#### AWS. Council Drop Bid Exceeds Serious Business: To Hold Picnic

'All work and no play is likely to make Bill, Dick, Mary, and all the other old and new members of the AWS and student council dull persons."

That evidently is the idea held by members of this year's AWS council, No. 40 prevent this occurrence, they decided to entertain members of both this year's student council and next year's AWS council at a pienic super in the Forester's cabin from 5:30 to 7 p. m. Tuesday.

#### Welcome, Future Farmers

Michigan State is host today and tomorrow to approxi mately 3,000 young Future Farmers of America who hav gathered here for their 20th annual Future Farmers con

These young Future Farmers gather each year to spend a short time on campus. While here they will be busy competing in contests, absorbing some knowledge of scientific agriculture and a lot of information about the activiof other club members throughout the state, and in

addition, having one of the best times of their life.

Michigan State is proud to play host to these young people and hopes their stay is enjoyable. Welcome Future Farmers

"Practice makes for perfection"—adage. And ten Michigan State. SIGMA NU hotel ad students take over the Hotel Olds for a day.

#### 1 Worth-While Project

With the announcement of Green Helmet, sophomor honoracy fraternity, that a series of curriculum guidance

conferences will be beld, sophomore and freshman students showed new interest in the activities of the organization.

Michigan State college has had vocational conferences before, and will have them again. However, in appealing to students less far along in school, Green Helmet has hit

be to explain the duties of an occupation the student already chosen, but to help the student decide upon his are course in life. A large percentage of freshman and

STATE COLLEGE BOOK STORE

Did you know that radio broadcasting stations from coast to coast are linked by more than 53,000 mile of special telephone circuits?

Even before the earliest days of broadcasting

Bell System engineers developed means of tran-mitting sounds of all kinds by wire. These have been improved constantly to transmit the extremely high and low sound frequencies of music and

Just as years of telephone research stand back of today's special broadcasting circuits—so the research of today is helping to solve the communications problems of tomorrow. Another Bell System contribution to your daily hige.

# CUMMINGS-WINNINGER-LUNDIGAN

Think of the things most men like best — horses, pipes, guns, even lounge chairs. They all need breaking in before they can be fully enjoyed, before they become yours personally. At one time shoes needed breaking in too, but not any more. Smith Shoes are crafted to be enjoyed at the first step. All the breaking in has been done for you by the hands of Smith's skilled craftsmen. Let us fit you in a pair now and you'll see why they are the yardstick by which all fine shoes are measured.
