

WEATHER  
Partly cloudy and continued warm tonight. Friday unsettled with showers; possibly showers Saturday.

# Michigan State News

Volume 25 EAST LANSING, MICHIGAN, THURSDAY, MAY 25, 1933

Supplement spring party tomorrow night in Union. Tickets 50c at Union desk.

## Plans of Senior Activities Announced by Committees; List Lantern Night Events

Tapping of New Sphinx Members and Announcement of New A. W. S. Officers Will Be Features of Lantern Night Ceremonies; Gives Rules for Building Carnival Floats.

Plans for the senior class activities during remainder of the term are rapidly being drawn to completion by the various committees in charge of the affairs. Dorothy Cummings, chairman of the senior girls activities announced complete plans for Lantern Night to be held on June 5. The parade will be led by the vice-president of the senior class and president of Sphinx, followed by secretary of the senior class and the vice-president of Sphinx, senior members, juniors, sophomores and freshmen girls. All but the freshmen girls will carry lanterns. The route to be followed by the parade will be from the Union hall to the botanical gardens, across the road to the Physics building, across the road to the Memorial tower and thence to the platform in the West of Arden.

## MANY DEGREES TO BE GRANTED

New Record Set as 607 Students Are Slated for Honors.

According to the latest figures available from Miss Elida Yakey, college registrar, 607 degrees will be given on June 12 to those students who have successfully completed their work in this direction. This number is subject to change at any time and will depend solely upon the satisfactory completion of the work by the students. A marked increase of 101 degrees as compared with 506 degrees given last year is shown at this time. The number of degrees to be granted in each department is as follows:

- Division of Agriculture: Agricultural 65; landscape architecture in forestry 14.
- Division of Engineering: Chemical engineering 32; civil engineering 35; mechanical engineering 41; electrical engineering 18.
- Division of Home Economics: Division of Applied Science: Applied science 44; physical education 26.
- Division of Liberal Arts: Liberal arts 85; business administration 16; public school administration 16; public school education 16; applied music 2; hotel training 7.
- Division of Veterinary Medicine: Veterinary medicine 7; medical biology 11.

Advanced degrees will number 81. The number of all students receiving degrees will be released until late in the term.

## ORDER MORE WOLVERINES

Last Minute Demand Makes Additional Copies of Year Book Necessary.

A startling number of sales of this year's Wolverine during the past few days have made it necessary to rush a last minute order to the printer. The number of copies of the book to be published is 1,000. Originally the number had been set at 800 copies but this unexpected extra order has made printing of the additional volumes necessary, according to Ronald McDonald, business editor. Students still desiring to order their Wolverine may do so before Monday night by leaving \$4.75 at the Union desk. If payment can not be made immediately the book may be reserved and paid for upon delivery.

## FACULTY TO GET FULL PAY FRIDAY

Student Payroll of June 5 Will Also Be Met in Full.

Tomorrow is payday for M. S. C. members. College Treasurer Jacob Schepers announced Wednesday that the payment of the faculty payroll for May 1 to 15 would be made Friday morning May 26. On Monday, June 4 the college labor payroll falls due and it also will be met in full. Ordinary times the faculty payroll was made once a month, but during the recent unsettled period it has been drawn up every two weeks. The last money due teachers for April services was cleared off the books with the checks issued May 15. The payment to teachers covers only the first two weeks of this month.

## MATH CLUB HOLDS PICNIC

The Mathematics club held its annual picnic in Potter park last Sunday afternoon, with about 50 members in attendance. Games and a steak roast were the features of the afternoon. Samuel W. Stewart, president of the group, Miss Alice J. Graff, and Miss Wilma Sackett constituted the committee in charge of the affair.

## LARGE NUMBER ATTEND A. W. S. PROGRAM HERE

500 High School Seniors Show Interest in Varied Diversions Given on Campus.

350 ATTEND LUNCHEON Blue Key, S. W. L., State News Staff, and Other Organizations Co-operate.

Widespread interest in Michigan State college was manifested by about 500 seniors who attended the High School Day program here yesterday. Approximately three hundred and fifty of this number held in the Union in honor of the group. Toastmaster at the affair was Prof. L. C. Emmons who introduced the various speakers on the program following the luncheon. Those who spoke in behalf of the college and its many organizations were Dean Elizabeth Conrad, President R. S. Shaw, Coach Charles Bachman, Helen Abbott, president of A. W. S. Council, and Louis August, president of Student Council.

After the luncheon the visitors were divided into six groups and were conducted to places of special interest around the campus. All the dormitories, the engineering building, the farm buildings, the botanical gardens, the greenhouses, the home economics building, the library and the stadium.

Following the tour the girls were entertained by the Home Economics club at a tea given at practice house No. 6.

At 4 o'clock the guests were taken over to the baseball field where they were admitted to the University of Michigan-Michigan State game free of charge. Preceding the game the M. S. C. military band gave an exhibition of its ability while marching before the audience.

Dean Conrad, who has been instrumental in aiding the girls on the greater A. W. S. council with great satisfaction at the number who responded to the initiation. The number which came was just about as large as could adequately be entertained in a friendly manner. She added that in high school day programs that may be given in the future some system of registration should be had in order to ascertain definite results in the following fall term registration.

These students who acted as guides on the tour of the campus were: For the boys all the members of Blue Key honorary service fraternity; and for the girls, delegates were chosen from the following organizations: Spartan, Wolverine League, Y. W. C. A., Pan-Hellenic council, W. A. A. Home Economics club, Union board and the State News staff.

## RECORD CROWDS VISIT ART EXHIBIT

Annual Display of Student Work Being Displayed at Olds Hall This Week.

The annual display of student art, the largest exhibit of the art department, opened Monday, May 22, at the fourth floor of Olds hall, and has all this week been visited by a record crowd. Filling four rooms and the large display hall, this exhibit has awakened more than usual admiration from its visitors.

Though the art department has presented several other displays this year, namely staff exhibit and several small student showings, it considers the present display as its best and most important. Says Miss Katherine Winkler of the department: "We are presenting a comprehensive showing of our department's student work of the past three terms. The work is not necessarily the best, using the word best in a restrictive sense, but is the most representative and the most interesting work. We feel this yearly student exhibit is worth while in presenting a collective contemporary view of the ever-changing art tendencies."

The exhibit on the fourth floor of Olds hall is reached by an elevator. The hours are as follows: Week days, 8 a. m. to 5 p. m.; Sunday, 2 to 5 p. m. The exhibit will not be open on Decoration day. Closing date is Saturday, June 3.

## SPEAKS ON BANKS REFORM

Dr. Herman Wyngarden, associate professor of economics, was the principal speaker at a meeting of the central Michigan chapter of the Michigan Association of Certified Public Accountants, held in the Union on the evening of Wednesday, May 24. Various other state chapters of the association, including the Detroit division, were invited to attend the affair. Dr. Wyngarden spoke upon "Proposed Banking Reform."

## A. A. U. W. APPROVAL IS REAL DISTINCTION

Action at Convention Climaxes Years of Effort by Administration.

When Michigan State college was accepted for membership in the American Association of University Women by vote of the national convention, held at Minneapolis, Minn., May 17, it became accredited with the highest type of rating given colleges in America. Having been accepted by the A. A. U. W. as of reached the top, remarked Prof. L. C. Emmons in commenting on the acceptance. All we can do now is keep our standards up to those of the A. A. U. W. and we are going to do it. Mr. Emmons said. Conditions for acceptance by the A. A. U. W. are constantly becoming more difficult and high quality of its faculty and curriculum to keep up with these standards. M. S. C. was one of 16 colleges to be admitted this year. Ninety-six applied for admission and 86 were studied.

Acceptance by A. A. U. W. means not only that all future graduates of the institution may become affiliated with local chapters and vote that all alumni of Michigan State no matter how long ago they graduated may also join A. A. U. W. chapters.

All right, agreed the girl from M. S. C. and they went. The girl from Kansas had an A. B. degree and the M. S. C. girl had had her Master's at the U. of M. and had now one year toward her Doctor's degree at the University of Chicago. The girl from Kansas was accepted. The girl from M. S. C. was rejected. Kansas State had been recognized by A. A. U. W. and Michigan State had not. Now M. S. C. women graduates hold up their heads among any group of university students in America.

Chimney's Long Struggle To get A. A. U. W. membership was a long struggle, beginning in 1921 when M. S. C. was accredited by the North Central Association of Colleges and High Schools. After 1921 M. S. C. had not been re-examined.

## STUDENT LOAN FUND ENLARGED

Council Approves Offer of \$1,000 From Forensic Surplus for Needy Students.

Addition of a substantial sum to the Student Loan fund was assured Tuesday night when the Student Council voted to accept \$1,000 offered from the Forensic fund. Since this fund enjoyed a decided surplus during the past year, Professor W. W. Johnston, head of the English department, presented the following letter to the council:

"I take this means of asking you to withdraw one thousand dollars from the Student Loan fund of \$1,000 of the balance now credited to the Forensic fund of the books of the Forensic fund of the college. I make this request for the following reasons:

1. The present balance credit to the Forensic fund on the books of the treasurer is \$1,152.72.
2. Forensic activities for the year have been practically completed and the only expense to be incurred by the Forensic fund of the spring term will amount to a little less than \$50.
3. I see no justifiable reason why as chairman of the fund I should be ambitious to accumulate a surplus other than a small one sufficient to meet an emergency that may arise before additional money is credited to the Forensic fund.

Mr. Menchofer and Mr. Drake, coaches of debating and all other forensic activities, heartily concurred with me in this view.

Because of the depression the need of accumulating the funds available for needy students is a pressing one, and Mr. Menchofer, Mr. Drake and I know of no better way to make the Forensic surplus useful than by placing it where it can be loaned to students who are hard pressed to remain in college.

Since this fund was voted by the students I should not feel free to dispose of any of it in the way mentioned above without your approval, but President Shaw assures me that with the approval of the Student Council I may make such disposal of the surplus.

Very truly yours,  
W. W. JOHNSTON  
Head of Department

Bank officials are hoping to have the plans settled within a very short time. But even after reaching an agreement, the plan is expected to take from four to six weeks to complete before they can have any effect, because of the technical matters involved.

Since the bank holiday, the East Lansing State bank has been under the direction of the commissioner of the state banking department, with Mr. Lucas as conservator. When a satisfactory working arrangement has been arrived at, a return to local control is looked for.

## TWO FROSH TIE FOR HONOR IN ESSAY CONTEST

Judges Unable to Decide Between Offerings of Wylie and Cleary.

SMALL ENTRY LIST Nordberg Has Best Short Story and Saltonstall Best Poetry Contribution.

For the first time in the history of the contest a tie resulted for first place in the Lawson Prize Essay competition. David Wylie and Ernest Cleary, both freshmen, will divide the award between them. The first awards in the State News short story and poetry contests are announced this afternoon by Professor Mulderberg, who, to Verna Nordberg for her "Blood for the Angel" and to Mrs. Ellen Mulderberg for two poems, entitled "Ulysses" and "Earthbound."

Cleary's essay was titled "Pioneer." The World and American Journalist, while Wylie's production was on "New Concepts in Invention." The judges of the essay contests submitted were unable to find either of these superior to the other. Therefore the \$25.00 will be split in half for the two men. Professor P. C. Bradford of the horticulture department, Reverend C. M. Mulderberg of Lansing and Mrs. Harry of East Lansing judged the manuscripts.

Gordon Fisher, with "Adrian, Edward W. Miller with "Rain on the Road" and O. L. Beckwith with "The Gravel" finished in the order named after Mrs. Nordberg in the short story.

Stella Hansen's three poems, "Pog on the Lake," "My Pigeon" and "To a Wade Packer Horse," placed her second in the poetry action. "Nocturne" by O. L. Beckwith took third place.

Five entries were received in the short story live in poetry and seven in the essay competition. The total is slightly less than the number received last year. Most of the essay entries came from the freshmen classes in English composition whose members were encouraged to submit manuscripts.

Two doctors were on the board who judged the short stories and an author who supported on the student nature course made the third member. The medical men, Dr. Bunney and Larkson of East Lansing are much interested in the short story form and were considered worthy to judge the submissions along with Herbert Mulderberg who won the Elmer Harper prize novel contest in 1931.

Miss Anne Versey, who won the major award in poetry in the Avery Hooper contest in Ann Arbor a few years ago, acted as one of the poetry judges. Bernard Young of Grand Rapids, who formerly taught in the English department, acted as judge of the short stories.

## EXCALIBUR WILL HONOR BALL TEAM

Collegians Signed to Play for Party Sponsored by Senior Honorary.

Excalibur senior men's honor society will stage a party honoring the baseball team Friday evening, June 2, in the Union ballroom. The party will also have the form of a send-off for the baseball team before the Notre Dame game which they will play at South Bend the following day.

The party promises to be one of the outstanding parties of the spring term and will be the last one staged by members of the present senior class. Seniors are expected to attend in large numbers as it will be their last opportunity to attend a college party as undergraduates.

Prominent faculty members and athletic heads will be guests of honor at the party. Coach John Kuhn and his varsity squad will all make a personal appearance as special guests of Excalibur.

Red Drennan's M. S. C. Collegians will furnish music for the party, using a ten-piece band. Tickets can be purchased for 50c at the Union desk, the Smoke Shop or from Excalibur members.

The comedy of Anatole France, "The Man Who Married a Dumb Wife," has long been a favorite with students and is typical of Anatole France's ability to combine humor and satire in the same work. The part of the "dumb wife" is taken by Wanda Palarski. Playing opposite her is Jack Green as the husband. The other major part is taken by Robert Graham who plays the part of the friend of the husband, upon whose advice the wife's tongue is loosened. Other members of the cast are Jack Jones as the doctor, William Munger as the surgeon, Kenneth Stonex as the apothecary, Edith Bower as the maid, Myrtle Munger as the orphan girl, and Robert Miller as the servant.

All of the plays are under the general direction of Mrs. Arthur Farwell.

## MUSCOTT, KELLY, MOLLET CHOSEN CLASS PRESIDENTS IN YESTERDAY'S BALLOTING

Pongrace Named as Representative to Athletic Board in All-College Vote; Heavy Polling Marks Annual Spring Elections; Frosh Cast Most Votes.

By CHARLES PALMER  
An exceptionally large turnout in student elections was shown at the polls for annual spring elections held in the Union all day yesterday when the presidents, vice-presidents, secretaries, and treasurers of the three lower classes were chosen. Ballotting was also held for the officers of athletic representation to the Liberal Arts Board and representatives to the Board of Trustees.

Results of the election showing the freshmen class electing Pongrace as representative to the Athletic Board and representatives to the Board of Trustees.

## ARMY GROOMS FOR INSPECTION

National Review for Military Units Will Be Held June 6 Here.

Michigan State's military department is preparing for the annual inspection day which is scheduled for Tuesday, June 6. The inspecting officers who will be present are Capt. Henry W. Hall, inspecting the army, and Lieut. Col. John W. Boyd, inspecting the infantry, and Major S. F. Hawkins, inspecting the coast artillery.

The day will begin with a parade for the officers at 8 a. m. The inspection will continue in the afternoon, which will be given on the drill field north of the gymnasium following this there will be individual unit drill and command and control outdoor practical work. The unit will be examined in the stadium, the company on the parade ground, and the platoon on the drill field.

The freshmen will be examined in their unit inspection on an afternoon covered during the week. Seniors will have their examination at 11 o'clock and the junior and senior will be examined in the afternoon at 3:30 and 5:30 respectively.

The college will entertain the officers at a noon banquet. In the evening the band and the band will be having the inspectors at a dinner at 7 o'clock. Following the dinner, there will be a talk to them at the home of Col. D. H. Boyd.

## 7-ARTS TO GIVE FINAL PROGRAM

Four Dramatic Presentations Will Climax Year's Activities for Club.

A climax to the year's activities of the Seven Arts club will present an evening of plays in the Little Theater next Monday night, May 28 at 8 p. m. Students and townspeople will be given an opportunity to witness the first local appearance of Professor Patton of the music department in a dramatic role as Octavian in Richard Wagner's "Parsifal" and Francis Patton, Professor Patton, has had considerable experience in dramatic work, having sung with the Metropolitan opera in New York for several years. He is supported in the part of Parsifal by Robert Miller, a pupil of Professor Patton's and also a seasoned actor. "Parsifal" is playing the part of Parsifal and Myrtle Munger that of Nita. Minor parts are taken by William Munger and Jack Jones.

Probably the most unique feature of the program will be the presentation of a fairy tale, "Snowwhite and the Dwarf," with marionettes by Elsa Richards. A successful performance of the same play was given last year but not publicly.

The Triumph, a short story by Alphonse Daudet and adapted for dramatic presentation by Jackson Towne, the college librarian, will be presented. It was recently given by the Wisconsin Players in Milwaukee.

The cast for this Seven Arts presentation is composed of Jack Jones in the leading role, supported by Frieda Wiener and Jack Green.

The comedy of Anatole France, "The Man Who Married a Dumb Wife," has long been a favorite with students and is typical of Anatole France's ability to combine humor and satire in the same work. The part of the "dumb wife" is taken by Wanda Palarski. Playing opposite her is Jack Green as the husband. The other major part is taken by Robert Graham who plays the part of the friend of the husband, upon whose advice the wife's tongue is loosened. Other members of the cast are Jack Jones as the doctor, William Munger as the surgeon, Kenneth Stonex as the apothecary, Edith Bower as the maid, Myrtle Munger as the orphan girl, and Robert Miller as the servant.

All of the plays are under the general direction of Mrs. Arthur Farwell.

Suits Pressed, 30 cents; Trousers Pressed, 15 cents.—Schramk.

## STUDENT FEE CUTS

Proposed cuts in voted fees now rest before the Student Council which would lower the amounts to be paid by students for these funds by as much as 20 per cent. In effect such cuts would mean a saving of from \$1.50 to \$1.75 per student each term. Taken together with this year's general cut in tuition cost, they will exert a very substantial reduction to the expense which inevitably confronts us at enrollment time.

Without any question some material cut to student voted fees is in order. The question only of how these cuts shall fall now confronts our governing body.

Professor W. W. Johnston, as chairman of both the Forensic and Liberal Arts funds, this week expressed a willingness to see his two groups bear a cut of as much as 25 per cent in fee revenue provided only that the other student funds should be cut in like proportions.

In effect Professor Johnston stated that the Liberal Arts board and Forensic committee have employed every effort to return to the students proper value for their fees. We have at our disposal in addition a considerable surplus sum that could very easily have been sunk in securing more expensive lecturers on our student courses, lecturers which might have appeared as more outstanding figures of the day but which would have offered no better programs than the speakers as finally listed. Likewise the Forensic interests have voluntarily exercised unusual economies in conducting their numerous activities.

We consider it unfair at this time for the Liberal Arts and Forensic funds to be penalized with a large cut in revenue—simply because they enjoy a hard-earned surplus—while other student fees get off with smaller reductions or none at all. If we can sacrifice why should others in like degree?

Professor Johnston's point is indeed well taken. The fact that during the past year economies have been employed to such an extent that very material balances now exist in accounts of both the Liberal Arts and Forensic groups is no small achievement. The management of these funds should receive our highest commendation. He is correct in believing that other funds have been handled less economically than those under his direction.

This fact, however, does not justify an opinion that student voted fees should be reduced in like proportion. Economies can extend to a limited degree for some of our campus enterprises. Beyond this point a wide gap exists in the cuts which it is possible for our student organizations to bear without serious curtailment of their activities.

Final authority for determining in what proportions these cuts shall be made is conferred to rest in the Student Council. We hope the governing body will exercise due consideration for the value and rights of each fee supported project in announcing its forthcoming reductions.

## RECOGNITION

With the granting of membership into the American Association of University Women, Michigan State College takes its natural place among the foremost institutions of higher learning in the nation. The class A rating enables State alumnae all over the world to actively affiliate with chapters in their respective cities. Moreover the college is now in a much more favorable position with regard to outstanding chapters of Mortar Board and other national honorary organizations which will further enhance our standing.

The officials who have given so freely of their time and have worked so untiringly to obtain this great honor for M. S. C. are to be highly congratulated for their success in the undertaking and duly thanked for their efforts.

This institution is now beginning a new era in its history. Having been granted A rating by the two most influential of national college and university associations, A. A. U. and A. U. W., it is now on a par with the best institutions of its kind. The last milestones with regard to national standing have been passed, and now we have still greater achievements to look forward to. Now we must prove that we are worthy of the honor bestowed upon us by living up to the A. A. U. W. standards and all that that organization embodies—B. B.

## FORESTRY CLUB CHOOSES OFFICERS FOR NEXT TERM

The last meeting of the Forestry Club was held Tuesday night, May 23. At this meeting an election of officers for the next term was held. The results of which are as follows: President, H. V. Bergeron, vice president, Ralph Dickie, secretary, treasurer, John Hanson.

Because many of the forestry juniors and seniors are departing for the reforestation camps in all parts of the United States as overseers of work crews, a campfire outing was held in the college nurseries. P. S. Lowery, a professional forester, made the address, supplementing his speech with a group of Paul Hanson stories.

## The Spartan Merry-Go-Round

## Student Fees

Dioegenes, that much publicized and perhaps bemoaned old soul, could end his famous search on the Michigan State campus if he were alive today. There is no doubt but that Michigan State has one honest man in the person of W. W. Johnston, head of the English department.

Professor Johnston this week sent a letter to the Student Council asking its permission to use a surplus in the Forensic fund of which he is chairman, as a student loan fund.

Professor Johnston in his letter stated: "I see no justifiable reason why as chairman of the fund I should be ambitious to accumulate a surplus other than a small one sufficient to meet any expenses that may arise before additional money is credited to the Forensic fund next fall. Mr. Menchhofer and Mr. Drake, coaches of debating and all other Forensic activities, heartily concur with me in this view."

In our opinion, Professor Johnston did a fine thing which is all the more noticeable because it is such an exception on this campus. The money paid by students (17 cents a term) for Forensic support may be a little too much but the real reason that a surplus was created was because the persons in charge of the Forensic fund administered it as economically as possible. There was little or no money spent for mythical expenses, extravagant awards or luxurious travel accommodations. No high-priced "artists" received student appropriated money for overvalued services.

Other student supported activities might well take a lesson from the administration of the Forensic fund. Student fees were not intended for private graft.

## A Heller

This year when diplomas are handed out to Michigan State seniors there will be a parting of the ways for a group of students who have gone to school together for 12 years. This group started school in Cass City in 1916 and have been in the same school and the same grade since then.

There are seven people in the group, which includes: Harriet Tindall, Pauline Scudman, Esther Schell, Virginia Day, Catherine Hunt, Mabel Crandall and Clifton Heller.

There are six women and one man. It will be noted, however, that the man could be called a Heller among women.

## Alpha Phi

A certain Alpha Phi a few months back termed Michigan State parties "strenuous," having hailed from Syracuse university where she was of the opinion parties were more dignified. The following excerpt from the latest College Humor explains the reason.

In a recent issue, are printed the fact that Syracuse women date on the average of only once a month, and that they were all not and bothered to know what to do about it. Now comes further word from that school which may explain what's wrong.

In a study of problems of freshmen college girls, it was reported that 66 per cent of the co-eds interviewed at Syracuse university talk over their love affairs with their mother.

And another condition is that 51 per cent of Syracuse co-eds have no love affairs at all.

Post

Here is a revision to the A. W. S. constitution that was voted on yesterday. "The girls who voted shall be POSTED at least two days before election which will be held the Wednesday day of the first week after the opening of each term. What we would like to know is how to post a girl."

## Sleeping Beauty

A certain fraternity man of Grand River has introduced ability when it comes to talking in his sleep. At times his ability is uncanny. Besides his loquaciousness while sleeping, the fellow also has a terrific fear of golden rods due to the fact he is afflicted with hay fever.

Yesterday afternoon he fell asleep on the fraternity lounge lawn in full view of passersby. Some of his brothers went to work and secured a fine display of weeds, grass, and flowers, with which they covered him over. They covered him in such profusion that it looked identically like a very well kept grave. Among the "flowers" on the grave were large quantities of wild mustard, which at the present time resembles golden rods to a great extent.

Before the fraternity brothers had finished arranging the "flowers" over their slumbering brother he had commenced to talk in his sleep. Events of the day began to unravel. With an "Aw Hell!" he arose to perform the morning ablutions and eat breakfast. It was "Good morning, George!" and then "So long, fellows," and he was off to his first class. His brothers grouped around his slumbering brother to await his arrival at his first class. Shortly they were rewarded with the sleeper shouting "Here!" A few more minutes and he was called on for a reiteration and again the sleeper repeated the awful blinding he had done in his morning class.

Class was dismissed. More talk. Then another shouted "Here!" and so on throughout the day. Not one secret could the sleeper conceal from

## ECON STUDENTS VIEW PICTURES

175 Witness Movies Depicting Activities in New York Stock Exchange.

Approximately 175 economics students, staff members, and outsiders witnessed the presentation by the economics department last Monday of two motion pictures depicting the organization and activities within what was once the busiest place in the world, the New York stock exchange. Two duplicate showings were made one in the morning and the other in the afternoon, for the benefit of Dr. Wyngarden's two classes in investment banking and security markets. The pictures were secured by Dr. Wyngarden from the publicity department of the New York stock exchange being standard 16 mm. films which have been previously shown as regular short features in the theaters throughout the country. When presented in New York city they proved so interesting that they were held over an extra week by public demand.

The first two-reel film given, entitled "The Mechanics of the Market," pictured the rigorous and thorough training to which a young man who is preparing to work in the exchange is subjected. The second was called "The Nation's Market Place." This production showed clearly how orders are received and executed, how quotations are sent out over the "tape," in what manner the daily reports reach the newspapers, and the whole interior of the exchange itself was filmed.

The movies are released by the Vista-Graphic Pictures Inc. and were made in cooperation with the New York stock exchange to be used in the publicity department. They are the only pictures ever taken within the stock exchange. Although they have been shown in Flint, Detroit, and other Michigan cities, the presentation Monday was the first for the Lansing vicinity. Complications in ordering and shipping of the films presented by Wyngarden from fostering the publicity which he would have liked to have had, so as to give more people the opportunity of attending, but the presentation was well worthwhile nevertheless.

## GEOLOGISTS WILL HOLD MEET HERE

Group to Study Interesting Formations of Surrounding Territory.

Members of the geology and mineralogy section of the Michigan Academy of Science will make their headquarters in East Lansing while they attend a two-day excursion to localities within a 50-mile radius of the city Saturday and Sunday.

The committee in charge of the excursion is composed of W. A. Kelly, chairman, assistant professor in the geology department, Frank Leverett, a retired United States geological survey worker living in Ann Arbor, G. M. Elders, paleontology expert in the museum at the University of Michigan, and R. H. Newcombe, state geologist. The excursion will be of value to all members interested in stratigraphy, paleontology and structural geology. The group will leave Saturday morning from the Union building and will spend the day observing the details of the Saginaw and Washtenaw formations. (See next column for details of the excursion.)

On the second day they will visit the exposures of the Grand River below Grand Lodge and then go on to exposures near Ionia. Part will take a trip with Mr. Leverett on picturesque scenery, and the rest will continue with Mr. Kelly on bedrock geology.

The college will be host to the group at the Union Saturday evening. The latter part of the evening will be taken up with lantern slides and instructive talks by Mr. Kelly and others on the day's observations.

His brothers grouped around him finally one of them took compassion and awakened him. With a start he opened his eyes and spied the yellow mustard weed piled high around him. Leaping to his feet he yelled, "My God! My God! Golden rods!" and forthwith prepared to sneeze.

## Ups and Downs

Dick Pendell, Eccentric, gave his pin to the girl friend at Mary Mayo this week. "Excalibur" is really going to "throw" a "blinger" on June 2. Be sure and be there. Please, Mr. Falcone, play some semi-classical music for us at the next band concert.

Selfish Woman's building co-eds picking yellow violets in the botanical garden. Miller A. E. reports Mary Mayo davenport found under pine trees near hospital Saturday morning.

John Kobs decided after the Michigan game to have the tall grass by the river cut down. If that can't be done he is going to conceal a basket of baseballs down by the river so that his belders can find a ball easier.

Some co-eds shed their parts last night with diamond wands and incense. Gotta go now.

## COLLEGE BULLETIN

Blue Key meeting tonight at 7:30 in the Union. All members urged to be present as there will be an election of officers.

Press Club executive board meeting last Tuesday at 9 o'clock.

Student "Y" Forum will meet with the adult forum in the Governor's room of Peoples church Sunday, May 28 at 12 o'clock.

Order Wolverines at Union desk by depositing \$4.75.

The baseball teams of the dairy building and of the forestry department will compete in what promises to be a close game, Friday at 6:30 in front of the gymnasium.

Members of the graduating class wishing to secure reserved seat tickets for Baccalaureate and commencement exercises may obtain them at the registrars office.

Orders for the commencement invitations will be taken at the alumni office on the second floor of the Union until 5:30 tomorrow night.

## Annual Sophomore Spring Party Will Occupy Outstanding Place on Social Calendar for Week-end

Phi Chi Alpha, Eclectic and Pi Kappa Phi Societies Schedule  
Term Parties; Open Houses Listed for Delphics,  
Phi Taus, and Trimoiras.

The annual Sophomore Spring Term party will, this year, take place in a setting appropriate for its popular theme, "Star Dust." Nate Fry's well-known campus orchestra will play for the affair, which will be held in the Union ballroom, Friday evening. Besides the big star over the orchestra, there will be smaller stars around on the walls for individual campus stars, with athletic celebrities most prominent. Patrons have been chosen as Major and Mrs. C. Thomas-Stable and Prof. and Mrs. H. S. Patton. Honorary guests will be President and Mrs. R. S. Shaw, Secretary and Mrs. H. B. Halladay, Mr. and Mrs. C. O. Williams, Dean Elisabeth Conrad, Coach and Mrs. Charles W. Bachman and Lt. Col. and Mrs. D. R. Hodges.

Tickets, now on sale at fraternities and at the Union desk, will be 50c.

The societies are keeping in the background this week-end and all social activities, besides the Sophomore Spring party, are among the fraternities. There are three open houses and three spring term dances.

### Beta Gamma Announces New Members

Beta Gamma announces the formal pledging of Kathleen Arber and Myrtle Gilbert on Wednesday evening, and the formal initiation ceremony was given for Anna Walker and Marie Monroe on the same day. The annual formal initiation banquet was given in the evening in the Union dining room.

### Chi Omega Entertains at Dinner

Miss Ethel Webb, Miss Anna Hedges, Miss Katherine Miller and Miss Marie Hillhouse were guests of Chi Omega at dinner Tuesday night.

Chi Omega announces the formal pledging of Miss Adelaide Guntz, of Port Washington, Wis., on Monday evening.

### Theta Entertains at Faculty Tea

Betty Hunt, Mrs. Schultz, Mrs. Graham and Miss Sarah Shaw were in the receiving line at the faculty tea given at the Kappa Alpha Theta house last Saturday afternoon. Mrs. Vandervoort presided.

Mrs. Newburg was a dinner guest at the house Tuesday evening.

### Kappa Kappa Gamma Entertains Over Week-End

Patrons' Day will be celebrated Saturday at the Kappa house with the fathers of the members being dinner guests Saturday evening. Sunday afternoon the pledges will entertain at a tea in honor of the members of other houses.

### Alpha Phi Hold Steak Roast

The members and pledges of Alpha Phi were entertained at the home of an alumna of Omicron at a steak roast Monday evening.

### Beta Alpha Entertains Dinner Guests

Dean Elisabeth Conrad, Mrs. Barrett, Mrs. North, Miss Gossard and Miss Ruth Johnson were dinner guests at the Beta Alpha house Thursday evening.

Miss Katherine Overholt was entertained at a shower by the members of the society Saturday evening after their spring term party which was held in the Little Theater.

### Alpha Chi Omega Initiation Banquet

Initiates of Alpha Chi Omega were entertained at an initiation banquet in the main dining room of the Union Friday evening May 19, at 8:30 o'clock. Frances Williams acted as toastmistress. June Redman presented the pledge tablet for about 100 new members. During the banquet, Jean McClellan presented the banner, being the wearer since last year. June Traut gave the response from the seniors, and Miss Irene Chaplin, of Lansing, spoke on alumnae relations. Elizabeth Hansen, president of the society, representing the active class.

### Delphics Have Open House

Tommy Gilson's orchestra will furnish the music for the Delphic open house to be held Friday evening. Patrons will be Prof. and Mrs. L. C. Hunt and Mr. and Mrs. E. A. Gee.

### Phi Chi to Hold Spring Term in Little Theater

The Phi Chi Alphas will hold their spring term party in the Little Theater Saturday. Patrons are to be Mr. and Mrs. C. F. Wilson, Mr. and Mrs. M. Turk and Mr. and Mrs. A. B. Bowman. Guests invited are Prof. and Mrs. Miller, Prof. and Mrs. Allen, Mr. and Mrs. H. T. Darlington, Mr. and Mrs. J. W. Shedy and Mr. and Mrs. P. R. Krone. Johnny Rabe's orchestra will play.

### Jack DeCamp to Play for Te Spring Term Party

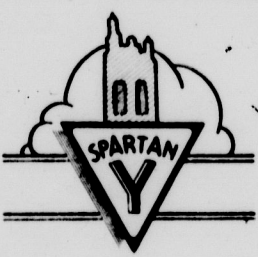

Music for the Eclectic spring term party to be held Saturday evening, will be furnished by Jack DeCamp's orchestra. Patrons will be Capt. and Mrs. S. G. Blanton and Mr. and Mrs. M. W. Casteel.

### Phi Kappa Taus to Hold Open House

Wally Bennett's orchestra from Lansing will play for the Phi Kappa Tau open house to be held Saturday evening. Major and Mrs. C. Thomas-Stable and Mr. and Mrs. J. Tyson will be patrons.

### Trimoiras Open House Saturday Night

Ray Blicherstaff and his orchestra will play for the Trimoiras open house Saturday. Patrons are to be

## East Meeting of S. W. L. to Be on June 1

Will Take Form of Picnic Dinner in Rear of Botanical Gardens.

The last general meeting of the Spartan Women's League will take the form of a picnic dinner Thursday evening June 1, from 5 until 7 o'clock at the picnic grounds behind the botanical gardens.

In charge of the meeting are the social group which will take care of the food and the dramatics group which will furnish the entertainment. All members are asked to sign with their group chairman before Wednesday, May 31. Each girl will be asked to bring a dime to take care of part of the cost of the food. The league will furnish the rest.

All groups are asked to be present full force as each group will give an account of the work accomplished this year as well as the plans for next year.

## Army and Navy Club Joins R. O. T. C. in Dinner Dance

Reserve officers of Lansing joined with the Lansing Army and Navy club to entertain the senior cadet R. O. T. C. officers at Michigan State at a dinner-dance in the Union building last Tuesday evening. Maj. Gen. Frank Parker, commander of the sixth corps area, and President Robert S. Shaw were the speakers at the dinner.

Sponsors of the affair were Major General Guy M. Wilson, Col. John Bersey, Col. Hiram Cooper, Col. LeRoy Pearson, Col. Ralph Huston, Col. G. W. Carey, Col. Edward Rich, Major G. F. Humbert, Major Glenn Stinson, Major Milton Shaw, Major E. M. Rosecrans, Major James Greene, Major Ivan Gronseth, Major Claude Cade, Capt. Stewart Newark, Capt. G. F. Thum, Capt. Mel Newark, Lieut. John Cross, Lieut. Lewiston Larkum, Lieut. W. J. Ellenbrink, Lieut. A. Estill, Lieut. John Bradish and Lieut. Lazell Wall.

## Music Honorary to Give Tea

Sigma Alpha Iota is entertaining at a tea and musical Saturday afternoon at Peoples church. Two guest musicians, members of Sigma Alpha Iota at Hillsdale and Detroit, will entertain. In addition the McKee trio will play and Dorothy Holbeck will sing. The alumnae patronesses will be special guests.

## SOCIETIES AT M. S. C.

By JIM QUELLO

### Funonian

The Funonian society is probably one of the best balanced fraternities on the campus. Socially, politically and athletically, the Funonians have been among the leaders on the campus and are now enjoying another prosperous year with a large number of men holding important campus offices.

The Funonian society was organized in the fall of 1903 for the purpose of promoting the social and literary life of its members. College Y. M. C. A. rooms were the society's meeting place until 1906 when rooms were secured in Wells hall. At the society grew in strength and influence on the campus, the need for an adequate home was felt and secondly in 1915 the Funonian Building association was organized and incorporated. Plans for a house were drawn up and a financial campaign instituted. In the fall of 1916 the house was begun and first occupied during the following year.

As the fraternities there was a depletion in the active members during the World War. In the spring of 1918 they amalgamated with another local society, the Iota, one of the strongest groups on the campus, which not only increased the membership but strengthened their position on the campus.

### Impressive History Revealed

Delving into the annals of the Funonians for the past 28 years, we find that 36 Funonians have worn the Tau Beta Pi key. 42 have become members of Alpha Zeta and 4 of Xi Sigma Phi. Many men have been elected to major offices in campus activities. Seven Funonians have edited the Michigan State News, while three have served as business managers. Six have served on the Union board, 19 were members of Phi Beta Kappa and 23 members of the band. Campus activities, however, have not overshadowed participation in varsity sports. Fifty-one have won the varsity 5, while the captaincy of each major sport has gone to an Funonian at some time or other in the past.

### Personal Glimpses and Activities

An informal glance at the present chapter of the society reveals that the traditional record in campus ac-

tivities is being upheld, while at the same time there are many socially minded and colorful personalities among the members. The names of Erik Farley Rogers, Pongrace, Brunette, Thomas and the House brothers are among the more famous of notoriety on the case may be about the household. Don Pick last year the president of the junior class, is also a member of Blue Key and Seaboard and Blade societies. It is generally known about the campus that he has been engaged to Jane Stratton, attractive Theta, for some time. Erik Rogers, business manager of the Wolverine, last fall ran to Barbara Bradford, our varied editor, over a year ago and has since that time been seriously contemplating the prospect of home and a wife. Carl is the only one of the Funonians to continue with a full-time domestic.

George Thomas, whose disposition conveys the household to the point of making his beloved "frat" queen his Sunday, is a qualified former member of Sigma Xi, relay team, and treasurer of his senior class. George approaches a bachelor state of almost celestial proportion when communicating about his former status with a beautiful Dutch Theta. A recent wedding is recorded in the tale of the last married Funonian.

He has worked diligently pointing his course and now find his romantic endeavors thwarted by the infirmities of a dark, handsome, the Minard Emory, Esq., Jr., the Alumnus duke, and general chief and member of Blue Key and student council, has recently announced the expiration of his sentence at the Kappa house and is once more a "free lance". Otto Pongrace, a car track man and president of the Blue Key, who is also famous for his back-slapping at the Theta house.

Among the other colored Funonians are George Patterson, who we understand is endeavoring to be picked by Chi O. Lansing Funonian, Bob Kipp, patron saint of the fraternity, now enjoying his seventh birthday year at the college, who spent his week-end at Purdue, Nelson Frisland, who enjoys Sunday evening parties at Prof. Shook's house and is now using his drag-

### CO-ED CLASS WILL RIDE

IN HIKE NEXT SATURDAY

The co-ed equitation class will have a breakfast hike Saturday morning May 27. They will go on horseback out to the home of Mrs. C. G. Aldrich which is near Mt. Hope on Harrison road.

Upon arriving, there will be a number of games for the riders and their horses, and at 10 o'clock breakfast will be served. The group will return to East Lansing in cars. The entire class of 27 is expected to go, and also a few senior women students. Mrs. H. S. Patton, chairman of the program committee, and Capt. M. I. Voorhes, instructor of the class.

Spring Term at Phi Kappa House

The Phi Kappa Phi spring term party will be held at the house Saturday evening. Patrons will be Prof. and Mrs. L. N.

## STUART CHASE TO SPEAK HERE

Noted Writer and Economist Will Appear on 1934 Student Lecture Course.

Stuart Chase, noted writer, lecturer and economist, was signed this week to appear on the Student Lecture course February 22, 1934, according to an announcement from the office of Professor W. W. Johnston, head of the English department.

Arrangements were made with the William Peabody lecture agency of New York to bring the eminent author here as one of his stops on a limited one-week tour of the mid-west next winter.

Former member of the Federal Trade Commission for whom he investigated the meat industry and the bookers from 1913 to 1922, Chase was well qualified to write such books as "The Tragedy of Waste," "Your Money's Worth," and "Men and Machines." These exposed the advertising racket and disclosed how American consumers were being fleeced of millions yearly by confectioners, medicine manufacturers, and others.

Following his trade commission experience, Chase went with the Labor Bureau, Inc., with whom he is still associated. His more recent works include "Prosperity: Fact or Myth," "The Nemesis of American Business," and "Mexico: A Study of Two Americas." He has also been a contributor to "Forum," "New Republic," "The Survey," "Harper's," and "Century."

Educated at the Massachusetts Institute of Technology and Harvard, Chase then went in as a partner with an accounting firm in Boston, remaining with them until 1913. Since that time he has been in and out of public life, appearing often as a lecturer and producing his articles and books.

The first man to be signed for the course is not new to the lecture field. In view of his short stay in this section of the country, the directors of the course feel especially fortunate in securing him for an East Lansing engagement. What ever topic he may select to speak on, it is certain to have a close relation to current problems and its discussion by such a man as the one who signed the course is sure to attract a large audience.

Chase is known to many for his part in founding Consumers Research, Inc. of New York, a non-profit organization for the examination and testing of goods offered to the advertiser. A nominal fee is paid by anyone who wishes to join and he is sent monthly reports on the work of the organization. In case he wishes information on an automobile or something else he considers buying, he can send to the Research and receive an impartial report on its performance and value as compared with other similar products. The thousands who have joined this service organization have been saved thousands of dollars by information that enabled them to do so wisely.

## DROP WORLD FAIR LIBRARY EXHIBIT

National Association Forced to Give Up Plans for Exhibition.

Because of the inability of the American Library Association to finance the proposed world fair library exhibit will be shown at the forthcoming exposition in Chicago. Jackson E. Towne, college librarian reports.

Spare was tentatively reserved for a display as late as March first, and plans had been definitely formulated. In March, however, it became evident that the association could not undertake the matter and maintain a balanced budget in 1933. Carl B. Roden, librarian of the Chicago Public Library and chairman of the committee on the Chicago Centennial exposition, therefore, reluctantly recommended to the A. L. A. executive board that the exhibition was approved with reluctance by the board.

Now Mr. Towne points out, a model hospital library will be displayed under the auspices of the A. L. A. Committee on Hospital Libraries. An electrically operated wagon, guided by a hospital librarian, will make the tour of a "ward" so that visitors to the exposition may see how book service is given to patients.

Through the courtesy of the Medical Science division of the exposition, space has been made available to the library committee of that the Peabody Hospital of Chicago and the A. L. A. can cooperate in arranging the exhibit. The theme of the showing will be "Directed Reading Aids Recovery."

## MITCHELL ADDRESSES MUSIC FESTIVAL GROUP

Dr. F. T. Mitchell, assistant professor of education, addressed a gathering of some 5,000 people at the annual meeting of the Music Festival group held at Port Huron last Sunday, May 21. Dr. Mitchell's topic was "The Place of Music in the Public Schools." The festival was the culmination of an extensive year's program of music carried on in the public schools of Sanilac county. A feature of the celebration was the appearance of a chorus of approximately 800 voices.

## Many Contagious Cases Treated At Hospital

Although at the present for the first time in five years there are no students confined at the hospital with contagious disease there has been an unusually large number of cases during the past year.

According to figures compiled by Dr. R. M. Olin, head of the college health service, students have lost a total of 71 weeks through confinement with contagious disease in the past school year. Of the 52 cases treated, 38 were measles, 11 were scarlet fever and three were chicken pox. Dr. Olin points out that this condition was largely brought about by the unwillingness of students to remain in confinement during the entire period of communicability of the disease which unnecessarily exposed other students.

## HORSEMEN TO SPONSOR SHOW

Private Exhibit in June Will Replace Former College Event.

M. S. C. campus will again be the scene of a horse show this year, but it will be without the financial aid of the State Board of Agriculture, and since it is scheduled for June 23 and 24, none but the summer school students will be here to see it. Once entitled an R. O. T. C. function, the show this year will be only the "Michigan State Horse Show" and will be backed by a group of about 15 horsemen from Lansing, Jackson, Saginaw and Flint.

Because of the cancellation of many other horse shows recently the committee promoting this show believes its success is assured. Besides Chairman George G. Malbon, the committee includes Lloyd C. Dwyer, R. R. Dwyer as cavalry vice chairman, Capt. Marion F. Voorhes, cavalry secretary, Mace E. Clutten, Flint treasurer, Dr. John P. Hutton, assistant secretary, and James Carson, Jackson. These men have organized for this single performance but a permanent setup may follow a successful show.

Entry fees have been materially reduced and entries have already been obtained from Detroit, Rochester, Birmingham, Jackson, Flint and Grand Rapids. Seed prices and parking charges have also been cut from half to two-thirds.

The regular show program with the addition of special exhibition features is planned. The annual horse show had appeared again on the two-day schedule.

## SEM. BOT. FORAY AT OVID TUESDAY

Pine Land Flora Will be Studied on Annual All Day Botanical Trip.

The regular annual botany field trip to study the pine lands of the Sem. Bot. foray will take place Tuesday, May 30. This year it is planned to visit an area eight or ten miles north of Ovid where one can find remnants of the pine land flora which largely extends in this part of the country.

The party will leave by auto from the Biol. Botanical Laboratory at 8 o'clock or as soon after as the cars can be dispatched. Those who expect to attend should register with the club in the biology office not later than 4 p. m. Monday, May 29, in order that the proper number of autos may be provided. Those who have cars that they can drive should indicate this at the time of registering.

Each person should bring his own lunch and a cup and a spoon. Coffee with cream and sugar will be provided, therefore each person registering to go is asked to pay a fee of 15 cents to cover cost of miscellaneous supplies.

Anyone interested is invited to go whether he is specializing in botany or not and regardless of whether he is connected with the Sem. Bot. Detailed directions on how to reach the intended spot will be available when the expedition starts. The round trip will be about 20 miles.

## Prominent Firms Interview Senior Engineering Men

Representatives of various prominent business concerns throughout the country including General Electric, Westinghouse, Bell Telephone and Consumers Power, are at present interviewing senior electrical engineers regarding their employment for the coming year.

Whether or not any will actually be given employment is a question, as all of these corporations have excess men on their payrolls at present. Very little new construction is being contemplated, the Bell Telephone company representative says that there has been a 200,000 reduction in the number of phones in use in the United States since 1929 so they now have facilities for an increase of 200,000 without any new building at all.

## Foresters Hold Field Party

The forestry department's annual field party will be held tonight at the lodge at Grand Lodge. Rather as a farewell to the seniors, many of whom have positions in the reforestation project, the party is to include a campfire supper and an indoor baseball game between the Dunbar "summer" camp team and the freshmen and sophomore foresters. Committee for the affair consists of H. V. Bergerson, David S. Nordwall and Sargent Goodhue.

## ALDEN G. ALLEY TO SPEAK HERE

Lecturer for League of Nations Association Will Talk on Foreign Relations.

Alden G. Alley, professor in the New Jersey Law school and lecturer for the League of Nations association, will address audiences in Lansing and East Lansing May 28 to 31 on a tour of the middle west. Professor Alley is being brought to this community under the auspices of the local division of the state league, a territorial division of the League of Nations association, an organization comprising the entire nation.

The League of Nations association has as its objective the education of the public in matters of foreign relations. It indirectly is paramountly interested in the preservation of peace gained, it believes, through educating the people in matters of foreign policy and bringing them to a sympathetic understanding of all nations.

Having served as an officer in the army of the United States during the World War, Professor Alley is keen for advancing any means to prevent another such conflict. He has traveled recently in Europe spending a period of study at the League of Nations center in Geneva.

Twice before Professor Alley has spoken to audiences of this community. He is remembered as an entertaining yet instructive lecturer. He is noted for his ability to make serious technical subjects enjoyable.

His program is as follows: On May 28, Friday, he will speak at the noon Open Forum of the Peoples Church. At 7:30 p. m. on Sunday he is to address the congregation of the Michigan Avenue Methodist church in Lansing. On Monday, May 29, at 7:30 p. m. he will speak before the state legislature in the house chambers on the subject "President Roosevelt's Foreign Policies."

## Glancing Back In Spartan Annals

M. A. C. Record—Tuesday, May 23, 1930.

The only societies listed in the college annals were Athletic, Glee, Junior Literary, Eclectic, Forestry, Hesperian, Olympic, Phi Delta, Theta, Union, Literary and Tau Beta. All the meetings of the men's societies were held at 7 o'clock Saturday evenings and the two women's societies held meetings on Thursday and Friday afternoons.

Monday, May 26, 1931. Debating at M. A. C. took a decided turn last Wednesday when the faculty authorized the formation of a triangular league with the University of Minnesota and Iowa State college.

Changes in intercollegiate basketball rules. Hereafter the ball when knocked out of the hands shall go to the opponent of the man who knocked it out. Formerly it went to any man getting it except he who last touched it. And from now on the center must hold one hand behind their backs when jumping.

Friday, May 25, 1932. The annual Michigan Intercollegiate Track carnival given by M. A. C. will be held tomorrow with track men from all Michigan colleges competing.

By the action of the faculty, the physical education course submitted by Coach Young will be installed as a regular course next year.

Thursday, May 26, 1932. Two thirty cases will be placed on the main lounge of the Union next month through efforts of Blue Key and the senior class, each presenting one.

About 3,000 attended senior swing on Wednesday night. Michigan State lost its first baseball game in four years to the University of Michigan Wednesday 4-3.

## Overnight Canoe Trip for Girls to Be Held Saturday

This coming Saturday night, May 27, the annual spring term W. A. C. overnight canoe trip will be held. Anyone who is a prospective member of W. A. C. is invited to go. The girls will start from the gym at 5:00 o'clock and each girl is to furnish her own blankets and canoe. A canoe test must be passed by everyone who wishes to go. This test will be given next morning by Miss Garvin, swimming instructor. A small fee will be charged to cover the expense of the food for supper and breakfast.

A second canoe trip will be sponsored Friday, June 2, and the same details will be carried out. Twenty-five W. A. C. points will be earned by each girl going on either of these trips.

## Green Splash to Stage Canoe Trip Sunday Afternoon

A canoe trip is being planned by Green Splash members for Sunday afternoon, May 28, according to an announcement made by Dorothy McDonald, president of that group. Members will leave the docks at 4:00 o'clock and paddle to Wolf Den where lunch will be served.

Miss Josephine Garvin, Green Splash adviser, and Miss Dorothy Jane Parker, honorary member, will be guests. Margaret Huston is general chairman of the affair with Carolyn Baker, Helen McLaren and Ruth Moore assisting her.

## Kellogg Bird Sanctuary Has Interesting History

Intricacies of Refuge and Breeding Grounds Established in 1927 Revealed.

By DON MACDONALD. What and where is the W. K. Kellogg bird sanctuary? What is its connection with Michigan State college? Why should we be concerned or interested in it?

The ignorance of the average State student in this regard as revealed by those and similar questions, makes apparent the urgency of giving here a brief description of this sanctuary, its establishment purposes and past accomplishments.

Impressed with the need of a place of refuge and a breeding ground for harassed bird life, W. K. Kellogg, cereal manufacturer of Battle Creek, established in 1927 a bird sanctuary of 90 acres surrounding Watergreen lake, a round lake of 45 acres five miles south of Augusta, Mich. He secured the services of George W. Corson, a lifelong game bird breeder, and spent thousands of dollars in erecting substantial buildings for the keeper and his plumaged wards, in planting trees and shrubs, and in purchasing exotic birds from all parts of the world.

This now widely known sanctuary was generously donated by Michigan State college by Mr. Kellogg in 1928. The donor also set up a trust fund, the income of which pays most of the operating costs. Supervision of the sanctuary is in the hands of a committee headed by Dr. R. C. Huston, dean of applied science.

This bird haven is part of a larger agricultural project, the Kellogg farm of 630 acres, which was also given to the college in 1928 as an experiment station. The entire farm and surrounding territory is particularly well adapted as a home for all kinds of wild life. The neighboring woodlands, extensive swales and lakes also furnish splendid cover for the creatures.

Only a narrow strip of land separates the farm from the east shore of Gull lake, one of the largest and most popular lakes in southern Michigan. As this lake and the surrounding land for 80 rods back from the water's edge have been set aside by the state as a sanctuary in which it is unlawful to kill capture or molest birds of game, the entire area is really an effective wild life refuge.

In July 1931, Dr. Miles D. Pirnie was made director of the "sanctuary." Prior to coming to Michigan in 1928 as ornithologist in the game division of the conservation department, Dr. Pirnie was an instructor in ornithology at Cornell university. In addition to his work at the sanctuary, he is on the teaching staff of the zoology department of this college and helps direct the work of graduate students who wish to specialize in ornithology.

In addition to serving as a haven for birds, the sanctuary now has an extensive aviary, built for entertainment and for the information of the many visitors. It also aids in the college summer school of biology.

Many students from colleges and schools come to the sanctuary by bus and automobile to spend a few hours studying the bird life on the grounds. Dr. Pirnie welcomes such groups and spends much time in pointing out the various species to be seen and in telling about their habits.

Although visitors are restricted to certain sections, especially during the breeding and nesting season, powerful glasses enable them to see most of the birds. Nearly 100,000 people visited the sanctuary during 1931.

The place is open to visitors every day in the year. The gates are closed at 7 o'clock during the summer and at 4 during the winter.

And all this seems to suggest that there would be a good place for you and the rest of the world to go the next time you want to enjoy a nice quiet Sunday afternoon and perhaps seek out the proper setting in which to do a little "talking."

## RADIO AMATEURS CONVENE JUNE 3

500 Expected at Meeting in Olds Hall; Talks, Banquet and Trips Planned.

Approximately 500 radio amateurs are expected to attend the Michigan Hamfest, sponsored by the Radio club of the college, at Olds hall on Sunday, June 3, from 9 a. m. to 9 p. m.

The term "Hamfest" will be understandable to those who are on the inside of radio affairs. Radio amateurs are known as "hams" and a "Hamfest" is a get-together of the amateurs.

The meeting is limited to those licensed amateurs within a radius of 100 miles about here, which number 1,000 in this area.

The morning program includes talks through the college laboratory, broadcasting station, and state police radio station. In the afternoon the program consists of technical talks, universal receivers, electronic coupling, amateur antenna systems, and contests. A banquet in the evening at the Union is planned with entertainment, stunts, and prizes.

Registration takes place at Olds hall and the fee is 60 cents. The Radio club was revived and made active again this spring. Just the licensed amateurs can operate in and members have been giving cash lessons for those who want to become affiliated with the group.

The club has been meeting every week and last Thursday visited five amateur stations in this vicinity. There is an amateur transmitting station in the Olds hall lecture room which is used by the club. Its call letters are WSSH.

## AG MEN TO HAVE JUDGING CONTEST

Gold and Silver Medals Will Be Awarded in Annual Competition.

The annual livestock judging contest will be held Wednesday, May 31, with agricultural students taking part. A small fee will be charged to pay for the medals which will be given. Formerly there have been from 90 to 100 students taking part in the contests each year.

A silver medal will be given for the winner for each breed of dairy cattle and for each of the four classes of beef cattle, sheep, hogs, and horses. Gold medals will be given out as follows: One to the high freshman in all classes, one for the high judge in the four dairy classes, one to the high man in animal husbandry classes, and one for sweepstakes high man. The National Black and Bridle club will give another gold medal to the high man among juniors who will be candidate to next year's looking team.

The National Black and Bridle club is the national animal husbandry fraternity and at a meeting last Tuesday afternoon the following men were taken into the club: R. D. Jolley, W. C. Tulloch, H. G. Walt, D. Henri J. F. Krooss and C. L. Taylor.

## STUDENT COUNCIL TUESDAY, MAY 23

Meeting called to order by President Asmus.

Present: Van Lopik, Heller, Von der Aue, Busch, Farley, Otley, Armstrong, McKibbin.

Absent: Dickman, Fisk, Steele, Bath, Peasley, Hutchinson, Lewis.

Discussion of eligibility of candidates in class elections. It was decided to follow the college rules for eligibility in making decisions.

Professor Johnston read letter requesting council's approval to establish a student loan fund from surplus of the Forensic fund from student-voted fees.

Armstrong moved to accept letter from Johnston, donating \$1,000 gift as a student loan fund from Forensic fund. Seconded by McKibbin. Carried.

Talk on student fees and the possibility of cutting them. Committee appointed: Lotus Asmus, chairman, Farley, McKibbin, Busch and Otley. To plan tentative list of cuts for various student fees appropriation.

Adjournment.

## Corps Commander Reviews Local Units

Major General Frank Parker, commander of the sixth corps area, was the guest of the R. O. T. C. post here last Tuesday. While here he stood in the reviewing stand for the weekly parade and was entertained in the evening with a dinner and dance held in the Union building.

Special features of the parade were the firing of 13 rounds from the anti-aircraft gun as a salute and the escort of 20 cavalry students which accompanied General Parker when he arrived at the parade grounds.

The reserve officers from Lansing were also guests at the review.

## Rare Books to Be Displayed

Early Books of Hort Department to Make Up the Final Library Display.

Rare books on horticulture, one being published in 1577 and others with the date marks of 1656, 1656 and 1729, head the final lobby display of the year in the central library.

The exhibit was arranged this week under the direction of Miss Jackson, the cataloguer, and attempts to show the resources of the library in horticulture and landscape architecture.

Frederic C. Bradford of the horticulture department has placed a reading part in building up the library collection of rare books on horticulture and landscape architecture which has been established in the library during the last five or six years.

Some of the last are in Latin, the universal language at the time they were published. Others were printed in German, old English, with the greatest number in the French language since it was there that the greatest interest and development in horticulture and landscape architecture occurred.

Another striking case contains large photographic prints of Versailles gardens, and the Petit Trianon and Rombouillet grounds in the same region of France. Books with plates showing Spanish gardens, Florentine villas and other Italian landscape art are included in this display. The showing serves to demonstrate the resources the library has built up for the courses in landscape architecture, essential if that department is to reach a high standing in the field.

Horticulture past and present is the subject in another of the displays. Old books and modern ones are presented showing colored plates which have been used for some time in books on this subject, although modern methods of printing them are much different. Latin and old English are among the languages used in the old volumes. Due to having illustrative plates, the books come in odd sizes, one being as large as 18 by 24 inches.

Modern country homes and gardens receive attention in a fourth

exhibit with bound copies of the gardens, planting of shrubs, ornamental magazine in the field, mental trees, and illustrations of House and Garden, displayed with successful landscaping about modern open pages. Various books used for the home owner as well as the professional landscape architect are represented in a number of volumes. Titles concern building suburban

# WOLVERINES HAND DEFEAT TO KOBBSMEN, 4 TO 3

## SPARTAN NINTH INNING RALLY FAILS TO TURN BACK VISITORS; 3,000 SPECTATORS SEE GAME

Kobbsmen Get 16 Hits But Have Many Men Left on Bases; McCann Gets Five Hits in Five Times Up But Makes Only Error of Good Game; Artz Gets Two Homers.

By DOUG GRAHAM

In a sensational game that was packed with thrills until the final at-bats, the Michigan baseball team avenged an earlier defeat yesterday afternoon on Old College field, beating Coach John Kobs' Spartan team, 4 to 3.

State put on a dramatic rally in the last half of the ninth inning that nearly broke up the lead game, but the Michigan nine tightened to retain their lead for the victory. Trailing 4 to 2 at the start of the bottom of the ninth, the Wolverines scored the last half of the fourth frame, Kirschner and McCann doing it by net one run. McCann was on second base with only one out when Ellowitz rolled out. Waterhouse in center field, however, made a brilliant throw to first base to get out the runner. McCann was on second base with only one out when Ellowitz rolled out. Waterhouse in center field, however, made a brilliant throw to first base to get out the runner. McCann was on second base with only one out when Ellowitz rolled out. Waterhouse in center field, however, made a brilliant throw to first base to get out the runner.

### State Bats Hard

State threatened to win the game in the first inning, but without any runs scored. In the second inning, however, the Spartans scored two runs. In the third inning, the Spartans scored two runs. In the fourth inning, the Spartans scored two runs. In the fifth inning, the Spartans scored two runs. In the sixth inning, the Spartans scored two runs. In the seventh inning, the Spartans scored two runs. In the eighth inning, the Spartans scored two runs. In the ninth inning, the Spartans scored two runs.

### SPARTANS TO MEET INDIANA AND CHICAGO

Two games are scheduled for the Spartans this week with Indiana University and one with the University of Chicago. Both games are to be played at home. Indiana games are scheduled for the afternoon of May 26. The game with Chicago is scheduled for the afternoon of May 27. The Spartans will be away from home for the first time since they left for the Michigan Normal and Michigan State games.

Michigan State's first game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's second game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's third game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's fourth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's fifth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's sixth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's seventh game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's eighth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

## THIS and THAT

BY DOUG GRAHAM

### Mental Victories

The favorite topic of discussion yesterday afternoon upon the finish of the sensational Michigan game was the repeating of the old saying that the Spartans may have converted the loss into a victory. It is perhaps the easiest way to win a ball game, but unfortunately the confuted adage was not posted on the scoreboard. The Spartans had a good many chances to push across that one run they scored. They knocked the score in fact, but had men on base in every inning. The Kobbsmen pounded out 16 hits, but made use of them to score the few runs needed. Eleven men were stranded on the bases. Five of these were in the ninth inning, and the Spartans had a chance to score in the third and fourth innings. The most dramatic opportunity was the score came in the fourth inning when McCann was on second base with only one out. Ellowitz rolled out, but Waterhouse made a brilliant throw to first base to get out the runner. McCann was on second base with only one out when Ellowitz rolled out. Waterhouse in center field, however, made a brilliant throw to first base to get out the runner.

We think that Michigan was lucky to win. No less than three State runners were thrown out at the plate in close decisions. We also think that the logical time to get the other needed run was in the third inning, when McCann was thrown out at the plate trying to score from second. He tried to cross the plate on Morse's safety into left field, but bumped into Brantley at the plate and was called out. Had he not done so, the Wolverines might have had a run in the third inning. We doubt if Brantley could have put the ball on him.

One On The Chin. Ellowitz's behind the plate quite a pounding during the game, twice getting hit with fouls. The first one came early in the game and whacked against his forehead on hard hit. The second one came later in the game and whacked against his forehead on hard hit. The third one came later in the game and whacked against his forehead on hard hit. The fourth one came later in the game and whacked against his forehead on hard hit. The fifth one came later in the game and whacked against his forehead on hard hit. The sixth one came later in the game and whacked against his forehead on hard hit. The seventh one came later in the game and whacked against his forehead on hard hit. The eighth one came later in the game and whacked against his forehead on hard hit. The ninth one came later in the game and whacked against his forehead on hard hit. The tenth one came later in the game and whacked against his forehead on hard hit. The eleventh one came later in the game and whacked against his forehead on hard hit. The twelfth one came later in the game and whacked against his forehead on hard hit. The thirteenth one came later in the game and whacked against his forehead on hard hit. The fourteenth one came later in the game and whacked against his forehead on hard hit. The fifteenth one came later in the game and whacked against his forehead on hard hit. The sixteenth one came later in the game and whacked against his forehead on hard hit. The seventeenth one came later in the game and whacked against his forehead on hard hit. The eighteenth one came later in the game and whacked against his forehead on hard hit. The nineteenth one came later in the game and whacked against his forehead on hard hit. The twentieth one came later in the game and whacked against his forehead on hard hit. The twenty-first one came later in the game and whacked against his forehead on hard hit. The twenty-second one came later in the game and whacked against his forehead on hard hit. The twenty-third one came later in the game and whacked against his forehead on hard hit. The twenty-fourth one came later in the game and whacked against his forehead on hard hit. The twenty-fifth one came later in the game and whacked against his forehead on hard hit. The twenty-sixth one came later in the game and whacked against his forehead on hard hit. The twenty-seventh one came later in the game and whacked against his forehead on hard hit. ## GOLFERS FACE NORMAL TODAY

Score Win Over Detroit and Hurons During Week.

Fresh from consecutive victories over Michigan Normal and Detroit, the Spartans will face the Hurons in a return match at the Country club this afternoon. The meeting last Friday at Ypsilanti resulted in a thrilling 9-8 victory for State.

Van Alstyne's two-artist display of their best form of the season in the measure of the University of Detroit last Saturday. With this, Turrell showing the way the Spartans won every match, swamping the Titans 14-4. Turrell shot a 74 in the rain and mud over the par 72 Clinton Valley course to defeat Captain Bill Whitman, U. of D. 3-0. Bob Clark, captain of the Spartans, also won the best ball event, 3-0. Bill Mitchell and Bob Mueller split points with their opponents in the individual match but played up to win the best ball play, 2-1.

The Spartans, as a squad are turning in consistently low scores due to the improved condition of greens and fairways, and Coach VanAlstyne expects par figures any day now.

The total match scores to date are: Turrell 15, Mueller 12, Clark 10, Mitchell 8, Her-Clark 5.

## BATTER UP!

Diamond Personalities

### Red Norton

Frank Red Norton, who plays center field on Coach John Kobs' Michigan State team, is alternating with Johnny Gaines, began his athletic career in his home town of Tuscaloosa, Alabama. It was also there that he picked up his nickname of Red, owing to his sandy-haired hair.

The Norton family moved to Detroit, taking the athletically minded Frank with them when he was just starting in high school. He played three sports in Detroit: basketball, football and baseball. In high school and then the Norton family decided to go back into the south. He finished his prep athletic career playing three sports for two of the Spartan high. At home, his favorite game, he played football and in the outfield.

He happened to come to State because he met Johnny Madonia, last year's baseball captain, and here, Madonia's former Spartan teammate in Detroit and they continued in the adventures of their lives. He turned out for football, basketball and baseball in the Spartans. He was also captain of the Spartans' football team. This season he has been batting .200 in the field. He takes a full cut at the ball, but upon the advice of the State coach has changed his stance so as to get more use out of it. He has one more run to his credit, knocked in the Jackson picnic game.

Other Notables. Lives at the Olympic house. His greatest thrill came in the first Michigan game when he watched McCann strike two men out in the fifth with the bases loaded. Takes the movies and Guy Lombardo's music. And also Betty Noyes, an Alpha chapter. Is the Olympic house clubhouse champion. Has a sore arm on the southern trip for so many long runs. Thinks the funniest part of baseball is watching the Playboys McCann and Kirschner warm up in the bull pen when Kobs and Artz are around. Wants to be a chemical engineer instead of a coach.

For Decoration Day. PANAMAS \$3.50. SPORT COATS \$7.95. WHITE FLANNELS \$3.95. TWO PANTS SUITS \$25.00. HURD'S. LAMING AND EAST LAMING. NEW CLOTHES AND REPAIRS.

## Netmen Make History by Trouncing Michigan Team

By TOM O'BRIEN

The University of Michigan's long domination over Michigan State tennis teams came to an end Tuesday afternoon when the Spartans routed the Wolverines 7 to 2 on the college courts.

It was the first Spartan victory registered over a Michigan net team in the history of modern relations between the two schools and came as an adequate revenge for the 5 to 4 setback suffered at the hands of the Maize and Blue at Ann Arbor two weeks ago after capturing four out of the five singles.

Van Alstyne's two-artist display of their best form of the season in the measure of the University of Detroit last Saturday. With this, Turrell showing the way the Spartans won every match, swamping the Titans 14-4. Michigan State's twelfth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

Michigan State's thirteenth game was a home game against the Spartans. The game was a close one, with Michigan State winning by a score of 4 to 3. The game was a very exciting one, with many hits and runs. The Spartans were a very strong team, but Michigan State was able to beat them.

## AL KIRCHER POUNDS BALL FOR .439

Al Kircher, Spartan outfielder, continued to lead the State baseball team batting into this week, hitting for a percentage of .439. Kirschner, who hit out of uniform with a finger ailment, returned this week to lead his average to .607. Pemberton was trailing Kircher by only 10 points, being credited with an average of .429.

The averages including the Michigan Normal game are as follows:

PLAYER	AB	R	H	Ave
Kirschner	12	5	6	.607
Pemberton	21	9	42	.607
Ellowitz	31	19	33	.581
Morse	39	11	28	.564
Langer	41	12	27	.561
Brantley	38	15	24	.553
McCauley	49	12	34	.551
Waterhouse	32	10	23	.531
McCauley	35	8	23	.514
McCauley	22	5	27	.527
McCauley	7	1	14	.500
McCauley	17	2	11	.471
McCauley	9	1	11	.444
McCauley	30	2	10	.400
McCauley	3	0	0	.000
Total	493	142	288	

McCauley, Spartan right hander, batted for the Normal nine and did very well with his underhanded delivery and change of pace which kept the visitors guessing.

The summary:

MICH STATE	AB	R	H	O	A
Langer	36	1	0	2	1
Kirschner	31	1	1	1	0
Fawcett	31	4	6	1	0
Ellowitz	30	3	0	8	2
