## Kavanagh Called for Re-Examination

Lose License Because  
Five Traffic Violations

—Attorney Gen. Thomas M. Kavanagh  
ordered to appear before a license examiner to de-  
termine if he can still drive a car.

## KAR's Power Increased

FM service of Michi-  
gan's radio station  
will be extended to a  
large area of Michigan in  
1956 as a result of ac-  
tion by the State Board  
of Agriculture, MSU's  
governing body.

Board appropriated \$15,585  
for structural changes and  
purchases for the in-  
crease in power. WKAR pre-  
viously received approval for the  
increase from the Federal  
Communications Commission late  
last year.

John J. Coleman, director  
of WKAR-FM, explained  
that the increase in power  
will be approximately ten  
times the present. This  
will increase the sta-  
tion's range from 45 miles  
to 100 miles from East Lansing.

Power change is expected  
to be effective in the early  
part of 1956, he said.  
WKAR-FM broadcasts on 90.5  
mhz and operates simul-  
taneously during daylight hours  
on station's AM service. Ad-  
ditional sports and news  
programs are broadcast  
on the FM signal during  
evening hours.

There was an increase in  
the number of FM listeners,  
said Coleman, and to serve  
listeners who now are  
in the 45-mile range.

WKAR-FM service began in  
1948. WKAR-AM, third  
radio station in Michigan,  
has been in operation  
for 30 years.

## Visits Ike

Secretary of State Dulles  
steps from an automobile in  
front of Fitzsimmons Army hos-  
pital, Denver, on his way to a  
foreign policy conference with  
President Eisenhower, recuperat-  
ing from a heart attack.

## Petitioning Deadline Extended

Need Applicants  
For Council Seats

Student government offi-  
cials Wednesday extended the  
deadline for turning in elec-  
tion petitions for Congress  
and Frash-Soph council seats.  
Because of the lack of petitions,  
the deadline has been extended  
until Monday.

The campaigning for the of-  
fices begins Sunday night at 6  
and the primary elections will  
be held Thursday.

Election rules can be picked up  
in the third floor offices of the  
student government in the Union.  
In the Congress race, there are  
a total of 13 empty seats and 16  
petitions have been picked up for  
these vacancies. However, there  
have been none picked up for the  
vacancies in Abbott and Bryan  
Halls.

The biggest turnout to date  
has been for the three seats  
from the Lansing district, with  
five petitions picked up.

Frash-Soph council lists a total  
of 48 vacancies, but only 36 pe-  
titions have been picked up for  
these seats. If enough petitions  
are not turned in for these seats  
before the deadline, there will be  
no primary election held.

Each petition for the council  
requires 25 signatures, while Con-  
gress petitions require 35.

Fifty signatures are needed on  
petitions for freshman class offi-  
cers, and 24 candidates have  
picked up petitions for the four  
offices.

## Temperature Drops Weather Cooler, Partly Cloudy

The weatherman predicts  
cooler temperatures for today.  
An expected temperature range  
of 58-60 degrees will follow  
last night's lows of 46-50 de-  
grees. The sky will be partly  
cloudy with winds of 10-20  
miles per hour.

# MSU Enrollment Growth Spurs New Building Plan

## APO Joins UMOC With Spartacade

By DERRY HALL  
State News Night Editor

UMOC will be combined with  
Spartacade, it was decided Wed-  
nesday night.

Claude Watson, president of  
Alpha Phi Omega, national ser-  
vice honorary and sponsors of  
UMOC, listened to a unanimous  
decision from living unit heads to  
combine the contest with the an-  
nual carnival, tentatively sched-  
uled for April 14.

Agreement was also voiced to  
limit vote solicitation for UMOC  
candidates to Spartacade ad-  
mission tickets. This arrange-  
ment would eliminate prelimi-  
nary solicitations in living  
units.

Watson announced that "APO  
would support the campus living  
units in this decision."

Previously Spartans voted for  
the "ugliest man on campus" with  
a penny vote. The candidates  
were chosen and sponsored by  
the women's living units, and the  
winning candidate announced at  
a dance in his honor.

Proceeds from the contest,  
which netted \$4,265.95 last  
year, are turned over to Cam-  
pus Chest, the student charity  
organization. Though it is hoped  
the new set-up will stimu-  
late attendance at Spartacade,  
Bob O'Hara, director of Cam-  
pus Chest, said it will definitely  
cut down on the UMOC contribu-  
tion.

A plan was also considered to  
devise a multiplication factor that  
would equitably balance votes  
from small and large living units.  
Votes for a candidate would be  
measured by the proportion of  
the living unit residents voting.  
Therefore a living unit with 30  
members that votes 100 per cent  
would beat a living unit that  
counts 35 votes out of a 60 mem-  
bership.

Speaking for APO, Watson  
suggested that the elimination  
of UMOC finalists in some way  
correspond with the Blood  
Drive. He pointed out that such  
an arrangement was used suc-  
cessfully in the past.

Stressing that both plans will  
be further investigated, Watson  
said the living units will make  
the final decision. "They will be  
called in to okay the final rules,"  
he added.

Included in the meeting were  
presidents of Spartan Village  
Council, Panfil, IFC, Men and  
Women's Inter-dorm Councils,  
Women's Co-op League, and  
Men's Co-op Council.

O'Hara also announced that the  
Campus Chest quota will remain  
\$1 per person this year. Solicita-  
tions' week will run from Nov.  
7 through 11.

Confusion Reigns at the Mantovani Ticket Sales

All Tickets Gone by 10:20

## Students Go 'Mantovani Mad'

By JACKIE OLDHAM  
Mantovani and his orchestra  
ran a close second to the Fighting  
Irish Wednesday.

Students, who have been lining  
up at Jensen all this week for  
their Notre Dame game tickets,  
mobbed the Union ticket office  
Wednesday, the opening day for  
exchange of Mantovani tickets.  
And until the tickets gave out,  
Mantovani and company looked  
well on their way to out-drawing  
the South Bend boys.

Students were in line as much  
as an hour ahead of the official  
9 a.m. opening time of the ticket  
desk. Sales started early.

At one time the line stretched  
from the desk, through the Con-  
course, out the west door of the  
Union and south across the side-

## Congress Gets Upset Over Ducat Problem

By BETTY ZUEGE

In a short and snappy meeting  
Wednesday night Student Con-  
gress passed just one piece of  
legislation.

That resolution authorized an  
investigation into the distribution  
of tickets for Lecture-Concert  
series events.

The measure stemmed directly  
from the confusion which arose  
when tickets to the Mantovani  
concert were distributed to stu-  
dents Wednesday morning.

Val Krummens, Bryan Hall  
representative, and co-author of  
the resolution, said he felt "some-  
thing must be done" and recom-  
mended that in the future three  
or four persons distribute tickets  
instead of Wednesday morning's  
lone worker.

Only one Congressman stood up  
to remind the representatives  
that many Lecture-Concert events  
do not draw a large student  
crowd.

Several Congress members vot-  
ed against the measure but the  
majority happily saw the resolu-  
tion go to the Student Rights and  
Welfare Committee.

That group will do the investi-  
gating and "advise the proper  
parties."

## Gifts and Grants Received by MSU

Gifts and grants of \$122,087.58  
were accepted by the State Board  
of Agriculture Wednesday for re-  
search, instructional and service  
operations at Michigan State.

Included were 45 separate gifts  
and grants for scholarship pur-  
poses, amounting to \$38,050.58.  
The largest of these was \$10,000  
from Coy G. Eklund of Detroit in  
"the form of a life assurance pol-  
icy. This grant stipulates that  
one scholarship be made avail-  
able each year to a qualified stu-  
dent living in Alger county."

walk running in front of the  
building to the edge of Circle  
Drive.

By 10:20 a.m., the tickets were  
gone.

A special call was made to  
Dean Stanley Crowe, director of  
the series, after all the audi-  
torium seats were gone. Crowe  
arranged for the opening of  
Fairchild Theatre to the public  
also.

This will mean that the orches-  
tra will be playing to an audience  
on both sides of them.

The last time this was necessary  
was the James Melton concert  
two or three seasons ago, Crowe  
said.

A talk with the fire mar-  
shall resulted in seventy-five  
more seats being added along  
the front of the stage in the  
Auditorium. This is the max-  
imum that can be allowed un-  
der the fire laws.

Altogether, Crowe estimates

## Thieves Take Game Tickets, Activity Books

Detective Lt. Charles Becker,  
of the campus police, reported  
Wednesday the theft of several  
student activity books and several  
tickets to the Notre Dame game.  
Lt. Becker stated that the own-  
ers know the section, row and  
seat numbers of the tickets and  
have turned this information over  
to the police.

Anyone trying to use the tick-  
ets will be arrested for the pos-  
session of stolen property, he  
said.

However, Lt. Becker said that  
if the activity books and tickets  
are mailed to the State News  
there will be no further action.

The campus police also an-  
nounced the theft of a skeleton  
from Macklin Field on the night  
of the Activities Carnival.

The skeleton is four feet tall  
and is valued at \$150 by the an-  
atomy department.

Two men were seen leaving  
with the skeleton and can be  
identified by witnesses, Lt. Beck-  
er said.

He stated that the men will be  
prosecuted for grand larceny un-  
less the skeleton is returned im-  
mediately.

All students are invited to at-  
tend the 15-minute ceremony, at  
the flag pole in front of Demor-  
stration Hall.

about 5,500 can be seated now.

There is a cheering note for  
the weary students who were  
turned away after their long wait.  
All students who didn't obtain  
Mantovani tickets will be given  
preference in obtaining tickets for  
the Scots Guards Band, which  
will appear on the Lecture-Con-  
cert Series Nov. 26.

The first day ticket sales be-  
gan for the Scots Guard Band go  
on sale, only the "A" coupon  
of the student activity book will  
be accepted. This coupon was  
the exchange coupon for the  
Mantovani concert.

On the following days, the regu-  
larly scheduled activity book  
coupon for the Scottish band can  
be used.

## Strike-Bound Plant Resumes Production

NEW CASTLE, Ind. (AP)—Pis-  
ton ring production was started  
again Wednesday in the Perfect  
Circle Corp. Foundry with Na-  
tional Guard protection, just a  
week after a strike riot that  
wounded eight persons.

The CIO United Auto Workers  
pickets at the gate said they  
counted less than 40 production  
workers checking in, less than  
one-sixth the normal production  
force of 2,604.

Chesley Juday, plant man-  
ager, said 32 production and 93  
office workers reported as the  
doors were opened "to anyone  
who wants to work."

The union held the number of  
pickets at the gate to five, the  
limit set by a court injunction  
Aug. 1, just a week after the  
strike started.

Union officials said there would  
be no more flareups like last  
week's demonstration by an es-  
timated 5,000 sympathizers so long  
as almost 1,000 troops patrol New  
Castle, Hagerstown and a part of  
Richmond. Martial law is being  
enforced around P.C. plants in all  
three cities.

"The UAW backs the strike  
all the way," said William F.  
Caldwell, UAW international  
representative.

He said Walter Reuther, CIO  
and UAW president, is in daily  
contact with the little strike here.  
Caldwell said the New Castle  
strikers voted unanimously Tues-  
day night to support the union's  
demands for a union shop, layoff  
pay and a wage package amount-  
ing to 21 cents an hour.

The company has offered an 11-  
cent package, and added that this  
offer was accepted July 29 by the  
CIO United Steel Workers, repre-  
senting 107 workers in P.C.'s ma-  
chining plant in Tipton, Ind.

Average wage in the foundry, the  
company said, is now \$2.08 an  
hour.

## Expansion Program Planned

Stadium Addition,  
3 Buildings Asked

Growing enrollment coupled  
with inadequacy of present  
facilities sparked the State  
Board of Agriculture, MSU's  
governing body, into author-  
izing tentative plans for a ma-  
jor expansion program Wed-  
nesday.

Meeting at MSU's Kellogg Bi-  
ological Station at Gull Lake, the  
Board made plans and cost esti-  
mates for a men's intramural  
gymnasium, a coed's intramural  
gymnasium, and a student activi-  
ties building.

In addition, tentative plans  
were drawn up for a \$25,000 seat  
addition to Macklin Stadium.

The Legislature will be asked  
to appropriate \$19,166,926 for fis-  
cal 1956-57, an increase of \$3,648,-  
060 over this year's budget.

Cost of proposed buildings and  
the Macklin Stadium addition is  
not included in this figure.

Current plans call for the  
gymnasiums and activities  
building to be paid for from  
student fees on a self-liquidat-  
ing basis, a method now being  
used to pay for the Harrison  
Road group of men's dormitor-  
ies.

Macklin Stadium's addition  
would be financed from athletic  
receipts.

The planned activities building  
would house student organiza-  
tions, student government, and  
all activities of the dean of stu-  
dents, except the health center  
and registrar.

Speculation is that it would  
be located on the site of the  
present horticultural gardens,  
between Natural Science and  
Horticultural buildings.

The men's intramural gymnas-  
ium would be located behind Jen-  
son fieldhouse, on the present  
site of the secret practice field.  
The coed's intramural sports  
building would be connected to  
the present coed gymnasium.

Need for the latter was stress-  
ed by President John A. Han-  
nah, who said "Our facilities for  
women's activities are no better  
than most Class 'B' high  
schools."

Beside the \$19 million all-uni-  
versity budget, the Legislature  
will be asked for \$1,993,116 to  
operate the Agricultural Experi-  
mental Station, and \$2,080,963 for  
Cooperative Extension Service  
operations.

The Board said indicated ex-  
penses for next year include:

Labor, \$2,576,046; supplies  
and services, \$5,288,393; and  
equipment, \$1,425,907.

Income, aside from state ap-  
propriations, is expected to in-  
clude:

Student fees, \$4,423,500; federal  
aid, \$133,560; department receipts,  
\$125,000, and land-grant interest,  
\$74,000.

The Board approved a recom-  
mendation by James H. Denison,  
administrative assistant to Dr.  
Hannah, that \$15,385 be ap-  
propriated to cover structural changes  
and equipment purchases for uni-  
versity radio station WKAR-FM.

The grant will provide for a  
power increase already approved  
by the Federal Communications  
Commission.

## Cobo Okays DSR Plan To Sell Streetcars

DETROIT, (AP)—Mayor Albert  
E. Cobo today approved the De-  
troit Street Railway Commission's  
plan to sell the last of the City's  
streetcars to Mexico City.

Mexico City has agreed to pay  
\$6,000 apiece for the 183 remain-  
ing cars—a total of \$1,008,000.

The sale still must be approved  
by Mexico City and Detroit's com-  
mon Council.

## First Rhodes Scholar

# John Wilson Finds Home Looks Good

By NAY KIGNEY

Wilson, a Rhodes Scholar, is  
pleased to be in Michigan. He  
said he was glad to be in Michi-  
gan. He said he was glad to be  
in Michigan. He said he was glad  
to be in Michigan.

to be in Michigan.

form of a one-hour meeting  
with an assigned tutor.  
Wilson's tutor was Nevill  
Coghill, who was a visiting  
professor at State during spring  
term of 1954.

During these informal ses-  
sions, the tutor recommended  
reading material and essay top-  
ics for the week.

There were no examinations  
until the close of Wilson's two  
years.

The exam, covering the en-  
tire two years, is 27 hours long.  
Consisting of nine papers, each  
to be written in a three-hour  
period, the schedule fills out  
one week.

The schedule is posted two  
weeks before the exam. Wil-  
son said he used the first week  
organizing data and "played a  
little tennis and tried to relax"  
during the second week.

Whether or not a degree is  
awarded hangs on the exam  
performance. Wilson was given  
an Honors B.A. which will  
automatically become a M.A.  
after five years, as is the cus-  
tomary policy of Oxford.

Since the exam is only given  
in June, persons failing it may  
try a second time the next year.  
Of the whole system, Wilson  
said, "Individual research is  
encouraged." He also believed  
that such a system would not  
work in the U.S. because the  
high schools prepare their stu-  
dents for a lecture system. Eng-  
lish high school work is direct-  
ed toward the tutorial system.

Director of Scholarship Robert  
Stewart received letters "of  
nothing but praise for Johnny,"  
from all he associated with in  
England.

As the time draws close to  
this year's Rhodes scholarship  
competition, Stewart has hopes  
that another representative of  
MSU will become a Rhodes  
Scholar.

Students of at least junior  
standing, between the ages of  
19-25, that have the scholastic  
and leadership qualities desired  
are eligible. The deadline is  
Oct. 31.

The top one or two appli-  
cants will be selected by a Uni-  
versity screening committee, to  
represent Michigan State before  
the state committee which se-  
lects two from the Michigan  
college candidates.

Wilson was one of the two  
who in 1952 represented the  
state of Michigan in the district  
competition. He was then chosen  
as one of the four Rhodes  
Scholars from the Great Lakes  
district.

### Scott's Appointment Approved by Board

#### Curriculum Changes Made Hotel Management Course

Appointment of Prof. L. W. Scott as assistant dean of  
College of Business and Public Service and reorganiza-  
tion of the curriculum in hotel, restaurant and general in-  
stitution management at Michigan State will become  
effective Sunday.

Changes were approved  
by the State Board of  
Education governing body of  
the state.

Scott currently is di-  
rector of the Kellogg Center  
of Hotel, Restaurant  
and General Institutional  
Management. In his new pos-  
ition he will be assistant dean  
of the College of Business and  
Public Service and will be  
responsible for continuing to  
develop the curriculum for  
the hotel, restaurant and  
general institutional man-  
agement program for the  
state.

Changes effective  
will be as follows:  
The department will be ab-  
olished and will be replaced  
by the College of Business  
and Public Service, with-  
out change of name.  
Donald Greenaway, head  
of the department, will  
continue as director of the  
new college.

S. Earl Thompson, head  
of the department of gen-  
eral institutional manage-  
ment, will continue as  
assistant director of the  
new college.

Greenaway will be  
in charge of the de-  
partment of hotel, restau-  
rant and general institu-  
tional management. In ad-  
dition to being  
in charge of the de-  
partment of hotel, restau-  
rant and general institu-  
tional management, he will  
be in charge of the de-  
partment of hotel, restau-  
rant and general institu-  
tional management.

### Ike Renews Bid for Arms Inspection

DENVER (AP)—President Eisen-  
hower formally renewed Wednes-  
day a bid to Russia to help dispel  
"fear and suspicion" by combin-  
ing both his own and a Soviet  
plan for mutual checking on mil-  
itary installations and move-  
ments.

Eisenhower made the offer in a  
letter to Soviet Premier Niko-  
lai A. Bulganin, signed Tuesday, and  
delivered in Moscow Wednesday.

Eisenhower's letter to Bul-  
ganin from the Russian Premier  
on Sept. 19 that used concilia-  
tory terms but still dashed cold  
water on the Chief Executive's  
proposal that Russia and the  
United States trade military  
blueprints and permit mutual  
aerial inspection of military  
installations.

Bulganin plugged for his own  
idea of creating "control posts"  
at large ports and railway junctions  
and on highways and air fields to  
"prevent dangerous concentrations  
of troops and combat equipment"  
and "remove the possibility of  
sudden attack."

The proposal of both chiefs of  
state were set forth at the Big  
Four "Summit" conference in Ge-  
neva.

And Eisenhower told a news  
conference in Washington Aug. 4  
that speaking informally at Ge-  
neva, he had said that if the Rus-  
sians trusted the Bulganin kind  
of inspection system, "it was all  
right with us; we would adopt  
both. And I proposed, I said,  
let's take them both."

Gov. Williams Wednesday re-  
moved Dr. Julian D. Feiler of  
Flint from the State Board of Ex-  
aminers in Optometry for accept-  
ing a \$500 bribe and waiting six  
months to tell officials about it.

The Governor had announced  
the suspension of the 34-year-old  
optometrist Sept. 23, but he said  
then he would not make the re-  
moval final until Feiler had a  
hearing.

"I have found almost incredi-  
ble and inexplicable Dr. Feiler's  
activities," Williams said follow-  
ing a 4 1/2 hour hearing in his  
office late Wednesday.

The young optometrist admitted  
in a sworn statement that he met  
Benjamin D. Ritholz, president of  
the King Optical Co. of Chicago,  
in a downtown Detroit store  
March 28, and that Ritholz gave  
him an envelope containing \$500.

### Kenton to Wed In Michigan

DETROIT (AP)—Bandleader  
Stan Kenton has obtained a Mich-  
igan license to marry his young  
vocalist.

The vocalist, billed as Ann Rich-  
ards, signed the license as Mar-  
garet Ann Borden of San Diego.  
She is 20, Kenton 43.

The license was taken out Mon-  
day before Kenton moved, on to  
engagements at Bloomington, Ind.,  
and St. Louis. There was no indi-  
cation when the couple would re-  
turn to Michigan for the wedding.

### Irish Glee Club To Sing Saturday

The 40 men of the Notre Dame  
Glee Club will sing Saturday at  
8 p.m. in the Kellogg Center  
Ballroom. The visiting group  
is being presented by the  
MSU Men's Glee Club.

Directed by Daniel Pedtke, the  
Notre Dame chorus will present a  
program of classical, semi-classi-  
cal, and popular music. John  
Gunn is the accompanist.

Tickets for the concert are on  
sale at the Union Ticket Office or  
may be purchased from MSU  
Men's Glee Club members. Ad-  
mission is \$1.50.

The United States had 26,750,  
000 births during the past 10  
years.

### But Sting Isn't Dangerous

## Bees Do More Than Bumble

Could you survive a bee sting?  
About one person in a million can-  
not.

Yet, the liquid from a bee's  
stinger has been used to treat  
rheumatism and arthritis, accord-  
ing to E. C. Martin, MSU apicul-  
turalist. This field is relatively un-  
developed, however.

Fortunately, most people suffer  
only local pain and swelling from  
a bee sting.

"Beekeepers accept stinging as a  
trade hazard," says Martin. He has  
been stung as many as 30 times in  
one day.

Martin added that even keepers  
do not relish stinging. To aid in  
prevention they often wear a veil  
over their faces, avoiding wool or  
black clothes in the presence of  
bees, and work with them in sun-  
ny weather when the older, more  
vicious bees are away.

When a person is stung, the barb  
that enters the skin remains along  
with a tiny sack of poison, Mar-  
tin reported. This barb is visible  
to the naked eye. If the victim  
scrapes the barb out with a fin-  
ger nail, he will not get a bad  
sting. If he tries to pull it out and  
squeezes the sack, more poison  
will enter the skin.

Only the bees known as "work-  
ers" sting humans, Martin said.  
The queen, or egg producing bee,  
has a stinger used solely for kill-  
ing those who try to usurp her as  
lone queen on the tribe.

### Kodachrome Club To Open Activities

Phillip G. Colman, Agricultural  
Experiment Station and Infor-  
mation Services photographer, will  
show a motion picture en-  
titled, "South Dakota-West of the  
River," Thursday evening at 7:30,  
to inaugurate Kodachrome Club  
activities.

The meeting will be held in  
the third floor Union rooms of the  
MSU Men's Club, formerly State  
College Club.

## Protest 7-0 Decision

## Newman Club Downs Vets

By FETE WALTERS

In Wednesday's intramural football contests, Butterfield 6 defeated Butterfield 5, 6-2, while Bryan 7 held Bryan 4 to a 13-13 deadlock, and Newman Club shut out MSU Vets, 7-0, in a game that was protested by the losers.

After playing a scoreless first half, Butterfield 6 scored the decisive touchdown of a 58-yard pass-run-pass play midway

through the third period.

With the ball resting on his own two-yard line, Butterfield 6 quarterback Dick Raymond elected to throw a short pass in the left flat. He connected with Gil Wolfe, who ran the ball about five yards and then fired to Don Brohl in the open.

Brohl then completed the touchdown play unmoled.

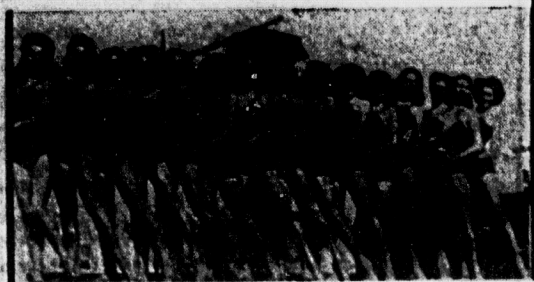

The attempted extra point was missed.

Butterfield 5 scored its two points when Dave Dolan was trapped attempting to pass from the end zone for a safety.

The play of the game came in the fourth period when Sam Moore hit Ralph Praybyla with a short pass at his own eight yard line. Praybyla cut to the left sideline and sprinted 32 yards to paydirt.

After playing three quarters of scoreless ball Newman Club penetrated to the Vets' two-foot line. On fourth down, after two off-sides penalties had been called against the Vets, Newman scored on a pass from John Schafer to Frank Kutas. Schafer then ran the extra point.

Vets protested the game, however, claiming that Kutas was an ineligible player since his name didn't appear on the officials' roster. The protest was turned over to the IM office for consideration.

## Planutis 'Influenced'

Fullback's Family  
Favored Football

By JERRY ROBBINS

To most sports-minded young boys the thought of summer means baseball and swimming. Football is in the past and won't return until the fall of the year.

However, this was never the case with State's Gerry Planutis. "While the other kids in my neighborhood were playing baseball I was out kicking my football," he said.

Gerry attributes this avid interest to his father who always encouraged his son to go down to the gridiron and work out.

Now in his last year as a Spartan back Gerry doesn't regret his father's "pushing him down to the field," as it has benefited both Gerry and the State football squad.

Planutis will best be remembered for his outstanding play at Ann Arbor this season. It was during that game that the 175-pound fullback plunged into the Michigan line time after time to eat away yardage for the Green and White.

"That was by far my best game," the 25-year-old senior stated. "I never ran so much as I did that day and everything I did seemed to be right."

Gerry was born in Detroit, but moved to West Hazleton, Pa., at an early age where he was graduated from high school in 1948.

In his last year of high school Gerry captured all-regional honors in football as a quarterback. He was also voted the outstanding athlete of the school, lettering in basketball and boxing, in addition to football.

A veteran of four years with the U.S. Army Gerry served most of his time in Trieste, Italy, where he once again won top football honors.

He captained his Trieste football team for two years and was also voted on the all-Trieste eleven as a halfback.

It was in Italy that Planutis met General John L. Whitelaw, former ROTC commandant at Michigan State. "General Whitelaw seemed to like my play on the field and began talking Michigan State football to me," Gerry said. "He was my real reason for coming here to school."

Next to football Gerry's big interest is children. In 1954 he worked at Camp Charlevoix as a counselor. Last summer he was employed by the Country Club of Lansing as caddy master.

Bucks such as Planutis didn't learn the trade overnight as it takes practice by the player and the interest and patience of the coaches to develop him. Gerry points out two coaches who have been a great asset to him.

"Steve Sebo helped me most," Gerry said. "He had a football science which I liked and seemed to pick up better than before."

"Also Sonny Grandelius has helped me to a point this year where I want to get out and run a little more each time. He works us hard and makes us want to get those extra yards," Planutis continued.

Every day hasn't been one of sunshine for this hard-hitting fullback. In his first college game at Iowa two years ago Gerry was victim of a serious misplay. After he was taken from the game Biggie Munn had only one thing to say, "Never lateral into the crowd."

This advice from Munn paid off well as up until this time Gerry's fielding record is perfect—no fumbles in over two years.

## Air of Confidence

Like Ol' Time  
On Grid Scene

The Michigan State campus is beginning to look to rabid Spartan fans after a year of football drought.

Fred Stabile, sports director on information services, has been besieged by requests for space from the working press. Sports writers from not only the Midwest but from the east and other regions of the country are coming to East Lansing.

The major newsreel companies are readying their crews and the National Broadcasting Company's color television men have been installing their equipment at Mackinac Island.

The morning lines at the Junction Hotel office stretch down to Sparty and MSU students are talking in tones of cautious optimism over the Spartan football fortunes.

At the practice field next to Jenison Fieldhouse the Spartans worked on pass defense and own offensive plays.

The players had an air of confidence, but not one of overconfidence. There was joking and laughing mixed with hard work.

Sophomore halfback Jack Kowalczyk, who showed more halfback, showed pass defense improvement.

Leo Haidys, who started first varsity game last day, was in the right position on the first team. Kaiser, a former all-state back from Alpena and recently a transfer student from Notre Dame, was in the end.

Kaiser entered the game against Stanford when he was injured on the kickoff. Kaiser so impressed coaches with his performance that he will probably be starting line this Saturday.

After heavy drills on Tuesday and Wednesday on the contact work, day, practice will be on hour today and taper off 40-minute workout Friday.

Saturday the Spartans have scored 65 points in 10 games, will meet a tough South Bend, Ind. The Spartans have scored 30 points in three contests—but they are to be scored on.

The surprising Spartans that has shown every sign to football eminence, change the unbeaten, unscored upon tag borne by Michigan State's multiple offense.

For the third straight day, the Irish worked on their defense for Michigan State's multiple offense.

SOUTH BEND, Ind. (AP)—One of Notre Dame's top sophomore halfbacks, Dick Wilkins of Duncan, Okla., may make his first appearance of the season Saturday against Michigan State.

Wilkins suffered an elbow dislocation two weeks before the Southern Methodist opener and missed the Irish march to triumphs over the Mustangs, Indiana and Miami of Florida.

In pre-season reckonings, Wilkins was rated almost as highly as Aubrey Lewis, the sophomore who has won the regular left half job for the Irish.

For the third straight day, the Irish worked on their defense for Michigan State's multiple offense.

# Peaks Keeps Slight Lead in Big 10 Rushing Race

## Minnesota Sophomore Leads Margin

### Overall Ranks 3rd in League Passing

CHICAGO (AP) — Halfback Clarence Peaks, Michigan's chief running threat, led the Big 10's rushing race today.

Peaks, who carried 158 yards on 31 carries in two league games for a 5.5 average, is only 5 yards behind Minnesota's surprising sophomore fullback Dick Borstad, who has carried 153 yards in two games.

Peaks' successor to Alan "Horse" Ameche, fullback Tom Thomas, has the top rushing average of the still young league with a two-game aggregate of 16 tries for 55.

Peaks' successor to Alan "Horse" Ameche, fullback Tom Thomas, has the top rushing average of the still young league with a two-game aggregate of 16 tries for 55.

## Luppino Tops Nation In Offense

By The Associated Press

Two young men whose football talents are confined to tucking the ball under an arm and running over all obstacles toward the goal lines are running one-two among the major college total offense leaders.

They are defending rushing champion Art Luppino, who went to Arizona as a baseball player but can't throw due to a football injury, and dashing Jim Swink of Texas Christian.

What's more, it's the first time in the 20 years major college statistics have been officially kept that a runner has topped the total offense list at this stage. No player ever has won the offense title by rushing alone.

NCAA service bureau statistics released Tuesday show Luppino has picked up 529 yards on 89 rushes in four games. Swink has carried 54 times for 484 yards to take second by a four-yard margin over Columbia's Claude Bennett, who gains most of his yards by passing.

Naturally, Luppino and Swink are first and second in rushing with Bob James of Auburn third with 360 yards. In addition, Swink is the leading major college scorer with 62 points on 10 touchdowns and two conversions and Luppino is third with 43, one behind Jon Arnett of Southern California.

## Signs 2 Year Pact

### Hutchinson Named Pilot Of St. Louis Cardinals

ST. LOUIS (AP) — Fred Hutchinson and Frank Lane joined forces Wednesday as field and office bosses of the St. Louis Cardinals and set their sights on an "ultimate" pennant for the club.

Hutchinson's appointment to a two-year contract as manager of the Redbirds was announced by Lane, general manager of only five days, at a news conference which merely confirmed reports of several days' standstill.

His salary was reported to be about \$30,000 a year.

Hutch takes over the reins from Harry "The Hat" Walker, whose team finished seventh after he replaced fiery Eddie Stanky last May. The 35-year-old Hutchinson is a former Detroit manager in the American League and guided Seattle to the Pacific Coast League title this year.

"I picked him to help Frank Lane do a good job," the Cards GM said of Hutchinson. "He did a helluva job with kids in Detroit. Our future here is based on youngsters."

Lane said Walker has been offered a manager's job in the Cardinals' minor league farm system and "will let us know in a day or so."

"Harry was a victim of un-

fortunate circumstances, especially a new general manager," Lane said.

"I know he's conscientious and a hard-worker and undoubtedly highly able but, as I've said before, my eggs are in one basket—the manager's—and I wanted a man I know, one in whom I had great personal confidence. I didn't know Walker."

Lane, the trader horn of baseball while the Chicago White Sox, said he discussed his selection of Hutchinson with club owner August A. Busch Jr. a week ago and "he said 'It's up to you.'"

## DeGraaf Named Back of Week

By THE ASSOCIATED PRESS

A T-formation quarterback is supposed to think, as well as to pass, take, handle the ball and occasionally run. Cornell's Billy DeGraaf displayed all these abilities in abundance against Harvard last Saturday and earned the designation as Back of the Week.

De Graaf earned the top billing over such rivals as Navy quarterback George Welsh, who barely missed for the second straight week. Terry Barr of Michigan and Jim Swink of Texas Christian.

For the past two seasons Cornell supporters had been expecting such a top performance from the big lad from Ithaca, N.Y., but Billy let weight train-

bles overtake him and disappointed them. This season, 29 pounds lighter than last fall, DeGraaf came through when he was needed the most.

Not only did DeGraaf score all of Cornell's points in a 20-7 upset of Harvard, but he directed a near-perfect performance and on defense he batted down a sure-

to-score pass in the end zone after being jostled on the play. Navy's Welsh also called a fine game in a 21-0 victory over Pittsburgh and completed 6 of 16 passes for 121 yards and one touchdown. After being carried off the field with a toe injury in the third quarter, he returned in the fourth to guide Navy to its final score.

## Anniversary Dinner May Found Tradition

Suggested Annual Banquet  
Honor Founder's Day

An "Anniversary Awards Banquet," tentatively scheduled for Feb. 16, may anchor a new tradition at MSU.

Formerly planned by the student Centennial Commission for Nov. 3, to recognize students who made outstanding contributions to their organizations, the banquet has been expanded to honor faculty members and alumni.

James H. Denison, public relations director and chairman of the Faculty Centennial Committee, suggested the banquet might be held annually to commemorate Founders' Day, Feb. 12. Because the J-Hop falls on Feb. 10 and 11, the date of the banquet was set for Feb. 16.

"The event will pay honor to all students, alumni, faculty members, students and friends of MSU that contributed to the success of the Centennial Year," Bill Barry, director of the Student Centennial Commission, said.

Pat Moynihan, East Lansing junior, was appointed chairman of the Anniversary Awards Banquet. Students and faculty, in addition to 300 honored guests, will be invited to attend.

Prominent speakers representing government, industry and education will also be programmed, Barry said. Recipients of the anniversary awards will be presented with scrolls, commending their service to the university.

Three committees, composed of faculty and students, will be as-

signed to select the recipients of the award citations. The Student Centennial Commission will sponsor the last Centennial event.

### Economics Lecturer Writes Labor Article

Dr. Marten S. Estey, lecturer in economics at Michigan State, is the author of an article, "The Strategic Alliance as a Factor in Union Growth" in the October issue of "Industrial and Labor Relations Review."

In the article Dr. Estey advances the theory that growth of unionism among retail clerks is most likely to occur where clerks have the support of such strategic groups as truck drivers and warehousemen.

PLANNED BUSINESS INTERVIEWS	
Oct. 12: Alfa-Romeo Co.	Mech. or Elect. Engr's.

in Lockheed's expanding research  
and development program

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of aircraft, both commercial and military. 46 major projects are in motion, including 13 models of aircraft in production — extremely high-speed fighters, jet trainers, commercial and military transports, radar search planes, patrol bombers. The development program is the largest and most diversified in the division's history. New positions have been created for graduates in: Aeronautical, Civil, Electrical and Mechanical Engineering and Mathematics and Physics.

Missile Systems Division, Van Nuys, California specializes in the technology of guided missiles. Its research and development cover virtually every field of scientific endeavor, and offer Engineers and Scientists problems of increasing complexity. Positions are open for B.S., M.S. and Ph.D. candidates in: Aeronautical, Electrical and Mechanical Engineering and Mathematics and Physics. In addition, a scholarship program leading to M.S. Degrees has been established for those able to qualify for graduate standing.

This broad expansion program is creating new positions in each division. Graduates in fields of Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.

Separate interviews will be given for each division.
