Mekules to Pitch Against Broncos Neither has the State News nad at any time point any of its editorial or news material or in any of its policies.

The whole affair cost the State News prestige and actual

money in printing an issue clarifying its stand.

The importance of this matter renders it essential that neither politics nor personal feeling enter into any action

For that reason, the College Board of Publications, acting with the administrative committee, will give final judgment. The State News will rest its case with whatever action the

TOM GREENE, Editor

An Open Letter

In order to correct the ill feeling against the president of the Student council, which was in evidence on campus ves terday, for his position on the senior presidency election. I hereby take this opportunity, through the medium of the students' newspaper, to attempt to remedy the situation.

This position was one which is and should be above frater nity politics. His attitude should be commended rather than MORGAN BEATS PAGE condemned, and his efforts toward better student government will no doubt take a more material effect in the future.

May I, at this time, express my sincere appreciation for the manner in which Editor Greene and President broening handled the situation.

The students have voiced their opinion and I willingly abide by their decision because I realize that this is most e sential to better student government at M. S.

## Beg Pardon?

A.W.S. is still working on the job of rounding up 400 "Big Sisters" to smooth the way for freshman women next fall,

There is a lot of good work that can be plenty-just ask them, they still have a lot to learn about college and college life. Sponsors of the plan have a good idea in coordinating interests and ages of counselors and little sisters, since in that way the system. care be made to be of real value to both parties instead of the mere formality that so much advice to freshmen becomes.

Nevertheless, there are some things which even mature Big Sisters cannot give much advice on. There are few persons qualified, for instance, to give a complete summary of the inter-group fends and knifings arising from campus politics. But that is just as well. After all, such topics are not for the ears of innocent freshmen.

Or isn't that the way you heard it?

Leukemia is being treated with an orange juice cocktail spiked with radio-active phosphorus de-veloped in the University of California's 200-ton atom smasher. Yum Yum.

## It's Interesting

The State News doesn't want to force Culture upon anyone, but college students are generally understood to have such a back ground as to be able to take if in stride.

Now on exhibit on the second floor of the Union are the works of many student artists, -collected for the annual Art Mart, sponsored by Beta Alpha Sigma, art honorary. Last year the exhibit attracted much favorable attention and more than 1,000 persons voted on which was their favorite work. That total represents one-sixth of the student body. showing that students have a greater interest in things cultural than the movies and magazines would lend one to believe.

But there is really nothing tea-and-larguettish about the Art Mart. It is just an exhibit of interesting work done by students; interesting as art, and interesting from the stapelpoint that the talented artist ware fel-

Owen Williams. Negro cook at a woman's do mittery of North Texas State Teachers college, speaks French and commits Shakesprare to memors. Hope the meals don't resemble the caudion ory. Hope to in Macbeth.

# And Still Closer-

Bomb shelters on the campus even though the experimental plans for defense courses to be held here this summer under direction of the Engineering division call for no reacing hombers, they are enough to cause a few

Until now, it had seemed that besn't shelters were something like St. Paul's cathedral-they belonged ever in London, to bewritten about in cable dispatches from foreign correspondents.

But as a logical part of defense training they, are to be constructed here, at Michigan State college. That puts the war much too close for comfort. However, anyone who is still trying to consider the war as an impersonal thing, which cannot touch him, is living in a beautiful dream world.

Just the same it would be nice to think that the only planes that could ever ily over the campus are those student pilots who rear

around every now and again, showing off for the benefit of someone whom they can't see and who can't see them.

The University of Georgia is adding a course in Portuguese: Maybe Carmen Miranda will go for a Southern drawl.

## Quotable Quotes -

"With the world tottering about us and all that we value in our customary way of life hanging in the balance, it is sometimes difficult to realize that the workaday routine of college work is significant. At the same the college to stimulate the emotional and tries yesterday. spiritual values as well as the intellectual.

What we all need now more than ever is stony of the French dilemma

on March 7, 1935—the date down allies, Rumania and Yugo-tions, a conviction that during the past 200 demilitarized Rhineland.

Hitler sent his troops into the demilitarized Rhineland.

Destiny of Labor. demilitarized Rhineland. All their functions to their functal and France had been in room 100 Moscill hall. His subther function of the Rhineland that fateful day the French army into the contributions to this development are due to men of vision, high purpose and wisdom. This is no time to emphasize the seamy side of our past—or period of our present—if there be such. A nation, like an individual, has a right to be taken at its best rather than at its worst, until the contrary is proved." Dean Herbert E. Hawkes of Columbia college arges that colleges stress only the best in Americanism.

# ? And What? Do You Think

book over in the library. That is ordinarily in 1555; this has recently been the subject of many stories and articles. The name is "The Oracles of Nostradamus" and to sum it up briefly, it contains rimed

of the book, and it came at a very opportune, time. It has just been pointed out that one of the passages predicted Rudolf Hess' flight to Scotland. Don't rush over for the book now, however, expecting to be able to take notes on what will happen in the next three months.

AFTER ALL, A PROPHET can't come right out and tell all he knows. The passages are not always too clear and take plenty of reading between the lines. As for example:

From Lake Leman sermons will come First by days, then reduced to weeks. Then months, then years, then they will all fail

And magistrates will damn the futile

THAT SEEMS TO BE a long range forecast of the fate of the League of Na-

history, he was born in 1503 at St. Remy, France. He won considerable distinction for medical skill and profound learning. In titled "Centuries," which gained him his reputation as a prognosticator.

THE FACT THAT, being French, he the attention of the English-speaking peo-oles for pulic a while, until his reputation about attack from across the Atmerited a translation. That business of translation has been quite a handicap to the English.

IF THEIR STATESMEN had read Nostradamus, or even "Mein Kampf," might have been able to formulate a policy that would have kept the tight little isle out of the mess it is in now. What the outcome wik Fe is a matter on which there is disagreement. Maybe YOU are the one who can pry the answer out of Nostradamus, Hitler's collected speeches, or out of the leaves from your cup of orange

IF YOU FIND OUT for sure, drop around and tell us at the State News office . . . ob. yes, and you might address a postcard to President Roosevelt, too, he might be interested.
