VOL. 337, 333

### Today's Campus

#### King for a Day

Several first term freshmen climbed on the first rung of the military ladder when they learned in five minutes of bitter experience in ROTC what the C.O. must go through. Calling the company to attention when already in that position and marching the men into a convenient tree showed positive signs of future ability by these leaders of tomorrow.

#### He Saw Red

The YMCA swimming demonstration at Jenison fieldhouse Friday provided an unexpected feature in the form of a very unsmiling MSC male who had dashed out of the locker room for a dip in the usual undressed in the usual undress. He was prompted to do so by friendly fellow students with the best of intentions. He knew nothing of the audience in the gallery.

#### Wet Blanket

Ready for the wringer was one English instructor Friday morning after his hike through the torrent from the auditorium to the Union between classes. Before the students had time to call him a drip, he took an intermission and left the class to its own devices while he dried off.

#### Final Rounds in WAA Sport Tournaments Will Be Played Off

WAA tournaments in various sports are progressing and will be concluded within several weeks according to Lois Newman, Hamtramck senior and acting president of WAA.

Second round sets in tennis must be played by Tuesday, and results turned in to Eleanor Gilmore Linden, N.J., senior who is directing the playoffs. Those players who are eliminated will play a round robin tournament.

In the archery contest the top five contestants will compete for the all-college championships Thursday. All ladder and running scores are posted in the Women's gym, according to Clara Dowling, Jackson junior, in charge of this group.

Coeds who are planning to go on the WAA sponsored overnight trip to Okemos next weekend must have written permission from their parents to make the trip, and this permission should be turned in to Mrs. Waters in the Women's gym by Thursday. Miss Newman stated.

#### Muck Farmers Schedule Field Day Wednesday

Michigan muck farmers will hold a field day Wednesday at MSC. The meeting will feature annual reports on OPA price regulations concerning onions and mint according to Dr. Paul M. Harmer, professor of soils at MSC.

The reports will be given by C. Carl McGuffey and N. P. Beebe, both of whom have visited Washington recently to confer with OPA officials on fall ceilings.

### Summer Band Lists Concert Selections

#### 6,000 Expected for Fall Term Enrollment

The only band concert of the summer term will be held in the campus bandshell at 7:30 p.m. Wednesday, according to Prof. Roy Underwood, head of the music department. The 40 piece band will be directed by Keith Stein, assistant professor of music and leader of the band for the summer.

Included in the personnel are five Lansing and East Lansing high school student musicians who are playing with the college band to gain experience with large groups.

All but four of the band's college members are freshmen and sophomores, Underwood said. The organization was kept together this summer to form a trained nucleus for fall term.

Featured on the Wednesday concert will be a xylophone duet "Mac and Mac," by two freshmen, Lynn Dunn of Webberville and Ford Petrie of Lansing.

Other numbers on the program include such popular pieces as the serenade from "The Student Prince" by Romberg; Goldman's "On the Mill"; and selections from "Show Boat." The Coronation scene from Meyerbeer's "Prophet"; "Song of the Flame," a symphonic march; "Alba Sentimental"; and the "Indiana State Band" march are other numbers to be played.

The military note will enter the concert in a group of well-known songs, "Over There," "Anchors Aweigh" and "Marche Militaire Francaise."

#### Series Will Feature Double Showing of Ritz Brothers Film

Tonight's lecture series movie, "Pack Up Your Troubles," will be given a double showing in Fairchild theater at 7 p.m. and 9 p.m., according to S. E. Crowe, lecture series director.

Featured in the comedy will be Jane Withers, Lynn Bari, and the Ritz brothers. Admission will be by treasurer's receipt for students. Men in uniform will be admitted free, Crowe said.

Next Saturday the lecture series will present "Pied Piper," starring Monty Woolley. The summer lecture series will end Aug. 28 with the presentation of James Kater Thompson, well-known magician.

### Dance Tonight to Be Open to All Students

An all-college dance for civilians, AST men and aircrewmen is scheduled for tonight from 9 to 12 in the Union ballroom, according to Doris Johnson, Detroit senior and chairman of the activities board.

The newly organized AST band composed of 15 members will play. The dance was originally planned for only AST men, but now has been opened to everyone, Miss Johnson explained. Tickets may be obtained at the Union desk.

#### Afternoon Dance

Also scheduled for today is a tea dance to be held from 3 to 5 p.m. in the mixed lounge. It is sponsored by the activities board, and air students, AST men, and civilians may attend. First semi-formal dance of the summer is planned for next Fri-

See SOCIAL—Page 3

### Guest Lectures to Aid Teachers

Two refresher courses, one on aerial photogrammetry, the other the rural workshop, are to be held on campus next week.

The sessions of aerial photogrammetry, which will consider virtually every aspect of aerial photo interpretation, will extend through next Wednesday, according to Prof. C. L. Brattin, head of the department of drawing and design.

The course was organized, Professor Brattin said, to familiarize army teachers with military mapping methods, most of which are recent developments. The methods will be described and illustrated by 30 civilian and service experts who have perfected and used them.

Visiting speakers include Col. Milton Kaye, director of photography for the army air forces; Col. H. K. Baisley, chief of the army photographic laboratory at Wright field, Dayton, Ohio; and Dr. G. C. Dillman, president of Michigan State College of Mining and Technology, at Houghton.

The meetings of rural education workshop, which is intended as a refresher course for those returning to teaching after some years of absence, will extend through Thursday, according to Dr. Albert J. Huggett, assistant professor of education.

### Coed Strongarms Finish Work as Groundkeepers

Work terminates today for the feminine buildings and grounds crew that has been working on the campus grounds this summer. Twelve coeds have helped to ease the man labor shortage in the college maintenance department by pulling weeds, hoeing, trimming shrubs, and performing other groundskeeping duties.

According to A. G. Clark, superintendent of grounds, the women have been conscientious on the work and the experiment has proved to be successful. "In some respects they are better than men, because their housewifely characteristics pop out and demand a neat cleanup after their jobs," Clark commented.

It is expected that considerable help will be needed from coeds this fall for leaf-raking duties on Saturdays, as well as the routine B and G jobs.

### American Born Japs Enjoy Life at State

Michigan State is rapidly becoming a small scale melting pot with ASTmen, aircrewmen, conscientious objectors, and now American born Japanese added to the college personnel. This newest group totals four men and two women.

Jim Ouye, who is working in the horticulture department as a dehydration assistant, formerly lived in Lodi, Calif., about 100 miles from San Francisco. He was a farm supervisor of a large fruit farm there.

When the orders came for the segregation of the Japanese, Ouye was sent to a relocation center in Arkansas. Through contacts with members of the horticulture faculty, Ouye and his wife were able to come to East Lansing, where they are now living.

#### To Remain for Duration

Mrs. Ouye, who is a civil service worker, plans to be doing

work on campus in the near future. The Ouye's have been on campus for nearly two months and plan to remain here for the duration.

"If I could get established here I wouldn't mind staying in Michigan. Weather in California is quite steady, but I like the Michigan variety pretty well," Ouye remarked.

Other American born Japanese at the center were able to find positions through the employment system which has been established at the centers, Ouye said.

#### Will Go to MSC

First Japanese-American ever to be accepted for enrollment at State is Bryan Mayeda, originally from Loomis, Calif. Mayeda, who came to this college through the efforts of Rev. N. A. McCune, is establishing a residence so that he may enroll in the Veterinary division. He is working

See JAPS—Page 4

### Spartans Out of Athletics for Duration

#### Intramurals to Provide Aircrew, Civilian, AST Competition

Prospects indicate more football on the campus this fall than ever before, despite suspension of all inter-collegiate competition, including football, for the duration by Pres. John A. Hannah last Wednesday.

To replace the eight games scheduled with other colleges, the physical education department is making plans for a campus league, which will include teams of AST students, civilian students, air corps enlisted men, Athletic Director Ralph H. Young said yesterday.

In announcing the cessation of varsity sports, President Hannah stated that with almost all of the able-bodied men of the college in the armed forces, it seems unfair to possible participants to expect them to compete with older and more competent men.

#### Morale at Stake

"Such competition would not be advantageous to the physical well-being of the men involved and would not be helpful to their morale or the morale of the student body as a whole," he stated.

President Hannah further said that after the war Michigan State would proceed with a full program of intercollegiate sports and would begin again whenever the war department determines that such activities would not interfere with the college war training program.

#### Doubleheaders Planned

Teams of the intramural league will play doubleheaders every Saturday afternoon starting with the last week of September or the first week of October. There will be at least four teams, with a possibility of six, Young said.

An instructor from the physical education department will

See FOOTBALL—Page 4

### Student Discussion Group to Feature Guidance Expert

Sunday discussion group will meet at 9:30 a.m. in the student parlors at Peoples church. Carl M. Horn, guidance specialist from the state department of public instruction, will be the guest speaker.

Jean Standiford, Union City junior, is student chairman of the event. Topic of discussion will be "What Next?" centering around vocational choice and rehabilitation after the war.

Dr. Paul Honigsheim, professor of sociology, who was born and educated in Germany, will discuss central Europe at the informal hour from 4 to 5:45 in the student parlors tomorrow afternoon.

The meeting is open to all aircrewmen, ASTs, and regular students, John Price, director of men students at Peoples church, said.

## Native Norwegian Scientist Came to MSC on Fellowship

Henrik Staseth Traveled, Studied in Europe

Staseth, Henrik J., R.S., D.V.M., M.S., Ph.D. One year at his native Aalesund, Norway, would have added a D.D. to his name before any of the others were acquired.

In Staseth, professor of pathogenic bacteriology and research associate in bacteriology at State, had been preparing for the ministry in the Norwegian school in which he planned his choice of education.

In Norway there are seven years of primary school, four years of middle school, comparable to high school, and three years at the gymnasium. Graduation from the high school does not prepare students for college and they must attend the seminary for special preparation. All colleges there are on the university level.

Arrived in 1931

In 1931 Staseth came to the United States arriving in Boston, Massachusetts, Minnesota and finally North Iowa where he taught agriculture.

He worked at miscellaneous occupations until 1933 when he graduated in North Dakota Agricultural College. He received a degree of science degree.

He was awarded a fellowship that year as an assistant in bacteriology and continued last two years for the degree of Doctor of Veterinary Medicine. He also earned a law degree here. His law degree here was Bachelor of Private.

He joined the United States Army and became private in November, 1936. During his first year in the service, he was promoted to the rank of Captain but the law degree he wanted to always wish him to have in service made his promotion month before he became a doctor have obtained his graduation papers according to military procedure.

During his honorable discharge he became Lieutenant in the Army and he returned to Michigan teaching a year he taught at Wayne as district teacher. He remained there on leave of absence.

He returned to State, teaching four years. Then taught in Hungary as an assistant professor for one in bacteriology and became here the previous year.

**DR. HENRIK STASETH**  
holds many degrees

He spent the year 1935 to 1936 at the Royal Hungarian Veterinary College at Budapest and visiting 13 European countries and 30 educational institutions.

During his year in Europe he journeyed at 127 South Penn observed the battle scars especially obvious in Berlin, Budapest, and Vienna. Among the countries he visited were Switzerland, France, Holland, Belgium, Czechoslovakia, Germany, Denmark, Norway, and England. On his return trip he stopped in Cuba.

In 1933 Staseth was sent to Mexico for eight weeks as technical advisor to the Bureau of Agriculture and Vaughan's animal industry of Mexico at denim. Miss Johnson invited the National School of Aviary Genetics will be Prof. and Mrs. John A. Hamm, Dean Elizabeth Marshall, Prof. and Mrs. Fred T. Redney, Capt. Paul A. Modell, Mr. and Mrs. S. J. Crown, Mr. and Mrs. Don Rhett and Mr. and Mrs. Charles Bachman.

Tickets for the dance will be on sale next week in Mason Auditorium and at the Union Stock.

The Hep Five orchestra will play.

**Student Club Party**

While here Staseth has helped develop the work in diagnosis and experimentation in poultry diseases. Five persons are now employed full time in the work, making it as large as some of the regular departments of the college.

Other services of the bacteriology department are offered to

**See STASETH—Page 4**

## CHURCHES

(Continued from Page 2)  
**EPISCOPAL CHURCH**

Episcopal services at Canterbury Church, 445 Abbott road, will be Holy communion at 8:45 tomorrow morning. From 5 to 7 in the afternoon Rev. Clarence W. Beckman, Episcopal chaplain, will be host to regular students, air students and AAF.

Holy communion at St. Paul's Lansing will be at 8 a.m. and 12 noon and morning prayer will be at 11 a.m.

### ST. THOMAS AQUINAS

Mass at St. Thomas Aquinas will be at 9 and 11 tomorrow morning. Father Jerome V. MacEachern will officiate.

At St. Mary's cathedral mass will be held at 6:30, 8:30, 10 and 11:30 a.m. and 12:45 p.m. Monsignor E. J. Hardy is pastor.

### WESLEYAN METHODIST

There will be no Sunday worship services at the Wesleyan Methodist church tomorrow because of the conference and camp meeting at Hastings. Daily services will be held at the camp from Aug. 10 to 28.

### FIRST CHURCH OF CHRIST

Christian Science groups will have a lesson service in the Masonic temple at 314 M. A. C. tomorrow morning at 11.

### CHRIST LUTHERAN

The subject of new beginning will be the topic of the 10:45 service tomorrow morning at Christ Lutheran church, Mississauga.

During his year in Europe he journeyed at 127 South Penn observed the battle scars especially obvious in Berlin, Budapest, and Vienna. Among the countries he visited were Switzerland, France, Holland, Belgium, Czechoslovakia, Germany, Denmark, Norway, and England. On his return trip he stopped in Cuba.

In 1933 Staseth was sent to Mexico for eight weeks as technical advisor to the Bureau of Agriculture and Vaughan's animal industry of Mexico at denim. Miss Johnson invited the National School of Aviary Genetics will be Prof. and Mrs. John A. Hamm, Dean Elizabeth Marshall, Prof. and Mrs. Fred T. Redney, Capt. Paul A. Modell, Mr. and Mrs. S. J. Crown, Mr. and Mrs. Don Rhett and Mr. and Mrs. Charles Bachman.

Tickets for the dance will be on sale next week in Mason Auditorium and at the Union Stock.

## Army and Civilian Students to Run Obstacle Course

(Continued from Page 1)  
**ENROLLMENT**

Rate of short courses and other special classes conducted by the Ag division is not yet definite.

### SPECIAL COURSES

It is probable that several training courses will be given to members of the Women's Land army and other persons who wish training for volunteer farm work, Linton said.

Enrollment of women increased steadily. In 1940 a total of 1,938 women were enrolled; the number increased to 2,052 in 1942, and last year climbed to 2,092. A total somewhere between 2,300 and 2,300 is expected for the 1943-44 schedule.

Two civilians have been picked as the best of the military conditioning and the civilian safety skills students. All have run the course complete with nine obstacles in 4½ minutes or less (unofficial time), and all 12 will be out to establish an unofficial record, McChristal said.

Two civilians have taken the fences, rope crossings and water jumps of the course in the best time recorded to date. They are Jim Novak, freshman physical major from Elliston, Ohio, who got over the ground in 6 minutes, 40 seconds, and Harold Blaylock, senior Vet. from Perkins, Pa., who turned in a 6:31.

Invest in Victory Bonds and Stamps

## Can You Picture MICHIGAN without Highways?

A strange place it would be—this State of ours—if our splendid 8000-mile network of surfaced highways suddenly ceased to exist.

A great many communities inside of Michigan's 2,300-mile long shoreline would be isolated. Others would find it infinitely more difficult to carry on even the most ordinary daily activities—with no trucks on the move, no cars or buses taking workers to war plants and farms, soldiers to camp and home on furlough, business travelers to nearby communities, children to school.

We in Michigan are apt to take for granted the convenience of our excellent roads—but these highways didn't just grow. Building and maintaining them is a tremendous job and for achieving this successfully we can thank past and present administrations and particularly the Michigan State Highway Department.

That isn't the whole story, however. Transforming these lifeless ribbons of concrete and macadam into live, active arteries of public transportation has been the accomplishment of the Michigan Public Service Commission. They've given our State a transportation system that compares favorably with any other in the country.

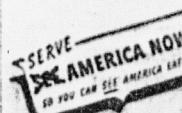

As fellow citizens of Michigan, the Greyhound Lines have made a very large contribution in the form of license, fuel and operating taxes—but we feel that our greatest service is in putting the highways to work making near neighbors and good neighbors of all the communities we serve throughout the State.

## New Plan Proposes That Judiciary Board Interview Rules Offenders

A new system of determining penalties for infringement of AWS rules is under consideration for use by Judiciary board this fall term, according to Pat Stone, AWS president. The proposed plan is to be presented for approval to the new board members early in the term, and if accepted will be put into practice immediately.

As the main feature of the revision, each woman will appear personally before the board for judging of her case, rather than writing an explanatory letter giving the details of the particular offense, the method used formerly.

Miss Stone explained that the present system is oftentimes unsatisfactory because all of the facts of the case are not known, all personal contact is lacking, and the offender has no understanding of why a particular decision has been made.

### Judged by Group

Under the new plan outlined for trial, each woman who has broken an AWS ruling will appear at a judiciary board meeting, briefly discuss her misdeemeanor, and discuss it with the members. In some instances cases may be grouped together and discussed finally coming to individual penalties. In such a way it is expected that the offenders will be judged equally by the board, their fellow offenders and themselves.

The proposed program will handle all requests in this manner at first, but it is expected that later some types of cases will be excluded. Women petitioning for late working hours, overtime, senior hours, and blanket permissions may be exempted from personal appearances.

**Result of Study**

The plan is designed to take care of failures and weaknesses in the present system, and is the result of a year's investigation and discussion by members of the 1942-43 panel. Miss Stone concluded:

## FOOTBALL

(Continued from Page 1) be attached to the service teams so that all will start under similar circumstances, he continued.

There are also indications that if a team that measures favorably against other college teams can be mustered in any sport intercollegiate competition in that sport will take place.

### Air Corps Team Enlisted

Since the air force does not sanction football for its college training detachments, the air force team will consist only of the enlisted personnel who are permanently stationed at State. However, air force teams may participate in any other sport except boxing, wrestling and lacrosse, so competition will be even keener than it is in football, Director Young explained.

Summer gridiron practice of civilian students under the direction of Head Coach Charles Bachman will continue until Aug. 21.

## STAFSETH

(Continued from Page 3) the college hospital, private physicians, and to studies of chronic bacterial diseases, such as allergies.

They have prepared vaccines for persons with asthma, sinus infection, and intestinal disorders. There is no work with contagious diseases, however.

### 106 Diagnoses

According to Stafseth's annual report, the department diagnosed 5,000 specimens of small animals and birds during the last year. Dogs, rabbits, swine, parrots, eagles, and canaries were used. There were about 100 different diagnoses.

When asked about his hobby, Stafseth said he didn't have much time for a real hobby but that he spent "a wholesome amount of time and managed various offices in organizations."

## THE GUEST SAID

(Continued from Page 2)

After spending a few months in radio work, Doc writes, the pleas for defense workers made him feel like a race horse pulling a dairy wagon. Doc now works in a west coast ship yard and writes as nautical as a captain is a salt water admiral.

You all know the truth of the saying that letters are one of the most important war materials. Maybe I'm cheating, but I've caught up on my correspondence. It's your turn now.

## JAPS

(Continued from Page 1) this waste land and the gardens and truck farms that have been established are producing a large part of the necessary food for the camps, he stated.

While living in the camp, Mayeda worked on the center's paper, both as editor's assistant and reporter. Last April, after a year at the camp, he came here mainly to get the veterinary work he wanted.

"I don't regret my experiences at the camp. It is something I would never have known about otherwise. I have a brother and sister living in Saginaw, so I'm not all alone here in Michigan."

### Beautiful Campus

Commenting on the campus and his work, Mayeda said, "I like my work, and the weather is swell. I'd always thought that the UCLA campus was beautiful, but Michigan State's beats it easily."

Other Japanese Americans who are connected with the college are Jack Matsumoto, who is working with Spenser Apple, resident assistant in horticulture with vegetables, and Paul Shimada, who is working with Prof. Charles Miller in soils research.

Joanne Nagata, who is living in East Lansing, attended UCLA for a year and a half, and plans to enroll at State this fall as a chemistry major.

August 14, 1943

### EARREST Johnny:

This is one of those rare occasions when I happen to be in the library, hat rack for unsuccessful browlers, and not final week either.

Biggest news of the week came from President Hannah, who announced officially that all intercollegiate sports have been cancelled for the duration. His explanation was that he did believe it would be quite fair to place inexperienced freshmen against the tough opposition that has been scheduled, as there's also a matter of transportation.

State crews will have an opportunity to be "healthy, wealthy and wise" with the newly approved early to bed and early arise program scheduled to begin fall term. Because of the increase in feminine enrollment, college authorities have been forced to arrange for three in a dormitory room with a designated reveille at 7:30 a.m. and curfew at 11:30 p.m.

Further word on the former ROTC students came from H. C. Reukema, visiting director of the Army Specialized Training program, when he discussed with Col. Dorsey R. Henry, MSC commandant, plans for the return of approximately 280 former junior ROTC students to this campus for free college work while awaiting vacancies in Officer Candidate schools.

The all-women (with the exception of one happy male) variety show traveled to Fort Custer Wednesday evening to serve as an entertainment for the Custer doughboys.

Social activities for the weekend are stacked up in a variety pile. Aircrewmen of squadrons L and K celebrated their flight graduation with a dance last night. Student club car trip and an all-college dance are on the bill for tonight.

State shall suffer from no lack of rhythm with the air force 80-piece marching band and the Hi-Fliers orchestra, the new formed AST orchestra and the summer campus orchestra. Almost as much music radiates from the old practice building in the days of yore. And then there are those between-song sessions rendered by the marching glee clubs.

Thus I take my leave, so until next week.

Love'n'luck
