ALLIED HDQ. IN THE S. W. PACIFIC, Tuesday, Oct. 19 (AP)—An attempt by the Japanese to land at Finschhafen, recently captured enemy base on the coast of New Guinea, has been repulsed, General MacArthur announced today.

The Australians also repulsed two counterattacks north of Finschhafen.

The importance of Finschhafen was stressed by General Mac-

South Pacific forces sank a Japanese barge and a coastal vessel and attacked Solomon island positions in a continuation of the aerial blitz.

Tower Guard Alumni, AWS Begin Revision of Limitations System

Revision of the old points limitation system is being undertaken by AWS and Tower Guard alumni.

Mrs. Don Robinson, advisor of the group, announced this week.

Last winter term the point limitation system was revised and petitions temporarily established as the machinery through which all women's organizations would elect their official slate.

"Though still in a formative state, the system seems to be satisfactory and the petitions have been accepted as a permanent part of the point system," Mrs. Robinson said.

Supervisory Board

A new board, to be termed the point supervisory board, will be selected by AWS from petitions to be presented by any interested women students. Reasons for interest in such an organization should be specified on the petitions. The new board will take over its duties this term and start checking points of all women active in organizations.

To Check Petitions

The point supervisory board will consider petitions for rank, for organization officials, and check on the eligibility of applicants. Purpose of the board is to prevent women from being excluded with extra points and to give women an opportunity to be active and responsible in campus activities.

Tower Guard Alumni, AWS Begin

Tower Guard alumni, AWS, and other women's organizations are beginning the revision of the point system.

Allied Planes Continue Night Attacks With Day Bombings

Germans Make Retaliatory Raids on England

LONDON, Oct. 18 (AP)—Allied bombers thundered back and forth across the English channel today in fresh challenges to the enemy's aerial defense after night attacks by the RAF on objectives in Berlin, western Germany and occupied territory.

There was some indication that today's excursions were large scale feints rather than a full dress renewal of the aerial bombardment which has been slackened since American Flying Fortresses shattered German ball bearing and roller bearing production at Schweinfurt last Thursday.

The U.S. Eighth Air force announced tonight that American P-47 Thunderbolts had made a series of offensive sweeps over enemy territory, and blasted down one Nazi fighter plane which had attempted to make a getaway.

U.S. monitors reported that the Deutschlandsender, main Nazi radio in the Berlin area, the Danish and Kalundborg stations also under Nazi domination, and the Berlin DNB wireless transmitters, ceased operations tonight—indications that RAF bombers were out over those areas again.

Mosquito squadrons dealt Berlin its first blow since Oct. 9 last night and also pounded unannounced targets in western Germany, while fighter planes roamed over northern France to shoot up air fields and communications lines.

London had its second straight air raid alarm last night as the Germans made three retaliatory raids against East Anglia, the southeast coast of England and the capital itself.

News in Brief

SAN FRANCISCO, Oct. 18 (AP)—The entire complement of a medium-sized merchant vessel, torpedoed by an enemy submarine in the South Pacific in August, has arrived here safely, the 12th naval district reported today.

WASHINGTON, Oct. 18 (AP)—A unanimous house vote today put both branches of congress on record as favoring payments of \$50 a month to wives of enlisted service men, \$30 a month for their first dependent child and \$20 extra for each additional child.

PEARL HARBOR, Oct. 18 (AP)—The mighty fortress of Oahu island was thrown into an alert before dawn Sunday by the approach of an unidentified aircraft which turned and sped out to sea when it was caught in the beam of a powerful searchlight. The unidentified plane approached from the sea toward the naval air station at Barbers point, the navy announced. It appeared to be a small float type monoplane.

WASHINGTON, Oct. 18 (AP)—Treasury Secretary Morgenthau was disclosed tonight to be on an aerial tour of war fronts with his monetary expert, Harry D. White, and his confidential assistant, Ted Smith. Treasury officials said that the secretary's tour would be concerned chiefly with fiscal matters of American military operations and war bond buying by officers and men in the field.

The Common Sense club at the University of Texas was organized last year to further campus interest in racial relations, improved labor conditions and civil liberties in wartime. The name was adopted from the American Revolutionary pamphlet written by Thomas Paine.
