Six Leaders Get Gold Key Awards

By Bill Barclay

Six Michigan State college juniors who will hold top positions in student publications during the coming year will wear gold keys signifying highest awards of the Board of Publications. It was announced at the annual Publications banquet Tuesday evening.

The new pledges and their names and their activities are: Len Barnes, Cadillac junior, associate editor of the State News; Ellis Bequet, sophomore from Wayne, editor of the State News; Robert Astley, Miami, Fla., sophomore, named 1941-42 Sports editor of the State News; George Herbert, Dearborn, freshman, State News editorial staff; William Day, Freshman from Cadillac, editorial staff of the State News; Victor Foster, Waterloo, Iowa, sophomore, Spartan staff.

Following the publications ban-

quet, Sigma Delta Chi, initiated

three outstanding members into

the professional journalism fraternity.

Charles Foss, who will be State

News graduate manager next year,

Margaret Trout, graduating mem-

ber of the State News staff, and

Tom Westrate, graduate of last fall

who edited this year's student dis-

covery, were given the Sigma Delta

Chi awards by Tom Hardy.

Tom Green, and Ed Morey, news

and advertising managers respectively of the State News

last year, were awarded gold

keys by Jack Simola, who edited

the State News until his resigna-

tion early in the spring.

We heard a lot about "clambake" par-

ties, fishing parties, and

skunk parties, and so like," said Tom

Hardy Earl Bigelow, who said

PRESIDENT PLEDGES U. S. NAVY BLAST KILLS 12

Under the Wire

WASHINGTON, May 28—Extending the present naval patrol to virtually all of the "seven seas," President Roosevelt served today that the United States Navy will patrol the seas wherever submarines operate. Actual operation of the new naval patrols will be kept secret.

ATTENBURG, Miss., May 28—At least 12 persons were killed when were injured in an explosion at the Dixie Pine Corp. today. The explosion occurred in a portion of the plant where approximately 100 persons were working. All available firemen were sent to the scene of the catastrophe to battle the blaze.

WASHINGTON, May 28—Congress moved to step up defense program today as a House committee approved the largest single-peace appropriation in history. The bill, providing \$2,452,000,000 for War department, is topped only by a \$1,900,000,000 appropriated during World War I.

ZIROTT, May 28—Officials of the Packard Motor Car Co. announced tonight that an agreement had been reached with members of the UAW-CIO to settle a threatened walkout. Union representatives declared their intention to strike last week. The announced agreement is subject to ratification at a special union meeting tomorrow.

Air Waves And Air Power

Events bore out the words of President Roosevelt as he made his long-awaited speech Tuesday evening.

As he declared before the world that arms production must not be halted and that the weapons must reach Britain, the European picture clearly showed that the United States will play the decisive part in this war. Machines and not men will swing the balance. Courage shown by both the German fighters and the British and Anzacs in the battle for Crete and the great sea fight off Greenland has been truly amazing.

Airplanes are the difference. Air power has made possible the Nazi successes in Crete and air power overcame the mighty Bismarck.

Roosevelt's speech was significant; he made a clear stand against the Axis. From it, although not in so many words can be traced the probable occupation of Martinique and perhaps other islands farther east; the extension of the patrol system by the navy; perhaps even use of convoys; and surely capital and labor now know that there will be an end to bickering.

But fully as important as that memorable speech was another announcement—an announcement that the President had asked Congress for an immediate appropriation of almost three and one-half billion dollars for "planes—new planes."

The question of American entrance into the war cannot be answered now. Everything depends. It depends on events such as the lucky hit that sank the H. M. S. Hood. It depends on just how the Chief Executive carries out the plans, which were indicated generally in his speech. But paramount is the question of whether American industry can deliver.

If American planes can replace Messerschmitts and Heinkels in the European skies there is hope—hope that Britain may win and that the United States will find no hysterical cause for sending troops to Europe uselessly.

Take A Book Along

Aside from the danger from passing colds and mosquitoes the springtime custom of campus couples reclining hither and yon about the greenward seems to have ramifications.

Report says that the sight disgusts and offends many persons, even, strangely enough, high school students walking here for the first time. If this is true it would appear that a widespread impression could easily be gained that M.S.C. falls under the classification of a "country club."

Aesop once wrote a fable about a man, his son, and their donkey, which got across the point that you can't please everyone, and that if you try you please no one. Perhaps when a couple gets the idea of resting on the turf they are thinking of their own comfort, which is a pretty sound consideration.

However, since the college is judged by its students, it wouldn't do any permanent harm to exercise just a mite of restraint about abandoning oneself to the spirit of Spring, in public, at least.

Name, Please

Always open to complaints and suggestions about the campus, student government, and itself, the State News nevertheless maintains certain ideals.

One of these is that in any case where someone has a serious charge to make, that person should be willing to back his charge up personally. If the cause appears constructive or calls for immediate action the State News will be glad to do all in its power to cooperate.

While letters to the editor are encouraged,

space does not permit that all of them be published. Also, no letter will be published which attacks any person or institution without sufficient justification. And thirdly, in no case will any letter be published which is not signed.

The policy of the paper has been to file anonymous letters in the nearest wastebasket. An exception has been made in the case of one received yesterday regarding the Veterinary Science divisional elections.

If there were any irregularities in the election it is up to informed Veterinary students to speak up—either to the State News or Student council—and back up their complaints.

? And What ? Do You Think ?

By TOM GREENE

AND IT'S ABOUT TIME, TOO. Some one has at last come to the rescue of harried editors, reporters, and casual telephone users. For years now confusion has been rampant in newspaper offices every time a story had to be written about an organization with a Greek letter name. According to the rules of journalism, such a group should be identified for the benefit of readers who might never have heard of it before.

IDENTIFYING SOME OF THESE groups is not always easy. Because of their national scope they often get some unusual combinations. For example, Tau Sigma is classed as a junior honorary society for Applied Science, Liberal Arts, and medical biology students. That is an example of the mouth-filling phrases that the men on the copy desk must keep in mind, making sure not to commit the grievous error of calling honorary members professionals and vice-versa.

BUT NO MATTER HOW WELL they know their organizations there is still a chance that the words will get transposed. Because of similarity to names of other groups, there is always this chance. Sigma Delta Chi, professional journalism fraternity, has been called everything from Delta Sigma Chi (after the Delta Sigs, no doubt), to Delta Chi Sigma (probably after a hard night).

THE CONFUSION IS JUST as apparent elsewhere, however. Just take a look at the phone book if you don't think so. Look up the Chi Omega house and it is listed under Chi Omega Fraternity. Several other of what are thought of as sororities also are listed the same way. The Kappa Deltas are listed as Kappa Delta Sorority all right, while Alpha Xi Delta turns up under Alpha Xi Delta Society. Many of the rest of them, including Kappa Kappa Gamma and Kappa Alpha Theta beg the question by giving only the Greek letters.

ACCORDING TO BAIRD'S MANUAL of American College Fraternities, the use of the term "fraternity" is to be limited to social and professional organizations of both men and women. All other organizations are to be called societies, under three categories: "Scholarship honor societies," with membership restricted to the highest 20 per cent in scholarship; "leadership, honor societies," eligibility based on leadership and scholarship ranking in the highest 35 per cent; and "recognition societies" with membership based on interest in a certain field with less insistence on scholarship. The term "honorary" will no longer be used.

TO REPEAT, IT IS nice to have some one pierce the clouds of mystery and confusion, but couldn't they do it in a logical way? Fraternity is a word coming from the Latin "frater," meaning brother. Sorority is the twin word, coming from the Latin "soror," meaning sister. For silly sakes, why not use them that way? 41 members of the women's "fraternities" are going to use that name, they logically are going to have to call each other "brother."

"There's a caller in the lobby for you, Brother Mabel."

REALLY, HONORARY IS TOO good a word to scrap just like that. It is pretty descriptive of the aims, activities and efforts of several societies. To call them recognition societies is not exactly apropos—the members don't see each other often enough to recognize each other.

By the way, maybe with the emergency and all, an investigation should be made of the metal kept from defense industries by keys and the extra-strong chains required to hold them up.

(Copyright, 1941, by United Feature Syndicate, Inc.)

WASHINGTON—It hasn't been announced, but the Roosevelt Cabinet has a new member.

He is Mayor Fiorello LaGuardia, Director of Civil Defense.

The dynamic little New Yorker attended his first cabinet meeting last Friday and will participate in all future weekly sessions.

A veteran of 37 years in public office, LaGuardia is one of the oldest administrators in the country. With the exception of Roosevelt, LaGuardia knows more about governmental affairs than any member of the Cabinet who has more duties and capacity. By all accounts he is the most experienced and resourceful executive the President has appointed in a long time.

Apparently desirous of taking full advantage of this, the President directed LaGuardia to attend the weekly cabinet deliberations, although he does not have titular cabinet status.

Some White House advisers have long advocated that Defense heads attend Cabinet meetings for a closer integration of policy-making with the actual execution of policy. They have in mind—OPM chief Knudsen, Hulligan, Biggers, Stevens, and Nease, and Price, Regulator Henderson.

NOTE: On his first day in office LaGuardia faced officials who conferred with him about taking over certain offices for his new agency, by telling them "just leave the old furniture there, I'll good enough. We don't need any new stuff." Such lack of swank is almost unheard of in the Defense set-up.

PRESS AIDS DIPLOMATICS

Working in cooperation with the big press associations, the State department has evolved an excellent plan for bettering press relations in Latin American capitals. From four experienced newspapermen speaking Spanish and Portuguese will be attached to the staffs of American Embassies in Buenos Aires, Rio de Janeiro, Santiago, Chile, and several other capitals.

Among the Latin American experts already selected for this job are William Wieland of the Associated Press, former editor of The Havana Post, and AP's Charlie Nutley, who has seen service throughout most of the globe and now is in New Orleans.

The press associations will lend these and others to the State Department for duration.

MERRY GO ROUND

Carl B. Robbins, president of the Community Credit Corporation, is exiting from this job and from the Agriculture department because he cannot get along with Paul Appleyard, controller of the Secretary of Agriculture.

As fast a rise is being made for this country's big credit supply. Unable to use it for money and with more and more bad living at Fort Knox, we have finally sent some to the British to be used for buying up Arab leaders in Iraq and Arab Pashas.

Colonel and Mrs. Davidson were dinner guests at the Chi O house Tuesday.

Miss Dorothy Way, and Monday night Carol Schiller, Kappa Delta took Larry Bayer's Alpha Chi Sigma pin.

Pledged to Kappa Sigma are Verne Sorge, Detroit, and Lydia Dowsett, Flint. The officers of the fraternity's pledge class are Dick Hammett, president; Bob McClellan, treasurer, and Bill Pitt, secretary.

TO ATTEND NUPHILS

The entire AOPI chapter is going to Detroit today to attend the wedding of Mary Louis Clark to Walton Rodgers, of the University of Michigan.

Last night the Chi Omegas held their initiation banquet. Vera Deane was named model pledge and Betty Gibson, model initiate for the year.

FACULTY ART SHOW

The annual faculty art show will be held in the gallery of the Music building from Sunday, June 1, through Sunday, June 15. The art department has announced.

The exhibit may be seen from 3 to 5 p.m. on weekdays, and 2 to 5 p.m. on Saturdays and Sundays.

BULL'S LOOSE AGAIN

Wall street masters apparently never learn and never forget. They can always depend on to do the wrong thing at the right time.

After years of public distrust and Washington hostility, the rulers of the New York Stock Ex-

change recently dismissed the selection of Emil Schram, former Midwest farmer and RFC chairman, as president of the exchange. This was hailed with great fanfare as the dawn of a new day in the "Street." At long last a man of the people would run the Exchange.

Exactly two weeks later, but scarcely not publicized, there emerged as chairman and vice-chairman of the Board of Governors, the real masters of the Exchange, two leading floor specialists.

Four specialists are traders who deal chiefly for themselves against the public. They do not deal directly with the public as the commission houses do. The Securities and Exchange Commission long charged that specialists are basically inside speculators, interested only in their own profit and executing outside orders only on terms beneficial to themselves.

For Schram, if he intends to be under the provisions of the proclamation of nation emergency the President has the power to:

Prohibit the operation of all Federal Reserve banks; suspend trading on stock exchanges for a period not to exceed 90 days; seize American and foreign ships in United States ports; increase the size of the armed forces without the consent of congress; and call out members of the reserve forces without giving them the opportunity to resign.

In addition, the President has the power to regulate wire and radio communications, a power which could be used to establish a forced rather than voluntary censorship.

He may purchase army and navy supplies without asking for bids, give preference in shipment of troops and supplies, call out reserve nurses, and incorporate the coast guard as a part of the navy.

ASKS MORE PLANES

Before delivering his address Tuesday, President Roosevelt asked Congress for additional appropriations, totaling \$3,319,000,000, to boost United States aircraft production in his attempt to grasp the supremacy of the air from Nazi Germany.

The requested appropriation presented to the House by Budget Director Harold D. Smith will include \$2,296,000,000 for the expansion of Army air forces and \$229,000,000 for the Navy.

White House Secretary Stephen Early explained that most of the increased budget would be used for long-range bombers and torpedo planes.

BRITISH BUNT CRUISER

Nearly 100 British warships were scouring North Atlantic sea lanes yesterday relentlessly searching for the 10,000-ton German cruiser, Prinz Eugen, companion ship to the Bismarck, destroyed by a British torpedo-plane.

Destruction of the Prinz Eugen would mean virtual destruction of the German squadron, of which

News Roundup

By George Herbert

World Awaits Action As Follow-up of 'Emergency'

An anxious world heard President Roosevelt climax his historic "fireside chat" Tuesday night with the proclamation that an unlimited national emergency exists in the United States.

Noticeably missing from the President's speech was the phrase "short of war." Pledging the full strength of the United States to guarantee "freedom of the seas," Roosevelt told his vast audience that we shall actively resist every attempt by Hitler to extend his Nazi domination to the Western Hemisphere or... to gain control of the seas.

The most ironic role in the North Atlantic sea battle is being played by the British air-craft carrier, Ark Royal, reported sunk and destroyed many times by German planes.

Although D.N.B. German news agency, has claimed on numerous occasions that the Ark Royal had been completely destroyed, the air-craft carrier is said to be furnishing 140 planes for the aerial fox-hunt.

The full text of the President's speech, delivered before representatives of many American republics and high-ranking government officials is now the full import of the President's words is still a matter of question.

Tuesday night Americans gathered in bars, restaurants, and around every available radio to hear their President speak, and Wednesday morning they were wondering, wondering about the Italian statement that the speech was "a virtual declaration of war" and about German Admiral Raeder's statement that American convoys would be met by German naval guns.

PRESIDENT GETS POWER

It was disclosed yesterday that under the provisions of the proclamation of nation emergency the President has the power to:

Prohibit the operation of all Federal Reserve banks; suspend trading on stock exchanges for a period not to exceed 90 days; seize American and foreign ships in United States ports; increase the size of the armed forces without the consent of congress; and call out members of the reserve forces without giving them the opportunity to resign.

In addition, the President has the power to regulate wire and radio communications, a power which could be used to establish a forced rather than voluntary censorship.

He may purchase army and navy supplies without asking for bids, give preference in shipment of troops and supplies, call out reserve nurses, and incorporate the coast guard as a part of the navy.

Band Concert Attracts 4,000; Orchestra Concludes Season

Cornetists Give Goldman Piece

To close the 12th annual series of outdoor spring concerts, the Michigan State college band, with Prof. Leonard Falcone conducting, last night presented a seven selection program from the Band shell designed to test its skill in presenting all types of band compositions. More than 4,000 persons heard the concert.

Rhapsody Is Favorite

As with the preceding two concerts, a selection by the contemporary American composer Gould this time his "Cowboy Rhapsody," marked a high spot on the program. Combining familiar Western themes into a selection capturing the spirit of both the old and new West, the "Cowboy Rhapsody" was played just before the final selection of the concert.

Three members of the band's cornet section, John Juel, Theodore Bowman, and Robert Dunn again joined for "Echo Waltz," a cornet trio by the American bandmaster Goldman. The trio had previously performed together in the first of the season's outdoor concerts.

BAND PLAYS ENGLISH TUNES

Finale from the fifth symphony of Anton Dvorak, "From the New World," was the classical selection with which the band closed its concert. From the Italian composer Donatelli the band played the "Symphonic March" with which it opened the concert.

Another of the band's offerings new to audiences here was "Escapade," sub-titled "A Mexican Elopement," which with Latin American rhythms lightly paraded the dramatic "Ride of the Valkyries" of Wagner.

Old English country tunes were the source of another of the band's selections, "Second Suite for Military Band," by Holst. Pan's "Pax et Labor" overture was included as the second composition on the concert.

Hort Fellowship

Joseph Schultz, who graduated last year and who has been doing graduate work in horticulture this year, has been awarded a research fellowship at Washington State college. He will report for duty June 15.

Music Head Takes Baton In Concert

ROY UNDERWOOD

Head of the music department at Michigan State College, Underwood directed the college orchestra in several difficult works in its final spring concert Tuesday night.

Ag Board Picks Staff Additions

At its monthly meeting recently, the State Board of Agriculture accepted three faculty resignations and approved two appointments.

D. J. Hall of the State Highway department, Ann Arbor, and graduate of Michigan State, was nominated to replace C. D. Beering as instructor in civil engineering. Beering, recently accepted a position with the T.V.A.

Resignations of J. R. Lewis, research assistant in chemistry, and Francis Aranyi, associate professor of music, were accepted by the board. Aranyi's resignation becomes effective August 31.

C. L. Coman, now on the staff of Purdue University, was appointed research assistant in chemistry to replace H. G. Petering, who resigned recently.

The board also authorized C. O. Wilkins, college treasurer, to purchase adequate insurance for college automobile and private vehicles in college use.

Aranyi, Schuster Play Solo Roles

Before an audience average in size, but exceptionally receptive, the M.S.C. symphony orchestra with Prof. Roy Underwood and Prof. Alexander Schuster as co-conductors closed its concert series for the school year Tuesday night in College auditorium.

Underwood, head of the music department, directed the orchestra in the opening half of the concert, which included the double concerto for violin and cello by Brahms. Schuster and Prof. Francis Aranyi of the music department played the solo roles in the concerto, which is one of the most difficult works ever performed by a symphony orchestra.

SCHUSTER TAKES BATON

Also on the first half of the program was the overture to "Opern," in which the German composer Weber pictures the magical elfin music of the fairy king and his court.

Following the intermission, Alexander Schuster took the baton to conduct the orchestra in the "Nutcracker Suite" of Tchaikovsky and the fifth and sixth "Hungarian Dances" of Brahms. Breaking his tradition, Schuster responded to the unusually strong applause of the audience by repeating the sixth dance.

ORCHESTRA TO PEAY AGAIN

The eight-part "Nutcracker Suite" already popular with symphony audiences provided interesting variation with its lifting melodies and interesting orchestral effects providing pleasant contrast to the more dramatic and serious concerto. The suite included the "Minature Overture," a march, and six dances.

Although the Tuesday night concert was the last of the season the orchestra will make one more appearance when it plays for the Baccalaureate program.

TIMRECK

(Continued from Page 1)

Timreck's constant work in college dramatics, his acting temperament combined with a 2. average, has been a four-year source of amazement to the chemistry department and to the Theta Chi fraternity brothers. The accusation that Timreck is too temperamental and impatient to be a good research man is belied by his high scholarship.

At least for the duration of the war, however, Timreck will not have to consider dampening his dramatic enthusiasm in favor of chemistry job. When the senior member of Scabbard and Blade was given his second lieutenant's commission to Edgewood Arsenal, Maryland, chemical warfare division, army officials assured him that he would have plenty of opportunity to use his acting ability in the army.

East Lansing Bank Celebrates Quarter Century of Service

By DASH WUERFEL

The government may bury its money at Fort Knox, but many students at Michigan State college bury their silver in the East Lansing State bank. As a result, the bank is celebrating its silver anniversary this year. Prof. A. J. Clark, bank president announced yesterday.

500 HAVE ACCOUNTS

Approximately 500 students have checking accounts, according to Clark, who is head of the college chemistry department. Many members of the college faculty are also on the directing staff. They are Ward Gilmer, Dean of Veterinary Science, and E. T. Hallinan, professor of animal pathology.

The majority of those students who use this system have parents

AWARDS

(Continued from Page 1)

were given gold key awards by Arthur Howard, this year's business manager.

GIVE TWO GOLD KEYS

Wolverine staff members who received the gold key honor were Hardy, next year's editor, and Betty Crum, who will hold the position of business manager. Silver keys for service on the yearbook were presented to Betty Cribb, society editor this year; Mildred Cressor, sales; John Crag, advertising; Bob Lowe, sports editor; Marion Gardner, office manager; and Jim Keith, this year's organizations editor. Bob Merz, who edited this year's Wolverine, presented the keys.

Four silver keys were awarded to members of the State News staff, including Foo, Joe Simsek, sports editor; and George Petersen, business editor. Six feminine members of the staff who were given bronze keys were Dorothy Hunter, Wyandotte; Marian Alkire, Onekama; Mary Lee Schooley, St. Peterburg; Flia; Jean Claudio, Battle Creek; and Miss Trout, all seniors.

Earl Brigham, Spartan editor, acted as toastmaster for the banquet, and John Carman, president of the Board of Publications, made opening and closing remarks.

Editor and business manager of the M.S.C. Veterinary magazine have also been named. Paul A. Carlson, Berkeley, Calif., sophomore, will replace Paul C. Brown, East Lansing sophomore, as business manager; Arthur H. Wolff-Trenton, N. J. junior, will take over the job of managing editor, now held by Alvin Fahlund, Grand Rapids junior.

MSC Catalogue To Be Released In Early June

Next year's college catalogue will be off the presses about June 1, it was announced recently by Registrar R. S. Linton. The volume is a month late this year because of an extra 30-day grant to department heads for consideration of the material to be included this year necessitated by major changes in departmental curricula, Linton explained.

Most important changes in the catalogue are in the Home Economics and Agriculture divisions, which are in their third year under a system which involved many changes in this year's catalogue according to Linton.

Other changes involve presentation of a fifth-year forestry course, addition of a metallurgical department with a Bachelor of Science degree, and granting of the same degree in chemistry.

The degree in chemistry, formerly handled by giving a degree in Applied Science with a chemistry-major, is now being granted because of the large demand for chemists, Linton explained.

Previously arranged in chronological order, the catalogue will be done alphabetically this year for the first time in its history, Linton announced. This is expected to make the book more usable.

AWARDS

(Continued from Page 1)

Does the term "Horse doctor" bring to mind a picture of a brawny, two-fisted, hairy-chested, strong man with one arm around a horse's neck and the other down his throat?

Eight women at Michigan State intend to change this picture. They are enrolled in the Veterinary division, have passed the preliminary two-year test period, and are embarking on a career strange to women—veterinary medicine. Three others are in the pre-vet stage.

The question most often asked is, "Why be a Vet?"

MUST LOVE ANIMALS

"Becoming a Vet begins with an adolescent fondness for animals, and an acute awareness of their inability of expression," is the answer Betty Wright, Pleasant Ridge sophomore, gives. Miss Wright, recently elected Ag Queen, once spent summer vacations on a Canadian farm.

"On the farm I found myself wanting to know more about 'animal medicine,'" she explains. Before being permitted to drive a team, she first had to learn how to groom and feed the horses. "In this way I soon realized that a horse is not simply a part of farm equipment, but an animal possessing the ability to respond affectionately to kind treatment."

Veronica Gillett Clinton, May-

junior, feels that owning an animal gets medical treatment to the animal need not be the prime objective of a veterinarian. Miss Gillett's "All dogs & cats must be treated equally" is cited by Veronetta H. Scott, Grand Rapids junior.

Tennis Team Routs Wayne, 8-1

Spartans Will Meet Kalamazoo Squads In Two Contests

Holiday Tilt Draws Western Michigan

By Austin Breaneman

With the first five players on the squad playing, splitting doubles over Wayne university, Michigan State's peiters took the meet easily 8-1 yesterday afternoon in Wayne's courts, and are now preparing for a Kalamazoo invasion.

Western State, the first of two Celery City teams, will appear here Friday afternoon at 2 p.m. The Broncos hold a lead over the University of Michigan.

PLAY KAZOO — Today Kalamazoo college students who have won all but six of 23 meets this season will stem the tide of the Spartans.

Fred Perkins led off the day with wins against Wayne by Ed Grange, hand-painted colors, 7-5, 6-4, playing his best position on State's roster, excellent victory over LaSalle, Michigan and lastly Marcus Drilling stopped Neuner, No. 2 Tauter, 6-2, and emerged with the win, 6-2.

He appeared in the field possible for his 6-6 with Russell, top-ranking Western after tomorrow afternoon.

BELMAN HAS BATTLE — An eighth straight victory Belman had a hard road.

Harmon Burns, No. 1 singles netter, being beaten the second set but winning the drives of the State needed the third set, 6-3, 10-8, and Krause played them out, 4-3, before winning from Burns.

Five times he had match his grasp but missed the winning out, 11-9.

Tom Carr was the only victim Wayne, also winning after four hard sets had been from Irving Rosen, 6-2, 6-3, 6-3, 6-2, Burns and Drilling met together once again in the final and locked the best team record all season, 10-6.

SINGLES — Michigan State def. Grange, W. 6-4, Drilling (MSC) def. Neuner, W. 6-3, 6-2, Maxwell (MSC) def. Gossack (WU), 6-3, 6-2, Belman (MSC) def. Burns, W. 6-3, 6-2, Krause (MSC) def. Miller, W. 6-3, 6-1, and Burns, W. def. Johnson (MSC), 6-3, 6-1.

DOUBLES — Burns-Drilling (MSC) 6-3, Gossack-Neuner (WU) 6-3, Maxson-Belman (MSC) 6-3, Gossack-Burns (WU) 6-3, Krause-Burns (MSC) def. Miller-Burns, 6-3, 6-1.

Hillel Plans Annual Award Banquet

Michigan State Hillel Club held its annual Previews banquet June 2 at 8:30 a.m. in the Union faculty dining-room, where Taylor, president, talked yesterday.

Eric Friedland, Pontiac, the banquet speaker, His topic "What Lies Ahead for Youth," challenged key speakers to group will be presented by Morton Applebaum, who

Rabbi Samuel W. Seiden, director at Maryland, and will attend the banquet, Taylor said.

MSC Cow Produces High Milk Record

Michigan State college owns a Holstein cow that has produced 10,000 pounds of milk in her lifetime to fill in quiet pastures in the barns show a little extra for the recording in testing supervisory of the Holstein-Friesian association of America in Brattleboro.

Thelma Hobson's name and record official production total of 10,424 pounds of milk with 3,322 pounds of butterfat produced in 10 months. Her highest two-year record is 26,732 pounds of milk made in 351 days beginning when she was two years old. She was milked three times daily.

B&G Has Big Plans For Auditorium Landscaping

Landscape projects for the auditorium grounds will near completion soon with the planting of a rose garden to the terrace south of the building, according to Arthur Clark of the B&G department in charge of grounds care.

Transplanting of trees and shrubs are rapidly redressing the land surrounding the Auditorium and yesterday.

Corporation areas, enjoying the soft spring in many years, have sprung out. He has charge of keeping the 150 acres of lawns, 1,000 acres of driving grounds, western fall, three walkways, 30 student areas, but the grass is not allowed to exceed a second growth in height. The entire corporation area, including the dormitories, 20 apartment houses and buildings at least once a week.

The Horticulture Department

Speaker for the evening was

Ed Grange, landscape architect

for the week's program. He reported that the grounds were in good condition.

E. B. Hill, The Signal

Patronage and M. A. Morris, Director of the Michigan State

Landscaping and Grounds

Department, were present.

RESEARCHERS FIND HEREDITY IS MAIN TOOTH DECAY FACTOR

By KAY SIMMONS

As dental caries increased

they proceeded

independently of each other.

Harold H. Baileys, dentistry professor, and Dr. C. A. Hopkins, dentistry professor,

concluded.

The Wisconsin School of Dentistry found that heredity is the primary factor in the incidence of dental caries, the researchers stated.

They plan to continue

experiments in the house of dentistry and the dental school.

BEGAN IN 1936

Hunt and Hopkins first became interested in the problem of dental caries when the National Society for Children's Research established a New York Research Committee on the prevention of tooth trouble.

It was decided that the best way

to attack the disease was

through the production of

research papers.

The research committee

selected the 1936-37

and 1937-38

as the first two years of the

program.

During the first year, the

researchers conducted

experiments in the dental

school and the dental

hospital.

Spartan Nine Points For Victory Over U. of Michigan

State Seeks to Avenge 4-3 Setback

By Bob Astley

More than just a ball game will be at stake when Coach John Kobs' diamond dynamos meet the University of Michigan in a return game on Old College field Saturday at 3 p.m.

For one thing, if the Wolverines beat Northwestern in one

contest of a two-game series •

that opens in Evanston, Ill., today, the Kobs men will be shooting for the honor of defeating the 1941 Big Ten baseball champions.

Secondly, and more important, a victory over Coach Ray Fisher's charges this week-end would put State in a position from which they might go on to win the mythical state championship. The Spartans have defeated Western State while the Wolverines have bowed twice before the Broncos.

Although defeated 4-3 by Michigan in the first 1941 game April 29 in Ann Arbor, the Kobs could easily claim the dream title by beating the Wolverines and again defeating Western State on June 14.

HAVE SPLIT EVEN

Finally, the Green and White baseballers are faced with the problem of maintaining a four-year tradition Saturday. Since 1937, the two schools have split their annual two-game series, and because the Ann Arbor contingent won this season's first game, State must reverse the decision to prolong the established practice.

Being in such a spot is strange to the Spartans, since in the past four seasons it has always been Michigan which has entered the Memorial day weekend game with its back to the wall for an even split.

With so many issues at stake, Kobs is perplexed about just who he will send to the mound Saturday. Spartan fans, however, feel assured it will be one of the State big three which includes Frank Mekules, Al Jones, and Joe Skro-

MICHIGAN STATE NEWS

SPORTS

**'S' Trackmen An 'Ex' At Michigan State Speaks:
Face Foes In Two Meets**

**Four to Make Trip
To New York; Rest
To Go to Ypsilanti**

Four of Michigan State's most consistent throwblads will leave today noon for Randall's Island, N. Y., where the IC-4A meet will be held Saturday. The remainder of the Spartans squad will depart early Sunday morning for the Michigan AAU meet at Ypsilanti.

The rule on campus, which prescribes one building or sports field can bear the name of a staff member never has smacked eight, so far as we're concerned.

Back in 1938 and 1939 when the fieldhouse was sprunging up,

and all indoor college sports activity was limited into what now is the winter gym, it was sug-

gested that the million dollar building be dedicated to Director Young.

Approximately 15 Spartan vari-

etism, associated by the Ypsilanti East Steven, Mel Bussell and Mike Schell, Bob Webster, Bob Harris, Gert Suonen, Jerry Page, Bill Wren, Syd Riden, Kurt Mader, Dale Kaulitz, Sid Brecher and Danny Rossobruni.

Freshmen, who will join in ad-

mitted, are Hugo Davis, Phil Em-

stepon, Walt Mack, Len Noah, Jack Dodge, Chuck Carrier and Sam Calvert.

Continuing the team's walk-

horse, Arrington will compete in the discus, broad jump and the high jump. In the broad jump, the Spartan captain will meet D. Bleunt, Dartmouth star, winner of the event in the Penn Relays.

Bleunt beat out Arrington by six inches for the crown. Also entered in the broad jump is Barney Ewell, Penn State's negan dash, who leaped within one-half inch of 24 feet last week against State in the dual meet.

Big-Al Blozis, Georgetown Uni-

versity weight man, is favored in the discus. Wally of the Drake Relays discus event, the George town giant has buried the platter over 162 feet. Arrington's best heaves this year have been in the vicinity of 143 feet.

State will have two entrants in the high jump. Besides Arrington, the Spartans have entered tanky Al Milne. Both jumpers have cleared the bar at 6 feet 2 inches in competition. Arrington's best achievement this season was his 6 foot 4 inch clearance at Penn State last week. Milne in practice has done 6 foot 4 inches.

The lone entry in the pole vault is State's own designated Ted Wach, a consistent 13-foot jumper. Wach pulled his top load in the State Intercollegiate meet two weeks ago with a vault of 12 feet 2 1/2 inches.

Had he not been in the injury list when the IC-4A meet was held in Bob Horner's junior jumper, would also be making the easier trip.

The fourth Spartan, Bill Scott, will be making his first appearance in the big east-meet in the half-mile. Although he has been unable to pick up a place, each one of his half-mile races has been ticked off well under the two minute mark.

The fourth Spartan, Bill Scott, will be making his first appearance in the big east-meet in the half-mile. Although he has been unable to pick up a place, each one of his half-mile races has been ticked off well under the two minute mark.

Repeating Young's feats at this time is not necessary. Joe Simek has gone to great length in recent State News articles to recall the changes which have marked the spartan picture at State under the Young regime.

Suffice to say—on our part, Ralph Young moved in when Michigan State was a nothing—athletically speaking. Today, of course, Michigan State ranks with the nation's collegiate powers.

Naturally, the club at Michigan State hasn't been strictly

a no-fitter against Kappa Delta, held the hard-hitting Campbell ten to four hits. The Campbell team went into the playoff undefeated after seven victories. West Mary Mayo remains undefeated.

It required the Mayoites only one inning—the first—to clinch the crown. Evelyn Renning doubled, and pitcher Stone slammed out a home run, which was followed by singles by Jean Dufrain, Kathleen Bliss and Jean Christianson.

Not only did Stone sparkle on the mound, but she also recorded a perfect day at bat.

After entering 10 amateur contests and winning them all, Bill Sulberg, Hofstra college freshman, is advising Hofstra's professional musicians to turn amateur and make more money.

By George Maskin
(Former Michigan State News sports editor, now with the Detroit Times)

Rules they told us, more than once on this campus "years ago," are made to be broken.

All of which, we think, opens the path for honoring Ralph H. Young, Michigan State's athletic director, by allowing the college's track plant to carry his name.

The rule on campus, which prescribes one building or sports field can bear the name of a staff member never has smacked eight, so far as we're concerned.

Back in 1938 and 1939 when the

fieldhouse was sprunging up, and when all indoor college sports activity was limited into what now is the winter gym, it was sug-

gested that the million dollar building be dedicated to Director Young.

The feeling at the time was that such men as John Kobs, Charley Bachman, Ben Van Alstyne, Lauren Brown, Jim Cawley and others have had their hands in the building.

But in every advance there's a leader. And at State, Ralph Young has passed the torch show.

Bossed it, masterfully.

YOUNG IS KEY MAN

He's been the key man integrating State's names across athletics—an important factor in the college's growth. If you disagree, just check the enrollment here—he gets it up terrifically during the days when every team simultaneously was hitting on all fours.

It goes without saying, we're for perpetuating Ralph H. Young's name on a sporty structure on campus. The stadium and fieldhouse are out now, of course.

Only the track is left. There should be no mistakes this time. And there should be no delay.

The remaining contestants on the two teams are Marion Gardner, 429; Lois Hale, 428; Helen Heckman, 342; Helen Hayes, 316; Lois Quinn, 321; Ruthie Hock, 315;

On the second team—Lucille Filipiak, 317; Holly Miller, 307;

Ruthie Vanz, 309; Ann Stenserson, 299; Eleanor Chapman, 293; Nellie Jope, 295; Mildred Worcester, 291; and Alice Sawyer, 292.

The total team score for the meet is 3246 and for the second team, 2369. This year's first team score is 70 points greater than that made in 1940. Last year, State ranked ninth in the nation and first among midwestern schools.

Stone Pitches Mayo to Title

Led by Pat Stone, West Mary Mayo upset the South Campbell softball, aggression yesterday afternoon as it defeated the Campbellers 9-5 to cap the women's summer championship.

Stone, who last week turned in a no-hitter against Kappa Delta, held the hard-hitting Campbell ten to four hits. The Campbell team went into the playoff undefeated after seven victories. West Mary Mayo remains undefeated.

It required the Mayoites only one inning—the first—to clinch the crown. Evelyn Renning doubled, and pitcher Stone slammed out a home run, which was followed by singles by Jean Dufrain, Kathleen Bliss and Jean Christianson.

Not only did Stone sparkle on the mound, but she also recorded a perfect day at bat.

After entering 10 amateur contests and winning them all, Bill Sulberg, Hofstra college freshman, is advising Hofstra's professional musicians to turn amateur and make more money.

Coed Archers Better 1940 Effort

**Lenna McCarthy
Narrowly Misses National Record**

Lenna McCarthy shooting a 552-score, one point behind the national record set by Florence Bushnell of the University of South Carolina last year, broke her own mid-college record of 446. Her record is 552.

Speaking of marriage, it's a funny thing how things like that sometimes get started. Back in 1922, Capt. Gerald Peterson of the Spartan ROTC department, rode in the first horse show to be held at Michigan State while he was a freshman. He also met his future wife at the show, so you can chalk that one up to the horses.

Potterton has always been a power-house figure in the horse show arena, which will make its 19th annual appearance Saturday, Friday and Saturday. The only time he has been a non-contestant was in 1936 when an ankle injury put him on the sheep.

This year the meet has drawn the finest horseflesh from Michigan, Illinois, Indiana, and Ohio, and with a record number of entries and 10 events added to the program, it is already assured of being the best-in-history.

There is something unexplainable that attracts people to thoroughbreds, who are slowly losing their ground in today's modernization. This week, however, they will have the spotlight on the campus that even the Indianapolis "500" classic will not be able to dim.

Taking the defense of the poor railroaders is Major Morris Marston, head of the cavalry department, who says that the idea that the machine can take the place of horses in war is entirely erroneous.

Some persons think the horse is gone forever in war, he states. Although the papers don't mention much about it, the German army is highly mechanized at the moment, has 700,000 horses.
