Re: **IRB# 99-793S** Category: EXPEDITED 8  
**Renewal Approval Date:** October 6, 2011  
**Project Expiration Date:** October 5, 2012

Title: RISK AND PROTECTIVE FACTORS FOR DOMESTIC VIOLENCE (IRRC #0281)

The Institutional Review Board has completed their review of your project. I am pleased to advise you that the renewal has been approved.

**Please note: this protocol expired on 09/19/11. It was reopened on 09/23/11 after the PI confirmed that no research activity took place in the interim. Jodi Dave, Carli Boyer, Alisa Esser-Kahn, Andreea Pop, Jessica Emerling, Lauren Portincasa and Relly O'Masta have been removed from the protocol. This letter notes approval for data analysis only (contact with subjects and data collection is complete). Any further recruitment, data collection or contact with subjects will require IRB review and approval via a revision before implementation.**

The review by the committee has found that your renewal is consistent with the continued protection of the rights and welfare of human subjects, and meets the requirements of MSU's Federal Wide Assurance and the Federal Guidelines (45 CFR 46 and 21 CFR Part 50). The protection of human subjects in research is a partnership between the IRB and the investigators. We look forward to working with you as we both fulfill our responsibilities.

**Renewals:** IRB approval is valid until the expiration date listed above. If you are continuing your project, you must submit an Application for Renewal application at least one month before expiration. If the project is completed, please submit an Application for Permanent Closure.

**Revisions:** The IRB must review any changes in the project, prior to initiation of the change. Please submit an Application for Revision to have your changes reviewed. If changes are made at the time of renewal, please include an Application for Revision with the renewal application.

**Problems:** If issues should arise during the conduct of the research, such as unanticipated problems, adverse events, or any problem that may increase the risk to the human subjects, notify the IRB office promptly. Forms are available to report these issues.

Please use the IRB number listed above on any forms submitted which relate to this project, or on any correspondence with the IRB office.

Good luck in your research. If we can be of further assistance, please contact us at 517-355-2180 or via email at [IRB@msu.edu](mailto:IRB@msu.edu). Thank you for your cooperation.

Sincerely,

Harry McGee, MPH  
SIRB Chair
