The crash came as a tragic climax to a gay party of raternity and sorority members from Butler university.

This could have happened at Michigan State. Many fragmenties and sororities as well as other organizations go on the country of fraternity and sorority members from Butler university."

ternities and sororities as well as other organizations go on ternities and sororities as well as other organizations go on hayrides. Usually the hayride party goes out on the highway with poor tail lights and traveling at a dangerously slow speed. Contrast this view with the one of automobiles speeding 40 or 50 miles per hour on the same highway.

The Michigan State social committee should not wait until several students lose their lives before action be taken on this matter.

It is very likely that the students and faculty who have been enthusiastic boosters of havrides have not realized the Loomis and Bud Conklin about been as lipover, because all the Engish students war them, and Tyrone Power payed half of his big scenes in his last smeller of the students don't own vests. Michigan State's social committee would be wise in preventing an accident such as the Butler incident instead of feeling sorry after a life is snuffed out.
