FIVE CENTS

Shaw Praised By Associates

Officials Laud Influence Of Former MSC President

"One of the most influential men in the college's history... a great administrator... a man with a kind heart and subtle sense of humor."

These were some of the sentiments expressed by Michigan State College administration officials and employees Monday as they prepared to attend the funeral of Dr. Robert S. Shaw, president emeritus of Michigan State College, today.

Rites are scheduled for 10 a.m. in the East Leadership Colonial Chapel, Lansing. Shaw died Sunday night of a cerebral hemorrhage after being stricken in the afternoon.

FBI to Enter Anti-Nixon Forgery Row

"Oil Interests," Say Forged Documents

WASHINGTON (AP)—The state elections subcommittee said Monday, forged documents were apparently used by Vice-President Nixon in his 1952 election campaign and the FBI has been asked to step in with a view to criminal prosecution.

The documents the subcommittee labeled spurious allegedly Nixon got \$50,000 from oil interests during last fall's campaign. Chairman Barrett (D-Wyo.) decided to name individuals mentioned in the documents involved in the case. But he left a reporter.

"I think we will be able to pin it on one individual, and in reasonably short time. We think we know who is responsible."

He added "that possibly prosecution for perjury will result."

The Justice Department said the whole matter is under study. It included, he said.

A fake photograph of an alleged communication from son of a well-known West Coast oil company to another oil executive telling about a supposed \$50,000 donation to Nixon was shown.

An "alleged original communication whereby the spurious photostat was allegedly submitted to a New York publications consultant."

The consultant, Barrett said in statement, turned over copies of the material to the New York Post a few days before the election, but the Post investigated and failed to publish it.

Balkan Break Seen in Ousting Of Diplomats

ELGRADE, Yugoslavia (UPI)—Yugoslavia and Bulgaria came close to a clean break in diplomatic relations Monday.

This government gave three Soviet embassy officials—the ambassador, military attaché and air secretary—five days to get out of the country.

Yugoslavia acted in retaliation against what it termed "insulting discrimination" against this former diplomatic mission in Belgrade.

The action leaves only a single Soviet attaché here and represents a new low point in relations between Yugoslavia and its Russian Cominform neighbor.

Last June, Yugoslavia recalled all but a single attaché from its embassy.

Hilo Honey Hulas Here Happily

Mention the word Hawaii and the first thought that pops into the head of a normal, red-blooded American boy is the Sun.

Here on campus there is an expert at this fascinating art—Miss Eleanor Muraki of Hilo the Hawaiian Islands has been dancing since she was five years old.

Her skill can be measured by the great demand shown for her talents. So far she has danced for the International Affairs League, "Tropic" Ball,

Dulles, Churchill Confer

John Foster Dulles (left), U.S. Secretary of State, says good-bye to Prime Minister Winston Churchill of Great Britain as he leaves the Prime Minister's house in London, following policy talks. Dulles returned to the U.S. Monday and is scheduled to confer with the Senate Foreign Relations subcommittee today.

Administration officials who worked with Dr. Shaw during his 12-year tenure as MSC president all termed his contributions to the college of paramount significance.

The 81-year-old educational pioneer served as president from 1928 through 1945 and is credited with much of the expansion that brought the college out of the "minor league" ranks. A long-time of plant life, he was Dean of the School of Agriculture before becoming president. At the time of his death he was planning tree.

Dr. John A. Hannah, son-in-law of the former MSC president said Monday that he had intended to return to Washington Wednesday morning. Dr. Hannah, who received Senate confirmation of his appointment as Assistant Secretary of Defense Friday, had originally planned to leave last Friday following a weekend visit.

"The new developments that have arisen with the death of Dr. Shaw may force me to return to the campus this week end," Dr. Hannah said. "In any event, I'll be back in time for the state Board of Agriculture meeting on Feb. 19."

He will preside today over a meeting of the Council of State College Presidents, of which he is chairman. The council is composed of representatives from nine state-supported colleges and universities.

Plans for Shaw's funeral have been made by associates impressed by his administrative ability and his likable personality.

Tom King, Dean of Students, said:

"It's very seldom that men like Dr. Shaw come along. He was one of the great influences on progressive education in colleges and universities. Dr. Shaw had the knack of hiring a good man and then letting that employee go ahead and do his job. I've known him ever since I came here in 1933."

Dean-emeritus Lloyd C. Emerson, who knew Shaw for 44 years, commented:

He was one of the most influential men in the college's history. I've known him ever since my arrival at MSC in 1909. Dr. Shaw started here four years ahead of me. He was the kind of man who could always be called on in a crucial situation.

Karl H. McDonel, secretary of the State Board of Agriculture, recalled Dr. Shaw's friendliness. He said:

"Besides being a great administrator, he was in his earlier days not above skating with the students on the Red Cedar. It made him a popular figure throughout the entire campus."

Miss Ruth Jameson, secretary to President Hannah who worked with Dr. Shaw for 10 years, said:

BULLETIN

Salem, Ore. (UPI)—A riot erupted in the segregation section of the Oregon State Prison Monday night and five guards were held by rebellious convicts as hostages. Reports from the prison indicated the riot was confined to the segregation and isolation section of the prison and that some 22 convicts were involved.

The Hawkeyes have now lost only 13 games in ten years on the Iowa City campus.

Leading State won her second game Saturday, 17-13, over the Spartans in front of the Gophers once again in their hectic battle over third and fourth spots in the conference.

As Pete Newell's Aggers evened their current road trip record at one victory and one loss, they also became the first Spartan basketball team to defeat Iowa on the Hawkeyes' coast. Previous to this win, the Hawks had defeated State on four occasions.

The Spartans have now lost only 13 games in ten years on the Iowa City campus.

Leading State senior was Al Ferraro, who notched 17 points on five field goals and seven free throws. In addition, the Aggers won the honors.

Entering the contest, Davis had a conference average of 17.6 per game.

The Spartans held the lead from the last minute of the first quarter throughout the tussle, although the Hawks stayed close until after three minutes had elapsed in the final frame.

At that point Ferraro and Bob Armstrong sunk fielders to give the visitors a commanding 42-41 margin, which held until the final whistle.

Democrat members said the subject came up when Bradley told the Senate Armed Services Committee he believes ships bound for Communist China could be stopped and forced to unload contraband material without touching off a war.

Committee members said the subject came up when Bradley was asked what might happen if a Finnish ship now en route to China with fuel from Romania was boarded.

The Hawkeyes have now lost only 13 games in ten years on the Iowa City campus.

Leading State senior was Al Ferraro, who notched 17 points on five field goals and seven free throws. In addition, the Aggers won the honors.

Entering the contest, Davis had a conference average of 17.6 per game.

Student Government Column

Government Explains Aims

The following is an independent column written by members of the Student Government and in no way reflects the attitudes or policies of the State News.—The Editor)

By BOB BOLO
Student Government President

Hello. Welcome to the new Student Government Column. This is the result of many years' work on the part of several student governments in the past. It has always been our hope that someday we could communicate directly to the people that we represent.

We realize that it is very hard to reach a majority of the student body and also that the State News is the only media on our campus that should carry a column written by the Student Government about all the Student Government activities. The all-college Student Government needs an established news agency to print our side of the picture and further needs a two-way channel of communication or flow of information and opinion instead of the present one-way system to more successfully do the job we were elected to do.

Now that an agreement has been made which gives us the privilege to present our side of the picture regularly to our constituents, it will be you who are benefited. You shall be benefited by knowing what and how your representative government is doing. This column will:

- Give the details of Student Government activities to the students in a non-partisan way.
- More fully discuss the current problems of the government and the possible solution of those problems.
- Give a list of functions and responsibilities of the government.
- Allow the publication of our edited minutes and possibly a resolution or ordinance of vital concern to all.
- Give the pros and cons of all government issues.
- Give out material to the readers which we hope would draw out student opinion in the form of letters to the editor of this newspaper and conversation with your congressman.
- Give the students an opportunity to read a discussion of government policies.
- Give a record of vital committee hearings and results.

In the final analysis this new column will allow you to be able to actually see how each of your congressmen is representing your wishes. After all, you elected him to express your opinion and carry out the student constitution and laws. You should know whether he's doing his assigned job. Don't mistake me though. I don't believe that every whim and caprice of every student or any student organization should be made into law.

These congressmen must resist many pressure groups which try to push and influence legislation just as our nation's congressmen must resist pressures also. The first requirement is that they do what is best for everyone... that's why you elected them... to do the best job possible.

Student apathy does exist and my hope is that these regular articles will approach a solution to this problem. To evoke comment is to evoke criticism, which, if it is constructive, should result in better things for better college life by your all-college student government. Please pardon the plagiarism.

There is a poem which expresses my viewpoint of student participation exactly. The author is anonymous, but it applies to you as members of our student body organization. It goes like this:

DO YOU JUST BELONG?

Are you an active member, the kind that would be missed?

Or are you just contented that your name is on the list?

Do you attend the meetings and mingle with the crowd?

Or do you stay at home and crab both long and loud?

Do you take an active part to help the group along?

Or are you satisfied to be the kind to "just belong"?

Do you ever visit a member who is sick?

Or leave the work for just a few and talk about the clique?

There is quite a program scheduled that means success, if none else.

And it can be accomplished with the help of every one.

So attend the meetings regularly and help with hand and heart.

Don't be just a member, but take an active part.

Think this over, member, are we right or are we wrong?

Are you an active member? Oh DO YOU BE LONG?

Michigan State News

Published on class days Monday through Friday, inclusive during fall, winter and spring terms except on after holidays, weekly during summer term. Second-class postage paid in Michigan, issue between summer and fall terms. Entered as second class matter under act of March 3, 1879 at the post office, East Lansing, Mich.

Offices located on third floor of the Union Building. Telephone-Oakwood 4-1311; editorial office extending 200 and 202; business office extension 200.

Member of CGW Indiana Daily Press and the Associated College Press. Mail subscriptions payable in advance, for one term, \$2; for two terms, \$3.50; for three terms, \$4.50.

Academic Freedom Defined; Concept Strongly Reaffirmed

(ED: In a period when the term "academic freedom" is often used in controversies involving structures, their beliefs and methods of teaching—it is of utmost importance that the term be clearly defined. The definition given here is a statement issued last year by the faculty of Oberlin College, Oberlin, Ohio.)

Their arguments should not be met by coercion or by dismisal of the scholar from the academic community, but by superior evidence and cogent reasoning on the part of those who hold contrary views.

This does not mean that academic freedom, is license, or that the teacher is without responsibilities. His freedom is bounded by the recognized standards of his profession.

He is not free to distort, to insist upon the acceptance of his beliefs as absolute truth, to refuse criticism of his own beliefs, to disparage the reason and conscience of his fellow scholars. True scholarship demands complete integrity.

Free and responsive inquiry is essential of scholarship, as we have understood it, is to continue. The hope of progress and security for any society lies in encouraging diversity of opinion and the free examination of ideas rather than blind conformity or suppression. A college or university, above all, must be a place in which the validity of ideas, new and old, are examined critically. The gains from this careful evaluation of ideas are to the whole society.

Academic freedom, like freedom itself, must be continually reassured. The present attacks on academic freedom are not without precedent. Nevertheless they must not be underestimated. They have drawn strength from the anti-intellectualism of our time and from the emotional tensions rising out of political controversy. A defense of academic freedom now is a defense of the dignity of the human mind and spirit. To affirm the ideals of academic freedom is to affirm the fundamentals of the democratic process itself.

The Oberlin college faculty regards all forms of interference with intellectual freedom, discriminatory loyalty oaths, censorship and other restrictions as violations of academic freedom. Their right to teach these conclusions should not be questioned.

And when their experiments and scholarly studies lead to conclusions which are contrary to accepted beliefs, their right to hold and to teach these conclusions should not be questioned.

The Oberlin college faculty regards all forms of interference with intellectual freedom, discriminatory loyalty oaths, censorship and other restrictions as violations of academic freedom. Their right to teach these conclusions should not be questioned.

Reds Seek Unrest in Colonies

By RICHARD O'REGAN
OF THE AP'S Vienna Bureau

Western diplomats in Vienna report growing evidence that Moscow apparently has made revolution in colonial countries a leading objective for 1953.

In Africa and the Far East, colonial Communists have been pressing for "independence" from the West and closer ties with Moscow ever since the war. The diplomats say they believe Moscow has now sent out orders for speeding up Communist-led colonial unrest because:

1. It received special attention from a recent meeting of the Communist-run World Peace Congress in Vienna.

2. Publication of the Cominform have been devoting an unusual number of columns to what is described as the "growing upsurge of national-liberation movements in colonial and dependent countries."

In the weeks following the Congress, Cominform publications have been demanding that colonial Communists make a greater effort to win independence. This evidently means that Moscow feels its greatest hope today lies in the colonies for making inroads in Western defense and unity.

A recent issue of the Cominform Journal devoted a front-page editorial to the subject in columns usually regarded as carrying indirect instructions to Communists around the world.

This editorial declared: "The national liberation movement of the peoples of Malaya, Burma, the Philippines, Indonesia and Latin America is gaining momentum. The peoples of Morocco, Tunisia, Algeria, the Union of South Africa, Kenya and other African countries are rising in struggle for freedom. The countries of Iran, Iraq, Egypt and other countries in the Near and Middle East have moved into action."

The editorial also devoted special space to India, Indonesia and Viet Nam and made it clear that, together with the colonial countries, these were the main objectives of Communist imperialism.

The editorial cited Lenin as saying: "In the last analysis, the outcome of the struggle with capitalism will be determined by the fact that Russia, India, China, etc., account for the overwhelming majority of the population of the globe."

The editorial cited Lenin as saying: "In the last analysis, the outcome of the struggle with capitalism will be determined by the fact that Russia, India, China, etc., account for the overwhelming majority of the population of the globe."

Champions Enter Michigan State Relays

20 Athletes to Run On Saturday's Slate

A stellar field, perhaps without parallel in the history of college, is entered for competition in the 31st annual Michigan State Relays, Saturday, in State's Jenison Fieldhouse.

The lists are eight individual event champions from previous relays, four of the running relay teams with only one change in personnel, nine leading top individual champions, several reigning NCAA and AAU stars and even two veterans of 1952 United States Olympic trials.

Students can exchange coupons from their winter term activity books at the Jenison Ticket Office for tickets to the evenings' program.

The afternoon program will start at 1:45 and the evening final at 7.

There is no official team title at stake in the Relays.

Individual stars include such luminaries as Thelma Baker, Kansas State's great sprinter who was second in the Olympic 200-meter dash last year; Arnold Johnson, Brack's Olympic high jumper, and three current "Big Ten" champions: John Ross, Michigan mile run; Stacey Sanders, Illinois; Art Kurtz, Northwestern; Brian Murphy, Jerry Whisman, Ohio State pole vault; Curtis McSweeney, Illinois; Joel Mitchell, Illinois, high hurdles; Willie Williams, Illinois; John Wilson, Michigan, shot put; and Ron Mitchell, Illinois, high jump.

State Teams Face Heavy Home Card

Michigan State will have its heaviest home sports schedule in three weeks this weekend with nine events—state, Jenison Fieldhouse, and Gymnasium.

Friday, Spartan fans will have a unique double header to watch in Jenison Fieldhouse. First, the wrestlers will meet Illinois grapplers and following that the Illinois gymnastic team, defending Big Ten champs will take on the Spartan gymnasts.

The fencing team will entertain Notre Dame this evening, and then travel to Columbus Saturday night for a three-way dual meet with Ohio State and Indiana.

The 31st annual Michigan State Relays will highlight Saturday's schedule along with a swimming meet that pits the Spartans against a powerful Michigan team.

Coach Charles McCafferty's surprisingly strong swimmers will seek their second major upset of the season when they meet the Wolverines. The Spartans snapped a 92-62 Illinois lead with a 25-meet last weekend.

Spartan guard John Correll, high for the night with 19 points, but that was the only advantage gained by the Wolverines as the balanced Illini ran the highest total against a team on its own floor. Defeating Buckeyes of Floyd, Illinois, moved into fifth place on strength of a 81-71 triumph over Minnesota, minus star Chuck Menczel, who was ruled because of a sprained knee.

DeGmers' Ed Kalafat meshed 2 markers while the Bucks' driving center Paul Ebert had 12.

Hockey Summarie

Saturday's Game
Michigan Tech 5, MSC 7

First period — Scoring: Michigan Tech, Fred Mantola (from Settimio) 1; Michigan Tech, Ron Settimio (to Bob Bastian) 1; MSC, Michael Raskin 1; Michigan Tech, Paul Neffell 1; Michigan Tech, Bob Monahan 2; Michigan State, Weldon Olson, Henry Campagni, Gordon King 1.

Second period — Scoring: Michigan Tech, John Hayes (Richard Northey) 1; Michigan Tech, Paul Neffell (to Jim DeMars) 1; Michigan Tech, Dick Lord (King) 1; Michigan Tech, Paul Neffell (to Jim DeMars) 1; Michigan Tech, Paul Neffell, Michigan State, Weldon Olson, Campagni 1.

Third period — Scoring: Michigan Tech, John Hayes (Richard Northey) 1; Michigan Tech, Dick Lord (King) 1; Michigan Tech, Paul Neffell (to Jim DeMars) 1; Michigan Tech, Paul Neffell, Michigan State, Weldon Olson, Campagni 1.

IM Schedule

Tuesday, Feb. 10

Court 1
1:15 Poetry & Prose

1:15 Hot Shots, Fan Association
2:25 Color, 6-1-Gymnastics
3:30 Studios—Bad News, Quiznet
4:30 Varieties—VMA

6:15 Hawaii—C. Lane, All stars

Ice Sextet

To Meet 'M' Wednesday

By JACK ROLL

Still picking up the pieces of a rough weekend series with Michigan Tech, Coach Bessinger's men have little time to lick their wounds.

State can't repeat the University of Michigan as the regular season's top team. The Spartans will travel to Arizona Wednesday night to renew acquaintances with the Big Ten.

Bessinger's charges will be out to break Michigan master over Spartan ice squad which has allowed only one State win in history and has beaten MSC six times in the last two years.

The Spartans, who lost the final game to Tech, 5-2, gave the Huskies their first league win since it was former staff member, member of the cellar along with the Engineers. State's 19-10 record against Michigan would have been topped seven times.

As for the Wolves, they already hold two decisions over State marking the Spartans 6-9. Jim Hall and blistering them 16-2 at Ann Arbor.

Friday, Spartan fans will have a unique double header to watch in Jenison Fieldhouse. First, the wrestlers will meet Illinois grapplers and following that the Illinois gymnastic team, defending Big Ten champs will take on the Spartan gymnasts.

White Sox Obtain Stephens

CHICAGO (UPI)—After putting a sleuth on the trail of Vern Stephens for a month to determine if his injured knee had mended, General Manager Frank Lane of the Chicago White Sox Monday traded the Boston Red Sox out of the power-hitter for three pitchers.

Stephens, 30, had been held out of the White Sox' rotation because of a bad knee.

He

Typical of the MSC Trailer Village is this row of houses. Established in 1945 to handle housing for married veterans and their families, the village has 349 living units and combines the advantages of community life with many of its drawbacks.

Memories Linger

Fade-out Predicted For Trailer Village

Within a few years Trailer Village, which has been a unique feature of MSC since 1945, will be gone—but not forgotten by any of the student families who have lived there.

Among the tender memories which the TV alumni will carry with them are the roads—“which shouldn’t happen to a dog-cart,” as one Villager put it; the battleship-gray paint, 349 trailers worth the community wash-room scene of many “armchair” discussions of politics, sports, and cures for measles; and the general air of co-operation and community life which gives the Village more of the atmosphere of a Scout camp than a college housing area.

Trailer Village was first established to handle the heavy veteran enrollment as G.I.’s returned to take advantage of the veterans education bill. The barracks apartments were unable to accommodate the large numbers of vets and their families, so the trailers were set up as a stop-gap measure.

With veteran graduation, it was found that many married students—non-vets—had taken advantage of the low-rent housing and the village was continued. Now, with the slight but steady drop in enrollment sections are being closed by the college as students graduate or move into barracks apartments.

The Village is divided into sections, each bearing a letter. Within the sections the trailers are numbered. Each section elects a representative to the Trailer Village Council, a group set up to handle problems common to the whole village, within the section, the residents make the rules necessary for their individual problems—all on a simple democratic basis.

The Villagers and barracks residents set up the Red Cedar Co-op grocery as their answer to the high cost of eating. Memberships purchased in the co-op and members receive regular dividends made possible through

'The East Wind' East Shaw Boasts Only Dorm Paper

East Shaw is the only men's dormitory that can boast of having its own newspaper this term. All the men's dorms published a newspaper in the past, with the exception of Amor, but most have discontinued circulation.

"Philip's Funnell" was published last fall term, but only put out two issues. West Shaw's newspaper stopped publication in the middle of last term but will probably start circulation again next term, and Snyder stopped publication last year. East Shaw's "Eastwind," however, is still being published.

The "Eastwind" covers such information as precinct and other elections, East Shaw Council meetings, and various happenings within the dorm.

Award Winners Publish Reports

Appearing in the summer and fall issues of the American Council of Learned Societies Newsletter were three articles by MSC Basic College instructors.

Professors Russell Kirk and Stanley Izdeka of the History of Civilization Department and Prof. Richard Dorson of the History Department wrote reports of studies under a graduate fellowship awarded by the society.

Shaw

(Continued from Page 1) for three years with Dr. Shaw, added another personal touch.

"He was a fine man to work for. Dr. Shaw was a man with a kind heart and a subtle sense of humor. He was very considerate."

Some tree ferns can grow as tall as 80 feet.

The inconveniences of Trailer Village life—the lack of running water in the trailers, the cramped quarters, the rough-dressed roads—are balanced against the good features. The low rent which covers all utilities, has made it possible for countless students to attend college who otherwise couldn't have afforded the expense. The Village community atmosphere is lively and friendly, with co-operation particularly stressed.

The ex-Villager attitude was expressed well by one Village wife, a member of the "Old Guard," the original veteran residents at a going-away party given for the family by one Village section.

"I hope I never live in a trailer village again," said the departing Villager, but she was awfully glad to do once.

It is impossible to draw a triangle in which the three sides are equal in length which does not have angles which also are equal to each other.

I hope I never live in a trailer village again, said the departing Villager, but she was awfully glad to do once.
