Marion E. Lewis. All three are juniors. Glen O. Stewart continues in the office of secretary. Retiring President Dick McDonald opened the meeting. President-elect Morgan closed it. Services of the members of the old board ended with the Tuesday meeting.

A member of the Union board since his freshman year, Morgan is a veteran worker in Union affairs, and well qualified for the presidency by his three years' service. Macauley is a member of Lambda Chi Alpha fraternity, Blue Key, and the Union committee. He is a native of Traverse City and is enrolled here in the engineering division. He has had experience in all of the various Union board committees.

Macauley is a member of the Trinita fraternity. Miss Lewis is a member of Kappa Alpha Theta. The three standing committees of the Union board, those dealing with activities, student relations, and publicity, have not yet been chosen. It is expected that these committees will be named soon, and that the constitution will be confirmed at the next board meeting a month hence.

"Chairmen of these committees and be larger part of their membership chosen at large from the student body and organized with representatives of the Union board."

It is certain that in the week of May 2 to 13 the Union contest play contest will be staged in the Little Theatre. The Seven Arts club and Theta Alpha Phi, dramatics society, have made known their intention of entering the contest, and it is rumored that one of the societies is contemplating competing. Four is expected until the newly appointed committees have begun functioning.

The board meeting was held in the convenient, newly equipped meeting room in the fourth floor tower room of the Union building. Campus organizations seem to be unacquainted with this room which is fitted up with carpets, fine furniture, wall paneling and is available to them free of charge. Regulations concerning care of the room are now posted on its walls. Club officers must sign up at the Union desk to obtain the key.

In announcing the results of the election yesterday, Ray H. Rices, Union manager, said that no new or unusual ideas or policies for the Union had been proposed as yet. Changes, if any, may scarcely be expected until the newly appointed committees have begun functioning.

A. W. S. Officers to Attend Annual Convention

Dean Elizabeth Conrad, accompanied by Helen Abbott, 34, and Corinne Goulet, 33, president-elect and secretary respectively of A. W. S., will represent Michigan State college at the International Associated Women Students' convention which is to be held April 19-22 at Ithaca, N. Y.

They are to leave here Tuesday evening and will arrive there Wednesday morning and from that time until Saturday their time is taken up with meetings, teas, etc.

Co-eds Learn Home Training

Survey Shows Most Alumnnae Marry; Beauty as Well as Cooking, Sewing Taught.

For some time eugenicists have been worrying and fretting over the fact that college women are so much more likely to enter the state of matrimony than are their less educated and trained sisters, and they quote reasons of status and the ultimate welfare of human society if such trends continue unchecked.

However, if a survey made of the co-eds in the home economics department of Michigan State is at all significant, these girls are going right by the race—and the eugenicists for these reasons show that over a period of ten years, half the girls are married and, what is more, successfully managing their own homes, while of the girls graduate from this division during the period from 1922 to 1932 about two-thirds have entered upon the same worthy career.

Someone once made the statement that the low marriage rate among college women might be accounted for on the grounds that only those who are well-to-do and who have the means to support themselves would be able to afford to marry. This statement is not only untrue, but it is also untrue that the girls who are married are not well-to-do and who have the means to support themselves.

The only girls who are married are those who are well-to-do and who have the means to support themselves. This statement is not only untrue, but it is also untrue that the girls who are married are not well-to-do and who have the means to support themselves.

The only girls who are married are those who are well-to-do and who have the means to support themselves. This statement is not only untrue, but it is also untrue that the girls who are married are not well-to-do and who have the means to support themselves.

PROFS ASSIGN MANY BOOKS

Expect Number of Reserved Library Books to Increase This Term.

Winter term reports from the assigned reading room in the central library reveal that a total of 2464 books and periodicals were reserved by instructors, an expected drop of over 500 from the last term's reservation.

Librarian Jackson E. Tonn, this week predicted that the spring term readings would probably show an increase over the autumn total. He expressed himself as satisfied with the use most faculty members are making of the assigned reading room facilities, regretting, however, that some departments are not adequately represented by one instructor.

Course numbers 122 and 124, taught by 26 instructors were represented in the winter term reservations, making the most books with 247 in two courses. Another professor of the same department reserved with 158 reservations for two courses. A professor on the home economics faculty followed with 111 titles in four courses, and professor with 83 assigned books in six courses, was fourth on the list.

One hundred per cent of the faculty department members reserved titles; 50 per cent of 18 home economics instructors, 43 per cent of 16 instructors in English, and 43 per cent of 16 instructors in the chemistry department. The assigned reading room in each of eleven departments, while seven had no reservations by one member.

The number of the instruction offered by these departments was notified by the library head as the reason for their failure to use assigned readings.

ENGLISH SYSTEM ADOPTED AT YALE

Will Remodel University on Lines of Cambridge and Oxford.

Yale university has definitely announced that it will put its new plan into effect in the fall of 1933.

The proposed plan will organize the institution on lines similar to those that have prevailed at the famous English universities, Cambridge and Oxford, for decades but which are decided innovations for American university life.

The proposed reorganization calls for ten colleges, seven of these are already completed, and will be opened in September, two more are rapidly nearing completion. Sophomores, juniors, and seniors of Yale college, the School of Scientific School, and the School of Engineering will be eligible for membership. There will not be room in the ten colleges to take care of all the students in the college groups, however.

A "master" and a "colleague" will have charge of each college, and a group of "associate fellows" will be associated with them. The master and some of the fellows will live in their respective colleges, other fellows will have studies within the college where they will be accessible to the undergraduate members. A library, dining hall, kitchen, and facilities for exercise in each college will make them practically self-contained.

Several of the names for the new colleges have been selected. They are: Stratford, Colburn, Davenport, Jonathan Edwards, Persson, Saybrook, Trumbull, Berkeley, and Sullivan. College groups over the country will watch the new system with interest, as it may mark the beginning of similar set-ups in other American schools.

# KOBBSMEN OPEN WITH IOWA TODAY

## SPARTANS AND HAWKEYES MEET AGAIN TOMORROW AFTERNOON: WILDCATS PLAY HERE SAT'DAY

Berwyn Pemberton Stated to Hurl in Season's Opener; Pitching Assignment Provides Puzzler for Coach John Kobs in Picking Moundsmen.

ON OLD College Field this afternoon the Spartan baseball team will meet the Hawkeyes of Iowa. The game is the first of a two-game series with the Hawkeyes and starts at 4:10 p. m.

So that the season will be theatrically inaugurated, arrangements have been made for impressive ceremonies before the game. The Michigan State college military band, under the direction of Leonard Falcone, will be on hand to furnish music before and during the tilt. After the brief flag raising rites, President Robert S. Ellis is slated to take to the mound to hurl the first ball of the season to Clark L. Bessie, member of the State Board of Agriculture.

Ellis will remain on the Lansing fair grounds today, and tomorrow is slated to leave for Iowa. The Spartans will leave for Iowa tomorrow morning, and will arrive in Iowa City on Saturday morning.

Berwyn Pemberton, who was named pitcher for the Spartans today, having earned the ranking position in the Spartan mound staff due to his experience and skill shown in the early season, but who will pitch for the Spartans and Saturday in the game against the Hawkeyes, will be the pitcher for the Spartans in the game against the Hawkeyes.

Brother and Lantz are also slated among the pitchers, but both show signs of being out of the game. Lantz has been having trouble with a sore arm, and will probably be unable to start a game for a week or two. Lantz has been having trouble with a sore arm, and will probably be unable to start a game for a week or two.

The Spartans' moundsmen will probably be a problem for the Spartans. Pemberton is the only veteran back, while Bessie has had some trouble with a sore arm, and will probably be unable to start a game for a week or two.

### ALL CLASSES EXCLUDED

All classes are to be excluded from the game. The Spartans will be the only team to play in the game. The Spartans will be the only team to play in the game. The Spartans will be the only team to play in the game.

Announcement has also been made that Wells Hall, the new building, will be the site of the game. The Spartans will be the only team to play in the game. The Spartans will be the only team to play in the game.

## CLASS MATCH IS POSTPONED

Fresh-Soph Track Meet Delayed Until April 20; Cancel Detroit Meet.

The Fresh-Soph track meet scheduled for Saturday has been postponed until April 20, and will take place at the University of Michigan. The Detroit meet has been cancelled.

The Penn Relays at Philadelphia and the Drake Relays at Des Moines, Iowa, on April 28 and 29 will be the next meet to hold the attention of the varsity men.

In the past, State has always divided the squad and sent strong entries to both meets. The same procedure will be followed this year with the main strength going to the Penn relays.

At the present time, it appears as though the Spartans will have strong teams in the 2-mile, 5-mile, 10-mile and distance medley events.

The best chances for a State win appear to be in the 2-mile distance. The veteran combination of Warren, Hovey, Keast and Bon-

grace have evidence of their ability when they set a new record for the distance in the Butler relays at Indianapolis several weeks ago.

The track and field team will be in the best of form to meet the challenge of the Penn relays.

With the addition of Alva Jackson as a hurdle prospect, Coach Young announced the possibility of a shuttle hurdle relay team.

Cap Ed Hall, Rex Steele, Cliff Roberts, Cecil Adler and Alva Jackson are the men Coach Young will pick his team from.

## Coaches Busy Making Talks

Life of College Mentors Is One Round of Banquets, Meetings.

What do the coaches do in their spare time? The answer is that they coach. How then do they spend most of their time? You almost had to know that they eat and make speeches.

The case is not as far-fetched as that sounds, but a glance at the weekly calendar gives some idea of the importance of banquets and speeches in the life of a coach.

April 7, Carl Rotary club entertained the local high school basketball team at a banquet. Main speaker, Ben VanAlstyne.

April 8, Banquet at Sacred Heart High, Mount Pleasant. Speakers, Charles Bachman, Tom King, Mike Casper, Ben VanAlstyne.

April 9, Sunday rest.

April 10, North Lansing Commercial club dinner. Lunch, Charles Young, Tom King, Ralph Young.

April 11, Doubleheader. Annual athletic banquet at Horton Springs, Michigan. For State VanAlstyne, Bachman and King. High street club. Packer-Teacher association meeting. Mike Casper speaks.

April 12, Father and Son banquet with Lansing Elk club. Formaldehyde. Ralph Young, Charles Bachman and Tom King.

PROFS ADDRESS ECON MEN

There will be a joint meeting on Wednesday, April 19, of all members of the economics department, all members of Sigma Epsilon honor society, economics fraternity, and all economics students majoring in economics.

The group meeting on the porch room of the Union will hear addresses by Prof. Z. C. Dickinson and V. Timoshenko, both of the department of economics at the University of Michigan.

## Tom Oltey to Be Operated on Saturday

Thomas Oltey, Michigan State star distance runner, who has been troubled since last fall with a muscular injury, will undergo an operation Saturday at the Edward W. Sparrow hospital in Lansing.

Oltey seemed well on the road to recovery until near the close of the winter term when he suddenly suffered a recurrence of the injury. He was first troubled before entering a race at Ypsilanti last fall.

He will enter the hospital tomorrow and will probably remain in the infirmary for several weeks. Doctors and track coaches have definitely declared that he will be unable to enter varsity competition until next fall.

## WEATHER MAN HOLDS NETMEN

State Netters Are Getting Light Practice at Ranney Courts.

Despite the fickle weather which has hampered work on the clay courts, the varsity tennis squad is getting in an occasional practice on asphalt courts midway between East Lansing and Lansing.

As soon as consistent tennis weather sets in, Coach C. D. Hall will start a tennis tournament in an endeavor to ascertain the relative ability of his material which is the best to appear at Michigan State in a long time.

The Spartan racquet welders will encounter stern opposition in the opening match with Kalamazoo here April 22. Stanley Wertz, State's probable occupant of the No. 1 position, will match strokes with George Lett, nationally known net star, in the second match.

Wertz, who has been playing tennis since the last year, but it is reported that the Kalamazoo flash has lifted his game considerably since then.

There is certain to be a heated battle for the jobs this season with such an abundance of material, all of high caliber. Rex Norris, who won the Lansing city tennis championship from Gerald Rordan after a six year reign is practically assured of the No. 2 berth.

Well-balanced ground strokes backed by the best net game on the squad make him a dangerous opponent.

From here on, however, the royal battle begins. There are Link Loe, George Stoner, George Nordwall, Goodwin, Section C, and Wolfe, all sent on winning a job.

RAIN HOLDS BACK SPARTAN GOLFERS

Golf Men Hope to Get Practice On Links for Michigan Match April 29.

"Rain" was the key word in the vocabularies of Coach Ben VanAlstyne's varsity golfers as they watched and bemoaned recent torments. Not content with keeping Capt. Bill Mitchell and his men off the links, the rain went the limit and even broke up their spurs.

The Spartan golfers plan to get out on the fairways next week, however, in an attempt to put down their scores in preparation for the opening meet with the University of Michigan, Saturday April 29.

This contest will be followed by a busy week-end during which the State squad will put their shots against Detroit University and Notre Dame.

Capt. Mitchell and Bob Mueller lead the list of seven candidates for positions on team. Other prospects are Robert Clark, Edward Rordan, Russell Turrill, Bob Malloy, and Bob Herrick.

## BACHMAN PUTS MEN TO WORK

Seventy-five Candidates Report for First Spring Practices.

Despite many interruptions due to inclement weather and soggy field conditions, more than 75 candidates for Coach Charles Bachman's 1934 grid eleven are going through their daily paces in the actual spring training drills.

Runningmen is held almost every day at the close of the sessions, giving Coach Bachman plenty of opportunity to become acquainted with the men in action. One of the chief worries in the pre-practice days seems to be solved with the finding of many promising men for the back positions. Despite the fact that Ed Klenick, Red Norton and Roger Keast are busy at other sports, End Coach King does not lack material to build upon. About 15 or 20 men are now listed for the wings, among them some outstanding performers.

Lewis Zaza, Gary Indiana, freshman, is looking very good in the drills at end while others who have shown talent and ability are Alvin, a big freshman from Bay City, Michigan, captain of last year's Miesken football team, and Clarence Bos, veteran from last season's team.

In the line, two newcomers, Lentsch, South Bend, Indiana product, and Demarest, a Lansing boy, are showing promise. Several other new men are also being tried to find some of the regular men in the line lineup.

## BATTER UP!

Diamond Personalities

Flood "River" Morse

Flood "River" Morse made his second season with the Spartans in the most dependable catcher ever to stand behind a pitcher's arm. His powerful throwing arm has terrified opposing base runners and on the recent southern trip there were absolutely no stolen bases while "River" was catching.

Morse is a native of Arkansas, only being born and bred in the south hills of that state. Very early in life, in fact when he was just six days old, he took refuge from his father's wrath by hiding in a hole and piddling him down to a couple of years to dry land. This was his first "southern trip." And Flood says he'll never forget it.

Four years of athletics in his home town of Greenwood won him fame and brought offers from several southern schools. These were rejected, however, when an M. S. C.

club will take place Friday night in room 402, Art Hall. A preliminary game practiced and re-freshened.
