## Members Of Four Fraternities Robbed of \$260

### State May Graduate 221 Seniors At End Of Summer Session

#### Business And Public Service Leads With 85 Candidates For Degrees

Two hundred and twenty one seniors are candidates for graduation at the end of the summer term, according to figures released by the registrar's office. Commencement exercises for the graduates were held last June commencing at 7 p. m. Degrees will be conferred on those fulfilling the requirements.

#### Business and Public Service Leads

The end of the summer term will graduate its yearly group. This group should total 44 students.

### TODAY'S CAMPUS

#### Paper Perils

After working on a problem for minutes in calculus 204a, Chih-Haiung, the instructor arrived at a perplexingly wrong answer. He studied the solution for a few moments and said to the class, "No time for mistake now; we have this done on test next Wednesday!"

#### Fan-Tastic

On either day a professor led into one of the stuffy rooms on campus with a fan under his arm. While he was arranging the fan so the breeze would blow directly on him, he noticed a student frantically waving a notebook in the air. A student when asked what he was doing, replied, "It's just a man's fan."

### Library Faces Possibility Of Inadequate Facilities

Operating costs vary widely throughout the country, ranging from a high at Columbia of \$698,573 to a low of \$16,342 at North Dakota. Of the total operating expenses to be spent by other similar institutions.

### Activities Of First Summer Council Reviewed

In its final spring session, the newly elected student council named a committee to "carry on" during summer term. Ed Kidd ("Other Areas" representative) authored this new idea in Spartan student government.

### 'S' Children Will Attend City Schools

#### Contract Provides That College Bear Part of Expenses

A special contract has been signed between MSC and East Lansing public schools to accommodate the children of grade school age now residing on the MSC campus, according to M. F. Egdorf, superintendent of East Lansing public schools.

#### Campus Annexed

The area of the MSC campus was annexed by the East Lansing public school system into their district according to Egdorf, and the contract signed in lieu of taxes which would normally be paid by the district.

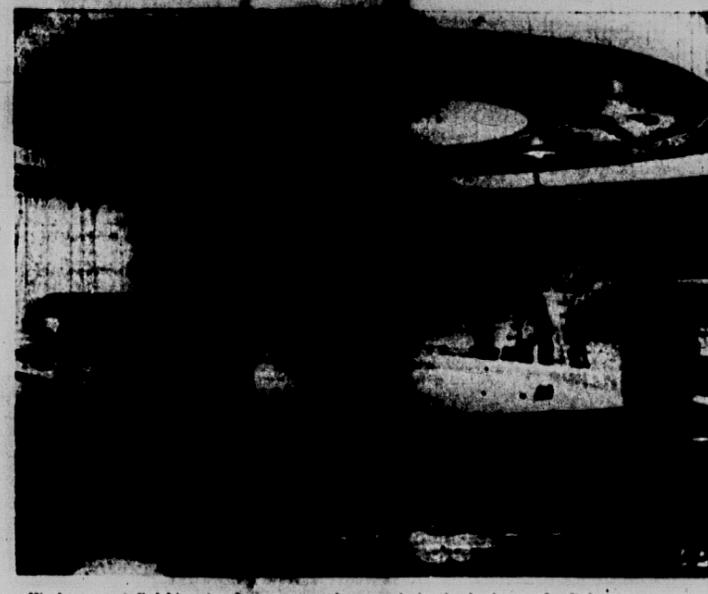

#### 'S' Department Of Chem Given ASC Approval

The chemistry department of Michigan State has been placed on the accredited list of the American Chemical Society, according to an announcement received from society's committee on professional training.

#### Council Plans Final Meeting

Recommendation designed to tighten and streamline student council procedure will be worked into the final report of the council's summer committee when it meets Wednesday night at 7:30 on the Union sun porch.

### Defense Conference Meets Here

Workmen put finishing touches on room in Quilindimba hotel, 45 miles from Rio de Janeiro, where Inter-American Defense Conference is being held. The speaker's rostrum is in the background. Delegates sit around a horseshoe-shaped table. The room was formerly a night club.

### 'S' Department Of Chem Given ASC Approval

The chemistry department of Michigan State has been placed on the accredited list of the American Chemical Society, according to an announcement received from society's committee on professional training.

### US Armament Proposals Opposed By Ecuadorean

"I do not think that the United States should arm the Latin American nations," Enrique Rendon, president of MSC's Latin American club, stated today.

His country's proposal has been rejected by the United States. Rendon was echoing the words of Eduardo Santos, former President of Colombia, who when a similar proposal was suggested in 1937, stated, "Don't do this evil to us. The curse of armaments is like the vice of morphine. Once begun the cure is almost impossible. Among nations heavily armed, peace is precarious."

### Phi Tau, Lambda Chi, Sigma Chi, AGR Men All Report Losses

#### Reports Show Only Cash Taken; Rings And Watches Untouched

A series of robberies swept fraternity row Tuesday night resulting in a loss amounting to at least \$260, according to East Lansing Police Chief C. F. Pegg. The Lambda Chi Alpha house members, 128 Haslett, were robbed of \$77, and Alpha-Gamma Rho, 803 East Grand River, \$110. Entering the Phi Kappa Tau house at 223 Delta, thieves took \$35, and from the Sigma Chi house, 729 East Grand River, \$42.

### Editor Given Washington Assignment

Extension editor Earl C. Richardson has been granted a leave of absence to go to Washington, D. C., on special assignment with the U. S. Department of Agriculture.

Richardson, who joined the public relations staff last March, has been selected to assist in preparing the annual report to Congress for the federal extension service.

The request came from M. L. Wilson, director of the federal services and college authorities granted him permission to fill the assignment. He is expected to leave Tuesday and will be gone between three to four weeks.

### Counseling Staff Slated For Move To New Offices

Counseling services for freshman students will be "essentially the same as last fall" according to Paul L. Dresel, director of counseling.

### Library Faces Possibility Of Inadequate Facilities

Operating costs vary widely throughout the country, ranging from a high at Columbia of \$698,573 to a low of \$16,342 at North Dakota. Of the total operating expenses to be spent by other similar institutions.

### Activities Of First Summer Council Reviewed

In its final spring session, the newly elected student council named a committee to "carry on" during summer term. Ed Kidd ("Other Areas" representative) authored this new idea in Spartan student government.

Lamentations

Police And Farewell

By JERRY KENNEY

WITHOUT using the time-honored gag about "Does your father work?", I'd like to offer a word or two, or even three, about the campus police.

Being an old campus flatfoot myself, I have a certain sympathy for the men who guard the \$60,000,000 properties of Michigan State college for 50 or 60 cents an hour. But in the good ole days at least no one over-worked doing it.

A recent conversation with Lieut. Charles Latters, of the campus police, revealed that some action is finally being taken on the multitude of traffic problems that beset the campus.

But first, better say nothing at all about the touchy situation regarding student driving permits. Right or wrong, the policy is going to be tougher in the fall regarding a student, or faculty, parking tag.

Biggest improvement that is being made is the installation of stop signs. The signs have been ordered and are expected in the near future. They will be used partially in the pre-fab housing area and partly to clear up the maze of intersections and dissections

that the roads here form. The speed limit is going up also. Campus speeders may now cruise at 25 miles per hour without incurring the wrath of the local gendarme. But the trailer and pre-fab housing areas will be rightly blessed with a 10 mile limit.

The new speed and stop street regulations will be "vigorously enforced," Lieutenant Latters stated. It would be better, it seems to me, if the campus police did enforce the driving regulations more stringently and worry a little less about who parked that car. A parked car won't kill many students and it matters less who drives it than how he drives it.

IN ACCORDANCE with a long standing tradition among student editors, it becomes my moral duty and doubtful pleasure to say goodbye, to offer wise words of wisdom to those who will follow, and to prepare to face the cruel, cold world with my copy pencil and slide rule.

Let a few salty tears spot the page . . . So Long.

YARDBIRD'S CORNER

DURING fall registration, veterans administration officials will be on hand at College auditorium to assist new veteran students in registering.

Certain forms must be signed to insure prompt authorization of subsistence payments. It is necessary that new students enrolling under the GI bill comply with the VA procedure.

While enrolling, new veteran students will receive a veteran's authorization card which certifies the amount of eligibility entitled them.

This card is important in that it must be presented at registration and again when obtaining books.

The veterans' administration maintains an office at Demonstration hall staffed with training officials and counselors to assist veterans with any problems they may face.

NOW that President Truman has signed the bill officially designating July 25, 1947 as the final day which may be counted by service men and women as service during World War II, several important points concerning servicemen's eligibility arise:

1. Persons entering the service after July 25 will not become eligible for GI bill benefits.
2. Compensation or pensions awarded veterans or their dependents as a result of service occurring after July 25 will be comparable at peace-time rates, instead of higher war rates.
3. GI bill education or training must be started within four years of that date, or date of discharge, whichever is later and the program ends in nine years.
4. All public law 16 training stops nine years from July 25.
5. GI loan guarantees remain available for 10 years after July 25.
6. Readjustment allowances may be claimed until two years after July 25, or date of discharge, whichever is later, and the program ends in five years.

Title Contest Entries Slow, Manager Says

Entries to the Movie Title contest sponsored jointly by the State Theater and the State News have been slow in coming in, Arthur Sanford, State Theater manager, said yesterday.

Sanford attributed the lack of entries to approaching final exams and expressed hope that more entries would come in between now and the close of the last week of the contest on Friday, Aug. 22.

The contest consists of composing a short story entirely out of motion picture titles. The maximum length of a story is 50 words. No connectives may be used between titles.

Sources for movie titles may be found in many available reference books, magazines, and newspapers.

LETTERS to the EDITOR

TO the Editor: I'm disappointed -- but then perhaps I'm expecting too much from the "Spartan men" around here.

Did you happen to notice any pregnant women on the bus as you came home from getting yesterday? You didn't. It's amazing how the wives of fellow students have become so "invisible" as they stand while riding the bus while you sit.

Last week one wife fainted as she returned from that necessary trip to see her doctor -- and then it was a woman that offered her a seat.

Some of us can't afford cars, so if the doctor's appointment comes in the afternoon and "the little woman" has to make the trip alone we have to depend upon the thoughtfulness of others under the crowded bus conditions to get our families home safely. How about it, fellows. Not all of you are guilty, but enough to make it embarrassing.

Dale Stevens.

COUNCIL

(Continued from Page 1)

A council campaign to acquaint students with its aims and plans. Distribution of council "suggestion boxes" for student use.

Meanwhile, council members found time to contribute several dollars toward purchase of a magazine subscription for campus hospital patients.

He's outgrown child psychology -- I guess he's ready for psycho-analysis, now!

Pre-Fab Area Residents Form Steering Committee

The formation of a temporary steering committee under the chairmanship of Bob Fisher, Bloomingdale junior high, lighted a meeting held by married students of the barracks housing area Friday night at the barracks housing office.

Don Phillips, of the adult education department, invited by Fisher to advise the barracks residents on the formation of community organizations, warned the students to beware of two pitfalls in their attempts to organize.

First, said Phillips, many community organizations fail because of too great a dependence on one or two leaders.

Secondly, failure often occurs when representatives fail to keep communications with the people they are representing.

Phillips was later chosen by the students to act as their advisor. A host of problems came up for discussion at the meeting.

The things discussed were to secure more public telephone spots, limits, and establishment of information channels to insure the college policies toward pre-fab-housed students.

The group also discussed advisability of using a block of a organization.

Committees for investigating the area, publicity, and selection of a permanent meeting place were appointed.

A short meeting will be held Thursday night at the barracks housing office at 7 p.m. to progress report from these committees.

# State Boxers Named To Sugar Bowl Card

## Spartans To Face Maryland Squad Holiday Sports Carnival

The Sugar Bowl Midwest Sports Division has extended to Michigan State's boxing team an invitation to participate in the annual Sugar Bowl sports carnival, according to Athletic Director Ralph Young.

Announcing the acceptance of the invitation, Young pointed out that the college's boxing team will be represented by National Collegiate champion Chuck Davey.

Michigan State's Spartans are to meet the University of Maryland boxers as their contribution to the program of the carnival which will take place at Orleans on Dec. 29.

The carnival is a gala affair in the field of sports and is composed of a series of athletic events which will be held for several days each preceding the annual New Year's day Sugar Bowl grid class.

## Guerre Called By Air Force For Training

Michigan State stellar halfback, George Guerre, left State Sunday after receiving orders to report to the army air base at Rapid City, S. D., for a two-weeks training program.

Guerre, who was a second lieutenant as a navigator in the army air corps, is a member of the Reserve Officer Training Corps.

He has been working on one of the construction crews at the physical building during summer term, keeping in trim for the fall football season.

The flashy halfback, who led the Spartans in scoring last fall, plans to be back in time for the opening day of this year's football practice.

Coach Biggie Munn has set Sept. 3 as the date for all candidates on the invitation list to appear.

## The Brutes! Abbot Softballers Trample Campbell Killers '15-4

The battle of the sexes took a new twist Wednesday night when the Mighty Maulers of Abbot 15 played an exhibition softball game with the Campbell Killers.

The Killers used a variety of tricks, among them being five outs on a string.

They weren't satisfied with that fact so they pulled another one. Glenn Vossberg, captain of the team, also alternated as umpire.

In spite of the advantages, it was all in vain as the brutes defeated Emily Post to trounce the little women 15-4.

Lou Ingalls was the ace hurler for the Killers but apparently her curves had no effect on the Abbot team.

The cattish family is distributed over much of the earth and contains approximately one thousand species.—Sports Afield.

## Lost Ball, Lost Ball Game

Connie Ryan slides across with the tying run for the Boston Braves in the eighth inning of the Braves-Clubs game in Boston. He scored on a wild pitch by Joe Hoogs. Giant hurler (right) who is hunter for the ball (arrow) thrown by catcher Walker Cooper. Umpire Artie Gore calls the play. The Braves won the game 8-7.

# SPORTSIGHT

By BILL SAILL

ANOTHER term is coming to a close and Spartans will be heading for the near-by lakes and shady hideaways to catch a short breather before fall term.

There are no varsity sports to brighten the limelight this summer, but "mural" sports and tourneys kept the athletic-minded in trim.

Although each tourney was equally important to the individuals participating, the one that pleased us most was our first attempt to operate an all-college golf tourney.

THE tourney received its birth in the mind of Wally Schramm and through his determination and the complete and splendid cooperation of the entrants it was a success.

Joe Matel, Dick Lang and Jim Trebilcock won the championship, first and second flight trophies respectively.

Following the golf tourney the athletic department conducted a tennis meet, which was won for the second straight time by Don "Tony" Waldron.

Vergheze Kurien then grabbed the Mason-Abbot tennis tourney title, defeating Bob Bowden.

FOR the first time during a summer quarter a complete softball league flourished at MSC. The leagues were laid out with a dorm loop answering the request of campus residents and an independent league for those off campus.

Perhaps no other summer quarter offered more for the relaxed muscles of the Spartan students and all were successful in proportion to the cooperation of the students.

Mistakes were made as will happen in the carrying out of these tourneys, but the way is now open for more student sports in future summer terms and it is hoped that those who follow may benefit from both the success and errors of this year's meet.

WE ARE reminded that the first home football game is Oct. 4, with Mississippi State college. The Spartan gridlers have a score to settle in this one as the Maroons exed out a 6-0 win last fall.

Moreover the Spartan fans also have a situation to rectify this same day. It was in last year's game against Mississippi State that State rooters shocked the nation by being their own players.

This fall many of the same players who journeyed in from State college last year will be on the gridiron again, so will the sports writers who went back to their large southern city papers with unfavorable opinions of the Spartan spirit.

Nothing has been done since that fatal day to correct their opinion, it will be up to us, the students, to do so.

Oct. 4 is a little less than two months away but if the gridlers must work all summer and begin practice four weeks early to give us the desired result, now is the time for us to condition ourselves to be able to prove this fall that there is a truly strong Spartan spirit in the new MSC.

# Mason 4 Wins Dorm Title With Undefeated Record

Mason 4 of the Mason-Abbot softball league remained undefeated to take the championship of their division of the league.

They won their eighth game from Mason 3 Monday night by a forfeit.

In their seventh win of the season last Thursday, Mason 4 can give most of the credit to its pitcher, Leon Hesse.

Striking out 10 men in a seven-inning game, the new pitching sensation hurried his team to an 8-0 victory over the Mason 3 team.

Two-hitter  
Allowing only two hits, Hesse was able to keep the undefeated team at the head of the league.

He was given excellent support by his teammates who tallied eight runs and allowed only one man to advance past first base.

Gene Grossnickel and the hurling for the losing team.

In a duplicate game, Mason 2 defeated a track team, Mason 6 topped all over the Mason 5 team by a score of 13-7.

Don Fossell, who is the manager of the winning team, is active in the work of the league.

Three Homers  
The 200-foot home run by Ted Smith last Wednesday night, Sept. 24, was the longest in the league.

Standings  
Mason 4 8 0  
Mason 1 4 1  
Mason 9 4 4  
Mason 2 4 4  
Mason 7 3 3

## ate To Add Novel Sport

Ralph Young, Spartan athletics director, announced early this week that beginning next winter, Michigan State will have its first inter-collegiate gymnastic

commenting on prospects for the team, Young pointed out that there is a great interest in sport.

As is indicated by the large element in the gymnastics since the end of the war, instructors have been able to top many good men in the tumbling, double tumbling, apparatus work. A large number of candidates is expected to appear in the gymnasium at State its origin in the old gymnasium shortly after World War I.

There have been classes in tumbling and apparatus work since then.

The coach for the team has not yet been selected at this time, but it is stated that whoever was selected would be one of the best in the field.

The schedule for the season has been tentatively planned but will be printed as soon as it is final.

# Fall Term Increase In Board Rates Authorized For College Dormitories

## Board Announcement Provides For Reduction If Costs Drop

By HILL ROWELL

Increases in food costs have necessitated an increase in board rates for dormitories and other college-operated units for fall term, announced Emery G. Foster, manager of the dormitories and food services department.

The raise will be 10 cents per day for food. The room rate will remain the same. This represents an increase of eight dollars per term.

### Former Rates Too Low

Despite attempts to keep rates at a parallel with those for the last school year, it has now become apparent that last year's rates will not pay the costs of dining room operations, according to Foster.

Said Foster: "We have been fighting the rising costs of living for the last year, but the food department must be self-sustaining in the school's debt retirement program for dormitories and this cannot be done without raising the rates."

The Board of Agriculture, at its meeting on August 7, authorized an increase in dormitory rates for

## Union Facilities Will Be In Use Between Terms

Most of the Union building's facilities will be open for use between terms, Union Manager Leslie Scott has announced.

The cafeteria and main desk will be open for business as

All movies which have been viewed by students in Basic Biological Science classes will be re-shown in Fairchild theater at 7:30 Thursday night.

The grill, however, will be closed.

Work is progressing on the new Union Bookstore to be located in the east wing of the annex.

The bookstore will incorporate the State College Bookstore, the used book shop located in the Union and the Veteran's Bookstore, now in Demonstration hall. Completion is anticipated for the fall term.

### Fall Term Schedule

The Union grill will be operating on a fall schedule for the fall term from 7:30 in the morning to 10 at night. The Union cafeteria will continue on its present schedule.

Scott anticipates the arrival of an electronically operated sandwich machine in the near future. The machine will probably be located in the grill.

### Plan Telephone Room

A telephone room for the Union is also being planned. It will contain 8 free pay phones, and 4 pay booths for long distance calls.

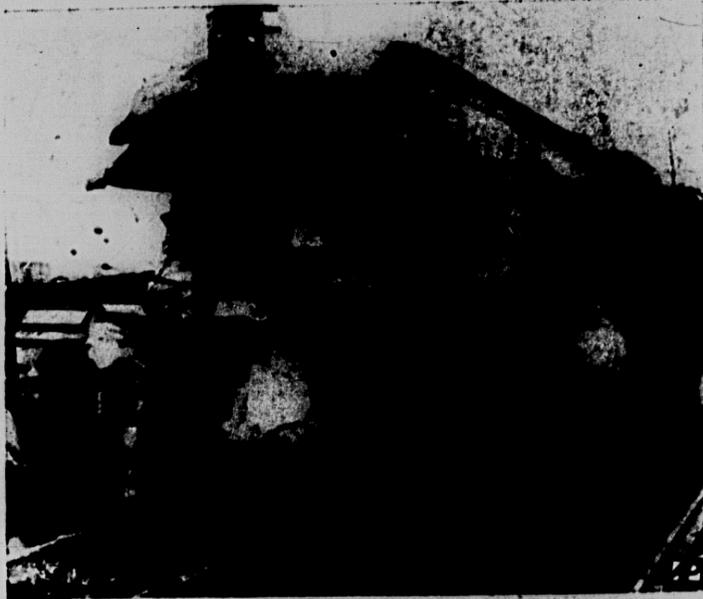

Social events in the Union have already been planned for the fall term. There will be a dance following the pep rally before the Michigan game, and also a dance following the Mississippi State game on Saturday, October 4.

## Women Voters Plan Fall Term Meeting

The League of Women Voters of Michigan State college will have their first meeting shortly after the opening of fall term. President Marie Alexander said.

Mrs. C. W. Melberger, the college organizer for the league, and Mrs. Ernest Harper of the Written and Spoken English department, faculty advisors, were present at a board meeting Saturday to complete plans for the coming year.

## Motorman Dies In Crushed Cab

This is the wrecked cab of the Pennsylvania railroad Schuylkill valley special after it collided with a locomotive in West Philadelphia, killing the motorman and injuring at least 20 persons. This picture was made after the locomotive was pulled away and the motorman's body extricated by workers using acetylene torches.

## Foreign Students Will Tour Midwest

A group of 16 foreign students will leave Michigan State college Sept. 2 on a three-week, 1,750 mile tour through four midwestern states.

As a part of their course in marketing, the trip has been arranged to permit these students to examine some of the agricultural institutions in the area to be covered.

Dr. Orion Ulrey, assistant professor of economics, announced that the first two days of the trip would be spent in western Michigan.

### Three Days in Chicago

These students, from India, Burma, China and Ecuador, will spend three days in Chicago. They plan to visit the Chicago stock yards and then go on into Wisconsin.

At Fort Atkinson, the 16 students and Ulrey, will be hosts

of Hoard's Dairyman, one of the outstanding magazines in the dairy field. From there the group will go to Madison, where they will remain at the University of Wisconsin for a day.

The students will then attend the conference of the American Farm Economics association from Sept. 9 to 11. Here they will participate in meetings on marketing, agriculture policy, foreign agriculture relations, and other similar topics.

Field trips will be made in the area during the three-day stay. The group will visit cheese factories in that state and then move on into Michigan. Stops will be made in various communities in the upper peninsula, and the return to the lower peninsula will be made via St. Ignace on Sept. 16.

## Night Class Scheduling Will Be Cut

By JOHN ERWIN

Registration this fall will offer one welcome change for MSC students — fewer night classes. This is the good word coming out of the office of Robert S. Linton, registrar.

A new classroom building plus temporary structures across the river and a larger staff of teachers will make school pretty much of a daytime proposition, Linton said. A few exceptions will have to be made in the case of certain laboratory classes, however.

In other respects registration will conform pretty much to the pattern of past terms. Students already familiar with the procedure used here at State should have little trouble completing all of the registration requirements, although an estimated enrollment of 15,000 is expected.

Between 100 and 125 extra student helpers will be working at registration this September. In addition several student organizations have volunteered their aid to help those unfamiliar with the enrollment procedure.

"If students will report on time and follow the registration schedule to the minute it will be a great help to those who are running the registration and enable us to finish right on time," Linton said. "With everybody's cooperation we can all be at Ann Arbor for the football game Saturday."

### Pakistan Appointee

Zafar Hashmi, graduate student in poultry husbandry at Michigan State college, has been notified of his appointment as official representative of the department of foods and agriculture of the government of Pakistan.

fall term with the understanding that if the food costs decline, the rates may be reduced for winter term.

### May Raise Again

However, stated the Board, if food prices increase further, it could be necessary to raise the rates still further for winter term.

Release of the new prices had been held up pending the determination of the necessary price adjustment.

In a check with several Big Ten schools, Foster discovered that their prices have also been raised. In many cases the cost-increases were greater, declared Foster.

## LIBRARY

(Continued from Page 1)

about \$9,025 will be spent for 1,655 periodicals. A check of the Michigan State college list against those required by the North Central association, college accrediting body, revealed that the library lacked only nine periodicals recommended by that organization, and they were ordered immediately.

### Reading Lists Late

Towne pointed out that no one had to wait more than four minutes for a report on a book in the assigned reading room, but because about 20 percent of the faculty fail to send in assigned reading lists promptly, students often were sent away disappointed.

Many students, according to Towne, fail to utilize existing facilities to the best advantage. Every effort should be made to visit the library during the slow hours.

Students should avoid coming to the library at 10 in the morning or 3 in the afternoon, because it is almost certain to be crowded.
