

New Constitution Gives Heavy Power To MSC Legislators

(Editor's note: This is the third in a series of eight articles dealing with MSC's Student Government. The articles represent an attempt to compare and analyze the procedures and weaknesses of the new constitution and its predecessor.)

By JIM SMALLEGAN

State News Associate Editor

and

DEAN WAKEFIELD

State News Editorial Assistant

The new constitution provides that "supreme student legislative responsibility shall be vested in the Student Congress, or legislative branch, benefited more than any of the other branches of the government under the document. Responsibilities and duties left unstated under the old constitution are definitely outlined under the new one.

A speaker of the Congress has taken over the duties which were once a part of the office of the President of the Government. The Speaker is next in line for the office of President. The Constitution provides that he is elected from the Congress' membership. To the Speaker is delegated the power to fill by appointment vacancies which occur on the Congress.

The Congress' secretary is also elected from the membership. The fifth of the legislative article specifically gives the Congress the power to:

- Establish qualifications for its own members.
- Determine its own rules of proceedings.
- Appropriate monies for Student Government projects.
- Elect its president from its own membership.
- Review and ratify presidential appointments.
- Ratify or revoke constitutions of student organizations except living units and governing groups, having powers granted by the faculty.
- Make ordinances governing student elections.
- Require term reports from standing committees and agencies receiving funds from the Congress.
- Provide for organization of class set-ups.
- Set minimum academic requirements for extra-curricular participation.
- Provide for and maintain rules governing student conduct.
- Elect a member from its own membership to any college student faculty committee.
- Legislate on any matter necessary for student activities.

In practice, such matters as come before the Congress covered by these 13 provisions, are referred to committees. The matters are first discussed in committee, from which it is reported back to the Congress favorably or unfavorably. The matter then is under the jurisdiction of the Congress as a whole.

The matters which concerned the Congress during fall could not here be analyzed completely, because of the brevity of Student Congress meeting minutes. The Congress has not become accustomed to the red tape which it must become entangled, because of the very nature of the constitution, patterned after the national situation.

It will take time for individual members of the group to adjust themselves to the situation, but experience comes with time.

One of the most concrete points of criticism of the constitution is that it allows ordinances and by-laws passed under the former document to remain part of the new constitution, unless "repugnant" to the new constitution.

Apparently, the term "repugnant" must be interpreted by the judicial if any act under the old constitution has a detrimental effect on the new document. So far, all ordinances and by-laws remain the same.

One of the handicaps the Congress must face is a rapid turnover of experienced personnel. Representatives come and go, and therefore experience becomes inexperience on the part of new legislators.

The Congress now is understaffed. Too much work must be done by committees, and several members of the Congress are forced by a lack of members to serve on two or three committees. This of course hampers the workings of the Congress. The one solution would be a reappointment of members, with addition of members in several committees.

TOMORROW: The executive branch, a weak link in a three-branch government.

NEWS IN BRIEF

Charges NPA with Reneging

LANSING (AP)—The State Administrative Board yesterday charged the National Production Authority with reneging on its promise of Michigan's metal-starved automobile industry.

Costello Beats Government Charge

WASHINGTON (AP)—The government failed by an eyelash yesterday in its attempt to trap Frank Costello, this time for contempt of the court.

Churchill to Address Congress

WASHINGTON (AP)—Prime Minister Winston Churchill left Ottawa yesterday for Washington to address a joint session of Congress Thursday.

Returned Boats Tell Fate of Crew

ATTLE (AP)—Two overturned lifeboats, tossing on the stormy Pacific told yesterday of the undoubted fate of the crew of the Japanese freighter, *Pinnabank*.

Saturday Graduation Date to Stay

Administration Stands Firm

MSC's administrative group stood firm on its previous decision to hold June commencement on Saturday, Robert S. Linton, secretary, announced yesterday.

Possibility of a change in the date was nil in the eyes of administrators. The date is announced in the college catalogue and most spring term events are geared to a Saturday graduation, they pointed out.

No valid reason for holding the ceremony on Sunday has been given so far. James Denison, administrative assistant to the president, said.

The Saturday date was set with faculty approval after commencement last year. The understanding then was that in 1952 commencement would definitely be on Saturday.

BULLETIN

WASHINGTON (AP)—The Army announced yesterday it will call to active service next summer all officers commissioned from the Reserve Officers Training Corp. who were deferred from draft induction to complete their college courses.

The only announced exception from this blanket order are ROTC members who are veterans of World War II.

International Tours Planned For Students

Students International Travel Association will sponsor trips to Europe, South America, Mexico, and cruises to the Orient for students and young teachers this summer.

Tours begin early in June at prices starting at \$500. This will include ship passage, meals, hotel accommodations, transportation, and entertainment.

Several plans are offered. One, called the Adventure Tour, schedules a tour by bike, motor, and rail through England, France, Germany, Holland, Belgium, Italy, and Spain. There are five such trips leaving New York from June 4 to July 4 for \$900.

Spartan tours by bike include the same countries with exception of Italy and Spain, but more than two months and will cost from \$300 to \$600.

Tourists also may live with a Swiss, German or English family for two months for \$600.

For further information regarding SITA Tours call Mary Ann Pank, campus representative, at 6-3363. Reservations should be made as soon as possible.

Whew!

Marathon Phone Talk Believed World's Record

LOS ANGELES (AP)—A 17-year-old girl and her boy friend, both unidentified, have established what is believed to be a new world endurance record for a romantic telephone conversation.

The port blonde, who refused to give reporters her name, entered a telephone booth at 3 o'clock yesterday morning. She talked with her boy friend until 3:30 p.m.—seven hours and 30 minutes.

The cost? One nickel.

Wolverine Editor Slates Meeting

Members of the Wolverine staff are requested to attend a complete staff meeting tonight at 7 in Room 33 of the Union, according to Duane Polzin, editor.

Plans for the coming term activities and sales promotion will be discussed. Those attending the meeting will receive double credit for the time they spend at the meeting toward their free Wolverine, Polzin said.

Jinx Clark and Rudy Richards as the "Calypso Kids" in "Holiday on Ice". The ice revue, appearing here for the fourth consecutive year, opened last night at the MSC Ice Arena before a near capacity audience. The show continues nightly through January 19 with a Saturday matinee at 2:30.

Government Talk Slated By Sheets

Student government plans and legislation will be the topic of a "State of the Student Body" address to be given tonight by Student Government President Gaylor Sheets.

Under the new constitution this is the first time an address of this type is to be delivered to the student government.

"I plan to inform the Student Congress of our accomplishments last term and of future plans and legislation," Sheets said. "I hope to make this a tradition with Student Government presidents. In the future presidents will give a short address at the beginning of fall term and then develop it at the beginning of the winter quarter," he added.

The development of important legislation during the fall quarter and the planning of numerous matters during the winter term results in the scheduling of the addresses in that order.

On the agenda for tonight's meeting is the selection of a Resource Board by the Student Congress. The board, composed of three or four faculty members, will bring the faculty and Student Government in closer cooperation with each other, according to Sheets. Meetings will be held with the board on issues relevant to both groups.

Also scheduled for the meeting is a one year appointment of a justice to the All-College Judiciary. The appointment has been necessitated by the graduation of Carl Mottek, who served as a justice for one term.

Hannah Addresses School Officials

President John A. Hannah spoke on "The Point Four Technical Assistance to Underdeveloped Areas of the World" yesterday at the County School Administrator's Association conference in the Kellogg Center.

County school officials from 65 Michigan counties discussed problems and exchanged views. Highlights of the conference was an afternoon symposium on school legislation.

The one-day meet was sponsored by the School Administrator's Association in cooperation with the MSC Continuing Education service.

Council to Host Graduate Students

The Graduate Council will again be host to graduate students Friday. The occasion is the second in a series of coffee hours to be held from 4 to 5:30 p.m. in the Physics-Mathematics Conference room 221.

Attracts Large Audience

'Holiday on Ice' Better Than Ever

By BURT OELKER

Proof that "Holiday on Ice" is a great blade revue was evidenced by the terrific reception it received from a near capacity audience in the MSC Ice Arena last night.

The 1952 edition is a color-plashed spectacle, overflowing with imaginative choreography and lush costumes, and was topped off with generally excellent skating performances. The entire proceedings move along with a breathtaking swiftness.

From the opening production number, "Hey, Neighbor," to the "Carnival in Venice" finale, the show lives up to all advance expectations.

Michael Meehan and Joan Hyldoff, the stars, starred in their solo numbers, combining flawless artistry in their "Stars in Your Eyes" routine.

The opening night crowd went wild over the neck-breaking antics of Paul Andre as a belt-torn sailor learning how to skate.

Bobby May, ace of jugglers, displayed skill with his unbelievable tricks, and old favorites Phil Hiser and Mae Freisinger sailed through the "Memory Lane" interlude with their familiar ease.

Comet's antics held their share of the spotlight, with Left and Weber contributing some rick-ticking monologues.

Nine-year-old Joan Freisinger whizzed through the cute "Christina's Symphony" like a veteran. Her father, Leo, thrilled the audience as a high-bouncing pockey in a fun-filled race track session.

"Holiday on Ice" leaves little to be desired. It's well worth seeing.

Could've Fooled the Students, But—

Dorm Living Conditions Better

By MARILLEN ALFORD

There may not be enough men on campus to satisfy coeds' dating problems, but there are still too many to have ideal living conditions in men's dormitories.

Ideal conditions would mean two men in each room, a situation which is being realized more and more as the mask enrollment drops off. But there is still a little over a Lexia man in each room, and one-tenth of a man can get in the way at times.

The two-men-in-a-room capacity in Shaw is 1,022. At present, Shaw has 1,153.

This is just a little over the average 1 man extra, as is the ratio in Mason-Abbott which houses 961 where only 879 could enjoy perfect comfort.

The situation at Snyder-Phillips is more crowded. There is 2 men extra there, with 1,956 living in space for 889.

College dormitories were originally designed for two men in most rooms, with a few single rooms. Extra beds were moved in when the enrollment was increased rapidly in the post-war years, and two-men rooms were converted for use by three, and single rooms housed two.

Rescuers Push Within Six Miles Of Stalled Train

222 Passengers Face Carbon Monoxide Threat

COLFAX, Calif. (AP)—Snow-battling Sixth Army "weasel" tractors pushed ahead late yesterday to within six miles of a luxury passenger train in efforts to rescue 222 persons, including 60 reported sickened by gas fumes.

Chest Fund Allocations Announced

Six Organizations To Receive Benefits

At a meeting of the Campus Chest Commission yesterday final percentage allocations of funds to various organizations were determined.

The organizations and the percentage of money that will be given from Chest funds are as follows: Lansing Community Chest—35%; World Student Service Fund—30%; with five percent of this total being earmarked directly for Athens College, in Athens, Greece; Spartan Nursery—15%; American Heart Association—15%; the Ingham County Unit of the American Cancer Society—15%; and National Scholarship and Service Fund for Negro Students—30%. These figures were released by Bob Steele, Commission Chairman.

World Student Service Fund is a forerunner of Campus Chest drives on campuses throughout the country and is an organization aimed at helping students and colleges throughout the world.

This is the first year Campus Chest has contributed to the National Scholarship Service and Fund for Negro Students. It was organized by seven college presidents in 1947 for the broad purpose of increasing opportunities for qualified Negroes to obtain higher education in interracial colleges. President Hannah serves on the advisory board of this organization.

The commission felt the Spartan Nursery was due this percentage in view of valuable services rendered not only to married students, but also to the MSC departments of Elfen. See CAMPUS CHEST, Page 6.

'Drastic Cut' Predicted for March Draft Call

LANSING (AP)—A sharp cut in the March draft call for Michigan was predicted yesterday by State Selective Service Headquarters.

Lt. Col. Arthur Holmes, deputy state director, said an increase in the number of enlistments has reduced the number of men needed for the draft. Preliminary information from the federal government indicated a "drastic cut" in March calls, he said.

Col. Holmes said the draft call, which has been averaging between 2,500 and 3,000 men a month for Michigan, may be pared down to 1,500 in March.

The February call, already issued, has been cut 102 men to approximately 2,400, he said.

The train has been trapped by deep snows near Donner Summit in the Sierra Nevada since Sunday.

But the remaining six miles, snow-banked and rugged, made it uncertain if the cold, huddling people aboard the stream-lined city of San Francisco could be brought out last night.

The blizzard was so intense last night around the train that a helicopter was unable to approach it from 12 miles away.

Four servicemen who left the train and rode a snow "cat" to Nevada Lodge said 80 persons were affected in locked compartments of four cars by gas fumes from an emergency gasoline-driven lighting plant on the train.

The service men, who volunteered to come out with the snow "cat," told how even rescuers were overcome in breaking into the compartments to drag out the others.

The one doctor on the train was swamped with work.

The Sixth Army "weasels" with amphibious jeeps with cat-epillar treads were battling their way to the train from the west.

They had been unloaded at Colfax, 12 miles west of the train yesterday and managed to cover half the distance only after a slow push of several hours.

Republican National Committeeman J. Russell Sprague was presumed by his office to be marooned aboard the snow-bound train near Colfax, Calif.

He and his wife left last week for a pre-convention conference of Republicans in San Francisco. He was supposed to get in touch with his office yesterday morning.

When his office didn't hear from him, a check showed he had reservations on the stranded train, the Southern Pacific's City of San Francisco.

The westbound streamlined train was trapped by slides and avalanches Sunday. It has been without heat since Monday. A group of skiers got through late Monday with food just when the train's supply was near exhaustion.

The three army weasels from San Francisco carried two doctors, oxygen tanks, medical supplies and food.

Highway officials said the treacherous route of the weasels from Colfax to the train constituted a "very dangerous trip."

Efforts of rescue trains from the east and west to get to the marooned streamliner bogged down. A train moving east from Colfax had to back up when the rotary snow plow ahead of it ran out of water.

The scene of the marooned train is one of the heaviest snow-fall areas in the world. The heavy snows are caused by moist storms from the Pacific striking the mountains where low temperatures condense the moisture.

Juniors to Hold 1st Term Meeting

The first winter term meeting of the junior class will be held in room 31 of the Union at 7:15 tonight.

The class scrapbook will be discussed and questions concerning the J-Hop will be answered by Duane Vernon.

This is the first in a series of similar meetings to provide a definite time and place for persons interested in class activities, to present their ideas. They will be held every other week.

Spartans Available

Additional copies of the Spartan magazine are available today, according to Stan Brown, promotions director. They may be purchased at the Union desk, Olds Hall, Berkeley Hall, Home Economics and Natural Science buildings.

Mason Joins Coaching Staff

Sebo Named Backfield Coach

Its official! Steve Sebo, freshman coach on Biggie Munn's football staff last year, was named backfield coach to fill the opening left by Lowell P. (Red) Dawson's resignation, as was announced unofficially yesterday.

At the same time Don Mason, former All-American guard for MSC in 1949, was named to fill the vacancy on the freshman coaching staff. Mason played on Munn's '47, '48 and '49 teams.

Dan Devine, former freshman assistant coach, was elevated to head coach to replace Sebo. In his senior year at State, Mason was named to All-American first teams by Paramount News and Football News, and to second teams by the Associated Press and the Chicago Tribune.

Commenting on his appointment, Dawson said: "I have en-

joyed my work under Coach Munn very, very much and

DON MASON

everybody at East Lansing has been most kind to me. This has been a very happy two years

for me here. However, I see an excellent opportunity at Pitt and I am flattered that they wanted me."

On confirming Dawson's appointment to head football coach at Pittsburg, Munn had only the highest praise for "Red". He said: "Red Dawson has been a loyal and fine assistant all the way around. I am very proud that he has been appointed head coach at Pittsburg and wish him all the luck in the world. We have been friends for the past 20 years and it has been indeed a pleasure to have him on my staff. Thanks for a job well done Red, and good luck!"

PITTSBURGH (AP)—Pittsburgh's Athletic Director Tom Hamilton says Lowell (Red) Dawson should provide the magic to help Pitt attain the gridiron glory it enjoyed more than a decade ago. To no one's great surprise, Dawson was picked as Pitt gridiron boss Monday. Under a three-year contract, the former backfield coach of the Michigan State Spartans probably will get between \$12,000 and \$15,000 a year.

Hamilton fairly bubbled with enthusiasm after Dawson's selection was announced, although admittedly a little biased because he had been plugging for Dawson right along.

Low and inside

Tough Farewell

By ALEX LAGGIS

State News Sports Editor

It's always hard to sit down and type out a farewell story on a coach like Lowell (Red) Dawson.

It seems hard to believe that the quiet, always sincere redhead will be coaching against a Green and White team next season. But his football knowhow, seasoned with 19 years of collegiate and professional football experience, will be with the Spartans for a while yet. It will be in the running of backs like Capt. Don McAuliffe, Vince Pisano, and LeRoy Bolden. It will be in the kicking of Tom Yewic. The hard smashing of Wayne Benson and Dick Panin will still have a little of that Dawson touch. So will the other backs that he worked with and helped develop.

There was a lot of speculation that Red would take with him one or two of Biggie Munn's assistants like other departing coaches have done in the past. Dawson assured Athletic Director Ralph Young, however, that he wouldn't raid the Spartan staff.

Last fall, he said that he would accept a coaching job elsewhere if it was a good enough deal. Being a head coach at a big college is something Red always wanted. At Pitt he has a bright future ahead of him. It is no secret that Dawson was hired at State with long range possibilities two years ago. However, Dawson feels that he has a better opportunity at Pittsburg.

He will be a tough man to replace but fortunately Munn had enough coaching depth last year to come up with an equal replacement like Steve Sebo. Steve and Red were close friends off the field as well as on. Although Sebo's job was as a sort of a jack-of-all trades for Munn last season, his influence was heavily felt on the gridiron.

Sebo knows football thoroughly. They are both perfectionists. It will be interesting to see what will happen next season when the Sebo-coached Spartan backfield meets Dawson's Panthers.

THE DU PONT DIGEST

Ch. E's at Du Pont

New products mean new opportunities
for chemical engineers

STUDYING "Teflon" tetrafluoroethylene resin insulating material with special apparatus. K. F. Richards, B.S.Ch.E., Cornell '48, and K. K. Holden, M.S.Ch.E., Delaware '48.

CHECKING a multi-stage carbon-monoxide compressor used in semi-works operations. R. L. Stearns, B.S.Ch.E., Yale '49, and H. Peterson, B.S.Ch.E., Northeastern University '42.

CHARGING experimental polymers to spinning machine. O. C. Wetmore, Ph.D. Phys.Ch., New York U '44; D. A. Smith, B.S.M.E., Purdue '40, and C. O. King, S.D.Ch.E., Michigan '43.

To you as a student chemical engineer, what does this statement bring to mind?

Nearly two-thirds of Du Pont's current sales are in products entirely or virtually unknown in 1930.

Likely it suggests years of solving intriguing engineering problems, the designing of unique equipment, the carrying out of reactions under extraordinary conditions.

But it should also suggest the opportunities that will come to chemical engineers in the future. For at Du Pont, new and better products are continually being developed. From today's extended program of fundamental research you can expect more neoprenes, more nylons, more plastics like "Teflon" tetrafluoroethylene resin.

As these products come out of the laboratory, they will bring with them a succession of interesting and challenging problems for the chemical engineer. Problems that will arise out of their very newness.

For instance, take nylon, the first

wholly synthetic organic fiber. In working out techniques for its commercial manufacture, there was practically nothing to go on. The compounds of which it was made, hexamethylenediamine and adipic acid, were essentially laboratory chemicals. Processes had to be devised to make them from cheap raw materials—benzene, hydrogen, air and ammonia. Large-scale preparation of nylon salt from amine and acid required going beyond the classical unit operations.

Here for the first time it was proposed to extrude a fiber with extreme accuracy from a melted polymer at 290°C. At this temperature the polymer decomposes slowly. It had to be melted, pumped at 5000 p.s.i. pressure through microscopic holes and cooled in a hurry. Otherwise the fiber would emerge discolored.

The Du Pont chemical and mechanical engineers and other men and women who worked with them ran into the difficulty after another. More than once they thought that the

project would have to be abandoned. However, it is basic in Du Pont people's philosophy not only to take on difficult pioneering problems, but to see them through. With nylon, this persistence paid off handsomely. Is this the kind of problem you'd like to attack, the kind of people you'd like to work with?

NEXT MONTH — Opportunities for chemical engineers in research and development will be discussed in the second article in this series. Watch for it!

WRITE FOR 40-page booklet, "The Du Pont Company and the College Graduate." Address: 2521 Nemours Building, Wilmington, Del.

MSC Ice Squad to Face Powerful Wolverines

Travel to Ann Arbor Tonight; Try for Second Straight Win

By JACK KOLE

Coach Amo Bessone's hockey team, heartened by their thrilling last-minute victory over the North Dakota Sioux last Saturday night, will return to the ice tonight at Ann Arbor to engage the powerful University of Michigan pucksters.

The Spartans, who were beaten 11-1 in their last encounter with the Wolverines,

Tonight's hockey game will be aired from Ann Arbor at 8 by Bob Shaktleton on both WLS and WKAR-FM. It will be broadcast in the Union.

will have a man-sized job on their hands in trying to cut the Wolverines down to their size.

The Wolverines, fresh from two weekend victories over the University of Minnesota, now hold second place in the Midwest Intercollegiate Hockey League with a record of four wins and two losses. A win over the Spartans will give them a tie with Denver's Pioneers in the standings.

Since "Holiday on Ice" is playing in the MSC ice arena, the pucksters travelled to Grand Rapids yesterday afternoon for a practice session in the Stadium, home of the Grand Rapids Rockets of the International Hockey League.

The NCAA defending champion Wolverines will go all out in an attempt for a repeat performance of their previous slaughter. The U of M sextet will have sophomore sensation Willard Ikola in the nets, and Bob Heatcott, who scored five goals against Minnesota in the two game series, at center. Also expected to start for the Wolverines will be Capt. Earl Keyes, Paul Pelow, and Alex McClellan.

Coach Bessone, in an attempt to stem the Wolverine tide, will probably start flashy Hal Passerini at center, Steve Raz and Jack Mayes at forwards, Dick Lord and Co-Capt. Bill McCormick at defense, and Del Reid at goalie.

The Spartans now have a 3-4 record for all games, and a 1-3 record in the conference. By virtue of their first league win over North Dakota Saturday, the Spartan sextet holds fifth place in the Midwest Intercollegiate Hockey League. They lead both Minnesota and Michigan Tech in the standings.

DICK LORD

Kansas Holds AP Poll Lead

NEW YORK (AP) — Duquesne's fast improving and unbeaten basketball team moved into the top 10 for the first time this season in the Associated Press poll as Kansas held on to its No. 1 ranking by a narrow margin over Illinois.

Duquesne (11-0), Kansas (13-0), Illinois (11-0), Iowa (11-0) and St. Bonaventure (9-0) are the only major college teams still able to boast perfect records.

Michigan State, 19th on last week's poll, dropped out of the select top 20 this week by virtue of losses to Iowa and Minnesota.

The top 10 teams, with points figured on a 10-2-3-4-5-6-7-8-9-10 basis (first place votes in parentheses):

Team	Points
1. Kansas (22)	128
2. Illinois (23)	123
3. Kentucky (9)	114
4. Iowa (8)	114
5. St. Louis (3)	114
6. St. Bonaventure (9)	108
7. Duquesne (1)	107
8. Washington (8)	98
9. Kansas State (3)	91
10. West Virginia (13)	82

If the final five games between the Yankees and Red Sox, the Boston team suffered three shut-outs and made a total of four runs.

Football Rule Made Stricter

WHITE SULPHUR SPRING, Va. (AP)—College football makers tried to make yesterday's rule changes roughness stopped.

It acted to charge a team a time out for sending a player just to punt.

Under the new rules a player may be banned from the field for striking with the elbows or locked fingers 15 yards only was the penalty. The rulemakers also added the section on clipping and on.

The former definition of hitting a player against the back, was restored. In 1949, it has been illegal to punch a player from behind only from the back.

Piling on was made illegal as soon as the ball becomes loose. The penalty for illegal pile holding also will be severe, 15 yards instead of 10. The substitution rule provides that a team can't replace a player while the clock is running. The clock will be charged with out.

Sports COED CORNER

By ELAINE HATT

A JOINT meeting of the board and the sports editors for coed living will be held Monday at 7:30 in the gym. The purpose of the meeting is to familiarize the sports editors with the point system.

All intramural swimming will begin at 1:30. Women's Gym pool will meet consecutive days, January 22 and 23, and final meet for this season January 4.

BLOCK TWO consists of other living units, Monday, January 28, Wednesday, February 6, and Monday, February 11.

The first and second floors in each block will be Wednesday, February 13, championship.

Lagers Can't Hit; Buried by Irish, 56-48

Notre Dame Wins Easily Over Slumping Spartans

By TOM RYAN

Notre Dame scored an easy 56-48 victory over the Michigan State basketball squad last night at Jenison Gym, burying the Spartans their worst defeat of the 1951-52 season and their third loss in the last four starts.

The Irish it was sweet for an earlier loss at the hands of Michigan State, their first meeting the night won, 66-52, snapping a winning streak the Irish compiled on their home

surprise move, MSC Pete Newell started the night only two regulars, using Eckstrom and Erik Furberg at the forward and Dick Stauter at guard. Bob Carey and Stauter were the two regular starters, playing center and forward respectively.

Newell's plan seemed to be to play the game in the period with State leading. However, the Irish tied the game at the end of the first quarter at 12-12.

In the second frame, regulars Eckstrom and Keith Stackhouse played the forward positions, while Stauter started at center. MacMaster, Avala and Sonny

Stackhouse then dumped in the game, taking a lead by halftime. Meanwhile, the Spartans were hard to score but did not score until the third quarter.

The State squad hit 12 two-point goals during the period and had nine three-pointers against it in the quarter compared to three for the Irish.

The Irish continued to set the pace in the third quarter, leading at the close, 44-31. Irish Johnny Jordan substituted only two players during the game, sending them when two of his starters were charged with fouls and were in danger of being out.

Spartans had a poor night in the fourth quarter, missing 10 of 15 shots, including 12 field goals and two free throws for 14 points.

John Stephens sank six goals for the Irish to attack with forward Eckstrom adding 12 points. The Irish also had a standout on the Notre Dame five.

Bob Carey was high in the MSC team, hitting 10 of 15 shots, including 12 field goals and two free throws for 24 points.

John Stephens sank six goals for the Irish to attack with forward Eckstrom adding 12 points. The Irish also had a standout on the Notre Dame five.

Bob Carey was high in the MSC team, hitting 10 of 15 shots, including 12 field goals and two free throws for 24 points.

John Stephens sank six goals for the Irish to attack with forward Eckstrom adding 12 points. The Irish also had a standout on the Notre Dame five.

Spartan center Bob Carey (8), drives in for a layup shot in the first period of last night's MSC-Notre Dame basketball game at Jenison Gym. Notre Dame forward Leroy Leslie (17) blocks Carey's shot. (Photo by Bill Mitchell)

Meet Army Saturday

Boxers Settle Starting Lineup

By LEN BLEWETT

With the completion of inter-squad matches for starting positions yesterday, Coach Mackey announced the lineup for Saturday's season opener with West Point.

Yesterday's action was a four-round, four-man boxing tournament for starting berths. Most surprising was the showing made by Jack LaForge, Pontiac sophomore, who beat NCAA 145-pound champion, Jack Black, for a main LaForge kept Black constantly off balance, with left hand jab but Black was green.

Alex Tsakiris scored the only knockout of the match in the second round of his duel with Flint freshman, Wayne Ketching, for the heavyweight berth. Ketching was outpunched the Bellwood, Ill., sophomore until Tsakiris registered with a good right hand, mid-way through the second stanza.

The final team berth was decided in a close bout between 156-pounder Tom Hickey and Fred Weiss. Hickey's superior punching power was the deciding factor in a close match.

Challenge bouts were not fought in four of the weight divisions. Mackey's selected boxers in these classes on the basis of their previous work-outs.

Norm Andrie, a sophomore from Homer City, Pa., will represent State in the 132-pound class. Andrie, a novice Golden Gloves champ, in Pittsburgh, has looked very good in practice sessions.

A former Michigan Golden Gloves champ, Herb Olson was given the nod in the 139-pound class. Leon Hamilton, Detroit junior, will appear against West Point in the 165-pound division.

In the light heavyweight class, it will be NCAA champ, Chuck Speiser, team captain. Saturday's match will begin at 8 p.m. in Jenison Fieldhouse.

Not too much is known about the Spartans' opponent, but past experience indicates that the Cadets will have a rugged squad.

Seven of Michigan State's nine leading backs during the 1951 football season averaged better than 4.5 yards per carry throughout the entire nine-game schedule.

Bob Carey, Michigan State's great all-around star, probably is the only college athlete in the country who is an All-American in two sports. He has made it as an end in football and a shot-putter in track. On top of that, he is first string center in basketball.

Intramural Basketball To Start

The 1952 Men's Intramural basketball season gets off to a fast start tonight with teams from Phillips, Snyder and East and West Shaw providing the action.

A record total of 132 dormitory, fraternity and independent squads will compete this year.

Fifty-four independent teams, the highest ever entered, along with 56 dormitory and 22 fraternity teams, will participate in this year's schedule.

The teams will compete for the IM basketball championship to be awarded at the end of the season.

Mural Schedule

BASKETBALL: Wednesday, Jan. 16

Reds Hint at Truce Talk Breakup

UN Tokyo Radio Predicts Continued Peace Blockade

MUNSAN, Korea (AP)—Communist radio broadcasts yesterday hinted at a complete breakdown in Korean truce talks after Red negotiators balked again Tuesday at handing over South Koreans in the North Korean army.

The "Voice of the United Nations Command" in a Tokyo radio broadcast Tuesday night predicted the Reds would continue a "blockade of armistice progress" until new high level instructions were received.

Both sides turned to the air waves when the snarled truce talks showed no sign of agreement. There was no progress Tuesday on the outstanding issues—truce supervision and prisoner exchange.

The UN command broadcast accused the Reds of causing the "present impasse" by insisting on building airfields during an armistice and by refusing to accept the idea of voluntary repatriation of war prisoners.

Communist radio broadcasts concentrated on the U.S. Air Force. Following up charges that U.S. planes flew over Manchuria Sunday, the Reds alleged Tuesday that Allied bombers killed 10 and wounded 60 Allied prisoners in a raid on Kangdang prison compound.

The Fifth Air Force denied both charges. Gen. Matthew B. Ridgway ordered a further investigation, however.

U.S. Sabre jets Tuesday carried the air war deep into North Korea and damaged two out of 190 Communist MIGs encountered in two sky battles.

The 143-mile snow-covered battlefield was almost quiet except for the occasional boom of artillery. The U.S. Eighth Army reported only two small ground actions.

Concert Slates French Singer In Music Aud

French Baritone Gerard Souzy with James Shomate at the piano will appear in the Music Auditorium at 8:15 p.m. Friday in a concert presented by the Music Department.

The program will begin with four pieces by Scarlatti-Doramus-gard. "Chi vuole innamorarsi" warns that he who would fall in love should think carefully, for love is a flame that once ignited burns eternally. Souzy will then sing "Caldo sangue," "O dolcissima speranza," and "Togittemi la vita ancora."

The second part of the program will begin with two compositions by Beethoven. "In questa tomba oscura" and "Ich Liebe dich" followed by "Sonntag," "Schwerenmut," and "Vergeliches Ständchen" by Brahms. "Four works by Faure, 'Spieren,' 'Green,' 'C'est l'extase,' and 'Toujours,' will be included in the third part of the program. "Histories Nostalgiques" by Ravel will precede four compositions by Schubert: "Wohn," "Wanderer's Nachtlied," "Die Krähe," and "Der Erlkönig."

Campus Chest

(Continued from Page 1.)
Tary Education, and Psychology. Last year married students contributed \$500 out of a total of \$5,000 that was given to various organizations by the Campus Chest.

The allocation of funds to the American Cancer Society, instead of the Damon Runyon Cancer Fund as in past years, was due to a feeling that as a part of the Lansing Community MSC students should contribute directly to the Lansing area, according to Bob Steele.

Additional members of the Campus Chest Commission are: Nick Pagani, faculty advisor; Ellen Luchak, secretary; Paul Bette, communications director; and Carl Eichen, executive director.

Ag Petitions Due

Seniors may pick up their agriculture achievement award petitions in the dean of agriculture office this week. The petitions must be completed and turned in by Monday according to Ed Green, chairman of the agriculture achievement award.

U.S. Arms Aid French in Indo-China

SAIGON, Indo-China (AP)—American military aid to bolster France's drive against the Communist-led Vietminh is flowing into Indo-China in an ever increasing stream.

Vast quantities of American military aid are being used by the French and Allied Indo-Chinese troops in France's fledgling states of Viet Nam, Cambodia and Laos.

The French are losing no time moving this equipment from the ports of Saigon and Haiphong to the front lines, where they are urgently needed to beat back attacks by the forces of Moscow-trained Ho Chi Minh.

American-made rifles, machine guns, grenades and ammunition supplement supplies of French manufacture. American-type uniforms and radio communications equipment are on hand. Each shipment is a great morale booster.

In the northwest, along the single skirted Black river one can see U.S. Naval craft on the move. In Laos and Cambodia, native battalions are equipped with American arms.

Coeds Cheer Percy Jones

Volunteer entertainment and hostess units of the Red Cross sponsored Percy Jones committee entertained patients at Percy Jones veterans hospital last night.

Singers Pete Wilkinson, Al Dorris, Jim McMann, and Mavis Craner were featured in the program. Pianists Bill Thistle, Jean Fanner, and June Toth, and instrumentalists Andy Nester and Dick Krejsa filled out the entertainment.

The lounge committee played cards, presented short skits, and served refreshments to the hospitalized veterans.

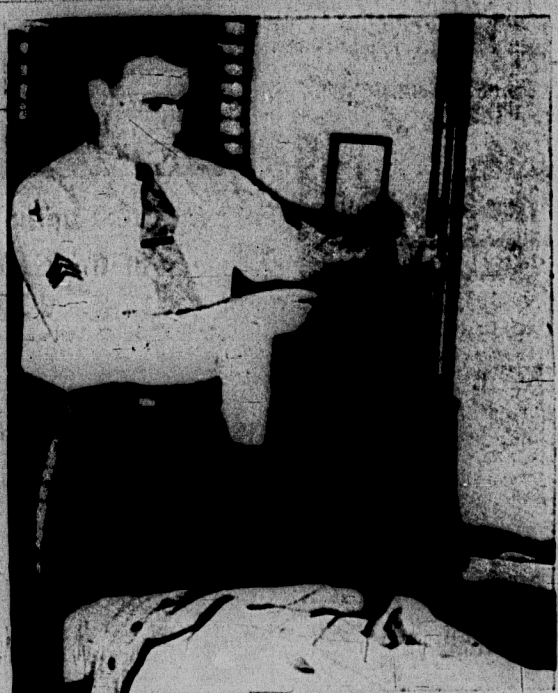

Auditions for the Percy Jones entertainment committee are held the first Tuesday of each month in Room 31 of the Union.

Farm Conference Stated at Kellogg

Better county Farm Bureaus are the sign of the 350 delegates who will attend the Michigan Farm Bureau Training School at the Kellogg Center Jan. 16-17.

Harry Bryson, director of Field Services for the American Farm Bureau Federation, will speak outlining the over-all picture of the Bureau's work.

The general purpose of the two-day program of workshops is to point out general procedures that result in better organization on county levels. Keith Tanner, Michigan Director of Field Services for the Bureau, will be in charge of the program.

Sgt. Steve Naert, of the East Lansing Police Dept., inspects 'torch sweaters' that have been turned over to the police by residents of East Lansing.

Lab to Analyze Material

'Torch Sweaters' Found Circulating on Campus

"Torch sweaters" made of a highly combustible nylon material which bursts into flames when exposed to a spark or open flame are now undergoing analysis by the textiles and clothing division of the Home Economics Department.

The sweaters were turned over to campus police by Florence Wetzel, Dearborn freshman, whose brother purchased the sweaters from a peddler in Cleveland, Ohio. Campus police in turn, handed the sweaters over to Arnold C. Renner, state fire marshal, who brought the sweaters to the Home Economics Department for analysis.

Results of the tests will not be available for a day or two, but the possibility of the material being a mixture in chemical formulae is being looked into.

Sweaters bearing the labels of "Cameo," "Berkshire," "Esquire," and "Flossmore" have been found to be made of the explosive material.

Capt. Ernest Kozepitz, city fire marshal, and Renner are on the trail of a door-to-door peddler with an auto bearing an Ohio license plate, who they believe is the principal source of the sweaters.

Tests, conducted by the East Lansing Fire Department on the sweaters, revealed that any hot spark or flame will cause the sweaters to burst into flame immediately. The sweaters burn entirely in 40 seconds to a minute.

Drop Your Anchor MSC Mariners Launch School To Teach Sailing

Sailors and landlubbers alike will have a chance to learn more about sailing Thursday night when the MSC Sailing Club holds its first Sailing and Racing schools of the term.

Bob Jewell, vice commodore of the club will teach the fundamentals of sailing, terminology, and "rules of the road" at 7 in room 35 of the Union.

At 7:45, Mack Goodwin, racing chairman, will dive into the tactics of Inter-Collegiate racing.

The school is open to everyone interested in sailing and will continue every other week through-out the term.

Grad Student Aid Available

Opportunities for advanced study in other universities are open to qualified seniors and graduate students, according to Thomas H. Osgood, Dean of Graduate Studies.

Osgood said large numbers of assistantships and fellowships are available, with financial aid adequate to defray expenses "on a modest scale."

Seniors, graduate students, and faculty members are invited to consult an up-to-date file on such information, he said. The file is in the Graduate office, 112 Morrill Hall.

Applications for assistantships and fellowships have to be filed by some specified date, usually between Feb. 13 and May 1, for entrance the following fall.

MacArthur To Speak in Legislature

General to Stay At Kellogg Center

General of the Army Douglas MacArthur will stay in the Kellogg Center following his speech before the State Legislature May 15.

MacArthur, supporter of Taft for president, will speak to the joint session of Legislators at 8 p.m.

ROTC units may march in review before the general during the afternoon. However, no ceremonies have definitely been announced by college officials.

James McCartney, information assistant in the college Information Services, said.

MacArthur was invited by a joint resolution passed by the Legislature. A committee of legislators and members of the Michigan Press Association have planned entertainment for his day in Lansing.

The college is not connected with the invitation but will furnish facilities for entertaining the general during his one-day stay, McCartney pointed out.

Before his address at the capitol MacArthur will be entertained at a luncheon and reception at the Kellogg Center ballroom. State and local dignitaries and college officials will attend.

The general will leave for Detroit on May 16.

Irrigation water will be moved by some specified date, usually between Feb. 13 and May 1, for entrance the following fall.

Graduation

(Continued from Page 1.)

be held on Saturday, Linton said. He would not comment on whether the ceremonies in future years might be returned to Sunday.

In setting the date the group took care of starting the ceremony on Saturday into consideration as well as possible inconvenience to some parents. The date was not set on Saturday for the convenience of the faculty, Denison said.

He placed the number of inconvenienced parents at 5 per cent, and said he would be interested in seeing results of a poll of students who could give good reasons for their parents' inability to attend.

"Everybody works on a 40 hour week now. Those few who would have trouble getting here on Saturday would have the same difficulties on Sunday," Denison explained.

Last year's change from Saturday to Sunday came because a speaker could not be obtained for Saturday, not because of alleged inconvenience to parents, Denison explained.

Chairman Connally of the Foreign Relations Committee, in telling newsman outcome, predicted that the committee decision.

You want your girdle to make you beautifully slim and trim, but you want to be comfortable too. Your "Perma-lift" Girdle guarantees all you want and more. Be sure you get the right length, it's so important — and be sure to enjoy the truly amazing comfort of the Magic Insert.

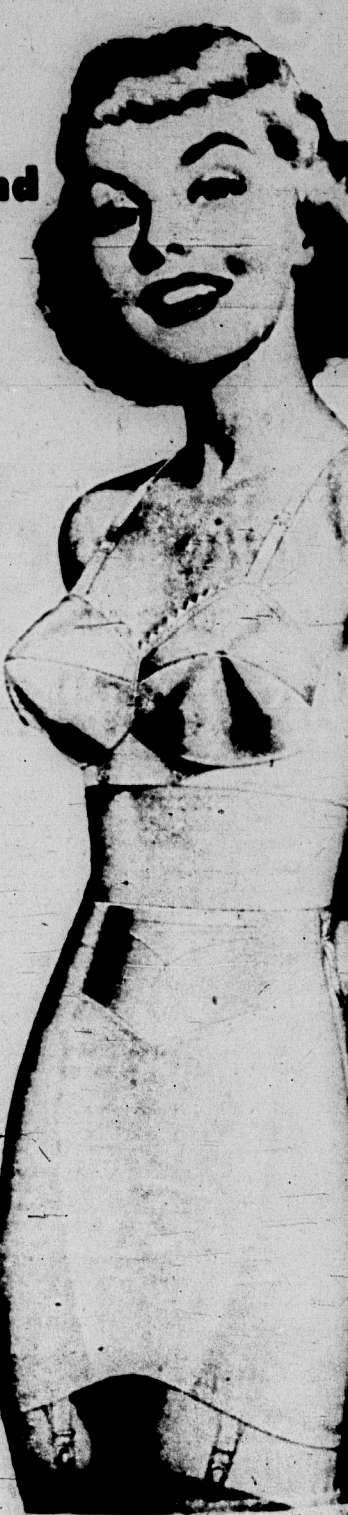

1. The Magic Insert eliminates uncomfortable poking, pinching bones.
 2. The Magic Insert guarantees that your "Perma-lift" Girdle won't roll over, wrinkle or bind.
 3. The Magic Insert never loses its "stay-up" smartness no matter how often you wash it or wear it — outlasts the life of the garment.
- Have one of our corsetiers fit you in the proper length "Perma-lift" Girdle today and enjoy the difference.

Perma-lift Girdles in 4 Lengths. Tall, tiny or in-between, there's a Perma-lift Girdle in the perfect length for you.
