In consequence, the poor man and the mechanic stay away, not being condend to sit on the two or three 'poor man aches.' at the hack of the gathery and complacent in the consciousness at the thing will support itself now and maked no further outlay. A mission chapel brill to plain, barn-like appearance and in the use of the poor, which is a very sold and commendable effort as far as it es. But the gist of this matter of costly increhes lies here. Granting that Dives a right to gratify his vanity and petter tastes under the pretense that term of the pretense that the preten	andle light. I was warmed up as I had ever been before. Her father was in the curt-room, his long gray hair falling about a shoulders, and his runner daughter tring, with howel heads by his side tring, with howel heads by his side from the beginning of my speech to its one you could have heard a pin drope, fact there was no other shadow of sound at my own voice, save now and then the token solds of old and young in the ansence. In less than the mineter after he was no other shadow of sound at my own voice, save now and then the token solds of old and young in the ansence. In less than the mineter after he was not be standard to the same of the occasion. I was uning I had the crowd, judge, jury and ectators completely in my hands, and traysoff master of the occasion. I was sorry I had not demanded \$20,000. I was send to sell the cold, and sold the sold of the cold, and the sell of the sell of the cold, and the sell of the sell of the poor girl as I had seen relate a few months before, and dwelf, on the contrast now. I depicted the art anguish of the old father tottering the grave under the cruel blow, of the on the had treated as a son. I hurled athemas against the seducer; I protesting the man of our common manhood, ainst the wrong inflicted upon our more, wives and sisters in the person of a poor girl, and demanded of the jury inter they could be britted into coward-silence by the villainous author of all se woes. I closed with this apt and cible quotation from Scott: Where shall the traitor rest, the the deceiver. Who would win malents breast. Ruin—and first her! In the lost besties.	Our Commission has just returned. It is appears that this more fellow has been she piner in damp sheats, which were the arts ame sheets of a forthcoming volume. A of Yankee humor. We gladly place the distance this very curams and interesting case at the disposal of the Lancet. The Danbury Man on His Travels. If the General Has First the Color West He Gens Line First the Mests of the Mississippi-lie Meets a Mate, Etc. From the Danbury Conn. News, June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an Ainerican but has some sort of an idea of what the Mississippi river looks like, Tand and has a vague impression that some time or other before he dies he will be permitted to see it. The Mississippi—what say word it is to chew up in ink is an in stitution by itself. It is full of associations, both tragical and comic, and it is stitution by itself. It is full of associations, both tragical and comic, and see repeated in the papers but we flon't realize them until we get on the river itself. The steamboats are flat bottomed, and many of them carry the wheel at the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual observer, the boat appears to have just stimus arre it. Would give you a lite with or the control of the two were I not engaged in	ady called upon a carebrated occulist, in order to consult him on account of her yes, complaining that their power of ision-had of late considerably diminished. It a glance the doctor saw that she was a ady of rank and wratth. He looked at the reaction would require much time, as here were feasons to fear amaurosis in crease. He must advise her, first of all, that, as she had informed him she was rediding a considerable distance in the country, she must move into the city at once, yet in this enable him to see her frequently, thossible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He rescribed this and that, and thus day an into weeks and weeks into months, the cure, however, was still coming. The his icidii tried to console her. The day the patient hit upon a curious theme, and she waited not long to carry into effect. She procured for herself a very old and our attire, put a hood of tremendous size pon her head, took an old umbrella and a arket-basket in her hand, and in these hallments visited her physician, selecting rithe purpose a very rainy day. She had well succeeded in distorting and disgnisg herself that the eye even of a lover old scarcely have recognized her. She as obliged to wait a long time in the iterroom of the physician, with many her, who, like her, were seeking relief that the rurn came. "Weil, my good woman, what have you complain of?" "Very bad eyes, doctor," she answered for very bad eyes, doctor," she answered	Then I drew close up to the table, and I saw a little black speck on the toost. Says I, "You'd make a goo! linen buyer, says he "You'd make a goo! linen buyer, says he, "You'd make a goo! linen buyer, says he, "You'd make a goo! linen buyer, says he, "It's a snipe on toast, any says he, "It's a snipe on toast, any says he, "That suipe is all right. It's a sails, sized one, too." Says I, "I mighad of it. I'm glad you old me that's a fail-sized snipe; for ite out show, young man, when I sat out here reading. I saw a black speck on that oast, but I took it for a fly, and I'm glad o be informed it's a snipe—a full-sized nipe. Now you can take that snipe away and bring me a turkey on toast. I want a slip-sized turkey, too." I ain't hankering after snipe since that pisode. I tould have blown that snipe intrough a putty-blower without hurting a he snipe or the putty-blower either, nipe on toust may be game, but it's a lean game. HUNTERS OF MEN. Their Skill—How They Track a Trail—the Logic of the Prairie. A Dr. Hauchendof gives this intensely lateresting account of the extraordinary cill of the Indian traiper that is a shrew! after is a man of close observation, quick preprion, and prompt action. As he can show hat he seemed hears he accounts of immediately. Often not such has been accounts of immediately. Often not such has been and the such a such has been a light and what he seemed hears he accounts of immediately. Often not such has been a light of the prompt accounts of immediately. Often not such has been a light of the indian trailers:	we had our last rain, and at the homen and the ground was softer than at an other time. The track infore us was the made. He broke up here and there can cere of grapes that lay in the pads of the facek, and showed my the dry earlier than the studies of others, and by many use other similar before a wolf, a fox, as many circumstances that asconished me. We followed the trail over a mile. Not that the new saw that a wolf, a fox, as other animals had practiced their trails and then we saw that a wolf, a fox, as other animals had practiced their trails at, and a prairie dog had crossed for rack. Nothing had followed or crossed he track that the quick eye of the Date he track that the quick eye of the Date he habits of all the animals that had before an account of the habits of all the animals that had before the weath? since the ele passed, and the effects of sunshine, wind, arality, and-storms, and other influences that had bearing on these tracks. The ood man, ke all trailers, was reticent, but he this coasion, seeing that I was interested, became speedily communicative. A Wonderful Care. Two or three years ago a Mr. Free outhand, near Delaware Gap. One day sit summer Mr. Frear, while cutting woold at the anountain, discovered near the base wait ten or twelve teet high laid up rainst a perpendicular precipice of aparently solid rock. He took down a ortion of the wall, and came to an open g in the rock large enough to permit entire passage of his body. The instant the passage of his body. The instant the pening was uncovered a strong current, senting was uncovered a strong current.

In consequence, the poor mand the mechanic stay away, not being and the mechanic stay away, not being maded to sit on the two or three 'poor naches' at the hack of the gathery and controlled in the consciousness at the thing will support itself now and maded no further outlay. A mission chapel built of plain, barn-like appearance and brained by the wealther consciousness at the thing will support itself now and maded no further outlay. A mission chapel built of plain, barn-like appearance and brained by the wealther construction of a commendable effort as far as it less. But the gist of this matter of costly inverse lies here. Granting that Dives is a right to gratify his vanity and potential to the grant of the pretense that they help us to worship God, while his deep the construction of the very bread of the pretense that the proof of the pretense that the proof of the rich, who should have these aids the rich who should have these aids the proof of the start is the leading lady, too, beside Paa' in court than he hears from the rectage of the should be a for this expense is usually Solomons in the "lamb without blemish" was not the "lamb without blemish "was not the "lamb without blemish" was not	and the fight. I was warmed up as I had ever been before. Her father was in the curt-room, his long gray hair falling about a shoulders, and his runned daughter tring, with bowed hand, by his soiler to the beginning of my sprech to its one you could have heard a pin drope, fact there was no other shadow of sound it my own voice, save now and then the oken sobs of old and young in the angence. In less than the minutes after he mainly I had the crowd, judge, jury and ectators completely in my hands, and it myself master of the occasion. I was a ysorry I had not demanded \$20,000, alead of \$10,000. I portrayed the cold, r, snaky steps of the seducer, the imprunities, the final overpowering mastry of his stronger mind and body. I welt upon woman's trusting love and seither devotion and constancy; drew a picture of the poor girl as I had seen a but a few mouths before and dwelf on the contrast now. I depicted the art anguish of the old father tottering the grave under the cruel blow, of the in he had treated as a son. I hurled athemas against the seducer; I protest, in the name of our common manhood, aimst the wrong inflicted upon our mores, wives and sisters in the person of the poor girl, and demanded of the jury lether they could be bribed into cowardsilence by the villainous author of all see woes. I closed with this apt and cible quotation from Scott: Where shall the traitor rest, the the deceiver, the deceiver, the deceiver, where shall the traitor rest, the the deceiver, where they could be pring. There is not the dying, there is no the table hearted; the wings shall the eagle flap of the table hearted; thus wang hood the wardshall lap. Ere life be parted; Same and diblown aid.	Our Commission has just returned. It is appears that this more fellow has been she piner in damp sheats, which were the art ame sheets of a forthcoming volume of Yankee humor. We gladly place the fellow his very curams and interesting case at the disposal of the bancet. The Danbury Man on His Travels. He Goew West Hie Gets His First the Coew West Hie Gets His First of this yery curams and interesting the Coew West Hie Gets His First of the Parabella of the Lancet. The Danbury Man on His the Coew West His First of the Mississippi—He Meets a Mate, Etc. From the Danbury, Conn. News, June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an American hut has some sort of an idea of what the Mississippi river looks like, and has a vague impression that some time or other before he dies he will be permitted to see it. The Mississippi—what a word it is to chew up in ink is an in stitution by itself. It is full of associations, both tragical and comic, and jit is possible to the dies of the propers of the parabella of annel. These bit also full of myd. It has no banks to speak of. It is full of bars, and has a narrow and very uncertain channel. These bit also full of myd. It has no banks to speak of. It is full of bars, and has a narrow and very uncertain channel. These bit seems of the two wants of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual observer, the boat appears to have just attituded over it. Would give you a picture of the two were I not engaged in painting a view of the Rocky Mountains of the river is much broader at this point than I expected to see it, but we cannot always have things our own way in this world. The channel is about three leet freep opposite this place it don't know time world. The channel is about three leet freep opposite this place it don't know time world.	ady called upon a cacebrated occulist, in order to consult him on account of her order to consult him on account of her yes, complaining that their power of ision-had of late considerably diminished. It a glance the dector saw that she was a ady of rank and wratth. He looked at carrier the reatment would require much time, as here were feasons to fear amaurosis in crease. He must advise her, first of all, hat, as she had informed him she was reidining a considerable distance in the country, and thus enable him to see her frequently, in this carrier him to be city at once you thus enable him to see her frequently, in possible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He rescailed this and that, and thus days in into weeks and weeks into months, he care, however, was still coming. The hysician tried to console her. The lady the patient hit upon a curious them, and she waited not long to carry into effect. She procured for herself a very old and our attire, put a hood of tremendous size pon her head, took an old umbrella and a arket basket in her hand, and in these halliments visited her physician, selecting rite purpose a very rainy day. She had arket basket in her hand, and in these halliments visited her physician, selecting rite purpose a very rainy day. She had arket basket in her hand, and in these halliments visited her physician, with many her, who, like her, were seeking relief that the eye even of a lover lad sorting and disignished to wait a long time in the test her turn came. "Weil, my good woman, what have you complain of?" Weil, my good woman, what have you complain of?" Weil, my good woman, what have you find that her turn came. "Yery bad eyes, doctor," she answered, fill took her to the light looked into her is expected in the took her to the light looked into her is expected. The took her to the light looked into her is expected in the took her to the light looked into her is expected. Yes, I know what I am saying.	Then I drew close up to the table, and I saw a little black speck on the toost. Says I, "You'd make a goo! linea buyer." Says he, "You'd make a goo! linea buyer." Says he, "It's a snipe on toast, any low." Says I, "How did it get on?" Says he, "It's a snipe on toast, any low." Says I, "How did it get on?" Says he, "That snipe is all right. It's a allesized one, too." Says I, "I'm glad of it. I'm glad you old me that's a fail-sized snipe; for do not know, young man, when I sat out here reading, I saw a black speck on that oast, but I took it for a fly, and I'm glad o be informed it's a snipe—a full-sized nipe. Now you can take that snipe away and bring me a turkey on toast. I want a life sized turkey, too." I ain't hankering after snipe since that prisode. I could have blown that snipe hrough a putty-blower without hurting she snipe or the putty-blower either. In the logic of the Prairie. A Dr. Hanchendoff gives this intensely deteresting account of the extraordinary of allering account of the extraordinary of taken until a mystery that may present she in this line is fairly solved. The increasing that the latest until a mystery that may present shelf in this line is fairly solved. The increasing account for certain traces or excess in traces, and sometimes gives to ematter unremitting attention for days and weeks. The trailer is not a graceful lead and the carries his wheat mystery in the increase and all the arrise his wheat mystery in the increase and all the arrise his wheat mystery in the increase and all the arrise his wheat mystery in the increase and all the arrise his wheat mystery in the arrise his wheat mystery in the arrise his wheat mystery in the arrise his wheat mystery	we had our last rain, and at the homen med the ground was softer than at me other time. The track inform as was the made. He broke up here and there can cers of grapes that lay in the path of the firek, and showed my the dry called the studies of others, and by month as other similar litems accounted in many circumstances that asconshed me. We followed the trail over a mile. Not and then we saw that a wolf, a fox, as other animals had practiced their trailing astimute on the cik's tracks. Here are attained as prairie dog had crossed he track that the quick eye of the Dataia did not detect. He gave an account of the habits of all the animals that had believed of the weather since the cik passed, and storms, and other influences that had bearing on these tracks. The oad mun, and storms, and other influences that had bearing on these tracks. The oad mun, ke all trailers, was reticent, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Cave. Two or three years ago a Mr. Free ought 100 acres of land on the Kittatinay was reticent, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Cave. Two or three years ago a Mr. Free ought 100 acres of land on the Kittatinay was reticent, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Cave. Two or three years ago a Mr. Free ought 100 acres of land on the Kittatinay wolf at the soundain, discovered near the base wall ten or twelve teet high laid up rainst a perpendicular precipies of apparently solid rock. He took down a ortion of the wall, and came to an open gin the rock large conjugator for excaped. It was so cold that a prescaped. It was so cold that a prescaped is a cold mass so cold that a created the opening. He daying himself is large chamber, the walls being of rough as a cert of the opening. He daying himself is large chamber, the walls being of rough as each at the could not explore the cay.

It is appears that this more fellow has been she ping in damp sheats, which were the art ame sheets of a forthcoming volume of Yankee humor. We gladly place the distance this yery curans and interesting case at the disposal of the Lancet. The Danbury Man on His the Commission of the Danbury Man on His the Commission of the Lancet. The Danbury Man on His the Commission of the Mississippi—He Meets a Mate, Etc. From the Danbury Conn. News, June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an Aharican hut has some sort of an idea of what the Mississippi river looks like, and has a vague impression that some time or other before he dies he will be permitted to see it. The Mississippi—what see a word it is to chew up in ink is an institution by itself. It is full of associations, both tragical and comic, and it is peak of. It is full of bars, and has a narrow and very uncertain channel. These are matters we all hear at school, and see repeated in the papers, but we don't realize them until we get on the river itself. The steamboats are flat bottomed, and many of them carry the wheel at the estern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just think it is the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just the final expected to see it, but we cannot always have things our own way in this world. The channel is about three fetched opposite this place: I don't know the exact width of the river, but there is a chool but hat the back wheel is a so it should be the third the back when heart is as thick as it should. The traveler should turn it over with his foot and look at both sides of it. All was he, fire at the back without heart of the fire of the has foot and look at bot	ady called upon a chebrated occulist, in order to consult him on account of her yes, complaining that their power of ision-had of late considerably diminished. It a glance the decior saw that she was a ady of rank and wratth. He looked at a glance the decior saw that she was a ady of rank and wratth. He looked at the reaction would require much time, as here were feasons to fear amaurosis in er case. He must advise her, first of all, that, as she had informed him she was rediding a considerable distance in the country, she must move him the city at once, year that the enable him to see her frequently, thossible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He rescribed this and that, and thus days an into weeks and weeks into months, the cure, however, was still coming. The chartene, and she waited not long to carry into effect. She procured for herself a very old and or attire, put a hood of tremendous size pon her head, took an old umbrella and a arket-basket in her hand, and in these hallments visited her physician, selecting in the purpose a very rainy day. She had well succeeded in distorting and disguisg herself that the eye even of a lover build scarcely have recognized her. She as obliged to wait a long time in the terroom of the physician, with many her, who, like her, were seeking relief that the cyce even of a lover build scarcely have recognized her. She sas obliged to wait a long time in the terroom of the physician, with many her, who, like her, were seeking relief that the cyce even of a lover build scarcely have recognize his patient. The complain of?" "Very bad eyes, doctor," she answered, for the took her to the light looked into her is, but failed to recognize his patient. If your eyes are well enough." "Well?" he said. "Your eyes are well enough." "Amaurosis?" "Amaurosis?" Yes, that it is, doctor." "Don't you let them make you believe by such non let. Your eyes are sell-enough."	Then I drew close up to the table, and I saw a little black speck on the toost. Says I, "You'd make a goo! linen buyer, says I, "You'd make a goo! linen buyer, four would." Says I, "You'd make a goo! linen buyer, says I, "You'd make a goo! linen buyer, says I, "You'd make a goo! linen buyer, says I, "I's a snipe on toast, any low." Says I, "I'm glad of it. I'm glad you gold me that's a fail-sized snipe; for down old me that's a fail-sized snipe; for down young man, when I sat out here reading. I saw a black speek on that oast, but I took it for a fly, and I'm glad o be informed it's a snipe—a full-sized nipe. Now you can take that snipe away and bring me a turkey on toast. I want a grised turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe herough a putty-blower without hurting a he snipe or the putty-blower either, nipe on toast may be game, but it's a least game. HUNTERS OF MEN. The Logic of the Pratitie. A Dr. Hanchendoff gives this intensely latteresting account of the extraordinary cill of the ludian trailers: The lodian trapper that is a shrewell aller is a man of close observation, quick preption, and prompt action. As he lose along nothing escapes his observation, said what he seems bears he accounts or immediately. Often not another step taken until a mystery that may present well in this line is fairly solved. The line and trailer will stand still for hours in locession to account for certain traces or a later unremitting attention for days and weeks. The trailer is not a graceful and weeks. The trailer is not a graceful and weeks. The trailer is not a graceful and he is practising his art unconiously, hardly ever crossing the track of an or animal without seeing it. When the other was a later and house he believe that he had not a long the track of an or animal without seeing it. When the other was a later and he had not be believe that he had an an account of the track of an or animal without seeing it.	we had our last rain, and at the homen med the ground was softer than at an other time. The track infora is was the made. He broke up here and there can cere of grapes that lay in the pada of the facek, and showed my the dry earlier comes other similar before a grapes that any in the pada of the facek, and showed my the dry earlier many circumstances that asconding ment we followed the trail over a mile. Not and then we saw that a wolf, a fox, and then we saw that a wolf, a fox, and then an interest of the cik's tracks. Here are not at an and a prairie dog had crossed to rack. Nothing had followed or crossed the track that the quick eye of the Data is did not detect. He gave an account of he habits of all the animals that had before an other and the effects of sunshing, wind, arising and storing on the track, also of the tate of the weath? since the cik passed, and the effects of sunshing, wind, arising and storing on these tracks. The old man, ke all trailors, was reticent, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Case. Two or three years ago a Mr. Free found to acres of land on the Kittating fountain, near Delaware Gap. One day as summer Mr. Frear, while cutting weel in the arountain, discovered hear the base wait ten or twelve feet high laid uprainst a perpendicular precipice of aparticular and the rock large enough to permit a passage of his body. The instant the passage of his body. The instant the penning was uncovered a strong current after except. It was so could that a perpendicular displace chamber, the walls being of rough and gaged rocks. The cold was so made that he could not explore the cay rether than fifty Teet. Since then the row has penetrated further than sky trunder the mountain. The draw of its so strong at the mouth the troes if try yar is distant are kept in construction of the day rise distant are kept in construction of the signal and the mouth the troes in the so strong at the mouth the troes in the solution of the mouth the troes

He was the mate of the vescit	ady called upon a cacebrated occulist, in order to consult him on account of her over, complaining that their power of ision-bad of late considerably diminished. It a glance the dector saw that she was a ady of rank and wratth. He looked at a care the dector saw that she was a care to the light looked at a glance the dector saw that she was a care to care. He must advise her, first of all, that, as she had informed him she was redding a considerable distance in the country, the considerable distance in the country, she must move that he city at one; and thus enable him to see her frequently. The lady then rented an elegant manion, moved into the city, and the physican was gunctual in his attendance. He rescailed this and that, and thus days an into weeks and weeks into months, the care, however, was still coming. The his leids tried to console her. The lady the patient hit upon a curious them, and she waited not long to carry into effect. She procured for herself a very old and our attire, put a hood of tremendous size pointer head, took an old umbrella and arket basket in her hand, and in these hallments visited her physician, selecting the purpose a very rainy day. She had arket basket in her hand, and in these hallments visited her physician, selecting the purpose a very rainy day. She had sevel succeeded in distorting and disguisg herself that the eye even of a lover in as obliged to wait a long time in the state rum came. "Weil, my good woman, what have you complain of?" "Yer, who, like her, were seeking relief that the eye even of a lover in a so bliged to wait a long time in the state rum came. "Weil, my good woman, what have you go well succeeded in distorting and disguisg herself that the eye even of a lover in a so bliged to wait a long time in the state rum came. "Yes, it has the cycle of the said: "The time of the took her to the light looked into her expended to precognize his patient. "Your eyes are well enough." "Your eyes are well enough." "Yes, it has the is all. Your physician is had,	Then I drew close up to the table, and I saw a little black speck on the toost. Says I, "You'd make a goo! linen buyer." Says I, "You'd make a goo! linen buyer." Says I, "You'd make a goo! linen buyer." Says I, "How did it get on?" Says I, "How did it get on?" Says I, "I's a snipe on toast, any low." Says I, "I's a snipe on toast, any low." Says I, "I'm glad of it. I'm glad you old me that's a fail-sized snipe; for disorous know, young man, when I sat out here reading. I saw a black speek on that oast, but I took it for a fly, and I'm glad o be informed it's a snipe—a full-sized nipe. Now you can take that snipe away and bring me a turkey on toast. I want a utl-sized turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a utl-sized turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe a snipe or the putty-blower either, nipe on toast may be game, but it's a least game. HUNTERS OF MEN. The I adian trailer snipe snipe snipe on toast may be game, but it's a least game. HUNTERS OF MEN. The Logic of the Prairie. A Dr. Hanchendof gives this intensely afteresting account of the extraordinary all of the ludian trailers: The Lodian trapper that is a shrewd after is a man of close observation, quick reception, and prompt action. As he had sailer is a man of close observation, quick reception, and prompt action. As he had sailer is a man of close observation of the case along nothing escapes his observation, and what he sease hears he accounts of the case along nothing escapes his observation of the ludian trailer will stand still for hours in coession to account for certain traces or excession t	we had our last rain, and at the homen the ground was softer than at an other time. The track before as was the made. He broke up here and there chare care of grapes that lay in the pada of the fack, and showed my the dry care. The chart is the fack, and showed my the dry care than accounted in many circumstances that asconding menty circumstances that asconding menty circumstances that asconding menty circumstances that asconding menty circumstances that asconding there and then we saw that a wolf, a fox, as other animals had practiced their trails of the cik's tracks. Here are rack. Nothing had followed or crossel he track that the quick eye of the Dake in did not detect. He gave an account of he habits of all the animals that had before the weather since the cik passed, and the effects of sunshing, wind, archiv, and storms, and other influences that had bearing on these tracks. The old man, ke all trailers, was retieved, but of the same speedily communicative. A Wonderful Case. Two or three years ago a Mr. Freedomph 100 acres of land on the Kittating tountain, near Delaware Gap. One day ist summer Mr. Frear while cutting world a the mountain, discovered near the base wall ten or twelve teet high laid uptainst a perpendicular precipice of aparently solid rock. He took down a princip of the wall, and came to an open g in the rock large enough to permit a passage of his body. The instant the passage of his body is a second that a content of the rock large enough to permit we can be completed through and through. Determined the permit of the permit of the content of the permit of the permit of the rock large enough to permit of the content of perm

Her father was in the curt-room, his long gray hair falling about a shoulders, and his runner daughter tring, with howel heads by his suiteron the beginning of my speech to its ose you could have heard a pin drope, fact there was no other shadow of sound it my own voice, save now and then the oken sols of old and young in the ancience. In less than the winners after he mining I had the crowd, judge, jury and ectators completely in my hands, and it myself master of the occasion. I was sorry I had not demanded \$20,000, slead of \$10,000. I portrayed the cold, snaky steps of the seducer, the imprunities, the final overpowering mastry of his stronger mind and body. I velt upon woman's trusting love and seith devotion and constancy; drew a picture of the poor girl as I had seen that a few months before, and dwelf-on the contrast now. I depicted the art anguish of the old father toftering the grave under the cruel blow, of the art anguish of the old father toftering the grave under the cruel blow, of the art anguish of the old father toftering the grave under the cruel blow, of the art anguish of the old father toftering the grave under the cruel blow, of the art anguish of the old father toftering the grave under the cruel blow, of the art anguish of the old father toftering the grave under the jour common manhood, almost the wrong inflicted upon our more, wives and sisters in the person of the poor girl, and demanded of the jury lether they could be bribed into coward-silence by the villainous author of all se woes. I closed with this apt and cribic quotation from Scott: Where shall the fraitor rest, He, the deceiver, Wascaill win paidens breast. Ruin and fave her! In the lost battle, Borne down by the flying. There shall the belying. There may be a shall the eagle flap the the tole hearted! Where shall the belying. There is the prover. Believe to the history of the damars in seat, as they would return in five min seat, as they would return in five min	Our Commission has just returned. It is appears that this pion feltow has been she pine in damp sheats, which were the art ame sheets of a forthcoming volume. A of Yankee humor. We gladly place the data ance sheets of a forthcoming volume. A forthcoming volume and Yankee humor. We gladly place the data and the disposal of the Lancet. The Danbury Man on His the Lancet. The Danbury Man on His the Lancet. The Danbury Man on His the Lancet. It Lilings of the Mississippi—He Meets a Mate, Etc. From the Danbury Conn. News, June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an Aharican hum has some sort of an idea of what the Mississippi river looks like, and has a vague impression that some time or other before he shes he will be permitted to See it. The Mississippi—what see a word it is to chew up in ink is an institution by itself. It is full of associations, both tragical and comic, and it is speak of. It is full of bars, and has a narrow and very uncertain channel. These are matters we all hear at school, and see repeated in the papers, but we flour realize them until we get on the river itself. The steamboats are flat bottomed, and many of them carry the wheel at the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just think it is the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just to think it is the stern. It is that part of the boat where, if it was a house, the slops to the papers of the ease with the stern was a stick as a stick of the flow of the flow of the river but there is a choose that the beat where is about three feet here opposite this place: I don't know the exact width of the river, but there is an interest of the sould be a fine of the very work of the look when I got there. The boat	ady called upon a chebrated occulist, in order to consult him on account of her tyes, complaining that their power of ision-had of late considerably diminished. It a glance the ductor saw that she was a ady of rank and wratth. He looked at the reaction would require much time, as here were feasons to fear amaurosis in er case. He must advise her, first of all, that, as she had informed him she was rediding a considerable distance in the country, she must move into the city at once, yet in this enable him to see her frequently, thossible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He rescribed this and that, and thus day an into weeks and weeks into months. The city, however, was still coming. The chartener, and she waited not long to carry into effect. She procured for herself a very old and our attire, put a hood of tremendous size pon her head, took an old umbrella and a arket-basket in her hand, and in these hardiments visited her physician, selecting rether the head, took an old umbrella and a arket-basket in her hand, and in these hardiments visited her physician, selecting rether the propose a very rainy day. She had well succeeded in distorting and disgnisg herself that the eye even of a lover old scarcely have recognized her. She as obliged to wait a long time in the sketchown of the physician, with many her, who, like her, were seeking relief that the cyc even of a lover old scarcely have recognize his patient. The took her to the light looked into her is, but failed to recognize his patient. The special season of the physician is head of the physician is a seeking relief to the first of the light looked into her is, but failed to recognize his patient. The special season of the physician is head of the physician is head of the physician is the first of the light looked into her is, but failed to recognize his patient. The last her turn came. "Your eyes are well enough." "Yes, that it is, doctor." Don't you let them make you	Then I drew close up to the table, and I saw a little black speck on the toost. Says I, "You'd make a goo! linen buyer, says he, "It's a snipe on toast, any says he, "It's a snipe on toast, any says he, "That suipe is all right. It's a fall sized one, too." In consequence, the poor mand the mechanic stay away, not being maded to sit on the two or three poor manches, at the hack of the gathery, and complacent in the consciousness at the thing will support itself now and mechanically into their cushiousness, at the thing will support itself now and mechanically and itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and commendable effort as far as it itself now and itself now and far heart of the present that itself now and itself now and far heart of man such as far far as it is the leading lady, too, beside Paratic now and the heart from the rectanical planned by God. It is the leading lady, too, beside Paratic now and the how the man survivis for the lamb without blemsh was not the as for this expense is usually solomon as inpic, ordained and planned by God. It is the leading lady, too, beside paratic now and it is the leading lady, too, beside paratic now and its is the leading lady, too, beside paratic now and the leading lady, too, beside paratic now and the leading lady, too, beside paratic now a	andle light. I was warmed up as I had ever been before. Her father was in the curt-roomhis long gray hair falling about a shoulders, and his runner daughter tring, with howel hands by his side tring, with howel hands by his side for the leginning of my speech to its ose you could have heard a pin dropal fact there was no other shadow of sound it my own voice, save now and then the oken sobs of old and young in the an ence. In less than the minutes after he waiting I had the crowd, judge, jury and ectators completely in my hands, and it myself master of the occasion. I was myself master of the occasion. I was a sort of his stronger mind and body. I welt upon womans trusting love and settlish devotion and constancy; drew a picture of the poor girl as I had seen rout a few months before and dwelf on the contrast now. I depicted the art anguish of the old father tottering the grave under the cruel blow of the art anguish of the old father tottering the grave under the cruel blow of the an he had treated as a son. I hurled athemas against the seducer: I protest in the name of our common manhood, aliest the wrong inflicted upon our mores, wires and sisters in the person of it poor girl, and demanded of the jury either they could be bribed into coward-silence by the villainous author of all see woes. I closed with this apt and cible quotation from Scott: Where shall the traitor rest. Ruin—and have her! In the lost battle. Borne down by the flying. Where shall the belying. Her wings shall the eagle Inap One the tible hearted. Even the flee hearted. Even the state hearted. Even the down was shall lap. Even the down how of the won shall lap. Even the state hearted. Even the down the won shall lap. Even the down the won shall lap. Even the down the won shall lap. Even thad moved out of the country, it was a count asked that his honor	Our Commission has just returned. It is appears that this more fellow has been she piner in damp sheats, which were the arbaine sheats of a forthcoming volume of Yankee humor. We gladly place the report of this yery curams and interesting case at the disposal of the bancet. The Danbury Man on His Travells. Travels. The Coes West the first line First the Grand the Danbury Conn. News. June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an Aharraean hut has some sort of an idea and has a vague impression that some time or other before he dies he will be permitted to see it. The Mississippi—what a word it is to chew up in ink is an is also full of myd. It has no banks to speak of. It is full of bars, and has a narrow and very uncertain channel. These are matters we all hear at school, and see repeated in the papers, but we don't realize them utthis we stom the river itself. The steamboats are flat bottomed, and many of them carry the wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just think it is the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just think to got and look at both sides of it, and he exact width of the river, but there is the poposite this place; if don't know the exact width of the river, but there is not clothe boat was taking on its freight, and hout thirty lively negroes and one very veited and awfully profane white man rere doing the boat on the point of a knife land where he hear to the shore, and one casks. Without any cressation they one deed from the boat to the shore, and one many with his four and look at both sides of it. It is a flat they general mediation they one deed from the boat to the shore, and one casks. Without any cressation they one deed from the boat to the shore, and one the shore back to the boat, and all nearly income the shore back to the boat, and all	ady called upon a chebrated occulist, in order to consult him on account of her order to consult him on account of her yes, complaining that their power of ision-had of late considerably diminished at a glance the declar saw that she was a lady of rank and wratth. He looked at a glance the declar saw that she was a lady of rank and wratth. He looked at the reaction would require much time, as here were feasons to fear amaurosis in er case. He must advise her, first of all, that, as she had informed him she was rediding a considerable distance in the country, she must move into the city at once, in the case her frequently, thossible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He rescaibed this and that, and thus days in into weeks and weeks into months. The day the patient hit upon a curious the core, however, was still coming. The chartene, and she waited not long to carry into effect. She procured for herself a very old and arket-basket in her hand, and in these hardiments visited her physician, selecting rithe purpose a very rainy day. She had well succeeded in distorting and disguisg herself that the eye even of a lover old searcely have recognized her. She sas obliged to wait a long time in the start-room of the physician, with many her, who, like her, were seeking relief that the cyc even of a lover old scarcely have recognized her. She sas obliged to wait a long time in the start-room of the physician, with many her, who, like her, were seeking relief that the cyc even of a lover old scarcely have recognize his patient. The complain of?" Well, my good woman, what have you go will scarcely have recognize his patient. The start run came. Well as a forget how it is, called. "Your eyes are well enough." Yes, that it is, doctor." Don't you let them make you believe by such nonsense. Your eyes are a little ass. "Your old her had a forget how it is, called." Your eyes are well enough." Yes, that it is, doctor." The lady now arose,	Then I drew close up to the table, and I saw a little black speck on the toast. Says I, "You'd make a goo! linen buyer." Says I, "You'd make a goo! linen buyer." Says he, "It's a snipe on toast, any low." Says I, "How dad it get on?" Says he, "That snipe is all right. It's a allesized one, too." Says I, "I'm glad of it. I'm glad you old me that's a fail-sized snipe; for dad you show, young man, when I sat out here reading. I saw a black speck on that oast, but I took it for a fly, and I'm glad o be informed it's a snipe—a full-sized nipe. Now you can take that snipe away and bring me a turkey on toast. I want a utlesized turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a utlesized turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a utlesized turkey, too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a utlesized turkey too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a utlesized turkey too." I ain't hankering after snipe since that pisode. I could have blown that snipe and bring me a turkey on toast. I want a slid pisode. I could have blown that snipe and bring me a turkey on toast. I want a slid pisode. I could have blown that snipe and bring me a turkey on toast. I want a slid pisode. I could have blown that snipe and the sni	we had our last rain, and at the homen the ground was softer than at an other time. The track before as was the made. He broke up here and there can cere of grapes that lay in the pada of the fack, and showed me the dry calked the the studies of others and by many message of his hold them. We followed the trail over a mile. Not and then we saw that a wolf, a fox, as other animals had practiced their trailing astincts on the cik's tracks. Here any astincts on the cik's tracks. Here are astack. Nothing had followed or crossel he track that the quick eye of the Data is did not detect. He gave an account of he habits of all the animals that had belief footprints on the frack, also of the tate of the weather since the cik passed, and the effects of sanishing, wind, arility, and storms, and other influences that had bearing on these tracks. The old man, ke all trailers, was retieval, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Cave. Two or three years ago a Mr. Free bought 100 acres of land on the Kittatinny ountain, near Delaware Gap. One day ast summer Mr. Frear, while cutting woods the knountain, discovered hear the base wail ten or twelve leet high laid uprainst a perpendicular precipice of apparently solid rock. He took down a perion of the wall, and came to an open g in the rock large enough to permit a passage of his body. The instant the passage of his body. The instant the passage of his hody. The instant the passage of his hody is the first cold was so an account of the count has penetrated further than sifty feet. Since then be received the mouth. A thermont to so a grand but a low was a firs

The Danbury Man on His Travels. The Danbury Man on His Travels. It Goes West-Re Gets Dis First in a Mate, Etc. From the banbury, Conn. News. June 4. At Quincy I got my first view of the Mississippi river? I believe there is not an Alacrican hat has some sort of an idea of what the Mississippi river looks like, and has a vague impression that some time or other before he dies he will be permitted to see it. The Mississippi—what a word it is to chow up in ink—is an in stitution by itself. It is full of associations, both tragical and feomic, and fit is also full of myd. It has no banks to peak of. It is full of bars, and has a narrow and very uncertain channel. These are matters we atli hear at school, and see for are matters we atli hear at school, and see for steamboats are flat bottomed, and many of them earry the wheel at the stern. It is that part of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just into painting a view of the Rocky Monatain of the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual abserver, the boat appears to have just into painting a view of the Rocky Monatain of the boat where it is an allowed three opposite this glace: I don't know that I would give you a picture of the two were indeed on the point of a knift had been as a said to be casks. Without any cessation they were allowed three for the was the boat and all they would while he deln't know about three for each of the was the boat and all they wend will attent to to cop up with hes new oaths and on they were allowed to	ady called upon a chebrated occulist, in order to consult him on account of her yes, complaining that their power of ision-had of late considerably diminished. It a glance the ductor saw that she was a say of rank and wratth. He looked at ady of rank and wratth. He looked at the reyes, shook his head, and thought the region of the considerably diminished. It a glance the ductor saw that she was a say of rank and wratth. He looked at the reyes, shook his head, and thought the react. He must advise her, first of all, hat, as she had informed him she was residing a considerable distance in the countiling a considerable distance in the countiling a considerable distance in the countilines of the core, however, was still coming. The excepted this and that, and thus days at into weeks and weeks into months. The core, however, was still coming. The he core, however, was still coming. The charmed and she waited not long to carry sinto effect. She procured for herself a very old and or attire, put a hood of tremendous size pon her head, took an old umbrella and a arket-basket in her hand, and in these haliments visited her physician, selecting r the purpose a very rainy day. She had well succeeded in distorting and disguisg herself that the eye even of a lover will scarcely have recognized her. She as obliged to wait a long time in the tarroom of the physician, with many her, who, like her, were seeking relief that the cyc even of a lover will scarcely have recognize his patient. The complain of? "Very bad eyes, doctor," she answered, for the took her to the light looked into her is seen to the light looked into her is	Then I drew close up to the table, and I saw a fittle black speck on the toast. Says I, "You'd make a goo I linen huyer." Says I, "You'd make a goo I linen huyer." Says I, "You'd make a goo I linen huyer." Says I, "You'd make a goo I linen huyer." Says I, "I low did it get on?" Says I, "I's a snipe on toast, any low." Says I, "I's a snipe on toast, any low." Says I, "I's a snipe on toast, any low." Says I, "I'm glad of it. I'm glad you did me that's a fail-sized snipe for did to be informed it's a snipe—a full-sized ob the informed it's a snipe—a full-sized nipe. Now you can take that snipe away in bring me a turkey on toast. I want a lill-sized turkey, too." I ain't hankering after snipe since that pisode. I sould have blown that snipe and should have blown that snipe he snipe or the putty-hower either, and hough a putty-blower without hurting he snipe or the putty-hower cither, and hough a putty-blower without hurting he snipe or the putty-hower cither, and hough a putty-blower without hurting he snipe or the putty-hower cither, and hough a putty-blower without hurting he snipe or the putty-hower cither, and hough a putty-blower without hurting he snipe or the putty-hower cither, and and hough a putty-blower without hurting he snipe or the putty-hower cither, and hough a putty-blower without hurting he snipe or to be snipe or the putty-hower cither, and house he beard hears he accounts of the Indian trailer is a man of close observation, quick preption, and prompt action. As he see along nothing escapes his observation, and what he sees to hears he accounts of the indian trailer will stand still for hours in locession to account for certain traces or feets in tracks, and sometimes gives to a match, and he is practising his art unconfects in tracks, and sometimes gives to a sun down and he is practising his art unconfects in tracks, and sometimes gives to a match, and he is practising his art unconfects in the source of the practice of his art with the feet of the promote of the practice of his art w	we had our last rain, and at the homenst the ground was softer than at an other time. The track informs as was the made. He broke up here and there changed here to grapes that lay in the pada of the facek, and showed me the dry earlier to the other similar before a mile. Not must other similar before a wolf, a fox, as there animals had practiced their trails and then we saw that a wolf, a fox, as there animals had practiced their trails and then we saw that a wolf, a fox, as there animals had practiced their trails at, and a prairie dog had crossed to rack. Nothing had followed or crossed he track that the quick eye of the Date in did not detect. He gave an account of he habits of all the animals that had before their footprints on the track, also of the tate of the weath? since the eik passed, and the effects of sunshing, wind, arality, and-storms, and other inflir ness that had bearing on these tracks. The old man, ke all trailors, was reticent, but in this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Case. Neston, of Toledo, recently recovered (ps.lanti a span of horses stolen from the recent bail given at the Fourth of July can raise \$700. Two hundred dollars be given as a prize to the best-dirited tary company either in or out of the law in the property of the pro	ow of carved stope and colored class, in thich the theatre in the next street outlines. In consequence, the poor man and the theatre in the next street outlines. In consequence, the poor man and the mechanic stay away, not being unded to sit on the two or three poor naches. At the back of the gallery, and accounted to sit on the two or three poor naches. At the back of the gallery, and accounted to sit on the two or three cashions seats, complacent in the consciousness at the thing will support itself now and ed no further outlay. A mission chapel built of plain, barn-like appearance and stained by the weithfur ownersation of the use of the poor, which is a very spod and commendable effort as far as it estained by the weithfur ownersation of the use of the garding has been a right to gratify his vanity and hetic tastes under the pretense that ty help us to worship God, while his other Lazarus, lies at his gate right to gratify his vanity and the property bread of the rich, who should have these aid lift him out of his coarse dradegry of the rich, who should have these aid lift him out of his coarse dradegry of yand music are state; common place atters to Dives, lolling critically in his cart is the leading lady too, heade Paratite the leading lady too, heade have lady too a child, is shut out. The for this expense is usually Solomons upic, ordained and planned by God. The man for whom this might be reading to the lady to the lady lady too heads and roofs of the blaze of the mysterious prevision of the	andle fight. I was warmed up as I had ever been before. Her father was in the evert-room, his long gray half-falling about a shoulders, and his runned daughter tring, with howed heads by his streeting, with howed heads by his street was no other shadow of sound it my nam youn voice, save now and then the oken sobs of old and young in the acceptance of his errowd, judge, jury and ectators completely in my hands, and it myself master of the occasion. I was a sorry I had not crowd, judge, jury and ectators completely in my hands, and it myself master of the occasion. I was a sorry I had not be occasion. I was a sorry I had not be occasion. I was a possibly steps of the seducer, the imprunities, the final overpowering mastry of his stronger mind and body. I well upon woman's trusting love and seighth devotion and constancy; drew a picture of the poor girl as I had seen rout a few months before, and dwelf on the contrast now. I depicted the art anguish of the old father toftering the grave under the cruel blow, of the in he had treated as a son. I hurled athemas against the seducer: I protest in the name of our common manhood, alast the wrong inflicted upon our more, wives and sisters in the person of it poor girl, and demanded of the jury letter they could be bribed into cowardshence by the villainous author of all see woes. I closed with this apt and cible quotation from Sout: Where shall he belying. Her wings shall halfarion in the min with the groans of the dying. Three shall he belying. Her wings shall halfarow it. Where shall he belying. Her wings shall halfarow it. Never, On never. Belessing shall halfarow it. Soure enough, in less time, they sell in a writier giving damars in whole amount asked, \$10,000. This shall consert or more signally. He died a great or see of the condity of a serior and he moved out of the country, the very cree I had invoked in the stand	Our Commission has just returned. It is appears that this pion fellow has been each ping in damp sheats, which were the alexance in the disposal of the barect. The Danbury Man on His Travels. The Gos. West He for the first	ady called upon a cenebrated occulist, in order to consult him on account of her yes, complaining that their power of ision-had of late considerably dinninshed. It a giance the decitor saw that she was a lart of and and wealth. He looked at a divide the cycs, shook his head, and thought the reyes, shook his head, and thought the reyes, shook his head, and thought the readment would require much time, as here were feasons to fear amaurosis in fear case. He must advise her, first of all, had, as she had informed him she was reiding a considerable distance in the country, and thus as he had informed him she was reiding a considerable distance in the country, and thus enable him to see her frequently, inossible daily. The lady then rented an elegant manion, moved into the city, and the physician was punctual in his attendance. He are rescaibed this and that, and thus days in into weeks and weeks into months he cure, however, was still coming. The he cure, however, was still coming. The her cure however, was still coming. The her cure however, was still coming to carry into effect. The day the patient hit upon a curious the her country into effect. The day the patient hit upon a curious the her country into effect. The day the patient hit upon a curious the her country into effect. The day the patient hit upon a curious the her country into effect. The day the patient hit upon a curious the her country into effect. The day the patient hit upon a curious the her country into effect. The purpose a very rainy day. She had a well succeed in distorting and dispuise on her head, took an old umbrelta and a arket basket in her hand, and in these halliments visited her physician, with many the purpose a very rainy day. She had a well succeed in the purpose a very rainy day. She had the country into effect, which was a limited to recognize his patient. It is a so obliged to wait a long time in the transport of the purpose of the	Then I drew close up to the table, and I saw a fitte black speck on the toast. Says I, "You'd make a goo I linear buyer." Says I, "You'd make a goo I linear buyer." Says I, "Thus dad it get on?" Says I, "I liny dad it get on?" Says I, "I liny dad it get on?" Says I, "I liny dad of it. I'm glad you old me that's a fail-sized snipe; for dad on the dath's a fail-sized snipe; for dad on the far and I'm glad of out know, young man, when I sat out here reading, I saw a black speek on that obe, the own you can take that snipe away it do be informed it's a snipe—a full-sized lining. Now you can take that snipe away in do bring me a turkey ou toast. I want a ull-sized turkey, too." I am't hankering after snipe since that spisode. I could have blown that snips he snipe or the putty-blower without hurting a hear game. HUNTERS OF MEN. The Logic of the Prairie. A Dr. Hanchendoff gives this intensely theresting account of the extraordinary did of the Indian trailers: The Indian trapper that is a shrewd after is a man of close observation, quick prepertion, and prompt action. As he was along nothing escapes his observation, and what he seemed hears he accounts in the line of the prairie of his art with an trailer will stand still for hours in ceession to account for certain traces or enders in tracks, and sometimes gives to be an attailer will stand still for hours in the country of the set in the same of close observation for days all weeks. The trailer is not a graceful an trailer will stand still for hours in ceession to account for certain traces or enders a house he brings the habits hentracted in the practice of his art with me. I know a trailer as soon as he curs my room, Hc comes in through the cortain and without seeing it. When a set is quick and restless, always on the feeters a house he brings the habits hentracted in the practice of his art with me. I know a trailer as soon as he curs my room, Hc comes in the p	we had our last rain, and at the homested the ground was softer than at an other time. The track is for a is was the made. He brinch up here and there chis cars of grapes that lay in the pack of the fack, and showed me the dry called land. The fack, and showed me the dry called land, the signifies of others, and or innover mess other similar thems accounted me. We followed the trail over a spile. Now and then we saw that a wolf, a fox, as other animals had practiced their trailing methods on the cik's tracks. Here are here is would show me where a stake, at, and a prairie doe had crossed he track. Nothing had fellowed or crossed he track that the quick eye of the Dairie did not detect. He gave an account of he habits of all the animals that had bed heir footprints on the track, also of the tate of the weath? since the cik passed, and storms, and other indicates that had bearing on these tracks. The old man, ke all trailors, was relicent, became speedily communicative. A Wonderful Case. Two or three years ago a Mr. Frest ought 100 acre of land out for Kitating weelst the animals in the should an expenditure of land out for Kitating weelst the animals, discovered hear the base wastiten or twelve feet high laid up rainst a perpendicular precipice of apartently solid rock. He took down a ortion of the wall, and came to an opening in the rock large enough to permit expession of the wall, and came to an opening was undovered a strong current air escaped. It was so cold that a present of the solid process of the heart of the rock large chamber, the walls baing of rough diggered rocks. The cold was so made that he could not explore the cay in the rock large chamber, the walls baing of rough diggered rocks. The cold was so made that the could not explore the cay in the rock dependence of percendence and beautiful to the cave of the cold of crevities distant are kept in constitution of bone were been seen. I was warmed up as I hal ever here before. Her father was in the overthrough before. Her father was in the overthrough before in the father was in other shadow of sound in my own voice, save now and then the owe you could have heart a pin drope-fact there was no other shadow of sound if my own voice, save now and then the owen sold and young in the angle in less than the burner in the accession. I was a sorry I had the crowd, judge, jury and ecctators completely in my hands, and the myself master of the occasion. I was a sorry I had not demanded \$20,000. I portrayed the cold, a snaky steps of the seducer, the impression of the occasion. I was a sorry I had not portrayed the cold, a snaky steps of the seducer, the impression devotion and constancy; drew epicture of the poor girl as I had seen rout a few months before and dwelf on the contrast now. I depicted the art anguish of the old father tottering the grave under the cruel blow, of the inhe had treated as a son. I hurled athemas against the seducer; I protestin the name of our common manhood, alies the wrong, inflicted upon our mors, wives and sisters in the person of at poor girl, and demanded of the jury better they could be bribed into cowardsilence by the villations author of all se woes. I closed with this apt and cibie quotation from Sout: Where shall the trailor rest, He, the deceiver, who may be my manifest the force asked that his honor should retain the loss thattle. Borne down by the fiving. Her wings shall tho eagle flap the strail he be lying. Her wings shall the capie flap the world, the force asked that his honor should retain which are and pathons shall hap the parted when the standard and the world out of the country. I have not been asked that his honor should retain the loss of Scott had been directed. When the grave and parted will be applied to be a world and the world of the country. I have a dever to more singally. He died a fact that he would not the second the world in the same of the first of more singally. I follow	appears that this pion fellow has been easle ping in damp sheets, which were the sleeping in damp sheets and interesting the transfer of the Mississippi—He Meets at Limpse of the Mississippi—He Meets at Limpse of the Mississippi—He Meets at Mate, Etc. At Quincy I got my first view of the dississippi river? I believe there is not an adapt of what the Mississippi river looks like, Tand has a varge impression that some of what the Mississippi river looks like, Tand has a varge impression that some immer or other before he dies no will be permitted to see it. The Mississippi—what a word it is to chew up in ink, as an institution by itself. It is full of associations, both traglead and feonic, and it is also full of mul. It has no banks to opeak of. It is full of bars and has a narrow and it were uncertain channel. These are matters we all hear at school, and see repeated in the pipers, but we don't realize them until we get on the river itself. The steamboats are flat bottomed, and many of them carry the wheel at the stern. It is that part of such the fiver itself. The steamboats are flat bottomed, and many of them carry the wheel at the stern. It is that part of such before the boat where, if it was a house, the slops would be thrown. The wheel is a cumbersome looking article, and to the casual absertive, the boat appears to have lust before the boat where, if it was a house, the slops and boat thurty we get in the river is much broader at this point white and the boat was taking on its freight, and boat thurty lively negroes and one tree doing the business. That white man rate of the two were in the boat and all they could with the slope of the shore, and on the shore back to the shore, and on the shore back to the shore, and on the shore back to the shore, and on the shore t	ady called upon a cenebrated occulist. in order to consuit him on account of her yes, complaining that their power of ision-had of late considerably diminished. It a glance the decite saw that she was adverted to a substantial the considerably diminished. It a glance the decite saw that she was adverted to a substantial the looked at a creyex, shook his head, and thought the reatment would-require much time, as here were feasons to fear amaurosis, in feer case. He must advise her, first of all, hat, as she had informed him she was rediding a considerable distance in the courty of this man had the courty of this man had been and that, and thus days in the weaks and weeks into months. The lady then rented an elegant man fon, moved, into the city, and the physisan was panetual in his attendance. He rescribed this and that, and thus days in into weeks and weeks into months, and had weeks into months, and had weeks and weeks into months, and had weeks and weeks into months, and had an her head, took an old umbrella and a arket basket in her hand, and in these had inneats visited her physician, selecting in the purpose a very rainy day. She had an her head, took an old umbrella and a arket basket in her hand, and in these had inneats visited her physician, selecting in the purpose a very rainy day. She had a well succeeded in distorting and disjurisg hierself that the eye even of a lover build searcely have recognized her. She as obliged to wait a long time in the ske harden will be purpose a very rainy day. She had well succeeded in the physician, with many her, who, like her, were seeking relief that the runn came. "Yety bad eyes, doctor," she answered. For the purpose a very rainy day, the had well and the purpose a very rainy day. She had well and the purpose a very rainy day, the had well and the purpose a very rainy day. She had well and the purpose a very rainy day, the had well and the purpose of the purp	Then I drew close up to the table, and I saw a fitte black speck on the toast. Says I, "You'd make a goo I linen buyer." Says he, "You'd make a goo I linen buyer." Says he, "It's a snipe on toast, any low." Says I, "It's a snipe on toast, any low." Says I, "I's a snipe on toast, any low." Says I, "I's a snipe on toast, any low." Says I, "I'm glad of it. I'm glad you old meethat's a fail-sized snipe for distance of the feer reading. I saw a black speck on that oast, but I took it for a fly, and I'm glad of obe informed it's a snipe—a full-sized inge. Now you can take that snipe away not bring me a turkey on toast. I want a uil-sized turkey, too." I ain't hankering after snipe since that ship-sized. Feould have blown that snipe he snipe or the putty-blower either. In the low of the Prairie. A Dr. Hauchendoff gives this intensely afteresting account of the extraordinary will of the Indian trailers: The Logic of the Prairie. A Dr. Hauchendoff gives this intensely afteresting account of the extraordinary will of the Indian trailers: The Indian trapper that is a shrew! after is a man of close observation, quick properties, and sometimes gives to ensure unle mystery that may present. All the shall be seen on an other step taken until a mystery that may present. See in tracks, and sometimes gives to enacter unremitting attention for dars and weeks. The trailer is not a graceful an trailer will stand still for hours in eccession to account for certain traces or energy and the carries his head much inclined, his e is quick and resties, always on the consult, hardly ever crossing the track of an or animal without seeing it. When increase he is a subject to the form of the contract of the service of his art with m. I know a trailer as soon as he curson work, he has taken note of every sony of the carries his head much inclined, his e is quick and resties, always on the color, and with a say to the carries his head in the toad and an order and the toad and an order and the toad and trailer came to the General sa	we had our last rain, and at the homested the ground was softer than at an other time. The track before as was the made. He brinch up here and there chis cers of grapes that lay in the pade of the fack, and showed me the dry called fack, and showed me there a sinker many circumstances that astonished me. We followed the trail over a spile. Now and then we saw that a wolf, a fox, as other animals had practiced their trailing methods on the cik's tracks. Here are here is one of the labels of the cik's tracks. Here are here is one of the labels of the track that the quick eye of the labels did not detect. He gave an account of he habits of all the animals that he left heir footprints on the track, also of the tate of the weath? since the eik passed, and storms, and other influences that had bearing on these tracks. The old man, ke all trailers, was reticent, but on this ceasion, seeing that I was interested, became speedily communicative. A Wonderful Cave. Two or three years ago a Mr. Frest ought 100 acres of land on the Kittatings to the sountain, discovered near the base wait ten or twelve feet high laid up rainst a perpendicular precipice of aparently solid rock. He took down a retion of the wait, and came to an opening was uncovered a strong current aftrescaped. It was so cold that a passed his body. The instant the pening was uncovered a strong current aftrescaped. It was so cold that a passed his body. The instant the pening was uncovered a strong current aftrescaped. It was so cold that a large change the could not explore the cast that he could not explore the cast than the rock large change the could not explore the cast than the mouth that the provided provided the mouth that the rock is singular cavern.
