STIPHTR FOR SHEEP -Mix a little sulphur with salt and feed occasionally to sheep. It will effectually "stroy sheep ticks. The same reme a - , lied to cattle troubled with lice wif are a rid them of vermin. The use of sulphur with salt well repays the trouble of keeping a supply for cattle and sheep. seven of salt be freely applied, there pint flour, four eggs and a little salt. will be no trouble with vermin.

Turning -A practical farmer says milk cooled, two quarts of sifted flour, that three gills of turnip seed to the three table-spoonfuls of shortening, one acre is sufficient if sown broadcast. To cupful of yeast and a little salt. lo this, however, and to raise a good erop, your land must be rich and free pint rye meal, two table-spoonfuls from weeds. With poor land and only veast, milk enough to make a thick a small quantity of manure, the best batter. plan is to make furrows three feet apart. CHICAGO GRAHAM MUFFINA - One seed on these ridges. You can then give them the necessary enitivation, and powder: wet with water to make it soft also harvest in less time than if sown as gingerbread.

be made highly productive by green manuring alone, and advises buckwheat to Eoc Sour.—The yelks of two eggs, (country Visitor. green state will make a light soil dark frothy. and loamy. Success is secured by shallow plowing. By covering only three or four inches speedy fermentation and rapid decomposition take place.

SAVING MANUAR, -A young man, 18 years of age, who has been his father's nain help in cultivating an eighty-acre farm, said : "Our principal business this summer has been the saving of manure, one item of which has been to supply bedding for eight calves that were kept under a shed during the entire summer. Early in the season sawdust with beel fat has been sub-past fortnight. There may be a constant drain that is taking from your system mitted by Hager. He saturates a cotton past fortnight. There may be a constant drain that is taking from your system all its elasticity; driving the bloom from your vital its elasticity; driving the bloom from your vital sub-past continual strain upon your vital forces, rendering you irritable and fretful, can first melted. He then lights the wick, and permits it to burn for about two min. a depreciation in railroad stocks. At remedy, Hop Bitters. Irregularities and obtained and permits it to burn for about two min. this shed. Since manure is the one art- if the butter is artificial.

DRAIN NOTICE.

EDWIRD P. ALLEX, Attorney for Mortgage

NOTICE to let Contract for cleaning one and desposing the south branch of Ditch No. 2, and water Township.

Bridgewater Township.

Public notice is hereby given, that whereas, heretofor, to wit: On the twenty-fifth day of a pril, A.

P. 1881, application in writing was made to me, the
isodersigned County Drain Commissioner. In and
for the County of Washtenaw, to clean our seddeepen the county ditch that runs across the north
part of the east half of the north-sast quarter of
section twenty-one, and across sections twentytwo, twenty-three, and twenty-four-in the Township
of Bridgewater, in said County of Washtenaw, and
ditch being known as the south-branch of county
ditch number two; and having personally examined
seld ditch, and lawing declared it to be my opinion
that it is proper and necessary, and for the good of
the public, that said application should be granted;
and having caused a survey of said ditch be made.

the public, that said application should be granted; and having caused a survey of said ditch to be made. I will be at the residence of M. S. Every, in said township for Bridgewater, on Monday, the fifth day of Septimber. A. D. 1887 at one brokes in the atternoon, at which time and place I will let the cleaning and depending of said ditch to the lewest responsible bidder; said ditch to be deep according to the survey, a map of which I will exhibit on said day.

said day.

Notice is also hereby given that on Thursday,
September first, A. D. 1881, at one object P. M. I.
will be at the residence of the said M. S. Berr, at
which time and place I will cabout surveys of the
proposed which and description of the several pargis of land by me deemed to be benefited thereby,

eeis of land by the deemed to be benefited thereby, and the amount and description by divisions and subdivisions, of the proposed ditch by me apportioned to the sweet of each description of land to construct, and to the tempohip to construct on account of benefit to highways, and hear reasons, if any are offered, why such apportionment should be revised and copreted.

vised and corrected.
