# A VERY SPECIAL PURCHASE

## \$296

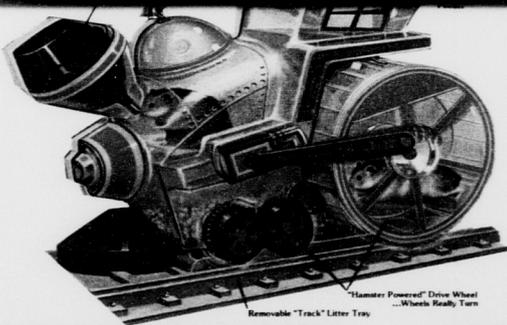

In the beginning, there were the and her lion.  
 As we expanded the Noah's Ark, we realized  
 there was a need for 25 pairs of animals in that ark.  
 It was over 12" long, and divided as a storage chest for  
 the animals. And that was a lot. Noah included, covering his  
 ark with the ark was an exceptional value, and that this  
 ark was a great purchase. Your children won't have to wait  
 for the ark to come to enjoy it.
