# GOP's Summer Choice-- To Nix or Not Nix Nixon

John Adams, first vice-president of the U. S., said that he occupied "the most insignificant office that ever invention of man contrived."

Theodore Roosevelt, when nominated for the office in 1900, said that he had been forced "to take the veil."

The late Allen Barkley was noted for his humorous, half-sarcastic references to the "theoretically" second highest office in the land.

All this was before 1952, the year Richard Milhous Nixon assumed the vice-presidency and made it in fact as well as in name the second highest office in the land.

Nixon upset the traditional "stay-in-the-background" role of his predecessors, partly because of President Eisenhower's aloofness to political controversy and partly because he is the more polished political performer.

Nixon gained immense prestige for his steady handling of presidential duties when Eisenhower became ill last fall.

He is known as an effective fighter of communism, a clever political strategist, an accomplished speaker.

He is liked by GOP national chairman Leonard Hall and most state GOP leaders. President Eisenhower has repeatedly expressed admiration for his colleague and has given his approval of Nixon as a running mate should Republican convention delegates nominate the vice-president for a second term.

In short, Nixon is "a vice-president who is making good," to quote Life magazine.

But—will he get a second vice-presidential nomination? Or will the GOP ticket in

November read Eisenhower and somebody else?

Though he is the number-one candidate for the job and has made an excellent record, Nixon is by no means a shoo-in for renomination. It appears, in fact, that the vice-presidential nomination is destined to become a major issue in the Republican camp this summer.

Nixon's situation is the exact opposite of Democratic presidential hopeful Kefauver's. The vice-president has the sanction of his party's bigwigs but is unpopular with the all-important voters.

A recent Gallup poll showed that roughly one-third of voters preferring Eisenhower to Stevenson would vote for Stevenson if Nixon were the Republican choice for second-place. This is a switch of some 12 million votes and is the reason why Nixon is likely to cause some fireworks at the Republican convention.

In addition to this popular antagonism, Nixon faces opposition from a powerful faction of Eastern Republicans, including Thomas E. Dewey.

Their main objection to the vice-presidential stems from a fear that Nixon has lost the independent vote, a vital element in any Republican victory.

Nixon's zealous campaigning, especially in the 1954 Congressional elections, and his vitriolic attacks against Democrats in both 1952 and 1954 has diminished his appeal within independent ranks and among some of his own compatriots.

Democrats are especially hostile to the vice-president and would make Nixon the number one target in the coming election. Many GOP leaders fear that those Democrats who voted for Eisenhower in 1952 will refuse their support this year with Nixon on the ticket.

Other factors cited against Nixon are his relative youth—he is 43 now with 10 years experience in politics; the fact that party leaders in his own state have voiced objections to him; and finally his vacillating political ideologies.

During his public career, Nixon has been both isolationist and internationalist in foreign policy and conservative and liberal in domestic affairs.

There is however, one strong factor in Nixon's favor. If the GOP drops him now, Democrats would interpret this as a sign of weakness begging for exploitation.

Such an act could easily be interpreted as an indication of Republican fears that Eisenhower will not serve another full term.

No matter what Republicans decide to do with Nixon at the August convention, one thing seems clear: Democrats couldn't ask for a better target to shoot at.

The question Republican convention delegates must decide is: Will he be a bigger target on the ticket or off it?

## Interpreting the News

# Propose International Aid Pool

By J. M. ROBERTS  
Associated Press News Analyst

Two economic experts have come up with a proposal for an international program of aid to underdeveloped countries which might serve to conciliate some of the major differences between Congress and the administration.

The current administration program, admittedly subject to change after panel studies which are expected to begin soon, calls for presidential authority to make long-term commitments for large construction projects.

There is strong opposition to this in Congress. At the same time there is increasing pressure for eliminating the grant system and putting practically the entire program on a loan basis.

Max Millikan and W. W. Rostow, of Massachusetts Institute of Technology and the Center for International Studies, experienced as government con-

sultants, have combined the two ideas.

They suggest the United States take the lead in organizing a pool composed of the industrialized nations which would set up a system of loans to continue for five or 10 years, until industrialization begins to generate its own capital in the countries to be aided.

Banking practice would apply, through a set of international standards under which countries seeking loans would have to qualify on such points as usefulness of projects, public support, and concrete planning for repayment.

The international code could be applied even if individual nations made the loans.

The authors deliberately move away from the idea that the system would win friends in the cold war, or try deliberately to establish free enterprise. They say its fundamental purpose would be to supply a "sense of direction" for the underdevel-

oped peoples, demonstrating to them that economic improvement can be accomplished without resort to radical theories.

Chester Bowles, former ambassador to India, has been advocating a nonpolitical, non-coercive aid program in his writing and speeches ever since his return.

Many others have adopted the theory that only a truly international effort, conducted through the United Nations, will do the job. Secretary Dulles has suggested at least part of it might be done through NATO.

Congress has clung consistently to a program labeled "American" in big letters.

But neither Congress nor the administration is satisfied with the results, and changes are going to be made. There is a strong feeling that, while Russian copies what the United States already has been doing, this country must move on to something more straightforward and less self-seeking.

## A Michigan Week Quick Quiz

# How Well Do You Know Your State?

(EDITOR'S NOTE: From now until Saturday, residents of Michigan will be celebrating Michigan Week, an annual week during which Michiganders turn their attention to the cultural, industrial and natural resources of the state and examine the things that make it a good place in which to live, work and play.)

The following quiz is designed to test your knowledge of this water wonderland. If you're a native you should easily score 100%. If you're not, 60% is a passing grade. To the first person scoring 100%, the State News promises 10 straight days without rain. Answers will be printed Wednesday.)

1. What Nobel Prize winning author, recalling the vacations he spent as a boy in the Upper Peninsula, included some of his impressions in the short stories "The Two-Hearted River" and "Up in Michigan?"

A. William Faulkner  
B. Sinclair Lewis  
C. Eugene O'Neill  
D. Ernest Hemingway  
E. T. S. Eliot

2. Perhaps the most popular and beloved poet in the U. S. today is this Detroitite.

A. Ezra Pound  
B. Ogden Nash  
C. William C. Williams  
D. Robert Service  
E. Edgar Guest

3. It is as far from Ironwood in the Upper Peninsula to Detroit as it is from Detroit to

A. Toledo  
B. Cleveland  
C. Erie  
D. Albany  
E. New York City

4. You can probably thank the mines near this Michigan city for the graphite in your pencil.

A. Bay City  
B. Saginaw  
C. Grand Rapids  
D. Houghton  
E. Marquette

5. Michigan usually ranks first in the country in the pro-

duction of these crops with the exception of one. Which one?

A. Red Tart Cherries  
B. Cucumber Pickles  
C. Red Clover Seed  
D. Hay  
E. Gladioli Bulbs

6. Michigan was the first state in the nation to put up

A. Parking Meters  
B. Roadside Picnic Tables  
C. Highway Signs  
D. Stop Lights  
E. Drinking Fountains

7. Michigan is tied with New York in the most miles of

A. Canals  
B. Paved Roads  
C. Trout Streams  
D. Shoreline  
E. Beaches

8. Michigan has long been known for its production of trucks and automobiles, but few people know that it also leads in the production of another means of transportation. What is it?

A. Motorcycles  
B. Airplanes  
C. Pogo Sticks  
D. Boats  
E. Locomotives

9. Twenty-five years ago the Michigan State Police started the nation's first:

A. Driving classes  
B. School safety patrols  
C. "Go Slow" signs  
D. Speed zones  
E. Temporary driving permits

10. Although he was Michigan's first governor, this 24-year-old youth usually was known as the "Boy Governor."

A. Lewis Cass  
B. Stevens T. Mason  
C. Douglass Houghton  
D. William Hall  
E. Henry R. Schoolcraft

11. Suomi College of Hancock holds the distinction in the U. S. of being the only

A. School specializing in Far Eastern Culture  
B. School for Mechanical Engineers  
C. Finnish-American School  
D. Japanese Language School  
E. Meteorological School

12. All but which one of these military heroes has claimed Michigan as his home?

A. Gen. George A. Custer  
B. Gen. Anthony Wayne  
C. Col. Charles Lindbergh  
D. Gen. Lester J. Maitland  
E. Gen. Omar Bradley

13. Montague and Whitehall, Michigan, have come into prominence within the past few years as the location of a new industrial empire. What is being produced there?

A. Automobiles  
B. Airplanes  
C. Chemicals  
D. Radio Parts  
E. Paper

14. Detroit does not rank first in the nation in the manufacture of which one of these products?

A. Automobiles  
B. Grey Iron  
C. Locomotives  
D. Hardware  
E. Machine Tool Accessories

15. Michigan's Upper Peninsula produces 95% of the world's supply of

A. Bird's-eye maple  
B. Pine  
C. Plywood  
D. Pasties

16. Henry Wadsworth Longfellow drew his information for "The Song of Hiawatha" from what famous Michigan Indian historian and scientist?

A. Schoolcraft  
B. Houghton  
C. Dickinson  
D. Luce  
E. Alger

17. Which of the following names does not play an important part in Michigan's economy?

A. Gerber  
B. Upjohn  
C. Hooker  
D. Westinghouse  
E. Burroughs

18. How does Michigan rank among major industrial states in the value of manufactured products per worker?

A. First  
B. Second  
C. Third  
D. Fourth  
E. Fifth

## Oriole Trade Sends Wilson To White Sox

CHICAGO (AP) — The Chicago White Sox Monday obtained pitcher Jim Wilson and outfielder Dave Philley from the Baltimore Orioles in exchange for four players, including veteran third baseman George Kell.

Pitcher Mike Fornieles, outfielder Bob Nieman and a player to be named later went with Kell in the package deal with Baltimore.

Wilson, 34, was the key man in the trade, one of the biggest of the season. The right-hander had 12-18 for the Orioles last year with an earned run average of 3.45. This season he has a 4-2 mark, including 31 strikeouts in 18 1/3 innings.

DUKE SNIDER

WILLIE MAYS

MICKEY MANTLE

Here Stands Some of the Greatest Power in the Majors

## Center Fielders Spark Teams

By THE ASSOCIATED PRESS

It's remarkable, the things that fleet-footed center fielders Mickey Mantle of the Yankees, Duke Snider of the Dodgers and Willie Mays of the Giants have in common.

On the shoulders of each is the burden of supplying the hitting punch for their respective team.

Let us take over your laundry chores!

8 pound load washed, dried and folded, complete for only 55c

See

EAST LANSING LAUNDRY 225 MAC

Each hits third in the batting order.

Mantle is the American League home run champion, the result of 37 four baggers in 1955. Of the active Yankees, he is their top one-season home run hitter. He is also their best one-year man in scoring runs, having led the American League in 1954 with 129.

He has yet to join the lifetime 300 hitters but the start he is making this spring speaks well for his chances to boost his overall average to 300-plus at the end of the season. He began 1956 with a 298 lifetime average.

Snider has hit 42 home runs twice. Duke did it in 1953 and again last year.

Snider has a .367 lifetime hitting mark with his 341 of 1954, his personal high. Carl Furillo's .344 of 1953 is the team high. Duke, like Mantle and Mays, is a prolific run producer. When he scored 132 times in 1953, he tied Pee Wee Reese's 1949 record as high among the active Dodgers.

Mays leads the active Giants in four departments and must be rated faster than Mantle and Snider, mainly because Mickey and Duke often come up with pulled leg muscles.

Mays' 21 steals is high for one season among the Giants and also tops his Dodgers and Yankees.

Both Mantle and Snider have a little more going for them than has Willie Mays. Mays has Yogi Berra, three-time American League most valuable player, hitting behind him. Snider has Roy Campanella, who three times won the National League MVP.

## Top Batsmen Watch Vernon

NEW YORK (AP) — There's a familiar name among the American League leading batsmen. Veteran Mickey Vernon of the Boston Red Sox, a two-time batting champion, ranks third in the listings and is challenging pace-setting Mickey Mantle of the Yankees and runner-up Charley Maxwell of Detroit.

The 38-year-old first baseman, who was traded to Boston by Washington in a winter deal, went on a dazzling hitting spree during the week as he raised his average to .444.

Vernon, who entered organized baseball in 1937, delivered 13 hits in 26 trips—a .500 clip.

Mantle still tops the league with a .464 average, while Maxwell has moved into second at .387.

Rip Repulski of the St. Louis Cardinals has taken over as undisputed kingpin in the National League with a .412 mark.

Figures include games through Sunday.

## Gridders Reinstated At UCLA

VICTORIA, B. C. (AP) — The faculty representative of UCLA declared all members of the school's 1955 freshman and varsity football squads ineligible Monday, but the Pacific Coast Conference ruled the penalty too harsh and reinstated the entire group.

The effect of the conference action is to cost all of the players one year of eligibility—but not necessarily in the 1956 season. The conference stipulated that any football player who received "substantial financial aid not permitted" by its athletic code shall be charged with one year of varsity football participation.

It was explained that Dr. Joseph Kaplan, UCLA's official conference representative, had no authority to place a time limit on the ineligibility. When he advised the conference of his action he could only say that he had declared the men ineligible.

Only Saturday the conference had placed UCLA on probation for three years for giving unauthorized financial aid to athletes.

## Damaging Left Hook

This is the sequence of action in the fourth round as Sugar Ray Robinson caught Carl Olson with a jolting left hook flush on the button and knocked him sprawling to the canvas. There he stayed until Referee Mushie Callahan counted him out, and Robinson left the ring still a lightweight champion.

## Along the Sports Trail

## Pirates Gain Strength in Trade

By WHITNEY MARTIN

NEW YORK (AP) — Frank Lane, the St. Louis Cardinals' man in motion, is getting peppered with criticism over his deal sending Bill Virdon, the 1955 rookie of the year, to Pittsburgh in exchange for a couple of ball players of quite ordinary abilities.

If it was a bad deal for the Cardinals, it was a good deal for the Pirates, yet you don't see the name of Joe L. Brown mentioned.

Possibly if the Pirates were rated contenders and the Cardinals a second division club Lane would be ignored and Brown would be the name mentioned, with applause for his shrewd dealings.

Brown's a young fellow just feeling his way along in his first season as a major league general manager, but so far there has been nothing to indicate he will be just a babe in the woods when it comes to matching wits with older heads in the intricate business of player transactions.

It certainly doesn't look as if he got any the worst of it in trading Bobbys Del Greco and Dick Littlefield for Virdon, and the same might be said of his swap of Max Surkont to the Cardinals for Luis Arroyo.

He also released a bicus pitcher, Paul Martin, thus indicating that he and field manager Bobby Bragan weren't going to hang onto players who weren't doing the team much good just because they cost a lot of money.

Brown stepped into a rather difficult situation in succeeding Branch Rickey, whose player negotiations practically are legends. Rickey hasn't been too successful at Pittsburgh, although there still is the possibility that he left a legacy of young players who some day will make the Pirates quite a ball club.

They were a sad eighth last year, yet they managed to split even over the season with the second place Milwaukee Braves.

They are much, much better.

## On Campus

(Author of "Daredevil Boy with Clock")

## HUSBANDS, ANYONE?

It has been alleged that coeds go to college for the sole purpose of finding husbands. This is, of course, an infamous charge. I give fair warning that small and spunky as I am, at the moment I am ever as ready as a dastardly thing when I am around a girl who is prepared for a sound hiding!

Girls go to college for precisely the same reasons as boys—to broaden their horizons, to lengthen their vistas, to gain a foundation of wisdom, to trail their fingers in the main currents of American thought. But if, by chance, while a girl is engaged in these lofty pursuits, a likely looking husband should appear in view, why, what's wrong with that? Eh? What's wrong with that?

The question now arises, what should a girl look for in a husband? A great deal has been written on this subject. Some say character is most important, some say background, some say appearance, some say education. All are wrong.

The most important thing—bar none—in a husband is that he be handsome as Apollo and rich as Croesus. Though he be handsome as Apollo and rich as Croesus, if he is not a McCutchen, what good is he if he just lays around and accumulates bedsores?

# State Nine Tops Irish With Rally in Ninth, 5-4

## Win Snaps Four Game Loss Streak

Morrall Drives in  
Winning Tally

By JERRY ROBBINS

Michigan State's baseball team broke a four-game losing streak Monday, by coming out behind with two runs in the ninth inning to down Notre Dame, 5-4.

Bob Morrall, shortstop, hit a home run in the ninth inning to give the Spartans the lead. Earl Morrall, pitcher, struck out three batters in the ninth to seal the victory. The Spartans had trailed 4-3 going into the bottom half of the ninth. John Palomsky led off with a single, but it was shorted out by left fielder Frank Palomsky.

Al Lee followed with a single to right field, sending Palomsky to third.

Walt Godfrey hit a long single to right field, scoring Palomsky and Lee. With two out, John Moga, running for Lee, stole second, and then Moga's throw went into left field. Moga raced to third.

After the bird walked, Morrall hit an infield hit to short to Moga with the winning margin.

Notre Dame, who had bettered Michigan State last week, 8-2, led by an early lead by senior pitcher.

The Spartans came back with runs in the fourth on a single by Callard and a double by Moga.

Runs by Bob Bird in the fifth and Jimmy Sack in the sixth proved State's other two runs.

McCormick started on the mound for the Spartans and worked the first five innings. He gave up one run and four hits.

Palomsky replaced McCormick in the sixth and received credit for the fifth win of the season against Notre Dame.

In the four innings he worked, he allowed one run and only one hit. He fanned two and had three base-on-balls.

In the infield the Kobsman and Kobsman were exceptionally good. The defense only committed one error by Morrall, and scored two twin-killings.

The Spartans' first double play was in the fifth inning with one out and Bob Senecal on first for Moga.

Cardo drilled a sharp line drive to Bird at third who threw to Palomsky for the force out, and then relayed the ball to Senecal for the second out.

Palomsky drilled a sharp line drive to Bird at third who threw to Palomsky for the force out, and then relayed the ball to Senecal for the second out.

## Golf Team Defeated by Irish, 14-13

Notre Dame Gains  
Victory on Singles

The luck of the Irish came through for Notre Dame here Monday, as they edged out the Spartan golf team, 14-13.

Michigan State won the best ball doubles in the morning but Notre Dame collected 11 points to the Spartans seven in the afternoon singles for the winning margin.

It was a bad afternoon for the Spartans in the singles department. Joe Grace and Joe Mufur of Notre Dame shot 7 each for honors in the singles.

The low MSU single scores were made by Ken Rodewald, Jim Sullivan and Otto Schubel with 76's.

Michigan State did better in the best ball doubles with Arlin Dell and Schubel shooting a three under par best ball 69. Rodewald and Sullivan shot 70 and Bob Nodus and George Wakauski had 71.

The match was close and could have gone either way. Ken Rodewald had his opponent, Joe Grace, one stroke down coming into the 18th hole when Grace dropped a chip shot to birdie the hole and win his match.

This was the last dual meet of the season for the Spartans and gives them a 7-3 record. Next they travel to the conference tournament at Northwestern, May 25 and 26.

## Sugar Ray Sees End for Olson

LOS ANGELES (AP)—Bobo Olson may never be the same fighter, the man who defeated him last week commented Monday.

"There will be fear running through his mind whenever he steps into the ring," welterweight champion Sugar Ray Robinson said. Olson, he added, "is probably through as a topnotcher."

Interviewer Sid Ziff of the Los Angeles Mirror-News asked the champ about his plans.

"I'm fed up with fighting for a while. I've been in training ever since December. I need a break, and I simply won't start thinking of opponents."

## Cardinals Drop Giants

NEW YORK (AP)—Wilmer (Vinegar Bend) Mizell, going the route for the first time this season, pitched the St. Louis Cardinals into second place Monday as the Redbirds defeated the New York Giants 4-1.

Home runs by Rip Ripulski and Bill Sarni and a triple by Bobby Del Greco were the most damaging of the eight safeties collected by the Cardinals off four Giant hurlers.

## The SPORTing Look Struggles of Soccer

By JOE HOFFMAN  
State News Sports Editor

Starting today, several members of the sports staff will be writing columns on items in the world of sports. Today's work is by Larry Gustin and concerns the problem the MSU soccer squad has in assuming varsity status.

Soccer is not a big-time sport on campus. The team doesn't have varsity status and there is a genuine lack of fan interest.

But this lack of interest is not because the Spartans aren't good. The booters are considered the best squad in this area and one of the best in the Michigan-Ontario circuit.

It would be hard to find another athletic group on campus which gets more real fun out of playing than the soccer team. A typical game was two weeks ago when MSU met the University of Michigan at the Secret Practice Field.

Things started off leisurely enough when the field was still deserted at the 2:15 starting time. It was closer to 3 p.m. before both squads were dressed and ready to play. The Spartans wore maroon jerseys with black or white shorts and the Wolverines were fitted out in blue trunks and T-shirts in varying colors of yellow. About 40 spectators sat on the grass along the sidelines.

A Wolverine player was fouled in the penalty zone in front of the net. Juanito Co booted the penalty shot and the Wolverines led. But Al Sarria, the talented left winger from Popayan, Colombia, scored three times to pace the Spartans to a 4-3 victory.

Soccer has all the ingredients of a good spectator sport—speed, ruggedness, and plenty of color.

Probably the greatest deterrent to soccer is its relative, football, which is a pretty close rival to baseball as the national sport. The Spartan booters, like other soccer teams, have switched part of the schedule to spring in order to boost interest.

There are other reasons why the sport is relatively unknown. The rules are not generally understood, the fields have few comforts for the spectators, and the sports pages of newspapers usually ignore it. While it is offered in grade schools (and is quite popular), most secondary schools do not utilize soccer in their physical education programs.

Captain Ray Burdett's crew has been invited to join the Midwest conference and may next fall. But the ultimate goal is varsity status. There are problems to overcome before this can come about, but they are not insurmountable.

## Coaches Want Round-Robin

GRAND RAPIDS, Minn. (AP)—Big 10 football coaches and athletic directors Monday voted for a 9-game round-robin conference schedule within a 10-game slate beginning in 1959-60, but the action awaits approval of the policy—making faculty representative later this week.

This departure from the present nine-game Big 10 grid schedule which includes a range of from six to eight conference games, came on a proposal by George H. Young, faculty representative from the University of Wisconsin.

Commissioner K. L. Tag Wilson said the vote was not unanimous, but said that with all the football coaches and athletic directors voting there was a total of 20 votes, which meant there was at least an 11-9 majority for the expanded schedule.

The faculty representatives will act on the round-robin slate in their business session at Minneapolis Friday and Saturday, but even if they approve it, the matter must be reviewed by the individual member schools as new legislation and no final action.

## What's doing at Pratt & Whitney Aircraft

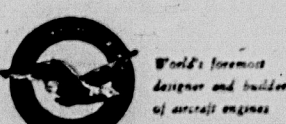

Today's leadership . . . a  
reflection of policies established  
in aviation's infancy

Back in The Roaring Twenties, the magic dream pictured American families someday using the light personal airplane as freely as the family car. Among the realists, however, was a handful of men who were unshakable in their conviction that the real future of aviation lay with bigger aircraft, higher speeds, greater ranges—all possible only through engines of higher power and more reliability than those of that era.

In the spring of 1925, six of these men of vision founded a company in Hartford to undertake the development of a new aircraft engine—an air-cooled type. The year's end heralded their first success—Pratt & Whitney Aircraft's "Wasp".

This talented group of men continued to improve their powerplant designs, developing engines of steadily mounting power that operated efficiently and dependably. They contributed much to aviation's progress—so much so that currently three-quarters of the world's commercial airliners and many of our nation's first line military aircraft are P & W A powered.

Today's P & W A powerplant designs are supported by the very finest research facilities and equipment, and a technical staff that is continually being strengthened. That nucleus of six men has grown into one of the world's leading engineering organizations. Yet to this very day, engineering achievement at Pratt & Whitney Aircraft is guided by its founders' simple policy . . . the best airplanes can be designed only around the best engines.

## PRATT & WHITNEY AIRCRAFT

DIVISION OF UNITED AIRCRAFT CORPORATION  
EAST HARTFORD 8, CONNECTICUT

The Original Wasp, the first P & W A engine—designed, fabricated and assembled in less than seven months. Weighing under 650 pounds and officially rated at 410 horsepower, this lightweight, air-cooled radial engine was a milestone in aviation history and set the pattern for almost three decades of record-breaking advances.

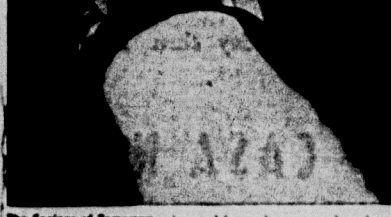

The Double Wasp, an 18-cylinder, two-row piston engine rated at 2400 horsepower for basic use. Its rating increased by water injection to 3400 horsepower, the Double Wasp was instrumental in turning many a military crisis into an aerial victory in the decisive battles of World War II.

The Wasp Major, a 28-cylinder engine with pistons arranged in four rows of seven each and a 3800-horsepower rating. Its power and performance having never been equalled, the Wasp Major represents the apex of the art of building reciprocating engines.

The J47 Turbojet, first jet engine in history to be officially rated in the 10,000-pound-thrust class. In quantity production since early 1953, the J47 has continuously undergone progressive development. It gives every indication of having almost unlimited growth possibilities.

The Engines of Tomorrow, advanced jet, turboprop, and nuclear. Already in various stages of development, these aircraft engines of the future will further contribute to the long history of leadership that Pratt & Whitney Aircraft has established in the field of aviation.

## Air Force-Army

## Cadets Receive Honors Today

The MSU Army Corps of Cadets and Air Force Cadet Wing will honor outstanding cadets this afternoon at separate awards parades in the Ice Arena.

At the Army ceremonies, which will begin at 4, Ronald Pataconi, Gaastra junior, will be presented with one of the nation's 10 Quartermaster Assn. Awards for outstanding junior cadets.

## Military Squabble On Policy

## Unit Rivalry Played-Down

WASHINGTON (AP) — The Pentagon's top brass played down as "eager beaver" squabbling Monday a sudden upsurge of Army-Navy-Air Force rivalry over national defense policy.

It didn't look, however, as if any serious punishment was in store for relatively minor officers who stirred up the weekend fuss. Secretary of Defense Wilson took the "little hurricane" as he called it, so seriously that he called on short notice an unprecedented news conference to himself, the secretaries of all three services, and all members of the Joint Chiefs of Staff.

"There will always be some differences of opinion within and between the services in connection with military operations," declared Wilson, as the civilian and military heads of the armed forces sat stony-faced alongside him.

Wilson thus moved swiftly to halt the biggest interservice quarrel by far since the "admirals" over the B36 bomber in 1949.

Both the Army chief of staff, Gen. Maxwell D. Taylor, and his Air Force counterpart, Gen. Nathan F. Twining, specifically disavowed documents "leaked" to certain publications, except the weekend casting reflections on the roles assigned to other services.

Some sources in the Pentagon gave out documents saying that present emphasis on airpower could lead to disaster.

Wilson referred to the future as a "little hurricane" but emphatically suggested maybe it had blown blown up beyond its true proportions.

"I think," said the defense secretary, refusing to elaborate, "the eager beavers are gnawing down some of the wrong trees."

Wilson said he saw no need for and congressional investigation, such as some Democrats have been talking about — to thresh out the matter of the three services' roles and missions.

## Water Carnival Meet To Hear Instructions

## Block S Applications Open Now

New plans, new colors and new stunts are being planned for next fall's Block "S" section.

Students may sign up for the block today, Wednesday and Thursday from 1-4 p.m. in the Union Concourse.

The block was started as a junior class project during the football season of 1953. A committee of five planned the 936-seat section.

The block now has 1,008 seats and is located in the junior section.

Block "S" has appeared on television several times, including a color production of the Howdy Doozy show last fall.

Those holding membership cards are assured of seats from the 10-25 yard lines.

Leading the 1956 Block is chairman, Bill Cook, Greenville junior. Committee chairmen are: art, Jan Reising, Beaver, Pa. sophomore; instructions, Carolyn Luttrell, Pontiac junior; purchasing, Jim Wood, Mt. Pleasant junior; personnel, Betty Prout, Houghton sophomore; and publicity, Marilyn Krueger, Ferndale junior.

## Cypriot Rebels Kill Briton In Latest Riots

NICOSIA, Cyprus (AP) — Cypriot rebels, hiding among a rioting schoolgirls tossed bombs at British troops trying to restore order in Nicosia Monday, killing one Briton and wounding three others.

British reinforcements ringed the riot area in an effort to trap the bomb throwers. As tear gas clouds cleared later, a grim silence settled over the sunny city. Tearing police loudspeakers announced that an indefinite curfew had been ordered.

The battle, worst in Nicosia for weeks, began quietly enough with schoolgirls demonstrating for the second day for Enosis — union with Greece.

Then, as the troops moved in to break up the march, rebels pumpled with the girls threw bombs.

The demonstrators chanted Enosis slogans and praise of EOKA, the underground fighters against British rule.

## No Parking in Lot C: Area to be Resurfaced

All drivers who have cars parked in Lot C, west of the Livestock pavilion, must move them by Wednesday, according to Richard O. Bennett, assistant director of public safety. The parking lot will be closed three days, Wednesday, Thursday and Friday for resurfacing.

## Minnie Mangum Pleads Guilty to Embezzling

NORFOLK, Va. (AP) — Minnie Mangum, whose phantom bookkeeping system financed her popular role of benefactor pleaded guilty Monday to stealing more than a million dollars from her employers since 1933.

Corporation Court Judge H. Lawrence Bullock accepted the plea of the plump, former building and loan company officer and deferred sentence until June 25 pending a probation report.

The 52-year-old defendant, long noted for her lavish generosity to family and friends, was indicted last month on 16 presentations, one of which alleged she embezzled \$2,884,000 from the now defunct Commonwealth Building and Loan Assn. Miss Mangum was assistant secretary-treasurer of the firm.

The defendant, a 190-pound spinster who lives with a blind sister, was convicted last Thursday of lying to the State Corporation Commission about Commonwealth's financial condition and her punishment was fixed by the trial jury at 10 years in prison.

Monday Miss Mangum was docketed for trial on an indictment alleging she embezzled \$1,082,969.25. She stood for arraignment and said "guilty" in a barely audible voice. Her face was an expressionless mask, just as it has been of each of her public appearances since her arrest Dec. 29.

Defense Atty. Max R. Broudy then told Judge Bullock he felt the charges in the other indictments related to the same offense and Miss Mangum was arraigned and pleaded guilty to 12 indictments.

State Prosecutor, Linwood B. Tabb indicated he will ask the court on June 25 to permit him to drop three embezzlement indictments — one alleging Miss Mangum stole \$2,884,000 from which the defendant has not been arraigned.

## Ike's Physician Opposes Vacation in Colorado

WASHINGTON (AP) — President Eisenhower's personal physician said Monday he is against any idea of a Colorado vacation by the President this summer because of the heart attack Eisenhower suffered in that altitude last year.

The doctor, Maj. Gen. Howard M. Snyder, told newsmen he wanted to emphasize that neither the President nor anyone else had sounded him out on the possibility of a Colorado vacation.

But Snyder said that if his opinion should be sought regarding a vacation there, "I would not be in favor of it."

Snyder's statements were in a chat with newsmen on the White House lawn during a reception given by the President and Mrs. Eisenhower for service veterans from hospitals in the Washington area.

It was in Denver last Sept. 24 that the President suffered a coronary thrombosis.

Eisenhower himself has said nothing definite publicly as to whether he plans to return to Colorado, the home of Mrs. Eisenhower's family. He has vacationed in that state for the last four summers.

There have been reports that the President might pass up Colorado this year in favor of a vacation somewhere in Wisconsin.

The Forrester, new aircraft carrier, has an air conditioning pure State buildings.

The East Lansing Chamber of Commerce is sponsoring a contest for a new official city seal, said President Leo Merten. The contest is being held now in order that the seal may be ready for use during the fiftieth anniversary of the city in 1957.

The contest runs from Michigan Week until Nov. 1, 1956. The committee of judges will consider all entries and announce their decision by Dec. 1.

All residents of the city, including MSU students, are eligible to enter. All entries go to the office of the East Lansing Chamber of Commerce.

## Top High School Papers Displayed

Winning entries in the 1956 Michigan Week Journalism Enterprise contest have been placed on public display in the reading room of the Michigan State University Journalism School. They may be seen there between 8 a.m. and 5 p.m. any day this week.

High school newspapers from Sarnow, Hastings and Flint were named top winners in the contest, sponsored by the MSU School of Journalism.

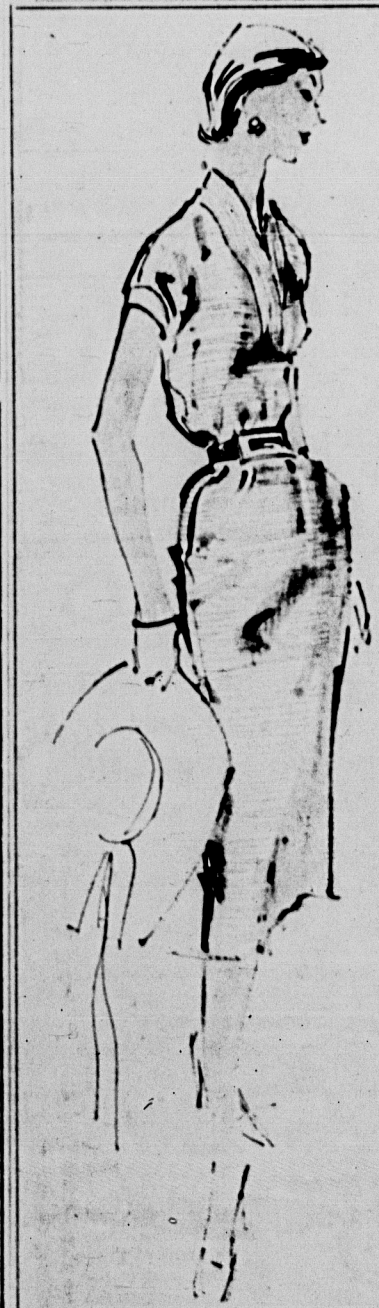

## SHORTHAND in 6 weeks

**TYPEWRITE IN 6 WEEKS**

New voice-matic method of teaching (typewriting, makes it easy for you to become a good typist in 6 weeks of day school or 15 weeks of night school (two evenings a week). Write, phone or come in for a free demonstration.

## To WKAR

## Wayne Wayne Leaves Wayne For MSU

Wayne Wayne is leaving Wayne.

Actually, the full name is Wayne C. Wayne, and he is a radio instructor at Wayne State University.

This state of affairs is about to end, for, on July 1, Wayne will leave Wayne for Michigan State to become production manager for WKAR, according to Robert J. Coleman, station director.

Wayne will replace Ed Kuschler, who recently left a Lansing radio station.

President Virgil M. Hancher will address an estimated 1,000 graduates at the 94th annual exercises, in case of rain.

**96 Convic Volunteer Cancer Ris**

COLUMBUS, Ohio (AP) — Sixty Ohio Fentent volunteers have volunteered for a cancer research project.

The research project will be conducted by the Sloan-Kettering Institute of New York City and Ohio State University's College of Medicine.

Volunteers hope the study will provide information on how cancerous individuals' bodies kill off foreign cells transplanted into them.

It is said that about 40 of the 96 who volunteered are women, and they are being paid members of the Ohio State of "cancer" subjects.

"About four or five sim and they had been stinkers for five lives and wanted to 'work' worthwhile," it is said.

Several, he said, volunteered to graduate to what is a life for them.

The volunteers will not be paid. Two weeks after the study is over, the volunteers will be paid for their study.

One will remain in the program for an indefinite period, researchers said.

**Senior Coed Wins Fulbrig Scholarship**

Miss L. Thorpe, East Lansing, received word last week that she has been awarded the Fulbrig Scholarship to study in Germany during the next academic year.

Miss Thorpe, who will graduate from MSU this year, is a member of the Phi Kappa Phi Honor Society, and her father, Mr. A. Thorpe, is a professor of the Department of Agriculture on campus.

The grant is one of approximately 1,000 awarded under the Fulbrig Educational Exchange program of the Department of State for study abroad.

**Police to Impound Licensed Bikes**

Genoa Police announced today that they will clamp down on bicycle riders who have not renewed their bikes.

The deadline for registration is April 20. The department said that only about one-half of the bikes have been renewed.

Police said that beginning next month, all unlicensed bikes will be impounded. They are not to be taken anywhere, which is provided to the public, and are offered for sale.
