## Condition Temed Excellent

## MacWalks After Major Surgery

WASHINGTON (AP) — President Eisenhower got on his feet walked with some assistance Monday. Six hours after undergoing major abdominal surgery, the President and his doctors reported his recovery is progressing normally without complications, decided against a second attempt at walking a few days later, however.

While not complaining of the pain, Eisenhower was quoted as having said "Once was enough."

Medical sources issued during the night of Saturday, June 10, said Walter Reed Army Hospital reported the President's condition as "excellent" and said progress after Saturday's planned emergency operation "continued excellent."

Nothing was said on the President's physical future. James C. Kelly, White House press secretary, declined to speculate on the President's fitness, following his heart attack of last winter, which caused him to give up his mandatory for re-election.

Kelly said in response to a question that Eisenhower had furnished any information he wanted.

The President's first post-operative steps Sunday morning were about 15 feet from his bed, where he sat for 40 minutes, and then back & forth sitting in the chair gasping deep breathing.

At 3 p.m. the doctors issued orders.

The progress of the President's other muscles was uneventful.

"He has had a fairly comfortable day. He has napped at intervals throughout the day."

He said the word "uneventful," Hagerly said, and that was all he said, excepting everything else to be normal. He said he means they had been no complications.

For the decisions against any further surgery Sunday, Hagerly said, "It's the significance" so a recovery progress was considered.

As for the idea of the doctors the President himself, Hagerly said,

young to seek nomination to legislature

Age 21, Young, retired attorney of Michigan State, announced his candidacy for the Michigan House. Young pointed out he would seek a House nomination for representation from the second congressional district before going to place for a trip to Europe.

"I think I know the district it needs very well and those who know me best say that I could do my best in a fair and honest way for all the people," said

## 21 Awards In Speech Presented

### Recognition Given At Majors' Dinner

Twenty-one awards were presented to outstanding students of the speech department Thursday evening during the annual Speech Majors' Banquet.

The winner of the National Oratorical Contest, Mike Sifis, senior from Ramallah, Jordan gave the oration on the Arab-Israeli conflict which won him the award. As one who has been a part of the conflict, Sifis asked that Americans try to understand both sides of the Near East situation and act with fairness towards each other.

Charles Bork, Linnens junior and president of Alpha Epsilon Phi, who presented an award to A. William Blum, speech instructor, The Theta Alpha Phi award for the student excelling in more than one phase of theater was presented to George Hatchford, East Lansing junior.

The Edward Pino Memorial award was given to Rhawn Dohm, Jackson senior.

Lenore Nance, Lansing senior received the award for interpretation. In making the award, Stuart Chernoweth, Art professor of speech, began, "No one looks forward more to these symposiums than my cocker spaniel," as he picked up a medium sized box of pork chop bones.

Glen Washburn, representing the Spartan magazine presented four awards for acting.

See AWARDS, Page 3

### Delta Sigma Pi Holds Scholarship Banquet

Delta Sigma Pi, professional business fraternity, held its annual scholarship banquet Wednesday.

The scholarship key which is given to the graduating senior with the highest all-university average in the school of business administration, was awarded to Don Lenechmidt, Gaines senior.

Lenechmidt, who received a similar award from Alpha Kappa Psi, has an average of 3.84.

Charles Bork, Linnens junior and president of Alpha Epsilon Phi, who presented an award to A. William Blum, speech instructor, The Theta Alpha Phi award for the student excelling in more than one phase of theater was presented to George Hatchford, East Lansing junior.

The Edward Pino Memorial award was given to Rhawn Dohm, Jackson senior.

Lenore Nance, Lansing senior received the award for interpretation. In making the award, Stuart Chernoweth, Art professor of speech, began, "No one looks forward more to these symposiums than my cocker spaniel," as he picked up a medium sized box of pork chop bones.

Glen Washburn, representing the Spartan magazine presented four awards for acting.

UB Chess Tournament Postponed Until Fall

The chess tournament scheduled for this spring by Union Board will be postponed until next fall.

Registration fee refunds may be obtained at the Union Board office.

However, if it is desired,

the fee may be left with the board and used next fall.

### Final Exam Changes Must Be Approved

No student may have the time of his final examinations changed unless such a change has been approved by the Academic Senate.

It was announced by the Office of the Registrar Thursday.

Students attending the

Staff personnel whose research is already being financed by university funds are not eligible to receive grants. For this reason personnel of the Agricultural Experiment Station and the Engineering Station are not included in the grants.

Grants are not intended to finance research fully. Individuals receiving the grants are expected to contribute to make over-graduate personnel contributions.

Persons receiving the grants

See RESEARCH, Page 4

### For Rocket Ships

## Streamlined Antennae Sought

Rounding the operation of the antenna.

"Rockets or satellites could not use clumsy outside antennae like the television sets that perch on roofs," Dr. Lechner said. "They would blow down travel speed and break off."

Since, outside antennae wouldn't be practical, the scientists reason, why not use the rocket itself as an antenna?

They think this could be done by applying electrical charges to different parts of the craft.

Their work may someday be of benefit to the television owner who must buy a rotor attachment if his antenna is to pick up more than one TV channel.

Wells and Lechner are trying to solve some complex mathematical equations to clear up

part of the mystery. All this

is needed that theoretically the antenna pick-up can be altered by feeding it power other than the center. The new amount of power now fed into the center of the antenna," Wells said.

Reception waves would be set up simultaneously in several directions from the antenna. Stations lying within range in those directions would be picked up as the practical application of the theory becomes successful.

Wells and Lechner are now working to see if their assumptions are correct. The U. S. Army Office of Ordnance Research, which supports the project, will work on the practical application of their theories.

## 'Beat the Clock' Float Wins in Water Carnival

More than 1,400 spectators watched Theta Chi and Alpha Omicron Pi win first place for their float "Beat the Clock" at Water Carnival Saturday night.

### Officers Elected At Green Splash Dessert Meeting

Sixty-four officers were elected at the Green Splash dessert meeting.

The four scholarships won

awarded by Theta Chi Alpha

and Gamma Delta were

awarded to Mary Appel

and Bernice Goss

Bartels, Barbara Damone, N.Y.

and Priscilla Phillips.

The Green Splash

floats were second place

to Theta Chi Alpha

and Gamma Delta.

The Green Splash

floats were third place

to Alpha Omicron Pi.

The Green Splash

floats were fourth place

to Gamma Delta.

The Green Splash

floats were fifth place

to Gamma Delta.

The Green Splash

floats were sixth place

to Gamma Delta.

The Green Splash

floats were seventh place

to Gamma Delta.

The Green Splash

floats were eighth place

to Gamma Delta.

The Green Splash

floats were ninth place

to Gamma Delta.

The Green Splash

floats were tenth place

to Gamma Delta.

The Green Splash

floats were eleventh place

to Gamma Delta.

The Green Splash

floats were twelfth place

to Gamma Delta.

The Green Splash

floats were thirteenth place

to Gamma Delta.

The Green Splash

floats were fourteenth place

to Gamma Delta.

The Green Splash

floats were fifteenth place

to Gamma Delta.

The Green Splash

floats were sixteenth place

to Gamma Delta.

The Green Splash

floats were seventeenth place

to Gamma Delta.

The Green Splash

floats were eighteenth place

to Gamma Delta.

The Green Splash

floats were nineteenth place

to Gamma Delta.

The Green Splash

floats were twentieth place

to Gamma Delta.

The Green Splash

floats were twenty-first place

to Gamma Delta.

The Green Splash

floats were twenty-second place

to Gamma Delta.

The Green Splash

floats were twenty-third place

to Gamma Delta.

The Green Splash

floats were twenty-fourth place

to Gamma Delta.

The Green Splash

floats were twenty-fifth place

to Gamma Delta.

The Green Splash

floats were twenty-sixth place

to Gamma Delta.

The Green Splash

floats were twenty-seventh place

to Gamma Delta.

The Green Splash

floats were twenty-eighth place

to Gamma Delta.

The Green Splash

floats were twenty-ninth place

to Gamma Delta.

The Green Splash

floats were thirty-place

to Gamma Delta.

## Michigan State News

Read Daily by MSU's 19,000 Students and Faculty

The Michigan State News is published by students without direct faculty intervention. It is not the official voice of the university or of the student body, but while seeking to serve the best interests of both, stands ready to battle any move which would drive a wedge between the two, whether it comes from within the university or from outside. # 81 Years Service

## Dean Dye

With 34 years of service to MSU behind her, Dr. Marie A. Dye will retire as dean of the College of Home Economics August 31.

The College of Home Economics is one of the best in the nation today. It has risen to this position under the guidance of Dean Dye.

When she became head of home economics in 1930, it had only one department. Now there are several—the departments of food and nutrition; clothing and related arts; child development and home management; education and extension.

Aside from her outstanding contributions to MSU, Dean Dye has been a prolific writer for journals in the home economics field. She has written on nutrition, home economics accreditation and home economics education in general.

She has served as president of the American Home Economics Association (1948-50) and holds membership in four honorary organizations: Omicron Nu, Phi Kappa Phi, Sigma Xi and Kappa Mu Sigma.

Dean Dye's successor will be Dr. Thelma Porter, now attached to the University of Chicago.

It will be a return home for Dr. Porter when she takes over the reins from Dean Dye September 1.

She graduated from MSU in 1921, a year before Dean Dye joined the staff as an assistant professor.

Dr. Porter has twice been honored by her alma mater. In 1947 she was awarded an honorary Doctor of Science degree and in 1950 she received the alumni award for distinguished service.

She has served with the U. S. Department of Agriculture and is an authority in the field of human nutrition.

Like Dean Dye, Dr. Porter has a long record of research and publication in human nutrition and holds memberships in many national associations.

Dean Dye's long service and contributions to the growth of MSU will long be appreciated.

The State News takes this occasion to wish her good luck in the future.

And we'd like to say "Welcome Home" to Dr. Porter.

**DEAN MARIE DY**

**DEAN STANLEY CROWE**

## Dean Crowe

In February, 1941, Mrs. Eleanor Roosevelt spoke from the stage of the then new auditorium. The speech was part of the dedication ceremonies for the building.

This says Stanley E. Crowe, was the high point in his career.

Crowe is retiring July 1 after 47 years of service to MSU.

His years of service to MSU are equalled only by those of Lloyd C. Emmons, dean (emeritus) of the College of Science and Arts and assistant director of the museum. Both reported for work at MSU on the same day back in 1909.

Dean Crowe has seen this university grow from 1,000 students and the name Michigan Agricultural College to its present enrollment of over 16,000 students and the name Michigan State University.

Dean Crowe taught mathematics from 1909 until 1942. In 1939, he obtained the rank of professor.

He assumed the directorship of the summer school in 1936 and held that post for 18 years. He has also served as director of the old-time General College and was coordinator of the Army training program during the war years. From 1944 to 1950, Dean Crowe served as Dean of Students.

His present capacity as director of the Lecture-Concert Series began in 1940. In the space of 16 years he has built up the program from a few speeches a year to one of the finest and most extensive entertainment programs of any college or university in the country.

In addition to his activities for MSU, Dean Crowe has served as vice-president of the National Association of Concert Managers, on the East Lansing school board and as president of the East Lansing Savings and Loan Assn.

Dean Crowe will be missed by MSU. He has been, in the words of one of his closest friends, Dean Emmons, "one of the most useful figures to MSU in its history. He has served in many capacities and served them all well."

His successor, Dr. Wilson Paul, head of the speech department, is stepping into a big job.

The State News takes this occasion to say "Welcome."

Solution to Friday's Puzzle

**PARKING LOTS**  
East Lansing city parking lots are designed for storage parking and are open 24 hours a day except Sundays and legal holidays.

Motorists may build up to 10 hours credit on the lots' parking meters. Cost is five cents per half hour in all lots except number three (behind Keweenaw). Cost in lot number three is five cents per hour.

Motorists should check the regulations carried on each parking meter before leaving the parking lot. Defective meters should be reported to the Police Department.

**SPREADING**  
In East Lansing, all business and residential areas have automatic 25 mile-per-hour speed limits unless otherwise posted.

## Prep Athletes Set New Track Marks

BY HAL BATEMAN  
State News City Editor

America's high school trackmen are getting faster and faster.

Last year nearly all of the high school national track and field records were either tied or broken. This year the prep athletes are at it again.

One of the top marks was set by Walt Mangham of Pennsylvania's New Castle High School. Last year Charlie Dunas, now attending California's Compton Junior College, jumped 6'9 1/4", a record that looked pretty invincible.

In May Mangham broke that mark with a leap of 6'9 1/2".

The Chicago White Sox captured a fourth-inning break against their runs and edge a 3-2 win over the Red Sox 3-2 as southpaw Billy Pierce posted his 10th victory with a six-hitter. A routine pop fly by Chicago's Ed Leonard man in the left dropped for a double-second baseman Ted Lepcio and rightfield Jackie Jensen after signals crossed and col-

lapse singles by Minnie Moore, Larry Doby and Dave Winfield and a force-out by Sherman Lee. All the runs were scored for his 102nd major league victory.

\* \* \*

**anks Blast Lemon**

Joe Collins' three-run pinch homer and Johnny Kucks' nine-inning pitching helped the New York Yankees dash Cleveland's hopes of capturing the Yanks' American League lead to 3½.

However, the record will never get into the books because Jim Bowers of DeKalb, Ill., ran an amazing 4:16.2 the next day.

California athletes have claimed their share of records this year. Canoga Park's Dave Davis recently established a new shot put record of 62' 7 1/2" to smash the record of 62' 5 1/2" set in 1953 by Don Vick, now a star shot putter at UCLA.

Los Angeles' Jefferson High broke their own 880-yard relay record of 1:27.2 set last year with an effort of 1:26.5.

Charles Piggott, of Pasadena, recently tied the national record in the 120-yard high hurdles with a 14-flat clocking.

Oscar Dean has probably become the greatest high school broad jumper of all time although he may not receive recognition for his feat.

**Gophers Best Arizona In Pitchers Battle, 3-1**

OMAHA, NEB.—The University of Minnesota, behind the slants of Jerry Thomas, upset favorite Arizona, 3-1, Sunday night in the NCAA double-elimination baseball tournament.

The result ended two team titles for the Gophers winning after losses and the Orioles after winning four straight.

Minnesota lost its record at 5-5. Arizona lost its third consecutive victory.

## Plans Revealed for New College of Engineering

MSU officials Thursday announced plans for a new College of Engineering on south campus. The project will be developed over the next five years at an approximate cost of \$15 million.

The plans call for the development of a site, south of the Red Cedar river in an area of approximately 20 acres.

According to Dr. John D. Ryder, dean of engineering, the College of Engineering has asked for initial development of this site with buildings which would provide facilities for a student body of 4,000 engineering students, plus research activities and an expanded graduate program.

The movement to the new site was made necessary, Dean Ryder said, because available land area surrounding the present engineering building is not sufficient to provide additional facilities for the growing engineering enrollment.

Michigan State University has seen the engineering enrollment increase from about 1,800 in 1953-54 to 2,300 in 1955-56, and estimates indicate that we should have 2,700 students by 1960.

3,200 by 1965, and 4,000 by 1979," he said.

"The planned expansion of the College of Engineering will give us an opportunity to offer our graduates and to young men in the state of Michigan an education directed towards the modern science of engineering," said Dean Ryder.

**Planning money for the first unit has been approved in the current session of the legislature. This unit will house the departments of mechanical engineering and applied mechanics. It will be built at a cost of \$4 million.**

The second unit in the five-year development will be the civil engineering and engineering drawing building.

The last two buildings to be added to the development of the site, under the present plan, will house the electrical engineering department and research activities of the engineering college.

## Research Projects

(Continued from Page 1)

Base College, John N. Winburn; Administrative, Paul Dressel and William C. Warrington, Board of Examiners.

Communications skills dept., John T. Austin, Clarence M. Babcock, Paul D. Bagwell, A. J. Corday, Theodore H. Hartman, Ken L. Johnson, H. Platt, William Schwab and Robert L. Wright.

Humanities dept., Alexander R. Butch, Thomas H. Green, Stanley J. Ideberg and John Manning.

Natural science dept., Paul H. Barrett, Emanuel Hackel, Irving A. Kinsler, Robert W. Lewis, M. M. Meyers, Alfred Novak, C. E. Schlesinger, Robert E. Smidler, Allan Tucker and George C. Williams.

Social science dept., Ronald R. Cone, Laurence S. Cooke, Robin A. Drew, Leo A. Haak, Robert C. Hanson, Albert J. Levan, William T. Ross and Allen J. Seeger.

College of Business and Public Service, John T. Burke, Accounting Dept.; C. C. Clark, Jacobs, John F. McDowell, Rubin H. Simonds, Henry E. Zwarenstein, W. G. Ladd, Ruth C. Kuhler and Joseph W. Thompson.

Political science dept., LeRoy A. Staudt, Frank H. Mosman, Ward McDowell, Rubin H. Simonds, Henry E. Zwarenstein, W. G. Ladd, Ruth C. Kuhler and Joseph W. Thompson.

Foreign language dept., George F. Ferguson, James LaPlaca, Donald A. Schlesinger, Glendon A. Schubert, Jr., and Allen S. Whiting.

School of Political Administration.

College of Communication Arts, David K. Berlin, Malcolm S. MacLean, Jr. and George C. Williams.

College of Education, Byron W. Hansford, Karl H. Herford, Robert H. Hinman, Donald J. Leinweber, H. R. Hobson, David Stifter, James B. Timmer and Education Services, John F. Hanley, Donald M. Johnson, Milton J. Junge, Henry J. Montoye, Barbara R. Southward, James S. French, D. H. Hough and Sam H. Heath.

Physical Education and Recreation Department, W. P. Schroeder, Placement Bureau.

Teacher education dept., Harold J. Dorn, William K. Durk, Ruby M. Juengle, Leonard Luker, George B. Myers and Byron H. VanHoekel.

Student guidance, Donald J. H. M. Byram, Mary Lee Hurt, Beatrice O'Donnell and Meta Vossbrink.

College of Home Economics, Marion H. Hollis, Harry Gerhart, Carolyn M. Johnson and Mabel Nideffer.

Textiles, Clothing and Related Arts.

College of Science and Arts, William Gamble, Charles H. Bandura, Ernest Bessey, John F. Cantlon, Leo W. Mericle, G. W. Prescott and G. B. Shedd.

Department of Education, Frederick B. Dutton, L. L. Quill, W. T. Lippincott and Charles N. McCarty.

Chemistry Department, Roland L. Fischer.

Foreign language dept., George J. Johnson and George R. Rabinovitz.

History dept., Harry J. Brown.

Mathematics, Robert B. Miller, Charles C. Cumberland, Richard M. Dorson, Walter E. Fee, Alvin C. Holtzman, John H. Morrison, Richard E. Sullivan, Madison Kuhn, William A. Sullivan and Frederick D. Williams.

Literature and fine arts dept., Paul Love.

Music department, Gomer Jones.

Physics and astronomy dept., C. D. Hause and D. M. Margenau.

Psychology dept., Harold H. Anderson, S. Howard Bartley, Charles Harley, Donald M. Johnson, Milton J. Junge, Henry J. Montoye, Barbara R. Southward, James S. French, D. H. Hough and Sam H. Heath.

Physical Education and Recreation Department, W. P. Schroeder, Placement Bureau.

Teacher education dept., Harold J. Dorn, William K. Durk, Ruby M. Juengle, Leonard Luker, George B. Myers and Byron H. VanHoekel.

Zoology dept., R. A. Fennell, Allen S. Fox, T. Wayne Porter, John R. Shantz and K. E. Stiles.

University Services, Richard E. Channin and James E. Skipper.

College of Veterinary Medicine, Luis Calhoun and J. F. Smithers, an animal department.

Animal pathology dept., Robert F. Landham.

Microbiology and public health.

David T. Clark.

Surgery and medicine, Mark P. Rines.

**British Laborites Denounce Government's Cyprus Stand**

MANCHESTER, England (UPI) — Hugh Gaitskell Sunday disassociated his Labor party from Britain's official government stand on Cyprus.

He said Britain could solve the Cyprus conflict only by reopening negotiations with the exiled Archbishop Makarios or by turning over the problem to the North Atlantic Treaty Organization.

Gaitskell said the Cypriots could be permitted to settle at a later date the question of Enosis, or union with Greece. This is the demand of the Greek-speaking population, which makes up four-fifths of the island's half-million inhabitants.

"While the Labor party had kept silent during negotiations with the archbishop, it was their duty to express their disagreement with the foolish breaking off of the negotiations; the deportation of the archbishop and the subsequent policy of repression," he told a Manchester meeting.

Gaitskell, who replaced Clement Attlee as Labor party leader last year, called for a negotiated settlement to give Cyprus immediate self-government, safeguard the rights of the Turkish minority on the eastern Mediterranean island and provide for its use as a military base.

Gaitskell said the Cypriots
