Fortified Cathedral Town of Bayeux Taken by Forces Five Miles Inland

Eisenhower, Ramsay Confer With Operational Leaders Off Coast of Normandy on Boat; Advance Better Than Expected

SUPREME HDQ. ALLIED EXPEDITIONARY FORCE, Thursday, June 8 (AP)—Allied Invasion forces have captured the Nazi-fortified cathedral town of Bayeux and have cut the highway to Caen, 18 miles east-southeast, in generally heavy fighting, supreme head-

oquarters announced early, Invasion Leaders today.

Striking from cleared and consolidated beaches, the United States, British and Canadian troops were officially de-clared to be doing better than expected" against ferocious armored counterattacks by German reserves.

Once a city of 9,000 population, Bayeux is the first town an-nounced by supreme headquarters to have been captured in the invasion launched Tuesday morning. It lies five miles inland almost at the center of the Normandy front.

Eisenhower Visits Beaches

Gen. Dwight D. Eisenhower, supreme commander, and Ad-miral Sir Bertram Ramsay, com-mander of Allied naval forces, were disclosed to have cruised off the invasion beaches for 41/2 hours yesterday and conferred with operational chieftians.

In the second day of the great invasion, landing beaches in Normandy were cleared of the enemy Wednesday and some were linked by extending the flanks, while steady reenforcements poured in by sea and air, said a headquarters communique issued shortly before midnight.

German resistance is stiffening, and fighting is expected to increase in severity as more enemy reserves come into action against the advancing Ameri-cans, British and Canadians,

headquarters stated.
Names of localities where the Allied drives are forging ahead were withheld, with the exception of the Caen area, lest they be of advantage to the Germans, who fished all day for informa-

Counterattacks Felt

The first of the German armored counterattacks was thrown in the vicinity of Caen, which is nine miles inland from the mouth of the Orne river and 29 miles southwest of Le Havre. Headquarters disclosed losses were suffered by both sides before the Germans were repulsed.

Allied airborne operations, a feature of the initial landings, were resumed Wednesday on a 'very large scale," the Allied communique stated, while supplies and men moved constantly to the beaches despite strong northwest winds, which moderated somewhat tonight.

Clearing the beaches of the enemy freed the supply and reinforcement convoys and men from small arms attack, while naval forces silenced remaining German coastal guns which had escaped the first furious air and sea assault Tuesday.
