

# New Union Addition To Feature Social, Business Facilities

Six Floor Wing Will Include Men's And Women's Lounges, Bowling, Billiards, Ping-Pong

They're digging. Construction of the new addition to the Union is under way. The six floor "social" wing will be 105 feet square and will have accommodations for most all types of social and business activities.

The basement of the new addition will be strictly for recreation. Sixteen bowling alleys, checkers, and restroom facilities will be provided for Spartans.

**Ground Floor For Men.**

The ground floor will be dedicated to the men on campus. The west half of the floor will feature billiards, rooms, and ping-pong equipment. A massive eight chair barber shop with a four-chair parlor in the vestibule will be across the corridor. The remainder of the floor will house a new men's lounge.

**New Mixed Lounge.**

A mixed lounge, something not available at all now, will take up the west half of the first floor. A reading room with out-of-town newspapers and magazines is another new feature which will be on this floor. The new women's lounge will have a powder room, a long desired item on the horizon.

The first floor will also provide a telephone room with six phone booths for long distance calls and 12 phones for local calls.

**Activity Meeting Room.**

The entire second floor of the addition will be devoted to meeting rooms for college and outside activities. Accordion type doors will make it possible to divide the floor into most any sized room desired. Dining service will be available on this floor for luncheons, dinner parties and club reunions.

Six music rooms will take up part of the third floor, as well as a special section for art exhibits. This floor will have additional meeting rooms, but meals will not be served.

The fourth floor will house all mechanical equipment. The air-conditioning will consist of a blow-through system, but will not have a re-circulating unit.

**Architecture Same.** The exterior of the new wing will conform to the Union building design. A separate terrace with hand railings, decked with flower boxes, will front the fourth floor.

No prediction can be made as to the estimated date of the addition because of the uncertain conditions which prevail in availability of labor and construction materials.

## State Graduate Killed By Auto

Gay Ward Stonemaker, 36, of Springfield road, Flint, died Saturday morning at 4:45 a.m. Friday after he was hit by a car near the business line, Thursday night.

Stonemaker, a MSC graduate of 1943, had graduate work here in 1946.

The driver of the car that struck Stonemaker was Robert E. Aldrich of East Lansing. Stonemaker was walking west on M-18 near Hastett road at 10:30 p.m. against traffic. Aldrich, attempting to pass another car, knocked Stonemaker down. He was taken to Sparrow hospital where he died.

## NEWS IN BRIEF

### Telegraph Strike Looms

Detroit, April 18 (AP) — Robert Cartwright, president of local 11, a commercial telegraphers union, announced today that Detroit offices of the Western Union Telegraph Co. have voted 650 to 27 in favor of a strike.

### Russian Demand Refused

Lake Success, N.Y., April 18 (AP) — The Security council rejected Russia's demand for United Nations supervisory over sea and to Greece Poland alone supported the Soviet Union in its UN test vote of President Truman's \$400-million Greek aid program, which still awaits approval by Congress.

### British Blow Up Ammo

BOARD THE BRITISH DESTROYER BLEASDALE OFF HELGOLAND, April 18 (AP) — The British navy blew up today thousands of pounds of ammunition and explosives planted throughout the honeycombed tunnels and submarine pens of Helgoland in the biggest demolition set back since D-Day.

### GM Spurns GM Offer

Detroit, April 18 (AP) — General Motors Corp. today asked the United Auto Workers to accept an 11½-cent hourly wage increase for six annual holidays, an offer union leaders immediately rejected as unsatisfactory. The corporation described its overall offer as equivalent of a raise of 15 cents an hour.

## Texas Death Toll Continues To Rise

### Famous Men Will Judge 'S' Contest

#### Authors Accept Role of Critics In Competition

Four contemporary novelists and essayists have accepted invitations from the English department to act as judges in the annual short story, poetry, and essay contests sponsored by the department.

Prof. Virgil Scott, author of the new novel, "The Dead Tree Offers No Shelter," will act as judge in the short story contest. Prof. Scott is a member of the English department staff of the University of Minnesota. Next fall he will join the staff of the English department here, teaching advanced composition.

Enke Feukema, author of three novels, "The Golden Bowl Boy Almighty," and his recently published, "This Is The Year," also accepted an invitation to serve as one of the judges in the short story contest. Mr. Feukema, "This Is The Year," received favorable criticism by the New York Times book review section.

In the essay contest Prof. Waldo Hendricks, member of the faculty of Illinois Institute of Technology, will serve as a judge. Prof. Hendricks is a contemporary poet and essayist, writing for national magazines.

Prof. Richard A. F. Brooks, member of the English department at Vassar College, Poughkeepsie, N.Y., will serve as a judge in the poetry contest. Prof. Brooks is a poet and critic of note.

Prof. H. Hartman, chairman of the English committee, says students must submit short stories, essays, and poetry to both the department contests and to the forthcoming literary supplement of the State News.

Nominations have to be made as to the estimated date of the addition because of the uncertain conditions which prevail in availability of labor and construction materials.

**Architecture Same.** The exterior of the new wing will conform to the Union building design. A separate terrace with hand railings, decked with flower boxes, will front the fourth floor.

No prediction can be made as to the estimated date of the addition because of the uncertain conditions which prevail in availability of labor and construction materials.

**Architecture Same.** The exterior of the new wing will conform to the Union building design. A separate terrace with hand railings, decked with flower boxes, will front the fourth floor.

No prediction can be made as to the estimated date of the addition because of the uncertain conditions which prevail in availability of labor and construction materials.

**HERMIE SAYS—**

## Some Aren't Too Bright

By TOM RYORDAN

SOME PEOPLE JUST AREN'T TOO bright—college students included. Recently this writer got a phone call from Bill Timm, junior from Birmingham, concerning the very thoughtless actions of several MSC students.

While walking across Farm Lane bridge Timm saw several students hurling rocks at the ducks swimming in the Red Cedar. This in itself, besides being a breach of common etiquette, is an unlawful act.

One of the simple minded "sportsmen" happened to strike a fowl in the head and kill it. To Timm it was a malicious act and this writer is sure all others who read this will feel the same way.

WHY DO SOME college students, who are supposed to be among the upper 15%, and the nation's leaders of tomorrow, stoop to such inexcusable conduct?

If these men who were responsible and thus, they should realize that this sort of conduct is unwanted at Michigan State. If you've got to throw rocks for exercise, men, throw them at each other.

**AN UNSIGNED LETTER REACHED US** yesterday. The writer said his mind has been swirling the past week due to the swirling accounts of the recent flood in the State News. He expressed hope that this particular word, "swirling," would cease appearing on the pages of this paper.

From the way the Red Cedar is now meekly following its normal course and no longer swirling all over campus, we're sure the letter-writer can feel secure in knowing that "swirling" has been tamed until the next flood season.

**ONE OF THE TRITEST PHRASES** a person can use at Michigan State is "school spirit." It always seems to draw a laugh and somelssly says, "This isn't high school."

Maybe so, but your columnist thinks a lot of things would improve around here, if the students started thinking of Michigan State more as an alma mater, than a factory of learning.

Don't get us wrong. We're not advocating that everybody rush to the nearest drug store, buy an MSC pennant and take off to classes waving it over

our heads. That's what a lot of shortsighted people would term "school spirit."

It's not a "big boomer on the kickoff," or a long buildup about a star halfback. Too many of us tie it in purely with athletics. Some contend if we cheer at the ball games, we've got school spirit.

The thing is deeper than that. It's a feeling inside of ourselves that makes us want to be a part of Michigan State—not merely be exposed to its professors for a few years and then rush off.

In my mind the prize remark that took the biggest haymakers at that limited feeling around here was made by a grill-bound during the "cleanup." Said this person when asked to share in the campus police detail:

"What's there in it for me?"

Some people just aren't too bright.

## Responsibility In Print

It has been openly suggested by certain members of the student council that the State News adopt an editorial policy of soft-pedaling news which reflects upon the efficiency of the council.

Nothing could be further removed from the duty of this or any press to the people, or, in this case, to the students.

This newspaper is the voice of Michigan State. It is morally obligated to place all newsworthy facts before the student body.

To do otherwise, to withhold or minimize developments in the interest of any group or individual with the exception of information which violates good taste, is to ignore the sacred trust which is the American newspaper's birthright.

Certainly this includes inefficiency in student government. Voters are entitled to know that the candidates for whom they cast their ballots have let them down. They are entitled to know when an official is farred from their student body for absenteeism. They are equally entitled to know that an ineligible member is, and has been playing a leading part in their government.

They shall know and the information shall be placed where they can find it.

## — INFORMATION —

### DE STUDENTS

The Russian film, "The Young and the Restless," will be shown in the University and Fine Arts motion picture series at 7:30 p.m. Monday, April 21, in the Fine Arts Auditorium. Members of the college staff and faculty and Arts students are invited.

### GAMMA DELTA

There will be a business meeting of Gamma Delta Saturday, April 26, at 8:30 p.m. in the Union Annex. All Lutheran students are invited.

### LUTHERAN STUDENTS

The 45 sessions of the Christian Tabernacle Church will be held at the Christian Service Center, illustrating the meaning of the New Testament. All students are invited.

### APO

There will be a meeting of APO members on April 13 Union Annex, Monday, April 13.

## Michigan State News

Editorial page editor under Dr. Marion D. Fife is the post-graduate English major who worked three of last year at U.S. News and World Report.

# Socialites To Get Party Variety

## South Sea Island Theme Featured By Fraternity; Radio Parties Scheduled

The South Sea Islanders have nothing on the Sigma Alpha Epsilon fraternity, for tonight the SAE's are going native and literally turning their house into an island for their traditional "South Sea Island" party from 9 to 12.

Visiting "natives" will see:

### Widely Known Accountant To Lecture

Scheduled to speak to business administration students Wednesday evening is W. V. Monagan of Arthur Andersen and Company, nationally known firm of accountants and auditors in Detroit. The lecture is one of a series given every term.

Ted Carty will provide special entertainment and a prize will be given for the best costume.

The "Pacific Island" all-college dance sponsored by the Interfraternity Council is being held in the Union ballroom from 9 to 12 and will be an appropriate evening's entertainment no matter what the weather is like.

Bob Shimp and his orchestra will provide the music.

As usual, radio parties are planned with Masonic Hall featuring the last two days. House-More Hop, inspired by the beginning of baseball season, the party will be in Masonic, Jewish, B'nai B'rith, and baseball and boys will be suspended from the ceiling as decorations.

Other radio parties are being given tonight in the SAE, Sigma Alpha Chi, Sigma Tau Alpha, Tau Omega, and Delta Lambda halls.

MSCA executive members are having a Hand Times party in the theater Union from 9 to 12. A satirical mock mystery will provide entertainment and there will be dancing in several rooms.

## Landon's Showers Due Soon; Phillips Nears Completion

Residents of Landon hall need not make the trek to Campuses or Masonic Hall to get their daily shower.

Shower heads will be installed in Landon within the next few weeks and female MSCA members of local and dormitory sections will probably be assigned to clean them up.

Women will be moved into Landon when the new shower heads are installed. In the meantime, temporary shower heads will be used in the dormitory sections.

Meanwhile, Phillips hall is rapidly becoming comfortable, and will soon start its career as the most modern men's dormitory on campus.

### Rex Takes No Chances

**Canine Guardian.** — Rev., terrier pet of Bobby Kramer of Philadelphia, keeps watch over his newest friends, some baby chicks which arrived as a gift for Bobby's young brother, Rex, taking no chances.

## TRAILER TALK

BY IRMA FECHTINGER

The dinner problem was temporarily solved from chaotic ramblings that this lecture series is sponsored by Sigma Epsilon. The speakers will be in Masonic, Jewish, B'nai B'rith, and baseball and boys will be suspended from the ceiling as decorations.

Other radio parties are being given tonight in the SAE, Sigma Alpha Chi, Sigma Tau Alpha, Tau Omega, and Delta Lambda halls.

MSCA executive members are having a Hand Times party in the theater Union from 9 to 12. A satirical mock mystery will provide entertainment and there will be dancing in several rooms.

### Committee Okays Psi U Initiation

The Union fraternity recently placed on indefinite social probation for violation of social rules which were submitted to formal committee of the present college class. Very little comment has been revealed recently.

The social committee has ruled that formal initiation will be put off until the fall meeting of the fraternity, scheduled for Monday night meeting. All senior parents visiting from Lakewood will be invited there during their stay.

Comments in Time magazine's column on Freshman Year show

### Powers Clash Over Austrian Control Plans

MOSCOW, April 18 (UPI) — Soviet foreign minister Molotov ripped to shreds tonight an American proposed compromise on defining German assets in Austria and U.S. Secretary of State Marshall charged Molotov with trying to transform Austria into a "pimped" state under "foreign control."

The Soviet rejection of the American compromise on the key issue of defining what assets the Russians can take for reparations apparently doomed all chances of completing an Austrian pact at the present conference of foreign ministers.

Marshall went through a definition of German assets offered by Marshall's paragraph by paragraph, pointing and criticizing in turn.

Benson said he had three modified blankets, shotgun, flying chair, office furniture, tool kit and other articles.

Representatives of major Western organizations selected by the so-called "sabotage" held every evening Saturday and Sunday evenings from 6 to 8 blocks.

Circle Club, V.A. contact of Benson stated recently that eligible men under the GI bill remaining after graduation may be entitled to awards at May 15, 1948, degree.
