Track Team Stops Michigan  
Dianetti, Schepers Brilliant  
As State Triumphs In Rain

The brilliant running of Jack Dianetti, freshman distance star, last night paced Michigan State's track team to a thrilling 68 1 3 - 63 2 3 victory over University of Michigan here. Going into the final event, the one mile relay, Michigan led 58 2 3 - 58 1 3. Bob Schepers, who had already won the 100 and 220 yard dashes, ran the first leg for State. He handed the baton to Jim Fraser, second Spartan runner, five yards off the pace.

Fraser turned on the heat to take the lead on the first curve. Hal Mayhew had a 10 yard lead as he took the baton from Fraser, and he doubled it in his leg. Dianetti, with victories in the mile and half mile already turned in splashed through the mud and rain to break the tape in 3:23.7.

Dianetti's mile clocking was 4:25.880 time. 1:57.6. Schepers zipped down the straightaway in 1:00 flat to take the century and came back out to grab the 220 in 22.2.

Charles Fonville, great Michigan weightman, provided the only record-breaking performance of the meet as he whipped the shot 31 feet. 9 1/2 inches. Jim Zito, however, gave State a first place in the discus with a heave of 139 feet.

## Appeals To Congress For One Year Control On Exports, Imports

WASHINGTON, May 23 (AP) — President Truman appealed to Congress today to change its mind and grant him authority to control the import, export and use in this country of certain scarce items until next year.

Otherwise, his message said, the flow of foods and goods to friendly nations overseas may be hampered and his foreign policy endangered.

The powers he seeks continued were contained originally in a law called the second war powers act which expired March 31. In January, Mr. Truman urged that they be continued for a full year beyond that date. But Congress granted only a stop-gap extension until this coming June.

The president asked continued power to allocate tin, antimony, cordage and quinine among domestic users, to limit imports of fats, oils and rice, and to get American goods needed for overseas shipment from the manufacturers through government priorities where necessary.

Through the Greek-Turkish program and the \$350,000,000 foreign relief bill, Mr. Truman declared, "Congress has already recognized the importance of supporting our foreign policy with financial assistance." But, he added, "financial assistance alone, without occasional priority backing, may be useless in instances where speedy aid in concrete form is necessary."

The "tragic conditions" of hunger and scarcity in many foreign countries, "with their enormously important political and social implications," he wrote, make it necessary to retain "a very limited portion of our wartime power over materials."

## Anti-Lynching Bill Necessity Seen By Case

WASHINGTON, May 23 (AP) — Rep. Clifford P. Case (R-N. J.) author of an anti-lynching bill now before Congress, said today the Greenville, S. C. mass lynching trial "seems to indicate the necessity for such legislation."

Case said a section of his bill providing civil damages of \$2,000 to \$10,000 for the victim of a lynching or his survivors "would in itself be a deterrent against such crimes and alleviate part of the hardships caused by lynchings."

The Case bill would make local communities liable for damages for lynchings occurring in the community or abduction of a person in the community who is lynched elsewhere.

Case told a reporter, "I don't know whether federal law would be more enforceable than state law insofar as punishing the perpetrators of a lynching. You would still have local people sitting on the jury. But the section of the bill providing for civil damages would be enforceable."

# Notre Dame Nine Blasts Visiting Spartans, 10-2

## Shell Roberts Early For Winning Runs

By HERBIE BOWERS

Tagging pitcher Robin Roberts for four runs in the first inning, the Notre Dame baseball team took an initial lead the Spartans were never able to overcome yesterday afternoon in the return game played at South Bend.

After State had scored a pair of runs in the first, the second, the Irish shell Roberts for three more runs and nipped the visiting team before he could subdue the pitcher.

Again in the third the Irish sent two more men to the plate for the final tally of the contest.

After four Michigan State batters had collected their tails while the Spartans connected for a total of 10 hits but could make them good for only two runs.

Notre Dame's John Creevy, who went all the way for the Irish, was the winning hurler.

Coach John Kobs replaced several of the regulars late in the game with men who have had little chance to play this season and a total of 17 Spartans saw action in the contest. Notre Dame used no substitutions.

Michigan State picked up their tally of counters in the top half of the second on doubles by Ed Barabara and Bucky Walsh and singles by Ed Sobczak and Harry Hughes.

Several scoring opportunities were lost by the Spartans as they left men stranded on the bases. The Irish had seven men left in the sixth. # ASPAR Drivers Break Holdout In Time To Qualify For '500'

INDIANAPOLIS, May 23 (AP)—Reconciliation of the Indianapolis Speedway management and a holdout group of car owners and drivers became official today, and big-name drivers immediately began warming up for the 500-mile race May 30.

At Chicago, Ralph Hepburn, president of the American Society of Professional Automobile Racers, announced that the group had voted unanimously to accept an offer by Anton Hulman Jr., the speedway owner, to pay out of his own pocket extra money as prizes for ASPAR drivers who qualify for next Friday's race.

All ASPAR drivers are released to enter the 500-mile race May 30, Hepburn said.

"That's fine," was the brief comment of Wilbur Shaw, Speedway president, when informed of Hepburn's announcement.

Hepburn said about ten ASPAR cars should be in Indianapolis for the qualification trials to be held tomorrow and Sunday.

Some of the group apparently had anticipated settlement of the dispute for the word were scattered out of Hepburn's mouth before several of them were at the track.

Among them was Fred A. Peters of Patterson, N. J., who showed up with the four-cylinder, rear drive Offenhauser which finished first in the 1941 race with Mauri

# State JV's Plan Host To Flint On Diamond

Rain cancelled last night's JV diamond tilt with Reo Motors, and will provide the Spartan second squad with wet grounds for today's encounter with Flint Junior college. The game is scheduled for 3:00 this afternoon, on Old College field.

This is the second game the Spartans have had this season with the Flint group, and in the last meeting they were blanked by the score of 2-0.

George Hill plans to pit southpaw Bob Brooks on the mound against Flint, and the opponent's mentor will probably counter with a right-hander.

Joe Beechard, who made the Notre Dame trip with the varsity, will probably not be in the JV lineup today. Hill will also feel the loss of Chuck Dietrich, who was also with the Varsity.

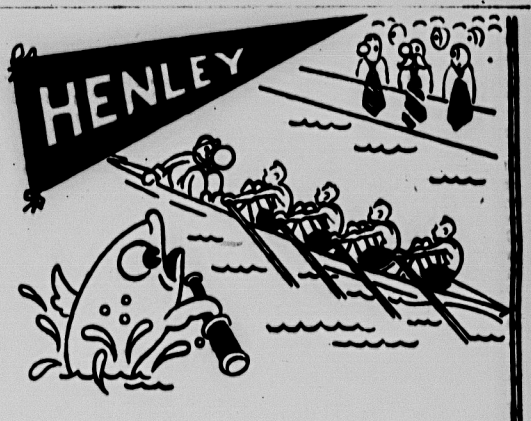

The starters for the game will probably be Brooks as pitcher, George Paylik behind the plate, Ray Stiffen on the initial sack, Ted Maun on second, Joe Barka at short, and either Rex Carrow or Don Morrow at the hot corner.

Outfield assignments have not been given out and those positions will be judged to provide hitting power.

# Navy Ends Observance Of Reserve

By DON RALL

Tomorrow ends Naval Reserve Week, and the final drive for 1,000,000 officers and men in the new naval reserve.

This week was designated for national observance of men in the reserve, their duty and the equipment they work with. Emphasized is the importance to national security of a large, well trained naval reserve.

Lansing's organized Battalion 9-25 will hold open house in West Junior high school tomorrow at 1 p.m. Everyone is invited to attend naval films to be shown and demonstrations of reserve activities.

Fleet Admiral Chester W. Nimitz, in a recent address, stated that "Our postwar economy could not stand the burden of a navy as large as we possessed in 1945. Yet it is clear that this force for good must somehow be kept in being." The logical solution, then, is a small compact reserve fleet backed up by a large well trained Naval Reserve.

Veterans and non-veterans are eligible for enlistment. Only congressional action can lift recruitment on active duty, unless they have been in the service for at least two years of college or a regular four of duty.

Reservists are distinguished by a small gold level pin (shown two years experience as a reservist). In addition to regular active service of group recreation. The activities, many social functions are held at about \$2,000 a year. Quarters and clothing included.

Emley is a graduate of the University of Virginia and is now studying in the Divinity School of the University of Chicago. As an undergraduate at Virginia, he was a boxing champion, president of the student body, chairman of the Honor System and a member of Omicron Delta Kappa.

Following his graduation, he traveled for Inter-Varsity Christian Fellowship, visiting and lecturing to university students. Last spring he presented a week-long series of lectures at Michigan State.

The pay is about \$2,000 a year. Quarters and clothing included.
