An exchange says that a Hudson man has already spent about \$100 in a suit about a \$14 plow, and does not yet think he has had his money's worth.

.Col. John L. Burleigh, formerly of the Ann Arbor Democrat, will play the leading part in "Lights O' London" which is billed to show in Detroit all next week.

Some generous person left two hens eggs with the editor of the Chelses Herald, and now he says he would like to have them matched. How in the world he's going to set on four eggs is more than we can imagine.

The board of supervisors last week adopted a resolution submitting the question of raising \$20,000 to build a new jail, provided the city of Ann Arbor will give \$5,000 to purchase a site. The county agrees to furnish a lockup for the city in that case.

An exchange states that Hillsdale college is undergoing its annual affliction of trouble between faculty and students. This time it is said that eight or ten students have prepared themselves for expulsion by getting drunk at one of their secret meetings.

There has been a great deal of newsauthorship of "Bread Winners," a serial now running in the Century, but an exchange claims to have found out to a are now living at Charlevoix. certainty that it was written by the "Sweet singer of Michigan," it being her first attempt at prose.

MINISTERIAL ASSOCIATION.

A Report of the Proceedings Written by a Special Correspondent of the

SALINE, Oct. 31st, 1882, The sessions of the Adrian Ministerial FOR PROFIT Episcopal Church, Saline, on Tuesday, at 2 p. m. Owing to the defective railroad arrangements on the Hillsdale road, but few of the brethren had arrived at the commencement of the exercises. The associa tion was opened with a devotional service rom school at Raisin valley seminary on in which the most of the brethren presen participated, after which, letters of regre were read from several of the brothren

Rev. A. W. Wilson was elected secretary. The pastor at Saline, Rev. J. C. Wortley extended to the institute, a very cordia welcome in a most chaste and delightful address, which was replied to by the pre siding elder, Rev. W. Campbell, in an equally appropriate manner. Only one o the leaders appointed to introduce themes for the afternoon, being present, an informa discussion on the various subjects was held and the association adjourned to 7:30 p. m At 7:30 p. m., the evening services com menced with a devotional service led by

liscourse from 1 Cor. 5th chap. 1st verse, by the Rev. G. W. Hudson, of Tecumseh. Wednesday morning, devotional services vere conducted by the Rev. W. Pierce, of Sharon, who in the absence of Rev. E. A Bray, introduced the discussion of the theme, Non attendance at church in our rural districts" which was followed by a discus-

sion in which the Rev. R. B. Pope made

Rev. Duke Whitely, followed by a beautiful

ome very telling remarks. "How far may the Sunday-school be substitute for the class-meeting" was well presented by Rev. O. F. Winton, of Milan who failed to discover any sense in which the one could be substituted for the other with success to either. The sense of the majority, however, seemed to favor the idea that the Sunday-school does now, and will to a greater extent in the future, take the place of the class-meeting in our rural

districts. In the absence of Rev. A. Crane, Addison, who however sent the paper which he had prepared on "The Preacher's study, the paper was read by Rev. R. B. Pope and a discussion of interest to the ministers wa led by Rev. J. M. Shank, of Dixborough. It was voted that the next session of the

institute be held at Ann Arbor. -The place of meeting for the next District Sunday-school Convention, was by vote changed from Chelsea to Tecumseh. Convention adjourned till 1 p. m.

At 2 p. m.—After devotional exercises, the Rev. A. W. Wilson, of Napoleon, read a paper on the "Disciplinary provisions for our children" which elicited the remark that even the preachers were not familiar with all the provisions made by the church for children

At this stage of the institute Rev. R. P. Pope having to leave, requested permission to present the needs of the men on our front er work, and in a few pithy sentences he called for the earnest co-operation of the ninisters to assist in raising the \$800 required from the district. This led to a most spirited discussion in which the Pre siding Elder and the Rev. J. N. Elwood of Ypsilanti took part.

A preamble and resolutions touching the false sentiment which prevails concern ing crime and the death penalty, was introduced by Rev. G. W. Hudson of Teeum seh. It was moved to strike out the 2nd resolution urging the minister to advocate the placing of a law upon the statute book sentencing to death by hanging those who commit willful murder. In the midst of the discussion which ensued it was moved to lay the preamble and resolutions on the

"The religious factor in national life," by Rev. C. M. Coburn of Monroe, was one of the finest papers read before the institute, and was well worthy of the approval is received. The discussion which followed was introduced by Rev. J. N. Elwood who deplored that any word should be spoken

looking towards a national church in this epublic. Rev. J. C. Wortley briefly refered to the fact that the religious factor has its influence upon heathen nations, that Budahism and Mohamedism each exert their influence upon the national life of various

The Rev. T. Stalker opened the discussion of the question on the "Character and cure of skepticism in our communities." This led to the most spirited discussion of the session took parts.

At the closing session in the evening the Rev. D. R. Shier of Hudson, gave a stirring address on the "Present aspect of the temperance question in Michigan," and the institute closed with a few well chosen remarks by the Presiding Elder and a vote of thanks to the citizens of Saline.

Only one half of the preachers were present during the progress of the association and the attendance of visitors from the village was small.

The Presiding Elder deepened the respect in the minds of the ministers of the district which they had previously entertained for him by his courteous and gentlemanly bearing in the chair. A general good feeling prevailed which was not marred by any discourtsey, and all felt that it was good to be REV. W. PEIRCE.

THURSDAY, NOVEMBER, 1, 1883.

LOCAL NEWS BREVITIES.

This is thanksgiving month.

The weather is growing colder.

The winds are scattering the leaves.

Telephone business has boomed this week.

Good judges say we have a good reservoir.

There is talk of an excursion to Detroit next week.

Last evening was Hallowe'en, did-you see the ghosts skipping around?

The musical (?) voice of the chimney sweep is heard from the housetops

Mr. Raby, our new Washington stree neighbor, has made some improvements

about his place. Did you see that beautiful rainbow or Monday afternoon? It was one of the

brightest we ever saw. Our facilities for printing auction bills

were never as good as at present and we hope those in need will give us a call.

Several Clinton boys came up here on Saturday night to enjoy the roller skating at Goodyear Hall, but the hall was not

from the rascals soon. Wm. F. Jones, of Norvell township sent a big fat ear of corn into our sanctum Monday. It is the first specimen of

large corn we have yet received. Mack Robison has put up a lamp in front of his place. This is a want long telt, as on dark nights it is quite a "skeery" place next to the livery barn.

Mark Case continues to make improvements about his place. The last move rear of his house, If he keeps on he will have a very comfortable and fidy

A number of our citizens are raking up the leaves which are scattered in front their yards along the roadside. It certainly gives a street a much more tidy appearance, and we hope will be gener ally practiced.

We are pleased to learn that the Art Loan exposition at Detroit will be kept This will give many more people a chance of taking in the art show, which well deserves patronage.

We call attention to a new advertisement of a farm for sale by John W. Knight of Grass Lake. Persons who are on the lookout for a good-bargain may find it greatly to their interest to consult Mr. Knight on the subject.

Those having legal printing, will oblige us by informing the probate Register or in the ENTERPRISE. Unless so mentioned the notices are invariably sent to the Ann Arbor papers. Don't forget this.

expect to begin pumping water into it. is gotten up.

St. Nicholas for November is the first number of a new volume, and is full of promises of good things for the coming year, and if all succeeding numbers are as good as this one the St. Nicholas will be a greater favorite than ever before it closes its present volume.

It is an unusual sight to see ripe rasperries on the bushes in this latitude on the 29th of October, vet S. W. Dorr brought us a few branches on which were not only ripe berries, but there were also green ones, and blossoms too. The flavor of the berries was very nice.

We are glad to know that the Alumni ssociation have decided to have a course of lectures this winter, and are now geting matters in shape for entertainments in the near future. They will soon be prepared to announce their course, and we hope every one will give them hearty support.

Our Little Ones and The Nursery for November is a most welcome guest to the little folks, and will prove just the cheeriest kind of a visitor to help while away the gloomy days of fall. This magazine should be in every household where there are children, and now is the time to subscribe.

The Southern Washtenaw Farmers Club meeting at J. G. English's, on Friday forenoon, gives promise of being a very interesting one. There is expected to be an exhibit of corn, oats, potatoes, etc. and the literary exercises are also expected to be more than usually interesting.

The Wheelman for November is at hand filled with fine literary contents and good illustrations. We can recommend this pleasing monthly to all who are not only fond of sparkling sketches of bicycle tours in this and other countries, but of scientific articles and pleasing stories.

The social dance at Goodyear Hall last Thursday evening was not largely attended owing to the inclement weather but those who were there claim to have enjoyed the occasion in the highest degree. Of course the music by Smith and wife of Hillsdale was first class and the supper at the Goodyear house was equally good. May the boys have better

uccess next time. We most earnestly wish our correspond nts would send in their items to the ENTERPRISE early in the week. Lately early all these letters have not reached us until Thursday, by which time, of course, very little space was left to fill, and so the correspondence had to be cut down to suit the space we had to spare. For our convenience, please remember and send in your items early, and then if any thing of note happens in your vicinity just write it up and send a second

letter. We are in receipt of The Semi-Trop cal, published at Eustis, Orange county Florida, dated Saturday, Oct. 20th, from which we clip the following: "Dr. Hause of Tecumseh, Michigan, who arrived here on Wednesday of last week, has purchased a ten-acre lot, let contract for clearing, put bill in for lumber for a house, and secured orange trees for a grove which is to be set out this fall This shows the faith that is in him. We want just such men and cannot get too many of them. The Doctor gave Sor rento the preference after traveling about considerably," We hope the doctor ha struck a rich lead this time.

This is a good time for farmers to ge sawdust and materials ready for building an ice house if they intend to have one next winter. The location should be chosen so that the foundation can be laid two years, have moved to Jackson. and the drains dug before the ground freezes. In keeping ice much depends upon the drainage; this is not generally understood and that is the cause of so much waste of ice commonly attributed to improper protection on the sides. An ice house should be up from the ground or good drains should be provided to last week shaking hands with old carry off the leakage. Protect the house from the winds and give the ice plenty of ventilation at the top and you will have no trouble in keeping reasonably well

packed ice. A few days ago our friend Dr. Kapp, while riding in the country, alighted from his carriage to shake a squirrel from Joe. McMahon, paying between \$8,000 a sapling. He had given it one or two and \$9,000, turning in his property in vigorous shakes when he saw his dog the north part of the village as part spring into the road and glancing over his shoulder, he saw his horse cantering over the hill and the dog doing his level best to stop him. We shall never be able to tell exactly how the doctor felt—there was none there to diagnose his case. He walked quite fast until he reached the top of the hill, from which he caught a glimpse of the horse and chaise going over another hill a half mile off. Some farmer captured the runaway steed and open until Saturday evening, Nov. 10th. detained it until the doctor appeared. Hereafter he will let the dog catch his
