for praise from the U.
S. Department of Agriculture

Dean Osgood, who has been in
Washington for a year and a
half, received his doctorate from
the University of Michigan, and was
formerly an instructor in communication
skills, assistant to the dean of students
and director of teacher placement.

He succeeds Dr. Harold J.
Dillon, who will transfer to a
professorship in teacher education,
effective Sept. 16.

Dr. Eugene W. Roelofs, was
appointed associate professor of
fisheries and wildlife, effective
Aug. 1. Dr. Roelofs, who holds
his Ph.D. from MSC, has been a
member of the staff of the
Institute for Fisheries and Wildlife
in North Carolina.

Effective Sept. 1, Dr. Eugene
J. Jennings will join the general
business and continuing education
staff as an associate professor.
He received his Ph.D. from the
State University of Iowa, and has
been associated with the Wharton
School of Finance and Commerce
of the University of Pennsylvania.

Dr. Robert S. Bandurski, was
appointed associate professor in
the botany and plant pathology
department, effective Oct. 1. He
holds his Ph.D. from the University
of Chicago and will come to MSC
from California Institute of Technology.

Dr. Albert M. Pearson, will
become an associate professor in
animal husbandry, effective
Sept. 1. He received his Ph.D.
degree from Cornell University
and is now at the University of
Florida.

The following were appointed
assistant professors: Dr. Jack M.
Bain, speech, Sept. 1; Dr. Lawrence
G. Harmon, dairy (research),
Aug. 16; Dr. John A. Waiket,
speech, Sept. 1; Dr. Thomas H.
Edwards, physics and astronomy,
Sept. 1; Dr. Irving R. Merrill,
television development, Sept. 1;
Dr. Edgar L. DeForest and Dr.
Thomas L. Dahl, communication
skills, Sept. 1; Dr. Edward J.
Klin, botany and plant pathology
(research, extension), Sept. 1;
Herbert Lee Williams, journalism,
Jan. 1, 1965; Lowell R. Eklund
and Louis A. Doyle, continuing
education, Aug. 1.

Appointments as instructors
went to:
Wesley I. Schmidt, continuing
education, July 1; Wilfred Veenendaal,
audio-visual aids, Aug. 1;
Robert L. Stevens, health, physical
education and recreation, July 1;
Charles D. Kenney, social science,
Sept. 1; Norman F. Kesser,
social science, Sept. 1; J. William
Maxwell, journalism, Sept. 1;
Marvin Hoffman, bureau of business
research, Sept. 1.

Harry G. Hedges, electrical
engineering, Sept. 1; Frank S.
Reop, Jr., mechanical engineering,
Sept. 1; Grace Harrison,
home management and child
development, Sept. 1; Mary
Louise Leach, textiles, clothing
and related arts, Sept. 1; Roger
M. Bosfield, Jr., speech, Sept. 1;
F. Herman Rothenberg, physiology
and pharmacology, Sept. 1;
Robert W. Newlin, surgery
and medicine, July 27; W.

MSC's Bid for
TV Channel 10
Denied by FCC

The MSC petition to set aside
VHF television channel 10 for non-
commercial, educational use
was denied recently by the Federal
Communications Commission.

A program was planned by MSC
officials whereby the present operation
of WKAR-TV would have
been transferred from UHF channel
60 to VHF channel 10, if the
petition had been granted and
MSC had obtained the outlet.

"Obviously the FCC didn't
see it our way," said Dr. Arm-
strong, director of WKAR-TV.
"Naturally, we're disappointed,
but we think we had a very good case."

MSC was one of five applicants
for the license to the unstructured
channel 10, which is situated in
the Parma-Onondaga region.

Hunter said the college must
"sit and wait" for further FCC
decisions.

The FCC also rejected a petition
to transfer channel 10 from
Parma-Onondaga to Jackson,
submitted by the Jackson
Broadcasting and Television
Corporation, operators of WKHM.

Besides MSC and the Jackson
company, the other applicants for
the VHF channel are Triad Corporation,
Booth Newspapers, Inc., and
the Michigan Broadcasting Company,
which operates radio and
television stations WJLS in
Lansing.

State Board 'Christens' Halls

Names of Buildings Show MSC History

Usually their choice is made
by singling out the name of
someone who made an outstanding
contribution to MSC.

For instance, the most recent
"christening" job before the
board was that designating the
three additions to the Harrison
Road building project.

78 Staff Changes OK'd by State Board

The State Board of Agriculture approved 48 appointments, 17 resignations and 13 leaves of absence at its August meeting last Friday.

Effective Nov. 1, Dr. Harold D. Sponberg, former staff member who has been executive secretary of the national 4-H foundation in Washington, D. C., will return to MSC as professor of continuing education.

Dr. Sponberg, who has been in Washington for a year and a half, received his doctorate from here, and was formerly an instructor in communication skills, assistant to the dean of students and director of teacher placement.

He succeeds Dr. Harold J. Dillon, who will transfer to a professorship in teacher education, effective Sept. 16.

Dr. Eugene W. Roelofs, was appointed associate professor of fisheries and wildlife, effective Aug. 1. Dr. Roelofs, who holds his Ph.D. from MSC, has been a member of the staff of the Institute for Fisheries and Wildlife in North Carolina.

Effective Sept. 1, Dr. Eugene J. Jennings will join the general business and continuing education staff as an associate professor. He received his Ph.D. from the State University of Iowa, and has been associated with the Wharton School of Finance and Commerce of the University of Pennsylvania.

Dr. Robert S. Bandurski, was appointed associate professor in the botany and plant pathology department, effective Oct. 1. He holds his Ph.D. from the University of Chicago and will come to MSC from California Institute of Technology.

Dr. Albert M. Pearson, will become an associate professor in animal husbandry, effective Sept. 1. He received his Ph.D. degree from Cornell University and is now at the University of Florida.

Bring Blankets Cool Weather Predicted for All-Star Game

Spartans planning to attend the All-Star football game in Chicago Friday night will have to bring their own blankets and gloves along.

The mercury today will reach a high of 73 degrees, but read only a chilly 53 this morning.

Cloudiness is expected to increase Friday, along with occasional showers.

Weather officials predict that Friday's temperatures will be slightly warmer, but that Michigan and Chicago will not escape the cool wave which has swept the Middle West during the past few days.

Board Plans 200 More Apartments

Married Housing Units to Increase

Approval of a plan to finance at least 200 more married student apartments was given by the State Board of Agriculture Friday.

The board also authorized an investigation of the possibility of financing three more men's dormitories.

As with the married student apartments now built and those under construction, the new units containing 12 apartments each would be financed on a self-liquidating basis.

No far 100 apartments, with 12 to a building, have been constructed, and the total number will reach 144 this fall. The new units would be the same size and design as these.

Upon learning that there is room for 300 apartments in the construction area, the board asked for figures on that number.

Philip J. May, MSC's comptroller and treasurer, quoted construction costs at \$9,000 which would amount to \$1,800,000 for 200 apartments. He pointed out that the new units will cost less because utilities have been installed in the area, since the elimination of the former "trailer village."

All apartments available this fall have been leased, and there is a waiting list of 200, according to college officials.

The need for construction of three more dormitories in the Harrison Road residence group for men was brought before the board. They would not be finished until 1966.

Original plans for the group provide for a total of six dormitories with a central dining and recreation hall. Three of the dorms and the dining hall will be completed this fall.

Examinations to Begin Saturday, August 14

Final exams for summer term will begin Aug. 14 and end next Friday, Aug. 20.

A schedule of the examinations can be found in the MSC Summer School catalog.

Usually their choice is made by singling out the name of someone who made an outstanding contribution to MSC.

For instance, the most recent "christening" job before the board was that designating the three additions to the Harrison Road building project.

Brody Hall, dining hall unit for the new men's dorms, has the distinction of being the building on campus bearing the name of a person now living.

It was named for Clark L. Brody, president of the State Board of Agriculture, who has been a member of the board for 22 years. Prior to that, he held

St. Lawrence Project Opened

A blast of dynamite sent up a column of water off the tip of Long Sault Island as guests and dignitaries watched the official American-Canadian ground breaking ceremonies at Massena, N. Y., Tuesday for the St. Lawrence power project.

Tempo of Rehearsals Increases

Skaters Prepare for 'Ice Time'

Preparations for the summer show "Ice Time", to be presented Aug. 19, 20 and 21 in the ice arena, are swarming into their final frenzied week.

The eerie shadows cast by the strange glow of the ice welders the sound of hammers on steel and the general atmosphere of people getting ready for something big are apparent, without even casting a glance at the ice.

Out on the smooth white sheet of the arena floor the preparations are even more evident. Packed into the 200 by 87 foot surface of the rink, scores of young skaters practice their loops and pirouettes in hopes of reaching perfection.

The music coming over the loudspeakers is repeated over and over again as a young blonde and her instructor practice her dance routine until every little detail is just right.

Occasionally there are some faint, especially among the younger children in the group, but they get up again and repeat the stunt for there can be no slips next week when their audience is expecting the best.

These smaller members of the troupe will show off their adult-like skill in "Capriella's" scene of four, six and production numbers that are scheduled to highlight the show. Others will be a military number, a southern production and "A Carnival in Venice."

This last number, in which the show will reach its climax, will feature Ray Blommer, senior men's midwestern figure skating champion, in a solo and then in a routine with Tony Hoochast, a Lansing girl who originally hails from Holland.

Blommer, a 19 year-old from Milwaukee, Wis., will also do a solo act in the first half of the show. By winning his midwestern title here last February, he qualified for the national championship to be held next winter.

"Ice Time", an annual production of the Lansing Skating Club, will mark the end to the nine-week summer ice session at which these young skaters have been taught the finer points of figure skating by four of the nation's top professionals, Michael Kirby, Montgomery Wilson, Ailsa McLachlan and Marilyn Thomson.

Directing the show is the job of Joan Arlen, Miss Arlen is the daughter of Norris World, rink manager, and is a former ice revue star and now the proprietor of an arena and skating school in Dallas, Tex. She also directed last year's show.

Other stars in the show, along with Blommer and Miss Hoochast, will be Claire Waters, Lansing sophomore, Jo Lu Zimmerman, Chicago, Ill., Gladys Jacobs, Chicago, Ill., Fred Muchin, Boston, Mass., and Bradley Lord, Boston, Mass. These are just a few of the more than 15 performers.

Costumes for the show came from the professional "Holiday on Ice" troupe, which performs here every winter, while the expensive lights needed to give the desired effects are being donated by a Lansing manufacturing concern.

New Code Effective This Fall

Driving, Parking Areas Restricted

A new code will go into effect this fall which will permit students to own and drive cars on campus.

The revised set of driving regulations was adopted by the State Board of Agriculture, MSC's governing body, at their August meeting last Friday.

The new rules, drawn up jointly by student government, campus police and the Dean of Students, allow the ownership and operation of cars by students, under the following regulations:

1. The car must be registered with the state police in the Lansing area.
2. The car must be insured with liability insurance for at least \$10,000 per person and \$20,000 per accident.
3. If the student is under 21, he must present written consent for operation of the car by his parent, guardian or the registered owner of the vehicle. If the parent and the owner are not the same person.

Although the new code allows students to drive on campus, driving and parking will be restricted mostly to south campus.

A group of specific times are included in the new driving regulations, covering registration and driving violations.

Students will be allowed to enter and depart from the campus only at the Deal and Bogue entrances.

Cars which have been registered may be driven on South Campus at any time, but must be parked in the designated student lots.

Driving on North Campus will be permitted from 7 p.m. to 7 a.m. Monday through Friday, Saturday afternoons and all day Sundays and legal holidays.

Parking on North Campus, however, will be allowed for 15-minute periods only, near dormitories, between 7 p.m. and 2 a.m. It will be prohibited from 7 a.m. to 7 p.m.

Previously, students were permitted to operate cars on campus only for health reasons, commuting, short course attendance, or if they had no other home, or if they were married.

Under the new code, paraplegics and graduate students will be allowed to park and drive generally without restrictions. Graduate students, however, will not be able to park in the Morrill Hall or Ag Hall parking lots, campus police said.

For first offenses in violation of the new rules, police said, a \$10 fine will be levied for driving a vehicle in a prohibited area, or for failure to park in a designated student area.

For illegal parking from 2 a.m. to 6 a.m., the student will be charged a towing fee, plus a \$5 fine. Failure to display the permit on the car's rear window will cost \$5.

Fines of \$10 will be charged to second offenders of the above regulations.

On the third offense, the student's permit will be revoked, the case will be referred to the Dean of Student's Office and a \$20 fine will be charged.

For giving false information, in registering the car, the fine will be \$15.

If a student who has not registered his car is caught, the fine will be \$25 the first time, \$50 the second time and, on the third offense, the student will be withdrawn from school.

Illegal reproduction or defacement of the student driving permit will result in revocation of the student's permit, a \$50 fine and referral to the Dean of Students.

See DRIVING, Page 4

Wheels for You

It took quite awhile and a lot of effort, but at last MSC is to have a modern set of driving regulations that fit in with the progressive attitude of the student body. Now it's up to the students, you that is, mister, to behave like adults and respect the laws.

Every point of the new regulations has been reviewed by student government members, the Dean of Students and the campus police. There can be no mistaking the intent of the new law. Owning and operating a car will now be recognized as a privilege all students are entitled to. Don't abuse the privilege, the penalties are necessarily rough.

For some time after the new law goes into effect it is going to require the cooperation of all concerned to iron out the kinks that are bound to show up. The right of appeal has been included in the section covering violations, and a Student Traffic Appeal Court is to be set up to handle these appeals as they are received in the Dean of Students office.

The idea of an appeal being available is good, and the idea of joint handling by administration and students is good. The decisions handed down by this court will undoubtedly be fair. There is only one point to remember.

If everyone making use of the new regulations conducts himself in a manner to indicate his appreciation of the time and effort that have gone into gathering the information, preparing the regulations and providing for the administration of them, there will be no need for the court to ever make a decision.

It would be nice to think that this set of rules is only the first of many examples of cooperation between students, their student representatives and the college administration, and that it will solve student problems in other fields, such as housing.

See you behind the wheel Mr., and Miss, MSC.

ARTiculation

Summer News

By Art Underwood

The end of the summer odyssey is drawing near (Webster says odyssey means any long series of wanderings and a lot of us have done a lot of wandering, mentally and physically this summer) and its about time for a little reflection of the summer.

It is hard to say whether the untimely death of Emilie Dionne, the rockslide at Niagara or the truce in Indochina takes top honors on this summer's news round up. But why worry about top honors? How about some of the stories that didn't make the headlines?

Here at home, for example, Michigan has a couple of new laws which will affect most all of us that we haven't heard much about. All commercial vehicles now have to be equipped with mechanical turn signals. This law compliments the one passed earlier requiring all automobiles built after January 1, 1955 to be equipped with such devices.

These laws are going to make it rather ridiculous for drivers of Michigan-built vehicles in states like Wisconsin where the mechanical signals are illegal.

Other new public acts that become law in Michigan include an increase in workers compensation for injuries, a pay raise for circuit judges, witnesses and county school superintendents.

Criminal law changes make it a misdemeanor for two or more drunk driving offenses, illegal to operate watercraft while drunk and increase penalties for indictable non-statutory offenses.

Then there are the catch-all acts that require auto titles to show if the car has been used as a taxi, or police cruiser, legalize intensity beam headlights, allow wider busses on highways, require all commercial vehicles to be equipped with automatic defrosters, provide penalties for negligence with a bow and arrow, make floriculture products subject to farm produce laws, permit the sale of milk in automatic vending machines, etc.

All in all, there are 131 of these new laws that in some way pertain to all of us, and they become law Friday. They were passed by the regular session of the legislature, but were not put into immediate effect for varied reasons. Some 86 other acts became law under the governor's signature earlier.

Then, of course, nationally they finally decommissioned the USS Missouri after 10 years of active service, and this time the man with the glasses, whose daughter cracked the champagne bottle over the bow to launch her, wasn't in the White House to save her.

MUSHROOMS TO EARTH—Japanese farmers pause to watch paratroopers of the U. S. 107th Regimental Combat Team float to earth in maneuvers at Ofita, southern Japan. The unit saw action in two mass airborne attacks in the Korean War.

NEW COMMANDER—Major Gen. George Honnen, of Philadelphia, is the new U. S. commander in Russian-surrounded Berlin, succeeding Maj. Gen. Thomas Timberman.

SOVIET HORNPIPE—In contrast to familiar Soviet deadpan, crewmen of a Russian fighting ship dance for entertainment of their hosts during visit to Stockholm, Sweden.

Mademoiselle Visits MSC

Readers of Mademoiselle magazine throughout the country are viewing MSC coeds, fashions and scenery this month.

The well-known fashion magazine devoted one complete section of the August issue to fashions at various American colleges—including Michigan State.

Dorothy Ripper of Dearborn, who graduated from MSC in June, served as Guest Advertising Director for the Mademoiselle College Board.

As part of the job, she interviewed Jim Whitcomb, famous magazine illustrator. A picture of the two appears in the magazine.

Pictured modeling casual and dress apparel typical of their school are seven MSC coeds, one of which is 1953 Homecoming Queen Ardeth Raymond, who is wearing a knitted niddy.

Kellogg Center, the Red Cedar river and the Forestry Club are used for background in several of the pictures photographed by Landschoff, who traveled all over the U.S. with Mademoiselle fashion editors to gather material and photos for the special issue.

These representatives visited here during winter term and recruited coeds who filled the requirements, to model for the magazine.

Life Can Be . . .

NORMAN, Okla. (AP)—The tradition of giving a flashy new auto to a successful coach has become well established in this home of the University of Oklahoma.

But Miss Hettie Loar, who runs a rooming house, also has one. Miss Hettie has helped more than 600 Oklahoma stu-

dents through school in the last 21 years by the jobs she's provided.

During a homecoming party for her former residents, about 40 of her "old boys" gave her a corsage. Tied with ribbon to the flowers was the key to a shiny new car—sitting at the curb outside.

... A Week of Sports in Pictures ...

The Dave Bannister of England is supported by handlers after the British Empire Games mile run in Vancouver, B. C., Sunday, with his 3:58.8. Bannister defeated John Landy of Australia, the world's record claimant with a time of 3:58, who finished four yards back and had a 3:59.6, after leading the race to the last 100 yards.

Former Yankee catcher Bill Dickey and former New York Giants' manager Tom Tully hold a plaque that was unveiled in their honor at ceremonies, Monday, at Cooperstown, N. Y., in the National Baseball Hall of Fame. They were the only two present of the nine players who entered the Hall of Fame.

Bobby Garrett, Stanford's star quarterback last year and the Cleveland Browns' bonus draft choice, was traded to the Green Bay Packers of the National Football League, Friday. Garrett is shown as he worked out with the College All-Stars at Lafayette, Ind., last week.

Chick Harbert the 1954 PGA champ who hails from Northville, pitches from a sand trap on the second hole at Tam O' Shanter Country Club near Chicago, Friday, as the All-American golf tourney went into its second round. Chick shot a 75 in the opening day's round.

Lions to Meet All-Stars With Varied Handicaps

Detroit Forced to Play Under College Rules

Just about as many handicaps as one team can have follow the Detroit Lions when they meet the College All-Stars in the charity game.

The Sports Mike A Good Example

By Mike Carr
Summer Sports Editor

Maybe if the world's eyes would turn towards the runners-up in more of the athletic contests being held today, a few lessons in the almost-forgotten art of modesty could be learned.

This statement was brought on by the recent behavior of John Landy the Australian who ran second to Roger Bannister of England in the recent "Dream Mile" at the British Empire Games. Bannister ran it in 3:58.8 and Landy in 3:59.6, marking the first time in history that two men had run the mile in under four minutes in the same race.

Shortly after the race was over, a physician, Dr. Kenneth Young, announced that Landy had run the race with a deep gash in his left foot. This brought loud cries of protest from everyone closely connected with the case, including Landy's trainer and Landy himself.

After a series of statements and denials, Landy finally admitted, Tuesday, that he had cut his foot on the night before the race. "It happened early Friday," he said. "I wasn't sleeping very well so I got up to walk around outside. I stepped on what I think was a photographer's flash bulb. When I got back inside there was blood all over."

But in order to keep things on an even basis he brought out the point, "It's obvious that you don't run a 3:59.6 mile when there is anything wrong with you."

To add emphasis to Landy's story, Dr. Young admitted that he had taken four stitches in the Aussie's foot. He also said that Landy complained of no pain during the race and that none of the stitches were broken when he examined the wound on Sunday.

None of these revelations could take any credit away from Bannister for the great time he set in the event. It is one of only four instances on record when the mile has been run in under four minutes and is the second fastest time in history.

But Landy's concern was over the fact that perhaps some people would think that he might have won the race. He is the claimant of the world's record with a 3:58, six-tenths of a second faster than Bannister's winning time and it would seem that he could have bettered that mark with a runner of Bannister's caliber chasing him.

But with one of the greatest displays of sportsmanship ever seen in the world of sports he has done practically everything short of fraud to keep from rubbing off any of the luster of Bannister's performance. Now he is letting the world know that he wasn't handicapped in any way.

May I be allowed to make this a humble tribute from my typewriter and me to John Landy, a true sportsman.

Walling's Trojans Gain Lead In Summer Softball League

After two weeks of play in the newly-organized Married Housing and Barracks Apartments Summer Softball League, Walling's Trojans hold the top spot with a one-game margin.

Beating out Kerr's Superiors, 7-4, the Trojans are now only a notch above them and Hilary's Tigers.

In the league's leading batter position is John Mace of the Superiors, who holds a .700 average. He is closely followed by Norm Robinson, Wild Cats and Dave Brogan of the Trojans, tied at .636. Another Trojan teamster, Don Harden, is tops in hits with eight.

Trojan Frank Gordon, with a 4-0 record, heads the hurler's list. The winless McSloy's Sentinels add an international air to the league—the team being composed largely of foreign students. Several of the players had never played softball before.

Play will continue throughout August with games being played at Old College Field on Monday, Tuesday, Thursday and Friday evenings at 6:30.

Michigan State edged Wisconsin by one game for the 1954 Big Ten baseball championship. One of the Spartan stars was relief pitcher Bill Mansfield, son of Wisconsin coach Art Mansfield.

Could Be Deciding Factor

Tigers Battle With Leaders

The Detroit Tigers entered the role of spacers this week as the pennant race entered the stretch run, by dropping the second-place New York Yankees two out of three and then acting just as rude to the leading Cleveland Indians.

Of the four wins the Bengals picked up during the week three were against these top two teams and they put only one game where they had a chance to get even after Detroit's losses.

That loss was to the Yanks on Friday, when Gil McDougal hit a grand-slam homer in the seventh inning to pull the game out of what had seemed like a sure defeat.

They stretched their winning streak to three straight as they opened a three game series with the Indians, Tuesday night with a 4-0 win.

They stretched their winning streak to three straight as they opened a three game series with the Indians, Tuesday night with a 4-0 win.

They stretched their winning streak to three straight as they opened a three game series with the Indians, Tuesday night with a 4-0 win.

Detroit came back on Saturday and Sunday to take two in a row with Sunday's being one of the most exciting games of the season at Briggs stadium. The Tigers won it in the tenth inning on Don Belting's pinch homer, 16-8.

Detroit built leads in the game of 4-0, 7-0, 8-0, but New York fought back to within striking distance each time, but they had no chance to get even after Detroit's losses.

Detroit is in the position of power now, either for the top three spots or for their own first division hopes as they play 17

Board Accepts Gifts, Grants for Research

Gifts and grants for research and educational purposes totalling \$400,185.25 were accepted recently by the State Board of Agriculture, MSC's governing body.

Faculty

(Continued from Page 1)

James King, Jr., natural science Sept. 1; Kendall A. Adams, agricultural economics, Sept. 1; Paul O. Fromm, physiology and pharmacology, Sept. 1.

Other appointments included: Helen L. Wild, manager of Mary Mayo Hall, Aug. 1; Russell Powers, Jr., associate publications editor in the information services department, July 1; Paula Kowalski, assistant to the managing editor of the MSC press, Sept. 1; Dr. J. Russell Grieg, distinguished visiting lecturer in the school of science and arts, April 4, to June 10, 1954.

The following were granted leaves of absence:

Rheta J. Armelling, instructor in music for one year beginning Sept. 1, to study German vocal music in Germany; W. R. Sur, professor of music, from Jan. 1 to March 31, 1955, to study trends in music education; R. Vance Presthus, associate professor of political science, for one year, beginning Sept. 1, to head an administrative research organization for the UN in Turkey; Guy Fox, associate professor of political science, for one year beginning Sept. 1, to continue research and lecturing in Japan under a Fulbright award.

T. D. Stevens, professor and head of forestry, from Sept. 1 to Sept. 30, to participate in a "Forest Genetics and Forest Extension" project in West Germany; Kenneth E. Tieskie, assistant professor of sociology and anthropology from Nov. 1, 1954 to Feb. 28, 1955, to work in Cuba under the auspices of the Inter-American Institute of Agricultural Sciences; James M. Apple, professor of mechanical engineering, from April 1 to Sept. 30, 1955, to visit manufacturing plants to study plant layout practice.

Other leaves and effective dates include: Evelyn H. Scholl, associate professor of English, April 1; Grace Siebers, instructor in nursing education, Oct. 1; C. D. House, professor of physics and astronomy, July 16.

Resignations and terminations were approved for the following:

Dean A. A. Potter, consultant to the president in charge of engineering, June 30; Charles H. Kraft, instructor in mathematics, July 31; Wilfred C. Lane, instructor in surgery and medicine, July 10; Ronald D. Jones, University of the Ryukyus, July 31; Bergeon Kavin, associate professor (research) agricultural chemistry, Aug. 9; Edwin B. Jones, assistant professor (research) agricultural economics, July 31; Walter H. Murrah, instructor in communication skills, Aug. 31; Joseph A. Del Porto, associate professor of journalism, Aug. 31.

Mrs. Lucile Becker, instructor Aug. 31; Charles L. Gilly, assistant professor of botany and plant pathology, Aug. 31; Elizabeth E. Pihl, assistant professor of nursing education, Aug. 27; Rachel F. Hethco, instructor (research) bacteriology and public health, Aug. 31; Percy H. Tannenbaum, assistant professor and director of research in television, Aug. 31; Norma Kowitz, manager of Mary Mayo Hall, Aug. 31; Daniel J. Botwin, personnel assistant in personnel, July 31; Arthur E. Staebler, Director of the W. K. Kellogg Bird Sanctuary and assistant professor of land and water conservation, May 31, 1954.

The biggest single grant accepted was \$161,012 from the Institute of Inter-American Affairs, a U. S. agency, to be used in helping to establish the first school of business administration in Brazil.

Nine other government grants—two from the army, one each from the Office of Naval Research and U. S. Department of Agriculture, and five from the Atomic Energy Commission—amount to \$107,860.

Four MSC professors are currently at Sao Paulo, site of the new Brazilian school. The joint program draws upon MSC for advice and instruction, with financial aid from the U. S. government, and the Getulio Vargas Foundation of Brazil, a private organization. MSC participates under the direction of Dean H. J. Wyszard, of the School of Business and Public Service.

The nine other U. S. grants are headed by \$29,800 from the Department of the Army, for developing a new method to test efficiencies of gas masks and canisters. Dr. W. N. Mack, associate professor of bacteriology and public health, is in charge of the project.

A grant of \$20,020 will be used by Dr. E. A. Hiedemann, professor of physics, to study the possibility of measuring albumen quality by ultrasonic and microwave techniques. This grant is from the U. S. Department of Agriculture's Agricultural Marketing Service in Washington.

An Atomic Energy Commission grant of \$15,840 will be used by Max T. Rogers, associate professor of chemistry, to continue a study of interhalogen compounds.

The other government grants will be applied to research projects in the departments of botany, chemistry, physics, physiology and pharmacology, and plant pathology.

Largest non-government grant accepted by the board was one of \$30,000 to study the nutritive value of food purchased by a sample of Lansing families over a one-year period.

The grant, from the dairy and ice cream division of the Borden company, will be under the direction of Dr. Margaret A. Ohlson, head of the department of foods and nutrition, and Dr. G. G. Quackenbush, associate professor of agricultural economics.

A grant of \$21,720 from the Mathieson Chemical Corp. of Baltimore will be used to investigate high calorific materials. In charge will be Dr. L. L. Quill and Dr. D. T. Ewing of the chemistry department.

Corn research will be conducted under a \$10,191.20 grant from the Michigan Certified Hybrid Seed Corn Producers association of Fairgrove.

Hoover Gets 80th Degree

Herbert Hoover, oldest living ex-President of the United States, wears the hood of an honorary doctor of laws after another honorary degree—his 80th—was presented to him at West Branch, Ia. Tuesday in ceremonies marking his 80th birthday celebration. Dr. Virgil M. Hancher (right), president of the State University of Iowa, presented the degree.

Hort Department Hosts Conference

More than 250 landscape gardeners and nursery operators gathered for the eighth annual Nursery and Landscape Management Conference held here Tuesday and Wednesday.

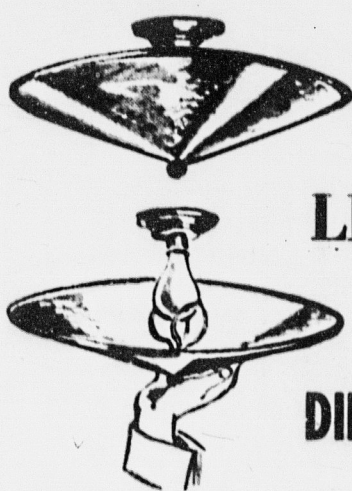

Dr. John P. Mahlstedt of Iowa State College was the featured speaker. His topic was "Chemical Weed Control in the Nursery."

The conference was sponsored by MSC's department of horticulture, in cooperation with Michigan Association of Nurserymen, Michigan Landscape conference and the Continuing Education Service.

A million dollars worth of gold at \$35 an ounce weighs slightly less than a ton.

Tie Bars Revived

Duke Sets Pace With Stickpins

The Duke of Edinburgh has set a new men's fashion to be seen everywhere this fall in the form of the pearl stickpin.

Apparently, he has taken a special liking to the revived stickpin because reports say he wears it almost invariably with his business suits.

After lying in jewelry boxes for several years, tie bars and pins are becoming equally popular.

With the trend toward more French cuffs, designers have put their minds to cuff links in a wider range of types, sizes and shapes than ever before.

As earrings are to the lady's wardrobe—colorful, interesting cuff links are to the well-dressed male.

Down and Out

Capt. Edward G. Speery, UN-AP, is ejected downward out of a B-47 jet bomber traveling at 500 miles an hour at an altitude of 10,000 feet in a test of a new safety device.

Driving

(Continued from Page 1)

The fines will be payable directly to the cashier's office in the Administration Building, and they must be paid or an appeal entered within 10 days of the violation. Previously, the fines were assessed at the police station and then paid in the Ad Building.

The student will be dropped from classes if the fine is not settled within the specified time. A new Student Traffic Appeal Court will handle the appeals, which must be written and submitted to the Dean of Students.

Board Agrees to Security Check

Members of the state board of agriculture, governing Michigan State, have agreed to undergo a security check by the Fifth army security office. In order to allow the board to administer classified defense contracts, this was necessary. The agreement was made at the Aug. 6 meeting of the board.

Going higher 100 feet in altitude to going north 100 miles.
