MANCHESTER ENTERPRISE

PRICE: \$2. a Year in Advance

WHOLE NO. 272

resist the temptation to give a few unneeded with our own. We above the following from the Indian Journal will also be of interest: Management of the Interest of the celebrated Sewing Machine in this city has

undergo a change. Mr. A. K. Joseph, the able and efficient manager of the Slinger Company in the States of Ohio, Illinois and Michigan, at this time has assumed control of the business of the Slinger Machine Company in the territory embracing the greater part of the States of Indiana, Michigan and Iowa. His headquarters are located temporarily at No. 70 West on St. Chicago, but will soon be transferred to Indianapolis. It is hardly necessary to state that the community of Mr. Joseph's qualifications for the position. His well known energy and business capacity are sufficient guarantees that the affairs of the company

acted forward in an honorable and like manner, and with a degree of immeasurable with the great merit of the china, which has a world-wide reputation, the former agent here, will continue the local agent of the company in superintending in this city and county, under the name of Mr. Josselyn.

Chappell and Van Duart, the old of the Howe machine in Michigan, conchance of the local agency in Detroit and county, also under Mr. Josselyn's supervision.

It is understood that the Howe Machine Com-

lending every facility to Mr. Josephine, business may be made the leading one feature throughout the whole of the territory, and consequently are selling a large number of men in every county. It is in this connection that the Josephine Sewing Machine reputation that is mentioned. Mr. H. R. Josephine, of Detroit, associated with Mr. John S. Bagley, Detroit, present Republican candidate for Governor of Michigan, and Mr. A. K. Josephine, of the firm of Josephine & Josephine, the sale of the Singer Sewing Machine in Indiana, Ohio, Illinois and Michigan, are recently in charge of the Singer Inter-

the Pacific coast, has given up this matter, and now has control of an extensive territory in the East, in the interests of the Machine Company, embracing the States of New York, New Jersey, Rhode Island and Connecticut.

jects which intimately concern
al or woe. There are perhaps
in the State who delight in wag-
the misdeeds of our students,
ineating in sensational colors those
characteristic college customs, which are
formation of playful energy, and
are not to be considered as the
of malice or of malicious predi-
cations. A enough many stories have
the rounds of the press conveying
who have no other means of in-
forming an impression that the State

ring here a lot of barbarians—
University continues to prosper, and
ing forth every year men of cul-
tured minds whose influence is estab-
lished throughout the land; a name and
for Michigan and her University,
and that it is not alone her loyalty
which I value, but her power that has given
us the crown of influence she
but it is the thousands of educa-
tional she has scattered throughout the
land to teach and legislate; all attribut-
ing to intellectual power, culture and

ment to the University, which is during monument of her bounty. ing more particularly of the liter- partment, I claim that the advan- ere offered for an extended edu- are ample, and perhaps second to the land.

have in our faculty men who have celebrated, both in this country cross the water, for their ability olarship. The libraries to which we here have access, amount to 80,000 volumes. The circulation

These libraries is of no small consequence. Valuable and critical information may be obtained from them upon almost every subject, and, if judiciously used, they indeed open a rich field to the earnest student.

The large and well arranged Museum presents inestimable advantages to the student. A course of lectures delivered before the students every year, in which the best talent in the field is secured. The course is

ed for the present year includes well known men as Geo. McDonald, Fred Yates, Wm. Parsons, Geo. W. Jao, B. Gough and many others of established fame. I might state many privileges which our magnificent teachers offer her youth, and among them a subtle reasoning would be that of association, if as I think is granted, we obtain our ideas of men and of the world, by comparison so good an opportunity as here students are assembled from so

territory; and bring with them diversity of prejudices and opinions. Four years with such surround and in a literary atmosphere, cannot mold and influence any mind. I believe that the old notion that the arts are for those alone who possess extraordinary abilities is fast wearing away. Every calling and profession is daily demanding men of like ability. The people say: "we have enough doctors, lawyers and preachers." We have; but the only way to be

there is to supersede them with
ones. If Michigan can furnish
leading thinkers of the age, if her
men take the foremost rank in political
science, she will win a glory and a
which the rarest harvests or the
glorious deeds of war never could
attain. I have written this much
of the University because I be-
lieve that if her people are thoroughly
wakened to its importance and give it
the generous support they ought, our lake
region will be helped and saved.

state will be a help to
on her way of honor, prosperity,
J. B. M.
