

FALLEN SPARTAN--State gymnast Bob Beguelin is lifted onto a stretcher following a fall from the horizontal bar during Saturday's meet at the IM Sports Arena. Aiding Beguelin are (left to right) an unidentified campus police officer, Dr. James Feurig, Assistant Gym Coach Bob Harris, gymnast Dick Giliberto and one of the judges. Story on page six.

LBJ To See Congress On Fiscal Plans Today

Will Push Proposed Tax Cut

Promises To Slash Federal Spending

LYNDON B. JOHNSON

WASHINGTON (AP)—The Congressional spotlight is turned this week on the economy and how President Johnson proposes to keep it perking toward new peaks of prosperity.

No surprises are expected when the Johnson formula is laid before Congress today and Tuesday—first in the annual economic message and then in the budget message.

Johnson already has said he will propose a \$97.9-billion budget for the fiscal year that begins July 1. He has expressed dismay at the spectre of poverty amid plenty and said he intends to war on it.

He has also promised to slash the deficit, trim government employment and cut defense spending.

Saturday close advisers to the President were letting it be known that he will tell the legislators that the gross national product—the sum of all goods and services—hit a record annual rate of \$600 billion in the last quarter of 1963.

Johnson has been plugging hard for quick passage of the bill to reduce taxes by \$11 billion and warning that delay would slow the economy's rise to new heights. This he can be expected to say again this week, and with special emphasis since the Senate Finance Committee is putting the finishing touches on the bill.

The budget message will list (continued on page 4)

Bids In For Bogue Bridge

Bids were submitted Wednesday for the proposed Bogue Street Bridge. Dexter, a Lansing construction company, submitted the low bid for \$207,645. Of the nine other bids submitted, the highest was \$252,482.

The proposed span will go across the Red Cedar River near Van Hoosen Hall, about one-half mile east of the Farm Lane bridge. Costs of the bridge will be shared equally by MSU and the city of East Lansing.

All bids will be tabulated and presented to the East Lansing City Council today, indicated John M. Patriarche, East Lansing city manager.

"The low bid is about \$10,000 over the city's estimate, but low enough to keep within the \$250,000 overall cost of the project," said Robert M. Bruce, city engineer.

World News at a Glance

Formosan Earthquake Kills 104

TAIPEI, FORMOSA (AP)—A pall of shock and grief hung Sunday over the southern Formosa cities of Tainan and Chiayi where an earthquake killed 104, injured 542 and left thousands of homeless walking the littered streets in stunned silence.

Rescue crews and relief agencies worked past midnight and got an early start searching the rubble and providing food and shelter for the estimated 20,000 homeless in Tainan, Chiayi and surrounding areas.

Of the 1,758 homes that collapsed and 2,671 badly damaged, most were centered in Tainan, a city of 250,000 and the former capital of this island nation. Fires apparently started by overturned charcoal stoves destroyed 124 homes at nearby Chiayi.

Cubans Planned Revolt

NEW YORK (AP)—The New York Times reported Sunday that Cuban-trained African guerrillas planned and carried out the Zanzibar revolt. It said at least 2,000 "political suspects" have been slain with a final death toll of 4,000 expected.

The Times dispatch was written from Mombasa, Kenya, by Correspondent Robert Conley who was expelled from Zanzibar.

The dispatch said that Zanzibar is on the verge of becoming the Cuba of Africa.

"By most responsible accounts," it said, "African nationalists had very little to do with it (the revolt)."

The New York Times
Cross denotes Zanzibar

Vietnamese Kill Red Guerrillas

SAIGON, Viet Nam (AP)—Government troops have killed at least 40 Viet Cong guerrillas in their campaign to clear a Communist stronghold in the Mekong River Delta, U. S. military sources said Sunday.

Unofficial reports said as many as 200 Viet Cong may have been killed since early last week when the government threw 3,000 soldiers into the effort to wipe out Communist bases in Kien Hoa province about 60 miles south of Saigon. Government losses were reported to be about 10 dead.

Self-Control Downed Canal Splits Area UN

A resolution calling for Panamanian ownership of the Panama Canal was defeated at Friday's session of the Campus United Nations. The final vote saw 19 delegations against the motion, with 15 in favor. There were five abstentions.

A prior item on the agenda, a proposal backed by Red China and calling for censure of the Soviet Union, was tabled indefinitely.

In presenting the canal resolution, the delegate from Mali pressed for the creation of a police force to insure the prompt transfer to Panama of the canal's operation and ownership.

Such a force, he claimed, could be gathered from member nations of the Organization of American

States, excepting the two concerned parties.

The U. S. role in Panama was denounced by Mali as "exploitive;" its activities as "blackmail" by Panama herself; and as outright "neo-colonialism" by

the delegate from the Soviet Union.

Reference was repeatedly made, in support of the motion, to the Suez change-over in 1956.

In retort, the United States cited the legality of its 99-year lease, obtained in 1903. The canal was run as an "international service", the United States argued, and was self-sufficient, with all revenue going back into the canal's maintenance. It was noted that the rates had not changed in over 60 years.

Support for this stand came from the Lebanese delegate, who said any action by the U.N. would be an unwarranted intrusion.

Portugal questioned whether the proposal's stipulations were directed towards world peace or merely to aid the territorial expansion of Panama.

More support for the U.S. stand came from Venezuela, which doubted Panama's ability to operate the canal, calling Panama's demands "immature."

Liberia added that pay rates of Panama and Americans working in the canal zone were equalized in 1961. Today the only difference is a standard 25 per cent overseas pay differential given to American citizens. Americans working for the government receive this no matter where they are working abroad.

Liberia's delegate proceeded to call Panama's complaints "propaganda."

Panama Plans Next Move

PANAMA CITY (UPI)—President Roberto Chiari's government mapped its next move Sunday in the Panama Canal Zone crisis, weighing three courses of emergency diplomatic action to end the deadlock with the United States.

Informed sources said the government was trying to decide whether to take the dispute back to the United Nations or the Organization of American States (OAS) or to call an emergency

meeting of hemisphere foreign ministers.

Panama's new ambassador to the OAS, Miguel J. Moreno, meanwhile, was preparing for his departure for Washington, expected soon. Moreno, regarded as a hard line policy advocate against the United States, met at the Presidential Palace last night with the 10-man National Council on Foreign Relations, an advisory body to Chiari.

The talks were understood to have dwelt on Panama's future moves in the OAS and the U.N., but no communique was issued by the palace.

Moreno, a former foreign minister, is running as presidential candidate for the Reformist Party in the elections next May.

A special meeting of representatives of 63 municipal districts from throughout the nation

Revue Shows Royal World

A group of players from England's Royal Shakespearean Theatre will recreate the world of British royalty over a span of eight centuries in "The Hollow Crown" at 8:15 p.m. Tuesday in the Auditorium.

The acting troupe's appearance is a Series "A" offering of the Lecture-Concert series.

"The Hollow Crown" is an informal dramatic rendering of the antics and foibles of the British monarchy from the time of William the Conqueror (1066) to the 19th century reign of Queen Victoria.

Four players and a musical quartet (three singers and a harpsichordist) will create an imaginative panorama of English history from bits of ancient narrative, courtiers' comments, poems, letters, songs and even the words of the kings and queens.

The dramatic revue is set to a musical accompaniment.

Rights Commission Sees Compulsion Laws Ahead

WASHINGTON (AP)—Federal compulsion probably is inevitable, the Civil Rights Commission said Sunday, to breach barriers that continue to bar most non-whites from skilled crafts and jobs.

The commission reported only meager increases in Negro and minority apprenticeships and employment have resulted from intensified government prodding, voluntary understandings with industry and civil rights pressures.

"Little progress can be expected" in opening up better paid jobs for non-whites, the commission declared, "as long as the federal government depends on such voluntary relationships with management and the unions."

Reports from eight states and the District of Columbia, reviewed in the light of federal policy statements and acts of persuasion, prompted the con-

IRS Rules Research Deductible

Research and related expenses incurred by faculty members can be deducted from federal income tax, indicated a recent Internal Revenue Service ruling.

Copies of the ruling, issued Dec. 9, 1963, are available at the University Business Office.

"Research expenses incurred by a professor for the purpose of teaching, lecturing, or writing and publishing in his area of competence are deductible," it reads.

The expenses must be incurred in carrying out duties expected of a professor in his capacity. They cannot be deducted if they are used in a project from which the professor will make a profit apart from his regular salary.

Included as deductible are traveling expenses, stenographic and publication costs for manuscripts, and other miscellaneous research expenses, the ruling continues. The professor must show that the amounts claimed are reasonable in relation to the research performed.

"The ruling does not cover the situation where a professor's activities may bear some similarity to the ones described but are such as to constitute a separate trade or business."

Final date for filing income tax returns is April 15.

Distribution Starts For U-M Tickets

Student ticket distribution for Saturday's basketball game with the University of Michigan at Jenison Fieldhouse is scheduled to start Tuesday.

The ticket-table in the Union second floor concourse and the Jenison ticket office will be open from 9 a.m. to noon and 1-4 p.m.

Students must present validated ID cards to secure the general admission tickets, while faculty and staff must show their activity books.

clusion that administrative changes and basic reforms in law "will probably become inevitable."

The commission blamed everybody concerned for a finding, in the 1960 census, that non-whites constitute little more than five per cent of all American apprentices and job trainees.

The commission found some industries lukewarm to apprenticeship agreements with the government, with or without discrimination provisions, because they are "able to steal" needed trained workers from competitors who do support training programs.

Unions, primarily in the building trades, were scored in the report for placing "severe restrictions" on the number of apprentices "in order to assure full employment to journeymen craftsmen."

The result of such policies, the commission noted, is that Negro participation in building trades in some areas, including northern states, "ranges from total exclusion in some trades through token participation in others."

The commission reported guarded optimism over one development. That was the signing, in November, 1962 by then Vice President Johnson, as chairman of the President's Committee on Equal Employment Opportunity, of fair practices agreements with 118 AFL-CIO union heads representing almost 13 million members.

These agreements commit the AFL-CIO and the international unions to full cooperation with the President's Committee in

attaining goals of equal employment opportunity, the commission stated, although the union's top officials "have no power to compel compliance by their member locals."

RFK In Philippines For Malaysia Talks

MANILA (UPI)—Thousands of squealing bobby soxers almost mobbed Attorney General Robert F. Kennedy Sunday when he arrived here on a trouble shooting mission aimed at preventing a jungle war in Southeast Asia over Malaysia.

Kennedy flew to Manila from Korea, where he toured the truce line and met with South Korean President Park Chung Hee. Earlier, he met in Tokyo with President Sukarno of Indonesia. He will confer with all the other heads of state involved in the Malaysia crisis before returning to Washington.

The Attorney General and his wife, Ethel, drove from Manila Airport to the Presidential palace, where they were to stay during their 38-hour visit as the guests of President Diosdado Macapagal.

Kennedy planned two breakfast conferences with Macapagal, today and tomorrow, before leaving for Kuala Lumpur, capital of Malaysia. Later today he will fly by helicopter to Corregidor to visit that historic American bastion of World War II. Macapagal will host a formal dinner for the Kennedy's tonight.

A crowd of about 4,000 was on

MSU Gets Traffic Lights

The Department of Public Safety installed the first four traffic signals on campus Sunday at the intersections of Shaw and Farm Lanes.

The signals, expected to be in working order today, are operated by a traffic actuated controller in the Department of Public Safety. It counts cars by use of detectors under the pavement and thus regulates the flow of traffic.

Lt. Allen H. Andrews, Jr., Department of Public Safety, said that the controller adjusts to changing conditions prevalent on campus. Since the University has no regular flow of traffic, it was difficult to predict what problems would arise each day.

The four standard size signals, two at the intersection of Farm Lane and North Shaw Lane and two at Farm and South Shaw, function according to the number of cars on each street. The controller gives more time to the street which carries the heaviest traffic, Andrews said.

Other drivers get a green light in time because the controller automatically changes signals at certain intervals. A fourth side has been given to the signals, although they serve a three-sided intersection, so that pedestrians

(continued on page 5)

A PAUSE THAT REFRESHES--The brief minutes of stopping for the newly installed traffic lights at the busy Shaw-Farm Lane intersections will be a joy compared with the old wait-and-try-to-sneak-across methods so long in use.

Ducking The Issue

All-University Student Government's resolution to revert to the old method of gaining entrance to home basketball games does not seem to be the solution to the ticket problem.

Jenison Fieldhouse only seats 13,000. There are over 25,000 students on campus and Jenison simply can not accomodate all of them.

The athletic department would do something to avert crowd problems at Jenison. But they do seem to have taken the wrong course of action.

No move appears to be being made to have all the seats reserved and thus eliminating the "two-lines-for-one-seat" problem. Action is also slow in coming on the punching procedure, which would limit each student to one ticket per ID card.

Delay in finding a solution to the punching problem seems to be the ID cards are too flimsy to be drilled full of holes and other organizations use the punching method. Confusion would arise over which punch was the AUSG

election punch and which was ticket punch.

Why not stamp ID cards? Tickets and ID cards both could be stamped on the back with the date and some symbol, similar to the library "date due" stamps.

Students would then be limited to one ticket per ID card and the ticket only would be valid with the ID card with which it was originally obtained.

Hence the problems of borrowing ID cards and getting more than one ticket per ID card would be eliminated.

Stamping ID cards, instead of punching them would be much easier. A student could easily obtain tickets for all home games in a season without having his ID card resemble swiss cheese.

The paper backs of ID cards would easily absorb ink and would easily hold at least a dozen stamps.

We reiterate that the only complete solution to the ticket problem is to make all student seats reserved.

An Eye To Legs

With cold coed legs in mind, members of the Faculty Committee on Student Affairs showed warm hearts last Wednesday when they ruled that girls can wear slacks to lunch, classes and the library.

This ruling crumbles another brick in the wall of archaic rules that have long been ignored in a changing society that spends more and more time in sports wear.

It seems that a more relevant reason for yielding to coed slacks

on campus is that times and styles have changed.

But we won't quibble with the committee over the reason for the new ruling. We'll accept it gratefully.

Now--if coeds can wear slacks in the winter to keep warm, why can't they wear burmudas--officially, that is--in fall and spring to keep cool?

Seeing that the members consider the coeds' comfort important out in the cold, they should also think about their comfort in hot, stuffy classrooms and dormitories.

Year To Hold Space Thrills

Editor's Note: This is the third in a series of articles in which faculty members discuss prospects for 1964.

By LIZ HYMAN

Assistant Campus Editor Space development in 1963 offered the American public little in the way of excitement, but the lull may be just the prologue for 1964, with some speculating that there will be many surprises to come in both Russian and American projects.

Maria Krzywoblocki, professor of engineering research and mechanical engineering, and a space expert, gave an insiders look on possible space achievements for 1964.

K. is presently space consultant for the Army and Air Force and is engaged on groundcapsule recovery work with the White Sands missile range in New Mexico.

One important space development this year, Krzywoblocki said, will be a sub-orbital flight of the Saturn V, a booster rocket for the Apollo spacecraft which will eventually take U.S. astronauts to the moon. The Saturn,

considered the strongest booster in the world, can inject a 200,000 pound payload into low Earth orbit and boost 90,000 pounds to escape velocity.

"The Saturn has the greatest thrust of any rocket in the world as far as we know. But Russia may be developing one just as large."

Perfection of rendezvous in space by two spacecrafts will play a large role in space development this year, he said. Rendezvous is necessary for a future manned trip to the moon.

U.S. rendezvous attempts will be made through the Gemini space program. Gemini is a two-manned capsule designed to perfect the joining of two vehicles in space. The Gemini attempt in early 1964 will be unmanned, with a second manned capsule following later in the year.

The Soviet Union unsuccessfully attempted a rendezvous attempt by two spacecrafts in 1963. Russia will continue to work out the rendezvous procedures this year.

Another U.S. space develop-

ment this year, which the Russians have already perfected, is ground capsule recovery.

"Capsules were previously recovered in the water because it is more difficult to perfect this recovery method. Now that this method is perfected, ground recovery will be studied."

Ground recovery is an easier method but will require minor adjustments in the capsule, such as landing springs to cushion the fall, he said.

Russia, not to be outdone by U.S. scientists, may send up a multi-man satellite. Such a capsule would have four passengers and would primarily test psychological effects on humans.

The Russians, Krzywoblocki said, may surprise us by including a woman in the group.

A crucial factor determining U.S. space advancement is President Johnson's proposed budget cut, which would lower the National Aeronautics and Space

Administration request of \$5.7 billion to \$5.1 billion.

The budget cut will delay U.S. landing on the moon from the

proposed 1969 date to 1975, Krzywoblocki said.

"The budget cut may not affect the Gemini program but Apollo will suffer. The U.S. could be the first on the moon, but not with a cut in funds."

Russia is expected to land on the moon in 1967 and, aside from the proposed budget cut, the U.S. government seems interested in arriving there first. The race to the moon is more than a matter of prestige, according to Krzywoblocki; it is a military move.

"Project Apollo is being pushed by the Pentagon for a moon military base. Such a military base would pose a threat to war-mongering countries."

Krzywoblock pointed out the effects of rendezvous on the military interests:

"Rendezvous attempt by Russia was a military step. The U.S. in the past, has been interested in space travel from the scientific standpoint. The Gemini attempt this year shows the United States growing concern for the military aspect."

The space-race has been countered by a new approach in some circles, a joint Russo-American space program. This "joint

effort" theory is an outgrowth of UN action which forbids nations from asserting sovereignty in outer space.

A partial agreement has been reached by the U.S. and Russia in working jointly on space research experiments.

"It is doubtful that Russia will come to a complete agreement with the United States," Krzywoblocki said.

Scientific advancement in space may be hampered by varying goals and slashed funds, but Krzywoblocki says the U.S. has other problems to face:

"The U.S. needs more scientists and doctors. We need more manpower, if we are to conquer outer space."

On the other hand, Krzywoblocki said the United States has made great strides in overcoming the space gap with Russia because of strong technology, much stronger than that of the Soviet Union.

"Because of this the U.S. has more scientific knowledge of outer space than the Russians. For example, gravity problems will be carefully studied this year."

Red Cedar Report

By Jim DeForest

Now that the city of East Lansing is taxing the Co-op and Greek houses, we wonder if the next step will lead us to a Bogie Street toll bridge?

MSU's population jumps over 26,000 students. It's too bad that pencil sharpeners in Berkey Hall don't increase in direct proportion.

And then there was the not-so-bright student that took a "Mickey Mouse" course and just squeaked by.

With our power plant shortage this winter, it seems a shame that we can't make use of some of the hot air given off by various parties around these premises.

Other Than That, How Do You Like Ski Weekends?

Letters To The Editor

Guilty Without Trial

To the Editor:

The tragic events of Nov. 22, 1963 are well known to everyone in the nation. Equally well known is the manner in which the national press, the Dallas Police and the FBI found Lee Harvey Oswald guilty without benefit of a trial. While we all adhere to the legal principle that a man is innocent until proven guilty, we felt free to pronounce the guilt of Oswald. Let it be remembered that the press carried full details about the "facts" that proved Oswald's guilt.

Now let it be noted that such leading elements of our free press as The New York Times, The Detroit Free Press and the State News failed to carry any mention of the following news item. It was announced on Tuesday that Mrs. Marguerite Oswald has secured the services of attorney Mark Lane to defend her son before the Warren Commission.

Mr. Lane has already filed a brief with Chief Justice Warren in which he questions the entire case presented by the prosecution. He found some of the stated evidence to be false and other parts to be irrelevant in a court of law. He states that because of the press coverage it would have been impossible to find an impartial jury. He suggests that there are enough doubts to prevent a conviction. Finally he presents evidence that indicates that Oswald may not have had anything to do with the assassination at all.

This brief was reprinted in the National Guardian of Dec. 19. This and subsequent issues can be read in the newspaper room of the Library. While Oswald's murder conveniently removed the

need for a trial, it is hard to forget that Oswald insisted on his innocence. For the sake of history and our national conscience the true story must be known. It has been said that sacred cows make good hamburger. However the breakdown of our legal system is hardly a delectable dish.

Dick Wolfe
Graduate Assistant

Goldwater

To the Editor:

Throughout American political history there have been candidates who have risen to high office because they have grasped the major issues of the day. Using their political and moral philosophy these few men have presented to the American public a set of issues which they mold to fit their own and their party's particular beliefs.

The campaigns of the Roosevelt's, of Eisenhower, and of Kennedy certainly fit this description. President Eisenhower espoused the issues of peace and prosperity and capitalized upon them. President Kennedy chose a theme of action which would invigorate our economic system. Both Ike and Jack then integrated these issues with their own and their party's philosophy.

There appears on the American political scene today, another man who also possesses a set of issues that the American public is entitled to hear. But, in this candidate's case, the issues and his philosophy are synonymous.

start presenting his political and moral philosophy. It is time that candidate Goldwater quit groping for a set of issues that bear little resemblance to his political and moral beliefs.

Although we are interested in Senator Goldwater's views on the test ban treaty, on our long-range missile capability and on his solution to Cuba, it is more important that he set forth his conservative philosophy as written by him in "Conscience of a Conservative."

We are entitled to hear his views on our income tax structure, on civil rights, on states rights, on big labor and big business, on the Supreme Court, on peace, and most importantly on state authority versus federal authority.

It is time that Barry Goldwater shows his political audacity by setting forth the major issues of 1964 and not a subterfuge of incidental opinions.

Bouyoucos Fellowship

Fund Aids Greek Students

A recently established fellowship fund will enable Greek students to study at MSU.

The George Bouyoucos Graduate Fellowship will be worth \$3,500 each year.

It was presented at the post-Board of Trustees meeting by George Bouyoucos, research professor in soil science here for 47 years.

"The fund is for Greek graduate students working toward their doctorate degrees in the sciences," Bouyoucos said.

Total value of the gift approximates \$60,000.

The life story of the 69-year-

old donor runs much like a Horatio Alger novel. He was born in Greece, where his family raised sheep and goats on farms. Bouyoucos ran away from home at the age of 11 to come to America. He landed at Ellis Island in New York and then went to Chicago.

He went to high school in Chicago and worked after school in a grocery store. To get through college at the University of Illinois, he sold a belt buckle souvenir item he invented.

Bouyoucos also attended Cornell University, where he re-

ceived his doctorate, and the Universities of Paris and Germany. He came to MSU as a soil science professor in 1911.

A prudent investor, Bouyoucos accumulated a portfolio of stocks over the years. He retired in 1958 and lives with his wife Agnes at 706 N. Hagadorn Road.

Scholars Attend Banquet

The Evans Scholars attended a banquet in Detroit Saturday as guests of the Golf Association of Michigan.

Among the speakers at the annual Association meeting at the Detroit Golf Club was Detroit's Mayor Jerome P. Cavanaugh. Over 100 scholars from the two Michigan chapters -- University of Michigan and Michigan State -- were present.

Roland F. McGuigan, educational director of the Western Golf Association, reported to the GAM on the status of the scholarship. McGuigan is former Dean of Men at Northwestern University.

"Ours is the most unique scholarship program in the history of education," he told the group.

The Evans is the only scholarship that provides a fraternity-patterned house for its recipients. Two of the eight chapters are members of IFC on their campuses.

"The men learn to live, work, and communicate with others in a group situation," he said.

GAM built the original chapter houses in Michigan. Western Golf says the tuition of the 440 scholars in eight chapters in the Mid-West.

Last year the MSU chapter led the State fraternity scholarship competition with a 2.75 house average.

WHAT'S SO FUNNY?--The judges may have taken the competition seriously, but it looks as though at least one of the horses entered didn't. Seventy students had entries in Saturday's Block and Bridle Little International Livestock Show.

Photo By Gary Shumaker

Ted Dodge Wins Livestock Show

Ted Dodge, Mount Morris freshman, took the champion showman title at the Block and Bridle Little International Livestock Show Saturday evening.

Jan Harwood, Ann Arbor junior, is reserve champion showman.

Competitors for champion showman of the Little International were the champion showman from each of the four divisions of livestock judged: swine, sheep, cattle, and horses.

In the swine division Thomas L. Smith, Auburn, Ind., junior, took the champion showman title, and Irene Chmielewski, Leslie graduate student, reserve champion showman.

In the sheep division, Art Lawrence, Sears freshman, won champion showman, and Bill Byrum, Onondaga freshman, reserve champion.

In cattle, Jan Harwood won champion showman and David Grabowski, Stephenson sophomore, reserve. In the horse division Ted Dodge took champion and Barbara Snyder, Laingsburg senior, reserve.

The seventy competing students were judged on ability to fit their animals and on showmanship.

General chairman for the Little International was Carl Mensing, Somerville junior. Chairmen for the divisions were Dale Gaide, Davidson sophomore, horses; Ralph McGovney, Dewitt senior, swine; Doug Nelson, Attica senior, cattle; and Tom Weise, Alpena, senior, sheep.

Judges for the livestock show were former MSU animal husbandry students.

Arena Group To Present 'The Stranger'

Camus' "The Stranger" will be presented at 8 p.m. Wednesday through Friday in the Arena Theatre.

C. David Colson, St. Clair Shores graduate student and Performing Arts Company member, will play the role of Meursault, the hero-narrator who is condemned by society for not conforming to its rules.

Colson has appeared this year as Delio in "The Duchess of Malfi" and as Jack in "Jack, or the Submission."

Meursault's mistress will be played by Mary Ellen Finucan, Lansing junior.

Miss Finucan has performed with the Ledges Players, Lansing Civic Players and Community Circle Players. She received a scholarship from the Broadway Theatre League of Lansing to study at the American Academy of Dramatic Arts in New York in 1961.

The remaining characters in "The Stranger" will be played by Christine Bergstrom, Bloomfield Hills junior; Burt B. Belant, Pontiac graduate student and member of the Performing Arts Company; and Peter Landry, Ironwood senior.

Miriam Duckwall, instructor in speech, will direct the play.

Janis To Perform In Concert Thursday

The seldom performed original piano version of Moussorgsky's "Pictures at an Exhibition" highlights a solo recital by the pianist Byron Janis, who will perform at 8:15 p.m. Thursday in the Auditorium.

His appearance is a Series "A" presentation of the Lecture-Concert Series.

Janis recently returned from a tour of Russia where he was hailed by the Soviet musical press for a series of concerts he gave under the auspices of the State Department cultural exchange program.

Thursday Janis will play the "Sonata in G Major, K. 283" by Mozart; the "Andantino di Clara Wieck (quasi variazione)" by Schumann; the "Impromptu in E flat Major, Op. 90, No. 2" by Schubert; the "Sonata in B

flat minor, Op. 35" by Chopin; and "Pictures at an Exhibition" by Moussorgsky.

The piano score of Moussorgsky's monumental work is usually heard in its orchestral version. It was recently played here by the Cleveland Symphony Orchestra under the direction of George Szell.

Pennsylvania-born Janis has performed throughout Europe and the United States since his debut in Pittsburgh at the age of nine. At 15 he appeared as soloist with the NBC Symphony and in 1952 he made his European debut with the Amsterdam Concertgebouw Orchestra in five performances.

The 34-year-old pianist has recorded works by Prokofiev, Tchaikovsky, Liszt and Beethoven.

Statesmen Record Scores Hit In Area

"Roo-Buh-Doo-Buh-Doo" -- he sure to roll the R -- is the product of four MSU students well on their way to hitting the top.

The Statesmen, an instrumental group that has appeared in the Lansing area the last two years, cut the record on the Raynard label in Milwaukee, Wis., early fall term.

Just released Saturday, the recording has made a hit with radio disc jockeys in the area.

Members of the group are Jay Lerner, Milwaukee, Wis., senior, on the drums; Al Thomas, Farmington senior and Andy Green, West Haven, Conn., junior, on guitars; and Doug Howlett, Grand Rapids sophomore, on the bass guitar.

An Hall, a primitive woodwind instrument with a sharp piercing tone, is also used in the recording.

"This is the only popular recording we know that uses the Hall," Thomas said.

The record is now released on a regional label, but the group is hoping for a national release.

"We chose the name, The Statesmen, because we wanted some association with MSU," Lerner said.

The piece was written and arranged by the group, and will be available at all record stores. The name of the record came naturally, according to Lerner.

"Roo-Buh-Doo-Buh-Doo" is the last thing said on the record.

Locally, the group has played for fraternity and sorority parties, appeared at Coral Gables, and accompanied Bobby Vinton last spring when he appeared in Harbor Springs and Lansing.

Illinois Finds Cigarette Ban

SPRINGFIELD, Ill. -- The Illinois Legislative Bureau has come across an obscure law on its books that makes the sale of cigarettes illegal in Illinois. The bureau, prompted by a recent Surgeon General's report on smoking, began looking back through its books.

They found a statute that legally in effect that says any person who manufactures, sells or gives away cigarettes containing any substance injurious to health, including tobacco, is liable to a fine of 100 dollars or imprisonment for 30 days. The law was passed in 1907. Illinois merchants have been selling cigarettes illegally for 57 years.

Floriculture Club To Present Show

The Floriculture Club will present its annual flower show and contest, "Shangri-la in Bloom," Jan. 31 to Feb. 1 in the Union ballroom.

Prizes will be awarded to the living units with the three best exhibits. All exhibits must be made in 107 Horticulture Jan. 31. Local florists will donate flowers for exhibits.

Who's Whose

Pinnings

Susan Hare, Syracuse, N.Y., sophomore, to David Cuttner, White Plains, N.Y., senior and Phi Sigma Delta.

Sharon Turner, Harbor Beach junior and Alpha Delta Pi, to Richard Stajkowski, Ludington sophomore.

Nancy Keller, Southfield sophomore, to Bruce Satenspiel, Forest Hills, N.Y., junior and Sigma Alpha Mu.

Gerry Slursky, Chicago, Ill., sophomore, to Neal Kaskel, Chicago, Ill., Institute of Technology and Alpha Epsilon Pi.

Engagements

Allison Smith, Morristown, N.J., junior, to Fred Ash, Chicago Ill., senior, and Alpha Sigma Phi.

Lynn Pritchard, Buffalo, N.Y., senior and Kappa Kappa Gamma, to Loren Gillespie, Jr., Flushing senior.

Ruth Ellen Jarvi, Ishpeming, to John H. Stierna, Bloomfield Hills junior.

Patricia Drake, Troy, Ohio, junior and Delta Gamma, to Davis Plunkett, Dedham, Mass., junior.

Mary Ann Frederick, Mason junior, to Dave Cox, Toledo, Ohio, graduate and Tau Kappa Epsilon.

Linda Fisher, Oak Park sophomore, to David Kaplan, Detroit senior and Zeta Beta Tau.

A special opportunity
27 weeks of Newsweek for only \$1.97

Here are the kinds of vital questions Newsweek answers...

- Who will be LBJ's running mate?
- What will the new administration do about unemployment?
- Juvenile delinquents from good homes: Why?
- More Federal aid to education?
- What solutions are possible in Berlin?
- More controls on nuclear weapons?
- What's new in books, movies, TV-radio, theater?
- Our remaining wilderness: Parks or profits?
- Will De Gaulle gain in international stature?
- How is the Peace Corps working out?
- How do Republicans feel about Rockefeller, Nixon, Goldwater, Lodge, Romney, Scranton?
- New look at old allies?
- Will 1964 be a prosperous year for Americans?

You should have found in your mail recently a letter from Newsweek offering our spring term special--27 weeks for \$1.97. If you haven't already signed up, please take another look at our offer.

Only Newsweek Separates Fact from Opinion

Each week, Newsweek reports the important news, giving you the facts on stories of interest and importance to you. In addition, Newsweek's corps of columnists gives you signed opinion on developments in national and international affairs. The result: a balanced view of events that enables you to make up your own mind. When you read Newsweek, you don't wonder about news significance... you know.

Newsweek's 28 news departments cover...

- NATIONAL AND INTERNATIONAL AFFAIRS, MEDICINE, EDUCATION, NEWSMAKERS, SPORTS, PRESS, RELIGION, ART, BOOKS, BUSINESS AND FINANCE, THE AMERICAS, MUSIC, MOVIES, SCIENCE, TRANSITION, THEATER, TV-RADIO, PLUS THESE EXCLUSIVE, ONLY-IN-NEWSWEEK FEATURES--
- THE NEWSWEEK POLL--Famed political pollster Louis Harris and his 5000 interviewers go after in-depth answers to such questions as: How do Negroes feel about the battle for equality? Can Johnson hold public support?
- SIGNED OPINION--Walter Lippmann, Raymond Moley, Emmet John Hughes and other columnists speak their minds with independent comments on significant news.
- THE PERISCOPE--In two terse, penetrating pages you get behind-scenes highlights and ahead-of-the-news forecasts.
- LIFE AND LEISURE--This sprightly feature is devoted to the fads and fun of American life. Examples: Europe's "In" Resorts, The Cost of a Night on the Town.
- SPACE AND THE ATOM--This regular department is the only one of its kind in Newsweek's field. Typical topics: The New Crop of Astronauts, New High-Energy Fuels for More Thrust.
- ON-SCENE REPORTS--Over 200 full-time Newsweek reporters around the world cover big stories with accurate, personal accounts to keep you informed of the events and personalities of the day.
- LISTENING POST--Newsweek's network of resident newsmen in every state gives you important regional reaction to topics of national and international interest.
- SPOTLIGHT ON BUSINESS--Each week this widely-quoted report gives you the facts on a special situation, a businessman in the news or an economic weak spot.
- N.I.C.B. STUDIES--These authoritative surveys by the National Industrial Conference Board survey business spending plans and give you clues to future growth industries.
- BUSINESS TRENDS--This capsule guide furnishes you with tips on everything from the next national defense budget to a change in the price of compact cars.

LITTLE MAN ON CAMPUS

"I CAN ALWAYS SPOT A FRATERNITY MAN AT ONE OF OUR OPEN HOUSES - THEY SEEM TO MAKE FRIENDS SO QUICKLY."

Johnson
(continued from page 1)

his recommended appropriations for each of the executive departments. Two were known in advance: last week the National Aeronautics and Space Administration asked for \$5.3 billion in the new fiscal year and Johnson asked authorization for a \$115 million appropriation for the Peace Corps, a \$13-million increase.

The committees of Congress plan to settle down to work on Johnson's various proposals as quickly as possible.

The top item on the President's program, tax reduction, may move this week into a position for Senate debate late this month or early in February.

The Finance Committee, which has been considering the measure since the house passed it late last year, hopes to complete its work this week, perhaps on Wednesday. Staff preparation of the committee report is expected to take about a week so administration leaders are hopeful that Senate passage may come by Feb. 11, when the Lincoln's birthday recess starts.

Another major Johnson bill, a broad civil rights measure, goes into its third week of hearings before the House Rules Committee, with several more weeks of hearings likely. House leaders now plan to get a vote in the House itself next month.

Lynda Bird, Friend Plan Spring Transfer

WASHINGTON (AP) - President Johnson's 19-year-old daughter, Lynda Bird, has enrolled for the spring term at George Washington University here along with a University of Texas roommate.

A White House spokesman said Sunday that Lynda has invited her roommate and close friend, Warrie Lynn Smith of San Antonio, to live at the White House while attending George Washington.

The two girls are sophomores and will be starting classes with the new term at George Washington on Feb. 3.

Explaining the invitation to Miss Smith, a spokesman for the First Lady said Mrs. Johnson feels that some of the happiest friendships of a lifetime are made in college years and she believes that Lynda Bird should have the benefit of her friendship with Warrie Lynn although coming back to Washington to lend a hand to Mrs. Johnson in her role as First Lady.

Warrie Lynn, also 19, is a daughter of Mr. and Mrs. Warfield Smith. She has been Lynda's roommate for a year and a half at the University of Texas in Austin where both are members of Zeta Tau Alpha social sorority.

Lynda Bird has been majoring in history and will continue in that field at George Washington which is located just a few blocks west of the White House.

The decision for Lynda to return to Washington had been under discussion since Johnson became president two months ago. Although Lynda seemed to want to remain in Texas the family overruled her and the wrench of leaving Texas was softened by inviting the roommate to come along.

A number of members of presidential families have attended George Washington. Margaret Truman went there while her father, Harry Truman, was vice-president and later president and graduated from George Washington. And former First Lady Jacqueline Kennedy also is a graduate of George Washington.

Three Cars Collide On Grand River

Donald Kiel, MSU researcher and James Loso, Pickney, sophomore, were injured Saturday night in a three car accident at W. Grand River and University Drive.

Loso suffered bruises of the right arm and leg but refused treatment when taken to Sparrow Hospital. Kiel was treated for scalp lacerations and released. A passenger, John Suvegas was treated for bumps and bruises to the head. Robert Sanford, driver of the third car was not injured.

According to police Loso was traveling east on W. Grand River, swerved left to pass a car in front of him and struck Sanford. After hitting Sanford, Loso lost control, passed over the center line into westbound traffic and was struck by Kiel. Both cars burst into flames. Loso was helped to safety by a passing motorist.

East Lansing Fire Dept. arrived in time to save Kiel's car but, the Loso car was a total wreck.

LBJ's Greet S. Campbell

Women of South Campbell Hall Saturday received New Year's greetings from President and Mrs. Lyndon Johnson, according to dorm president Marion Bokio, Garfield, N.J., junior.

The message came on a white card with a green border. A United States government seal was embossed on the front. The inside message read:

"Thank you for your holiday greetings and best wishes for happiness in the New Year. President and Mrs. Lyndon B. Johnson."

Dorm secretary Liz Hyman, Baldwin, N.Y., junior, said she sent the presidential couple a dorm Christmas card along with cards to campus living units.

The card is on display in the lobby show case.

GOOD GRIEF! CHRISTMAS HAS BEEN OVER FOR A MONTH.

SO WHY AM I STILL GETTING FIGGY PUDDING?

Wilson Honors Martha Dalbey

Martha Dalbey, Des Moines, Iowa, freshman was crowned queen of East Wilson Hall at a dance in the Wilson library Saturday night.

East Wilson House Council selected her from candidates from each of the 12 houses in West Wilson. A physical sciences major, Miss Dalbey had a 3.8 scholastic average fall term. She is also president of her house.

Independent basketball and fraternity volleyball will begin Tuesday night and fraternity basketball will get off to a start on Thursday.

Entries are now being accepted for the IM paddleball doubles ladder tournament and residence hall, fraternity and independent team handball. Deadline for these entries is 5 p.m. Friday.

WOMEN'S
 Entries are now being accepted at the Women's IM Office for basketball (all leagues). Entries deadline is 5 p.m. Friday.

All parties who were contacted to have their pictures taken are reminded to meet in the Women's IM Building at 7 tonight.

Traffic Signals

(continued from page 1)
 can see the light. Pedestrian signals were not installed.

Results of a traffic engineering study made last spring indicated the need for traffic signals on campus.

Aside from full-scale congestion each week day at the two intersections, night performances at the Auditorium created a similar problem. Andrews said that an officer could not be sent to a traffic jam every time it was necessary.

The signal system will also alleviate the strain on student traffic directors. "It was getting so we needed them at every hour every day," Andrews said. "Two of them have been replaced by automation, but we'll find plenty of work for them."

'Tenth Man'

There will be a production meeting for the Hill Folkways Theatre's "Tenth Man" company at 7:30 tonight in 35 Union.

Gottlieb Plans SEC Talk

David Gottlieb, associate professor of sociology and anthropology, will conduct a seminar to acquaint Student Education Corps (SEC) volunteers with the problems of socio-economically deprived children at 7:30 p.m. Jan. 28 in the first floor lounge of Student Services.

Over 140 volunteers will teach subjects ranging from mathematics to physical education in Pontiac, Morrice, Jackson, Lansing and rural Ingham County elementary schools this term. The Corps' basic aim is to help underprivileged children in schools which are often overcrowded and understaffed.

Gottlieb spurred the formation of SEC, believed to be the first project of its kind in the country, with a suggestion to a sociology of education class nearly a year ago. University officials and student leaders quickly endorsed the

project, which was set in operation last April with AUSG funds. Gottlieb has since been called to provide information for Congressional hearings on the proposed Domestic Service Corps, which would be a type of home Peace Corps to aid persons in deprived areas throughout the United States.

"Dr. Gottlieb will discuss the problems faced by children in culturally deprived areas and what we can do to help them," said Lance Hauer, Detroit graduate student and co-ordinator of SEC. "Any student is encouraged to attend, regardless of whether he is a member of the corps."

The corps has the highest num-

ber of volunteers in its history this term with a total of over 140. Hauer expects more to volunteer for the work as the term goes on.

SEC volunteers will be teaching in a new school, Pleasant Lake, this term. They will also be teaching advanced mathematics for the first time in a Morrice elementary school.

N. Wonders Picks Queen

Joyce Dragash, East Grand Rapids freshman, has been named queen of North Wonders Hall.

Joyce was one of six girls to be nominated for the Miss North Wonders contest. The selection was made by a panel composed of the hall cabinet and two house presidents. The judges' decision was based upon charm, intelligence and beauty.

Joyce, a dark-eyed brunette, is a speech and English major with a 3.0 scholastic average. She is interested in drama and hopes to include the University Theater in her activities. She also hopes to join a sorority.

She will represent N. Wonders in the Miss MSU contest.

Calendar Of Coming Events

Agricultural Faculty Meeting - 3:30 p.m., Music Aud.
 Mechanical Engineering Space Seminar - 4 p.m., Engineering Aud.
 Physics Colloquium - 4 p.m., Physics-Math. Conference Room.
 Physiology and Pharmacology Seminar - 4 p.m., 101 Giltner.
 Spartan Guard Drill Team - 4 p.m., Dem. Hall Ballroom.
 Naval Reserve Research Company 9-16-7:30 p.m., 221 Computer Center.
 Folk Dancing Club 8 p.m., Tues., Union Tower Room.
 Scots Highlanders Drum, Fife and Bugle Corps - 7 p.m., Ballroom, Dem Hall. Final chance for new members.

ICC Leaders Hold Seminar

Intercooperative Council, governing body of MSU's eight co-ops, recently held a leadership seminar for house officers.

The meeting, held at Montie House, was devoted to discussion and evaluation of house improvements. The program was headed by George Hibbard, associate director of fraternities, and featured lectures and instructions by Louis Hekhuis, director student activities, and Max Van Vlerah, Wonders Hall food service manager.

Topics of discussion ranged from a round table discussion on social affairs to a meeting on food selection and cooking.

The seminar, first of its kind for cooperatives, has been rescheduled for future terms.

Employees Urged To Return Cards

Student employees are urged to turn in their social security cards to the business office at the earliest possible date.

The cards, which were mailed to student employees before the end of the year, will enable the business office to process the student payroll on the 1401 computer according to social security numbers.

Students are now paid according to their student numbers.

"Work is not far enough along for us to say when the change-over will be made," said Paul V. Rumpsa, comptroller.

Mr. MSU Contest

Women's residence halls and sorority houses this year will select candidates for the Mr. MSU contest for the first time.

Preliminary smokers will be Feb. 9 and 11.

All petitions must be returned to 101 Student Services by Feb. 3.

Will Double Campus Power Output

New Plant To Replace 'Belcher'

The black smoke belching out of the North Power Plant will be gone by fall, 1965.

A new power plant is being built to supplement the two old plants now in operation. It is named Plant 65 because of its scheduled completion date, and will be able to produce electric power at nearly double the capacity of the plants now in operation, said

Jesse M. Campbell, superintendent of power plants.

It will be capable of delivering 500,000 pounds of steam an hour with no soot.

Unlike the present power plants, Plant 65 will burn pulverized coal. It will be equipped with mechanical dust collectors as well as electrostatic precipitators to keep dust and smoke down to an absolute minimum.

The South Power Plant, near Spartan Stadium, is already equipped with dust collectors which capture most of the ash before it escapes.

Campbell has received occasional complaints about the North Plant's smoke. His policy is "just tell them the truth."

"The machinery is old," he says, "and the best thing to do is to get the new plant going and use this one as little as possible."

Campbell pointed out that the North Plant is not normally used from May through October, since

the South Plant alone is sufficient in non-heating months.

In addition to soot, smoke from the North Power Plant consists mainly of nitrogen. A little carbon dioxide is present, as is a bare trace of carbon monoxide.

Dr. James S. Feurig, Olin Health Center director, sees no health menace in the smoke. A higher concentration of carbon monoxide is produced by traffic than by the power plant smokestacks, he says.

Feurig said that the smoke is not toxic, "but we have to admit we do have a nuisance."

Clubs Show Pakistan Lore Here Friday

"Pakistani Night," a joint project of the International Club and the Pakistan Club, will be presented at 8 p.m. Friday in the Union Ballroom.

The program will feature Pakistani songs and dances, as well as a narrated costume show. Slides from personal collections of Pakistani students and visitors will also be shown.

Pakistani students attending school here and at the U-M will present the entertainment. They will also display some of Pakistan's handicrafts and souvenirs.

"Pakistani Night" program will be presented at no charge to give the public a chance to become better acquainted with Pakistan's people and culture.

Police Relations Talk Thursday

Alpha Phi Omega and the school of police administration and public safety will present a symposium on police and community relations Thursday.

The two-day conference will be held in the Union Ballroom and is open to the public. The symposium is presented in cooperation with the National Conference of Christians and Jews.

Why Can't You Remember

A noted publisher in Chicago reports there is a simple technique for acquiring a powerful memory which can pay you real dividends in both business and social advancement and works like magic to give you added poise, necessary self-confidence and greater popularity.

According to this publisher, many people do not realize how much they could influence others simply by remembering accurately everything they see, hear, or read. Whether in business, at social functions or even in casual conversations with new acquaintances, there are ways in which you can dominate each situation by your ability to remember.

To acquaint the readers of this paper with the easy-to-follow rules for developing skill in remembering anything you choose to remember, the publishers have printed full details of their self-training method in a new book, "Adventures in Memory," which will be mailed free to anyone who requests it. No obligation. Simply send your request to: Memory Studies, 835 Diversey Parkway, Dept. 5021, Chicago 14, Ill. A postcard will do.

WIN \$100.00

Simply sing at the 1964 CUSTOM AUTO SHOW talent contest. Accompaniment will be furnished by the "Chevelles" or bring your own. The contest will run January 24, 25, 26, during the CUSTOM AUTO SHOW. For further information contact Dick Seibert at IV 2-8520 before Wednesday evening.

You have room for growth in data processing—at IBM

IBM offers graduates with bachelor's or advanced degrees in Engineering, the Sciences, Business Administration, Economics, or Liberal Arts challenging assignments in the marketing of information systems and equipment.

Rewarding opportunities exist in more than 190 IBM Sales and Service Offices located in major cities throughout the United States.

These opportunities increase with each new system that is designed to meet the growing needs of business, industry, government, research, education, or space.

wide range of positions

Marketing: The IBM Data Processing Representative is a consultant to his customers. He demonstrates how customers can achieve better business management and controls through data processing.

Systems Engineering: IBM Data Processing Systems Engineers are men and women who study customer requirements in depth, devise an approach, define a preferred machine and operational solution, and assist in implementing this solution.

Customer Engineering: The IBM Customer Engineer is a specialist in precision data processing machines and systems. He is responsible for the installation and maintenance of IBM's vast line of electronic and electromechanical equipment.

opportunities for advancement

IBM, an Equal Opportunity Employer, offers you extensive training in the area of your special interest. This training continues as you advance along a planned career path leading to professional or managerial positions.

We also have comprehensive company-paid benefits plans... training programs to keep you abreast of developments in your field... and a tuition-refund plan to give you financial assistance for graduate study.

on-campus interviews

See your college placement director to determine when IBM will interview on campus, and make an appointment to see our representative. If the interview date is inconvenient for you, please write or call: R. F. MacDuff, Branch Manager, IBM Corporation, 608 S. Washington Avenue, Lansing 7, Michigan, 484-7781.

IBM will interview January 29, 30.

MOVE AHEAD WITH **IBM** DATA PROCESSING

Weekend Sports Recap

Swim, Gym, Ice Teams Win

Jenison Loss For 'S' Cagers

A 31-point outbreak by Pete Gent and the return of Fred Thomann to the lineup weren't enough for Michigan State as the Spartans bowed Saturday to Notre Dame 95-80 before a crowd of 9131 basketball fans at Jenison Fieldhouse.

Although the game was close throughout the first half, State now 8-6, seemed to have little trouble with the Irish as they cruised to a 44-38 intermission lead. They led by as many as ten points in the opening minutes of the final stanza.

The Spartans took a 23-20 lead on two quick baskets by Bill Berry after eight minutes of play and appeared headed for their sixth straight home victory and eighth of the season before disaster struck.

The Notre Dame offense began to click with two minutes gone in the second half and the hustling Irishmen zoomed past the Spartans, scoring 28 points in less than ten minutes.

Sam Skarich knotted the score at 63-63 with a long jumper and MSU lost the lead for good. Nothing could stop the high-flying Irish after that. Coach John Jordan's cagers steadily pulled away from the frustrated State five.

MSU's usually well-balanced offense just wasn't. Only three players finished in double figures. Berry placed a distant second behind Gent with 13 points, and Stan Washington scored 11 in the Spartan's sporadic attack. Washington topped the losers in rebounds with 14.

Ron Reed paced Notre Dame scorers with 28 tallies and 6-9 center Walt Sahn collected 20. Sam Skarich, playing only in the second half, had 17. High-scoring guard Larry Sheffield, who weilds a 25.1 scoring average, was held to ten points.

Sahn and Reed did most of the rebounding for the Irish with 18 and 15 respectively.

Inability to hit from the field proved to be the downfall of the Spartans as they connected on only 31 of 88 shots for a poor 35 per cent, well below their season's average.

The loss marked the first time this year State has been defeated on their home court and was also the first time they had failed to score 100 points as hosts this season.

By dropping their 32nd encounter with the south Bend five, State trails in the ancient series 55-27.

Gymnasts Lose Another Starter

Another meet win, another mar loss.

So it went for Michigan state gymnasts Saturday as they registered their second victory of the season, a 101-12-51 1/2 decision over Ohio State, but in the process bore the cost of injury to Bob Regelin.

Regelin, participating in place of Jim Carz in the same horizontal event in which a urzi met with a freak accident a week earlier,

experienced similar misfortune when his grip gave out and sent him sprawling to the hardwood. Regelin suffered an elbow dislocation, neck strain and rib bruises.

"We're losing our great depth rapidly," said Coach George Szygula, quite distressed. "It's the year of most injuries and it's going to stop."

The Spartans took first place in five of the seven events, and when they didn't take first, they

See picture on page one

grabbed the second and third spots instead.

Todd Gates and Dave Price gave MSU a one-two finish on the parallel bars. On the horizontal bar, Price placed on top. Still ring artist, Dale Cooper, brought his undefeated dual meet record to 22 with a pace setting performance worth 9.6 points out of a possible 10.

In the tumbling event, Bill McFillen of MSU led the field and on the side bar, Ted Wilson tied Ohio State's Jay Watkins for the top berth.

Dick Gilberto and Tom Hurt placed second and third to the Buckeyes' Dick Affeldt in the floor exercise. On the trampoline, OSU's Dan Jarrett scored a decisive win with State's John Nobel and Steve Wells behind him.

The Spartans now possess a 2-1 dual meet record and the Buckeyes, 0-2.

Grapplers Bow To Oklahomans

Perennially strong Oklahoma handed the MSU wrestling squad a 19-8 setback at Norman Saturday.

The defending NCAA champions hosted their season mark to 6-1, while recording their second win over the Spartans in the two-year history of the rivalry.

The defeat left the Green and White with a 1-1 record in dual competition.

MSU will open its Big Ten campaign this weekend at the IM arena.

Purdue will test the Spartans Friday, with Illinois supplying the opposition Saturday. Both events will begin at 3 p.m.

5 Records Fall To State Naturs

The water in the Iowa State pool must still be rippling after record-setting performances by MSU swimmers Saturday afternoon.

Spartan naturs broke five pool records while handling the host Cyclones a 66-39 drubbing at Ames.

The victory was MSU's second consecutive dual win of the season and helped prepare the Spartans for a series of Big Ten meets which begin Friday at the IM pool.

MSU captured all eight individual events but lost both relays and diving competition against Iowa State.

Setting pool records for the Spartans were Jim McMillan, Davey Kifer, Dick Gretzinger, Neil Watts and Lee Driver.

McMillan was clocked in 1:50.7 for the 200-yard freestyle, with Kifer winning the 50-yard freestyle in 22.5.

Gretzinger stroked to victory

in the 200-yard individual in the time of 2:06.0, and Watts posted a 5:16 while copping the 500-yard freestyle. Driver won the 200 breast-stroke in 2:21.8.

Other Spartan victors included Chuck Strong (200 butterfly), Bert Desmond (200 backstroke) and Bob Sherwood (100 freestyle).

Spartan Coach Charles MacCaffree was satisfied with the performance of his young team, noting that it was their first meet of the season away from home.

The MSU squad will face the Purdue Boilermakers Friday at the IM pool in their next encounter.

Skaters Sweep Weekend Series

The Spartan hockey team climaxed a three game sweep of the weekend Ohio series by beating Ohio U. Saturday night 7-4 in a real thriller. State beat Ohio State Thursday and Ohio U. Friday, also.

In Saturday's thriller, Ohio grabbed a quick 4-1 lead in the second period after going in front 2-1 after first period. The Spartans came back in the second frame scoring four goals to take the lead 5-4. State added two markers more in the final stanza to win going away 7-4. The scoring attack was well balanced,

pleasing Coach Amo Bessone who has been looking for a balanced attack all season. Captain Carl Lackey scored twice, with Mike Coppo, Jim Jacobson, Rick Hargreaves, Doug Roberts and Mac Orme each tallying once.

State goalie Harry Woolf had 38 saves, while Ohio's Dick Homovec turned back the puck 52 times.

Wolverines Leaders

The University of Michigan Wolverines became sole holders of the Big Ten basketball lead Saturday by dumping Ohio State 82-64.

In other league games Minnesota topped Northwestern, 76-74, and Purdue defeated Iowa, 90-75. Illinois, Wisconsin and Indiana were idled.

U-M's 3-0 loop mark puts it on top of Illinois (2-0) and Minnesota (3-1). Ohio State is in fourth place, with MSU and Northwestern tied for fifth with 2-2 records.

Dancers Needed

Choreographers and dancers are needed for the Fine Art Series scheduled for Feb. 18 thru 20. Participants are also needed for the spring concert.

All interested men and women, student faculty or staff, should contact Miss Listenbee at 5-4761 or 482-4767.
