e es t for t	2st asked him what it was. The boy It ked perplexed, scratched his head a moment, and then triumphantly replied. "I have it." "What is it?" said the teacher. "The Pitteenth Amendment!" The Camel. By Mark TWAIN. They will eat pine nots, for anthricite cost, or brass flings, or lead pipe, or old bobles, or anything that comes hardy, and they not off looking an graceful as it they not owners to discover that anything will relieve, temporarily, but nothing sainsy I not yet a popular will relieve, temporarily, but nothing sainsy I not yet, while the tents were being pitched, and exagined it with a critical eye, all liver, with a much interest as if it had an dear of getting one made like it, and then, while the tents were being pitched, and exagined it with a critical eye. If you not not getting one made like it, and then, while the west foot on it and lifted to of the sleeves out with his teeth, and then, it is a line of refigious costacy, as it is also have and chewed at it, ar-adually laking it, and all the while opening and closing it is a line a kind of refigious costacy, as it is also have and chewed at it, ar-adually laking it, and all the while opening and closing it is a kind of refigious costacy, as it is a line of the sleever to this lite. Then he make do the lips one or twice, and reached after must. Nat he third the velvet collar, and smiled a smile of such contentment that I was plain to see that he regarded that as the danitest part of the overcoat. The tails went next along with some percussion caps, all a me cough candy and some fig paster of Constantinople. And then my newstrand or home papers. But he was treading on dangerous ground now. If he began to come across solid wisdom in the se documents that was father weighty or his stomach, and occasionally he would take a jake that would shake him up till it sensed his teeth; it was getting perilous with him, but he held his grin with	ple and obtrusive. I had worn ideasing a pair of wide but shortish test, once used in a Chicase burishing test, once used in a Chicase burishing ten by my friend Skelton for the detion of a private circle, and which, intended for that occasion only, adorned with devices grotesque and striking, represented in colors cricren and blue. And these about the context of the misadventure. I stard back faintly against the walt, and back faintly against the walt, and the corner of the screen, I one with a shudder, that the company aking their places, while the ladiest callery had risen, en mass, and wrecting so concentrated a free of years the entrance, where the valuent long and paused to return the salue that yim, that to escape had become important and a concentrated after of years the entrance, where the valuent long and paused to return the salue that yim, that to escape had become important according so concentrated after of years the entrance, where the valuent long and paused to return the salue that yim, that to escape had become important to entrance, where I was, till able to cert with some compassionate attendighan of escape. There was the settling murmurand figure in the salue that yim, that to escape followed, and the of fusating; but the next intelligible itors my very soid. Remove that screen I' I nating tively I clutched and held it There was a violent tug; but there we meld on with desperate tenacity. "Quick, now, with that screen!" the voice of authority. "What's the ter?" "I salue all years a goil for the salue point in the product of the salue point. I gasped "Five shill ten! Twenty I Five pounds! Each of the salue point is a goil of a waiter, grinning, but compassionate he had recognized me, even this." "Take that thing out of the way!"
e est t for the cave Ciry and the Ciry abin to be to b	251 a-ked him what it was. The boy It ked perplexed, scratched his head a moment, and then triumphantly replied. "I have it." "What is it?" said the teacher. "The Pitteenth Amendment!" The Camel. By Mark TWAIN. They will eat pine nots, for anthricite cost, or brass flings, or lead pipe, or old bobles, or anything that comes hardy, and they no off looking as graceful as it they nad oysters for dinner. Mules and donkers and camels have appetites that anything will relieve, temporarily, but nothing sainly in Jorian, a camel took charge of my vertous, while the tents were being pitched, and exagined it with a critical eye, all liver, with so much interest as if it had an dear of getting one made like it, and then, "and exagined it with a critical eye, all liver ditters exert the head waters of the seeves out with his teeth, and brassl and chewed at it, er-dually laking it, and all the wolf of ferigious ecstacy, as it is had an interest and it. Here and the cost has seeves out with his teeth, and then while opening and chosing it, and all the wolf of ferigious ecstacy, as it is had any termal hardened at it, er-dually laking it, and all the wolf of ferigious ecstacy, as it is had not content to the first that the distribution of the seever tasted anything so good as an isomeon has been dearned that as the daminest part of the overcoat. The tails went next along with some percussion caps, as it is the good as any and aminest part of the overcoat. The tails went next along with some percussion caps, and a me cough candy and some fig. pate for Constantinople. And then my news the daminest part of the overcoat. The tails went next along with some percussion caps, and is me cough candy and some fig. pate for Constantinople. And then my news the first that was father weighty it has stomach, and occasionally he would take a jake that would shake him up till it as me do on a stements which not even a tame out the first with impunity. He he-	ple and obtrusive. I had worn ideasing a pair of wide but shortish ters, once used in a Chicase burishque, ten by my friend Skelton for the de tion of a private circle, and which, intended for that occasion only, adorned with devices grotesque and striking, represented in colors cricren and blue. And these about the striking, represented in colors cricren and blue. And these about the striking, represented in colors cricren and blue. And these about the striking, represented in colors cricren and blue. And these about the striking, represented in colors with me as I realized the striking and the conner of the screen, I shall the striking and the corner of the screen, I obswith a shudder, that the company aking their places, while the ladiest callery had risen, en mass, and wrecting so concentrated after dryers the entrance, where the valuant long and paused to return the salute that yim, that to escape had become important to entry with some compassionate attendial and the "Gentlemen, pray sitence. For grand the "Stand still, waters!" in a few distribution. Remove that screen!" There was the settling murmur and few "Gentlemen, pray sitence. For grand the "Stand still, waters!" in a few distribution. Remove that screen!" Instinctively I clutched and held it There was a violent tag; but there we much at stake for a feeble defense, sheld on with desperate tenacity. "Quick, now, with that screen!" There's a geog keeind, a 'olding bank," each, jown overalls! Forgot trou— Le screen alone, can't ye?" "Bless'my 'eart, sir! 'Ere is a go!' a waiter, grinning, but compassionate he had recognized me, even this." "Take that thing out of the way!" ed that voice of authority. "Must do it, sir," explained the way." "The heatables can't come by.

CLARKSON & FIELD.

It will be seen by this table that the popularity of the Singer machines far exceeds that of all others, their sate teing one-half greater than even that of the famous "Wheeler & Wilson" machine. This is owing to the fact that the Singer company have lately commenced making, besides their old and well-established manufacturing machine, what is known as their "New Family Machine," which is selling at the rate of nine to one better than their oil styre. Their total sales for 1869 were \$5.781 machines, segrent the 127 277 at 1869 were \$5.781 machines, segrent the 127 277 at 1869 were \$5.781 machines assigned the 127 277 at 1869. chine, what is known as their "New Family Machine," which is selling at the rate of nine to one better than their ohi styre. Their total sales for 1869 were \$5.751 machines against the 127,853 of the public that 1870, showing an increase of one half in the latter exponently year. Acro Fork Sur.

From the sworn returns made to the owners of the valuable sewing machine patents, it appears that the sales of the Singer mannfacturing company, for the year 1870, are over forth thomsend in excess of those of 1859, wich were \$5.781; and they claim the sale during 1870 of over test and they claim, the sale during 1870 of over test.
