BILIOUSNESS. Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, irregular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregularity in its action or suspen-sions of its functions, the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bilious diarrhea, a languid, weary feeling and many other distressing symptoms. Biliousness may be properly termed an affection of the liver, and can be thoroughly cured by the grand regulator of the liver and biliary organs, BURDOCK BLOOD BITTERS. Act upon the stomach, bowels and liver, making healthy bile and pure blood, and opens the culverts and sluiceways for the outlet of disease. Sold everywhere

"CANDEE"

and guaranteed to cure.
