### Will Crowds Be Tops Too?

### Cut Classes tre Expensive

Much emphasis is placed on classwork is lecture notes that are lost through utting a class. Perhaps a glance at the

It costs the average Michigan State student about 75 cents to cut a class. A good three-quarter dollar is lost every time a three-quarter dellar worth five packages

A student wouldn't think of buying at admission to a theater without using it ut still many students, after having paladmission price to attend a class ofrow away their ticket through cutting Look at it this way. It costs the average State student about \$600 a year to attend school. He has an average of 22 classes

weekly, which, when multiplied by the 36 weeks which make up a year, make 792 class meetings annually. Therefore, it costs slightly over 75 cents a class.

So, doesn't it seem foolish to pay money to attend college, which the greater number of the people never are able to attend, and then fail to go to classes?

Before cutting your next class, think over what you would do with the threequarter dollar if it were available to you at the time; then think of the 75 cent admission ticket which you are tossing away.-W. J. R.

### Skips High School

The fellow recently declared the tanding freshman agriculture student last year, Leonard Westrate, is a fine example of what the individual can do when he realizes his own limitations. Without any formal schooling after the eighth grade he took a short course at Michigan State and was admitted to college because of his
