## Senate Republicans to Give McCarthy Boost in Power

WASHINGTON (AP) — Senate Republicans agreed Tuesday to give McCarthy (R-Wis.) on the Rules Committee a boost in power by supporting his efforts to pass legislation to increase the number of members of the committee.

The Rules Committee also considers disputed Senate rulings and any changes of a senator's right to sit in Congress.

McCarthy's Tuesday action does not mean he will be able to get his way on the matter. The Rules Committee assignment to McCarthy is in addition to the one he has on the Appropriations and Government Operations committees.

Asks \$2,250,000

## Williams After Funds for MSC

By STAN STEINBORN  
State News Capital Reporter

Governor Williams will ask the legislature for \$2,250,000 to be spent on buildings for Michigan State.

This was announced at the Governor's afternoon press conference Tuesday. The entire Capital Outlay Budget request runs over \$13 million with \$8.3 million going to education.

Included in the request is the second million dollar installment for MSC's new library and \$750,000 for an animal industries building.

The University of Michigan will receive \$2.5 million for new construction in the fall.

Education took the biggest slice of the Governor's request with the Corrections field second.

The Governor will make his annual address to the Legislature today at 11 a.m. He will speak to them in a joint session to be held in the House chamber.

Following the speech the House will convene in what are expected to be short initial sessions.

This will be the start of the 1954 session which under present plans will end—except for sine die adjournment—April 9.

## Icy Cold, Snow Hit Northeast

At Least 72 Die  
As Storm Rages

NEW YORK (AP)—The Northeast's worst snowstorm in five years swirled out to sea Tuesday, leaving the great coastal cities gasping in a deep freeze. Zero or below was the prospect.

At least 72 persons died from New England to Washington, D. C., during the storm—most of them of heart attacks. Auto accidents, shelling mishaps and a freak sea tragedy claimed others.

The storm which struck Sunday moved on early Tuesday after dumping 16 to 18 inches of snow. High winds whipped it into stinging drifts.

New York, Philadelphia and Boston suffered the most as transportation, business and traffic reeled beneath the buffeting.

New York was digging itself out from under 10 inches of snow. Its municipal transportation back to near normal but private automobiles by the thousands were marooned in snowbanks along curbsides.

The forecast for the Northeast was for readings of five degrees above to several degrees below zero within 24 hours.

Update New York and northern New England already were gripped in below zero weather.

The most severe cold of the season numbed the upper Mississippi Valley. Plum Creek, a forest ranger station near International Falls, Minn., had a low of -43 degrees and International Falls recorded an official minimum of -39. Bemidji and Brainerd, Minn., had lows of -36.

Water Show Chairmen  
Slate Meeting Tonight

Water Show chairmen will meet tonight at 7 p.m. in the Union Board Room to decide a date for an open smoker to recruit workers for the annual show.

Get Your Tickets...

John Smith, Pittsburgh, Pa. Junior, and Ben Hirsch, Crown Pointe Junior, wait their turn to get tickets for the Jacoba Hoffer concert Jan. 29. Activity book coupons may still be exchanged for tickets at the Union Desk.

## U.S., Reds May Try New Korea Talks

United Nations Group Accepts  
Communist Revival Suggestion

SEOUL, Wednesday (AP)—U. S. and Communist aides Thursday will attempt to revive the preliminary Korean peace talks, which blew up in an explosion of angry words a month ago.

The U. N. Command agreed Tuesday to a Communist suggestion that liaison secretaries meet at Panmunjom.

But the Reds said nothing about taking back a charge of "perfidy" leveled at the United States.

The U. N. representative was instructed to take up the "perfidy" matter, but there were indications the U. S. attitude had softened and a compromise was possible.

When the U. S. envoy, Arthur Dean, walked out on the talks Dec. 12 he said he would not return until the charge was withdrawn.

The liaison officers' task is to try to work out conditions and a date for resuming the preliminary talks, which are designed to arrange a time and place for a Korean peace conference.

In Washington, press officer Henry Duvall of the State Department declined to comment when asked if among the U. S. conditions would be a retraction of the perfidy charge.

While the liaison officers assemble, the Neutral Nations Repatriation Commission will be meeting to argue a new and possibly decisive Indian plan for disposing of the explosive prisoner problem.

The commission voted down Sweden's proposal that the 21,000 prisoners who have refused to go home be released Jan. 23, as the U. N. Command demands.

Only Switzerland sided with Sweden. India and Communist Poland and Czechoslovakia voted no.

Then Lt. Gen. K. S. Thimayya, India's chairman of the commission, brought up a secret plan.

However it probably was the same as, or close to, the Indian plan disclosed Monday by a high, authoritative source.

Under this plan the 22,000 Chinese and North Koreans in the anti-Red camp would be turned back to the U. N. Command.

The 350 in the pro-Red camp, including 21 Americans, would be handed back to the Communists.

The commission would suggest that the prisoners be held until the U. N. and Communist commands agreed on what should be done with them, but there would be nothing to prevent either side from releasing their prisoners.

## Austrians, Germans, Swiss Hit

Communication,  
Travel Halted

VIENNA, Austria (AP)—Hundreds of avalanches plunging down the slopes of the Alps left 198 persons dead or missing and trails of destruction in three nations Tuesday night. Austria bore the brunt of the blows, also felt in Switzerland and West Germany.

Tons upon tons of snow and ice careening from the burdened peaks had wiped out much of the Austrian village of Blons, crushed farm homes elsewhere like matchwood, isolated hundreds of communities, and disrupted road, rail, and telephone communications.

The Austrian list of dead or missing stood at 172.

Many predicted the disaster would be the worst in Austria's history, surpassing a similar catastrophe three years ago which took 124 lives.

Switzerland counted 18 dead, four missing, 12 injured seriously and more than 100 homeless.

German rescue squads, working in the third day of a snowstorm which showed no signs of letting up, found four dead in the path of slides in the Bavarian Alps.

Thousands of foreign tourists are stranded in snowbound Austrian ski resorts.

Some isolated villages are running short on food. Hundreds of farmers are being evacuated from their homes in danger areas.

Thawing weather is predicted in areas of Austria where up to three or four feet of new snow has fallen within 24 hours. This may bring a new tragedy.

The disaster hit the Vorarlberg, Austria's westernmost province, hardest of all. The entire province is cut off from the rest of the country.

It was there that two avalanches hit Blons, 12 miles from the Swiss frontier, with its 385 inhabitants and 117 houses.

More than 30 persons were missing in Blons. Many of those who escaped the avalanches were reported threatened with drowning.

The avalanches blocked the Lutz River and sent floods of icy water over the village.

Police at Bregenz announced plans were being made to blow up a bridge over the Lutz in the hope of diverting the waters from Blons.

An uncounted number of avalanches roared down on the main railway line between Vienna and Switzerland west of the 5,700-foot-high Arlberg Pass, blocking all traffic.

## Union Board Meets Tonight at 8

## Campus Vets Start Action To Get Checks

An estimated 350 MSC veterans haven't received their monthly government allotment checks totaling nearly \$160,000, according to officials of the MSC Veterans' Association.

The \$110 checks were supposed to arrive four times last quarter, veterans say.

Complaints of missing checks have moved the veteran's group to action to discover why.

The organization asks all veterans who haven't received checks since they entered school to report to Organization Room 2 on the third floor Union between 1 and 3 p.m. Wednesday and Thursday to fill out information forms.

At a meeting last night the group elected permanent officers to serve until next school year. Previously the officers were serving on a temporary basis.

Retaining their posts are chairman Bob George, Detroit sophomore; assistant chairman Bob Hess, Detroit sophomore; treasurer Mary McRobbie, Royal Oak freshman; and secretary George Thomas, Detroit sophomore.

Water Show chairmen will meet tonight at 7 p.m. in the Union Board Room to decide a date for an open smoker to recruit workers for the annual show.

## New Dictionary Progresses

## MSC May Have 'Webster of Agriculture'

By GY ZINSER

Dr. John N. Winburne, assistant to the dean of Basic College, is well on his way to developing the Webster of Agriculture.

Already the co-professor of Written and Spoken English has collected 65,000 words from farms and laboratories to go into the world's first big agricultural dictionary.

He got the idea for such a dictionary several years ago when a foreign student asked for one and none was available.

Official sanction was given in February, 1951 and publication was planned in time for MSC's centennial celebration.

Because of his new duties and the growing size of the project,

the completion date has been postponed.

Winburne finds words to define mainly by reading agricultural books and periodicals. But his research also takes him to remote farms.

Most of the words can be defined by context. But Winburne sometimes resorts to dictionaries and encyclopedias or consults members of the various agricultural departments to clarify their meanings.

He has found many terms with agricultural meanings but which are included in Webster. For the single word "check" and its compounds and derivatives he has 65 entries.

Words from backward localities and some from technical

are also included in his list. For example, there's a word known as "hollow bone" or "hollow tail." Why? Because farmers believed the disease could be cured by driving a hole in the tail or horn, filling it with salt and pepper and driving a wooden peg in to close it.

In his quest for words, Dr. Winburne has built up a large reference library. When a new word is found in a book, it is underlined and later typed on a filing card, with the sentence and its location.

No one but Winburne is permitted to handle the word cards, papers and index sheets, but this method has been successful.

Dr. Winburne's dictionary office contains two prized treasures—original signed letters from Noah Webster and George Bernard Shaw.

The letter from Webster is one of the last he ever signed. Shaw's letter was a reply to Dr. Winburne's request for information.

Also in Winburne's office and home are nearly 60 dictionaries. They range from an eight-volume Oxford English Dictionary to a Latin American dictionary, a handbook of Italian and American terms.

Winburne is a part-time instructor in Communication Skills.

There are many more words in Winburne's dictionary—he's going into agriculture.

## NEWS IN BRIEF

### Phone Rate Hearing Continues

LANSING (AP)—Company witnesses gave further testimony before the State Public Service Commission Tuesday in the Michigan Bell Telephone Co. bid for a \$22,000,000 annual rate increase.

### Syndicate News Completion

NEW YORK (AP)—The syndicate being formed to offer \$75,000,000 of Mackinac Bridge Authority 4 per cent revenue bonds, series A, due 1994, is near completion, Union Securities Corp. and its co-managers announced Tuesday.

### Atom Bomb Tester Dies

NEW YORK (AP)—Retired Adm. William M. P. Blandy, whom atom bomb tests against warships revenged the whole Navy, died today in St. Albans Naval Hospital. He was 68.

### Stater Gets Medal of Honor

WASHINGTON (AP)—A Michigan Navy hospital corpsman who was "scarred a bit" Tuesday when President Truman announced on his chest the nation's highest award—the Medal of Honor—William R. Charotte of Ludington, Mich.

## Editorially Canada Joins in the Chase

If the Canadian mounties "always get their man," as the saying goes, they now have a chance to prove it. And, in addition, show that they are more capable of hanging on to fugitives than are Detroit police.

The search for Donald Ritchie, key witness in the 1948 ambush shooting of CIO President Walter Reuther, has spread across the border into Canada. A "legal technicality" has been cleared up, enabling Prosecutor Gerald K. O'Brien to accept the mounties' aid.

Using a \$5,000 reward from Reuther's own union to finance his jaunt across the border, Ritchie may soon be apprehended. But, in the meantime, he can rest satisfied that he has apparently duped both Detroit police and the UAW.

The reward was given him for furnishing information that led to the issuance of warrants for four men allegedly involved in the '48 murder plot that left Reuther's right arm permanently crippled.

After being obligingly set up in a hotel suite by police, the star witness walked away and, before fleeing into Canada, called the press to tell them his story was a hoax. This could have been expected. Canadian police have said that Ritchie in the past made up and reported fictitious stories. It was nothing new.

Many observers feel that the UAW came through with the reward money on the advice of O'Brien, who must have had good reason to make the recommendation. But, in the meantime, things have backfired.

It is among a large collection of red faces that the hunt for Ritchie goes on. Even when he is caught, the strange Reuther case may remain as great an enigma as ever.

## An Era of Progress

In a 48-page "Report of Progress" MSC has again outlined events of the fiscal year for state officials and interested citizens.

Covering the period from July 1, 1952 to June 30, 1953, the booklet was prepared by the Department of Information Services, the university's public relations agency. In pictures and text, it outlines the work of each of the schools, as well as overall campus developments.

In the report is this statement by President Hannah: "... those who serve Michigan State continue to look upon difficulties not as excuses for inaction, but as challenges to accomplishment. . . their interest is not in the past, but in the future. . . this college continues to be dedicated to the one-time radical theory first put into practice here that knowledge should not be worshipped for itself, as a god, but put to work for the benefit of mankind."

Amen.

## Registration Roses

Ever since the Rose Bowl game, we've been tossing bouquets at the MSC students. Today is no exception.

The college administration and student government expected difficulty with a large number of late registrants. Student Congress even set up a special committee to hear cases of students who objected to paying late registration fees.

Registrar Robert S. Linton said that there were not only fewer students than usual coming in late, but they were "most cooperative and in a better frame of mind than is usually the case."

He has not had to refer any students to the Congress committee.

This follows through the attitudes the Spartans have shown since the night the Big 10 announced we were going to Pasadena. Nothing but roses from every group that came in contact with MSC. We showed 'em.

### Letter To The Editor:

## Injustice Of Beard Decree Hit

To the Editor:

Winter term finds most forestry students growing beards in preparation for the annual Shindig. A few, however, are prevented from doing so.

This year (for the first time) a clause was included in dormitory food handlers' contracts forbidding beards, probably on grounds of sanitation.

A beard is no more likely to be dirty than a scalp. People ordinarily wash their face far more frequently than their hair.

This clause, based more on prejudice than on logic, will become just when dieticians begin shaving their heads.

### As We Were Saying...

## Slumber Noise

By TED RAKSTIS  
State News Editorial Assistant

You gotta enter to the agronomic interests these days. Secretary Benson isn't the only one who has found this out. Apparently the chaps who operate New York hostels have discovered that, if a traveling farmer can be expected to stop again, he's got to feel at home.

And no one Manhattan hotel has reported to an effect that will not sound new to anyone who has spent a year or more in New Hall. This particular overnight joint has added a new feature in room service . . . phonograph records of crickets, frogs, cows and sheep.

Granted, it's probably about as artificial as a 3-D movie. But it seems to be paying off in the number of farm folk on the hotel register. The idea has inspired the production of platters sending forth the sound of torrential rain and, for lonesome parents, simulated baby bawling.

But, getting back to the barnyard bustle, we think that the whole thing can be carried a step further. Breathes there a nostril so insensitive as to fail to appreciate a window on the south side of the MSC home for 1500 males?

Under this same principle, those same Shaw residents could probably instruct said hotel on the esthetic values of appealing to the olfactory nerves of the visiting farmers as well as their auditory senses.

Some interesting possibilities could be developed through a judicious use of the hotel ventilating system. This, combined with the already-installed phonographic device, might prove the pinnacle in hominess for rural visitors.

After all, in this era of Cinemascope and stereophonic sound, you must be realistic.

## Canada Joins in the Chase

If the Canadian mounties "always get their man," as the saying goes, they now have a chance to prove it. And, in addition, show that they are more capable of hanging on to fugitives than are Detroit police.

The search for Donaki Ritchie, key witness in the 1948 ambush shooting of CIO President Walter Reuther, has spread across the border into Canada. A "legal technicality" has been cleared up, enabling Prosecutor Gerald K. O'Brien to accept the mounties' aid.

Using a \$5,000 reward from Reuther's own union to finance his jaunt across the border, Ritchie may soon be apprehended. But, in the meantime, he can rest satisfied that he has apparently duped both Detroit police and the UAW.

The reward was given him for furnishing information that led to the issuance of warrants for four men allegedly involved in the '48 murder plot that left Reuther's right arm permanently crippled.

After being obligingly set up in a hotel suite by police, the star witness walked away and, before fleeing into Canada, called the press to tell them his story was a hoax. This could have been expected. Canadian police have said that Ritchie in the past made up and reported fictitious stories. It was nothing new.

Many observers feel that the UAW came through with the reward money on the advice of O'Brien, who must have had good reason to make the recommendation. But, in the meantime, things have backfired.

It is among a large collection of red faces that the hunt for Ritchie goes on. Even when he is caught, the strange Reuther case may remain as great an enigma as ever.

## Editorially

## An Era of Progress

In a 48-page "Report of Progress" MSC has again outlined events of the fiscal year for state officials and interested citizens.

Covering the period from July 1, 1952 to June 30, 1953, the booklet was prepared by the Department of Information Services, the university's public relations agency. In pictures and text, it outlines the work of each of the schools, as well as overall campus developments.

In the report is this statement by President Hannah:

"... those who serve Michigan State continue to look upon difficulties not as excuses for inaction, but as challenges to accomplishment... their interest is not in the past, but in the future... this college continues to be dedicated to the one-time radical theory first put into practice here that knowledge should not be worshipped for itself, as a god, but put to work for the benefit of mankind."

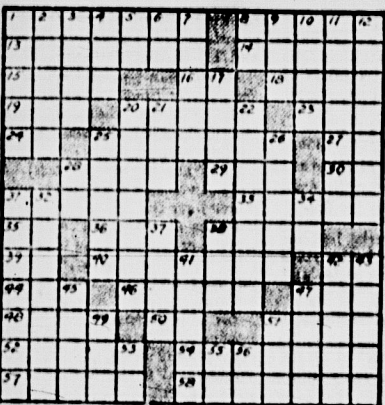

Amen.

## Registration Roses

Ever since the Rose Bowl game, we've been tossing bouquets at the MSC students. Today is no exception.

The college administration and student government expected difficulty with a large number of late registrants. Student Congress even set up a special committee to hear cases of students who objected to paying late registration fees.

Registrar Robert S. Linton said that there were not only fewer students than usual coming in late, but they were "most cooperative and in a better frame of mind than is usually the case."

He has not had to refer any students to the Congress committee.

This follows through the attitudes the Spartans have shown since the night the Big 10 announced we were going to Pasadena. Nothing but roses from every group that came in contact with MSC. We showed 'em.

## Letter To The Editor:

## Injustice Of Beard Decree Hit

To the Editor:

Winter term finds most forestry students growing beards in preparation for the annual Shindig. A few, however, are prevented from doing so.

This year (for the first time) a clause was included in dormitory food handlers' contracts forbidding beards, probably on grounds of sanitation.

A beard is no more likely to be dirty than a scalp. People ordinarily wash their face more frequently than their hair.

This clause, based more on prejudice than on logic, will become just when dictionaries begin shaving their heads.

## As We Were Saying

## Slumber Noise

By TED RAKSTIS

State News Editorial Assistant

You gotta cater to the agronomic interests these days. Secretary Benson isn't the only one who has found this out. Apparently the chaps who operate New York hostleries have discovered that if a traveling farmer can be expected to stop again, he's got to feel at home.

And no one Manhattan hotel has resorted to an effect that will not sound new to anyone who has spent a year or more in Shaw Hall. This particular overnight joint has added a new feature in room service... phonograph records of crickets, frogs, cows and sheep.

Granted, it's probably about as artificial as a 3-D movie. But it seems to be paying off in the number of farm folk on the hotel register. The idea has inspired the production of platters sending forth the sound of torrential rain and, for lonesome parents, simulated baby bawling.

But, getting back to the barnyard bustle, we think that the whole thing can be carried a step further. Breathes there a nostril so insensitive as to fail to appreciate a window on the south side of the MSC home for 1500 males?

Under this same principle, those same Shaw residents could probably instruct said hotel on the esthetic values of appealing to the olfactory nerves of the visiting farmers as well as their auditory senses.

Some interesting possibilities could be developed through a judicious use of the hotel ventilating system. This, combined with the already-installed phonographic device, might prove the pinnacle in hominess for rural visitors.

After all, in this era of Cinemascope and stereophonic sound, you must be realistic.

## Nebraska Under Fire

LINCOLN, Neb. (AP) — University of Nebraska Football Coach Tom Hickey returned home from several weeks of travel Monday to learn that some petitions asking his removal have been in circulation here.

Hickey, who has been under fire by some fans and some players and former football players who say they don't like his coaching methods, declined immediate comment.

He said that due to his absence he was not fully familiar with the whole situation.

The coach, who has two years remaining of his present five-year contract, was in the South as one of the mentors in an all-star game.

## Scribes Institute New Golf Trophy

NEW YORK (AP) — A new golf trophy, to be known as the Ben Hogan Award, will be presented for the first time at the Metropolitan Golf Writers dinner in New York, Jan. 21.

The award will be given to "a person who has overcome a handicap in order to play golf and thus has proved an inspiration to others."

Hogan, recently named athlete of the year for 1953 in The Associated Press poll, recovered from a near-fatal automobile accident in 1949 and made an amazing comeback.

Boxing Coach George Makris (left) with two young boxers, one of whom is Tom Hickey, Kalamazoo Junior (right) while Jack Hickey, Michigan sophomore, looks on. Both Hickeys will participate in the Varsity boxing tournament which will be held the latter part of the week.

## Varsity Ring Tourney Tests Boxing Hopefuls

Brotherly love will be given the proverbial boot when 20 Spartan boxing hopefuls square off to determine varsity berths in the 1954 All-Varsity Boxing Tourney Thursday and Saturday at Jenison.

The first of the admission free contests will be staged at 4 p.m. Thursday in the Boxing Room, pitting lightweight letterwinner Max Jozwiak of Detroit against sophomore Max Coon from Sunfield.

The tourney will reach fuller proportions in Jenison Fieldhouse at 8 p.m. Saturday with a full card of nine bouts in weight classes ranging from bantamweight (119 pounds) to heavyweight (over 175 pounds).

Heading the list of four returning lettermen is junior Tom Hickey of Chicago, 1953 NCAA middleweight champion.

Bill Greenway, Kalamazoo light-heavyweight, who last year displayed a crowd pleasing style, and Herb Odem, welterweight junior from Flint, with his "Sugar" Ray Robinson-type agility, round out the count of returnees.

Hickey, the Spartans' outstanding power-puncher, last year tallied an 8-0 record in dual meet competition before going on to win the nation-wide 165-pound crown in the NCAA tournament at Pocatello, Idaho.

Odem matched Hickey's unbeaten dual meet mark as the Spartans finished the 1953 season with a 5-2-0 record.

Odem continued his winning pace into the NCAA semi-finals to help the Spartans gain a healthy team score and a fourth place tie.

According to boxing coach George Makris, the two-day all-varsity tourney has, in the past, given Spartan fight fans a fair pre-season indication of the strength or weakness of the team by providing the answer to the question of many Spartan fans, "How good is this year's boxing team?"

On Friday, Jan. 22, the Spartans open their dual meet season against a strong Quantico Marine team at Jenison.

Hickey, the Spartans' outstanding power-puncher, last year tallied an 8-0 record in dual meet competition before going on to win the nation-wide 165-pound crown in the NCAA tournament at Pocatello, Idaho.

# Stan Turner Lured Away With Cleveland Bonus

## Pro Teams Criticized by Coach Kobs

MSC Baseball Coach John Kobs calls the major leagues latest raid on college material, to sign Spartan shortstop Stan Turner, "a continuation of what they have been doing for some time and a thing that the collegiate coaches of the country are trying to stop."

Kobs, recently elected President of the American Association of College Baseball Coaches, says that that group has been working for some time through the NCAA to get a working agreement with the pros.

In a story in the Cincinnati Times-Star of Jan. 8 this year, Kobs stated that he believed the major leagues were cutting their own throats by their raids. He said he thinks colleges can give the pros a better player and team representative if left alone.

"And, after all," says Kobs, "College baseball is one phase of the farm system which costs the majors nothing."

Kobs can speak with authority on the subject. Since 1947, 35 Spartans have been signed to professional contracts before they had finished school. Of the 35 only two, Hobey Landrith of the Cincinnati Reds and Robin Roberts, of the Philadelphia Phils, are playing major league ball now.

The Spartan baseball mentor is not entirely against the signing of players. He said in his Cincinnati story, "I don't mind when the kids get an attractive bonus for signing. It's the signing of those for practically nothing that rankles me. Often they are signed by teams just trying to fill the rosters of their minor league teams. When the kids are cut loose they are often disillusioned and usually don't finish the education they gave up for a contract."

These pro raids, Kobs believes, are killing the goose that lays the golden egg. The number of college players making good in the majors attests to the quality of their play among these college bred players are Roberts, and Rookie of the Year Harvey Kuenn, Detroit Tiger shortstop who was lured away from the Wisconsin campus with a \$50,000 bonus.

IPC and Panfil sponsor the annual Greek Feast, for which one fraternity is host.

Further down in the listings, the order again was reshuffled.

As a couple of well regarded teams—Minnesota, for instance—were knocked off and some others earned support as they kept on winning.

Kentucky's Wildcats, who have won nine straight games, were listed first on 25 of the 90 votes cast and polled 734 points on the 10-0-0-etc. scoring system.

In its only game last week, Kentucky racked up Georgia Tech by a 105-33 score.

Duquesne whipped St. Francis, Pa. 94-64 for its 13th straight victory while once-beaten Indiana belted Minnesota a 71-63 decision. The result dropped Minnesota from sixth to 10th in the national rankings.

Chicago (AP) — The American League umpiring staff Tuesday opened a two-day session studying playing rules and regulations at the headquarters of League President Will Harridge.

A group of 14 umpires participated in the "refresher course" for calling plays in the 1954 campaign.

STAN TURNER ... another Harvey Kuenn?

## Hoosiers Third Kentucky Remains Atop Basketball Poll

NEW YORK (AP)—The nation's basketball experts are pretty well agreed on the first five teams in the collegiate rankings—but from there on anything, or anyone, goes.

For the third straight week Kentucky earned the No. 1 slot Monday in the weekly Associated Press basketball ranking poll of sports writers and broadcasters. The next four in line were Duquesne, Indiana, Oklahoma A & M, and Western Kentucky. That's exactly the way they were rated a week ago, and the top three have held their places even longer.

## Shortstop Signs \$4,000 Pro Contract

Stan Turner, Michigan State shortstop, has signed a contract with the Cleveland Indians for a reported \$4,000.

The first round of the club in the Class C League. He will play for the Indians in Daytona Beach, Fla., in March.

Indian Scout N. Ross, of Detroit, who signed Turner, him, "one of the finest I've ever seen."

Baseball Coach John Kobs does not expect the loss of Turner to handicap the team this season. It is expected the open position will be filled by one of three men, Huppert, Detroit senior; Morrill, Muskegon senior; or Johnny Matsack, Jr., junior.

Turner failed to register a school this term and a representative of the Cleveland Indians to be at his home in Flint.

A graduate of Flint High School, Turner was a member of the team the summer before and the Spartans' star shortstop last year in school.

His first year here he was mostly with the junior varsity but gained some experience with the varsity.

He moved to the varsity last year and was named MVP of the 20 of the 28 games he played. He batted .214 in those games and led the Spartans in runs and hits.

## Champs Again?

## Indiana Keeps Pace

The National champion Hoosiers passed the half-way mark in their 1954-55 basketball campaign today with a better record than they had at the same time a year ago.

With 11 regular season games left the Hoosiers' record stands at 19-11, including a 73-67 triumph over Purdue Monday night. Indiana went on to compile a 23-3 mark in 1953, winning the NCAA title in a 69-68 thriller against Kansas.

Key man in the Hoosiers' surge a year ago was big Don Schlundt and the 6'9" blond, still only a junior, is performing even better this time around.

Schlundt had a spectacular first half against over-matched Purdue Monday night. He took eight shots from the field in the first 13 minutes and hit all eight. In between he sandwiched in six free throws without a miss.

Coach Branch McCracken took pity and benched the scoring genius, allowing him to return only briefly in the second half. Schlundt wound up high mar with 30 points.

Individual scoring was generally a little more on the moderate side Monday night than it was during last week. However, Johnny Kerr of Illinois scored 34 as the Illini beat Ohio State 90-76.

JOHN RUBECK  
... Spartan ace and coach ...

## Road Trip to Open Wrestling Campaign

Michigan State's wrestling team takes to the road to open its 1954 season Saturday at the University of Pittsburgh. Second in the Big 10 last year and tied for eighth nationally, this year's team has been hit by ineligibility and a jelling injury.

Coach Fendley Collins says that the hoped for good season has been dimmed considerably by the scholastic difficulties of the Gunner twins, Dick and Bob, juniors from Chicago, and a knee injury to regular Ted Knott, Norfolk, Va. junior.

Wrestling at 123 pounds will be Don Phillips, sophomore from Lansing Eastern. Before entering service he was state high school champion at Eastern.

Another soph from Lansing Eastern, Jim Sinadinos, will go at 130 pounds. He was national AAU champion last year at 135 pounds. Ed Cassinello, Cleveland senior, is the squad's 137 pound regular. Last year he was third in the conference at 150 pounds.

Bill Tambo, North Branch Depot, New Jersey sophomore will hold down the 147 pound class. Bob Hoke, Oklahoma City senior, will defend his conference championship at 157 pounds.

End coach Marty Pierson and assistant freshman coach Ted Youngling of the Duke football staff played under coach Bill Murray at the University of Delaware.

James (Red) Smith, Duke half-back, is a major league baseball prospect. He's a left-handed hitting outfielder.

## Ice Revue Moves In; Pucksters Move Out

The forthcoming ice show may promise good entertainment for the local ice skating fans but it has evicted the Spartan hockey team from its traditional surroundings in the ice arena.

Because of the work now going on in Dem. Hall in expectation of the revue the icers have been forced to suspend their daily practice sessions temporarily.

Coach Alpo Bessone is planning to take his squad to Grand Rapids for a workout Thursday night in order to keep them in shape, but they will be without home ice practice for about a week.

The next game for the homeless pucksters is an away contest with undefeated Minnesota, Jan. 22. Minnesota, the present league leaders, must take on the University of Michigan, however, before they tackle the Spartans and Bessone is counting on this to give him a good chance to look over his opponents.

Despite the rough play featured in the two games with Michigan last weekend the squad is remarkably free of injuries. The only disabling injury was a pulled leg muscle suffered by sophomore Chuck Waks, but with a week's rest ahead of him he should be ready for the Gophers.

One bright spot for the Spartan

coach has been the improved play of wingman Gordie King, who turned the hat trick last Friday night, with three goals against the Wolverines.

Bessone describes King as a "terrific hockey player," a "hard worker," and a "good boy," and is putting much of his hopes for a winning season on the shoulders of the stocky forward.

# Annual Farmers' Week To Begin Feb. 1

## Hannah to Discuss Problems of Defense

Farmers and their families will once again visit the campus for a week when Farmers' Week begins Feb. 1. The theme of the 30th annual convention will be "Strengthening Michigan Agriculture."

## Congress To Meet Tonight

### Vacancies, Bills Set for Discussion

Five student government vacancies will be announced at the first winter term Congress meeting tonight at 7:30 p.m. in the Student Center.

Five bills will be presented as well as a report by Student Government President Dave Brown.

The report will include 22 recommendations for Congress action.

Special elections will be held for the five government offices including Speaker of the House, Secretary, Treasurer, and two members of the Senate.

There will be a new bill concerning an organizational change for the Student Club will be introduced.

Among the 24 measures for Congress action will be recommendations for new constitutions for the organization, election, an American Spirit committee.

## French Harry Fleeing Reds In Indochina

SAIGON, Indochina (AP)—North African infantrymen and French Union parachute troops harried seven Vietminh battalions retreating Tuesday from an ill-starred campaign against the fortress of Seno, in central Laos.

French fighters and bombers gave the counterattack strong air support.

The Communist-led rebel force, perhaps 5,000 strong when it first struck French outposts in the jungle 25 miles northeast of Seno last Thursday, was believed heading for a limestone plateau 20 miles farther northeast to rest and regroup.

The French command's objective seemed to be to develop a counter-offensive aimed at breaking the grip a rebel division claimed on the west of Seno in a Christmas Eve drive.

If the rebel battalions get to the plateau, the French could lose their advantage. The Laotians of that region are predominantly anti-Vietminh and the terrain is favorable for ambushes.

A ground search party led by Capt. Harold L. Patrick of Lansing, Mich., found the pilot's body early Tuesday on the edge of woods near Dieburg.

The two others parachuted safely.

The pilots were granted permission to bail out Monday night when their fuel ran low on a flight to Munich from Marseille.

Bad weather had prevented them from landing at both Munich and Frankfurt.

Capt. Duford N. Meyers of Dillon, Mont., and Lt. Robert E. Berner of Medina, Wash., parachuted safely.

The parachute of the third pilot failed to open. His name was withheld pending notification of kin.

A ground search party led by Capt. Harold L. Patrick of Lansing, Mich., found the pilot's body early Tuesday on the edge of woods near Dieburg.

The two others parachuted safely.

Bad weather had prevented them from landing at both Munich and Frankfurt.

Capt. Duford N. Meyers of Dillon, Mont., and Lt. Robert E. Berner of Medina, Wash., parachuted safely.

# Accused Red Gets Sentence

## Defendant Begins 30-Day Term

DETROIT (AP)—Federal Judge Frank A. Picard Tuesday imposed a 30-day contempt sentence on Philip Schatz, one of six Michigan Communists being tried on charges of violating the Smith Act.

All are accused of advocating and teaching the violent overthrow of the government. Schatz had refused to answer a question on the Communist ties of a former associate.

He began serving the term to the Wayne County Jail. He will be released under custody to appear at a defendant while the trial continues.

Government counsel put the question to Schatz today. He was asked whether Ann Rosenberg, executive director of the Michigan school of social sciences between 1948 and 1952, was an officer of the Communist party.

Judge Picard gave Schatz until Tuesday to answer. After Schatz again refused, the judge explained to the jury: "In this day and age, we don't have a rack to make him answer. Our only remedy is to find him guilty of contempt."

Defense counsel argued that an answer would open the door to other questions about who belonged to the Communist party.

William "Billy" Allan, another defendant, gave a detailed account of his Communist party activities that led to his job as Michigan correspondent for the Daily Worker. Allan, 46, said he came to the United States from Scotland in 1922.

His new home is a wire and sheet metal cage in the basement, and there's wire mesh around the cage — "to protect Lazarus from people and people from him."

"Like most alligators, he doesn't do much at all. But he packs a pretty good wallop when people stick their fingers in the cage," commented one of his landlows.

The three-and-a-half foot long alligator hasn't shown any affinity for tankbombs yet, but the men say they'll try to teach him something. Like frightening visitors.

None in the house knows the life expectancy of an alligator. But if Lazarus, now a youthful 14 years old, decides he likes his new home, he might stick around quite a while.

# Alligator 'Lazarus' Serves as Mascot

A live alligator has come to the Phi Kappa Psi fraternity house. The three-and-a-half foot long alligator, named Lazarus, is now residing at the Phi Kappa Psi fraternity house.

The alligator, christened Lazarus, was left outside in the cold his first night here in East Lansing and nearly froze to death. When discovered he was pronounced dead by a Phi Tau veterinary student, but during his funeral service he came to life and nearly bit one of the fraternity brothers. Lazarus, who was given to housemother Mrs. Edna Earle Carnahan by personal friends has now completely recovered from his close meeting with death.

He eats about a pound of hamburger a week.

## Official Lists Five Rules To Nip Industrial Fires

DETROIT (AP)—The National Fire Protection Association Tuesday announced five rules to help prevent industrial fires.

Of these rules, he said, wholehearted support by top management was essential. Executives must accept the responsibility for making the entire plant fire and safety conscious.

Camouflage was taught at MS during World War II.

# Accused Red Gets Sentence

## Defendant Begins 30-Day Term

DETROIT (AP)—Federal Judge Frank A. Picard Tuesday imposed a 30-day contempt sentence on Philip Schatz, one of six Michigan Communists being tried on charges of violating the Smith Act.

All are accused of advocating and teaching the violent overthrow of the government. Schatz had refused to answer a question on the Communist ties of a former associate.

He began serving the term to the Wayne County Jail. He will be released under custody to appear at a defendant while the trial continues.

Government counsel put the question to Schatz today. He was asked whether Ann Rosenberg, executive director of the Michigan school of social sciences between 1948 and 1952, was an officer of the Communist party.
