Eisenhower Signs North-South Defense Agreement With Brazil

Senate Told All-Day Sessions May Start

Drive Begins to Push Civil Rights Legislation

WASHINGTON (AP)—The Democratic and Republican leaders served notice on the Senate Tuesday that round-the-clock sessions may start next Monday in a drive to get a vote on civil rights legislation.

Sen. Lyndon Johnson (D-Texas), the majority leader, told his colleagues there has been a growing demand for legislation to end racial discrimination next week, in which the Senate would not adjourn until the explosive issue has been resolved.

He agreed with Sen. Everett Dirksen (R-Ill.), the Senate GOP leader, that round-the-clock sessions would start Monday, if that is desired by the majority of the members.

Sen. Richard Russell (D-Ga.), chief strategist for the southern forces, told the majority and minority leaders his side could fight round-the-clock sessions with every trick they knew.

He implied he did not believe the southerners could be forced to yield by such tactics, declaring "you might as well get your closure petition out now." A closure petition would limit debate.

Sen. Allen Ellender (D-La.) told his colleagues he would move to bring all other Senate business to a halt if 24-hour sessions were ordered.

He said he would object to any committee meetings during such periods. Most committees may sit only by unanimous consent while the Senate is in session.

Gates to Talk Of Commies With Clergy

WASHINGTON (AP)—Secretary of Defense Thomas Gates Jr. agreed Tuesday to meet with any clergymen who wanted an Air Force manual on current in being Communists have infiltrated the churches.

Dr. Clyde Kennedy and Dr. Carl McIntire said they have an appointment with Gates at the Pentagon today at 9 a.m.

Kennedy, of Tacoma, Wash., is president of the American Council of Christian Churches. McIntire, of Collegeville, N.J., heads the International Council of Christian Churches.

Both groups have supported the infiltration charges printed in an Air Force Reserve training manual.

A spokesman said the two churchmen have important information backing up the statements to present to Gates.

Secretary of the Air Force Dudley Sharp ordered the manual withdrawn last week after protests from the National Council of Churches of Christ in the U.S.A., both the American and International Councils, made up of fundamentalist churches, opposed the National Council.

The American Council claims to represent 15 million Protestants in 16 denominations. Air Force also is associated with the International Council, which claims 64 member denominations and affiliated groups in 90 countries.

Participants in the program will have foreign students through registration, adjustment, and the campus and its organizations and introduce them to other students.

More men are needed to make the program a success, said Dave Rahaut, chairman of the AUSA International Cooperation committee, sponsoring the program.

Approximately 90 percent of the foreign students are male, but only half of the American applicants are.

Crowds Hail Ike's Arrival

President Lays U.S. Embassy Stone

BRASILIA, Brazil (AP)—President Eisenhower and Brazil's President Juscelino Kubitschek stood in the middle of a cheering crowd Tuesday and pledged their nations to the defense of the Western Hemisphere's peace and prosperity.

The ceremony, which took place at the laying of the cornerstone of the new U.S. Embassy in Brasilia, was one of the most important in the history of the new capital.

The ceremony was held in the presence of a large number of guests, including members of the Brazilian government and the U.S. military and diplomatic corps.

Attack by Russia Called Risky

Soviet Missile Power Disputed

WASHINGTON (AP)—A surprise missile attack on this country is rated as too big a gamble for Soviet Russia to risk by Gen. Nathan Twining, chairman of the Joint Chiefs of Staff.

At the same time, Twining agrees to accept the repeated claim of Sen. Stuart Symington (D-Mo.) that the Soviets will use a 3 to 1 or more advantage over the United States in big missile missiles over the next few years.

Twining's testimony was part of the current Senate inquiry into missile and military might being conducted by the Senate Space committee and Senate

I am not going into that racket of numbers, the gray-haired four-star general told Symington at the closed-door questioning on Feb. 9. His testimony was released Tuesday.

I am not trying to get you into any racket, Symington told Twining, adding that secret intelligence data, all deleted from the removed transcript made public, proved his point.

UB Features Jazz Groups

Five jazz groups will perform at Tuesday, the Union Board Week jazz program tonight at 7:30 in the Union Ballroom.

The groups will include three from MSU, Dr. Gene Hall's Quintet, Alan Barber's Quartet, and Bill Mendenhall's Quartet; one from Ann Arbor, the Alan DeMause Quartet; and one from Jackson, Jimmy Poole's Combo.

MC for the jazz concert will be Maurice Crane, faculty advisor for the campus jazz society.

There will be a small admission charge.

Another "What's It Have" event will be an Old-Fashioned variety show Thursday night at 7:30 in the Ballroom, with local talent playing the honky-tonk music, speed player, and a bit by four sorority housewives.

Prices of tickets will be reduced to five cents Friday in the Grill. Union Board directors will serve.

The Mint Julep dance, will conclude the "drinking" festivities Saturday night. The dance will begin at 9 and Kenny Davis will provide the music.

Participants in the program will have foreign students through registration, adjustment, and the campus and its organizations and introduce them to other students.

More men are needed to make the program a success, said Dave Rahaut, chairman of the AUSA International Cooperation committee, sponsoring the program.

Approximately 90 percent of the foreign students are male, but only half of the American applicants are.

'Tiger at the Gates' To Run March 2-5

Tickets went on sale Monday for "Tiger at the Gates," a University Theater production that will play March 2-5.

Composer To Discuss His Works

The youthful Hector, played by Charles Coffi, Long Island, N.Y. Junior, arrives home sick of battle and longing for his family. But he finds war fever in the sentiment of the idealists.

Helen, played by Diane Farr, Niles, Ill., sophomore, has been abducted from the forests by Paris, played by Robert Spangler, Wyandotte Junior. This love the war fever.

First written in French by Jean Giraudoux, the play appeared in Paris in 1935. The English translation by Christopher Fry ran on Broadway for 28 months during the 1955-56 season.

The play's theme is deeply serious and full of contemporary meaning for the guided missile era.

Some critics have compared the play's theme and setting to the current best seller, "On the Beach."

"Tiger at the Gates" is directed by Frank Butledge, instructor of speech. Tickets can be purchased at the Union ticket office.

Dean Ryder to Speak On Computing Machine

Dean John Ryder of the College of Engineering will address members of the Western Michigan Institute of Electrical Engineers Thursday night in Grand Rapids. Ryder will discuss "Tomorrow's Computer: Take Care."

Members of the Grand Rapids chapter of the Michigan Society of Professional Engineers will be attending.

Roger Sessions, an American composer, will visit MSU for an address and concert of his works Friday and Saturday.

Three works by Sessions will be performed on Friday. He also will present an address and direct a discussion on his own work and on problems of contemporary music.

The event is scheduled for 8:15 p.m. at the Music Auditorium and is free of charge to the public.

"Mass, For Union Choir and Organ" composed in 1955, will be performed under the baton of former Jones by an ensemble from the MSU Chorus. Ann Patton and Brook Ditt New are pianists for the "Mass."

Joseph Evans, associate professor of music, will perform three movements of "From My Diary, for Piano Solo," composed in 1957-59.

The final composition will be "Symphony No. 2" performed by the MSU Symphony Orchestra under the direction of Hans Lampl. This work received the Critics Circle award as the best American orchestral work performed in New York City during the 1949-50 season. It was also awarded the first annual Walter Naumburg Foundation prize in 1949-50 and was recorded by the New York Philharmonic Orchestra, Dimitri Mitropoulos conducting, on Columbia Masterworks.

A tape recording of Sessions' opera, "Trial of Laila," will be played along with comments by the composer at 10 a.m. Saturday in the Choral Room of the Music Building. The public is invited.

CHRIS WAGNER, the 'knight in shining armor,' pleads for mercy in the form of an invitation to the Nigerian Nihil—from the hand of his fair lady, a damsel known by the name of Robbie Williamson.

Displays Optimism Laborite Talks of Africa

By BOB FEINBERG

Fenner Brockway, Labor member of British Parliament and outstanding authority on colonialism, displayed tremendous optimism about the future of African areas that have been extremely troublesome in his talk Monday night at Kelllogg Center, according to Joseph LaPalombara, head of the political science department.

Brockway's talk, "Africa in Transition," was sponsored by the Labor and Industrial Relations center and the political science department of MSU.

Prof to Work With Nigeria

Dr. Troy Stearns, executive secretary of the University of Nigeria, leaves today to begin his work in Nigeria and England. Stearns will work directly with Nigerian officials as part of the Nigerian-British-American project to develop a university in the west African nation.

Glen Taggart, dean of International Programs, points out that Dr. Stearns is experienced in both the American and British educational systems and is a leader in the present MSU teacher-training program.

Dr. Stearns joined the Michigan State staff in 1942 and presently is in foundations of education. He has served as educational consultant with the war department in Korea in 1948 and was a visiting lecturer at the University of London in 1951 and visiting professor and head of the School of Education at the University of Malaya in Singapore from June 1958 to July 1959.

On his return from Nigeria this spring, Dr. Stearns will meet with British higher education officials and key individuals here to plan the steps Michigan State will take in cooperating with the Nigerian university.

The Labor and Industrial Relations center and the political science department of MSU.

LaPalombara said that few people would have predicted a Brockway did.

One of the factors Brockway listed, according to LaPalombara, which is enhancing the rapid growth of independence in first-rate political leadership. Brockway did not seem as hopeful concerning Uganda, LaPalombara said, because leadership is not nearly as good as that of Tanganyika.

The speaker was very optimistic about the Union of South Africa, LaPalombara said. Brockway feels that Apartheid, complete separation of the races, is doomed he said.

LaPalombara said that Brockway listed several factors for the abolition of Apartheid such as the African is vital to the economy of the Union of South Africa and complete separation of the two races is impossible because of this fact.

Another factor is that the government of the Union of South Africa cannot ignore world opinion which is strongly condemnatory of the Union's policies, Brockway is quoted as saying.

Britain can set an example by greatly improving race relations in its African holdings, Brockway argued, according to LaPalombara, and universal suffrage, black voting with whites, cannot help but change the Union of South Africa.

Brockway said that his own party would have different policies regarding independence than the British Conservative party, according to LaPalombara. The Labor party would be much more quick in granting independence and would not insist on a central African federation.

That Tanganyika will achieve independence peacefully in the

Dynamite Caused Plane Crash

WASHINGTON (AP) — The Civil Aeronautics Board said Tuesday that a dynamite explosion caused the crash of a National Airlines plane with 34 persons aboard near Wilmington, N.C., Jan. 6.

UN Delegate To Give Talk

Jack Machowski, Counselor and First Secretary of the Polish Permanent Mission to the United Nations, will be guest speaker at the International Club Friday night.

Machowski's speech, "Poland in This World of Crisis," will be presented at 8 p.m. in the club.

Author of several books and articles concerning international law, Machowski received his LL.M. and M.A. degrees in Political Science at the Academy of Political Science in Warsaw. For a 10-year period (1948-1958), Machowski was assistant professor and lecturer in international law and diplomacy at the Academy and at the Central School of Foreign Relations, Warsaw.

As a member of the Polish delegation, Machowski participated in the Paris Peace Conference in 1946. He is a member of the Polish branch of the International Law Association, the American Society of International Law, National Geographic Society, American Peace Society, and the permanent legal committee of the International Association of Jurists.

Chairman James Taylor said evidence indicates the explosion, started accidentally by a dry cell battery, occurred within the cabin near a seat occupied by Julian Frank, who carried accident and life insurance policies of more than one million dollars.

Taylor emphasized that the federal investigation of the accident is not complete.

He said he was making only an interim report to the Senate aviation subcommittee, a synopsis of all facts developed to date, and not a determination of probable cause. The more formal determination will be made by the board when it completes its investigation.

In later testimony Taylor said questions which relate to possible criminal charges are still under investigation. Any such charges could only be directed at living persons. Frank died in the crash.

Sen. Warren Magnuson, the Washington leader of Senate aviation charges, suggested to the senator the idea that the explosion may have stemmed from a conspiracy involving laws to more people.

Most of the wreckage of the DC-8 airliner, carrying 29 passengers and a crew of five, was found near the town of Bolivia, 84 1/2 miles inland from the coast.

However, large pieces of the tail of the fuselage and wing were found near Kure Beach. These were after the wreckage of the plane of Julian Frank, a New York lawyer, was found near Kure Beach.

Taylor, emphasizing that a public hearing into the accident will be held in Washington, March 22, said it is probable that the wreckage of Frank's body will be found in the wreckage of the plane before the crash site is cleared.

A fashion show and guest speakers will highlight the display.

Denison to Speak To Clerical Staff

James Denison, assistant to the president and director of University relations, will speak today at a luncheon sponsored by the MSU Businessmen's Club.

Denison's speech, "The Role of the University," will be a two-day luncheon, which is part of the business training of the clerical staff on campus. The staff will be engaged from 10 a.m. to 1 p.m.

A fashion show and guest speakers will highlight the display.

Russia Has Team Title

In the first three final events, Switzerland captured the women's giant slalom with a time of 1 minute 39.5 seconds, twenty tenths of a second faster than Russia, who also was second in the downhill.

The race was hazardous. Linda Meyers of Bishop, Calif., fell at the start and broke her shoulder.

Russia has the team title now, ed up with 104 points to 49½ for Germany.

TOM CORCORAN, an American who lives in Beaconsfield, Quebec, Can., is hugged by three American girl skiers after he finished a surprising fourth in the men's giant slalom of the Winter Olympic games at Squaw Valley, Calif., Sunday. With him, left to right, are Penny Pflou, Betsy Sulte and Linda Meyers. He was only 1.4 seconds behind the winner, Roger Staub of Switzerland.

Skating Champion, Miss Heiss Wins First U. S. Gold Medal

SQUAW VALLEY, Calif. (AP)—Carol Heiss kept a promise made to her dying mother and brought the United States its first gold medal in the Winter Olympics Tuesday when she won the Women's Figure Skating championship in a virtual breeze.

The 20-year-old honey blonde wonder from Ozone Park, N.Y., executed a complex routine with almost preposterous precision, leaving a crowd of some 8,000 at chilly Blyth Arena dazzled.

The chief contenders for second place and the Silver Medal were Holland's Skunkle Dijkstra, the European Champion, and Barbara Roles of Temple City, Calif.

Miss Heiss had promised her mother she would win the prized Olympic Gold Medal. Mrs. Marie Heiss died shortly after watching her daughter lose to a teammate, Tenley Albright, at Cortina, Italy, in the 1956 Olympics.

Miss Albright has retired from competitive skating.

In her dressing room Tuesday, Carol said:

"This was for my mother. I only wish she was here with me to share it."

"I'm glad it's all over. The last four days have been an awful grind."

"This is my greatest thrill."

Miss Heiss, dressed in a red velvet costume with gold and white braid trim and a matching hair piece, skated to a medley of themes: Tchaikovsky's "Swan Lake" and Rossini's "The Barber of Seville." Her complicated maneuvers included difficult axels (twisting jumps), executed both ways alternately, bringing the audience to its feet.

Her jumps were extraordinarily high.

The ice appeared very hard and many contestants made uneven landings when the edges of their blades failed to cut deep enough.

Seven of the 26 skaters took tumbles, and another, Patricia Paulley, the British champion, collapsed in the center of the arena when she was finished. She got up without assistance, but was hunched over as she skated slowly to the sidelines. She had recently recovered

from the flu and the 6,200-foot altitude apparently was too much for her.

Many other skaters were obviously on the point of collapse after completing their performances.

Miss Roles, the last of the 26 contestants, was attired in a red costume, and opened her routine with difficult toe stops which drew applause. She won more enthusiasm from the stands with three consecutive waltz jumps, executed on one leg.

The crowd cheered again when she performed an unusual bend back spin. Miss Roles concluded her act with brilliant spins

and backward jumps. The only maneuver she missed was a jump spin at the end. She also skated to waltz music.

Miss Roles, like the other Americans, and several others on the program, smiled throughout her performance. Many did not and their rigid facial expressions seemed to detract from their performances.

Miss Heiss's routine included such complicated maneuvers as a "delayed axel" (a jump with a turn and a half), a "double axel" (a jump with three full turns) and a "double shoeborn" (a jump with one and one-third turns).

Photo Highlights Of the Olympics

ROGER STAUB of Switzerland flies past a gate en route to victory in the men's giant slalom, big event of the day Sunday at the Winter Olympics. He beat Austria's Pepi Stiegler for the mile and one-eighth course on KT22 mountain.

HELGA HAASE, foreground, of Germany, speeds down the home stretch in competition with Matsuo Takamizawa of Japan while winning the 500-meter ladies' speed skating race at the Winter

Olympic games at Squaw Valley, Calif., Saturday. Her time of 45.9 seconds was only three-tenths of a second off the world record.

Ohio State, New Challenger For Cincinnati In AP Poll

By THE ASSOCIATED PRESS
Cincinnati, headed for its first AP poll in a decade, is now being challenged by Ohio State, the Associated Press basketball poll, jumping past Bradley and California.

The Buckeyes, unbeaten in the Big 10 and 19-2 overall, made their move from second to first with a 137-100 victory over Washington State, including 49 first place votes in the weekly poll.

Cincinnati still has a comfortable lead, however, as the Bearcats retained their season-long ranking with 66 first place votes and 1,560 points. Bradley slipped from second to third, with 1,324 points, and California slipped to fourth, with 1,283 points.

There was a shakeup throughout the top 10, although there was only one new entry as a result of the voting, which awards points on a basis of 10 for first place, 9 for second, etc. Utah climbed to fifth, leapfrogging Georgia Tech, which remained sixth, despite a loss to Tennessee.

West Virginia dropped from fifth to seventh, after losing to Georgia. Washington State, upset by Colorado, slipped to eighth, while Miami (Fla.) went down to ninth.

Bonaventure made the top 10, moving from 14th to 10th, after a 100-80 victory over the Huskies, dropped from ninth to 12th.

Cincinnati plays Wichita and Ohio State this week, while Ohio State can clinch the Big 10 crown and an NCAA berth against Wisconsin Saturday.

Ohio plays at Utah State in a showdown for the Skyline Title Sunday.

West Virginia, its regular season concluded, now heads into the Southern Conference Championship Tournament and a first-round game with Virginia Tech at Richmond.

St. Louis (No. 14), St. Louis (No. 14), St. Louis (No. 20) are favorites in the second round of the tournament, North Carolina, Ohio, University of Kentucky.

Winter Sports Slate Climaxes Weekend

Tankers, Iceers, Thinclads, Matmen, Fencers, Gymnasts, Cagers in Action

Michigan State's winter sports program reaches a climax this weekend. All of State's indoor athletes will see action in the last big slate of activity prior to conference championship showdowns.

Performing before the local fans will be the fencing, hockey, swimming, track and wrestling teams. Scheduled for contests away from home are the basketball and gymnastics squads.

By sports, here's the way the activity stacks up:
BASKETBALL: MSU and conference cellar-dweller Michigan will clash at Ann Arbor Saturday in a basketball game which means almost as much to the participants as if the Big 10 title were at stake.

It is always that way when the intra-state rivals vie in any sport. The fact that State is 5-7 in the league and will be lucky to escape the second division, and that Michigan is a hopeless test with 11 losses and no wins, have absolutely no significance when they meet face to face.

The Spartans have lost four of their last five league tests.
HOCKEY: Friday and Saturday, 8:30 p.m., Ice Arena, Denver provides the opposition State's sextet, in the midst of a disappointing campaign, can see nothing but trouble in this pair. Earlier in the year, DU spanked MSU by 10-1 and 11-0 scores.

Amo Bessone's skaters now stand at 3-15-2 after absorbing two defeats at Minnesota. The visiting Pioneers are in the thick of the running for Western Collegiate Hockey Association honors and host high scorers in center Bill Masterson and wing John MacMillan.

SWIMMING: Saturday, 2 p.m., Men's Intramural Pool, Illinois comes in for the home swim. Inside Charlie McCaffrey's Spartans hope to find the winning combination again after three straight losses to conference powers Indiana, Michigan and Ohio State. The overall season mark is 6-3. Ready for State will be leading point-makers Dick Brackett, distance freestyle, Dennis Hubbert and Frank Morgan, breaststroke; Carl Sharr, butterfly; Dave Dget, individual medley; Danny Convis and Larry Jones, freestyle sprint; Ron Gage, backstroke; and the 400-yard medley relay, combo of Gage, Hubbert, Sharr and Jones.

TRACK: Saturday, 8 p.m., Jensen Fieldhouse, State's track and field men get their toughest test before the conference meet, hosting Michigan, 1959 indoor Big 10 champ and outdoor runner-up. Fran Dittich's Spartans have won one dual meet and one triangular meet indoors.

Without a loss, but figure to be no counterweight to the powerful Wolverines.
Leading entries for MSU are Zeb Ford (90.5 for the 660), Willie Atterberry (49.5 for the 440 and 1:54.9 for the 880), Bob Lake (9.14 for the two miles), Brian Castle (1:10.5 for the 600), Sonny Akpala (23.2 for the broad jump), Mike Kleinhaus (11.4 for the pole vault), Mike Gerhard (6:23 in the high jump) and a mile relay quartet which probably will include Jim Carr, Max Weissengruber, Castle and Atterberry, and is capable of about 3:21.

WRESTLING: Saturday, 3 p.m., IM Sports Arena, Michigan State hosts Michigan in what figures to be an outstanding match. The Spartans are in the midst of a fine year, with six wins, one loss and one tie in dual competition. But the Wolverines are equally tough, and like the Spartans, are unbeaten in conference matches.

Several Spartans will carry impressive season marks into the fray. George Young, at 130 and 137, is 12-1. Bob Moser, at 157, shows an 8-1 record, and John Ryan, at heavyweight, is 9-0-1 for the year.

FENCING: Saturday, 10:30 a.m., IM Sports Arena. The opponents are Wayne State and Indiana in a double dual meet. Coach Charlie Schmitter's Spartans, winners of only two of nine meets, hope for better things in these two. State has been most effective in epee competition, where Chuck Schmitter, Jr. has a 10-3 mark. Second best weapon for the Spartans has been foil, with Dick Lawless posting the top mark. Steve Arnest leads in sabre, where the Spartans as a whole have fared the poorest.

Gymnastics: Friday, at Ann Arbor, the Spartans meet Michigan. The finest gym team in MSU history hopes to wind up its season unbeaten. George Karpoulis' performers have won nine and tied one State conference to get excellent performance from John Daniels in tumbling and free exercise. Stan Tarsis, on high bar; Angie Festa on side horse and still rings; and Steve Johnson and Chuck Thompson in rebound tumbling.

These stars, with great support from Larry Basser, Gail Brown, Jim Durkee, Bob Denoy, Hal Shorr and Tom Temple, combine to make the Spartans a top contender for Big 10 honors.
