EAST LANSING, MICHIGAN—TUESDAY, NOVEMBER 4, 1968

PRICE 5 CENTS

**PANTHER MOVES UP**  
The Panther moved from the 10th to the 11th position in the 1968-69 season. The Panther is now the 11th best in the nation. See sports page for details.

## Michigan Elections Big Battle

### Williams Vies With Bagwell

DETROIT (AP)—Michigan Democrats Tuesday will attempt to pick up a U. S. senator and a congressional majority while holding a solid state of state administrative officers.

They are being met by the vigorous Republican battle line. Gov. G. Mennen Williams is being challenged by the solidly entrenched GOP line.

Williams was the only Democrat elected to a statewide office in 1966. Now he's asking for a two-year term with a full administrative board of governors behind him.

Additionally, the current lieutenant governor, Philip Hart, is widely favored to unseat Sen.

### Art Festival

Today's schedule:  
Delta Phi Delta-Art and sculpture display in Union Concourse.  
Phi Mu Alpha-Jazz entertainment at 4:15 and record concert at 5:30.  
Delta Phi Delta-A "Demonstration in Art" at 8 p.m. in parlors.

Charles Potter, Michigan's other senator, Patrick McNamara, a Democrat.

The current Michigan delegation to the House of Representatives includes 12 Republicans and six Democrats. The Democrats predict they can beat three of the Republicans—in the sixth district which includes Industrial Park and the state capital Lansing; in the seventh district which stretches north from Detroit to Lake Huron; and in the 10th which is suburban Oakland County just north of Detroit. They also say that a Democratic landslide which they say is forcing could swing at least one or two more races.

Democrats never have controlled the Michigan delegation to Washington.

Opposing Williams in his bid to become the state's first six-year governor is a personable Democrat from Michigan State University, Paul Bagwell.

## PanHel, IFC Co-Sponsor Semi-Formal

Phi Kappa and Inter-Fraternity Councils have set Nov. 14 as the date for their all-university semi-formal dance to be held at the Delta.

Dancing will be from 9-12 to music of Bob Eberhart and orchestra.

Tickets may be purchased at the Union Desk for \$2.50. Lady Johnson, Cincinnati and Chuck Morrell, Three in the company, are co-chairmen for the event.

Planning decorations will be Barnum, Lansing junior; Bruce Bruckner, Grand Rapids senior; and Dee Diamond, Joseph sophomore.

A charge of publicity are Brown, Lansing junior; Knight, Ferris junior; Miller, Lakeland, Fla., junior; and Jim Wheat, Allegan senior.

The hand committee is headed by Larry Fournier, Detroit senior.

Other co-chairmen are Arden Gathorn, Lincoln Park senior; and Bob Harrington, senior.

Other co-chairmen are Arden Gathorn, Lincoln Park senior; and Bob Harrington, senior.

Other co-chairmen are Arden Gathorn, Lincoln Park senior; and Bob Harrington, senior.

THIS PLUME-SHAPED dust cloud rose over the mountainside on the Nevada Test Site after the Atomic Energy Commission fired a device from a tunnel last week. The AEC said it was the largest known manmade artificial underground atomic explosion.

## MSU News in Brief

### Field Day Set for Saturday

The Forestry Club has slated a Field Day Saturday at the W. K. Kellogg Experimental Forest near Battle Creek. Contests between freshmen, sophomores and senior classes have been planned. They include log rolling, wood chopping, log bucking, log throwing and match splitting. A barbecue chicken dinner will follow.

### Sirianni to Serve on Committee

Arthur Sirianni, assistant professor of foreign languages, has been named to serve on the Committee on Foreign Language for the State of Michigan. This committee, appointed by the Modern Language Assn., will seek to find ways to improve the quality and stature of modern foreign language teaching in the U. S.

### Applications Open for Teaching

Education majors who plan to do student teaching spring quarter, 1969, must apply not later than Nov. 15 to the Student Teaching Office, first floor Education Building. Students who have made application and have since changed address should give this information to the Office.

### Historical Sculpture on Display

The art department is displaying facsimiles of historical sculpture in the glass case of A-7, South Campus. An account describing the discovery of the original is posted with each item. The exhibit is open to the public Monday through Friday, 8 a.m.-5 p.m. until Nov. 18.

### Women's IM Holds Open House

The new facilities of the Women's Intramural Building will be open for public inspection on Sunday afternoon, between 3-5 p.m. The department of health, physical education and recreation extends a cordial invitation to all to visit the new building.

### Hamilton to Speak to Men's Club

Dr. Thomas Hamilton, Vice President of Academic Affairs, will discuss "Implications for MSU of the National Defense Education Act," at the meeting of the MSU Men's Club in the parlors of the Union today at 12 noon.

### Meeting Attended by Dr. Grummon

Dr. Donald Grummon, director of Counseling Center, recently attended the annual meeting of the Counseling Center Administrators at the University of Minnesota.

This group is an informal organization of schools in the Midwest. Representatives discuss mutual problems, such as students being late for appointments, the role Counseling Center plays in training graduate students, new texts and experiments, counseling procedure and group counseling.

### Tonight

## Orchestra Plays Bach

The University Chamber Orchestra makes its first appearance tonight under a new conductor, Dr. Walter Hodgson, head of the music department.

Last year the group worked under Gomer L. Jones, director of the University Chorus. The concert will be broadcast by Radio WKAR-FM.

The Chamber Orchestra will play Bach's Brandenburg Concerto No. 1, Brahms' Serenade No. 1, Paganini's Sinfonietta No. 1.

The concert will be held in the Music Aud at 8:15 p.m.

### Weather Change Coming

## If Your Back Itches Today, Watch Out!

Michiganans use almost everything from spiders and centipedes to apples and itching backs to predict the weather.

These unusual weather indicators are found in folklore information being compiled as a term project by an American folklore class.

The instructor, Dr. Stuart Gallacher, explains that his students are talking with people throughout the state, obtaining information on superstitions and beliefs. The material is being classified and will be compiled into a reference volume of Michigan superstitions.

"No family, no matter how sophisticated, is free of superstitions of some sort," contends Dr. Gallacher. "Although folklore has its entertainment value, it is a serious thing to many people. It becomes more of their total philosophy of life and their moral and behavioral patterns."

Dr. Gallacher points out that folklore, like religion, deals with three fundamental questions: "Where do we come from? Why are we here? Where do we go?"

With variations, one of the most frequent ideas encountered was: "Red sky at night, sailors' delight. Red sky in morning, sailors take warning."

No few people think that stepping on a spider, ant or toad will bring rain the following day.

A furry caterpillar with many dark bands, according to a woman in Alpena, is a sure sign of a hard winter.

A Mount Pleasant man, along with many others throughout the state, got his weather clues from the animals. He believes a rough winter is on the way if the muskrat builds a thick house or squirrels put away a large supply of nuts for winter food.

"An itching back," according to a Lansing woman, "means a change in the weather," while a

Greenville woman contends that a storm is on the way if all the food placed on the table for a meal is consumed.

Cows lying down, rather than standing, in a pasture is a sign of rain, according to an East Lansing girl, who claims the observation is remarkably accurate. A Greenville woman believes it will rain the next day if a snake is killed and thrown into the bushes and it remains hanging on a branch.

A fairly common superstition in Michigan, reports Dr. Gallacher, is that if the moon crescent is tipped, water will be able to run out and that means rain.

## Congress' Fate Up to Voters

### MSU TV Injunction Unsettled

Officials Awaiting Judge's Decree

By SANDRA DOLLAHAN

MSU officials are anxiously awaiting a decision on their request to lift the temporary injunction filed against them on constructing a TV transmitter at Onondaga.

The hearing on the injunction was held in Jackson County circuit court Monday morning. Judge Simpson promised an early decision on the injunction which is preventing MSU from awarding contracts to General Electric Corporation to begin work.

"MSU owes no man, firm, or corporation," declared the university's attorney Leland Carr, Jr., in his rebuttal concerning the injunction.

His reply was concerning various accusations by the Jackson Broadcasting and Television Corporation, the plaintiff against MSU, which was an unusual applicant before the Federal Communications Commission (FCC) for Channel 10 at Onondaga.

Attorney Carr's confident and impressive voice proclaimed his client's intention "to dissolve the injunction and dismiss the lawsuit." Even after the judge has decided on the temporary injunction the matter of the merits of the bill of complaint will be brought up via briefs to be filed by each party.

According to FCC provisions construction was to have begun Monday on Channel 10, consequently the temporary injunction filed by one of the unsuccessful applicants for the channel is a source of major concern to university officials.

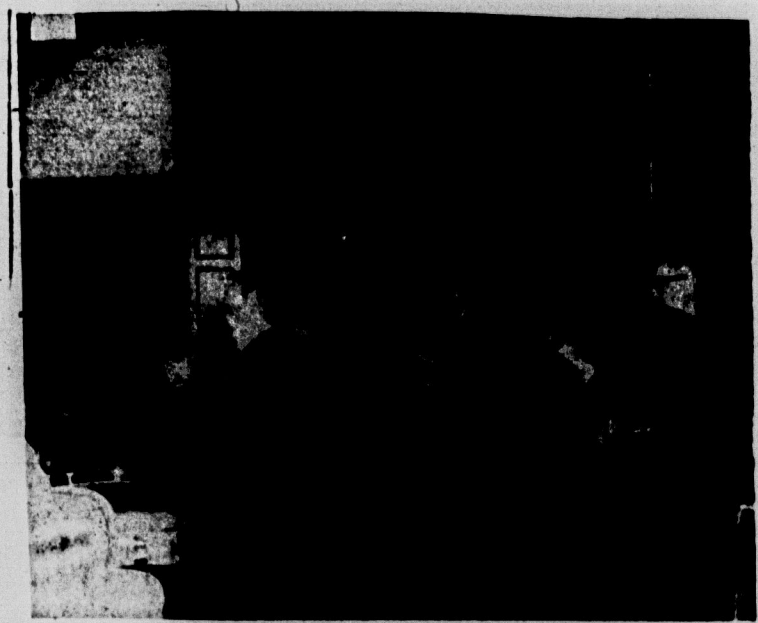

The plaintiff accused the university of participating in a self-liquidating project using state funds. Carr's rebuttal affirmed that the project would not be self-liquidating, no money was borrowed, no bonds were sold and no credit was pledged.

### Three Citizens Receive Awards

Three prominent Michigan citizens were awarded honorary life memberships in the MSU Alumni Assn.'s 40th annual Homecoming celebration last weekend.

The three are Talbert Abrams of Lansing, chairman of the board of Abrams Aerial Survey corporation; Harold Fitzgerald, publisher of the Pontiac Press; and Jack Waltram of Lansing, general manager of Oldsmobile division of General Motors corporation.

They received the awards at the Alumni Club Presidents' dinner Friday in Kellogg Center.

THE DANISH NATIONAL ORCHESTRA gave a pleasant concert Monday night. Dr. Wilson Paul, head of the Lecture-Concert Series, was presented with a Danish silver medal by the orchestra for his cooperation in bringing the Danish group here.

### Nationalists Defiant

## Heaviest Bombardments Hit Outposts on Quemoy Islands

TAIPEI (AP)—Communist big guns suddenly pounded Quemoy and the Tan Islands Monday with one of the heaviest bombardments of the Formosa Strait war.

Red artillery on three sides thundered into action after weeks of unofficial cease-fire, sporadic firing and lulls. The Nationalist Defense Ministry said its count showed 36,432 shells poured on the Nationalist outposts in six hours.

The bombardment, most intense in seven weeks, was in response to Nationalist China's first defiance of a Peiping warning against resupplying the islands on odd-numbered days.

One-fourth, or about 9,500, of the Communist shells hit the Tan Islands, rocky Nationalist outposts between Quemoy, Little Quemoy and Communist territory. American military officials say Quemoy is now virtually impregnable to successful

sea invasion, but that the Reds — if they were willing to pay a heavy price—might be able to seize one or both of the smaller islands, Tatan and Ehrlian.

Although there was speculation the Communists might be softening up the rocky islets for attempted landings, this was discounted by reports that some Nationalist craft involved in Monday's supply operation were maneuvering in waters near the

### Senior of the Week

Petitions are still being issued for senior of the week competition for seniors who missed the original deadline. Data blanks may be picked up and submitted at the Union desk.

### Rush Smoker Held By Green Helmet

Green Helmets, sophomore men's honorary, will hold a rush smoker in Old College Hall Wednesday from 7-9 p.m. Requirements for admittance to Green Helmet include a 3.2 all-university average and sophomore standing.

## Governor's Office Also In Bargain

Alaska's Voice Heard First Time

By THE ASSOCIATED PRESS  
Voters today decide the complexion of the 86th Congress by electing 33 senators and 432 representatives. Also at stake are 32 governorships.

Maine has already voted — Sept. 8—electing a Democratic governor, senator, and two out of three representatives for a Democratic gain of one senator and one House member. Alaska elects a governor, two senators and a representative Nov. 25. Thus 36 senators, 436 House members and 34 governors are being elected this year.

Democrats, who have controlled two of the three Congresses under President Eisenhower, count on increasing their present majorities. A majority in the next Senate will be 50 of 96, and the House 219 of 436. To win back control, Republicans would have to show a net gain of 3 senators and 19 House members.

Present Senate lineup: 49 Democrats, 47 Republicans, not counting Democratic gain, already registered in Maine.

Present House lineup: 235 Democrats, 200 Republicans, including vacant seats last held by 3 Democrats and 3 Republicans. This omits Democratic gain of one in Maine.

Present governor lineup: 29 Democrats, 19 Republicans. Nineteen Democratic and 13 Republican seats are at stake today.

Estimated eligible voters: 76½ million.  
Estimated probable vote: 66 million.

Polls close as early as 4 p.m. EST in parts of Rhode Island and Tennessee and as late as 11 p.m. EST in West Coast states.

## Jazz Concert Slated Today

Phi Mu Alpha, music honorary, will present a jazz concert today in the Union Concourse at 4:15 as a part of the Creative Arts Festival. Also at 8:30 in the music room there will be a record concert.

Delta Phi Delta will have a "Demonstration in Arts" at 8 p.m. in the parlors. There will be ceramics, silk screening, oil paintings, and caricatures shown as well as displays in jewelry, paintings, modeling, and graphic design.

### Dorms Set Run Offs

Run offs for the Fresh-Soph Council seats in Abbott and Phillips that did not achieve a majority in last Thursday's elections will be held today.

## Michigan Week Has New Slogan

DETROIT (AP)—"We're Proud of Michigan" is the slogan favored to grace posters, window stickers and all manner of other materials during the Michigan Week celebration next year.

Paul Penfold of Detroit, chairman of a committee which judged more than a score of slogans submitted, said it may be recommended for the May 17-22 celebration. "We're Great to Live in Michigan" has been the slogan since 1964.

### Senior Nite

Senior Council announces that Senior Nite will be held tonight from 8-11 at Coral Gables. Tickets may be purchased from Senior Council members or at the door.

# AF to Fire Rocket to Moon

## Moons Ship Firing Set Next Week

Purposes Similar  
To Past Attempts

WASHINGTON (AP)—The Air Force is about ready to fire another rocket at the moon. Its chances of reaching the moon's vicinity were estimated as "something less than 1 in 25."

Hugh Dryden, deputy director of the National Aeronautics and Space Administration, announced the shoot will be made within a week of the lunar probe will be a success if the instrumented nose of the rocket completes its 240,000-mile journey into space and goes into orbit for two or three turns around the moon. But the space probe would be gratified if it approached within 10 to 40,000 miles of the moon.

The moon ship will be an 88-inch diameter Thor ballistic missile, the Navy's Vanguard, and upper stages propelled by a solid fuel.

ASA, the civilian agency which has assumed responsibility for all U. S. investigations of the moon, has declined to make public the date of the shoot.

Calculations, however, indicate the best time to shoot is a period of three or four days beginning this Friday. At that time the moon will be something less than 100 miles from the earth.

The Air Force ran into technical difficulties when it tried to shoot at the moon last year in its second lunar probe.

From Cape Canaveral, Fla., the probe was launched Oct. 11, representing man's first penetration into space.

SANDI FORAKER, Detroit freshman, looks over her lucky issue of the Spartan with Norm Potter, circulation director. She found the signature of Jim Douglass, Spartan editor, in her copy, and won a free 1959 Wolverine.

## AUSG Briefs

### 'Best' Spartacade Set; New Chairmen Chosen

By LYNN SHEPARD

"This year's Spartacade is going to be the biggest and best ever," says Publicity Director Ray Levy, Roosevelt, L.I., sophomore.

New committee chairmanships according to General Chairman Don Guernsey, Rockaway, Ore. seniors, include Mariana Musta, Lakewood, Ohio, junior, acts; Carole Pearce, Ontonagon junior, theme.

Lee Teleman, Eau Claire junior, judges and trophies; Jackie Frost, Deerfield, Ill., senior, decorations; and Ed Flournoy, Detroit junior, programs.

Others are: Marlene Memier, Woodstock, Ill., junior, special events; Bill Livingston, Detroit sophomore, tickets; Brian Langley, Midland junior, advisory; and Don Huber, Greenville junior, organizations.

AUSG insurance representative Paul Leshner, Glen Ellyn, Ill., junior, announced that student policies have been delayed but will soon be sent to policy holders through the mail or distributed from the Student Services Insurance Office.

Acting Personnel Director Rudy Steury, Bluffton, Ind., sophomore, has been named as acting Personnel Director by AUSG President Chuck Walther. Steury fills the position formerly held by Don Huber who resigned Wednesday night.

WBSR to Present  
Night Club Dance

A dance which will have a New York night club atmosphere has been planned by WBSR (Brody Radio) for the end of this month. Dance combos will be composed of local live talent.

The "New Yorkish" atmosphere will be added to by a floor show and waiters who will serve soft drinks at tables.

Proceeds from the dance will go to the Campus Chest and WBSR fund. The station is planning to have more dance soon; some including professional talent.

## Educational Conclaves At Kellogg

### School Counselors Discuss Efficiency

Four educational conferences will attract more than a thousand persons to Kellogg Center this week.

About 350 school counselors will participate in the 12th annual Michigan Conference of Counselors, Monday and today. The conference will develop the theme, "Counseling the Learning Efficiency."

Dr. Walter Johnson of the College of Education and president of the American Personnel and Guidance Association presided the opening session of the conference Monday night.

He introduced the APGA president-elect, Dr. D. Arbuckle, director of counselor education at Boston University.

Two MSU agricultural economists, Glynn McBride and Earl Brown, will suggest ways to sell

WALTER JOHNSON ... presides at conference ...

more milk to the 10th annual Dairy Manufacturers Conference Wednesday and Thursday.

Other speakers will cover technical subjects pertaining to milk, ice cream, and cheese, and also will discuss broader management topics.

On Thursday and Friday, 400 Michigan teachers and school administrators responsible for courses of study will explore in detail the fundamental issues in curriculum.

The fourth annual High School Newspaper-Yearbook Advisers Conference will meet Saturday at Kellogg.

## Directories Now Available

Student directories are fully stocked at the Union Bookstore today. The '58-'59 copies, are available for \$1.

Last year the student directories were priced at \$1.50, but this didn't cover more than the basic printing costs. This year the registrar's office expressed the hope that the new price would more nearly cover the entire cost of the directory.

Due to the present financial straits the increase in cost was necessary.

In return, the directories offer full information on all students of MSU including class, course, marital status, campus and home addresses, telephone numbers and student number.

This year's student directories are available in limited supply at the Union Bookstore.

## Potter Dismisses Hart's Position

PLANT (AP)—U. S. Senator Charles Potter recently dismissed his challenger's position on anti-labor racketeering legislation as a "pre-election switch."

"Until now, he has been giving the people of Michigan quite a different impression of where he stands on laws to protect working men and women from theft, violence and extortion."

La. Gov. Philip Hart, Potter's Democratic opponent for re-election, said last Saturday he would have supported the Kennedy-Ives Bill had he been in the Senate this year. Potter voted for it.

## Two Regulars Injured

# Colts Look to Strong Bench

BALTIMORE (AP)—The nightmare of a football coach's sleep—injuries—was a reality today for Weeb Ewbank of the undefeated Baltimore Colts.

The latest medical word is that halfback L. G. Dupre will be unable to play against the Giants in New York Sunday and that quarterback John Unitas is doubtful.

Dupre dislocated his left shoulder early in the second quarter of Sunday's 56-0 victory over Green Bay.

"I wouldn't say he'll be ready for New York," said Dr. Edmond J. McDonnell. "Maybe the following week in Chicago."

Unitas was hit in the back two minutes before the first half ended.

He has a bruised rib," according to the doctor. "I wouldn't say it's cracked, although the difference is slight."

"We'll wait two or three days and see how he is," Dr. McDonnell gave Coach Ewbank some hope. He recalled that Unitas previously played with two cracked ribs.

As so often happens, injuries hit the Colt squad all of a sudden after they went through their first five games without a player being absent.

Halfback Lenny Moore went into the sixth game with a torn leg muscle and two linemen, of-

fensive tackle George Fries and linebacker Leo Sanford, were held out because of injuries. Defensive back Milt Davis also stated his left knee against Green Bay.

All the injured except Dupre and the questionable Unitas, however, will be available against the Giants.

If Unitas is out, George Shaw will do the Colt quarterbacking. And there's a bit of irony in that.

Shaw, the Colt's bonus draft selection of 1955 after starring

at Oregon, was a rookie sensation. He completed 119 of 237 passes for 1,586 yards and ran for 301 more.

He was still in there pitching at the start of the 1956 season until the fourth game when he damaged a knee at Chicago. Unitas, who had been unimpaired, substituted. He did such an excellent job that Shaw never has been able to win it back.

He came in for Unitas Sunday and completed 10 of 13 passes for 71 yards, three of them going for touchdowns.

Jack Call, a second year pro from Colgate, did the right halfback running in place of Moore. He carried 10 times and gained 73 yards.

When Dupre left, Leonard Lyles, the speed demon rookie from Louisville, was given his first full opportunity at half. He carried 13 times and although dumped twice for long losses looked promising. He netted 34 yards.

Lyles had carried the ball only five times from scrimmage before Sunday. However, he scored three touchdowns on kickoff returns of 104 and 101 yards and a 27-yard jaunt from scrimmage. He made a fourth on a four-yard pass Sunday.

**Packers to Cut 'Problem' Men**  
GREEN BAY, Wis. (AP)—An angry, disillusioned coach Ray "Scooter" McLean indicated strongly Monday that some of his Green Bay Packer football players would get the ax—possibly before Sunday's game with the Chicago Bears.

"We've got to cut out some of the bad roots. They're getting to be a problem because they're starting to affect the rest of the team. We know who some of them are and we're going to do something about it."

## Army Back, Dawkins, Off Injured List

WEST POINT (AP)—Pete Dawkins, Army's outstanding left halfback, Monday appeared ready to go at top speed against Rice Saturday.

The captain of the Cadets, a fine runner and pass receiver and an occasional passer, was used only sparingly in the rout of Colgate last Saturday. He turned in one of the most exciting plays of the game in going 75 yards for a touchdown with one of quarterback Joe Caldwell's passes.

Dawkins injured a thigh in the Virginia game several weeks ago.

Harry Walters, the No. 1 fullback who has been sidelined with an ankle injury, still was unavailable for heavy contact work. The Cadets won't know until late in the week whether he will be able to play.

Rain and snow forced the Cadets indoors for its first workout for the Rice game. The squad, overall, is in fine shape. There were no injuries in the Colgate game and the varsity only played a little more than a quarter.

GORDIE SERR

BUCK NYSTROM

... freshman coaches ...

## First Game Thursday

# Freshmen Preparing for Green and White Series

The first of the Green and White games will be played this Thursday according to Gordon Serr, freshman football coach.

The Green and White Series is a set of three games played between members of the freshman team who are split into squads, the Green team and the White team. Serr takes charge of one team while Coach Carl "Buck" Nystrom of the other.

This week's and next week's games will be played on the practice field opposite Jenison Fieldhouse. The final contest, set for Spartan Stadium Nov. 19, is played with all the trimmings of a varsity game.

Green and White games are played to add incentive to an otherwise dull year for the players, explains Serr. The Big 10 prohibits freshmen teams from participating in an intercollegiate schedule.

Men are separated from boys in the games, Nystrom points out. The coaches can see if the players, under pressure, have absorbed the teachings taught them. The series also allows students to view future State grid material in action.

This season is Serr's second as a fresh coach. He was a guard

on the Michigan State eleven that took the national Associated Press championship in 1952. After two years in the service he was assistant mentor at Arizona State under Dan Devine, a former MSU griddle. Gordie returned to the State campus in 1957 to take over freshman reins.

After coaching two years at Lansing Sexton High School, Nystrom moved to State as a coach this year. Most people are familiar with Buck's football career at State when he led the Spartans to a Rose Bowl victory over UCLA in 1956 as captain and all-American guard.

Both coaches are married. Buck is married to an MSU co-ed, the former Joan Catherine Whitmarsh, a junior in education. Gordie's wife is the former Mary Rose Peterson. The Serrs have one child, three months old Scott.

Being similar in appearance, Serr and Nystrom are often mistaken for each other by strangers. They are about the same height (Buck at 5'9" has two inches over Gordie) and weigh the same (210).

Besides coaching, they scout for the varsity.

## Conerly No. 2 TD Passer

CLEVELAND (AP)—Charlie Conerly, the veteran New York Giants' quarterback who was booted by the home fans two weeks ago, became the National Football League's No. 2 touchdown passer as he led his club to a 21-17 upset victory over the Cleveland Browns Sunday.

With three touchdown passes—two to Alex Webster and one to Bob Schmecker—Conerly brought his career total to 140. That put him one over Sid Luckman's 13-season total for the Chicago Bears. The 37-year-old Conerly is in his 11th year.

Sammy Baugh of the Washington Redskins holds the National League record of 187 touchdown passes in 16 seasons.

## Cage Tales

# Basketball Success

By LARRY WRUBLEWSKI  
Am's Edit Page Editor

IF MSU'S BASKETBALL team can win the Big 10 this season, it will add a successful chapter to Spartan cage history.

In the last four years, Coach Forddy Anderson, his coaching staff, and players have inspired a new basketball interest on campus.

When the Spartans entered the Western Conference as a full-time member, a good basketball club was indeed something to be desired.

So the then new athletic director Biggie Munn decided Anderson could build a championship team. As the record proves Munn's move brought profitable dividends.

WHEN PETE NEWELL, a member of the defensive school of thought, left MSU to accept the position of basketball coach at the University of California, Anderson who is a close friend of Newell, moved from Bradley University to step in as head coach in 1954.

Anderson's first MSU squad compiled a conference mark of eight wins and six losses to finish fourth in the Big 10. The following season his team split even in 14 league contests to take fifth.

In 1956-57 the Spartans reached the pinnacle of success designed by Anderson.

State surprised the basketball world when it swept the Big 10 co-championship with Indiana and a fourth place spot in the NCAA championships at Kansas City.

THE PRE-SEASON prognosticators rated Anderson's Spartans no higher than fifth place in the Big 10. Completely disregarding the "advance" notices, State won a 10-game winning streak to share its first cage crown. Heading to Lexington, Ky., State labeled "The Cinderella

TOM RAND

LANCE OLSON

... basketball veterans ...

team" wasn't figured to get past its first opponent, Notre Dame.

However, MSU nipped the Irish, 85-83, and in another "must" game belted powerful Kentucky on its home floor 80-68.

REPRESENTING THE MIDWEST in the NCAA semifinals, State gained further prestige by forcing North Carolina, the eventual NCAA champ, into three dramatic overtime sessions before losing, 74-70.

Last year, the Spartans had received the rightful recognition of crystal-ball gazers by being ranked sixth in a nation.

AS THE SEASON progressed a movie writer could dream up a more thrilling race. For no one thought State and Indiana, the previous year's co-titlists, would stage a showdown to decide the championship.

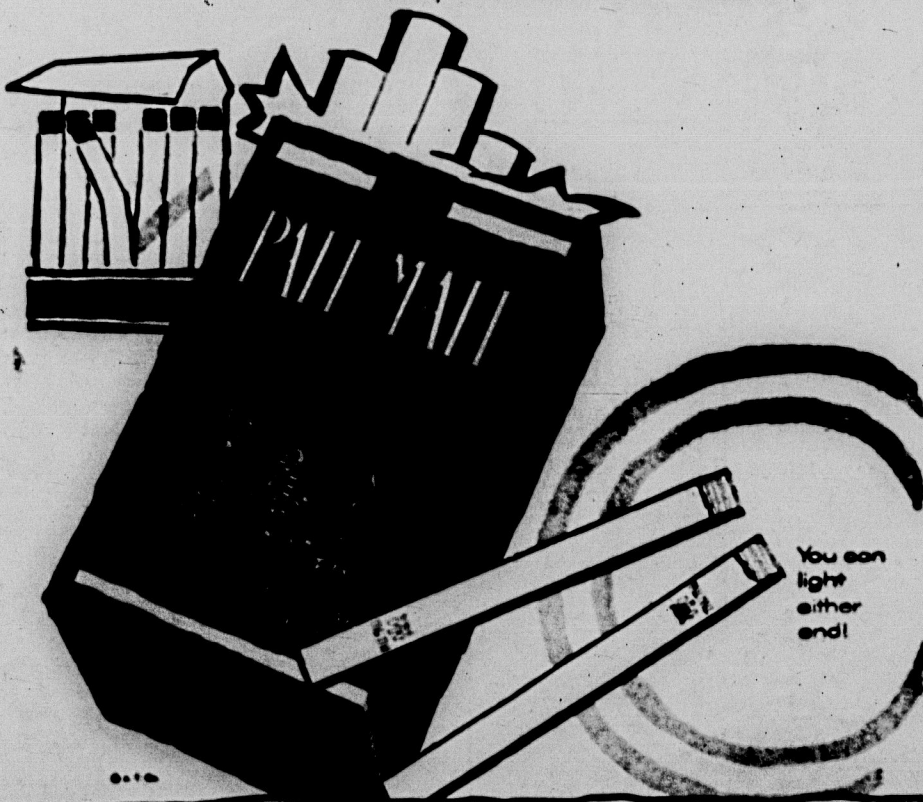

Both squads had identical marks of 9-4, with State posing the Hoosiers in Jenison Fieldhouse in the season finale.

Playing before 12,350 spectators and countless TV viewers, the Spartans displayed early jitters and never were able to catch the "Hurrying Hoosiers" losing, 75-72.

However, the biggest satisfaction was that State had a new home attendance figure of 101,932 which eclipsed the previous high of 88,750 set during the 1947-48 campaign.

## Interesting Eye Hi-Lites

about contact lenses and general eye problems as edited by question answers commonly asked in our offices. For more detailed information consult your ophthalmologist or Dr. Joseph B. Gotsdiner (See address below).

Dr. Gotsdiner, an ophthalmologist, graduated from the College of Optometry of New York and is a member of the American Association of Colleges of Optometry, the American Association of Optometrists, and the American College of Optometry. He is also a member of the American Association of Colleges of Optometry, the American Association of Optometrists, and the American College of Optometry.

QUESTION: Can the contact lens be lost behind the eye?

ANSWER: No. The inside of the lids and outside of the eyeball are lined with a membrane called conjunctiva. This conjunctiva lines the posterior surface (inside) of the lids, and is then reflected forwards onto the globe of the eye. This forms the conjunctival sac which is open only in front (as when the eyes are open). The contact lens can go no further backwards than this conjunctival sac.

QUESTION: How safe are contact lenses?

ANSWER: It is safer in many respects to wear contact lenses than wearing spectacle lenses because the plastic lens acts as a protective covering for the eye.

QUESTION: How long is one able to wear contact lenses at one time?

ANSWER: Nowadays it is not at all unusual to wear them continuously all the waking hours of the day.

Send inquiries about any eye problem to:

# Panitch Gains Starting Role

## Larry Cundiff Replaces Perles at Left Tackle

By HARDY CHRIST  
State News Sports Editor

Mike Panitch, senior quarterback, was moved back with the first unit on the Spartan grid team this week. Panitch, starting signal-caller during the first four games, was demoted in the wholesale shakeup two weeks ago.

Coach Duffy Daugherty, pleased with Panitch's performance against the Wisconsin Badgers, placed him back into the spotlight. Against the Badgers, Panitch alternated with Greg Montgomery, the starter, and led the Spartans on their only scoring march in the third period. He completed the job by tossing a scoring aerial to end and Capt. Sam Williams.

Montgomery, who held the starting quarterback job for two weeks, moved down to the second team.

Other than the injury to tackle George Perles Saturday, the Spartans received only an assortment of bumps and bruises. Left tackle Paul Rochester sustained a bruised right shoulder, halfback Al Luplow a twisted thigh while end Fred suffered slightly twisted knee. All will be ready next Saturday when the Spartans take on the University of Indiana at Bloomington.

Perles, starting right tackle, who took over for Palmer Fyle two weeks ago, suffered torn ligaments in his left knee. Dr. Sam Feurig, team physician, returned an operation on knee late Monday, but stated that there's a possibility that the 5'10", 201-pound sophomore may never be able to play football again.

Junior Larry Cundiff moved up to the first unit to take Perles' place. Cundiff, who had more injuries than the team, this time coming from the freshman forces, who damaged the varsity at Bloomington practice.

Dr. James, one of the brightest prospects on the team, was hit in a block and received a knee injury similar to that of Perles.

As is always the case at football practice sessions, however, immediate and experienced first aid was available. Dr. Feurig has his staff of football trainers, always on hand at practice, and at the scene only seconds from the injury.

## Baseball Scribes Pick Nats' Hyde as Top Soph of 1958

NEW YORK (AP)—Dick Hyde's quiet efforts as a relief pitcher for the last-place Washington Senators will not go unrewarded. The 26-year-old right-hander has been voted the American League sophomore of the Year.

The balloting of members of the Baseball Writers' Assn. of America in the Associated Press revealed Monday that Hyde was 44 of the 96 votes. Norm Siebern of the New York Yankees was the runner-up. He was named on 23 ballots. Tony Kubek of the Yankees was third with 11, followed by Russ Nixon of Cleveland, 10; Jim Lanning of Chicago, 9; and Brooks Robinson of Baltimore, 1.

Hyde won 10 games and saved 19 others as a reliever. Throwing his most effective pitches from an unusually low position, Hyde compiled an excellent 1.75 earned run average. This was the lowest A.L. mark among pitchers with a minimum of 10 decisions.

The first submarine specialist since Eddon Auker of Detroit, Hyde lost only three games.

MIKE PANITCH

LARRY CUNDIFF

... put on first string ...

## Television Dancer Dies From Football Injuries

DETROIT (AP)—Harry Klimushyn Jr., who was barred from his high school football team because of his smallness, died Monday night of injuries suffered in a scrub football game.

The 17-year-old Klimushyn, president of his senior class and a dancer on a Detroit television show, Detroit Bandstand, was hurt tackling a 200-pound boy in a scrub game Sunday.

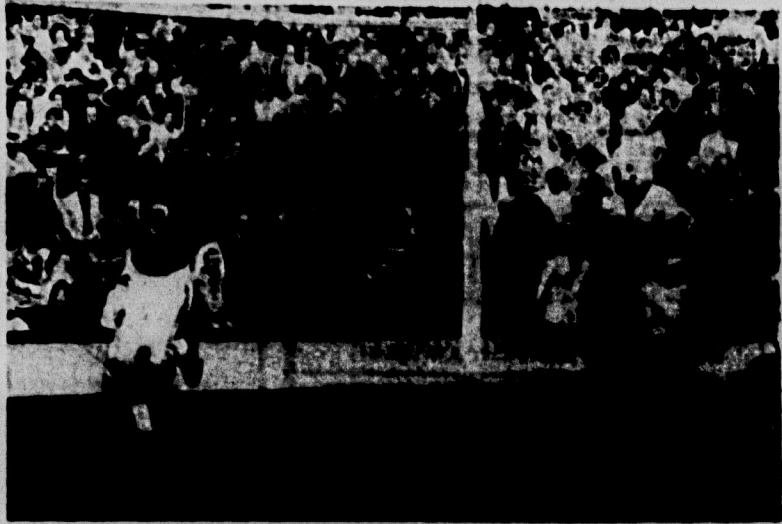

Klimushyn was 5 feet 6 and weighed 135 pounds.

Doctors removed a blood clot from his brain in a desperate operation Sunday night a few hours after the injury.

Klimushyn took a helmet and a pair of shoulder pads to the game with friends but left the equipment on the sidelines when told the other players were not wearing helmets or pads.

He always had plenty of speed and heart, but no weight, said the youth's father, Harry Klimushyn, a tool and die maker. "He had made four touchdowns already when he tried to tackle this 200-pounder."

Harry left the game in a dazed condition after making the tackle. He went to the sidelines and joined his parents. A few minutes later he became ill and his family rushed him to a hospital.

RAMBLING OUT OF STATE'S and none to guard Jim Francis across the fullback in for the killing. Beretich was stopped on the eight yard line after circling into the end zone from the two.

## Three Hall IM S uads Take Titles

Three dormitory champions were crowned Monday night after intramural football games.

Precinct 1 of Emmons squeaked out an 8-7 victory to take that dorm's title. It took a touchdown by Hank Owens and a safety to overcome precinct 2's single TD.

Marty Kleva pitched three touchdown passes to lead East Shaw 19 to a 19-0 championship win over East Shaw 2. Pete Carroll, C's Stewart and Joe Timm hauled in one scoring pass a piece.

Rather 2 had to comeback in the second half to overhaul Rather 1 for the title. After Wedgie Jones passed to Jerry Gay to put precinct 7 ahead in the first period, the champs scored once in the third quarter and three times in the last to win 21-6. A safety, intercepted pass and two Joe Juri TD passes provided the margin.

In a playoff for first place in West Shaw, precincts 1 and 10 played to 18-18 standoff. Larry Gibson hurled two TD pitches as 7 rallied twice. The two teams play again tonight at 8:10.

## Just a Sophomore

## NW's Thornton Polished QB

EVANSTON (AP)—Seldom in Big 10 football has a sophomore quarterback been acclaimed so highly as Northwestern's Dick Thornton.

Much of the Wildcats' startling success in compiling a 5-1 record this season, after failing to win a game last year, can be found in the leadership qualities of the modest, unassuming Thornton.

The 6-foot, 180-pounder is a born player, raised with a football in his hand since he was three. By an athletic-minded father who once was a quarterback for Missouri Mines and the Philadelphia Eagles.

By the time young Thornton entered Chicago's Taft High School, he was very nearly a polished player. And by the time he was ready to graduate, he had made all-state honors and had 43 colleges hounding him.

Northwestern got him by what could be described as a closed circuit recruiting campaign. Luring only a dozen or so miles from the campus, Thornton and his family could visit it as often as they pleased without the coaching staff being accused of luring the boy there.

"Alex Agase (assistant coach and chief talent hunter) should receive all the credit for getting Thornton for us," said Northwestern head coach Ara Parseghian. "Agase was born and raised in the Chicago area, made a fine reputation as a player, and Thornton had a lot of respect for him."

"The family was genuinely interested in athletics. We had them up to Northwestern many times for basketball games and so forth. We were interested in them and they became interested in us."

"There were many schools after Thornton—at least eight in the Big 10, especially Indiana and Michigan. Another thing, Northwestern has a fine dental school. Thornton wanted dentistry. It all worked out."

Thornton was a tailback as a prep, but had plenty of time to learn the Northwestern T quarterback assignments because he was a mid-term graduate. The coaches could work with him through two spring and two fall practices before springing him loose as their varsity quarterback.

Thornton has completed 31 out of 70 passes for 507 yards and 6 touchdowns; has grossed 287 yards in 76 carries; has averaged 36 yards in 30 punts; and on defense has intercepted 3 passes and run them back a total of 99 yards. He also kicks extra points.

"My biggest thrill came Saturday when we beat Ohio State 21-0," says Thornton, who hurled two scoring passes and plunged for another touchdown after running back a stolen pass 20 yards.

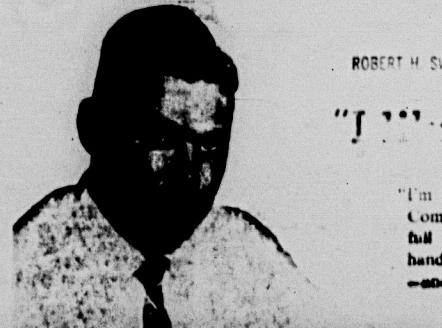

"It was strictly a team effort. And that 67-yard touchdown pass play to Ron Hurton (which broke the game open) was called not by me, but was sent in by Coach Parseghian."

Thornton celebrated the victory over OSU along with his 19th birthday.

ROBERT H. SWISHER, B.S.E.E., GROVE CITY COLLEGE, '54, says

"I love my job. Here's why."

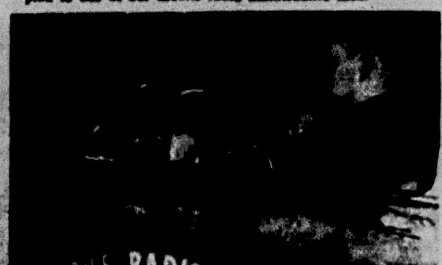

"I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example—and see for yourself."

"8:30 a.m. I'm at my desk applying a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."

"1:00 p.m. After lunch, I take a company car-out to the transmitter tower site. Here I check wiring and explain our plan to one of our mobile radio maintenance men."

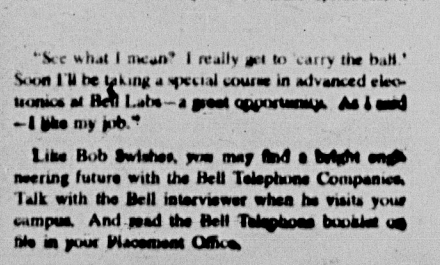

"Final phase. The operational test is made from an actual mobile radio unit. I'll make test calls and monitor the channels from various points within the Pittsburgh area."

"10:45 a.m. Before any modifications can be made, it's important that I check apparatus and wiring options. That's why I'm doing here at the Remont Control Terminal equipment."

"3:15 p.m. I review my proposed modifications of auxiliary control circuits with Supervisor Ed Graul. Now I'll prepare work orders, and next week we'll make operational tests."

"See what I mean? I really get to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said—I love my job."

Like Bob Swisher, you may find a bright engineering future with the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

# Business Conference On Economic Outlook

## Economist Forecasts Glad News

Net Profit Gain  
Guesstimated at 25%

ANN ARBOR (AP) — Glad economic tidings came Monday from the sixth annual conference on the economic outlook.

One economist forecast a sharp rise in corporation profits. Another foresaw a slight dip in food prices for 1959. They spoke at a two-day meeting of 100 top economists at the University of Michigan.

"In general the industries hardest hit in 1958 (autos, textiles, steel, chemicals, metals, machinery and rubber) are expected to have the sharpest recovery," said Edmund Mennis, research director of the Wellington Co., Philadelphia.

Mennis predicted a profit gain of 25 percent next year. He said his estimate was based on a survey of profit prospects for 110 large firms.

"The 25 percent improvement is influenced sharply by a substantial gain in the automobile industry," Mennis said. "If automobiles are excluded from the sample, the indicated gain is 14 percent."

"An upward trend in common stock prices is probable although not necessarily at the rate of the past five months."

Willard Arant, economist for Swift & Co., predicted some lower food prices because of the agricultural outlook for 1959 is one of abundance.

However, he said, the drop probably will be moderate because of a rise in the costs of food processing and distribution.

Arant said hog and pork prices will be appreciably lower next year, but little change can be expected in cattle and sheep.

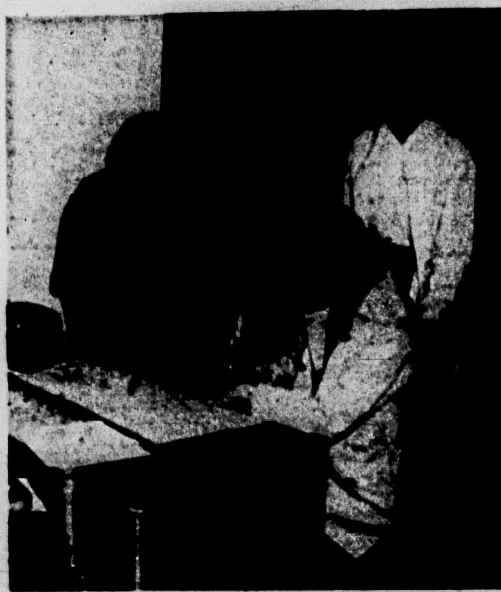

Prof. George Katona, a University of Michigan economist, predicted earlier that economic recovery will continue into 1959, but saw no signs of another boom in consumer buying like that of 1955.

Starb Edmunds, a Ford Motor Co. economist, said he expected dollar output of goods and services will climb rapidly to a new record during 1959. But, he added, physical volume prospects are "less auspicious."

Edmunds said a portion of the dollar increase is likely to reflect price increases due to rising labor and material costs and a sizeable government deficit.

### Appointments Held For 50 Senior Pix

Only 50 senior picture appointments remain. They will be given on a first come first serve basis at the desk in the Union Concourse. The representative from Delta Studio will be on the fourth floor of the Union from 9-12.

SIGNING UP for Panfil society rush are Peggy Nothoff, Pat Giraff, Elaine Toebe and Barbara Andrews. Women interested in rushing may sign up in the Conference Room, Student Services, from 9 a.m.-5 p.m. through Friday.

### For L-C Series

## Melachrino Orchestra Ticket Selling Slated

Tickets for Melachrino and his Orchestra will be distributed Wednesday at 9 a.m. in the Union second floor checkroom. Students must exchange coupon "D" of their activity books.

The orchestra will appear on the Lecture-Concert Series Nov. 18.

Selections to be performed are "Italian Fantasy," "Autumn Leaves," "Strauss Waltz," "Starlight Fantasy," "Lisbon at Twilight," "Oranges and Lemons," "London Bridge," "Colorado River," "Memories of the Ballet," "San Francisco," "Greenleeves," "Waraw Concerto," "Tchaikovsky Melodies" and selections from "My Fair Lady" and "South Pacific."

Known as the British master of mood music, George Melachrino and his orchestra are

### MSU TV Station Cited for Service

MSU's educational television station has been cited by the Michigan Historical Society for its service in the promotion of increased interest in Michigan history.

The honor, voted for the station's series of 12 half-hour TV programs devoted to Michigan history, was given to a medium other than newspapers for the first time in 84 years.

The WKAR-TV series was hosted by Dr. Frank Elliott, curator of history at the Museum and produced by Leslie Marcus. The historical award is to be presented when the university station resumes broadcasting early in 1959 on VHF Channel 10.

### Spotlight

## Travel Series Diversified

By JOHN MARTINEN  
Would you like to meet a flying Saint Bernard? A Seminole Indian lad wrestling alligators? These, and many more interesting people will be the subject matter of the World Travel Series film this Saturday.

Col. John Craig has traveled all over the world in search of interesting personalities, and appropriately has entitled his feature "High Adventure Across the World and Underneath."

"We Are All Murderers" is the current feature on the Foreign Film Series. The principals include a drunken mother and a daughter of ill repute.

The activities of these people in Nazi-controlled France give the audience an opportunity to explore certain aspects of capital crimes. Film times are at 7 and 9 p.m. in Fairchild tonight.

Richard Armour, lecturing satirically here last week, said he was making a rare appearance at MSU, the first in 52 years. A bright-eyed young female Spartan approached him after his talk, "It All Started With Eve," and innocently asked about his earlier appearance.

Armour, incidentally, was born in 1906.

Notes to you: Charles Munch conducted Honneger's Fifth Symphony at the United Nations Day concert in the UN General Assembly Hall. This same work was enthusiastically received here during the Boston Symphony's recent appearance.

Music from the Melachrino Strings, performing here Nov. 13, is featured each Monday, Wednesday, and Friday at 7:15 on WKAR-FM. Tickets for the coming concert will be distributed beginning at 9 a.m. this morning.

### Ceremony Televised

## Coronation for Pope John Set in Colorful, Ancient Rite

VATICAN CITY (AP) — Pope John XXIII will be crowned the Roman Catholic Church's 262nd supreme pontiff today amid the colorful panoply of centuries.

St. Peter's Basilica, scene of the four-hour ceremony tomorrow, glittered with red damask and gold and the flash of thousands of electric lights.

But for the first time in history, equipment of the electronic age was readied to bring the medieval pageantry to millions throughout the world.

A European television hook-up will broadcast the ancient ceremony from initial obsequies of the cardinals to the final crowning of the Pope on the exterior balcony of St. Peter's Basilica. Inside the Basilica itself, a battery of tripods was in place, ready for cameras that will be trained on the white damask throne, just about 40 feet away, where Pope John XXIII will be seated during much of the ceremony.

Hundreds of thousands will

assemble in St. Peter's Square to witness this part of the ceremony. It will be concluded by

The Pontiff again will be carried on his portable throne inside the Basilica. He will pause to pray at the Chapel of the Holy Sacrament, and will then be taken to the Chapel of St. Gregory, where a second throne has been erected for him. Here he will be clothed in glittering robes for the Pontifical Mass that is to follow and for the coronation itself.

### Election Results

The State News will provide an election results service between 9 p.m. and 1 a.m. for the benefit of those interested in the political outcomes. Phone Ext. 2618 for hot-off-the-teletype coverage.

the Pontiff's blessing of "Urbi et Orbi" — to the city of Rome and to the world.

The Pontiff will be carried on his portable throne by his purple clad bearers. He will descend at the holy door and take his place on the throne. Here, the cardinals of the church will perform a first act of obeisance.

### ASCE Presents Joint Banquet

Civil engineers are invited to the joint banquet between the Michigan section and the Student Chapter of ASCE on Thursday at 6:30 p.m. in the Union ballroom.

### Delt Sigs Third In IFC Displays

Delta Sigma Phi is the official third-place winner in the IFC Homecoming display contest. The winner was incorrectly announced during the Homecoming game as Delta Epsilon Phi.

Delta Sigma Phi won third place in the IFC competition with a huge float titled "I dreamed I went Badger-hunting in my Maidenform."
