Just Innocent Fun

Last year during the frosh sophomere battle 14 wer-injured and treated at the hospital. Three students were hur badly enough to necessitate treatment for several days. The games were supervised and planned carefully. But in fina analysis supervision made little difference

Certainly Michigan State can do without these games which are injurious and only a step removed from barbarity. Fun the "thrill craze." State students should not be "sissies but neither should they be ruffians.

Art Classes Feel Affect of War

Influence of the second World War has reached art classes at Michigan State college. War themes and designs feature a majority of the pictures now being done in charcoal by art students in Morrill hall studio.

Modernity in a line of shells

Modernitz in a line of shells ready for war, a mass or armore with a striking resemblance to Hitler, and similar themes predominate.

Cannon, ships at sea and rolling black clouds symbolize war. Hitlers and Mussolinis vie for prominence in the themes, while guns and bullets also receive considerable attention.

Highlights of W. A. A. Freshman Fashion Show

First eye-catcher at this fashion event was the charming commentator; Margery Baldwin, who looked chic indeed in a black zipped-up wool with pink and blue vertical insets across the bodice. A peaked black hat and pumps completed the me-d-i-s-h effect.

Mannequin Anita Stewart won plaudits with a red plaid.

ODACCO...opens Doors to Fields where People Live. Work & Achieve

oday there are about 1,000,000 cigar stores, drug stores, country and grocery stores where you can buy eigarettes in the United States. These retailers, and the jobbers who serve them, have built up a service of courtesy and convenience unmatched by any other industry catering to the American public's pleasure.

HERE ARE ANOTHER MILLION people who are engaged directly or indirectly in the transportation of eigarettes to every town, hamlet and crossroads.

IT IS ESTIMATED that there are 1,602,000 tobacco farmers raising tobacco in 20 out of the 48 states. Good tobacco is one of the hardest crops to raise and bring to market, requiring great skill and patience from seed-bed planting to harvesting and curing. The modern tobacco farmer has done well the job of constantly improving the quality of his product.

THE AVERAGE LENGTH of service of the 13,230 people working in the Chesterfield factories, storage houses, leaf-handling and redrying plants is over 10 years. This means that every step in the making of Chesterfields, regardless of how small, is handled by people who have had 10 years of experience and ability in knowing their jobs.

RULY TOBACCO OPENS DOORS to fields where people live, work and achieve, and Chesterfield takes pride in its ever increasing part in this great industry that is devoted entirely to the pleasure of the American public.

> TO SMOKERS, Chesterfield Cigarettes have always said, and now repeat, that in no other cigarette made can you find the same degree of real mildness and good taste, or the same high quality of properly cured and aged tobaccos. Chesterfield Cigarettes are made with one purpose only... to give smokers overywhere the MILDER, BETTER-TASTING SMOKING PLEA. SURE they want. You can't buy a better cigarette.
