

Gaylord Sheets, student government president, congratulates the newly elected Secretary of Student Affairs Robert Martin and Student Government Attorney David Wasserman.

Congress Approves Sheets' Appointees

Student Congress last night approved appointments of Gaylord Sheets making Robert Martin, secretary of student affairs, and Dave Wasserman, student government attorney.

City to Hold Election on School Tax

Voters to Decide
On 5-Mill Rate

East Lansing voters will go to the polls in a special school election April 14 to determine whether a five mill increase in the present tax limitation shall continue.

East Lansing property taxes were limited to 15 mills, or \$15 per \$1,000 assessed valuation from 1932 until 1947 when a vote increased the limitation by five mills. The increase was effective through 1951.

Although taxes were never levied for the entire five mills, the school districts declare a need to operate under the increased limitation. The continuing of the limitation would not raise taxes, but merely continue them, school officials said.

Schools claim that although state aid from sales-tax revenues has increased 45 per cent during the past five years, costs have increased still more.

Local assessed valuations have increased 30 per cent in the five year period.

Over \$90,000 of the increased budget has been due to more pupils, and consequently more teachers and supplies. This is about the amount the requested additional tax would raise.

Additions to Bailey and Red Cedar schools and a new Glenview school are being provided for increased elementary enrollments.

Today's Campus

...Slightly Behind

There is an unhappy soul here—him who got through registration with a winter term time course booklet. The unfortunate one is now trying to straighten out a more-than-slightly weird schedule.

...Name Calling?

Russ Kersten points out that the habit of calling Presidents by their initials (i.e., FDR or HST) will have to stop if Adlai Stevenson or Robert Taft is elected. Stevenson's middle initial is "S," and Taft's is "A."

...From Good Ole

Digging deep into a dusty State News picture file recently, Sports Editor Bill McGraw came out with a moldy plate and three slabs of butter from an early other era. Also found in a dim recess of the advertising office were a pile of somewhat outdated campus maps, which will be offered to the general public at a reduced rate, the advertising manager said.

Cause Dissent PTA Speaker Charged With Un-Americanism

FLINT (AP)—The Michigan Congress of Parents and Teachers Convention, beginning here April 22, was threatened yesterday with internal dissent because the opening speaker reportedly received "unfavorable mention" before the House Un-American Activities Committee.

The PTA executive committee declined to cancel the scheduled address of Dean Ernest O. Melby of New York University despite information received from Rep. Dondero (R-Mich.), Mrs. Harry E. King of Pontiac said.

Mrs. King, PTA state president, said Melby had been endorsed by Dr. Lee M. Thurston, state superintendent of public instruction, as "a distinguished educator who is thoroughly American and hates Communism."

However, she added, protests have been received regarding his appearance.

Dondero was quoted as saying the Congressional Committee had received three citations against Melby.

Chest Week To Feature Showdeo

Rodeo-Like Show
Scheduled May 2

Showdeo, one of the main attractions of Campus Chest, will be held May 2 in the Lavestock Pavilion. It is sponsored by the Block and Bridle and Agriculture Education Clubs. Campus Chest week is scheduled for April 28 to May 2.

The feature attraction will be the Brahma Bull Riding Exhibition. This will include six bulls ridden by Bay City exhibitionists.

The rodeo-like performance will have student participation contests for which trophies will be awarded. These will include the broom pole race, bundle race, queens' milking contest, balloon busting contest, greased pig race, apple eating contest and pie eating contest.

Jim Roeker, Saginaw senior, will present a cutting horse demonstration.

After intermission, the Pavilion floor will be rolled and leveled for square dancing. Andy Nester and his band will provide the music with Chuck Swing, Jonesville senior, calling.

Advance tickets go on sale Monday at the Union ticket booth and Agriculture Hall. Tickets are 50 cents each.

Campus Chest Publicity Committee will meet at 8:30 p.m. in Room 42 of the Union tonight. This meeting is for all members and any interested students. Publicity work will be allocated.

Three Picked To Attend IFC Conference

Representatives were chosen Tuesday night from Interfraternity Council to attend the annual IFC-Pan Hellenic convention at the University of Wisconsin May 1 through 3.

Elected as delegates were Bob Dugan, Lincoln Park senior; Joe Shaw, Midland junior; and Jim Sackett, Detroit junior. Other members of the Council may attend if they wish.

Plans are also being made for the annual Greek Feast to be held this term.

Amendments to the IFC Constitution will be voted upon at the next meeting. Recommendations for an all-fraternity "Help Week" and a proposed set of penalties for violation of fraternity and college rules will also be discussed.

Code Number Plan Helps to Locate Lost, Misplaced College Equipment

Lost, strayed or stolen college equipment often finds its way back home because of the efforts of the Inventory Department. Housed on the Administration Building's third floor, this department keeps record of practically all college-owned equipment, while the cards are stored in department files. An IBM keeps track of the multitude of cards.

When an article is found with a serial number on it, the Inventory Department can tell where it belongs on the campus and have it returned.

Kellogg Center and Snyder Hall are the only living units that have been coded so far, but the department plans to code the other living units soon.

Millions of dollars worth of equipment is on file. More than 100 vehicles, not including tractors, have been coded. The Chemistry Department alone

Senate Approves \$11,194,982 Budget for MSC with Rider

The fact that "the voice with the snuff" will be gone for awhile is illustrated by picketing Bell Telephone workers in Lansing. Workers picketed for the third straight day yesterday as the telephone strike continued.

Long Distance Calls Halted As Phone Strike Continues

WASHINGTON (AP)—A worsening telephone strike became nationwide in scope yesterday as workers not technically on strike held sympathy mass meetings and were ordered not to cross picket lines.

The net result was to fuel up at least some long distance phone service. Bell System Companies said they had to get the most important long distance calls through with non-union personnel.

Local phone service was maintained because of the automatic dialing. The CIO's Communications Workers of America (CWA) claimed that about 300,000 workers would refuse to cross picket lines and stay away from jobs.

The government, for the moment, pinned its hopes for a Bell System-wide settlement on talks in Detroit between the union and Bell's Michigan subsidiary. The talks were reported to be making progress there, and round-the-clock sessions were scheduled.

Phone cables were reported cut at Akron and Minneapolis. The union denied responsibility. Service was cut temporarily to 1,000 phone customers in Akron and 183 phones went dead in Minneapolis.

Meanwhile, the week-long

Hannah, Denison
Return to Campus

President John A. Hannah and James H. Denison, assistant to the president, returned from Washington this morning where they participated in the National Conference for International Economic and Social Development.

The conference began Monday with an opening address by President Hannah, who was conference chairman. It closed last night with an address by Eric A. Johnston, chairman of the International Development Advisory Board.

A total of 754 late registrants have swelled MSC's spring enrollment figure to 12,467, according to Robert S. Linton, college registrar.

Late registration was completed yesterday.

A registration breakdown shows a total of 8,414 men and 3,963 women enrolled.

Those enrolled in evening college total 375 while 88 are registered in agriculture training and short courses.

This final figure shows a drop of 638 students from last spring's total of 13,105. Fall term enrollment was 13,583 while 13,176 were enrolled winter term.

Court Denies Injunction to Steel Industry

WASHINGTON (AP)—The nation's steel industry lost the first round of an historic court battle against the Truman Administration yesterday when Judge Alexander Holtzoff refused to grant a temporary injunction barring federal seizure of the steel mills.

The steel companies indicated their next step in an expected long fight might be a plea for a permanent injunction. They could, if they choose, appeal directly from yesterday's ruling, however.

Judge Holtzoff said he based his ruling partly on the ground that it was "very doubtful to say the least" whether a federal court has the authority to issue an injunction against the President of the United States. He said too that there was no showing of actual damage as is needed to justify a temporary injunction, adding that fear of such damage is not enough.

The 65-year-old judge said the industry's trade suits were technically addressed against Secretary of Commerce Sawyer, but "actually and in essence" were aimed against President Truman's order for government seizure of the steel-making industry.

The companies contended they would suffer "irreparable damage" if Sawyer took over the mills. They raised such possibilities as displacement of management, raising of pay by government order or establishment of the union shop.

Two Students
Dispute Over
Parking Place

An argument over possession of a parking spot resulted in a sore thumb and an assault and battery charge for one MSC student and a few crooked teeth for another.

Ted Eck, East Lansing senior, and Glenn Miller, Brighton senior, were both looking for a parking place during last Saturday's snowstorm. They spotted an opening approximately the same time.

In court Tuesday, Miller told Justice Henry Schumaker that he "drove in head-first behind me."

Eck got the parking place and remained firm that it was right fully his on the theory that "possession is nine points of the law."

Miller added that his feet were wet from standing in four inches of slush and wanted to go and get. He explained, "I just opened the door to Eck's car to advise him that if he couldn't move his car, I would do it for him."

In the evening justice, Eck clanked his teeth around Miller's thumb, Miller said.

"It hurt like blazes so I just jerked my thumb away and walked back to my car and drove away," he said.

Eck told a policeman through chipped teeth that he wanted a warrant for Miller's arrest on an assault and battery charge. Justice Schumaker set trial for April 17 and released Miller on \$50 bond.

Hotel Dignitary
To Speak Here

MSC Hotel, Restaurant, and Institutional Management students will hear C. Pittman Baker, president of the Pennsylvania Hotel Association tonight at 7 in Room 31 of the Union.

Baker, also manager of the Hotel Adelphi, Philadelphia, will discuss the "Front Office." The program is sponsored by the MSC Hotel Association. All students are invited.

Air Crash Kills 12 Soldiers;
Sudden Cloud Blinds Jet Pilot

CAMP EDWARDS, Mass. (AP)—Twelve soldiers were killed in the flaming crash of two Air Force planes over this camp yesterday.

A sudden cloud formation was believed responsible for the crash

of an F-24 jet fighter with two men aboard and a C-47 transport carrying 10 men.

Capt. Robert W. Stephenson, public relations officer at Otis Air Force Base, said the planes collided between 5,000 and 7,000 feet over the camp's firing range.

The weather bureau warned weary residents of the twin cities that the Missouri will probably reach the 25-foot mark—10 feet above the flooding point—tomorrow morning. At 2 p.m., the depth was 22.65 feet. It was the worst flood in 71 years.

A coast guard helicopter, amphibious vehicles and a score or more boats worked virtually without setup evacuating residents.

Dr. Charman H. Sutley, Red Cross disaster chairman, said 75 per cent of Ft. Pierre will have to be evacuated. Only a limited supply of drinking water remains and no more can be pumped until emergency power generators are installed.

Amendment May Halt Spending for Publicity

BY ARNOLD SPILLAN
State News Capital Reporter

The state Senate yesterday stamped its approval on MSC appropriations previously passed by the House but provided that none of the funds could be spent for publicity or public relations.

The bill appropriates \$11,194,982 for MSC's general operating expenditures and \$2,377,234 for agricultural experiment and extension services.

The bill now goes to the House, whose version did not introduce the no publicity amendment.

Senators Donald W. Gilbert (R-Saginaw) and James M. Trahan (R-Dwoss) introduced the amendment which makes it unlawful to expend any portion of the appropriation for "publicity, propaganda, promotion or public relations" and declares the Legislature's intent to eliminate "all expenditures of printing, materials, postage and salaries" used for such purposes.

The sharply divided Senate passed the amendment 14-12 amid charges of over-inclusiveness and unconstitutionality.

Challenging the amendment to the education bill, Sen. George Higgins (R-Ferndale) pointed out that it might go so far as to prevent the state colleges and universities from sending out catalogs to prospective students.

Sen. Harry F. Little (R-East Lansing) stated the Legislature had no constitutional right to attach any such provision on appropriations for MSC and the University of Michigan, which are governed by independent bodies. He read portions of the State Constitution that grant the State Board of Agriculture and the Board of Regents "direction and control of all expenditures" of their funds.

Sen. Gilbert called statements against the measure an "absurd bogeyman" raised to defeat a constructive measure.

"A department head conscientious in his duty will not have much trouble in distinguishing between publicity and legitimate measures," stated Gilbert.

Sen. Trahan stated his purpose was to make the money available for educational expenditures and nothing else.

Sen. Little stated his purpose was to make the money available for educational expenditures and nothing else.

Earthquake Stuns Area In Midwest

Cities, Outlying
Regions Affected

OKLAHOMA CITY (AP)—One of the strongest earthquakes felt in the Midwest in many years shook parts of seven states yesterday.

The quake was felt in Texas, Oklahoma, Arkansas, Kansas, Missouri, Nebraska and Iowa, and shook such cities as Tulsa, Wichita, Topeka and numerous smaller communities.

The shock appeared to be strongest in Oklahoma and Kansas, but shook an area extending from northern Texas to Omaha and Des Moines. It was felt as far east as central Arkansas.

Several cities in Oklahoma including Oklahoma City, Ponca City and Atoka reported walls of buildings were cracked and plaster damaged. The state capital office building in Oklahoma City was cracked in three places.

At least one injury was reported in Tulsa, Okla.

As far north as Kansas City, chairs were overturned and windows broken.

At Des Moines workers in higher office buildings reported light fixtures and desks shook.

ROTC Slates Demonstration For Cadets

A night demonstration has been scheduled for State ROTC students May 14.

The program will show how certain signs and sounds are different at night and give cadets practice in estimating distances from night sounds. About 24 demonstrations have been prepared, according to Colonel Reeves, of the ROTC Department.

River Floods Homes, Municipal Power Plant

PIERRE, S.D. (AP)—The muddy Missouri River had driven some 1,500 persons from their homes last night and gushed through the nearby Ft. Pierre municipal power plant. Sandbag crews fought to save Pierre from a black-out.

All of Ft. Pierre, a town of 700, and about 30 blocks of Pierre, population 5,700, were under water ranging up to basement level. By 4 p.m. (EST) Pierre's main business district was going under the swollen Missouri.

The weather bureau warned weary residents of the twin cities that the Missouri will probably reach the 25-foot mark—10 feet above the flooding point—tomorrow morning. At 2 p.m., the depth was 22.65 feet. It was the worst flood in 71 years.

A coast guard helicopter, amphibious vehicles and a score or more boats worked virtually without setup evacuating residents.

No Paid Athletes?

The forces that rule the world of college athletics are taking steps toward establishing a strict code that institutions of higher learning "must follow when they play" or they will no longer be known as institutions of higher learning.

The recent declaration by the North Central Association of Colleges and Secondary Schools made it plain that members must adhere to the rules or risk their educational standing.

Part of the declaration stated that colleges must outlaw athletic scholarships and "get out of the entertainment business."

As a North Central spokesman put it, "The schools must get out of the entertainment business. Athletics must be incidental to the whole picture. And those schools who don't make it so will find themselves outside our organization with their standing as an educational institution seriously impaired."

A surprise move by the North Central was the passing of a set of rules in contradiction to those set up by the American Council on Education, headed by President Hannah.

Hannah's committee had maintained that the North Central would be the enforcing body for the ACE resolutions which forbade spring practice and bowl games for college football squads but permitted athletic scholarships and grants, with athletic ability being an important factor in deciding the worthiness of an applicant.

To his, the North Central plainly said, "No." The stand on scholarships was very clear: "None must be based on the ability of a boy to contribute to the winning of an athletic contest."

The group, headed by Professor J. B. Edmondson, retired dean of education at the University of Michigan, wants scholarships offered with all boys having an equal chance to get them whether they are athletes or not.

It seems that the group has taken an intelligent view that the ability to throw a football does not alone qualify a boy for a free ride through what we like to call our institutions of higher learning. If a high school student can qualify academically for a scholarship, and has participated in extra-curricular activities, the latter should be considered—but only secondarily.

In addition, the North Central group struck out at what is probably the greatest threat to honesty in collegiate athletics, the alumni groups and booster clubs that financially pave the way for athletes. Undercover payments from these groups in cash and gifts constitute nothing less than college professionalism.

Colleges have been instructed by the Edmondson group to make a diligent search to find all alumni groups and booster clubs and make sure they do nothing to aid athletes financially.

Right in line with the North Central is the action of the National Collegiate Athletic Association. The NCAA has named a four-man team to serve as an investigating group for members. The team will serve as a fact-finding board, answer complaints, and handle violations of the NCAA code.

After long discussions and many resolutions, it looks as though the governing groups have made up their minds—and it also looks like they mean business.

A Goal for IFC

Inter-Fraternity Council should have a purpose—to build and co-ordinate a stable fraternity system on the campus. One might wonder just what is keeping the local group from achieving its aim.

The biggest present problem in building up a strong campus fraternity system, that of keeping fraternities active on campus instead of on probation, is where IFC has made its weakest showing.

After hearing cases of fraternity rule violations, the Council makes recommendations to the Dean of Students. In the numerous violation cases during the year, IFC recommendations have been almost completely disregarded by both Dean King and the Student-Faculty Social Committee.

The situation doesn't involve any absolutes of who is right and who is wrong. The question seems to center in the quality of leadership and also understanding of campus-wide administration policies by IFC personnel.

The group's recommendations on penalties for offending fraternities have often been so light as to become inconsequential if okayed by the Dean of Students as presented.

That the Dean of Students in many cases has been justified in handing out heavier penalties than IFC has believed necessary is shown not only by the penalties recommended by the Greeks, but also by their lack of protest about Dean King's final decisions.

Although IFC is to blame for its present weakness and the lack of respect for it which is beginning to show throughout the campus, the Dean of Students is not completely free from blame.

Co-operation between the administration and the council could be vastly improved. Attendance of IFC meetings by Dean King would certainly be a step in the direction of more understanding, or at least a clearer picture of just where IFC stands in the eyes of the administration.

Strong leadership is definitely needed if the Council is to work up to the position it should hold as governing group of the only socially organized group of men on the campus. It is to be hoped that IFC members will think carefully in picking officers for next year.

Letter to the Editor

Purpose of Salute Rule Pointed Out by Reader

To the Editor:

As a World War II veteran, student and ROTC cadet, I would like to comment on the recent order and editorial concerning saluting on South Campus.

Criticism was made on the basis of some imagined idea of future objectives of the military department. As stated by Colonel Clendenen, no effort is being made to "militarize the campus." Those who conceived and promulgated this order did so in a sincere effort to improve the corps and thereby to improve its product.

The defects of the present system are becoming more apparent as the average age, experience and maturity of the cadets drops.

The editorial on Tuesday was false in stating that the entire South Campus was considered as a "military reservation." In the original recommendation, only a small but sharply defined area in the vicinity of Dem Hall, the drill and parade fields was considered.

Feet was expressed that some cadets might take advantage of the order in the belief that the salute is some kind of deserved personal tribute. Any observer of "human nature" could say that in an organization of this many individuals would be so misguided, but let us remember this—they carry their attitude through all of life.

We cannot criticize the military for a character defect—eroded in American social, economic and political tradition. If we are to denounce that grand old "I have it small me" attitude, let's be more comprehensive and not pick on just one group.

Perhaps we can examine the order more effectively if we consider the motives of those who published it and its probable result.

The stated purpose of this order is to teach cadets how and

when to salute. To many, it would seem that anyone capable of earning a degree could also learn the insignia of rank, and customs and regulations pertaining to military courtesy without being subjected to the absurdity of saluting from 20 to several hundred cadet officers who are returning the salutes of hundreds more—all this just to reach their place in formation or classroom two or three times a week.

Actually, an underlying purpose is to increase the esprit de corps of the unit, to give the cadets a greater sense of duty and a feeling of fellowship.

It is recognized that the ROTC units do not enjoy the prestige or respect which they should have on campus. This is not surprising since they do not have the self-respect, the sense of purpose or accomplishment within the units themselves, which they must have to gain the sense of leadership so necessary if they are to turn out a product worthy of this college.

The fault of this present order is that it will not accomplish the desired result. It will do nothing to correct the misconceptions either of those within the corps or of their critics, and it will be misunderstood by many.

It appears more as a rather violent reaction from what many considered the extremely lax disciplinary policy of the previous department heads.

Few would criticize a more strict observance of military courtesy between students in formation and to regular officers at all times. In my experience, such observance has been sporadic and incomplete in this unit.

Many believe the present plan unworkable. It should be remembered that the Cadet Regimental Staff will analyze the results and attempt future improvement.

Name withheld by request.

Capone Can't Afford Lawyer

The cost of living must be reaching heights undreamed of if many people are faced with the problem of Ralph Capone, brother of former underworld leader Al Capone.

He explained in court why he doesn't have a lawyer to defend him in a tax case saying, "They're asking some awful prices nowadays," according to the New York Times.

Maybe inflation has its brighter side.

Special Classes Set Up for Cater Technique Training

Three training classes for waiters began at the Union Tuesday night under the direction of Miss O'Connell, catering manager.

The men learn correct dress, procedure, equipment and how to serve banquets in the Union. Six students are assigned to three head waiters who act as instructors.

The course, designed to train men for future work, requires at least two hours of instruction for which the students are paid.

The first formal school on the campus opened in 1944.

Police Take MSC Short Course

Classes Serve Patrol Officers in 14 Cities

Patrol officers from 14 Michigan cities are attending the fifth annual Short Course in Police Duties this week.

The course is designed to serve all of Michigan's law enforcement agencies, and is held in January, April, and October, enabling each city to take advantage of the course at its local needs.

Police F. Rhodes, co-ordinator of law enforcement training, said the course is based on "What the Patrol Officer Needs to Know," in criminal law, evidence, court procedure, crime prevention, investigation, introduction of witnesses, records, motor vehicle law, accident investigation, public relations, and community writing and communication.

Classes will continue through May 2.

Prof. Robert H. Scott speaks to a class of patrol officers here for a short course in police duties. They will be here until May 2, studying "What the Patrol Officer Needs to Know." Field trips and classes in the fields of law, criminal investigation, patrol duties and public relations are included on the agenda.

First of a Series Students to Present WKAR Food Show

(This is the third in a series of articles describing WKAR dramatic presentations in which students participate. J. Kenneth Richards, station production manager, stated that auditions will be held this term to seek new talent or future programs.)

A program of fiction and fact for the benefit of all food lovers will be taped and aired over WKAR at 11 a.m. today and every Thursday—A 15-minute dramatization, the "Consumer Food Facts" show, is produced by J. Kenneth Richards and directed by John LaForge.

Announcer Dave Kushler interviews Miss Mary Rodwell, of the Agricultural Economics Department throughout the program in an effort to clarify statistics on food buying, meal planning and other home management problems.

Each week there is a new type of script, written by Ann Houchins, Niagara Falls, junior, thus a variety of actors are needed to fill different roles. In the pre-Easter show, "Maggie Brown" and friend "Humpty-Dumpty" went to Eggville to find how eggs are graded, sold and used. Another script has an incident from the life of Louis Pasteur and the dairying process is discussed.

Auditions for this and other WKAR dramatic shows will be held April 15 at 1 p.m. in the WKAR

State to Try To Ward Off Strike Threat

LANSING (AP)—The state Labor Mediation Board scheduled a meeting in Jackson-Friday in an attempt to head off a threatened strike by some 9,000 Consumers Power Co. workers.

The CIO—Michigan Utility Workers-Council had threatened to stage a walkout at midnight Friday unless the company agreed to wage and fringe benefits similar to those paid Detroit Edison Co. workers.

Dr. R. P. Cranston, a board member, who announced the meeting, pointed out that if no agreement is reached before the strike deadline the dispute must be handed to a special governor's mediation commission during a 30-day "cooling off" period.

The period has a 10-day extension under law and strike during that time could be declared illegal.

Strichy to Speak Before Engineers

Dr. M. E. Strichy, director of Technical Demonstrations of the American Telephone and Telegraph Co., will be guest speaker before the Board of Engineers of the American Institute of Electrical Engineers, Tuesday evening at 7:30 in Room 402 of the Electrical Engineering Building. The public is invited, according to Prof. Paul G. Gray of

Home Economics Coeds Prepare School Meals

Courses in quantity food production offer many students the use of operating units for experience, Katherine Hart, of the Department of Institutes Administration, said.

Coeds majoring in home economics prepare lunches for East Lansing High School students.

"The course is designed to make the lunch program an integral part of the educational picture," Mrs. Hart said.

Students taking the course may gain experience in nutritional meal planning, cost-making and bookkeeping.

Women's dormitory kitchens serve as laboratories for preparation courses in restaurant management and hospital dietetics.

Taught by Helen Wadick, manager of restaurant services of Yakeley-Hall, the course is offered to both men and women. Students learn to prepare and serve food, and to solve management and cost problems.

Owanna Post, catering manager of the Union, and E. L. Gatten, Union food director, teach a catering course for hotel management majors.

More than 125 students supervise the grill and work in the main cafeteria kitchen in the Union food services department.

Each student must plan at least three parties including the menu, arrangements and scheduling of waiters. Teas and dinners, a regular part of many meetings and conventions held at the Union, provide opportunities for students to learn catering for groups of as many as 700.

Ski Club to See MSC Race Movies

Races featuring MSC's Ski Club members last term will be shown in movies tonight at 8:30 in the Union, Hugo Meyers, president, announced.

The trophy won in the first Michigan intercollegiate ski competition will again be shown. Names of the five-member team are engraved on it.

At the last meeting of the year, old business will be completed, Meyers stated. Advisors and new officers are requested to meet at 8 to read the constitution.

The ultra-collegiate white socks will be in high style for spring and summer use. Saddle shoes and loafers are rated high.

Last Rites

Funeral services for Prof. L. R. A. Schoenmann, former head of the Department of Land and Water Conservation, will be held this afternoon at 2:30 at the Estes-Leadley Funeral Home in Lansing instead of the Christ Lutheran Church as was stated yesterday in the State News.

Reds Refuse To Register With Police

LANSING (AP)—Members of the Communist party will refuse to register with state police as required by the Trucks Bill to control Communists, a spokesman announced yesterday.

William Albertson of Detroit, secretary of the Michigan Communist party, made the stand known in an appearance before Gov. Williams at a hearing on the bill.

"To register means to give up the right to become a good citizen and an informed citizen," Albertson said in part in a 19-page statement he read in the governor's office.

Arthur McPhail of Detroit, executive secretary of the Civil Rights Congress, also said members of his organization would refuse to register.

Jake LaMotta Decisions Norm Hayes

DETROIT (AP)—Jolting Jake LaMotta outslugged young Norm Hayes in a wild swinging 10-round scrap last night to gain a unanimous decision in the 100th fight of LaMotta's 12 years in the ring.

The Bronx Bull, former middleweight champion, waited until the late moments of each round to open up on Hayes who decided him in Boston in January. LaMotta weighed 167½, Hayes 162.

The crowd of 8,204 roared to its feet in the 10th round when LaMotta wobbled Hayes with a jolting left to the head. But the Boston youth danced backwards out of danger.

Referee Tom Briscoe scored it 55-45, judge Joe Lenahan 54-46 and judge Jack Aspery 51-49.

Injured New York Outfielder Expects To Play This Year

NEW YORK (AP)—Monte Irvin, slugging outfielder of the New York Giants who broke his right ankle in an exhibition game with the Cleveland Indians, arrived last night at LaGuardia field from Denver and left directly for Harkness Pavilion at Columbia Presbyterian Medical center.

Irvin suffered the injury while sliding into third base. Asked if he expected to play again this year, Monte said, "Sure, in two or three months."

Monte said that he expected to be in the east about six or eight weeks.

The injury jinx, usually reserved for football teams, hit the Michigan State 1951-52 basketball team after four games when sophomore center DeNeal Hartman was lost for the year because of a bruised thigh.

Phils Lose to Cards Despite Homers by Lopata and Ennis

Philadelphia Phillies' shortstop Grady Hatton (right), neatly high steps sliding Billy Herman of the St. Louis Cardinals as Herman gets off his throw to first baseman, Eddie Walker, to complete a second-inning double play in an exhibition game.

Trout Hits, Hurl Tigers to 9-3 Win Over Lookouts

LYNCHBURG, Va. (AP)—The St. Louis Cardinals took an 8-4 decision from the Philadelphia Phillies yesterday despite homers each by catcher Stan Lopata and outfielder Del Ennis. Steve Ridzik, Phillies pitcher who pitched a no-hitter against the Cards his last time out, blasted from the mound in sixth inning as St. Louis piled over three runs to take a lead.

Ridzik gave way to Jim Stanton, who in turn was replaced by Lou Poeschl.

TIGERS WIN

CHATTANOOGA (AP)—The best pitcher in the South, the Louisville Tigers, pounded out a victory over the Chattanooga of the Southern Association yesterday behind the pitching of veteran Paul Trout.

Trout pitched six innings in the midsummer weather and credit for his third straight exhibition victory.

He was pushed around a bit in the seventh but turned over a lead to little Hal White who

ished.

The 36-year-old Trout scored four hits in the six innings worked and drove in the first two runs with a single.

Diz pitched to only 21 men in six innings, striking out four, walking none. He tired in seventh, however, and the Louisville farmhands for the Washington Senators, worked him for walks and four singles to

within one run of the Tigers. White retired the side in eighth and escaped without a

age in the ninth despite

singles.

The win was Detroit's fifth consecutive over Southern Association teams with the sixth last game set for tomorrow.

Hoelt and Freddie Hutchins will hurl for the Tigers.

REDS EDGE NATS

CHARLESTON, Va. (AP)—Cincinnati Reds defeated Washington Senators, 3-2, yesterday in an exhibition game.

The Reds took the lead in second inning on Bobby Azar single to right, scoring Roy Millan from second.

The score went to 2-0 in fifth, but Washington tied it in the sixth.

The winning run came in eighth when Bob Borkowski tied on Grady Hatton's single

right.

Players Receive Awards At Annual Hockey Feast

Jack Mayes, flashy freshman center from London, Ontario, was named "Most valuable hockey player" last night to highlight the annual hockey banquet in the Union.

The award was made by this year's Co-Capt. Bill McCormick.

Co-Capt. Connie Buck introduced next year's co-captains, Dick Lord and Dick Northey. Both players were mainstays on defense for the Spartans, this season.

Two other awards were given for outstanding performances. McCormick received an award for the "best all-around spirit and

play" while Big Jack Thomas captured the "most improved player" honor.

Bob Shackleton, WKAR sports director; Charles Larsen, State Journal reporter, and Ralph Young, MSC athletic director, were guest speakers.

Manager Applicants

All men interested in applying for baseball manager should report today to Room 215, Jensen Fieldhouse at 4:15.

Quayle Hot in Southland; Leads Staff in Wins and ERA

Warriors Look Oppressive in First Tests

By JACK KOLE

Amplifying a phenomenal run average of 0.99, pitcher Don Quayle led the staff in wins and ERA. Quayle, who has won three games and no losses on the Southland trip, pitched 27 1/3 innings, allowing only three earned runs in 10 hits.

Quayle took the trophy for best pitcher in the North Carolina tour as he won one game and saved another for the Spartans. Quayle's record was a nifty three-batter shutout in the first game against North Carolina in the tournament opener, which State won 6-0. He also beat North Carolina 6-3 and aided his own team to a 6-1 victory with a hit and a home run.

Bob Pangl, although he made two decisions, added two wins to the Spartans' eight. He compiled a 1.17 earned run average. He also led the squad in strikeouts with 21. Pangl's loss against Georgia was a tough one for him. He came back to defeat Georgia 1-0 on two hits.

Howard had two wins for the Spartans while losing one. However, his earned average of 1.95 was the highest on the team. Howard set down North Carolina State, and won 6-3 in the North Carolina tournament.

Quayle also had a 2-0 slate and set with an earned run average of 0.99. Pitchers with 0-1 records were Bud Erickson, who won against North Carolina State, and Steve Fink, who was defeated by South Carolina.

Eight Spartan wins were won by veteran pitchers. Don Pangl, Howard, and Don Quayle. The pitching staff had a combined run average.

The Spartans played outside for the first time since last year. A team intramural game took the spotlight. Coach John Kobs searched for extra hitting power to enter the light stickwork on four.

As received some good news in Guelph, slugging first baseman, Tom Lawson, and catcher, Chuck Kobs, returned the squad. These players made the team of scholastic difficulties.

On April 19th contest against Kobs, rapidly dry weather is hoping for dry weather to promote effective practice. Such former stars as George Brown, Frank Radon, Marty Brown and Vince Magi will compete for the alumni team.

New Basketball League To Include Notre Dame

CHICAGO (AP)—Representatives of seven Midwestern colleges yesterday accepted a general plan for a new basketball conference.

The plan approved recommendations of a three-man committee which drafted a constitution and eligibility rules for the league which would include Notre Dame, Marquette, Loyola, DePaul, Bradley, Louisville and Butler.

An eighth prospective member, St. Louis University, was not represented, but will receive future consideration.

The proposed circuit must be approved by the various trustee boards of the schools involved. It is expected competition will begin with next winter's basketball season.

Montreal Still Talking About Richard's Goal

MONTREAL (AP)—Hockey-mad Montreal became a little more coherent yesterday on the eve of the Stanley Cup finals.

But the talk went on and on about Maurice (Rocket) Richard's spectacular goal. Even the arrival of the powerful Detroit Red Wings for the final against Montreal Canadiens couldn't stop the babble.

The series with the Wings is something to worry about later. There were all sorts of versions about the Rocket's dazzling effort that stopped Boston Bruins. The goal, late in the third period Tuesday night, broke a 1-1 deadlock. An open net goal later by Billy Reay made the count 3-1 in the deciding game of the best-of-seven semi-final.

The re-telling of the Rocket's almost superhuman effort grew a bit hysterical at times—whether it was related in offices, on street corners or in street cars. But there was no discussion from the opinion that the goal was one of the most sensational ever scored in Stanley Cup play.

Richard, with a six-stitch cut over his left eye from an injury earlier in the game, rested at home most of yesterday.

The Detroit-Canadiens best of seven series opens tonight. Inquiries brought only the reply: "He must be all right or we would have heard from him."

The plans of Canadian coach Dick Irvin for tonight's game are not yet known.

Coach Tommy Ivan brought his Red Wings into Montreal early last night. His present worry is the foot injury that is expected to keep defenseman Leo Reise out of the start of the series.

On the season's performance, the Red Wings will be favorites.

Elliott Bolsters Giants; May Mean Other Deals

NEW YORK (AP)—The Bob Elliott deal that revived sagging New York Giants hopes may inspire a series of swaps in the early weeks of the baseball season.

Elliott's home run bat, subbing for the injured Monte Irvin, restored a better balance of power between the Giants and the Brooklyn Dodgers.

Brooklyn's involved negotiations for Cincinnati's Earl Blackwell probably will be resumed. Manager Chuck Dressen hopes another experienced starter would clinch the pennant for the Dodgers.

The Brooks also are interested in Boston's Vern Riffe, but so far have not offered to give up front line players. Both the Reds and Braves need infield strength and Cincinnati would also insist on a regular outfielder like Carl Furillo, Duke Snider or Andy Pafko.

Cleveland also had an eye on Elliott as a righthanded pinch hitter. Now they will look elsewhere to strengthen their bench for the pennant race.

Detroit's shortstop problem still is desperate, and first base is a day-by-day proposition. Chances are the Chicago White Sox and Tigers eventually will get together. The White Sox want a righthanded hitting outfielder like Johnny Groth and the Tigers need infield help.

New York Yankee scouts trailed Washington all over Florida watching center fielder Irv Noren.

BOB ELLIOTT

better line on his rookies under big league fire.

With Curt Simmons back from the Army, the pitcher-rich Phillies are in a position to help themselves. A swap with Brooklyn or St. Louis for an outfielder is always a possibility.

'Mural Sidelights

ENTRIES for intramural softball must be in by April 11, according to Wayne Tinkle, intramural director. Play will begin as soon as the weather permits.

THE Weight Lifting Club will hold a club meeting and exhibition tonight in the weight lifting room in the basement of Jensen gym. Spectators are welcome to attend the exhibit, which begins at 7 p.m. and features state champions, Nick Gavrilis and Dave Austin.

SOFTBALL officials are asked to report to Jensen gym, room 209, at 5:15 p.m. on Friday, April 11, for a meeting.

ANY men interested in playing soccer are invited to attend a meeting this afternoon in Jensen gym, room 209, at 5:15.

THERE are still some openings for some faculty softball and horseshoe players. Anyone interested should call Ext. 697, and leave his name and the sport he intends to play.

No Action for Golfers

Poor weather, which has hampered any outdoor practice, has golf coach Ben VanAlstyne wondering what kind of a squad he will have this season.

The Spartans' first match is scheduled at home against Western Michigan Saturday, April 19. That leaves VanAlstyne only seven days of practice to pick his opening lineup from the 22 candidates out for the team.

Since the Spartans have also been hampered with poor weather both coaches have agreed to play nine men in the match, instead of the usual six.

"We are definitely a question mark team at this stage," VanAlstyne said. "It will probably take five or six matches before I'll have the lineup that will start in the Big Ten match."

The Spartans have 10 matches scheduled this year before they play in the Western Conference meet May 30-31. Last season the golf team won 10 and lost three in regular season play. They finished sixth in the Big Ten.

VanAlstyne has only two returning lettermen this season, Captain Jack Zinn and Carl Mosack. Three other lettermen are ineligible for competition this season because of scholastic difficulties.

Faculty Members To Take Part in Academy of Arts

More than 50 members of the Michigan State College faculty will take prominent part in the annual meeting of the Michigan Academy of Science, Arts and Letters at the University of Michigan, April 11-13.

Among the officers for the 1952 meetings are Dr. Charles N. McCarty, associate professor of chemistry, coordinator for the Junior Academy; Dr. W. B. Drew, head of the Department of Botany and Plant Pathology, chairman of the botany section; Dr. B. P. Miller, associate professor of English, chairman of the folklore section; and L. E. Bell, assistant professor of forestry, chairman of the forestry section.

Members of the MSC staff serving on special committees are Dr. C. J. Alexandropoulos, E. C. Prescott, Dr. P. A. Herbert, Dr. S. G. Bergquist, Dr. H. B. Hunt, and Dr. G. W. Prescott.

Some 40 other members of the Michigan State staff will deliver papers before the various sections of the academy.

GI Bill Allows Veterans to Take Vacation

Students attending school under the GI Bill may take the summer vacation, according to information received by Donald Heald, Veterans' Administration office.

The student will not lose out under the VA's post-graduation date regulations by doing so. Regulations require students to remain in continuous training except for interruptions which apply to all students, such as vacation periods.

Since July 25, 1951, students under the GI Bill may not drop out of school and then re-enter, except for vacations, Heald said.
