THE STORY TELLER.

THE QUAKER BLACKSMITH. A well-to-do Quaker, a broad-shouldered fellow, with many locks of white hair.

While others are sleeping, his forge-sparks are flying. He talks to himself while his iron grows red.

Two sons and a daughter, John, James and Sophia. Fifty years, more or less, have been women.

And yet they must, and while father has money, he is like a bird on the wing.

At home in the sick room, the parlor or the mother's best helper in all kinds of work.

ONLY A MAID-OF-ALL-WORK. "Even the clock seems to tick faster as if hurrying to make up for lost time."

THE SUMMER AIR. The summer air blew in through the open door, tossed half a dozen withered leaves from the vine through the window.

THE MAID-OF-ALL-WORK. When the messenger boy came with the telegram she was making curious remarks on a piece of paper.

THE MAID-OF-ALL-WORK. "I wonder what he is like now," she thought. "Like people who scribbled an unexpressed letter."

Don't come," she wrote, "till I send for you. I'll be sure to write in good time."

Through the long night he knelt beside her. When the attendant looked in upon this picture—the brother kneeling beside the sister he had traveled thousands of miles joyously to meet.

There, fair in the path of the rushing locomotive, standing motionless as though paralyzed with fright, stood her baby boy, Benny.

As she drew a long line upon the paper, her thoughts ran to the cravat, gloves, hat and boots must wait Jamie's coming.

At home in the sick room, the parlor or the mother's best helper in all kinds of work. Can brood a fashion of mosses and lichen.

THE MAID-OF-ALL-WORK. "I know a young farmer who does day-time work."

THE MAID-OF-ALL-WORK. "I know a young farmer who does day-time work. Pretending that one of his horses needs shoeing."

Sunday School Institute.

To be held at the Baptist church, commencing Sunday morning, Oct. 26th.

PROGRAMME.

- 1. The Home a help to the Sunday school, address by Angelo R. Palmer, of Brooklyn.
2. How to secure the sympathy and aid of all of our church members, address by Rev. D. B. Munger.
3. What do our Sunday schools need, essay by Miss Carrie Dickerson.
4. The best method of presenting the lesson, essay by Dea. J. Merithew and Mrs. P. Van Winkle.
5. Is the true teacher appreciated, and the Alumni Association are out of pocket again. The entertainment was very good for its class, but it was not one calculated to attract the Manchester people. They want something lively.
6. Peterson's Magazine for November is at hand. Our lady readers should remember that Peterson's is ahead of all others, and if they want a good magazine, and what lady does not, they will do well to call at the ENTERPRISE office and subscribe for 1885, as we furnish it at club rates.

If the Alumni Association would get up a home entertainment we have no doubt that that would meet with success. Lectures and concert troupes are too expensive for this village and they should try something that will put the money in their treasury instead of in the pockets of foreigners.

We would like to call the attention of our young gentlemen readers to the "Outing," a magazine devoted to genteel sports of all kinds. It is about the size of Harper's Magazine and is as well printed and richly illustrated. We are sure that they will find it more instructive, interesting and profitable reading than many other papers, and at a less price.

We learn that J. H. Combs intends to leave here after election for East Saginaw, where he has associated himself with J. D. Wilson, of that place, in the real estate business. Mr. Wilson has been in business there for several years and has made money, and the ENTERPRISE joins Mr. Combs' many friends here in wishing the firm of Combs & Wilson abundant success.

Eight Tecumseh firms have entered into a mutual agreement to close their stores promptly at 7:30 p. m., until the first of next April. Saturday evenings and holidays are excepted. Each firm pays 25 cents a week to meet the expense of ringing a bell every evening as a signal to close.—Times Why can't our merchants do likewise. We know that some of them are anxious to.

Mrs. Leroy George, of Tuscola county, arrived in town a few days ago, for a visit with old friends and neighbors. She brought some monstrous big corn and apples, and has sent for her husband to bring out enough corn to compete for the stove prize at Kingsley's. She left a sample of the apples at this office and they have been admired by all who saw them. Mr. George is expected here in a few days.

A very fair assembly assembled at the Goodyear hall rink last evening to witness the fancy skating by Mr. L. J. Wood, the champion long distance skater, and Miss Lizzie Bliss, the champion skater of Michigan, both of Jackson. The band played several of their best pieces, while the graceful skaters performed different feats to the delight of all. They gave a great variety of movements and were heartily applauded throughout.

The practical printer welcomes the arrival of the Typographic Advertiser, because he is certain that it will contain something to give him new ideas and gladden his heart. Mackellar, Smiths & Jordan, its publishers, at Philadelphia, are the oldest type foundry in the U. S., and are without doubt the leaders in this line. The full time number of the Advertiser contains many tempting morsels in the way of new styles of type, flourishes, etc., for the tasty and enterprising printer.

The temperance meeting held at the Methodist church on Sunday evening and conducted by the ladies of the W. C. T. U. was largely attended and was both instructive and entertaining. The president, Mrs. Rowe, presided. Several young lads spoke appropriate pieces, Mrs. M. D. Case and Miss Grace Spaulding read selections. Rev. Wallace talked a little and the choir sang several very beautiful pieces, making this the first genuine temperance meeting conducted by the ladies a success. They will have more of them.

It seems that our citizens are to have the opportunity of listening to senator Tom Palmer, of Detroit, after all, as bills are out announcing that he and Capt. Allen will speak at a republican meeting at Goodyear Hall on Monday evening next. They are both good speakers and either would draw a big crowd alone, but it seems that the committee of arrangements was not satisfied with such a treat but have also engaged the Ypsilanti club to come over and sing. This will make it interesting surely and the house ought to be filled with ladies and gentlemen.

In view of the dull times and the scarcity of money, we have to thank our patrons, and especially our subscribers for their promptness in remitting their subscriptions, and for their efforts in securing new subscribers for the ENTERPRISE. In looking over new names we find that we have added more new names to our list the past six weeks than during the same time in years. This speaks well for the popularity of the paper and consider it a great compliment to us. We promise in return to use every laudable effort to merit their support.

Council Proceedings.

October, 21, 1884.

Common Council met in regular session, called to order by the President. Roll called, all members answered to their names except Trustees Kapp and Nislee.

Minutes of the last two meetings were read and approved.

The following bills were presented and upon motion referred to the Committee on Claims and Accounts: John Moran \$16.00; E. Schweikle \$114.36; M. D. Blosser \$27.25; S. FitzGerald \$4.00; S. Hammond \$15.00.

Trustee Nislee came in at this time. Reports of special committees: The special committee appointed to investigate relative to the supply of water in case of fire, reported that the water supply in the western part of the village might be increased by making use of the old well on the Clarkson lot near the planing mill, whereupon Trustee Nislee moved that the Clerk be instructed to correspond with Clarkson relative thereto, which motion prevailed.

The Street Commissioner presented his report, which was upon motion referred to Committee on Claims and Accounts. Marshal Kelly reported that special assessment roll No. 4, was nearly all collected and that the balance would be in a few days. Also that the stove in the engine house was insufficient for heating purposes and practically of no use, whereupon Trustee Nislee moved that the matter be referred to a special committee with power to purchase a stove if necessary, which motion prevailed; the President appointed as such committee Trustees Nislee, Dealy and Case.

Committee on Claims and Accounts reported favorably on the following bills, which report was upon motion accepted, the bills were allowed and ordered paid as follows: M. D. Blosser \$7.75; S. Hammond \$15.00; E. Schweikle \$114.36; John Moran \$15.00; Stewart FitzGerald \$4.00; M. D. Blosser \$27.25. Also the several accounts in the Street Commissioner's report, amount \$30.88.

Trustee Case moved that the subject matter relative to building sidewalk across the public square be referred to the Street Committee with power to act, which motion prevailed.

Trustee Dealy moved the adoption of the following resolution: Resolved, That this Council cause written notice to be posted in at least three public places within this village, inviting sealed proposals for doing the work in the construction of the drain or sewer ordered to be constructed in and along Washington street, and to be filed with the Village Clerk on or before Tuesday afternoon next at four o'clock on said day, reserving to this Council the right to reject all bids, which resolution was upon motion accepted and adopted.

A motion to adjourn to Tuesday evening next prevailed. Ed. E. Root, Clerk.

The first number of the new volume of St. Nicholas contains a list of the good things promised for the coming year. J. T. Trowbridge contributes the opening chapters of "His One Fault." "Among the Law-makers," the author, Edmund Alton, relates his often amusing experiences while a page in the U. S. senate. Other attractions of this number are a capital girl story by Louise M. Alcott, and a clever satirical sketch by Marshall White, called "The Cruise of the Pirate-Ship Moonraker." "The Princess Holiday" is a delightful illustrated poem. An instructive paper by Charles Leland on "Metallic Band-work and Nails in Decoration," close a number of which the foregoing are but the leading features. St. Nicholas is furnished with the ENTERPRISE at club rates.

The democrats of this village had a very enjoyable time last Saturday afternoon. A beautiful hickory pole which stands 100 feet out of the ground and floats a Cleveland & Hendrick's streamer, was raised after which three lusty cheers were given, the band played, and then Col. Eldridge was introduced who gave a very practical speech which was heartily applauded. The ever popular Chas. R. Whitman was then introduced, who addressed the audience in his happiest and most convincing style. He is one of the finest orators on the stump and his words seem to carry conviction. Everything passed off smoothly and the large crowd assembled behaved remarkably well, but that is to be expected in this community of intelligent and refined people. There were a number of prominent candidates present.

Big arrival of new military goods at Mary Foster & Co's.

David Woodward, of Clinton, has the agency of the Niagara white grape vine, and a number of vines can be procured of Stewart FitzGerald. Give your orders at once as the stock for 1885 will be limited.

The ladies of Manchester, will find it to their advantage to call on Miss Libbie Edwards, the fashionable milliner and see the latest styles of goods before purchasing. Her styles and prices are always satisfactory.

The editor of the Ohio Farmer says: "We take pleasure in adding that from our personal knowledge we can state that the Dayton Hedge Co. are abundantly reliable and responsible for all contracts that they make, and furthermore, that we have seen a very large amount of substantial, beautiful, perfect hedge fence grown by them, and also have seen a great many testimonials from influential farmers expressing entire satisfaction with their manner of doing business."
