TODAY'S CAMPUS

Look Familiar

People are getting tired of looking themselves. The State News covers that fact when baseball star John Kots called up to answer that he thought 23 years long enough to run one picture.

He was referring to his picture on Wednesday's sports page. It was taken in 1924 and has been used by the news ever since.

Following Kots' complaint, however, it has been destroyed and a new one has been dispatched.

Snoose Derby

On Saturday morning, the new athletic chairman, Horace Harmon, has prepared a "dark race" as the first contest of spring term.

Curie Relates New Worries of French

Mme. Eve Curie, Nobel laureate in her lecture last night in College auditorium, still fighting for her life, the battlefield of peace, she an audience of over 3,000 students, faculty and townsmen.

Problems

Transportation, industry, house construction, policies, distribution of food and goods, and a place in the world, are problems to be met in the re-education of France.

Mme. Curie expressed the view that Germany was receiving more than France, and that the Germans, and that they are the people in Europe who are doing the most.

Open Questions

In the question session that followed her lecture, one question that Mme. Curie was asked was whether Hitler is really dead. Her reply was that the Nazi military government had not a book telling of Hitler's days to the point of actually doing his last minutes.

Mme. Curie felt that the book gave an accurate account of his last minutes.

AWS Training Study To End

The final session of the AWS leadership training program took place tonight, included in the evening's program will be a meeting of social women at 7 in room 206. As Mrs. Isabelle Gonon, counselor for women, will be in charge of discussion. At the same time in room 103 publicity chairmen will meet with Prof. Alan

At 8 p.m. all officers will meet in Ag Hall for a summary of recommendations and actions which have resulted from the previous training session.

Miss Esther Anson of the education department will preside over this final meeting.

The AWS Activities program is being sponsored through the cooperation of adult education department compulsory for all officers and members organizations.

Cleveland Group Perform Here Twice Next Week

The Cleveland orchestra, under Szell, musical director and conductor, will present an all-day program in the College Auditorium at 8:15 Monday and Tuesday nights. Rudolph Ringhofer, associate conductor, Beethoven and Bach. The program, while Tuesday's program features the works of Mendelssohn, Prokofieff, Strauss, and others are available at the Univer-

Bishop Act May Force Enrollment Slash

Council Considers Revision Proposal

Group Seeks New Setup In Elections, Membership

Forecasting a complete revision of its membership and election procedure, Student council last night took initial steps in an attempt to bring student government closer to the student body.

At the same meeting, Blue Key, senior and junior men's honorary, took the lead in the movement to alter radically the conduct of campus social affairs.

Sophomore class president John Cox proposed two amendments to the present constitution. The amendments will, if approved next week, expand the size of the council and completely change the method of representation.

Change Election System

Amendment No. 1 would make the present system of electing councilmen from the schools of the college null and void.

He would substitute for it a division of the students into 14 districts, each to elect its own council representatives.

The districts are all fraternity houses, Masonic hall, State Red Cross and chairman said that students have contributed generously in past drives.

Dean Dorsey R. Rodney Barnes and Public Service in charge of the faculty, Red Cross campaign. Contributions have been solicited since March 1 and will continue through March 13.

Funds received during the 1947 drive will be used for Red Cross units serving United States armed forces on occupation duty and at home, and for emergency and disaster relief wherever it is needed.

Representatives of each organization will solicit contributions in their dormitory, sorority house, dormitory, and fraternity houses during the week of the campaign.

Among the suggestions were:

1. That the Student council, working with the administration, appoint a student as College Social Chairman and that he be furnished with an office and funds.

2. That this Social Chairman establish a booking system to receive applications from all organizations desiring to sponsor social affairs.

3. That the responsibility for booking orchestras be placed in the hands of the Social chairman.

The council appointed a committee composed of Don Bongers, Bill Jackson, Tom Crowley and Bob Cardinell to review and act upon further recommendations from other organizations for improving this social set-up.

Arts Professors Are Awarded Fellowships

Professor R. B. Nye and Professor Duard W. Lagin, of the literature and fine arts department, were recently awarded fellowships grants for next fall.

Professor Lagin was one of the four men in this country to receive a fellowship from the Julian American Educational Foundation. He will study in Netherlands next year, compiling material for a book on Flemish painting only every 10 years.

Senate Approves Douglas

WASHINGTON, March 5 (AP) — Lewis W. Douglas won quick Senate confirmation today to be United States ambassador to Great Britain.

By unanimous consent, the Senate approved the former budget director to succeed O. Max Gardner, who died en route to London.

New Violence in Palestine

JERUSALEM, March 5 (AP) — One person was killed and three were injured as a new wave of violence swept Palestine tonight with gunfire rattling in the ancient streets of Jerusalem.

A private car struck a roadside near the Jewish settlement of Rehovot, 25 miles northwest of Jerusalem. The Jewish driver was killed and a Jewish passenger was injured.

GERM KILLER

New Drug Saves Work For Doctors

CHICAGO, March 5 (AP) — Successive use of a new powerful germ-killing agent that checks many infections resistant to penicillin and the sulphonamides and frequently removes the need for surgery was reported today.

The physicians who developed the antibiotic said it had proved so successful in treatment of such localized infections as boils, carbuncles, sties and ulcers that it had "almost completely replaced penicillin" in their hands.

The substance works with such speed, they reported, that the results surprised both patient and physician. Developed after nearly

four years of research, it has proven effective against at least 30 organisms resistant to penicillin. It has obviated the need for surgery in a long list of the "ordinary run" of infections.

The new agent was named bacitracin in honor of Margaret Tracy, who underwent treatment in a New York hospital for a compound fracture of the leg.

The germ found in the badly infected wound of her leg was subjected to ordinary culture media and found to produce a wide spectrum of anti-bacterial activity. It was also found that the subsequent crude filtrate proved effective when injected

into the center of boils and carbuncles.

The tests were conducted at the Presbyterian Hospital, New York, by Dr. Frank L. Melone, and Miss Barbara Johnson of the Columbia University's College of Physicians and Surgeons.

Eventually they tried the drug on 54 men and 46 women whose cases represented the "ordinary run" of infections which are seen in any surgeon's office or in the surgical clinic of any hospital. Of the 100 patients, 62 were saved from the surgeon's knife and post-surgical healing was speeded in most of the other cases.

Engineering School, Building Program, Face Curtailment

By PHIL SPELMAN

More than 1,128 MSC engineers and many students in other schools of the college must be refused enrollment next fall in Senator Otto W. Bishop's proposed building slash is made law, President John A. Hannah said yesterday.

The Bishop plan, introduced the day, slashes to \$3,400,000 the \$7,365,318 asked by MSC to complete the present building program.

Buildings proposed to be left in their present state are the \$1,213,000 Electrical Engineering building, the \$2,166,215 Physics and Mathematics building and the \$1,133,000 power plant.

Write to Bishop

In a letter to Senator Bishop last week, President Hannah said that closing the Electrical Engineering building to Michigan State college would have the effect of requiring 1,128 of our present engineering students and 500 potential students to seek their training at one other school.

Swanson, associate professor of music at the college, will sing a bass solo for his own setting of John Fletcher's colorful poem,

The Moon's Orchestra. He wrote the work while a student at the Cincinnati conservatory in 1933. Showing an important note, Fletcher's piece attempts to represent the solar system through music.

Matthew Arnold's "Dover Beach," one of the best poems in the English language, was set by Samuel Barber for strong quartet and baritone voice. Barber is one of America's most prominent young composers.

The full orchestra will open the concert with two of Mendelssohn's most beautiful compositions. Then, too, "The Hebrides Overture" was celebrated by the making of a copy of Hebrides stones, for which the rock itself was perfect background music. Then, too, the Fourth Symphony in A Major, known as the Italian Symphony, was composed while Mendelssohn was in Rome.

Norton Gaddis' Spirituals in Five Movements will also be included on the program.

Estimates Pared

The full cuts \$455,318 from estimated costs of the Classroom building, Science building, Home Management building and Agriculture Engineering building.

James H. Denison, administrative assistant, stated yesterday that the buildings apparently would have to be left in a rough state if the bill were passed.

Speaking of the new power plant now under construction, Hannah told Senator Bishop, "I believe I have told you that we are planning two new dormitory units (Snyder Phillips), built as well as liquidated projects at the beginning of the spring term, and that three additional units will be ready for the fall term. It is essential that we have additional trans-generating capacity or these buildings cannot be put into use."

May Lose Teachers

Hannah expressed fear that an immediate effect of abandoning buildings started on the campus would be a trend for high caliber teachers to leave MSC. They have received flattering offers from other institutions on the promise that new laboratories and other facilities would be forthcoming, he said.

Senator Bishop, 71, is from Alpena and represents the 29th district, which includes the counties of Alpena, Charlevoix, Cheboygan, Emmet, Montmorency, Osceola and Presque Isle. He is serving his seventh term.

OPA To End June 30

WASHINGTON, March 5 (AP) — The Senate today approved a \$100,000,000 deficiency appropriation bill that included \$16,000,000 for OPA plus a June 30 death sentence for wartime control agencies.

A vigorous Democratic attempt to knock out the death sentence was defeated despite contentions it might end meat, sugar and other price controls on April 30.

Varsity Debate Men Attend Third Turney

Four State varsity men debaters today will travel to Madison, Wis., to attend their third major tournament of the year. The debate and discussion invitation for tomorrow and Saturday was extended by Delta Sigma Rho, national debaters' honorary.

The question to be debated is: Resolved, that labor should have a direct share in management in industry. The discussion question is: What should be enacted for public health?

Michigan State's debaters are David Moss, Stanwood junior; Edward Clark, Miles junior, and Ed Maantette. Brown is also scheduled to participate in a news casting event in which he must comment on a five-minute news summary.

to JACK women
Swimmers with entries in five events will be competing in Jenson tomorrow in the fifth annual Collegiate swimming competition. Charles McCarren is expected to take the championship.

State will have 39 men, followed by 18 women. Bowling Wayne has entered the University of Michigan Tech, three men, seven women, plus Sue and Macie. State will bring six men, seven women, the Intercollegiate has the smallest, four men, two women.

ede in 100 Meters

Hancock and Roger are the Michigan State's best event of the year in the 100 meter free style race at 10 tomorrow evening. There is no admission fee for the event or for the spectators at 4 dollars.

It is turned on for the 100 meters, according to McCarren, may be the best of Dick Macmillan's team from the NCAAs.

The national champion in 1943, going to Mexico, Washington will have stars like Ray Ladday, Doug Tritschler, and four others, plus Noel Gilbert in the NCAAs.

Prings Chanced
The large entries in the preliminaries held yesterday afternoon will face each other in the final round tomorrow afternoon.

Abbot 15 Bowlers Hold League Lead

Abbot 15 holds a three point lead in the Mason Abbot Bowling League after 18 weeks of competition.

However, with seven weeks remaining in the tournament anything can happen.

Monday evening high scores for the night went to Mike Hales of Abbot 15 and Jack Rice of Abbot 15. Hales posted a high series of 340 while Jack rolled 221 for the high game.

Abbot 16 hit 883 pins for the high game and Abbot 15 totaled 255 for the high team series.

Mason 7 defeated Abbot 13, 4-1.

Abbot 18 downed Abbot 12, 3-1.

Abbot 15 defeated Abbot 14, 3-1.

Mason 8 defeated Mason 2, 3-1.

Mason 5 blanked Abbot 11, 4-0.

Abbot 17 blanked Mason 9, 4-0.

Abbot 18 downed Abbot 10, 3-1.

Mason 4 blanked Mason 3, 4-0.

Frank Radon of the Rumbolds was high man with 11 points, Bob Marrott counted seven for the victory.

Saginaw 8 and AT&T 8

met in the first term of the 18th week series.

Neither team could score a point.

Two members of MSC's basketball team which just concluded its season started last night in a game at Sexton high school at Lansing. Ollie White racked up 16 points and Jack Cawood counted 12 for the F.W.V. 701 squad which lost to the Dow Chemicals of Midland 78-53.

Tuesday night the F.W.V.s won an easy victory over the Dow Chemicals.

Ed Hayes of the Red Cedar Reds five dropped 22 points through the first half, continuing his phenomenal performance of the past month. He had 30 points in the last game and 32 in the one before.

Mason 8, paced by Bob Dillons 17 dimes squared a close 22-20 win over Abbot 16. Abbot 17 topped Abbot 14, 16-10, as Wends Lawrence piled up 12 points.

Two men were eliminated in the second half after the Whiskers took a 12-10 lead in the first half.

This brought back after his retirement to play within four points. He scored off when the Whiskers won the game 22-18.

Wendy 14 points Bill Johnson topped the twosome in the second half.

Ed Hayes and Robert Allard of the Spartans took the 100 yard free style race.

Both Fenn and Joyce of

Sparks are considered

the leaders.

WOMEN'S SPORTS

BY ROSE SABERS

The first AAU-meet, featuring competition in synchronized swimming will be held this Saturday in Detroit at the St. Clair Recreation center at 8:30 p.m. Representing Michigan State college will be six women, comprising three duet teams. They are Peggy Rawls and Mae Beck, Donna Maddock and Barbara Kerr, and Jean Bowen and Barbara Shum.

On Sunday afternoon at 3, the women's swimming team will play host to an aggregation of Battle Creek swimmers at the Jenson pool. The Battle Creek swimmers are coached by Ray Sparks.

At this time the second inter-collegiate telegraphic meet will be run off. Times of the contestants are sent in to compete against 19 other schools in the Central district.

Last year, MSC tied for first place with Purdue, but finished fourth nationally, one place above Purdue. This year, MSC will give in the honor of tabulating and recording the results of the Central district schools participating.

Intercollegiate swimming wound up its season with the sophomore capturing first place with 181.5 points, freshmen second with 94 points, seniors third with 68.5 points, and juniors last with 58 points.

In the dual race for record breaking, Peggy Rawls knocked out the old 10 yard breaststroke with a new time of 20.2 seconds.

And the 40 yard breaststroke with new time of 27.8 seconds, while Donna Maddock added a new clocking in the 40 yard breaststroke with 21 seconds.

The freshman medley relay team composed of Barbara Colvin, Frances Frank and Peggy Rawls broke in a new record with 1:04.6 clocking. Jean Proctor senior took first in the 30 yard back crawl and side over arm events. Helen Pfeifer sophomore captured the 40 yard side over arm, while Frances Frank freshman finished first in the 30 yard crawl.

Alpha Gamma Delta's bowling 1418 pins in a two card game captured the women's intramural all college championship. Second place Gamma Plus totaled 1239 points. Sigma Kappa with 1229 came in third and fourth place. Kappa Delta finished with 1223 points.

The distinction of being the highest individual two game bowler of the season went to Lee Engle who bowled 337 for the Sigma Kappa.

Several society entertainments

and the dash date, Bob Schenck of

State and Gordon Campbell of

American Normal both turned in

sparkling spirits in the recent

Michigan State Games.

Ed Johnson is another star performer in his leg invincibles.

Consistent Record Breaker

Johnson will be able to broad

haste according to Coach Karl

Schenck. For 1946 the freshman

has performed most outstandingly in this event, breaking

three records.

Studio Theater Comedy Will Be Shown Tonight

By BARB WEIL

Studio theatre is kicking the season this evening with a pre-St. Patrick's Day production of "The Man Of Hills," an Irish comedy by Lucien Lelong.

Directed by Raymond Hansen, it is the organization's first show after a two-month absence from the stage since the return of the Michigan State News staff from the winter term.

The curtain will go up at 8 p.m. at the Studio Theatre, 100 N. University.

Tickets have been made available to the general public and may be obtained now in advance at 25c each at the door before the show begins or in advance as 25c each at the Studio Theatre.

The plot concerns a man who has come to America from Ireland to seek his fortune. He finds work as a laborer on a farm owned by a Mr. Mulligan, who is a tyrant. The man's wife, however, is a gentle soul who loves him.

Members of the cast include

Council Members Will Be Known By New Badges

With the introduction of the Student council recognition pins and keys this year, an attempt is being made to make council members easily distinguishable.

The pins were ordered after students complained that they did not identify their council representatives.

It is believed that the pins will become more popular than the old leather badges.

Students are asked to wear

the pins during the school day.

Members of the council will
