GERMAN BOOKS

Select German Stories:

(By George Storme, Lyceum I, Hanover.) For Schools and Self Instruction. Fifth American Edition Improved. Neat and substantial binding. Board Covers, 60c. This book is becoming more popular every year, and is being introduced in public and private Schools and Colleges throughout the United States. During the past year it has been adopted by many of the Union Schools in Michigan, Ohio, Indiana, Illinois, Wisconsin, Iowa, Missouri, &c., and teachers say it meets a long-felt want, in many instances taking the place of e German Grammar for new beginners. Prof. Heinrich Nielson, Battle Greek College, says: "Storme's Stories are received, and are now

e in my class. It succeeds, so far, better than any similar book I have used. "This method of fearning the German language has been for some time the popular one in Ger nany. Instructors have come to learn that it is essential to study something else than mere gram-natical rules and vocabularies, in order to learn a foreign language. This method speaks for itself, and all who are interested in the German, which is tast becoming a "universal language," will do to would for a copy of this work." - Northern Indiana School Lournal, Jaco 401. From Prof. A. Lodeman, of the State Normal School, at Ypenauti: 1 have found Storme's elect German Stories" one of the best reading books for beginners. Blumenlese: A Companion to the Autograph Album. Containing a Very Choice Selection of Verses and Sentences, Long and Short, and appropriate to all Situations and all Stations of Line.

The "Companion" contains the above fine selection in both the German and English languages. It is printed entirely in English type, which makes it much more intelligible to the younger German population of this country and to the American student of the German language. It is also adapted to the customs of this country, and cannot fail to give satisfaction to all classes alike. The People of Manchester and Vicinity American as well as German students of the German languages. follected and arranged by Hoeflich. The title of the above work-indicates suffi ciently its purpose and contents. There is no lack of similar books, but they are all printed in Germany and calculated for German customs and relations; there fore their contents are unintelligible and worthless for the use of the American youth. As the English types are more easily read by the American youth than the German types, and as a great many Americans understand only the English

types, we have printed the above in roman letters. About 200 pages, size, 5x72; neat paper cover. Price, 75 cents.
