Spencer, the Lake Shore station agent.

He saw a chipmonk, shot it, and in going to pick it up, heard a noise in the bushes and looking around found that he had also wounded a partridge which he promptly dispatched and choir for several years.—Jackson Patrist

Oct. 7th.

The farmers here do not sow them only once. They have enough. But the tosts are not worth \$10 per bushel. The farmers here do not sow them only once. They have enough. But the lawyers are doing a good business out of the oat trade, more than the farmers. It will do quite well for one who has nothing to lose, and he may make something out of those that are foolish enough to get in thete-business. All about here think alike at this date. Some of the oat men have put theff to go which are doing a good business out of the coat trade, more than the farmers. It will do quite well for one who has nothing to lose, and he may make something out of those that are foolish enough to get in thete-business. All shout here think alike at this date. Some of the oat men have put theff to go which are the property out of their hands. Respectfully.

A. J.EWIS.

It is this vigor. The cort, which has more in the shoots. It is this vigor, the most exposed parts, but to the extremition of the extremition of the extremition of the shoots. It is this vigor, the most event was get to the root, which has to give of the shoots. It is this vigor, the most event was get to the root, which has pour to do the cutting a limb back puts strength into a plant, but the idea is quite erroneous. Urdoubtedly the further we cut back at the right season the stronger does the theory on the property of the interest of the shoots. It is this vigor. The cort of the shoots. It is this vigor. The cort of the root, which has no always to the cutting a limb back puts are doing a good busin

THE FRIENDS OF THE COM-MANDER can tell what is the full piano. missing on ten was is the full missing of Francis greatness. It unfolds before its in successive heights of ever-growing grandeur as we approach the study of it. In reading my companion the the study of it. In reading my con-rades' reminiscences concerning the greatest soldier of our country I am amazed to think that the general ever had any time for fighting. About three-

amazed to think that the general ever had any time for fighting. About three-fifths of his time, if one-half the reminum and the true, was passed in getting many papers, but I learn from the few I do read that not less than 1.100 private soldiers, while on guard, arrested Gen. Granf at 1.100 widely remote places and 1,100 different times for smoking in the vicinity of 1,100 powder magazines. These were all young soldiers, who know far more about the etiquette of powder magazine resorts.

The North Carolina senators have distinguished themselves in the hunting-field this summer. Senator Vance has killed a bear and Senator Vance has killed a bear and Senator Ransom has exterminated afive-foot rattlesnake. ought to know. Then, on some 350 different occasions Gen. Grant, wear-

different occasions tren. Grant, wearing the blouse of a common soldier, which interest of rank, attempted to be self-time, in 350 self-time, in 350 self-time, and was been uponly fatter and taught his business by 350 soldiers on marrie for the ness by 350 soldiers on guard for the first time.

Somehow, I seem to have missed my chances. I helped Gen. Grant to suppress the rebellion. I was a private factor of the first pass when he wanted to go through and taken the might have gone through and taken the lines with him if he had so desired. I never made him put out his eight. I never made him not so marked as might at first be expected, for, unless by an effort I remind affer a negative a most so marked as might at first be expected, for, unless by an effort I remind under the plaster is poured over it, in the plaster is poured to remind the plaster is poured over it, in the plaster is poured over it, in the plaster is poured to remind the plaster is poured over it, in the plaster is poured to remind the plaster is poured to remin

intolerable than the bad player, and that is the man who plays well and tribe processes his pariner.

The Philadelphia Indyer says: this recovery written by an American is Sidney Lander and the poetry. He then adds music and true poetry withink open and the swonderful genins. The Philadelphia Indyer says: this true for iron on about 5,090 miles of American railroad per anium. This poetral that stee rails will be subject that steel rails will be subject. The Philadelphia Indyer says: this true for iron on about 5,090 miles of American railroad per anium. The poetral that steel rails will be subject that steel rails. A feature of the proceedings is the steel of trails every sear flat them to market about 375,000 miles of a miles of the proceedings in the figures.

An a southernel I late of mine. But it is the post of the years the steel of mine. verse. Then I get soothed, exhilarated, or melted into tears. There is nature.

My true poet has gone through the same experiences as I have and be has voiced these on his harp of a thousand strings. I appeal to him in all simplicity, and he responds in the same appeals. To the likes of me Lanier is incomprehensible. Whitman is beneath notice. I never could make head or tail of Browning. George Eliot should never have attempted verse. One-half of Swinburne "no feller can understand." There are portions of Keats and Shelley that are as a sealed book. No. Give us the simplicity of the old Greek and Roman poets, the limplicity of receive praise."

Journal of the Annure. — Caucago was well sumfered was well summed up in these words: "Our mission in life is the government of self: it is A hady has a roschusta moong a number of different varieties on which has just full green color. A botafist at cantion: the latter passes under, the former will remain forever. Therefore, I have no great interest myself in vast schemes to better the firsh: I only care for the true self of all, not their coats or dresses. No one should assure you I look on it as the bitterest meant as such. It is paganism to give for receive praise.

Worth declare model was well sumferd up in these words: "Our mission from a small town user Lafayette; fied in life the government of self: it is A hady has a roschusta moong a number of different varieties on which has just full green color. A botafist at cantion: the latter passes under, the former will remain forever. Therefore, I have no great interest myself in vast schemes to better the firsh: I only care for the true self of all, not their coats or dresses. No one should assure you I look on it as the bitterest mockery, feel sure it is so, though not meant as such. It is paganism to give mission from a small town user Lafayette; find in life is the government of self: it is A hady has a roschusta a roschusta and surfation. It is from a small town user Lafayette; find in life is the government of se

MISSING LINES. The following story of Mme. Patti's

The North Carolina senators have dissolved magnesia.

mess by 350 soldiers on guard for the first time.

No wonder the war lasted so long, the soldiers were kept so busily employed in halting Gen. Graut, or taking him show his pass or give the countersing sign, that they had no time to fight the self-septiment of him is colored in the volunteer service who knew Grant by sight. They were always rebuking him, and threatening him and swearing at him under the impression that he was a quartermaster or a sutler. If all these stories we read are true, Grant certainly didn't know much about military discipline.

Somehow, I seem to have missed my chances. I helped Gen. Grant to suppasse the rebellion. I was a possible of the process by 350 soldiers on guard for the first sale was passed to purchase in Quiney. Mass, they give been applied to such practical uses; and it is the latest instance of how at has been subserved to business purposes. The work can be given the appearance of a number of substances, such as stone, metal, or wood, and some of it is of a high grade of excellence.

Among the many peculiar customs in core is that solding the "preserve" as a dissolved in wine jars for several years and using the "preserve" as a cure for invalids, after all the bones and flesh of the screpents have been dissolved in the wine. Another custom is that when a case of small-pox occurs of the work, in modelling of the strength preserve the proposition.

Somehow, I seem to have missed my passes the rebellion. I was a possible form battelering animals.

Misce

Misce

Misce Bones quickly dissolve in sea water, ly thirsty, and ask of M. Nicolini to reand consequently they are seldom found in ocean dredgings.

If thirsty, and asset at m. Neonin to request some one of their long retinue to cause a glass of water to be brought to in ocean dredgings.

Music boxes are chiefly made in Switzerland. Some of their cost as high as \$5,000, and are is large as a plago.

Prof. Huxley is to take up his permanent residence in Italy. London Trath is authority for the statement that he is to obtain a government pension of \$6,000 a year.

It was proved in a San Francisco court a few days since that a Ybinaman lived well, clothed himself and saved money while working as a shoemaker at \$18 a month, without board.

Gen. Beauregard and Gen. Early are paid \$6,000 a year each by the Louis-dryl in her throat. Nicolini pondered

Gen. Beauregard and Gen. Early are tremming up, as her patate cheked paid \$6,000 a year each by the Louisiana Lottery company for watching the wheel turn once a month and giving their names as advertisements.

The great singer a soothing draught of dissolved magnesia. "QUICK MEAL!"

An Artist in Paris.

The Philadelphia Times tells of a peculiar industry carried on at the New Central theater during the time the house has been closed. A voyage with The Five Nations of Inflans were the Mohawks, Chueffas, Cayugas, Oudondagas, and Senecas. In the year James Franck, has been closed. A young artist, 1711 the Tuscarara tribe retired from the Carolinas and joined the Five Nations, which were afterward known as the Six Nations. Central theater during the time the house has been closed. A young artist, try for advertising purposes. The pro-cess, while not exactly novel, has never

Among the many peculiar enstoms in Corea is that of preserving yellow serpents immersed in wine jars for several years and using the "preserve" as a cure for invalids, after all the bones and flesh of the serpents have been dissolved in the wine. Another custom is that when a case of small-pox occurs the people in the neighborhood are prohibited from butchering animals. of the work, in modeling of the figures or designs to be reproduced in papier mache. The plaster of paris is used to make the mold and the name is the looks of the district. paris is used to make the mold and the paper is the basis of the finished product. The design being made in clay, the plaster is poured over it, and, what might be called a negative produced. Upon each of the negatives or molds the paper is built up until a proper thickness has been secured. Then the only is allowed to dry in the sun, or is pulp is allowed to dry in the sun or is dried by means of artificial heat, whe stage it appears like rough stamped leather. After the edges have been trimmed and the surface smoothed paints and bronzed powders are applied until the desired effects are pro-Sash, Mouldings, Etc.

from Godey to Harper 1 wound grady have lighted his eigar for him. Although he must have known that I was a private soldier and only 18 years young, yet he never asked my advice in regard to sany important movement. The Bank of England has been guarded every night since 1870 by a picked body of soldiers, which consists of two segregants, two corporals, a drummer and twenty-nine privates, all the other soldiers in the United States army were thus honored, and I left out I can not finder-sand. I guess I couldn't have been much of a soldier. I never even arrested a colonel. I am glad, now, that I had no hand in this goveral persecution of Grant by this own soldiers. I am glad to think shawler the other guards were arresting him and chasing away his clear the could I was this where the other guards were arresting him out or magazines that I was this triend, and that he could I was this triend, and that he could I was his triend, and that he could another fellow's girl—Caroline Bands paper. This is continued until a thickand go in and out all he pleased and smoke like a volcano and no questions asked a Linever stopped him. I think here afforded. There are in details is allowed to dry, when it can be resmoke hard was the only friend he had in all his army.

One other remarkable fact converted to the first band such as the land of the work presents the solid appearance.

sow that I was the only friend he had in all his army.

One other remarkable fact connected with my service under Grant. I knew him every time I saw him, through the distance that separates a private soldier from his commander. He was pointed source forget the grave, carnest, quiet face. As I read over the reminiscences published by my comrades Lam proud to think there was a time when I was the only soldier in the union army who knew from Grant by sight. This slight said such as a car can be find and or the only soldiers and officers whose and officers who him by sight. This slight said and the soldiers and officers who him to sight. There is but one gage how who him by sight.

The reverence of the recruit for the commander deepened as the years of the whole was a recruit and I service in gages, with a marked saving for 1850. There is but one gage how brown occan to occan, and from the general and the soldiers and officers who him do not know him by sight.

The reverence of the recruit for the commander deepened as the years of the war came and awent. I always be lieved in Grant. I believed that whatever he said was right, that whatever he did was right, that whatever he did was right. The lieves that the first of many dependent of the same of the problem.

Sight would be affeated to go into a fact what is a car can be to a fail to go into a fact was a car can be to all of the country to fail the day of varied gage for railroad tracks is already practically past. The through the war came and awent. I always be lived in Grant. I believe that Victory herself would be, affeated to go into a fight which thim I believe that Victory herself would be, affeated to go into a fight which thim I believe that victory is gone of the country to the control of the country to the work presents the sold appearance of metal owned. While it sextremes that be work presents the solid appearance of metal owned is tacky and must be solid appearance of metal owned is tacky and must be solid appearance of metal owned is tacky and this
