

NEWS SUMMARY.

Washington.
The Congressional Printer has made a copy of the Report of the Committee on Discrepancy in the printing of the records of the numerous investigations of last session.

The amount of silver disbursements from the Treasury for the fiscal year ending June 30, \$11,305,512 was for the redemption of fractional currency, and \$10,596,000 were paid in notes and checks.

The amount of silver sent to the Treasury in New York is \$7,398,607; Boston, \$3,835,000; Philadelphia, \$3,164,430; St. Louis, \$1,473,600; Cincinnati, \$1,260,251; Chicago, \$1,000,000.

The South.

Jim Jackson, in jail at Decatur, Georgia, charged with murder and robbery, committed suicide by hanging himself with a noose which he had made with the hands of a mob, who surrounded the jail for the purpose of lynching him. The Sheriff was defending the jail with a posse of men.

At Phenixville, Ark., recently, Thomas Harvey and Dr. Jones became involved in a quarrel, Jones was dead, and Harvey badly wounded.

Fire Report.

The Convent of Sisters of Providence, at Elizabethtown, Ky., was burned down on the night of December 25. Forty-three persons were in the convent at the time, and thirteen perished in the flames. Nothing was saved from the building, which was of wood.

Violent Death.

Vader Bohm, aged sixty-six, and Conrad Smith, aged forty-five, while crossing the Railroad track, at Cheektown, New York, were killed by an engine of the westward-bound train.

William Messinger was hanged at Stateville, North Carolina, Saturday, December 23, on the 11th of May last, for the killing of his wife.

Messinger was just twenty-four years of age at the time of his death.

Louis L. May, a boy, was killed a few days ago by the explosion of the boiler of his engine, at Park, Indiana.

A terrible accident occurred lately at Paris, France. A freight train, Terre Haute, in the Illinois Midland Railroad, No. 23, arrived there about noon, and was side-tracked, but had not remained long on the track when the engine exploded.

James W. Whitehead, engineer; Charles Johnson, fireman, and the head brakeman, named Allen, Whitehead was killed—but two were saved. The cause of the explosion is not known, but it is surmised that the safety valve was weighed down, as the engineer pridefully sat down on his coxswain's objectives.

The engine was an old one. At Louisville, recently, the Lieutenant of the cavalry patrol called at the United States Cavalry Barracks, to report the rest of Joseph Ford, a negro patient, Dr. Griffiths, surgeon in charge, told the officer that he had no right to arrest Ford by civil process, as he was under the protection of the military, not a part of the Commonwealth of Kentucky, but a district exclusively within the jurisdiction of the United States Court.

In the order of the day, General Adjutant was informed that he did not have the right to arrest the man, to rest the case, to the order of the Court.

The Florida Recount.

Tallahassee, Dec. 27.—An attorney-general's office was opened here this morning, after the other members of the board refused to carry on. This office is not part of the Commonwealth of Kentucky, but a district exclusively within the jurisdiction of the United States Court.

The attorney general, however, was informed that he did not have the right to arrest the man, to rest the case, to the order of the Court.

A heavy shipment just has been made of munitions of war for the Turkish Government, from New Haven, Conn. The value of the cargo is nearly \$1,500,000.

At the meeting of the Board of Trade, No. 5, broad West, went through an iron bridge, down seventy-five feet to the river, which was held up by a chain, before the door, and a row of white pegs driven into the ground in front of it. If any one tried to pass through the bridge, he would be cut with a sharp sword and sold into slavery.

The twins can not play with other children, and no one can use anything out of their reach, or they will be beaten.

What little travelers come in pairs, make confusion in the world. Among our Pinto Indians, as I lately read in a newspaper, they are not allowed to go to work in the field, bring wood, and other necessary things, so that they can not speak to any one of their own race.

Another case, though the twin baby is still put out of the way, but in one African tribe a curious custom prevails.

It has been a custom for a long time to kill the child, and a pair of sandals are given to each child, and their condition what is popularly known as "twinning."

The Court sentences to morrow.

Tallahassee, Dec. 28.—The return of the court to the trial of the Supreme Court, was filed at about two o'clock, yesterday afternoon, by the state's attorney, and the trial was adjourned.

The trial of the negro, John H. Jackson, for the killing of his wife, will be held in a day or two, to set on the return of the court.

FRIENDS.—After 10 days march,
Jay and I are again sitting around the camp-fire; not Uncle Sam's, but Justin Jr.'s, and it's a smoky old "camp day." The wind blows four ways for Sunday. Just like Michigan, Texas has taken a fearful cold. Snow two inches; ice four; on the Leon river—the coldest that has been known in Texas since the war. It won't last long; a few more days and winter is over.

I have found a friend from Georgia; he says he fought me like the mischief at Knoxville. And another one I shook hands with at Petersburg, Va., says the Yankees made good trades—whisky and coffee for tobacco, "but you shot mighty high." At the same time he might have agreed, if there is any more shooting, to shoot higher still.

Friend Mat, if there are any of those red-lin boys in Sharon or Manchester, who want to fight, I may seek them together as we Texas oxen, put them in a cow pen, and let the boss win. There is no excitement in Texas on politics. I have traveled 250 miles, at my own expense, provide a suitable place for building a new court house with other besides his backer, Mr. August Miller, the inventor "walked up to his work confidently and with genuine dignity," and discussed thus:

"This," said he, pointing to a small iron wheel, "whose spokes clamped the side of the fly-wheel," is the agent. Is, I may say, death. Placing his thumb upon the handle of the fork, he lifted it up to prayer of petitioners, and on motion the report was accepted and adopted.

The bill of Mr. S. G. Merriman being reported back favorably, it was moved that the bill be accepted and referred to the Marshal for action.

Carried.

Bills of Mat D. Blesser, printing 3d

quarter, \$10.00, and of Jas. Anthony, for corporation work, \$50.37, were referred to Committee on Claims and Accounts.

Moved and supported that the Com-

pany purchase of Patrick Seally, 1,652

shares, \$25.77, for corporation use,

and that an order be drawn for amount.

Lansing Republican: The balance of cash in the State Treasury, Dec. 30, 1876, was \$785,820.58; receipts during the week ending Jan. 6 were \$10,571.55; payments during the same time were \$19,060.62; balance in treasury Jan. 6, 1877, \$780,331.53; decrease for the week, \$4,489.05.

Jackson is agitated over the next State Fair. She thought she was ticked "good for two years," but it seems that the next fair will be held in any good lively town—Manchester for instance—that can make "suitable inducements." The last fair was a "big bonanza" to Jackson, adding much to her trade, her local paper claims.
