

Dulles' Doctors Call in Help

Secretary To Remain In Cabinet

President Wants Aide's Services

WASHINGTON (AP)—Secretary of State Dulles' doctors called in three more specialists Tuesday in the hope of defining and containing his abdominal cancer.

From the White House came indirect word that Dulles will continue as Secretary of State at least for several weeks. The decision apparently was left up to Dulles.

President Eisenhower was described by Rep. Charles Halleck (R-Ind.) as feeling that as long as Dulles "is able and wants to carry on, the President of the United States will avail himself of his services."

Eisenhower spent half an hour with Dulles in his hospital room Tuesday. Press Secretary James Hagerty said Eisenhower told him he had a nice visit with his friend and aide.

It was the President's second visit. He called on Dulles last Saturday just before the announcement that the Secretary had suffered a recurrence of cancer.

Two of the three specialists called in Tuesday are surgeons who attended Eisenhower when he was operated on for leitis in 1956—Dr. L. S. Ravdin, professor of surgery at the University of Pennsylvania Medical School, and Dr. Brian Blades, professor of surgery at George Washington Medical School.

The third is Dr. Ralph Phillips of Memorial Hospital in New York City.

Maj. Gen. Leonard Heaton, commander of Walter Reed Army Medical Center, said they will help "outline the future course of management of the Secretary's case."

'Cool' to Theme Jazz Program During UB Week

Union Board has announced the names of the jazz groups which will perform March 5 as the "Cool" part of Union Board Week, "Playboy After Hours."

MSU quartets which are scheduled to play include those of Jim Hamley, Bill Mendonhall, Bobby Stephens, Kenny Watson and Jim Chesney. The Al DeMause Quartet from U of M will also be featured.

Dr. Maurice Crane, asst. professor in the humanities department, will be master of ceremonies.

Tickets may be purchased for 25 cents at the Union ticket desk and in Berkeley Feb. 25-26.

"Playboy Steps Out" is the name of the Union Board dance to be held March 6. While the theme is "Casual," the decor will be that of a night club.

The Bobby Stephens Quartet will provide the dance music and the U-Betts will perform at intermission. Ron Grow, Lansing dancer, will m.c. the show.

Prof Talks at Meet

Dr. Donald Grummon, director of the Counseling Center, recently attended the Commission on Higher Education at Notre Dame and spoke on the topic, "Introducing the Student to the Intellectual Life of the College."

'Lauderdale Holiday'

Tired of Winter Term? See Florida in Spring

Want to take that special trip to Florida during the spring vacation and travel at the lowest possible costs?

If so, stop at the Union Board desk, located in the Union and get the scoop.

The Student Services Committee of Union Board is sponsoring in conjunction with the College Travel Office of East Lansing, a "Lauderdale Spring Holiday," which will include rides and accommodations at the winter resort town of Ft. Lauderdale, Fla.

Students will begin signing up for the service starting today, according to Ann Slabaugh, chairman of the student services committee. A special desk will be located in the Union Concourse for both drivers and riders to sign up.

Union Board is helping to ease the problem of traveling to the Florida resort by car, while the College Travel Office will provide transportation by air and also inexpensive living accommodations in Ft. Lauderdale.

Drivers and passengers who will be going to Detroit Airport, Ft. Lauderdale or other locations may register at the desk in the Concourse from 9 a.m. to 5 p.m. starting today and continuing until March 1.

The College Travel Office has a special allotment of night coach air reservations available. Students may make reservations on Delta Airlines for round trip accommodations.

Delta night coach, Detroit-

Miami-Detroit, is available for \$118.47, including tax.

Eighty seats are available on the trip to Florida, which will leave Willow Run Airport on March 22, 23 and 24 at 10 p.m., and will arrive in Miami at 2:17 a.m.

The return trip will be March 31, April 1 and 2, with 80 seats available. Planes will leave Miami at 3:45 a.m. and arrive at Willow Run at 8:08 a.m.

A limousine transfer, Miami-Ft. Lauderdale-Miami, will be available for an additional \$6 per round trip.

At Ft. Lauderdale, the College Travel Office has put rooms on reserve for MSU students at the Riverside Hotel. The hotel is located one mile from the beach.

Other accommodations can be made on request at other locations in Ft. Lauderdale and on the beach.

Car rentals will also be available for any student over 19 years of age with a driver's license.

A \$10 deposit for hotel reservations and full prepayment must be made at the College Travel Office by March 15. The deposits are refundable if cancelled before the final payment date. Air reservations must be confirmed by March 15, and there is a \$5 deposit on the rentals.

AUSG Briefs

Tentative Plans Set For Revue

Johnny Mathis, Stan Kenton and a comedian may come to the MSU campus May 2. Tentative plans under the direction of AUSG's Spartan Spirit Director Wayne Reganall hinge on tonight's Student Congress meeting.

A bill to appropriate the \$10,500 to finance the proposed entertainers is scheduled for action at tonight's meeting. Contracts must be signed Thursday if approval is granted.

Under the direction of Spartan Spirit, the entertainment would be an AUSG undertaking, and not a pep rally. Proposed plans include a charge for admission, tentatively \$1. to \$1.25 for students and \$1.50 to \$1.75 for non-students.

AUSG's Steering Committee discussed the plan Wednesday, considering the large outlay of funds involved. A special cabinet meeting has been set today to precede the Congress meeting for a similar discussion.

Also scheduled for action tonight at Congress is a bill to appropriate funds for MSU's delegation to the model UN session in Montreal two weeks ago. This proposal was sent to the Finance Committee for study last week.

A new feature of AUSG's Jr. College Cooperation branch will send former JC students now studying at MSU to various community junior colleges in the state Mar. 23-27.

Doug Fisher, Grand Rapids Junior, and former student body president at Grand Rapids Junior College, and Ed Luikaart, Muskegon sophomore, who attended Muskegon Junior College will travel around the state and discuss various aspects of MSU and problems entailed in transferring.

MSU Receives Moth Collection

One of the largest existing private collections of Michigan moths and butterflies has been given to MSU.

The collection, containing 5,700 specimens from Michigan and 500 exotic specimens, is the work of the late Walter Stinson of Port Huron.

The collection was presented to the university by Mrs. Stinson. "The university now has an outstanding collection in lepidoptera (moths and butterflies)," reports Dr. Roland Fischer, curator of the MSU entomology museum.

BEARDED ARCHBISHOP MAKARIOS, Greek Cypriot leader, left London's Dorchester Hotel Feb. 16 with British security officer for nearby Park Lane Hotel to consult with colleagues in connection with the conference on Cyprus which began Tuesday and is expected to produce a constitution that will make Cyprus an independent republic, ending 81 years of British rule.

Canada Prepares Note of Protest On Chicago Water Diversion Bill

OTTAWA (AP)—Foreign Secretary Sidney Smith said Tuesday Canada is preparing a note of protest to the United States concerning the Chicago water diversion bill now before the U. S. House of Representatives.

The Canadian view has been that the diversion would lower the level of the lakes and en-

danger power and navigation developments on both sides of the border.

Last year Canada sent a similar note to Washington. The bill later was withdrawn.

Shortage Seen

U. S. Mathematicians In Increasing Demand

The United States faces an acute shortage of mathematicians within the next five years, according to Dr. J. Sutherland Frame, head of the MSU mathematics department and author award winner and member of the Board of Governors of the Mathematical Association of America.

One reason is that mathematics is difficult for many college students. The other is public ignorance of the fact that mathematics is a profession in itself, not merely a tool in other professions.

According to a recent estimate, 70,000 mathematicians, including 10,000 with doctoral degrees, will be needed for computer work alone by 1965, Frame said. Although he feels this estimate is high, he is sure there will be a shortage.

"It is highly unlikely," he said, "that there will be even 5,000 mathematics Ph.D.s by 1963. And most of them will be working in other phases than computing."

"We need more math teachers, too. In 1956, the Michigan State Placement Bureau listed 65 openings for math teachers in Michigan. Although one-fourth should have been filled by Michigan State graduates, one-fourth of all new teachers in the state came from MSU. We had only 16 graduating mathematics majors with teaching certificates and only nine of these filled positions listed by the Placement Bureau."

"The number of such graduates at MSU will be about 100 a year and 35 next year, and are still falling far short of demand."

New mathematical techniques, according to Frame, are responsible for the increased demand in industries," he said. "I found it simpler and cheaper to produce a product with a equation than to build a model and try it out. The industries mathematicians' job today is so much to solve problems as to formulate them, and let the electronic computers do the computation."
