EAST LANSING, MICHIGAN—TUESDAY, MAY 1, 1956

PRICE 5 CENTS

## BASEBALL TODAY

The baseball team travels to Kalamazoo today for a game with the Western Michigan Broncos. Start time is 3:30. Capt. Ed Hobaugh is scheduled to start. See story, page 5.

## WEATHER

Fair, with little change in temperature is predicted for today. Wind will be light and variable. Mondays low was 28. The high today will be 35.

## Telethon Goal Set By AUSG

Hope to Raise \$30 Thousand

A \$30,000 goal was set today for the campaign sponsored by the All-University Student Government to raise money for the U. S. Olympic Fund.

The goal was named by the executive committee of the campaign. This committee includes: H. Young, athletic director; Bob Young, executive director; Bob Young, director of scholarships; and Bill Mansfield, student government president, are chairman.

Entertainment and sports personalities will combine their talents May 3 in the MSU ice arena to help achieve the goal.

This "Spartan Olympic Night," will consist of a three and one-half hour statewide telethon. The show will follow a one and one-half hour ice spectacle.

Carol Heiss, 16-year-old world's champion figure skater, will star in the ice show which begins at 7 p. m.

Carol Heiss, who has indicated plans to become a Spartan in 1957, will be accompanied by her younger sister, Nancy, and brother, Bruce, in a duet and routine.

Carmen Cavallaro, band-leader, will head the list of women on the telethon which will enable television viewers to phone in pledge contributions.

The show is in progress. This show will be on the air from 10:30 p. m. to 2 a. m. See TELETHON, Page 6.

MSU Skaters to Participate in 'Olympic' Show

MSU skaters will be under the spotlight as the world's champion of the blades, Carol Heiss, for the ice show on Spartan Olympic Night, May 3.

Carol Heiss, East Lansing native, will perform a solo number, "Salute to MSU."

Other skaters in the cast are: Ann Arbor freshman, Mary Heiss; University Heights, Ohio, sophomore, Chady Davis; University Heights, Ohio, sophomore, Elaine Brown; and Ned Shaw.

The show will start with a production number featuring an imitation of the traditional Olympic torch.

Miss Heiss will perform the closing number which won her the world's title at Garmisch, Germany last February. She won this title by defeating her rival, Tonya Allen, in the winter Olympics last week earlier.

Nancy and Bruce Heiss, young sister and brother of Miss Heiss, also appear in the show. The Heiss family are also champions. Nancy is the 1956 Senior Mid-Atlantic champion.

Bruce was the Junior Men's champion in the same competition.

MSU Skating Club members participated in the club's annual "Larval on Ice" in Detroit starring the Heiss family.

Detroit solo skaters include Carol Heiss, Sandra Shaw and Carol Heiss, Doug Ramsey, 1956 Eastern Novice Ladies and boys champions.

Defeated are precision skaters, Jimmie and Roy Heiss, who will skate to "Varsity" in the show.

Defeated are precision skaters, Jane Gage and Jane Gage, who will skate in the routine.

Attending the conference of metropolitan planners are left to right: Frank P. Zeidler, mayor of Milwaukee; Frederick G. Gardiner, and Dennis O'Harrow, Executive Director of the American Society of Planning Officials.

## City Planners Hear Williams

By JOE HOFFMAN

Gov. G. Mennen Williams headed a group of seven speakers Monday as the second day of the National Conference on Metropolitan Problems swept into full gear.

Williams spoke and presided over the evening session which included three other speakers: Frederick G. Gardiner, Chairman of the Municipality of Metropolitan Toronto; Park H. Martin, executive director, Allegheny Conference on Community Development in Pittsburgh; and Donald R. Larson, member of the Metropolitan Miami Municipal Board and head of the department of government at the University of Miami.

The three men gave examples of how their respective cities have adopted, and are currently working on, new plans to ease metropolitan problems.

Gardiner related how Toronto and surrounding Ontario communities met their problem through creation of a "metropolitan government" which has no exact counterpart in the United States.

Gardiner described this as a new level of government charged with providing area-wide services and letting local agencies handle those of a local nature.

Martin told that Allegheny County, of which Pittsburgh belongs, hopes to adopt a plan.

Applications are being accepted for positions on the staff of the 1957 Wolverine.

The positions open are picture editor, copy reader, organizations writer, feature writer, caption and headline writer, seniors editor, index editor, art editor, advertising manager, sales manager and promotion manager.

Deadline for filing of application letters is May 8. The letters should be turned into the Wolverine office, third floor of the Union.

Personal interviews will be held May 14-18.

## Organizing A Club

## Spartan Prefers Skin Diving

When Truman Schrag, East Lansing junior, goes out for an afternoon of his favorite sport, he doesn't head for the baseball diamond or the golf course.

Instead he drives into northern Michigan, where the lakes are still clear and undisturbed by human activity. They aren't as ideal as the ocean, but beginners can't be choosers when you live eight hundred miles from the Atlantic.

For Schrag is a skin-diving fan. He loves the sport so much that he's starting to organize a skin-diving club on the MSU campus.

Schrag first got interested in skin diving in 1952, when he was vacationing on the French Riviera. A friend with an aqualung taught him the rudiments of the sport.

which will enlarge the powers of the county government, and at the same time, split it into separate legislative and administrative units, without eliminating any local public agencies.

This proposal is due to come before the Pennsylvania Legislature in 1957.

Larson cited a new cooperative effort of the municipal board of Miami, an effort, he said, needing the full cooperation of not only the natives, but of all the tourists. He said that the many tourists migrating annually into Miami would learn the Miami system and might learn enough from it to try to integrate it into their own areas.

Williams used his home state of Michigan for examples of ways and means to meet the problem at hand. He especially concerned himself with the problems of education and water.

Williams pointed out that many cities are trying to fashion their governments to meet with the future instead of adjusting to the present situation.

"An urban society must be organized in a fashion designed for its own needs, not for those of a far distant 19th century," he said.

Proceeding the morning session, a resolution was passed to send official condolences to the families of the three men from Louisiana who were killed Saturday en route to the conference when their Cosmo-182 aircraft exploded near Grand Lodge.

Powell B. McManey, president of the General American Life Insurance Company in St. Louis, looked at the metropolitan problem from the businessman's point of view.

"Business men are facing the fact that they suffer when a metropolitan area deteriorates. Property values are lowered, there is less tax revenue to support streets, airports, and museums. New business will be kept away," he said.

O. W. Campbell, president of the League of California Cities and city manager of San Diego, made the statement that no person can become a true citizen in our complex world.

He added: "Our way of life today has become so complicated that Americans often live in one city, make a living in another, go to church in a third, send their children to school in a fourth, find recreation in a fifth and become true citizens of none."

Campbell also stated that he thought it "incredible that no agency, government, or institution has been created to plan and conduct the main services and facilities vital to the metropolitan community."

See CITY PLANNERS, Page 6

The brass will have it today as all Army ROTC basic cadets and all AFROTC cadets will be excused from parade.

All advanced Army ROTC cadets will report as usual in uniform at 4 p. m., on the drill field in front of Den Hall.

## Alben Barkley Dies From Heart Attack

### Truman Praises Barkley

HURON, S.D. (AP)—Former President Harry S. Truman received word of Sen. Barkley's death Monday as he stepped from a car after a parade here.

Informed of the former vice president's death, Truman said of his 1948 running mate: "I am just as sorry as I can be to hear of Sen. Barkley's passing. He was one of the finest men I ever knew."

He was a great congressman, a great senator and one of the greatest vice presidents of the nation—and a citizen that the United States can always be proud of."

President Eisenhower said Monday night he was shocked at the death of Sen. Alben W. Barkley.

"The nation is the poorer by this tragic event," the President said.

Eisenhower was informed of the death of the former vice president during a meeting with congressional leaders on foreign affairs. The White House issued this statement from the President.

"I was shocked to learn the news of the sudden death of Sen. Barkley."

Democrats Lose Orator

WASHINGTON (AP)—The sudden death of Sen. Alben Barkley of Kentucky Monday night took from the Democrats a prospective keynote for their presidential nominating convention and a veteran warhorse of the campaign to follow.

The heart attack that felled Barkley at Lexington, Va., shocked Democrats and Republicans alike. It removed from the national scene a former vice president who retained at 79 a spell-binding oratorical ability highly valued by his party.

Although younger men had been suggested for the role of temporary chairman and keynote at this year's presidential nominating convention in Chicago, many politicians had expected Barkley would be the compromise choice if any controversy developed over a selection.

Barkley, beloved of his colleagues because of his enormous fund of humorous stories, served as Democratic temporary chairman in 1932 when the late Franklin D. Roosevelt first was nominated. He repeated the role in 1936.

Ag Committee OK's Farm Relief Plan

WASHINGTON (AP)—The House Agriculture Committee approved a new farm relief bill Monday but refused to write in authority for President Eisenhower to make soil bank payments this year.

A Republican attempt to add soil bank payments to the legislation was defeated on a party line vote of 19-15.

The committee voted unanimously to get the bill to the House floor, where the soil bank issue—and others—will be fought out all over again.

Chairman Cawley (D-N.C.) said he will try to get the bill to the floor as soon as possible, perhaps Tuesday, under a rule permitting amendments to be introduced freely.

The bill is stripped of many features objectionable to the administration and is the "official" Democratic substitute for farm legislation which Eisenhower vetoed April 16.

It contains a soil bank plan but not the authority Eisenhower contends he needs to pay farmers this year for cropland they promise to withdraw from production next year.

The first meeting will be held Thursday evening at 7 p. m. in 32 Union. After that, the sea's the limit.

Mortar Board members practice capping for this morning's singing at the "May Morning Sing."

## Early Songfest

## 53 Coeds Tapped By 2 Honoraries

Outstanding Michigan State coeds were honored this morning at the traditional May Morning Sing with membership in Mortar Board and Tower Guard.

Mortar Board also selected Dr. Frances DeLisle, director of the women's division, dean of students office, as their fourth honorary member since the chapter was installed in 1935.

Dr. Thomas Hamilton, dean of the Basic College, served as master of ceremonies. Songs were presented by the Men's Glee Club and by Wendell Westcott, of the music department, on the carillon.

New members of Mortar Board and their parents and this year's group were guests of President and Mrs. John A. Hannah at a breakfast in the Union.

Spartan Women's League honored new Tower Guard members and their parents at breakfast.

Eighteen juniors were tapped for Mortar Board on the basis of their scholarship, leadership, and service to the university.

Wearing the tasseled hats to classes today will be Mary Jo Allen, Augusta, elementary education; Hanna Bohnstedt, East Lansing, social science; Yvonne Brown, Chicago, Ill., speech; Margaret Foster, Lansing, elementary education; Jean Gregory, Vienna, Ill., journalism.

Mary Irwin, Grand Rapids, social science; Colette Jackson, Rochester, Minn., social science; Sylvia Jackson, Angola, Ind., language and literature; Sara Jo Kleinbeck, Holland, chemistry; Joan McCarty, Carsonville, journalism.

Patricia Moynihan, East Lansing, speech; Loraine Nagler, Detroit, home economics; Sarah Owen, Algonac, music; Betty Petersen, Chicago, Ill., elementary education.

Gail Plourde, Norway, chemistry; Elizabeth Schneider, Corning, N.Y., social science; June Turner, Farmington, journalism; and Barbara Zuege, Wauwatosa, Wis., journalism.

The 35 freshmen who will wear the red and gold ribbons of Tower Guard are Sonja Badarik, Dearborn; Carolyn Bartelli, Marquette; Deanna Baus, Midland; Margaret Brubaker, Lansing; Nancy Campbell, Marshall; Evelyn Carlson, White Cloud; Anne Edwards, Wayne, Pa.; Elfriede Engel, East Lansing; Karen Fox, Flint.

Carol Garner, East Lansing; Faye Graham, East Lansing; Myrtle Hendee, Oakland, Calif.; Louise Hornbeck, Pittsburgh, Pa.; Eleanor Jones, Grosse Pointe; Marilyn Jones, East Lansing; Jean Judy, Dearborn.

But the Zuege parents think this will be their last trip. The next child is David.

## 'Veep' Falls At Mock Convention

Falters During Talk to Students

LEXINGTON, Va. (AP)—Sen. Alben W. Barkley (D-Ky.) collapsed and died Monday of a heart attack on the stage he loved best—the political platform.

The 78-year-old "Veep" in the Truman administration, faltered and fell as he neared the end of a 30 minute keynote speech at Washington and Lee University's mock Democratic convention.

He had just recalled his national political career as a congressman, junior senator, senior senator, majority leader, vice president and finally junior senator again for the cheering students. His last words were:

"I am willing to be a junior. I am glad to sit on the back row, for I had rather be a servant in the house of the Lord than to sit in the seats of the mighty."

He stepped back as though trying to continue and fell at 5:13 p. m., brushing a microphone to the stage with him.

A hush fell over the stuffy gymnasium which moments before had been rocking to Barkley's quips.

Mrs. Barkley, the St. Louis widow he married in 1949, was in the audience. Virginia's Gov. Thomas B. Stanley escorted her to the platform.

Within five minutes Dr. Robert Munger, university physician, was at Barkley's side. But the "Veep" was already dead. Dr. Munger said the heart attack was either a fibrillation or a coronary occlusion.

The 1,000 students, assembled to try to prevent the real Democratic convention of next August in all the hospitals and trainings of a real convention, underwent a sharp shift of mood as Barkley lay on the stage. There was an uneasy quiet.

Stretcher-bearers removed the body to a mortuary, pending plans for removal to Washington. State trooper J. B. Ratliff left with Mrs. Barkley to drive her back to Washington in the Barkley brand.

The Veep, who had been a delegate to every Democratic National Convention since 1920 and considered briefly making a try for the top spot on the ticket in 1952, delivered a last speech that bore the genuine Barkley brand.

He said when he arrived in Lexington he had not decided whether he would seek to go to Chicago again this August for the national convention.

But since getting here, the old fire horse heats the bell," he said.

The sudden death of Barkley—a figure on the national political scene for the past 43 years—brought shocked expressions of grief from President Eisenhower.

Vol. 48—No. 19 Tuesday, May 1, 1956 Page Two

# Ohio State Feels Sting Of Violating Aid Code

For the second time in three years a Big 10 school has been punished by the conference.

In February, 1953, MSU was placed on probation for illegally giving aid to athletes.

Last week Ohio State received the same penalty for the same reason.

The action by Commissioner Kenneth L. "Tug" Wilson means the Buckeyes will be ineligible to represent the Big 10 in the Rose Bowl next January.

It could also mean that a third place team might be sent to the coast classic. Under terms of the Big 10's agreement with the Pacific Coast Conference, a team can go to the Rose Bowl only every other year.

MSU is ineligible because it went last January. If the Buckeyes and Spartans finish one-two in the grid race, the third place team will get the nod. In the 10-year history of the Rose Bowl pact, a third-place finisher has never been sent.

Other provisions of the probation state that Ohio State must supervise the work program of its athletes diligently.

OSU Coach Woody Hayes was ordered to comply with all Big 10 rules regarding financial assistance to athletes and 20 of his players were temporarily and theoretically declared ineligible.

MSU and the U of M were dragged into

the probation hassle as a result of a letter published in the Ohio State Journal.

It quoted a conversation in which Edgar Harden, former Big 10 faculty representative at MSU was involved.

Harden was quoted as saying the U of M had a \$100,000 slush fund to obtain football players. He passed the whole thing off as a joke when asked about it last week.

Harden was instrumental in getting MSU removed from probation in December 1953, thereby enabling the Spartans to participate in the 1954 Rose Bowl.

OSU has received a lot of bad publicity in the past week. Like MSU before it, it is feeling the sting of a probation and the consequences that go with it.

There is little doubt that the Ohio university was guilty of the charges of which it was accused. Hayes had been free in saying financial help had been given his players.

Ohio State and Columbus have always been hotbeds of football. If a coach didn't win, out he went. Hayes satisfied fans' thirst by giving them a winning team.

But Hayes and OSU went just a little too far and must pay the penalty. The loss of an opportunity to go to the Rose Bowl seems large, but it becomes very small indeed when the reputation of the university is involved.

## The Veep

Big of body, determined and powerfully voiced, Senator Allen W. Barkley was never happier than when whipping up enthusiasm at a political meeting or stoutly defending a favorite measure on the Senate floor.

Known as a "ready man," he could rise at any moment and speak long and earnestly—without a single note—on almost any subject.

His speeches were wonders of showmanship. He shouted. He strode the green-carpeted center aisle. He flailed the air with his fist, sometimes striking the palm of his other hand. His face turned red. Attired on hot summer days in an immaculate white suit, he was the personification of the fictional Kentucky colonel.

He could tell a story like no other senator. Some said he was the best story-teller to come out of Paducah, Ky. since Irving S. Cobb.

One of his stories was about a political campaign.

In a little Kentucky town he met a man who recalled a speech the senator had made there some years before.

"I sure did enjoy that speech you made here last time," volunteered the voter.

Barkley was flattered, but confessed he couldn't recall what the subject had been.

"Oh," said the voter, "neither can I. But I'll never forget that story you told."

When he was chosen by acclamation as the Democratic nominee for the vice-presidency in 1948, Barkley started his nomination speech with these words:

"Inasmuch as I am about to enter upon the discharge of the duties of an office that requires four years of silence, I will be brief in my acknowledgement."

Barkley was vice-president from 1948 to 1952. He was a political non-combatant during this time, but sometimes injected himself into the floor discussion after asking the Senate's permission.

During the first session he presided over, he made more rulings and remarks than most predecessors did in years.

During his national political career, he had been a congressman, junior senator, senior senator, majority leader, vice-president and finally junior senator again.

Barkley probably will not go down in history books as the nation's most distinguished senator.

But he was capable and colorful.

He died Monday where he felt most at ease and where he was at his political best—before an audience.

It is almost anti-climactical to say that his final words were:

"I would rather be a servant in the house of the Lord than sit in the seats of the mighty."

## LITTLE MAN ON CAMPUS

by Dick Stiller

"Anyone else like to disagree on what the test should have covered?"

## Here and There B. F. Goodrich Would be Proud

By GENE RITZINGER  
State News Editorial Page Editor

The men who inhabit the Brody group dormitories have made a discovery that is likely to create a depression in Akron unless rubber makers buy their secret.

The find came about quite accidentally during lunch one day last week.

Jello was served for salad. It was a lime-flavored, or at any rate a green-hued concoction threaded with slivers of carrot.

A diner—some say he was from Rather, but Bryan and Rutherford have since claimed him for their own—dropped his, the first indication that there was a substance of tremendous possibilities.

The jello, you see, bounced. Our hero was flabbergasted. But he remembered his Nat Sci prof used to say that repetition with the same results was what made scientific discoveries tenable.

He dropped the jello again. It bounced again.

This was unbelievable. Our hero examined the substance. It looked normal. Square—about three inches by three inches.

He tried to slice it. No dice. Maybe, he thought, some wise guy is playing tricks.

He glanced around. Other guys had been observing him. They were picking up their jello, dropping it and catching it on the rebound. One guy—probably a basketball player—was drooling his.

Obviously, this was no trick. Our hero and several cronies pocketed their jello, finished lunch—slew—and hurried outside to give the discovery an outdoor test.

They threw it on the pavement. It bounced. They jumped on it.

### A bit slippery, but resilient.

"Let's give it a height test," someone yelled.

Up to the third floor of Rather.

Hand outstretched, pull zip-cord, Geronimo!

This time the bounce measured a good four feet.

Not springy enough for tennis balls, perhaps, but it could cause a revolution among tire makers.

Green, at least, puncture proof tires with slivers of carrot! This is what the advertising boys on Madison Ave. have been waiting for. It would complement a red Thunderbolt perfectly.

At last report, the Brody men were still awaiting bids. Seemingly they were having some trouble with Brody cooks who want to patent the recipe.

### SALTY TROUBLE

LEXINGTON, Ky. (AP)—Police were puzzled when residents protested about an icy street on the city's outskirts. Workmen on a truck had spread salt on the street. Investigating officers found that six youngsters with sleds followed the truck, sweeping up the salt.

The answer is probably: 1. These are "museum pieces," often seen only one time, which must compete with hundreds of other works of art for the attention of the spectator; and

2. a painting which is larger than a human being has a scope, or presence, or scale, which a smaller piece can never have. This is not a new idea, but one to which the contemporary artist has returned, following the tradition of the great painters of the 16th, 17th and 18th centuries.

The exhibition may be seen in the Union Gallery from 8 a.m. to 9 p.m. daily, including Saturdays and Sunday.

## Letters to the Editor

# It Takes Seed, My Dear Watson, Seed

To the Editor:

Please! Don't let it happen again!

For the past two springs I have watched APO launch its very worthy project of trying to Save Our Grass. They put up some very clever signs in the most needed bare spots, and the students really go out of their way to co-operate by avoiding these paths. In two years I've seen very few students ignore the signs. Yet at the end of spring term the signs are taken down—and the paths are still there!

Why? Well, a school rich in agricultural know-how should realize that signs alone aren't going to grow grass. It takes seed, my dear Watson!

It seems to me that after Alpha Phi Omega has gone to all the trouble of making, placing, and publicizing their signs, the least the university could do is plant a little grass seed around!

Let's see, some of that much-spoken-of-but-little-seen co-operation between the administration and students.

Janice M. Bischoff

(EDITOR'S NOTE: There are several places on campus currently being seeded, for instance, opposite the west entrance of the library, around coed dormitories, outside Olds Hall.)

## Basic Training

To the Editor:

Concerning Mr. Carroll's statement that "Basic training is actually rougher than combat," (Letters to the Editor, State News, April 23.) Is thrusting at a dummy with the bayonet 72 hours out of a 16 week course "rougher" than thrusting at an equally armed man once in combat?

Is moving over a half mile obstacle course on the double with rifle at high port "rougher" than assaulting a thousand meter hill under fire?

Is being required to stay awake four hours in a night during training "rougher" than standing in a slop filled hole from sundown to sunrise, knowing that if you doze your life and the lives of your comrades may be lost? I could cite many other parts of this "senseless training," but why bother?

I haven't seen a great deal of combat, only enough to say that I have. In this "hasty and erroneous judgements" field, Mr. Carroll, I am afraid I must question your knowledge of combat. If I may, where, when, opposing what enemy and in what capacity? To compare training with the real McCoy is bad enough. But to say the former is "rougher," think again, please do.

Jack Link

## Art 9 Paintings from the Stable Gallery

(EDITOR'S NOTE: From time to time the State News will present in this column news and comments relating to the various art works which may be seen on campus. The articles will be written by staff members of the Department of Art.)

The current exhibition in the Union Gallery shows "Nine Paintings from the Stable Gallery," and will continue until May 8. Represented are paintings and collages of several younger experimental painters whose work has achieved national recognition in recent years.

Taken as a whole, the group makes a strong, exciting statement. To a viewer who is to some extent familiar with the contemporary abstract movement in art, the show is apt to present some rather challenging new ideas and images. To the uninitiated, the impact of these nine paintings may come as a distinct shock.

For one thing, one must realize that like many other painters today, these artists are not at all interested in depicting the external appearance of nature in its more familiar recognizable form.

Subject matter, when it is present at all, is vestigial, and is merely the vehicle for the presentation of more formal aspects of painting such as paint quality, exciting pattern and movement, and color.

Titles such as "A City Landscape" (by Joan Mitchell), or "Salmon River" (Walter Plate), or "Figure" (Corrado-Marcia-Belli) suggest that the artist finds a starting point in nature, which becomes "transformed" for aesthetic or emotional reasons.

"A City Landscape" for example, presents a parallel emotional experience to that suggested by a busy street scene with its crowded chaotic activity, but never is it possible to identify its detailed parts—shapes, movements, patterns, etc.—with particular recognizable objects.

The paintings are, for the most part, huge, and one is asked why this interest by many artists in sheer size. Certainly they would be out of place in the average home.

The answer is probably:

1. These are "museum pieces," often seen only one time, which must compete with hundreds of other works of art for the attention of the spectator; and

2. a painting which is larger than a human being has a scope, or presence, or scale, which a smaller piece can never have. This is not a new idea, but one to which the contemporary artist has returned, following the tradition of the great painters of the 16th, 17th and 18th centuries.

The exhibition may be seen in the Union Gallery from 8 a.m. to 9 p.m. daily, including Saturdays and Sunday.

# Ike Warns Against Foreign Aid Dispute

## Might 'Gravely Endanger' National Insurance Policy

WASHINGTON (AP) — President Eisenhower advised Congress Monday that tampering with his foreign aid program would "gravely endanger" national security and upset foreign policy.

# Ike Outlines Policy Aims In Commerce

WASHINGTON (AP)—President Eisenhower told the U. S. Chamber of Commerce Monday that his administration is guided by a policy "to foster progress through encouraging private competitive enterprise."

Eisenhower sent a message of greetings to the opening session of the three-day annual convention of the business men's organization.

First day speakers included James A. Farley, former Democratic national chairman, and Philip Graham, the evangelist.

Eisenhower's message said the administration policy has created "a new era of prosperity."

"We must now find ways to assist less flourishing segments of the economy to share more equitably in this abundance and we must continue to champion fiscal integrity in government and to promote healthy economic growth."

Farley told the business men that Eisenhower must bear part of the responsibility for the fact that Congress has not acted on many of the government reorganization and economy proposals made last year by the commission headed by former President Herbert Hoover.

Farley noted that Eisenhower had called attention to the Hoover recommendations in his message on the budget and the State of the Union.

He said it has been estimated that if the government adopted all the Hoover proposals of last year, which were in the commission's second report, there might result a savings of five billion dollars a year to the taxpayers.

Evangelist Graham said in his speech that he found during his recent world tour that leaders were pessimistic about the chances of making beneficial use of atomic energy, as contrasted with restriction.

May 4	Pottersville Public Schools	4th & 6th Grades, Football Coach.

# DC Citizens Get Chance To Vote

WASHINGTON (AP) — A similar election anywhere else probably wouldn't create much of a stir.

But when District of Columbia residents go to the polls Tuesday, it's something extra special. They've been waiting impatiently 83 years for this chance to vote.

Each party will pick six delegates to the national conventions. The main argument is among the Democrats, who have rival slates dedicated to the presidential hopes of Adlai Stevenson and Estes Kefauver.

But overriding the election itself is the thought that maybe this is a dress rehearsal for the real thing, and that pretty soon Washington, D.C., will be permitted to elect, say, its own dog catcher.

As steel is to Pittsburgh, or the automobile to Detroit, or wheat and cattle to Kansas City, so is politics to Washington.

And yet no local resident of Washington, D.C., ever has voted for president, and except for four years when it had a nonvoting delegate, the city has had no representation in Congress.

In its early days it did have a mayor and alderman, but even this privilege was removed. The city now is run by three commissioners, appointed by the President, and Congress serves as a sort of City Council in its spare time.

The last election held here was when U. S. Grant was in the White House, in 1873.

The late Theodore Tilton, editor of the Washington Star and a strong home-rule advocate, wrote a four-column editorial that the paper brings up to date and prints on election day.

Asserting that Washington has a larger population than 13 states and pays more taxes than 25 states, it said the fact that its citizens can't vote is the "nation's shame."

LINDSEY NELSON

# L. Nelson To Emcee Telethon

Lindsey Nelson will call the plays at Friday's Spartan Olympic Night when he emcees the telethon show in the MSU ice arena.

Nelson was voted the No. 2 TV Sportscaster in the nation by 400 television columnists and editors in 1955. He will interview former Spartan Olympic team members and 1956 prospects and several top football coaches in the country during the state wide television variety show.

These include coaches of the year, Biggie Munn, Duffy Daugherty and Jim Tatum. Munn was Coach of the Year in 1952. Daugherty was the 1955 winner, and Tatum, University of North Carolina head coach, was honored in 1953 when he was at the University of Maryland.

Texas A. & M. head coach Paul "Bear" Bryant will also be interviewed by Nelson along with other sports personalities who will be at MSU for the annual football coaches clinic.

Nelson was the play-by-play announcer on the NCAA collegiate football "Game of the Week" on NBC-TV during the 1955 season and also did the commentary of the East-West Shrine game and the Cotton Bowl.

During the 1955-56 season, he announced the NBA professional basketball "Game of the Week" and teamed up with Bud Palmer and Jack Kramer on the telecast of the Davis Cup tennis matches and the National Singles from Forest Hills, N.Y.

# Summer Courses Announced by Art Department

The art department is offering two summer courses entitled "Graduate Art Education Workshop" and "Art for Classroom Teachers."

The Art Workshop will be held for three weeks, June 26-July 17, and will feature visiting teacher Mariska Karasz, designer and cloth specialist.

Regular staff members will be Margaret Yuill, crafts; Grant Swayze, jewelry; Louis Raynor, ceramics; Ralf Henricksen, painting; and Alma M. Goetsch, silk screen and art education.

The course is primarily for art teachers, consultants, and supervisors to further their own creative work and help them solve professional teaching problems.

The "Art for Classroom Teachers" is a six-week course which will be held June 26-Aug. 3. The instructor will be Margaret Yuill, of the staff.

Besides these sessions of regular art courses on campus, the department will offer a six-week painting course at Leland, Mich.

Dietetic Scholarship Awarded to Senior

Juno-Ann Krohn, Livonia senior, has been awarded the Michigan Dietetic Assn. scholarship. She will take her dietetic internship at the University of California Hospital, Berkeley, Calif.

Sixty per cent of U.S. men 65 to 69 years old are still in the labor force.

## Hobaugh Sets Sight On Major Leagues

### Playoff Appearance Gives Hurler Biggest Sport Thrill

By BRUCE AUGENSTEIN

Following the pattern of a former great Spartan baseball pitcher, Eddie Hobaugh, durable senior from Ford City, Pa., hopes the outcome will be similar.

Hobaugh, captain of this year's baseball squad, has a desire to play major league baseball. Fans will remember former Spartan Robin Roberts, now with the Philadelphia Phillies, who received his tutoring under Coach John Kobs, Spartan mentor. Eddie hopes to fulfill his ambition as did Roberts.

Hobaugh has taken steps in the past two years to move his intentions by winning 13 games. As a sophomore, on the 1953 Big 10 championship team, he won seven games while losing but two and had a 2.03 earned-run average.

Last year he won six games, after recovering from a five-day stay in the hospital with a general infection early in the season.

Traveling to Omaha, Neb., to the National Collegiate baseball playoffs in the sophomore year was the "biggest thrill" of his career here at State.

During the play-off series he

appeared in three games and compiled a 1-1 record, while the Spartans finished third in the battle for the championship.

A three-sport man in high school Hobaugh participated on the basketball and baseball teams that won sectional titles in Pennsylvania during his senior year.

Eddie was a forward on the basketball squad, pitcher on the baseball team and played in the backfield with the school football team.

His main interest is athletics, but he also possesses a cultural and interesting hobby. His hobby is music and he keeps a record collection of both popular and classical music. He is a physical education major and last term did his practice teaching at Everett High School in Lansing.

A major reason for Eddie choosing State could be said to have been a relative. Hobaugh's cousin, Randy Schreengost, former Spartan football player and now freshmen football player, convinced him to come here instead of enrolling in an Eastern school.

Eddie said he had made all necessary plans to enroll at Penn State, when his cousin finally convinced him to come to State.

During his summer vacations, he keeps busy by playing baseball out of state. He has spent the past summers playing in South Dakota after his sophomore year and playing in Minnesota after his junior year.

Eddie says his future plans call for fulfilling his military obligation and then a possible major league baseball career.

## Growing Up

By HAL BATEMAN  
State News Sports Editor

THE football team is getting bigger.

Two years ago Michigan State's football team was composed of small, fast linemen and the famed "Pony" backs. A look at the spring football roster shows that the trend is being reversed.

Over 30 men on the 91-man roster are tipping the scales at better than 200 pounds.

In addition the sophomores on last year's team, the Rose Bowl champions, are also growing.

Guard Dan Currie, a starter in the Rose Bowl, was listed at 210 on last year's list. This spring he has jumped up to 225 pounds.

Fullback Don Gilbert has shown an increase from 185 to 190 while Walt Kowalezyk, dubbed the "Sprinting Black-

JOEL JONES

DAN CURRIE

... growing boys ...

smith" by UCLA coach Red Sanders, has gone from 198 to 205.

The increased weight isn't expected to decrease his speed. Joel Jones, a defensive end last season, has since been moved to guard and now weighs 220. Last season his weight was 213.

Clarence Peaks, the other half of the "Gold Dust Twins" has shown a weight increase from 192 to 200. Pat Wilson, currently the top choice at the quarterback slot, has shown a 10-pound gain moving from 180 to 190.

Sophomore halfback Marcus Cisco is another player that has gained going from a small 168 to a more sturdy 180.

A sample of the squad's size can be shown by putting together the heaviest men at each position.

On the flanks sophomores Tony Polosky and Sam Williams are the two largest. Both stand 6' 5" and both weigh a solid 230.

At the tackles junior Ken Harbace at 245 and senior Tom Saidock at 240 are the biggest. In addition some other big tackles are sophomores Ed Bartz, Jerry McFarland, Bill Pyle and Tom Feist. They all weigh 230.

Sophomore Larry Cundiff tips the scales at 220 and junior Adam Sieminski is 215.

Currie and sophomore guard Ellison Kelly are both 225 while Jones is 220 and sophomore Don Wright is 215.

The biggest center is sophomore John Wilks at 225 and Bill Mazanec, also a sophomore, is 215.

In the backfield junior Jim Ninowski, at 195, is the biggest quarterback and at the halfbacks Kowalezyk at 205 and Peaks at 200 top the list.

Don Arend, a highly-rated sophomore, is the largest fullback at an even 200.

The largest team would have a line average of a huge 231 pounds and the backs at an even 200. The overall team would be 220.

Prospects for the future look good because of the 91 men only 13 are seniors next fall while 21 will be juniors and 51 sophomores.

As was the case last year Michigan State will again field a team that will drive the sportscasters crazy.

Listed on the roster include such names as Kowalezyk, Bartz, Bob Berich, Bill Brozovic, Noel Bufo, Jerry Dake, George Eyde, Rudy Gaddini, Howard Guill, Rohland Kerkhoff, Tony Kolodziej, Oarie Lemanski, John Matsko, Arch Matsos, Mazanec, Denny Mendyk, Ninowski, Polosky, Bob Rieucci, Adam and Bob Sieminski, Ed Sutilla, Tom Vershinsky, Tom Vukovich and Bernie Wierbowski.

Last but not least are Vic Zucco and Don Zysk.

Rocky Marciano holds up a pair of boxing gloves after announcing his retirement as heavyweight boxing champion last week. Marciano, unbeaten in 49 professional fights, acceded to the wishes of his wife, Barbara, who asked him to quit.

## Contenders 'Claim' Heavyweight Title

### Marciano's Retirement Spurs Tourney Plans

By LARRY GUSTIN

The announcement by heavyweight champion Rocky Marciano last Friday that he is retiring from the ring has left boxing's heavyweight division in a state of utter confusion. It has also indirectly aided former MSU boxer Chuck Speiser in his bid for the light heavyweight crown.

Each of the top three heavyweights, as well as the light-heavyweight champion and the top contender in his class, have "claimed" the vacated title. The International Boxing Club has announced a plan for an elimination program—which will include "six or seven" of the top ranking contenders.

The proposed tourney will undoubtedly include Bob Baker, Tommy "Hurricane" Jackson, light heavyweight champ Archie Moore, and Floyd Patterson. Detroit's Johnny Sumner, John Holman, Nino Valdes, and Willie Pastrano may also figure in the IBC elimination.

History has proven that a tournament concerning all possible challengers is the fastest way to universal acceptance of a champion. Only three times before has a heavyweight champion retired, and each time the division was in a state of chaos for years.

The first time was in 1905 when three champions, James J. Jeffries, announced his retirement for lack of opposition. He named Jack Root and Marvin Hart to fight for the title, but the winner Hart, never was universally recognized.

Tommy Burns knocked out Hart but he too found the world apathetic to his claims. The little Canadian toured the globe for years fighting and beating the champions of every country before he was finally recognized as titleholder.

The second case of a champion retiring undefeated was in 1928 when Gene Tunney, conqueror of Jack Dempsey, stepped aside.

### Bowlers Second In Big 10 Meet

With a total pinfall of 2633, the Spartan bowling team capped second place in the Big 10 bowling tournament at Iowa City, Wisconsin won the meet with 2736 pins.

Capt. Jack Frazer was State's most consistent bowler, finishing fourth in the all-events competition with 1663 pins. Phil Eiche team with Michigan's Jim Godfrey, the all-events winner, to nail down top honors in the doubles event.

This year's runnerup finish for the Spartans was two notches higher than last year, when they came in fourth.

## MSU Sports This Week

TODAY  
Baseball—Western Michigan at Kalamazoo

FRIDAY  
Baseball—Wisconsin at Madison  
Tennis—Western, Michigan at Kalamazoo

SATURDAY  
Football—Green and White Game (2 p.m.)

Track—Notre Dame (2 p.m.)

Tennis—Wisconsin (2 p.m.)

Baseball—Northwestern at Evanston, Ill. (2)

### NOTICE - STUDENTS WITH CARS

We can't bring our 7 hour dry cleaning and shirt service to the campus, but our new DRIVE-IN is located only a short distance away at 3075 East Saginaw, opposite Frander Shopping Center. Fast, convenient laundry and dry cleaning service. In at 9 — out at 4.

## Italy's 1,000 Mile Race Described as 'Massacre'

ROME (AP) — The bloodiest Mille Miglia in 18 years — with five dead and about 20 injured—touched off a wave of bitter criticism Monday which may end or greatly modify Italy's 1,000 mile road race classic.

Newspapers, describing the race as a "massacre" emphasized the death toll and said the safety precautions ordered last year after the Le Mans race disaster were insufficient. A deputy asked the Italian government to ban the race.

"It is no longer a sport. It is collective homicide which must absolutely be stopped," said Socialist Deputy Fernando Santilli.

The drivers killed were Wolfgang Pivko of Germany and Alex Berny of Switzerland, whose cars crashed.

John Heath, British driver, who was critically injured, was reported "slightly improved but still in a very serious condition" at Ravenna hospital. He was given a quart and a half of blood in repeated transfusions during the night.

Santilli asked Prime Minister Antonio Segni to reply before Italy's Parliament to his demand that the race be banned in the future.

"The speeds now developed by racing cars, and the inadequacy of Italy's roads, make the race so perilous that public authorities cannot remain indifferent," he said.

It was the costliest Mille Miglia since 1938, when a car plunged

into a crowd at Bologna killing 10 in a single accident.

The widely distributed newspaper Corriere D'Informazioni at Milan carried the story of the race itself on inside pages and put the heavy death toll on page one.

The Milan Newspaper Il Giorno carried a front page editorial headed "The Bloods route of the Mille Miglia," in which it said Italy's twisting, mountainous, chuck-holed roads are among the least adapted in Europe for such racing.

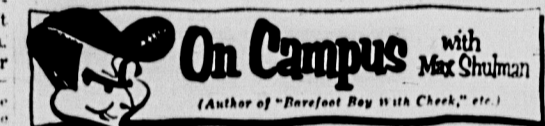

The newspaper said road racing no longer serves any advantage in technical development of the automobile industry.

Eugenio Castellotti, young Italian driver, piloted a 3500 cc. Ferrari racer to victory at the comparatively slow average speed of 85.90 miles per hour.

Busso Gets Decision Over Orlando Zulueta

NEW YORK (AP) — Johnny Busso of New York City, underdog, outstayed Orlando Zulueta all the way Monday night to gain a split decision over the veteran Cuban in a television rounder at St. Nicholas Arena.

It was the fifth straight loss for the 21-year old Zulueta, who treated his 27-year old opponent with complete disdain.

### IT'S LATER THAN YOU THINK!

All year long you've been promising yourself to go there. Now summer vacation is just around the corner and you still haven't set foot in the place. Shame on you!

But it's not too late. Right now, this very minute, before you weaken, lift up your head and forward march to the place you have been avoiding ever since school began. I refer, of course, to the library.

Now here you are at the library. That wasn't so bad, was it? Of course not! Go inside. What do you see? A sign that says "NO SMOKING." Go outside. Light a Philip Morris. Smoke. Go back inside.

Because now you are ready. Now your trembling resolution is rigid. Now your pulsing psyche is serene. You have been gently by gentle Philip Morris. You have been tranquilized by a smoke that dotes and pampers and caresses that lifts the fallen, repairs the shattered, straightens the bent, unravels the knotted, rights the askew, and fastens the unbuttoned.

In the center of the library you see the main circulation desk. Look in the card catalogue for the number of the book you want, write the number on a slip, and hand it to the efficient and obliging young lady at the desk. The efficient and obliging young lady then gives the slip to an efficient and obliging page boy who trots briskly back into the stacks, curls up on a limp leather encyclopedia, and sleeps for an hour or two. Then, puffy but refreshed, he returns your slip to the efficient and obliging young lady at the desk, who tells you one of three things: (a) "Your book is out." (b) "Your book is at the bindery." (c) "Your book is on reserve."

Having learned that the circulation desk hasn't the least intention of ever parting with a book, let us now go into the periodical room. Here we spend hours sifting through an imposing array of magazines—magazines from all the far corners of the earth, magazines of every nature and description—but though we search diligently and well, we cannot find *Mad* or *Confidential*.

Next let us venture into the reference room. Here in this hushed, vaulted chamber, we find the true scholars of the university—earnest, dedicated young men and women who care for only one thing in the world: the pursuit of knowledge.

Let us eavesdrop for a moment on this erudite couple poring over heavy tomes at the corner table. Hush! She speaks:

SHE: What's that readin', hey?  
HE: "The Origin of Species." You ever read it?  
SHE: No, but I seen the movie.  
HE: Oh.  
SHE: You like readin'?  
HE: Naah.  
SHE: What do you like?  
HE: Hockey, ice-cream, girls, stuff like that.  
SHE: Me too, hey.  
HE: You pined or anything?  
SHE: Well, sort of—I'm wearin' a fellow's motorcycle emblem. ... But it's only platonic.  
HE: Wanna go out for a smoke?  
SHE: Philip Morris?  
HE: Of course!

And as our learned friends take their leave, let us too wend our way homeward—a trifle weary, perhaps, but enlightened and renewed and better citizens for having spent these happy hours in the library. Aloha, library, aloha! — Max Shulman, 1955

The makers of Philip Morris, who sponsor this column, could write volumes about the gentleness of today's Philip Morris, but we'll only tell you this: Take a leaf from our book. Enjoy Philip Morris.

# Kobsmen Face Broncos In Away Contest Today

## Hobaugh Slated To Pitch

Perranoski, Mills  
Also Picked to Hurl

Traveling to Kalamazoo to face the Spartan baseball nine after their eighth win of the year when they meet Western Michigan in a non-conference game starting at 7:30 p.m.

Coach Charles Maher's Bronco has many boys returning from last year's lineup. His infield will include Jack Smith at first base, Norb Krings at second, Ken Hamlin at shortstop, Dave Ireland at the hot corner, and Fred Messner behind the plate.

On the mound, Coach Maher will have his choice of senior Jim Smith or sophomores Jack Hamner, Bill Wynn, Dick Sossowski or Norm Hradel. All have had plenty of rest for this game.

Among Western's games this year, they have split doubleheaders with Miami University of Ohio and Ohio State, and have lost to the University of Michigan.

Two changes may be seen in the Spartan lineup. Roscoe Davis has moved to first base, and John Hamner may start in right field. The Broncos use a right-handed pitcher. Otherwise Frank Franchi is the fielder.

Expecting the coming game to be a slugfest, Coach Maher has been a tough team for the Broncos. He said, "but last year we gave them a real rough time. The game should be a close one, but with the proper breaks should come out on top."

The coach held a conference with his team after Monday's loss in Jensen Fieldhouse, and stated dissatisfaction with the team. He was, of course, referring to the flooded playing field and the double header which was played out last Saturday.

He pitched near perfect ball until then, the only man being a walk to Stan Musial in the first. Spahn mowed down the next 18 batters in a row.

Then with two down in the seventh, Kenny Boyer, one of the hottest hitters in the majors, rifled a sharp single off Ed Matthews' glove at third. Rip Repulski and Wally Moon followed with singles, the latter scoring Boyer with the only run the Cards needed.

Red Schoendienst carried across the Redbirds' insurance run in the ninth. The veteran second baseman led off with a single off reliever Lou Sleater, went to second on a sacrifice, third on a fielder's choice and scored as Johnny Logan fumbled Joe Fra-

Unlucky 7th for Spahn

## Card's Snap Back, Down Braves, 2-0

MILWAUKEE (AP)—The St. Louis Cardinals, docile and hitless for 6½ innings Monday, shattered Warren Spahn's spell with three singles for a run in the seventh and went on to a 2-0 victory over the Milwaukee Braves.

The Cards slipped into first place in the National League by percentage points over the idle Brooklyn Dodgers, .667 and .636, although on a basis of games won and lost the two clubs are tied at 4-5.

WARREN SPAHN  
... spell broken ...

At the top of the heap, Milwaukee dropped from first to third in the day's only game in the majors. The smallest County Stadium baseball crowd since the Braves came to Milwaukee in 1953—4,090—watched righthander Tom Poholsky pick up his first victory of the '56 campaign with an effective, if unspectacular seven hit-

ter. Spahn got the loss, his first against no victories. Spahn, a 34-year-old lefthander who usually has the Cards eating out of his hands, did just that until the seventh.

He pitched near perfect ball until then, the only man being a walk to Stan Musial in the first. Spahn mowed down the next 18 batters in a row.

Then with two down in the seventh, Kenny Boyer, one of the hottest hitters in the majors, rifled a sharp single off Ed Matthews' glove at third. Rip Repulski and Wally Moon followed with singles, the latter scoring Boyer with the only run the Cards needed.

Red Schoendienst carried across the Redbirds' insurance run in the ninth. The veteran second baseman led off with a single off reliever Lou Sleater, went to second on a sacrifice, third on a fielder's choice and scored as Johnny Logan fumbled Joe Fra-

## Net Squad Trounces Wayne, 9-0

Sweep Singles,  
Doubles Matches

Michigan State's tennis team got back on the winning road Monday defeating Wayne University, 9-0.

The netters behind Capt. Dave Brogan swept all six of the singles matches and all of the doubles matches.

Brogan, the number one single man, outlasted Larry Solomon by controlling the net play and forcing his opponent deep into the back court. The set score was 6-4, 6-2.

Dick Menzel and Bill Bisard also took the measure of their opponents in straight sets. Menzel defeated Chuck Solomon, 6-1, 6-2, and Bisard dropped Bob Lowrie 6-1, 6-0.

Menzel won easily with a strong backhand and forehand while holding service. Bisard kept his opponent off balance with deep shots in the backcourt.

Other winners included George Stepanovic over Dan Brown 6-1; 6-2, and Jim Beschum over Darrell Phillips 6-2; 6-2.

In the doubles matches Menzel and Bisard defeated Chuck and Larry Solomon 6-3, 6-4; Brogan and Stepanovic won over Brown and Phillips 6-1; 6-2 and Beauchamp and Charles Darr were victorious over Lowrie and Fox 6-2; 6-2.

The netters now sport a record of two wins and two losses for the season. Although they had a string of eight victories and no defeats in their spring trip matches they do not count as points toward a varsity letter.

The squads next encounter will be with Western Michigan at Kalamazoo on Friday.

## Celtics Grab Russell in Cage Draft

NEW YORK (AP)—The Boston Celtics hit an All-America jackpot, Bill Russell, the all-around thing boy of the 1955-56 college season, and the Philadelphia Warriors pulled out the name of Bevo Francis as the National Basketball Assn. staged its annual draft of college talent Monday.

The Celtics, who traded away one of their top performers and gate attractions, Easy Ed Macauley, Sunday, wound up with two 1956 All-America players and one member of the second All-America team.

It worked this way. The Celtics yielded their regular first round choice in order to make a "territorial" selection of Tom Heinsohn, 6-foot-7 Holy Cross captain. That was permissible under an NBA rule which gives each team first call on players within its home area.

The Rochester Royals had first pick in the regular rounds of drafting and chose Duquesne's spring-legged Shugho Green instead of Russell.

Owner Ted Harrison and Coach Bobby Wanzer of Rochester explained they had passed up Russell because he wouldn't be available for pro basketball until after the Olympic games.

## 3 Gridders Hurt in Drills

Three members of the football team were sidelined Monday as a result of injuries received during practice. They were all injured within the space of five minutes.

End Gene Hecker received a crushed nose while in position practice. He will undergo no plastic surgery today, according to Dr. James Feurig, team physician.

In two consecutive plays both Ed Bartz, sophomore guard and John Wilks, sophomore center, received major injuries to their right knees. Dr. Feurig said that they could be serious enough to warrant an operation.

All three men will be sidelined indefinitely and will miss the Green and White Game Saturday.

Tom Vukovich, sophomore guard, received the only other serious injury of the day. He was hurt on the upper lip and six stitches were required to close it.

## Conference Presidents Renew Wilson's Term

CHICAGO (AP)—Presidents of Big Ten universities Monday unanimously extended for five years the term of Conference Commissioner Kenneth L. "Fug" Wilson. His present contract will expire in May. Wilson's salary was not made public.

## Along the Sports Trail

# 'Ironheads' Kill Helmet Plan

By WHITNEY MARTIN  
NEW YORK (AP)—It has come to light that two unnamed clubs, which we shall name the "Ironheads," by sitting on their hands when the roll was called have killed the New York Yankee proposal that batting helmets be required equipment in the American League.

There always will be performers who are the players' heads that are endangered, but it is the club's money, and from the club's standpoint that is quite important.

There are times when it is wise for the front office to take a "papa knows best" attitude when it is for sonny boy's own good, and this would seem to be one of those times.

Particularly since a few words of wisdom, accompanied by a stern order to wear a helmet or else, would protect investments running into untold thousands of dollars.

In other words, if the athletes won't voluntarily take steps to keep their skulls from being dented, the front office should do it for them, using the argument that

These are the "it can't happen to me" guys who figure they are agile and alert enough to stay healthy and, if as a ball player, they should get conked their skulls are thick enough to save them from serious injury. Possibly they are, at that.

These are the same fellows who would operate a band saw without a guard if the management didn't insist on such a precaution.

We don't know how many players have been saved from serious injury by helmets, but the number is considerable. Offhand we can think of Joe Adcock of the Braves and Phil Fizzuto of the Yankees.

The players reluctant to wear the head guards should be referred to these two men for a little convincing, and be required to visit Adcock's home and take a look at the dent in the helmet he was wearing when he was beamed in Brooklyn the day after he had hit four home runs in one game.

Helmets are required in the National League now. It's an older league and probably has more sense.

Movie actor Buster Crabbe was the NCAA 440-yard freestyle champion in 1931. He was a student at USC at the time.

JOE ADCOCK  
... believer ...

## Littler Wins Big Tourney

LAS VEGAS, Nev. (AP)—California's Gene Littler hit a second \$10,000 golfing jackpot this week-end when he won the \$38,500 Tournament of Champions in a rousing last-round duel with Cary Middlecoff.

Littler, winning this event for the second straight year, fired a one under par 71 for a 72-hole score of 281.

Four strokes back came Middlecoff after a gallant but losing struggle to catch and pass his 25-year-old rival. Middlecoff fashioned a 70 for a total to 285 and \$4,000 second prize money.

Veteran Lloyd Mangrum slipped into third place worth \$2,200, with a last round 69 that gave him 288 as the erstwhile threat, young Gardner Dickinson Jr., helped himself to a whopping eight on the 15th hole this bright afternoon and wound up down the line.

Dickinson had a 73 for 290, one stroke behind Ted Kroll 71. Al Balding 68 and Shelley Mayfield 71. Tied with Dickinson were Dick Mayer 70 and Doug Ford 72.

## Graduating Electronics & Mechanical Engineers... How long will you be "Junior" in your job?

READ THIS CHECK LIST BEFORE MAKING A FINAL DECISION.  
IT MAY INCLUDE FACTORS YOU HAVE NOT CONSIDERED.

**WILL MY STARTING SALARY BE**

- ☐ Equal to industry standards?
- ☐ Better than industry standards?

Gilfillan starting salaries are higher than overall industry standards (averaging \$100 a month higher even in this competitive area). This is because, at Gilfillan, the individual's capacity develops more rapidly than under rigid corporation training systems. He is literally worth more from the start.

**HOW RAPIDLY WILL I ADVANCE?**

- ☐ At predetermined intervals, according to a rigid seniority system?
- ☐ As rapidly as my abilities warrant?

At Gilfillan, there is no "hierarchy" or seniority system. Individuals advance as rapidly as abilities develop. Salaries are reviewed at least twice a year.

**WHAT WILL MY "STANDING" BE?**

- ☐ Will I have to work at a board, punch a time clock, or be docked for time off?
- ☐ Will I have professional standing?

At Gilfillan, you do not punch a time clock. You work at a desk, in a professional atmosphere, and are subject to your own conscience when you need personal time off.

**CAN I "CARRY THROUGH" ON MY OWN IDEAS?**

- ☐ Up to a point, then senior engineers take over?
- ☐ All the way through to production?

At Gilfillan, a man with a sound idea is "given his head" and complete team project cooperation. An assigned technician reports directly to the engineer, for construction and wiring of circuits. The engineer carries full design responsibility.

**WHAT WILL BE MY "FIELD" OF WORK?**

- ☐ Will I be confined to one field or have opportunities in a diversity of fields?
- ☐ Will these include "tomorrow's" newest areas of electronics development?

Gilfillan is best known as the pioneer of GCA radar and all its major improvements, including the Gilfillan GCA Quadraradar—yet GCA is only one facet of Gilfillan activities. The firm has been engaged as a prime supplier of research, design and development of Military Electronics Systems since 1942, including Missile Guidance systems, airborne and ground; Electronic Countermeasures; Navigational Radar (GCA and AGCA); and Electronic Radar Trainers. Gilfillan is now concerned with many of today's newest, classified areas of electronics exploration and development.

**CAN I IMPROVE MY PROFESSIONAL KNOWLEDGE AND STATUS?**

- ☐ Will tuition be paid by my firm?
- ☐ Will I be given aid in publishing technical articles?
- ☐ Will the experience of the entire engineering group be available to me?

Gilfillan pays tuition at universities or technical institutes. All possible aid is given in individual publishing of technical articles. Continuing symposiums make the total knowledge of the Gilfillan engineering staff available to the individual.

**WHAT ABOUT THE STABILITY OF MY JOB?**

- ☐ Does it depend on temporary big contracts?
- ☐ Is the firm a "war baby" type that may or may not be permanent?

Gilfillan has appointed new engineers every year since the firm was established in 1912. Current openings are in no sense emergency or temporary big contract jobs, but part of continuing Gilfillan expansion.

**CAN I GET MORE GILFILLAN FACTS?**

- ☐ By correspondence?
- ☐ Personally?

Both. Address specific inquiries to R. E. Bell, Gilfillan Bros., 1815 Venice Blvd., Los Angeles, Calif. An interview will be arranged. If you are in the Los Angeles area, telephone Mr. Bell at DU 1-3441.

## Mural Highlights

The rifle shoot is being held every day from 8 to 5 p.m. in the Hall until Wednesday. Twenty-five men have entered the tournament. Leaders so far are Jack E. Kregar, 88 points out of a possible 100, Jack Ripper, 85 points, and George Ward, 81 points.

Men have entered the shoot three medals will be given for women in the three top places at the conclusion of the tournament. Participants can sign up for the shoot.

The baseball throw is being held from 3 to 5 every afternoon in front of the Hall. The tournament will last through next week. Sign up at the target when the throw.

# 169 Make All A's Dr. Hannah to Fete 4-Pointers

The all "A" banquet will be held tonight at 6 in the Union for 169 students who attained a 4-point university average for winter term.

In addition to the dinner given by President John A. Hannah the names of the students will be placed on the honor roll which reads: "In recognition of the highest attainment of scholarship during the winter session."

Several students will be attending the 4-point dinner for the second and third time but eight students on the list of having attended the most with seven, eight or nine times.

They are: Janice Van Der Jagt, East Lansing junior; 7. Marilyn Post, Holland junior; 7. Claire Barnes, Vassar senior; 7. Janice Hunt, Monroe senior; 8. Joan Patterson, Holland senior; 8. Kim Rodner, Maywood, Ill. senior; 7. and Ronald Hodges, Lansing senior; 9.

The only upper school student to have a perfect average in attending the banquet is Gail Plourde, Norway, junior, with eight for eight.

The others:

College of Agriculture: Max Beane, Okemos junior; David Boyne, Marquette junior; Jerome C. Pitts, Pittsburgh, Pa. senior; Gerald Harter, Saline senior; Ronald Larson, Chicago junior; Russell Moffett, Alma senior; Michael Myers, Bay City senior; Sheldon Sabath, Chicago senior.

Basic College: Katherine Allington, Saginaw freshman; Joseph Abel, Lansing freshman; Kathryn Brown, Coleman freshman; Karl Cameron, Grace Point sophomore; Jeanne Campbell, St. Johns, freshman; Lunde, Carlson sophomore; William Cole, Detroit sophomore; Arthur Curtis, Trenton, N.J. sophomore; Mary DeWass, Long Beach, Calif. sophomore; Phillip Eiche, New Buffalo sophomore; John Edson, Scarboro, N.Y. sophomore; Donna Elmhass, Onaway sophomore; Gail Fear, Walled Lake sophomore.

## Teamsters Win Longshoremen

DETROIT (AP)—The Teamsters Union has won control of some 80 Detroit longshoremen who were members of a sister union in the AFL-CIO.

The National Labor Relations Board reported in Washington that the longshoremen employed by three Detroit waterfront firms voted 53-10 last week to leave the International Brotherhood of Longshoremen and join the Teamsters.

The longshoremen are employed by the Nicholson Transit Co., the T. J. McCarthy Steamship Co. and the Lake Transit Co.

All those involved are employed in the loading of automobiles on lake boats, which the Teamsters claim falls within their jurisdiction. Seventeen of the 80 eligible did not vote.

In Washington, E. L. Slaughter, secretary-treasurer of the AFL-CIO, said he would ask the AFL-CIO Executive Council on Tuesday to back Teamster raiding of IBLU locals in the Great Lakes area.

He claimed the Teamsters resorted to "rough stuff" in Detroit to discourage longshoremen from sticking with his union.

The longshoremen will become members of Teamster Local 299, home local of Midwest teamsters James R. Hoffa.

## Prof. Sigerfoos To Be Honored By Foundrymen

Prof. Charles C. Sigerfoos of the mechanical engineering department will receive the first Thomas W. Pangborn Gold Medal of the American Foundrymen's Society for his outstanding contribution to the field of education of engineering students in foundry careers.

It will be presented during the 1956 Foundry Congress and Show at Atlantic City, May 3-9.

He is faculty advisor of the student chapter of the AFS and "key" professor in charge of the scholarship program of the Foundry Education Foundation. Sigerfoos has encouraged students to go into the cast metal industry in setting up plant trips, training in technical speaking and training scholarship and employment information available.

His professional activities include charter membership and past president of the Central Michigan Chapter of the AFS, chairman of the Michigan Foundrymen's Association, and chairman of the Michigan Foundrymen's Association of the American Society for Engineering Education last year.

## New Polio Virus Theory Reported by Syverton

HOUSTON, Tex. (AP)—Polio virus might hide in the ground during the winter and perhaps somehow through water or food be transmitted to humans to start epidemics.

This one possible explanation of the puzzle why polio strikes in summer but is uncommon during winter.

Some findings that might support this theory were reported Monday to the Society of American Bacteriologists by a University of Minnesota team headed by Dr. Jerome T. Syverton. The team working on some phases of virus-plant studies includes O. R. Esler and E. L. Schmidt.

The Minnesota researchers found earlier that a virus causing a form of polio in mice can survive in the soil, and enter the roots of growing plants. The virus was even pulled high up into the edible portions of peas and tomato plants.

which human polio virus lived for 36 days in sterile soil, and for 12 to 16 days in ordinary, non-

sterile soil. Certain chemical components, called colloids, in soil can apparently grab and hold large quantities of virus, they find.

Possible human polio virus, highly durable and tough to kill—could survive in the ground over the winter.

In next steps, tests will be made to learn whether polio virus can be pulled up into the roots, stems, and edible leaves of growing plants. If that happens the edible portions will be fed to monkeys to see if the virus actually can cause polio infection.

It is quite possible that humans carry polio virus over the winter, Dr. Syverton said. Then for some yet unknown reason, the virus spread from human to human to create chains of infection.

Game Results In Fine for U of M Men

IOWA CITY, Iowa (AP)—Four University of Michigan students who said they were on a "scavenger hunt," found Iowa City police accommodating, but the experience cost them \$240.

The students, arrested by police early Sunday, told Acting Police Judge J. Newman Toomey that among other things they were supposed to bring back from the "scavenger hunt" a signature of the University of Iowa President.

Officers here co-operated by giving them a total of five tickets. The youths were accused of taking six highway signs marking the city limits and two street signs. One also was charged with running a stop sign.

Toomey fined each student \$100 and costs for disturbing the peace, but suspended \$50 of each fine. He also assessed five dollars and costs against Jerome M. Sailer, 18, of Flint, Mich., for the stop sign violation.

The other three students gave their names as Steven Winn, 17, and Jerome L. Katz, 18, both of Brooklyn, N.Y., and Allen W. Roschluth, 18, of New York City.

It wasn't learned immediately whether they ever obtained President Hancher's signature.

The government announced the release of ex-President Carlos Prio Socarras, who recently returned from exile in Florida.

Antonio De Varona, former president of the senate, and Jorge Almonson, of ex-President Guillermo Alonson Pujol.

Prior and others including his supporters and student and opposition leaders were seized for questioning Sunday when the revolt flared. Prior frequently had been accused of plotting revolts against the government, but he always denied the charges.

Gen. Francisco Tabernilla, Cuban army commander, said about 20 fleeing rebels were captured and that 12 had admitted their part in the uprising. He said an order confining Cuban troops to barracks had been lifted.

## April Showers Bring...

The Red Cedar once again runs over its banks and floods Old College Field, following the heavy rains last weekend.

## City Planners

(Continued from Page 1)

The rebuilding of our cities was cited as America's greatest problem today by Luther Gulick, president of the Institute of Public Administration and former city administrator of New York City.

He mentioned the change from the thickly settled rural areas to the over-populated urban areas as a major cause of metropolitan problems.

Gulick summarized the ultimate goal in modernizing metropolitan government saving:

"We want our people who live, work, trade, visit, worship or amuse themselves in our great cities to do so with the greatest satisfaction and least hindrance. We want the social, economic and cultural life to be free, discipline, rich and enjoyed by all. We want freedom for each man to develop his maximum potentialities and to make his full contributions to his family and community."

These goals cannot be achieved, he concluded, without experience and education for self-government.

Tomorrow evening's session will be concerned with "Governmental Responsibilities," as representatives of the federal, state and local governments will speak.

Men's Council To Meet Tonight

The reorganized Men's Council will hold its first meeting of the term tonight at 8:30 in 36 Union, to set up the activities board.

Any student interested in working on the activities which include STUN, Activities Carnival, Guide and Orientation Program for freshmen, and the winter term blood drive, is urged to attend the meeting.

only during Baby Week will you be able to take advantage of such low money-saving special prices!
