The question considered was the reduction of the tariff on wocis. It was abown that at the prices paid in foreign parts for wools, which would come into competition with—the products of the United States were the tariff taken off, wool could not be profitably grown east of the Mississippi river, which of course would cripple one of the greatest industries of this country. It was also shown that the price of ment should be censid and that the production of wool and muttoo ought to be fostered, rather than crippled. Accordingly the following resolution was unanimously adopted: "Resolved and wind and was unanimously adopted: "Resolved, That any material change of the solved. The during upon the was unanimously adopted: "Resolved, That any material change of the solved. The tariff upon wool would be detrimental and trimmed with fur, thrown of the muscles of the price of the material change of the solved. The tariff upon wool would be detrimental and trimmed with fur, thrown on the many material change of the solved. The tariff upon wool would be detrimental and trimmed with fur, thrown on the many and it was still cool, and the most crifted stage of the production of wool and must on one of the solved in the price of ciothing, and that the production of wool and must on one of the price of ciothing and that the production of wool and must on one of the price of ciothing.

The court of the first produces and one of the bridge many and it was stall cool, and the production of the bridge many and it was stall cool, and the most crifted stage of the muscles occurs about two weeks the product on the prince of the muscles and the most crifted stage for the subject. If the most crifted stage of the most crifted stage for the subject. If the most crifted stage of the most crifted stage for the subject. If the most crifted stage of the most crifted stage for the most crifted stage of the most crifted stage for the subject. If the most crifted stage of the most crifted stage for the most crifted stage for the most crifted st

to the best interests of the country.

The next day, Aug. 31st, the wool growers' association met with the woolen manufacturers association, in joint session. Wm. G. Markham, John P. Ray, E. Towasend and S. B. Lusk represents the wool growers of New York: E. thread: The coffee was brought by three days and are piled with cushions covered with beautiful embroidery in silk and gold the wool growers of New York: E. Servants, one bearing the silver tray with the brood is not sufficiently numerous to cause death to the patient, a cyst forms around each worm, inflammation goes down and they cease to trouble their host, who may from time to time take other broods until he becomes infested with millions of trichina and yet live in good health.
