Today's Campus To the Rescue

The young temper's dictum "The world must go on" was up to task by Dr. W. F. Pease, president of the Lansing City Board of West Junior High School. Lansing, who plays an important part in the life of the drama, was taken with laryngitis and couldn't speak above whisper.

In response was called on to act as substitute himself, in his regular temper fashion, to help to teach the 11th and only one rehearsal, stepped onto the stage and went through his production without a single cut.

Last Chance

Students who failed to register to attend this year's major lecture must leave their registration either at State News office or with Harry Dowd, 510 N. University, by noon Monday, by adding their name and presenting identification card through Union service at Union desk.

olution!

At last one good thing came out of the first session of history department title Thursday. It was a winter term in question on the old English church, someone suggested that against 12th century bishops and a prayer book in one hand and a sword in the other, the number of bulls of excommunication or bulls of damnation were few. H. Kimber, in his speech, particularly remarked, "I took out our law, a bullope bottle with a corked end, and reciting a prayer book in

the power book in your pocket recited Dorothy Ruth, "and I'm mowing the cemetery.

elly Good

Campbell hall needs a Sherlock Holmes. It seems that several students with a flair for Reportorial work have taken pictures in the dormitory contrary to dormitory rules. Mrs. McNamee summoned the dorm council in an attempt to find out who had done the dastardly deed. In the meantime, the police room was closed until the guilty were found.

College Club To Hear "Domestic" Talk

Michigan's New Water Division made the topic of Milton S. Eddleman before the State College Club. Wednesday. Wednesday night will be chair-

Date Set For 1940-41 Lecture Bookings Inter Frat Meeting

With Dr. Ruth Alexander, economist and writer, scheduled to make the concluding talk on the Michigan State college current lecture series on Tuesday evening, bookings for the 1940-41 series are nearing completion.

Two women famous in the American theater are on the list of four speakers already scheduled for next school year, the lecture series committee announced today.

Michigan State's fourth annual Interfraternity Council meeting will be held here April 4, 5, and 6.

Inaugurated here four years ago, this year's program will consist of meeting and discussion round-table sessions and three general programs.

The theme of the discussion will be "Your University in Michigan," and Miss Elizabeth Parker, of the Michigan State College, will be a leading speaker in the American theater.

Also on the 1940-41 series will be John Muir, director, Michigan Dramatic Association, and Miss Elizabeth Parker, of the Michigan State College, in a leading actress in the American theater.

Through the exchange of ideas and frank criticism of policies of generations, under the leadership of local and off-campus fraternity leaders, it is planned that the selection of all will be based on problems of interest to students.

UPPER FRAT LIPK

In the three day program, the problems discussed will cover every phase of fraternity life from running to alumnae relationships.

However, no invitation is yet sent, nor another in the six days session. Their main purpose is to make fraternity men aware of activities or dangers in or involved in the government of fraternal organizations. Dean P. T. Stetson said yesterday.

From 50 to 75 off-campus graduate and undergraduate fraternity leaders are expected to attend the three day program here. Those invited to be represented are University of Michigan, Indiana, and Colleges in Ohio, Indiana, and Illinois.

UPPER TO SPEAK

Officers in the Interfraternity Conference will be the main speakers of both day and evening programs. Two of them are George R. Taylor, vice-chairman of IFC, and editor of "National magazine of Michigan State, and Peter H. Member, past president of IFC and present executive secretary of Zeta Psi.

Other speakers will be other graduates of local and off-campus organizations, local alums, and national officers of several nation al fraternities.

Fraternalists have expressed the belief that past conventions have been of use in Michigan State in making clear to them all qualities necessary to good fraternal organization.

Dorm Men Top Fall Marks

Although an estimated 50 percent of the 200 freshman housed in Wells Hall have just been given fall term average for either term topped their term mark once.

The all-term average according to figures released yesterday from Housing Services Office was 1.89. That topped the fall term mark for the same group of 1.88.

Term record highest was an average of 1.96. The fall term division of approximately 35 men each, ranked in the following dorms: Lawrence, C. E. A. P., with scores of 1.95, 1.94, 1.93, 1.92.

Division record highest was an average of 1.90. The fall term division of approximately 35 men each, ranked in the following dorms: Lawrence, C. E. A. P., with scores of 1.89, 1.88, 1.87, 1.86.

The all-term averages of Adair and Mason halls also topped their fall term average. The 87 men in the all-term division of the two dorms averaged 1.86 as compared to the previous term's average of 1.83.

Princeton record highest was an average of 1.89. Of the 18 one-term representing 100 dormitories seven had an average of 1.8 or better.

Drama Group To Give Play Tryouts

Chances for members of Studio Theater, who have not been in plays to date, will be offered by that club at 7:30 p. m. Tuesday, when tryouts will be given.

Two plays will be presented at this first meeting of the spring term.

Philosophy, Comedy Keynote Play

By JANET HALL

"There is nothing to grand that did not make good roads," the closing speech denotes the philosophy keynote running throughout Maxwell Anderson's drama, "High Tor," spring term play scheduled for April 10 and 11.

The fantastic comedy embodies a struggle between idealism and materialism while still retaining a humor peculiar to Anderson. The theme throughout the entire play stresses that material prosperity is vain, material things do not count and will inevitably crumble.

Two promoters struggle to get the mountain, High Tor, away from Van Dorn, its idealistic own-

er, furnishes the main plot of the play. An unusual interplay between the spiritualistic and realistic worlds introduces a love interest in the drama.

Life, a spirit of a girl who had lived on High Tor 200 years previously, tries to revive the realistic part of her life by making love to Van Dorn.

As the philosophies on the modern world from her world and analysis what has happened to her in the last 200 years she relates a conclusion later revealed by her speech to Van Dorn when she tells him to take life while it is here because the earth becomes less and less solid.

Women Plan Style Show For April 4

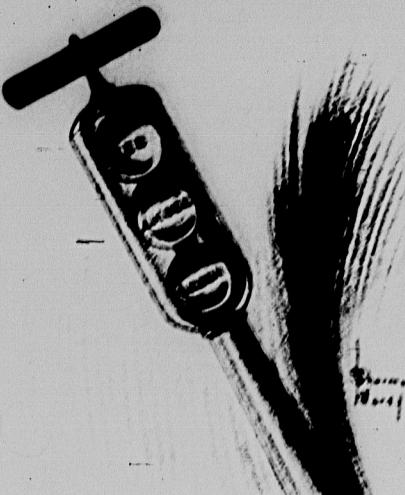

100 Students Will Model Wilma Petta General Chairman

Annual Home Economics Spring Style show, sponsored by Home Ec club, will be held in the Little Theater of Home Economics building Thursday, April 4 at 7:30 p. m.

Sixty retailing experts are in charge of the year's show under the general supervision of Home Ec faculty.

Evidence of action being taken to alleviate Post Landing traffic problem is a new parking lot created at the end of the Avenue near intersection of Grand River and Post Landing, according to Ward Head, Post Landing police. The sign reads "Michigan State College Post Landing 4000 Students." A sign placed on Avenue near Grand River traffic field will be installed at Avenue and the main college gate, according to Head. Thirty five new stops and speed limit signs have been posted in Post Landing.

Marriage Class Series Grows From Small Beginnings

Three years ago members of Monroe Board took the initiative stage marked creating the first student marriage class. This Monday 120 fully registered couples and a scattering of parents and spectators.

Planning is in started soon will attend the first series of the 1940 series.

Enroll Thirty For Special NYA Work

Approximately 300 Michigan students will receive financial aid through the NYA program next month. March 27, when the enrollment begins for teaching, nursing, and related arts, and the Michigan Department of Education expects 1000 students to be enrolling in the 1940 series.

SPARTAN PORTFOLIO

By DON ANDERSON

From down south way, where the Spartan baseball team is winding up its spring training trip today, comes word from George Owen who has acted as our correspondent, as well as playing a hang-up game at first base for State. —Bye Georgia.

"The south is having a tough winter, as if you didn't know. Most of South Carolina is covered with snow. However, the two days we spent in Georgia were really summer days, warm and clear. But as soon as we left Georgia we can look snow."

Spartans Do Well in South

"The games we have played have given us a pretty fair start on our team. The infield is fast and sure, the outfield can really cover ground, but the hitting is still off and the pitching hasn't arrived."

Reports and indices of the Spartans' games have pretty well born out Owen's statements. Except for a few instances, the pitching has been rather spotty, although it has picked up some in later games. The hitting has been rather light, but we know John Kubis is gratified by the fact that it has been of the steady variety. On the whole State's baseball players have done quite well in the south, considering that that section of the country is looked upon as the hotbed of baseball in so far as producing the majority of top talent is concerned. In addition State went south without so much as a look at an outdoor diamond.

Michigan State baseball teams have usually fared well in their southern bounds. A few years ago they came back with a record of seven straight victories. And they don't pick soft spots. Georgia and South Carolina annually rate among the south's best.

Kubis Recognized As One of Best

Michigan State is fortunate in having one of the better college coaches in the country in John Kubis. In fact, so well is he thought of by baseball men that many a fine major league prospect is sent to do his college baseball playing under him. The Detroit Tigers are one team who have put several of their young players under Kubis' tutelage. Michigan State has graduated a good many into baseball's paying ranks.

We asked one who should know a few years ago why Kubis was so highly thought of by baseball men. We received this answer: "It's because he teaches his teams the same tricks they use in the big time. Most college coaches have a system of their own which often times isn't in accord with the way things are done in the majors. Kubis coaches his players in the way major league managers coach them."

Just Takes Good Coaching

And so, there is a very apparent reason why Spartan diamond teams have been so successful against Dixie lines. It just takes a little good coaching.

Sportsriter Charley Gehringen is going to be left behind when the Tigers head eastward — he'll stay in Florida for a time until his bus comes around a little better. — Charley is bothered with sacroiliac trouble, which can cause a man a lot of grief. The sacroiliac is the lower portion of the spine which hinges into the ilium in somewhat the same fashion as zippers fasten. When the body parts don't like with their corresponding slots, it's just too bad.

College Trainers Too Tame

Talio Maki must be made of rubber . . . his idea of a rubdown is a severe pounding . . . college trainers were much too tame for him, and he claims he hasn't had a good rubdown since he left Finland . . . he didn't call the track in Jenison Fieldhouse the best he had run on, but he was plenty pleased with it . . . his only complaint was that it was a trifle dry.

Ben Van Alstyne may be surprised to find his suggestion for the abolishment of the zone defense getting more audience than he expected — it's prohibited in the Big Ten and the feeling against it has slowly spread. Coaches have begun to realize that the crowds don't like it because it slows up the game — it may be a few more years will find it outlawed.

Wrestlers Out

CHAMPAIGN, Ill., March 29.—Bennie Rizzo and Bill Martin, Michigan State college representatives in the National Intercollegiate Wrestling championships, were eliminated in second round matches here tonight.

Fencers Win

HIGHLAND PARK, March 29.—Michigan State's fencers nosed over Lawrence Tech, 9-8, here last night. Jerry Richardson with three wins out of five and Ben Binger with two out of three led the Spartans. Roland Rogers was high man for Tech.

GIVE US A TRY

Lots of Luck, Benny . . . Go Get 'em!

No says Charley Hutton, right, to Benny Rizzo before the latter's departure for the Intercollegiate wrestling tournament at Urbana, Ill. Rizzo and Bill Martin were Michigan State's only entrants in the tourney. Hutton passed it up to visit his home in Pomeroy, Ohio. Rizzo and Hutton were co-captains of this year's Spartan mat team and have been re-elected for next year.

State Indoor Sports Bat .691

Michigan State college athletic teams have included a successful dual meet indoor season. Five varsity teams wound up a 50 meet campaign in five branches of sports with a winning percentage of .691.

The fencing team, boasting 12 victories out of 13 starts, had the

best record, and the track squad, defeated in three dual meets, was the one in the "dog house." State's fencers are regarded as the most powerful foil aggregation in the midwest. Lawrence Tech of Detroit was the only team to defeat the Spartans. Later in the season

when Coach Charles R. Behmerters had his team better organized State won from the Technicians handily.

THINGS ARE WEAK

The track team simply did not have the strength indoors this year. Coach Ralph H. Young lacked quarter-milers, sprinters and hurdlers. What hopes were won went to such stars as Walter Arrington, in the high jump; Captain Roy Fahr over the mile; and 800 yard distances; and Dick Frey at 2 miles.

The basketball team accounted for its best record in five years by winning 14 out of 20 games. Attendance at games was the largest in the history of the sport here. Co-Captain Marty Hull and Captain Chester Antonchuk starred in a difficult schedule that carried the Spartans from coast to coast against major opponents.

There was nothing new about the swimming team. Michigan swimmers eclipsed every variety

record except the 150 yard back stroke in winning six out of eight meets. Leaders were Dan Farmer, free styler and back stroke; Dale Hansen, free styler; Ted Hamm, distance man; and Leopold LaFrance, diver.

Coch Kennedy Collins produced a wrestling team that won 18 meets, tied one and lost two. Star of the cast was Leeland Merrill, Parkersburg, W. Va., who made his undefeated at 106 pounds.

Co-Captains Beemer, Rizzo and Charles Hulson and Bill Martin were other consistent winners.

The boxers traveled a route that did not seem to them. They participated in three draws during the season, cutting off all even with Syracuse, Bucknell and Temple.

They met defeat at the hands of Wisconsin, Penn State and West Virginia.

State Nine Closes

Trip at Kentucky

Spartans Boost Winning Average

RICHMOND, Ky., March 29.—John Kubis' baseballers wind up their spring training joint here this afternoon in a tilt with Eastern Kentucky Teachers college. Following the game the Spartans head back east for Lansing, registration, classes and a soaked baseball.

State's record for the trip remained unchanged when rain canceled a return match with South Carolina Thursday. And the second frame, the Gamecocks were routing 7-5 and collected from the offerings of Bill Hall before the so-called game.

HITTING IMPROVES

Progressively improved hitting has sparked the Redmen's mark this year. Opening against Georgia, only two hits were registered in the State side of the ledger, but after baseball returned the game 3-2, still weak hitting was absent the next day as Georgia struck a 5-4 revenge triumph.

The Spartans could get only 3 runs against Clemson, but Clemson could do no better and the affair ended in a tie. Following this the armed forces returned and an 11-5 win over Presbyterian School of South Carolina and then really swung into action to take the South Carolina tournament for 22 hits in winning a 12-inning contest 14-12.

PITCHING SHAKY

Good in spots, but generally shaky, pitching seems to be Kubis' big problem at the moment. The pitching situation was not helped to say the least, by the loss of Ray Dahlberg when winter term work was distributed.

A brighter spot in the defense which has stood up well in its first test under fire.

After reaching the corner the ball players will return to the confines of Demonstration hall for practice, although it is hoped that a few practice sessions can be held outdoors if the ground dries out.

RECORDS FOR STATE

Records for Sigma Delta Phi, national physical education honorary fraternity, will be held the second week of April, according to Fran Dittrich, local adviser.

Membership is open to all college men interested.

Further information can be acquired from Mr. Dittrich at the athletic office.

With George Keller, veteran butter, also very much in the running Warren Gandy, past quarter-miler, will also take a try at the title.

SEASIDE MAN

The middle-distance cooks have started a seasonal performance in Kurt Maden, a former letter winner. Hugged Earl Stevens, who was the fastest of the frosh during spring last spring, holds the hurdle department.

Coach Kendley Collins produced a wrestling team that won 18 meets, tied one and lost two. Star of the cast was Leeland Merrill, Parkersburg, W. Va., who made his undefeated at 106 pounds.

Co-Captains Beemer, Rizzo and Charles Hulson and Bill Martin were other consistent winners.

The boxers traveled a route that did not seem to them. They participated in three draws during the season, cutting off all even with Syracuse, Bucknell and Temple.

They met defeat at the hands of Wisconsin, Penn State and West Virginia.

The first outdoor meet is scheduled for April 13 with Purdue on the Spartan track, but there is a possibility that Young will send a few of his stars to the Texas Relays next Saturday.
