## HOUSE TO PASS BILL REDUCING COLLEGE FUNDS

### COLLEGE JOURNALISTS WILL HEAR DETROIT NEWS MAN AT PUBLICATIONS BANQUET

Press Club Planned to Replace Pi Delta Epsilon in Granting of Charter to Newly Organized Group; Staff Members of State News, Wolverine and Agriculturist to Be Present.

The annual publications banquet will be held tonight at the Hunt Food Shop will be the occasion for the disbanding of Pi Delta Epsilon, national journalism honorary, and the formal presentation of the organization to replace it, the Press Club of Michigan State College. In addition the journalists will hear an address by H. C. L. Jackson, columnist and editorial writer for the Detroit News.

### S. W. L. PARTY IS FRIDAY NITE

"Gold Rush of '49" Will Be Sponsored in Union Tomorrow Evening.

Promising to be one of the most clever parties of the spring term, final plans have been made for the "Gold Rush of '49" being sponsored by the Spartan Women's League in the Union ballroom Friday, April 21. Gold is to be the predominant feature of the decorations which carry out the theme of the dance. A large imitation gold coin will form the background for the orchestra platform, from which State News and its popular orchestra will furnish the music for the evening including several feature numbers.

In keeping with the general atmosphere, the tickets for the affair represent gold pieces, the price of which is the significant figure of 49 cents. According to Dorothy Cummings, president of the organization and general chairman of the dance, tickets have been placed on sale at the Union desk as well as in all societies and dormitories. They may also be purchased at the door the night of the party.

The guestmaster for the evening will be Mrs. R. H. Shaw, 360 and Mrs. H. H. Haladay, Dean Elizabeth Conrad, Dean Marie Day, Miss Josephine Garvin, and Miss Ann Kowalski. Dr. and Mrs. Carl Hoppert and Lieut. and Mrs. C. H. Chin will act as patrons for the party.

### NEW HONORARY GETS CHARTER

Members of Mortar and Ball Gain Approval for Local Chapter.

A petition was presented to the Student Council at its meeting Tuesday requesting permission to organize a chapter of Mortar and Ball, a national military fraternity, at this college. The document was presented by some advanced military students who were initiated into the organization during last summer's camp season. The council acted favorably on the petition and plans will go ahead for the formation of the local chapter.

Membership in this society is limited to advanced military students in the artillery division. There are also scholastic and military requirements which must be met in order for a cadet to become eligible. Men taken into the honorary last summer and the officers which they hold are as follows: W. C. Wright, captain, W. Burgess, first lieutenant, F. E. Erickson, second lieutenant, C. Johnson, first sergeant, R. Durfee, D. Jones, H. Brownson, C. Bowser.

### EXTEND PERIOD FOR CHOOSING CARNIVAL IDEA

April 28 New Deadline in Contest; First Prize of \$25 Offered.

### PLAN FOR 35 FLOATS

Will Use Same Towing System and Set-up at Farm Lane as Last Year.

The committee in charge of the Water Carnival announced today that time limit on the themes for floats in the carnival would not be due until April 28th instead of April 21st. This contest, in charge of Dick McDonald, is being conducted in order to obtain a theme for the 1932 Water Carnival which will be held June 9th and 10th. A prize of \$25.00 has been offered for the theme that is picked. Proposed themes may be given to any member of the committee or left at the Union desk.

There are three requirements for the carnival themes: first, they must be original; second, they must be capable of being worked out at a small cost in order to make them possible; and third, they must contain detailed suggestions for at least 15 floats with possibilities of more being added if it becomes necessary to expand in order to take care of more entries. The author of the winning theme will act as an executive member of the carnival committee in an advisory capacity.

These that are at present working on their themes are urged to hurry them along and it is also hoped that many more students will be interested in the contest.

### 'ORPHEUS' CAST AT WORK AGAIN

Rehearses in Preparation for Appearance at Detroit Theater April 29.

With the realization that there is still one thing remaining before the certain success of the opera "Orpheus" on April 29 at the Wilson Theater in Detroit, the music department has begun a period of concentrated rehearsals to refresh the memories of the members of the cast in an attempt to duplicate the previous excellent performance.

Rehearsal chorus and glee club periods are being used for the rehearsal of this classic opera which will fulfill a demanded return engagement at the Eastern high auditorium in Lansing April 26 before departing for Detroit the next day. The general directors of the production are the same. The entire production is under the direction of Lewis Richards, director of the department of music, who is recognized as one of the outstanding authorities on the classics in America. Michael Press, with an international reputation as an opera conductor, has been chosen for the production. The stage direction will be under the direction of Fred Patton, late of the Metropolitan Opera. The chorus is directed by Zimovs Kogan, who is so well known as an opera conductor.

The ballet is under the direction of Miss Ann Kowalski and has been chosen from Orchestral, honorary dancing society for senior and junior girls at the college.

The art direction for this opera will be as in the previous performance by Miss Katherine Winkler of the art department who has a corps of senior art students to carry out scenic arrangements.

Lighting is by C. H. Nickle of the speech department. Mr. Nickle is an expert stagehand in lighting effects and his skill in depicting the flaming underworld produces a striking mood for these scenes.

### Zoology Professor Does Work in Human Heredity

By David Cleary  
Genetics, which is less badly understood than heredity, is the subject that occupies most of the time of Prof. H. R. Hunt of the zoology department. The study, he explained, frequently by telephone calls and visits is of theoretical interest.

First comes the inheritance of mental and physical traits in man, then the effect of heredity on milk and wool production, and finally the lowly, but very interesting, rodent. Of his work in the past he shall read later in the second, he is collaborating with Prof. G. A. Brown, head of the animal husbandry department, in developing a better type of sheep, and in the last, the extensive and valuable rodent colony behind Wells Hall was his creation to him.

### MANY BORROW FROM COLLEGE

23 Per Cent of Student Body Give Aid by Student Loan Committee.

Figures released Wednesday showed that 69 students of the college were given assistance in some form by the Student Loan Committee in order to continue in school this year. This number represents 23 per cent of the total student body.

It is interesting to note that by class the percentages were as follows: Freshmen, 17; sophomores, 25; juniors, 24; seniors, 29; graduates, 10 per cent.

Of these 69 students, 183 of them are working for the college. They are employed by 41 departments as follows: 44 buildings and grounds, 18 athletic, 14 forestry, 22 wells hall and women's building, 31 agriculture and the remainder in the various college departments. In their work 167 students were employed outside of the college, 22 in fraternities and societies, 10 in the Union and the rest at scattered jobs in private houses.

This leaves 39 students who are not working at all. Three hundred twenty of the students had received previous loans which meant that nearly all of the remaining 289 were forced to receive aid because of the bank situation. The men outnumbered the women, 163 to 111.

An interesting fact to be noted is that although the liberal arts division is the largest in the school, it had the smallest percentage of students receiving loans. Veterinaries were the largest borrowers, followed closely by the arts and the engineers. Applied science was next and graduate students borrowed the least.

Members of the Student Loan Committee, who supervised the making of all loans, L. C. Kinnison, professor of institutional management, next, Dean Elizabeth Conrad, H. H. Haladay and Jacob Schepers.

At present all of the back payrolls have been paid up until the first of April, but starting with the April payrolls all will be given half the quoted amount. This ruling not only concerns the college employees, but the state employees as well. This action is taken as an absolute necessity and will be regulated as soon as possible.

All employees will get credit for their pay and as soon as the salary question is settled, they will be paid in full.

### FRATERNITIES ARE INITIATING VERY FEW MEN

"Hell Week" Begins With Less Than Fifty Neophytes in Houses.

### HIKES FRIDAY NIGHT

Informal Ceremonies Must Be Held Not Later Than Sunday Evening.

Effects of the bank holiday and initiation in general were much in evidence with but slightly more than forty pledges taking informal initiation in the various campus fraternities this week. The ceremonies began last night at 8 o'clock, and will continue until Sunday night. These regulations are the same as last term and were again approved by the Interfraternity Council at their meeting two weeks ago.

Since the rules adopted last term have proved somewhat more successful than those of the previous year, they are being followed out in the letter. Fraternities planning to send their men on night hikes must send them Friday night. Societies will also refrain from any practices which will cause undue notice outside of the house.

It was planned to hold the initiation as early as possible in the term so that the attending loss of sleep would interfere as little as possible with the studies of the neophytes. Because of the fact that Easter Sunday was last week, the ceremonies were held over until this week.

### COLLEGE MAY AID U. S. PLAN

Herbert Suggests Use of Forestry Stations to Avoid Shortage and Delay.

To shorten a delay which President Roosevelt's reforestation project will encounter because of a lack of seedlings for planting, Prof. P. A. Herbert of the forestry department has suggested to federal authorities the use of the East Lansing and Dunbar forestry stations of the college for an emergency planting.

According to Professor Herbert's plan, the forestry department could, if given the necessary appropriation, immediately plant at the East Lansing station enough seed to produce approximately 500,000 seedlings, which would be ready for distribution in the fall or of two-year seedlings were desired, a year from this fall. Similarly, between 12 and 50 million young trees could be grown at the upper peninsula Dunbar station at the present time. The Clark McNary bill grants the forestry department \$2,000 annually to be used in growing young stock for the farmers. An additional appropriation of \$50,000 would be necessary for the creation of 60 million trees, expenses being \$18,000 for capital investment, seed frames, water piping, etc., \$12,000 for seeds, and \$20,000 for labor.

Professor Herbert's proposal was recently sent to Christopher Granger, newly-appointed head of the reforestation project, and an M. S. C. alumnus, but no decision has been received as yet.

If the suggested plan is to be adopted, it is imperative that the seed be planted before the end of the month, otherwise sowing would of necessity have to be postponed until next spring, which would delay the national reforestation plans.

In the late stages, for a year, the two college forestry stations are the only ones in Michigan which could be extensively used, as both the state reserve at Rosecommon and the federal location at East Tawas would be handicapped by having to clear land before planting, and the virgin soil thus made available would not be desirable, while the college has plots ready for instant use.

### COMMITTEE OF THE WHOLE APPROVES DRASTIC CUTS IN MILL TAX APPROPRIATIONS

Action Yesterday Results in Only Slight Modification of Original Proposal; Maximum Amount Under Pending Act Would Be \$1,000,000; U. of M. Also Cut.

Acting as a committee of the whole, the House of Representatives yesterday approved amendments to the bill appropriating funds for the operation of Michigan State college. The act as it now reads provides for a property tax of sixteen one-hundredths of a mill to be levied throughout the state and which is not to exceed \$1,000,000. These amendments were recommended by Vern Brown, Mason, and represent the conclusions of the ways and means committee of the House on this matter.

### AG FRATERNITY INITIATES NINE

Informal Initiation Held Tuesday Night; Formal Given Wednesday.

Alpha Zeta, national honorary agricultural fraternity, initiated the following men into their society last night: Lyle Baxton, Baxton, Morgan Carter, Birmingham, Louis Drake, Gaylord, Andrew Cobb, Elsie, Philip Minger, Battle Creek, Lloyd Joley, Breckenridge, Stanley Williams, Battle Creek, Arnold Mick, Flint, and Merle Dean, East Lansing.

Informal initiation was held Tuesday night followed by swingout Wednesday and formal initiation Wednesday night. At the formal banquet, E. T. Mitchell, associate professor of education, spoke on "The Plantation and the Negro Problem." The program was also featured by a matinee solo by Mott Heath. The welcome to the new men was given by Clyde Hankinson, and the response was presented by Louis Drake. More than 35 men, including several faculty members, were present at the program which was given in the faculty clubrooms.

Alpha Zeta is a national society founded at Ohio State university in 1897. The local chapter, named after P. C. Kinnison, former professor at this school, was founded in 1903. There are now 40 chapters throughout the country, of which this was the fifth to be established there being about 60 faculty members on the campus at present.

### PLAY YPSILANTI ON ALUMNI DAY

Plans for Annual Reunion of Graduates Are Now Taking Form.

An extra-schedule varsity baseball game with Ypsilanti Saturday, June 19, will be one of the feature attractions of this year's Alumni day plans for which are rapidly taking form. Among the other features already planned for this annual graduates celebration as announced by Alumni Secretary Glen O. Brewster, are a "banquet supper" at the Union, and an all-college dance in the evening, in the Union ballroom. The speaker of the day has not yet been named.

The varsity game with the Ypsilanti nine, slated for 3 o'clock in the afternoon, is a contest that is not on the regular schedule, but is being specially staged for the entertainment of students and returning graduates.

Particularly to be honored this year are those alumni celebrating the golden anniversary of their graduation. The class of 1883, just 50 years ago, contained 31 members. Of these, 15 are still living. Many of them will be back, and an effort is being made to persuade them all to return.

Other classes for which the June reunion will hold special interest are those of '31, '34, '35, '36, '37, '38, '39, '40, '41, '42, '43, '44, '45, '46, '47, '48, '49, '50, '51, '52, '53, '54, '55, '56, ## The Spartan Merry-Go-Round

## Irony

An interesting item is noted in the day's news. A banquet is being planned for the new postmaster general James A. Farley in Washington. Invitations for the banquet were mailed out this week. The invitations were printed on linen paper and requested \$6 from those who planned to attend the banquet. The invitations were weighed and it was found a three-cent stamp would cover the postage. There was a slip-up, however, for the invitations were weighed on a dry day and the invitations were not mailed until a very rainy day. Linen paper absorbs moisture and the invitations absorbed plenty the day they were mailed. The result was that they were somewhat overweight and postal authorities stamped them "three cents postage due." That is why Washington politicians were invited to the postmaster general's testimonial banquet with invitations on which postage was due. The president also received an invitation but it was not overweight as the card asking for \$6 was not included.

## Only a C

A certain Kappa, red-headed and Irish, made a futile attempt to brown an education professor last term by bringing him a snapshot of his hollyhocks.

## Rent

Something I shall never forget. The pseudo nonchalant countenance of Jerry McGashin after fanning three men in succession in one instance.

## Hot Mr. Pound Beauty

Theta Alpha Phi is suspicious of the forthcoming Union play contest. They contend that they received a raw deal last year as one of the judges was affiliated with one of the organizations participating in the contest. Theta Alpha Phi has done some good work but every time we see one of their plays we are reminded of these words in our youth when the mismatched victim was always trying to do wrong by an little Nell. Invariably they play have lacked the complete naturalness of modern acting and have resembled the productions of feeble-minded actors in which every one thinks he is Napoleon. We want to see Theta Alpha Phi produce plays devoid of the melodramatic inflections and acting of the horse and buggy era.

## Effective

The Student Council requests that students having their parents write requests demanding reconsideration of college appropriations. This was effective. In fact several alumni are of the opinion that it was too effective. Legislators were deluged with communications from the voters to such an extent that it was feared some of them would be annoyed.

## Window Data

Tuesday night Alpha Zeta had internal mischief. Several of the initiates were sent on a particularly interesting mission. One was sent to the woman's building to inspect the place and report the number of lighted rooms, the number of lighted windows and anything else of interest noted. Another initiate was sent to Mary Mayo dormitory to make the same sort of a survey and collect the same data. The hour was 12 o'clock midnight. The emissaries finally returned with the following information: Mary Mayo had had 78 lighted windows and the shades were drawn on all of them. The women's building had a total of 162 lighted windows and only 26 shades were drawn. The obvious moral is: You will only be wasting your time hanging around Mary Mayo hall.

## "Rune"

The Wolverine has a picture of a lot of interest. It is a picture of George "Rune" Thomas that makes a candid look like an Arctic explorer as far as clothes are concerned.

Elowitz signs to play pro football with Spartans next fall. Monnett considering offer from Brooklyn and New York Giants.

E. L. Kiewicki, 78, had the misfortune to break a finger of his throwing hand while behind the bat for the Spartans last Saturday. Dr. Olin says that he will be unable to play for some time.

## OVER THE SCOREBOARD - By Shigley

## Roosevelt Airs Views on Farmer Education

Editorial Note: The following is an expression of recent views given by President Franklin D. Roosevelt on the question of agricultural education and the National Youth Administration, in view of the legislation now at state which would make drastic reductions in these programs.

I believe thoroughly in agricultural education. I regard one of the most important and essential branches of the whole educational effort that is being carried on in the United States. I am a firm believer also in the value of the cooperative research and experimental work and the extension service, which state institutions, in co-operation with the Federal Government, are rendering.

I think it would be nothing short of a disaster if any of this work were seriously curtailed. Particularly in these times when farmers are having such a desperate struggle to maintain themselves, I think it supremely important that they should have the benefit of the expert advice that colleges, experiment stations and extension services are able to give them and it is equally important that we should continue to hold out to their children opportunities for an education that will make them something more than field drudges.

What I have said with respect to the agricultural colleges and their allied services, applies with equal force to the lesser schools of agriculture and to the agricultural education now being carried on with such excellent promise in the rural communities.

I am glad that I have had the opportunity of expressing myself on this subject on which I have very strong convictions.

## MenGrow Fat On Wells/Food

Boarding Club Consumes Enormous Amount of Food Each Week.

Yes, the men seem to be getting fat on it, says it. H. H. Hovel, student-manager of the Wells hall boarding club, in regard to its menu. Nearly all of the other boarders, when asked, have also confirmed this belief. In fact, one has grown two or three inches taller and taken on about 16 pounds within the last three months.

This fact and the permanence of its success. The ability of this student-managed and student-supported organization to serve well-balanced, completely filling and tasty meals at so low a price also suggests that a great deal of credit be given to the students in charge.

A brief survey of the prodigious amount of foodstuffs consumed by these collegians make the fact that many have gained weight seem a little less surprising. For the boys are accustomed to drinking 70 gallons of milk and to eating 30 to 35 pounds of butter, 150 pounds of bread, and 10 bushels of potatoes daily. They also devour 600 pounds of beef, 150 pounds of pork and 110 pounds of bread a week. The coffee supply amounts to about 30 pounds a week. And when soup is served, the cooks have to prepare about 20 gallons of it for a meal.

To finish this astounding tale of how much one gets at the boarding club in return for his two dollars and a half a week, we might add that the members are even supplied with paper napkins, which is estimated, are booked at the rate of 3,500 a week.

Economies From Consolidation of Schools Listed by Thrun.

Prof. Fred M. Thrun, associate professor of economics, has recently completed an investigation of the economies which could be effected by the consolidation and elimination of many of Michigan's rural schools and the complete results of his work have been published in a pamphlet entitled "Rural School Organization in Michigan." His report was submitted to the Michigan Commission of Inquiry into County, Township and School District Government and was part of his services as a member of the advisory staff of the commission. Other members of this staff are Prof. Reed and Bromage of the University of Michigan and Dr. Lent Upson of Detroit. Dr. Upson is director of research, while Prof. Thrun's principal task is the study of the public school organization of the state.

The commission proper was created by the legislature in 1931 and was given two years in which to make its investigation. The group was given an appropriation of \$5,000 but because of the inadequacy of the sum granted for the two year work, they entered into agreements with the Detroit Bureau of Governmental Research, the University of Michigan and Michigan State College, ranging to have each of these institutions undertake a definite part of the research problem.

In conducting his investigations, Prof. Thrun and his aides selected six counties from various districts of Michigan and thoroughly studied the locations, conditions and efficiency of the rural school system of each county, then by a series of maps demonstrated clearly how certain schools could be closed and others consolidated, thus effecting great savings to the taxpayers of Michigan. For example, through Prof. Thrun's study, it was found that 24 schools in Ingham county alone could be closed without in any way impairing the efficiency of the educational system. Like savings were pointed out in the other counties studied.

Professor Thrun, whose report created considerable comment both in Detroit newspapers and in editions throughout the state is at present working on another pamphlet, soon to be published. This will concern the office of the superintendent of public instruction and will deal with the powers and duties of this office and the policies practiced in the administration of these functions.

## CANCEL SUMMER VACATION PLANS

Threat of Pay Cut Halts Study Abroad by Language Teachers.

Threatening salary cuts and postponement of fifty per cent of faculty salary payments have caused the cancellation of plans by many faculty members in the department of foreign languages to go abroad this summer or to take summer vacation work at other schools. But two of the instructors will be studying in summer schools. G. P. Steinmetz at the famous Middlebury college, Vermont, summer language sessions, and O. W. Wilson at the University of Chicago.

It is planned to eliminate the course in phonetics next year and include it with the third year courses in French and Spanish conversation. At present, O. J. Swain is conducting the spring term class in Spanish conversation and phonetics. Mrs. Philip taught it using French conversation last term. The general phonetics section was instructed by Mr. Swain during the fall term. Arms of the course as stated by Professor L. C. Hughes were chiefly to facilitate students in practice teaching.

When the Michigan S-schools club meets in Ann Arbor April 27-29, the chemistry department will be with the others in attendance. Prof. Clark, head of the department, is also chairman of the chemistry, physics and astronomy section of the club.

## MODERN TREND TAUGHT IN ART

College Department Advances Modern Theories: Experiment in Grade Schools.

According to the opinions of the various members of the art department, Michigan State College believes in a thoroughly progressive and entirely modern theory of art education.

The recently expressed ideas show that we are losing the idea that art is for a few "big" artists, that it is not for the masses but for only the creative genius. People seem to realize that art can be a practical thing, important and useful in the lives of all, the art department thinks.

The art department has the firm conviction that the modern art education should attempt to improve the physical environment in a practical way. To admire and study the masters and masterpieces is important, they hold, but to express one's own self in terms of one's experiences is far more worthwhile.

The art department has expressed that present teaching methods should stress, showing the individual freedom in his own artistic creations. Adults should not impose their ideas, and should instruct only in the technical use of the mediums.

The art department is now experimenting with this new theory. Miss Joyce Brown, a junior at M. S. C., is conducting the art classes of the fourth, fifth and sixth grades, using the new methods of instruction as far as possible. As the community is of a transient type of people, the faculty class the children have a wide choice of experiences from which to draw for their creations. They are encouraged to work exactly as they wish.

These classes are characterized by a spirit and an enthusiasm unknown in previous days when the group as a whole was required to do the same thing in precisely the same way. The sense of comparison is not lost, but it does this, the repeated, the repeated, but less realistically, and truthfully it conveys the student's impression of his subject.

The art department believes that by this method the children feel that as they work freely their drawings, clay models and paintings are worth something. Consequently they are able to see things about them from a new angle. In this way truth becomes art.

## Many Apply Here For Jobs With Federal Plan

Because C. M. Granger, 97, recently appointed head of the Roosevelt reforestation program, was widely advertised throughout the state as an M. S. C. alumnus, many a job-seeker got the idea that Mr. Granger was still connected with the school.

More than 400 letters of application have been received here, addressed to Mr. Granger, in care of Michigan State college. All of these have been turned over to Prof. P. A. Herbert of the forestry department, who is forwarding them to Mr. Granger's office in Washington.

The national reforestation program strikes a cheerful note here as the forestry department announces its hundred per cent placement of its 1933 graduating class. Positions are also being secured for those members of the 1932 class not already employed.

Improve Your Batting Here are seven facts to remember when standing at the plate waiting for the pitcher to toss the ball.

First—Don't stand with your feet wide apart. Keep them comfortably together.

Second—Don't stand way back or forward in the batter's box.

Third—Don't stand back from the plate so far that you have to "reach" the ball.

Fourth—Learn to be shift on your feet. Don't run up and down the batter's box, but be able to shift your weight from one foot to the other.

Fifth—Don't crouch. You bind yourself in a knot where free smooth action is necessary.

Sixth—Don't turn your back to the pitcher so much so that you have to look over your shoulder to see him.

Seventh—Don't "dig in."

In the Library often better reading for an eye is to be found in the random and left-hand of library than their more formal work. Collections of undeveloped ideas, comments, etc., are interesting because they show you can see the author's thought about himself in his own or to his.

The Notebook of Arthur Schopenhauer, a short, rudimentary, scattered ideas, part of a diary, records conversations etc., may seem to whet your appetite, at least for a time.

## S. W. L.'s Spring Term Party With Gold Rush Motif Will Hold Center of the Social Stage This Week

Nate Fry's Orchestra Plays Tomorrow Night in Union; Beta Gamma to Give Semi-formal Dance; Five Fraternity Open Houses Round Out Social Program.

The unique Spartan Woman's League spring term party holds the main position on the social stage this week-end with five fraternity open houses and a sorority spring term party as an interesting background. The Spartan Women's League party, "The Gold Rush of '49," promises to be one of the most unusual parties of the term. The "forty-niners" idea will be carried out in the decorations and also the tickets will sell for 49 cents. Nate Fry's orchestra, popular campus band, has been engaged to play for the affair and it promises to be well attended.

Patrons for the party are Dr. and Mrs. C. H. Hoppert and Dr. and Mrs. C. H. Grim. The guest list includes Mrs. R. B. Shaw, Mrs. H. B. Halladay, Dean Elizabeth Conrad, Miss Josephine Garvin, Miss Ann Kruhl, Dean Marie Doe, Mr. L. R. Hoppert, and Mrs. H. B. Halladay. The tickets are on sale at all sorority houses and at the Union desk.

## IT'S FUN TO BE FOOLED

NOW SHOWING HARDEEN PACKING CASE ESCAPE

LAST NIGHT I SAW HARDEEN DO A WONDERFUL ESCAPE ACT.

WHAT HE SAW

SHACKLED, NAILED IN A PACKING CASE, AND ROPED, HARDEEN, FAMOUS BROTHER OF HOUDINI, ESCAPED FROM THE BOX!

HE HOLDS THE KEY TO THE HANDCUFFS BETWEEN HIS TEETH. THE ORIGINAL NAILS THAT HELD THE BOX TOGETHER HAVE BEEN REPLACED BY LITTLE SHORT NAILS SO THAT HARDEEN CAN PUSH A BOARD UP AND CRAWL OUT. THEN HE PUTS THE BOARD BACK TO MAKE THE BOX LOOK O-KAY.

I SEE THE TRICK NOW. HAVE A CIGARETTE?

NOT THAT KIND.

WHY NOT? THEY'RE MILDER AREN'T THEY?

SAY BUDDY, THERE'S NO MAGIC IN CIGARETTES. IT'S THE TOBACCO THAT COUNTS.

THIS IS MILD. I HAVE BEEN FOOLING MYSELF ABOUT CIGARETTES.

IT'S MORE FUN TO KNOW, ISN'T IT?

Camels are made from finer, more expensive tobaccos than any other popular brand. Learn to appreciate the true mildness of costlier tobaccos. After smoking Camels, we believe you will find that other cigarettes taste flat and insipid.

Meeting called to order by President Dickman.

Present: Heller, Buss, Asmus, Vondette, Peasley, Dickman, McKillobin, Armstrong, Bath, Steele, Hutchinson

**Absents:** Fick, Olney and Farley.

Reading of the minutes of the last meeting on April 11. Peasley brought up the request of the AgriEducator editor and business manager to the effect that they should be included on the official complimentary ticket list. Steele advocated cutting some of the present names off the list in order to make room for the Ag men. In regard to this discussion, Dickman made the statement that "At present there are too many on the complimentary list and should cut down to a manageable number." Mr. McKibbin moved that the matter be tabled for the presist to be discussed later. Armstrong was appointed to investigate the idea of cutting the list and make recommendations at the next meeting.
