To me, the Western sky doth always seem
The enchanted country of a dream:
Such glamor strange doth paint its clouds A land beyond some radiant sea;

A mist-wreathed shore half veiled from But shining with a softened light; Like lovely hills through golden haze, On drowsy, Indian summer days.

In purple coolness lie those distant hills.
And as I gaze my heart with rapture thrills;
Vague hopes that place immortal rest
Ameng those "Islands of the Blest."

Whene'er the dust and turmoil of the day
Choke out my life, and heart and brain give
way.
In that far sunset land I seek for balm;
In that celestial sea is heavenly calm.

Whene'er I think of hopes gone down. Of buried joys and friendships flown-Of buried joys and friendships flown-Of all the incompleteness here— I lift mine eyes to rich fruition there.

Ah! Yeal when at the sunset's golden hour, Come crowding o'er my soul the spell and Come crowding o'er my soul the spell and power
Of loves and hopes of earlier years.
In that great sea of light, I drown my tears

For there somebow I place my Heaven;
The meeting of dear souls—sins forgiven;
And through the portals of that setting sun
I see a grander life begun.

They were then examining some sunshades in the drapery department, and the lady made several more purchases on the same terms as before. Presently Mr. Browne proposed an adjourn-ment to the tea-room, and his fair friend agreed after some little persuasion. Browne began to feel as if he did not care whether his wife was flirt ing with Captain Cannon or not. He would show her that if she was incapable of appreciating his fascinations there were other women who possessed

more discernment.

A returned missionary from the African gold coast, tells the reporter of the New York World some woeful stories of the cruelties of the human sacri-nice practiced by the fetish priests. The disposition of these people is so mild it is a mystery how they can indulge in the practice of such cruelties, such as human sacrifices, for which they have become famous. The missionaries be-lieve that but for the fetish priests who are exceedingly shrewd and who have a strong interest in perpetuating these bloody sacrifices, as their power is bloody sacrifices, as their power is based on them, the country could be easily civilized. Under the reign of Gnezo, the late king of Dahomey, human sacrifices have become comparatively rare; but his successor, Grery, a slave to the fetish priests, has revived them, and now they are practiced with greater cruelty than ever. The number of slaves who annually perish in this way is estimated at several hundreds The king of Dahomey is, as is known, the most ferocious and powerful ruler in the whole region. During ten months of the year he makes incursions into the neighboring territories, capturing large numbers of slaves. In this work he is chiefly assisted by his two celebrated regiments of Amazons. The prisoners taken during these expedi-tions are divided into three classes. One class is sold to the slave merchants of the interior; another, chiefly women, are fattened and sold to butchers, who, revolting as the fact may be, even to relate, openly sell human flesh in their shops. The third class is reserved for shops. The third class is reserved for the religious sacrifices.

At the season of the "grand cus-toms" victims are sacrificed in the fetish

forests. On the ninth day after the installment of a new king, he and his rude if I asked your name? he pressuite preceded by his fetish priests moved in procession to the sacred wood where the grave of the late king had been dug. The sacrifice began. Seven slaves were kiled, and their blood mixed with earth to form a kind of plaster with which the grave was lined. Believing themselves to be objects of an ovation they cast smlies on every side as they pass smlies on every side as they pass through the throng. On reaching the edge of the open grave they were made to kneel, and before they had any susto kneel, and before they had any sus-picion were stunned by a blow on the head and flung, still alive, upon the body of their reyal spouse. The difficulty arose as to getting an opportunity for a trial, but being informed that a number of Scotchmen were to dine at a certain hotel on the anniversary of Burns' birthday, it was considered a control of the state of the st considered a capital opportunity by the fiddler, for these young men, being principally raw-boned, overgrown cotch lads, who had recently left their own country to carry tea in the neighborhood, were the very ones upon whom he was sure to make a hit. All being now arranged, and the ut-most secrecy being agreed upon, the fiddler and the professor got an invita-tion to the dinner. There were twelve altogether who sat down, and merry they soon became, for the whisky toddy was not spared when the memory of any of Scotia's bards was proposed. The fiddler was not long in perceiving that he had got among a musical set, and he awaited patiently until they got fit for anything. At length he gave a wink to the professor, who at once proposed that his friend should favor them with a Scotch tune on the violin.

"Capital!" "Capital!" cried the whole party.

The violin was brought, and all were in breathless anxiety. The fiddler chose for his first tune "Here's a Health to Them That's Awa'," and played it in the most solemn and pathetic man-

down his cheeks. The tiddler, with his keen, eye, soon perceived that before he got through the second part of the tune he would have them all in the same mood. He therefore threw his whole soul into the instrument, played the tune as he had never done before, and as the last four bars of the tune died away like the distant echo, there was not a dry cheek smoug the company. Now is the time, thought the fiddler, and, without stopping a moment, he struck up in a bald, vigorous style: Willie Brew d a Peck o' Maut." In went the hand-kerchiefs, away went the tears.
