ON—P—The labor gov-  
ernment announced today it will  
nationalize Britain's big iron and  
steel industry on Feb. 15, 1951.

The Parliamentary En-  
quiry Committee has reported that  
the nation's iron and steel com-  
panies are now producing more  
than enough to meet the needs of  
the government's iron and steel  
industry.

nationalization of steel is one  
of the government's major  
policies in the future. The  
government will take over  
the industry from all branches of  
the industry.

## President's Message

In time to come, you who are students at Michigan State will look back upon your years here as being among the happiest periods in your lives. You are storing up those pleasant memories even now, and not the least of them will be the friendliness you encountered here on the part of faculty and students alike. Such friendliness is traditional on our campus, but whether that tradition continues to be a vital one depends upon each of us, for traditions must be observed regularly if they are to remain alive.

For this reason, I am happy that the APO is sponsoring Friendship Week; repeated demonstrations of friendship will do much to remind us how much the tradition means to us.

Of course, we all recognize that a simple wave of the hand or a casual "Hi!" is not friendship, but merely an outward symbol of an inner feeling. If one is really friendly, he will not restrict such demonstrations to one week a year, and we would like to have this be a friendly campus all the time. So I hope Friendship Week will be what I am sure the APO intends it to be — the stimulation of a year-round feeling of friendliness on the part of everyone at Michigan State.

JOHN A. HANNAH

Hannah Declares  
Collegiate Athletics  
Not Lone 'Empire'

"I can see no sound reason why the athletic program of any college should be conducted as an independent autonomous empire."

That statement came from writing in the September issue of "The Rotarian."

His article was entitled "A Plan to Clean Up College Athletics."

President John A. Hannah, in his article, said he believes athletic operations should be submitted to the same control exercised over all other operations of the college.

Institutional control, over athletics should go much further than control over finances, he said. Eligibility to compete as a member of an intercollegiate athletic team should be limited to full-time students who have completed one full year of residence with a two-point, Hannah stated.

Eligibility to compete thereafter should be limited to those who have completed one full year of passing work since their last competition in the same sport, he added.

However, Hannah does not recommend elimination of athletics from the college curriculum.

"During the war we gave up intercollegiate athletics at Michigan State, and I had an opportunity to observe what happens to a college when it is all work and no play," he said.

Without athletics, he claimed, a college loses some of the best demonstrations of what we know and love as democracy.

Hannah's views on athletics have brought world-wide com-

Four Finalists  
To Be CourtVideo Appearance  
Booked On WXYZ

Mary Termohlen, Washington, D.C. sophomore, representing Kappa Kappa Gamma sorority, has been chosen reigning queen for MSC's 1950 Homecoming festivities.

The queen and her court will be presented to the football crowd before the Homecoming game Saturday and will be honored by the band at half-time, according to Don Smith of the Spartan magazine, and Jake Dulworth, of KAM, co-chairman of the Homecoming event.

Trophies will be presented to the coeds at the annual Homecoming dance Saturday evening. Detroit television audiences will also view the queen when she appears on the "Pat and Johnny" disc jockey show on TV station WXYZ sometime this week.

A 19-year-old blue-eyed blond, Miss Termohlen is a Home Economics major in the retailing field. She is 5'10" tall and weighs 125 pounds.

Five Candidates  
Marion Stearns, Columbia Station, Ohio, sophomore, East Lansing; Suzanne Weaver, Chicago, Illinois freshman, South Williams; Shirley Swaney, Grand Rapids sophomore, Alpha Phi; and Suzanne Chubb, Romeo junior, South Campbell, will make up the queen's court.

These five were chosen from a field of 27 coeds who represented women's housing groups on campus at the Homecoming review September 26 in the Union hall-room.

Five Judges Pick Finalists  
A panel of judges, Prof. A. A. Applegate, head of the Journalism department; William McIlraith, director of student publications; LeRoy Crane, football captain; H. C. Gallup, East Lansing photographer; and Tom Tryon, State Journal photographer, selected the five finalists from the group of 27.

The coeds were rated on personality, poise, confidence, appearance, and voice, as they paraded across the stage of the Union hall room, and talked briefly with Master of Ceremonies Charles Irvin, of the Written and Spoken English department.

William & Mary Judges Decide  
Pictures of the finalists were taken by Kappa Alpha Mu and sent to William and Mary college. The pictures were identified by numbers only, to eliminate prejudice in the selection.

Spartan Engineer  
Positions Open

Editorial and business positions on the Spartan Engineer are open to freshmen, sophomores, and junior engineers, according to Chuck Paul, editor. A meeting will be held Saturday, Oct. 14, at 9 a.m. in room 515, Electrical Engineering Bldg. for all who are interested.

## Photo Of Queen

Spartan To Make  
Fall Debut Today

Today marks the debut of the first Spartan magazine for 1950-1951. Co-sponsors of the Homecoming Queen contest, the Spartan will make the big announcement of the queen's identity.

The first issue will feature pictures of the Homecoming queen and her court. Not confining itself entirely to beauty, the Spartan also features humorous stories and cartoons.

Blatant Content Spiced  
One of these, "The Lady Is No Cowboy," by Frank Price, paints a laughable picture of the old west. A riotous center-spread of cartoons is Don Salvaggio's "Premartial Relations," answering the question, "What is life in the ROTC like?"

A regular feature of the Spartan is the question of the month with pictures by Jim Hyde. The question this month: "Do you think you will be lonely this term?" is answered by Don Coleman, Michigan State's man of the gridiron.

Short Stories  
Two Ken Duncan short stories filled with chuckles will appear in the first issue. An interesting sketch titled, "Wish Bone," on Gomer Jones of the Homecoming and fine arts department, makes good reading.

The Spartan may be purchased at various spots around the campus between the hours of 8 and 5.

Ballet Russe  
Ducats Gone  
Within WeekBig Opera Star  
Next Performer

A complete sellout of the Ballet Russe de Monte Carlo was announced yesterday by the Union ticket office. They went on sale last Tuesday.

However students may still see the show by being at the Auditorium at performance time in case cancellations turn up at the last minute.

Tickets for the James Melton program to be held on Thursday, Oct. 19, will go on sale this Thursday at 1 p.m. in the check room on the second floor of the Union.

A world renowned tenor and star of the Metropolitan Opera company, James Melton broke into opera in 1938, when he made his first appearance in the role of Lt. Pinkerton in Puccini's "Madame Butterfly," with the Cincinnati Opera company.

Success Led  
Success in this venture led him to Chicago, thence to New York and the Metropolitan. His tour with pianist-composer, George Gershwin, in 1934, interested Melton in operatic music and in that same year he appeared in four Hollywood musicals.

After his debut at New York's Roxy theater he began his rapid rise to fame and is now a star of stage, screen and radio.

## Prexy Makes Appointments

Crego, Walters Given  
Senior Chairmen Posts

Senior activities continue to progress this term with the appointment of two new committee heads by class prexy, Bob Klein.

Joanne Crego, Lansing, was named Senior-of-the-Week chairman and John Walters, Mackinaw City, will head Senior Coffee Hour plans.

First House Set  
The first in a series of senior coffee hours has been slated for Wednesday night from 8 to 10 p.m. in Old College Hall. The gatherings were inaugurated by last year's senior class in an effort to reserve the room as a senior meeting place.

Welcoming committees will be on hand each week to meet and talk with seniors. Senior class officers and council members will be present this week and coffee and doughnuts will be served, Walters said.

Donations Asked  
A jug will be placed in the room for donations this year to help defray expenses. "Financial limitations make this arrangement necessary," Walters said, "but we hope a large number of class members will turn out to make these hours a success."

Entertainment will be provided and the hours will afford a chance for seniors to meet and discuss current class problems with other class members," he said.

Ready Table Top  
Being readied for use in Old College Hall is a senior table top with class officer's names inscribed in the center. A knife will be chained to the top and other members will be able to carve their initials on it.

"This table will be reserved for See TWO CHAIRMEN, Page 4

Jo Crego, chairman of the Senior-of-the-Week committee, carves her initials in the new table top purchased by the senior class and placed in Old College hall. Local Music  
Instructor  
Loses LifeEx-State Student  
Still Unconscious

Thaddeus (Ted) Drabik, 25, a 1950 graduate of Michigan State College and former feature editor of the STATE NEWS was reported "still in critical condition" at the Sparrow hospital last night at midnight.

Drabik has remained unconscious since a collision involving his car and a truck. The accident occurred about 5:30 Saturday afternoon on M-78, north of East Lansing.

Music Teacher Killed  
Remo Grua of 6644 Abbott rd., popular music teacher at East Lansing high school, who was riding with Drabik at the time, was pronounced dead on admittance to Sparrow hospital.

Junior H. White, driver of the truck that skidded into the front of Drabik's car, was uninjured. White, who lives on M-15 near Goodrich, was placed on bond pending further investigation of the accident.

Applied Brakes  
Police officers who investigated the accident said the truck struck Drabik's car when it applied its brakes to avoid hitting another vehicle. Drabik's car was proceeding in a direction opposite to that of the truck and was in the outside lane.

The cab of the semi-truck, which was proceeding down the center lane, skittered into the path of Drabik's car when the brakes were applied. Before the driver of the truck could pull out of the skid the crash occurred, head-on.

Wounds Suffered  
Drabik suffered fractures of the right arm and head, scalp lacerations and a fractured jaw.

Drabik is at present employed as editor of the American Legion News in Detroit. He graduated from St. Ladislav high school in Hamtramck where he was editor of the school newspaper. He attended Western Michigan College for two years and also edited the school newspaper there, before transferring to Michigan State College.

He also served for two years in the armed forces working with Special Services.

Former MSC  
Student, Wife  
Contract Polio

John M. Erving, Jr., former MSC student, and his wife were stricken with polio Sept. 15 and are both in Haynes Memorial hospital, Brookline, Mass. Ervins, a hotel administration major, is in an iron lung.

In a letter received from Erving's father, John M. Erving, Sr., he said they did not know at the present time how long Erving might be in the iron lung. His father stated Erving would greatly appreciate letters from his friends and news of the college.

During Erving's better portion of college he lived in the MSC trailer camp. His daughter, Pamela, 2, was not affected.

Erving's address is: John M. Erving, Jr., Haynes Memorial Hospital, Coolidge Corner, Brookline 46, Mass.

Wolverine Drive  
Aimed At Alumni

A sales drive aimed at MSC alumni to buy Wolverines will be launched after the Notre Dame game, according to Bob Scott, sales manager.

All alumni chapters in the U.S. will be contacted during the campaign, Scott said. This is the first direct approach to alumni to buy yearbooks, he added.

## The NEWS IN BRIEF

## Agrees To Give Aid

—P—The Soviet Union agreed yesterday to negotiate a trade agreement for the supply of Russian grain to European countries.

## Koreans Storm Wonsan

—P—South Korean Third Division troops crashed into Wonsan early today and fought in the streets with the defenders, the Republican army reported, while in the city Koreans stalled a U.S. First Cavalry spearhead one mile from the city.

## Star Buys Baseball Stock

—P—Helen Traubel, blonde Metropolitan Opera singer, has bought a part interest in the St. Louis baseball club, "mostly to satisfy a sentimental urge."

## Squares Off With Companies

—P—The million member CIO United Steelworkers agreed today with the first of 35 big and small steel companies to "immediate negotiations on the union's demand for a very healthy and substantial" wage increase.

## Senior Roast Pronounced A Success

### Students Turn Out Despite Weather

Over 500 students attended the senior ox roast at Old College field after last Saturday's Maryland game.

Although the loss to Maryland and the threatening weather dampened spirits a bit, the affair was termed a success by senior class president Bob Klein.

Following the ox dinner everyone joined in a collegiate song fest. The spit roasted ox was served by student members of the hotelmen's association of America. The senior ox roast seems to be well on its way to becoming traditional affair according to Klein.

## Former MSC Employee Hurt In Korea

PTC Jerry Burch, a former MSC employee, has been wounded in the Korean campaign.

Burch was hit below the eye by a mortar shell fragment.

Burch was employed by the MSC animal husbandry prior to his enlistment in the infantry in June 1949. He is 18 years old and graduated from Mason high school in 1948.

His father, Calvin Burch, is an MSC Art department technician.

## Cleaning Up In Korea

Seventh Division infantrymen beat through burning brush as they hunt out North Koreans reported in the area south of the 38th parallel.

Thousands of Red prisoners are being taken as mopping up operations of the overrun enemy continues.

## Information Office Moves Up One Floor

In keeping with the department's change of name this summer, the Michigan State College information services has donned the new look.

The bureau, formerly named the public relations department, has been moved from the ground floor of Agriculture hall to the first floor, room 109.

**Too Small**

According to Lowell Treaster, director of information services, the switch was made because the former ground floor location was too small for use to carry on the department's extensive work.

There are now 14 new office rooms in the upstairs location. Besides, there is a combination press and radio broadcasting room for off campus radio stations; some on national hookups.

**Classrooms Converted**

In the old quarters there were only six different offices and a reception room. Three class rooms on the first floor of Ag hall were converted to make room for the department.

Meanwhile, the bulletin office, located across the hall from the former public relations department, will stay in its same location until the completion of the Kellogg Center when it will move into room 11, now occupied by the Continuing Education department.

**State-wide Nurses Club Meets Oct. 17**

Approximately 100 high school pupils and their counselors are expected to attend the first state-wide meeting of Future Nurses clubs at Michigan State College Tuesday, Oct. 17.

Future Nurses clubs have been organized in more than 40 Michigan high schools for pupils interested in learning more about the profession. Two delegates and one counselor or club sponsor will attend from each school club.

The day's meeting will consist of a tour of the capitol, a tea by Mrs. G. Mennen Williams, a member of the state committee on careers in nursing, and visits to Lansing area hospitals.

Mrs. John G. Murray, Detroit, chairman of the state committee is in charge of the meeting, which is sponsored by the Michigan Nursing Center association.

## 'Adventures In Music' Draws Large Audience

By VERNE ELLIOTT

An audience of 400 children from 12 different schools in eight counties filled the Music auditorium Monday morning for the first "Adventures In Music" program this term.

The familiar old folk tale, "The Cobbler and the Elves," was brought into reality as Kisimi, the magician, and his two friends, Johnny and Mary, made a tour into the musical realm of folklore.

**Aired Every Monday**

"Adventures In Music" is aired over WKAR every Monday morning from 10 to 10:30 with an estimated listening audience of 300,000. The broadcast series is sponsored by the Extension Service in cooperation with the Music department and the college radio station.

Mike Perrini, Monroe sophomore, appeared for the first time in the role of Kisimi, (pronounced Kuh-see-me) the magician, who rides the south wind. Johnny and Mary, his two friends, were played by Anne Costello, Buffalo, N.Y. junior, and Kay Hanes, Elmhurst, Ill. senior, respectively.

**Group Provides**

Orchestral background was furnished by a 16-piece student group under the direction of Jean Grimes, Lansing senior. Musical arrangements were by George Beatty, Williamston senior.

The Pied Piper of Hamelin, one of the favorite children's stories from the poem by Robert Browning, will be dramatized on "Adventures In Music" next Monday morning.

**Food Expert's Paper Wins Borden Award**

Dr. Margaret Ohlson, director of food and nutrition, received the Borden Award for her outstanding work in the field of food and nutrition this summer.

Dr. Ohlson was chosen for the award by the American Home Economics association. This choice was made after the publication of a paper based upon twenty years of research. The research was related to the food requirements of women over forty.

Dr. Ohlson has been a member of the Michigan State College staff for six years.

Sawdust is sometimes used as a mulch in the orchard.

## OPENS LECTURE-CONCERT SEASON

## Critic Lauds Chicago Symphony

By J. MURRAY BARBOUR  
Assoc. Prof. Music Department  
Chicago Symphony Orchestra  
concert last Friday evening was a splendid beginning of the Lecture-Concert season. It was memorable as the debut of the orchestra's young conductor, Rafael Kubelik. Without visible nervousness, he was completely in command, and made an excellent first impression himself, tall, straight, graceful. His players followed his beat unerringly and enthusiastically, and accomplished something of a miracle in tone quality and intonation for a pre-season concert, after only three rehearsals.

**Concert Opened**

The well-chosen program opened with Mozart's Prague symphony, in D major, K 504, a replacement for Bach's Fourth Or-

chestral Suite. This three-movement symphony embodies the melodic charm and the seemingly effortless polyphony of the mature Mozart. It demands the utmost finesse in performance, a style akin to chamber music, and Kubelik was able to inspire this.

**Plays Modern Works**

The orchestra was just as happy in its interpretation of a contemporary work. It next played Paul Hindemith's Four Temperaments, a set of variations for strings and piano that represents the four "humors" of man—melancholic, sanguine, phlegmatic, and choleric. Not blatantly modern in harmony (it was written in 1940), it consists of a dozen brilliantly contrasted movements, gloomy, ironic, artless, merry, nostalgic, bellicose, and the like. The concert-master and the other first-chair men, as well as the pianist (George Schick), handled their bits of solo work well, and the whole performance sparkled.

The concluding number was Brahms' Fourth Symphony, in E minor, a work that abounds in rhythmic complexities and problems of tonal balance. These hurdles successfully negotiated, the somber masterpiece was brought to a magnificent conclusion. Its interpretation did not

depart far from the tradition. Throughout the concert the orchestra, both individually and collectively, played with the coldness that has long been its trademark. But the performance was always musically sound. Kubelik has in the making a truly great symphony orchestra, provided, of course, he can get the sorry cabals that have plagued competent conductors before.

**Three New Men Occupy Alumni Office Positions**

Three new faces are in evidence around the alumni relations office this year. They are Starr Keesler, new alumni relations director; Jack Breslin, assistant alumni director; and John McGoff, assistant alumni director.

**Keesler Takes Post**

Keesler, who took over his post on July 1, has been with MSC since 1943, serving a two year Navy stretch in between. His first job was a short course instructor, which he held for one year. In 1944, he began his term of service in the Navy, getting his discharge in 1946. He returned to MSC short course department and was promoted in the middle of 1946 to director of housing. Keesler held this position until January of 1950 when he was made assistant director of alumni relations. He received his present post as director of alumni relations on July 1, 1950.

**Received Degree**

An MSC graduate, Keesler took his degree in Education in 1941. He was a member of Blue Key, Excalibur, the varsity track team and participated in numerous other activities. He is married, and has two children.

Jack Breslin, the new assistant of alumni relations, is an old name to MSC football fans. Breslin, who graduated from MSC in 1946, played varsity football in 1945 and 1946. He was captain of the squad in 1946.

He played in the East-West Shrine games in 1945 and 1946, and with the college All-stars against the Los Angeles Rams. Came to MSC

Breslin comes to MSC from a job as sales manager for Dodge division of Chrysler corporation in the Washington, D. C., Philadelphia and Allentown, Pa. area. He comes from Battle Creek. He is married and the father of a 15-month-old son.

The other new face in the alumni office is John McGoff, who serves as assistant director. McGoff, a June graduate of MSC, is from Wilkesburg, Pa. His major was foreign language. Unmarried, McGoff served with the army for three years in Europe and Africa.

**Two Chairmen Named By Prexy**

(Continued From Page 1)

the exclusive use of seniors," Klein said, "and next year will be displayed on the wall of the room."

Also scheduled to go on display this term are the series of Senior of the Week pictures. Each week two students, outstanding in some phase of college activity, will be picked for the honor. Their pictures are displayed in the showcase in the Union.

# Maryland Rolls Over State, 34-7

## Top National Football Upset

### Terps Blast 'S' Defense With Fierce Ground Attack

By GEORGE TRUMBULL

Lateral-happy and ambitious University of Maryland completely overwhelmed and crushed a highly rated Michigan State squad 34-7 Saturday before some 39,376 fans.

The Terps, who had watched the same White gridders of the top teams in the nation just did not have the same punch, and drive that they had in their 14-7 upset of Michigan the previous week.

It was impossible to gain yardage through the Red and forward wall, State took to the air, but failed miserably. In 20 attempts, the Spartans were humiliated connecting only three, while six were blocked by the enemy.

The Terps gained only 39 yards on the ground to a meager 140 on the ground to the Terps and gained by running.

Terps completely dominated the play from start to finish in every quarter but the first. They pushed across one of the early minutes of the quarter, one in the second quarter, and three more in the third period that the squad registered their first points.

Terps, eleven, with a commanding lead, found themselves unable to move out of their own territory and were forced to kick. Right half Jack Scarbath booted the State 20 yard where Jesse Thomas kicked to Ray Vogt who caught it for the 33.

Terps' excellent blocking, Evans' Grandelius circled in the right end and went all out to pay dirt on a 67-yard touchdown.

Key blocks enabling the Terps to reach the senior to register the touchdown were by John Yocca, Wayne and Don Coleman.

End Bob Carey contributed the extra point.

The contest only five minutes, a pass from stellar quarterback John Scarbath to Pete Augsburger, Terps set up the first Maryland touchdown.

The puskon on the Spartan marker, a series of punts, a habit of the Terps, the ball down to the MSC line.

And Scores

Ed "Mighty Moe" Moders, powerful driving Terp half, planned over from the marker for the TD and Maryland eleven had drawn lead.

Jackie Bob Dean tried for a point but the boot was off the uprights and the boot at Maryland 6 and

second Terrapin marker result of a fumble by Thomas playing in the safe. Jack Targarona kicked the ball who fumbled on the 3-yard stripe and Terp halfback Ed Fullerton fell ball.

Touchdown

Bob Shemonski and failed to go over, Ed Fullerton drove over his second touchdown, and Bob Dean set to make the score: 13 and Spartans 0.

Maryland pass defense was as Red and White line were constantly breaking through to throw the Munn men.

Halts Threat

Thomas, feet-footed star, kept made up for his pregame when he recovered

### Thomas Stops Touchdown

Michigan State halfback Jesse Thomas sniffs high in the air on the five-yard-line to make a sensational block on a pass intended for Maryland's Stan Karnach (25) in the second period of the game Saturday. Maryland went on to win 34-7.

### Spartan Gridders Grind Through Rainy Practice

A cold rain and wet field failed to alter Head Coach Biggie Munn's plans Monday as he went about the business of picking up his badly beaten Spartans and reshape them into a winning team again.

### Purdue Howls In Celebration

LAFAYETTE, IND. — (AP) — Purdue officials tried—not very hard and with no success whatever—to promote "education" as usual today on the campus that produced the first conqueror of Notre Dame's football team since 1945.

But the no-celebrating idea was a lost cause from the time the first underclassmen came whooping out of his dormitory this morning.

President Frederick L. Houder, himself a former quarterback at Minnesota, took one look at 7,000 screaming students packed into the hall of music and gave unofficial approval to the holiday.

Emotion was so intense in the spontaneous celebration that coach Stuart K. Holcomb broke all precedent and promised that his team will win another ball game—from Iowa Oct. 21. That will be Purdue's first Western Conference contest.

### MSC 20th Football Giants Fall In National Ratings

NEW YORK. — (AP) — Army's Black Knights took over the number one spot among the nation's college football teams today as Notre Dame dropped to tenth place, its lowest position in the memory of the younger generation.

Purdue's upset of the Fighting Irish, 28-14, last Saturday, shook up the football ratings like an earthquake. There were other form reversals on "Black Saturday," including Maryland's 34-7 thumping of Michigan State.

Michigan State dropped all the way from second to 20th. But the Spartans still have the memory of that win over Michigan to keep them happy.

When the debris had cleared away, the pigskin experts from coast to coast had to start from scratch in figuring their top ten teams.

Today the Irish received only one first place nomination. Notre Dame has finished no lower than ninth since 1941.

Army, with an unbeaten string of 22 games, vaulted from fourth to first. The West Pointers received a total of 2,101 points by a national panel of 241 sports writers and sportscasters. They were named first on 115 ballots.

Southern Methodist's air-minded Mustangs moved into second place followed by: 3—Oklahoma, 4—Texas, 5—Kentucky, 6—Stanford, 7—California, 8—Maryland, 9—Purdue and 10—Notre Dame.

Up until this week, Purdue and Maryland were strictly also rans. The Boilermakers had been beaten by a fine Texas team, 24-26, and Maryland, highly touted before the season, had been shellacked by Georgia, 27-7.

A week ago the first 10 teams were the following: 1—Notre

Dame, 2—Michigan State, 3—Southern Methodist, 4—Army, 5—Oklahoma, 6—Kentucky, 7—Texas, 8—Stanford, 9—California and 10—Washington.

The top teams (number in brackets is first place votes; points figured on a basis of 10 for first, 9 for second, etc.):

Top Ten

1. Army (115) 2,101
2. Southern Method. (53) 1,990
3. Oklahoma (29) 1,387
4. Texas (9) 1,212
5. Kentucky (11) 837
6. Stanford (4) 765
7. California (2) 754
8. Maryland (8) 684
9. Purdue (1) 416
10. Notre Dame (1) 554

Second Ten

11. Washington (2) 444
12. Ohio State 254
13. Clemson (4) 211
14. Tennessee 205
15. Rice (1) 178
16. Wisconsin 178
17. Cornell (2) 174
18. Michigan 164
19. Vanderbilt 142
20. Michigan State 101

Surprise Teams

## State Sends Nine To 'Y' Conference

Nine members of the YMCA and YWCA attended the annual fall YMCA-YWCA conference at Camp Tyrone near Flint over the weekend.

Prof. David Dickson of the English department addressed the weekend conference Sunday morning. Information experts from MSC included M. B. Emma Mueller, college YMCA director; Lester Dobyns, YMCA religious counselor; and Dickson. Representatives from the YMCA attending the conference included: Burl Romick, Mt. Clemens junior; Lyle Hoffer, Lapeer freshman; Lewis Tuttle, Holt senior; David Ruhmkorff, East Lansing junior; and Sami Kasir, Bagdad, Iraq, sophomore.

Others: YWCA representatives were: Pauline Wolshyn, Lansing sophomore; Marilyn Exelby, Lansing sophomore; Marge Pickett, Detroit junior; and Wilmary Romick, Mt. Clemens freshman. Delegations from eight Michigan colleges attended the meeting.

## Seminar To Seek Answer To Game Winning Question

Are more games won by strategy or with the aid of Lady Luck? A Mathematics department seminar in the "Theory of Games" will seek the answer to this question this term.

Games of strategy as opposed to those of chance are being stressed in the study which began last week. Meetings are planned for one hour each week throughout the quarter in the conference room of the Mathematics-Physics building.

Graduate students and faculty members are participating. Prof. Leo Katz is in charge.

## Ag Engineers' Club To Meet Tonight

The Agricultural Engineering club will hold a membership meeting tonight at 7:30 p.m. in room 107, Ag Engineering building. All prospective members are invited.

Robert Green, of the ag engineering department, will speak on "The Relationship of the American Society of Ag. Engineers to Its Student Branches." Refreshments will be served.

## APD-Sponsored Radio Show Begins Today

A new series of broadcasts began Saturday afternoon at 5:15 on WKAR and continues throughout fall term. The series is entitled "Boy Scout Jamboree of the Air."

The shows are transcribed and will last 15 minutes. They will portray various aspects of the scouting movement. The series is sponsored by Alpha Phi Omega, national service fraternity.

## Viewpoint

(Continued From Page 2) misinterpretations of the American scene.

Nehru himself has had to correct the notion that America has a "soulless, materialistic civilization." Actually, he said on his return from his visit to the United States, Americans are among the world's most idealistic people.

Indian journalists have returned from America reporting that Negroes are not to be prosecuted as second hand reports would have Indians believe and that there is no evidence of American plans for territorial conquest and world domination.

## Closing Date For Drops Set

The closing date for dropping classes is Monday, Oct. 23, according to Victor V. Henley, assistant to the registrar's office.

The last day for changing sections, adding and late registration was Oct. 2, Henley said. The number of chances appears to be running at an "average" rate.

American military policemen guard a long line of approximately 1,000 North Korean prisoners as they marched along a main street in Seoul on their way to a prison stockade.

## College Press Publishes Eight New Books This Fall

Eight new books have been published by the Michigan State College Press this fall, according to William Rutter, managing editor of the Press.

In addition to the eight books, 17 textbooks have been published. These books will bring the total number of books published to 80 since the creation of the MSC Press in 1947.

The Press publishes school books, syllabi and course outlines of MSC faculty members, in addition to outstanding publications of educators from other institutions.

Listed below are the titles and authors of the eight new publications.

"Homogenized Milk," by G. Malcolm Trout of the MSC dairy department.

"The Characterization of Pilate in the Towneley Plays," by Arnold Williams, MSC English department.

"The Teaching of Science in Elementary and Secondary Schools," by Victor H. Noll, MSC division of education.

"Studies in Applied and Theoretical Social Science," by Charles P. Loomis, head of MSC department of sociology and anthropology.

"Planning the Countryside," by Charles W. Barr, MSC department of landscape architecture and urban planning.

Vaet included "Jacobus Vaet and His Motets," by Milton Steinhardt, associate professor of musicology at Ohio State University, formerly of MSC.

"An Introduction to Literature and Fine Arts," a collaborative study by the staff of the MSC department of literature and fine arts.

"The Struggle for Sovereignty in England," by George L. Mosse, associate professor of history at the University of Iowa.

Stokes (Continued From Page 2) Truman's mother. The introduction by the President was prefaced by an explanation that the visitor, who is from Mississippi, was 12 years old before he saw a Republican.

"He didn't miss much," was the quick retort from the little old lady, her eyes twinkling.

Most of the field corn grown in the United States today is of the yellow varieties; a couple of decades ago nearly half of it was white.

## Sewer Line Project, Traffic Light Plan Nearing Completion

By JOHN SCAMWORN

A four-year sewer construction program and a traffic light installation plan involving removal of a 20-year-old landmark on Grand River avenue are nearing completion, John Patriarche, East Lansing city manager, recently announced.

The sewer installation, final step in a \$30,000 program planned four years ago by the city council, is planned to end by Oct. 15.

Present laying of an 18 and 21-inch sewer and drain started at the corner of Hillcrest road and Elm street is the final step in the program. It is now being installed in front of Peoples church on Grand River, and will turn north at the corner of Grand River and Evergreen avenue for about 115 feet.

This sewer-drain was started shortly after Labor day.

Completion of the traffic light installation program is expected in about 30 days, Patriarche said, when pedestrian traffic control signals arrive for the corners of MAC avenue and Abbott road with Grand River.

New overhead traffic lights were installed at the two intersections last spring. Lights have been mounted on posts at the corner of Abbott and Grand River, but these will be removed and replaced by the "walk" and "wait" signals.

Signals at the Abbott corner will cost about \$3,360, and those at MAC will cost \$4,436. The project is being undertaken jointly by the city and the Michigan State Highway department.

A landmark being removed is the pedestal at the center of the Abbott-Grand River intersection. Installed 20 years ago, it is being

replaced by a moveable steel island with a dirt center.

This island will be placed in various positions and a permanent island with traffic signal, will be installed next year. The island is a part of the traffic direction control program.

Patriarche urged all students to observe the signals.

## Foreign Student Enrollment Expands To All Time High

Enrollment of foreign students reached an all time high of 318 this fall, Dr. Shao Lee, head of the foreign student department, announced yesterday.

These students represent 56 nations, including Hawaii, Puerto Rico, Canada and China claim the largest number of students with 36 for each. India is second with 35, and Hawaii third, Dr. Lee said.

In the last five years foreign student enrollment has increased almost ten times. Last year 308 were enrolled here.

Seven Countries Seven countries are represented on campus this year that had no students here last year. These include the Gold Coast of West Africa, Israel, Jamaica, Malaya, Nicaragua, Spain and the Ukraine.

Last summer 132 foreign students from 39 countries attended the first college session here. During the second six weeks 99 students represented 33 countries.

Enrollment While the enrollment in countries has not changed, enrollment from Germany, Greece has doubled. Lee noted this to government students. He also pointed out that Canadian enrollment has increased slightly because the country has become American, which alters their status.

A wire-haired fox terrier of Edward VII of England, died in his funeral procession.

## E. C. McCobb Slated To Give Business Talk

Edward C. McCobb, president of the Grand Rapids Chamber of Commerce, will address business administration students tonight at 7:30 p.m. in the music auditorium.

McCobb will discuss "Trends in Business-Government Relations," the first of a series of talks by business leaders.

Other speakers scheduled for the series will be: Vilas Johnson, an accountant; Charles Sawyer, secretary of commerce; Frank X. Martel, Detroit labor leader; Forest Akers, automotive industry; Dan Beck, Detroit executive; Ivan Wiles, general manager of Buick Motor Co.; and Hugo Lundberg, Jr., manufacturer.

These meetings are open to the public. Prof. E. A. Gee, head of the business administration department, said.

## Torque Invention Work Completed By Professor

Professor Paul Dekoning of the MSC engineering department recently completed work on a new invention. It is called a torsion impact machine.

The machine twists a piece of metal into two pieces to test its strength. It measures the energy required to twist off the metal.

The machine also measures the torque required to fracture the specimen. It records the value of the torque in energy on an electric oscillograph.

Professor Dekoning worked on the design a year ago and built the machine this summer. He has been a member of the MSC staff for the past ten years.

## Police Department Buys Lie Detector

The MSC police administration department has purchased a lie detector for use in criminal investigations on campus, according to Lieutenant Charles B. Latta of the campus police.

Detective Charles Becker of the campus police is in Chicago taking a six week course of instruction in lie detection on the machine in the college has purchased.

The machine will be delivered and ready for use about the middle of this month, Latta commented.

It will also be used for instructional purposes to acquaint the student with the use of the polygraph as a means of interrogation, according to Robert H. Scott, of Police Administration department.

The machine is considered by the police department as the last word in mechanical means for the detection of deception and is useful to clear people of unjust suspicion.

Extreme care has to be taken in the use of the machine. A trained operator, directed and experienced in interrogation, has to use it.

## Staff Sketches

(Continued From Page 2) last especially interesting in that I have been able to follow my own students through school. I taught them Written and Spoken English, worked with them in the counselor for men's office, and now am helping them out and get on.

Sponberg said. Sponberg received his B.A. from Gustavus Adolphus college in St. Peter, Minn., in 1940. He was his master's in speech correction and psychology from the University of Minnesota in 1942 and went into the navy the day after he received his degree.
