The transgression of t twice a year, also that the loose stone be be the worst damaged. Rather than put a loosel. It was when Adam and Eve broke loose from God that they lost their glorious

twice a year, also that the loose stone be be the worst damaged. Rather than put a picked up once each month, but it has shock in such a situation I would put it out not been done. Perhaps the commissioners do not know what their duties are, shock a little farther one way or another-on and perhaps they do but don't care. If the line, in order to get it on an elevation, and one wishes to complain they can do where it will damage the least. The conditions, and there is a penalty attached for two of the grain slargely depends upon the disobeting the law.

On Tuesday morning James Field, white on his way to Santord's creamery, discovered smoke issuing from the roof. discovered smoke issuing from the roof ation for we often set to shocking boys who around the smoke and a moment ation, for we often set to shocking boys who number of the slain! How many of us can around the smoke pipe, and a moment have neither the strength nor his knowledge grabbed up a pail of water and started up a ladder and had the fire put out here only the land, cut and bind it, and then alfore much damage was done, but if he low it to waste.

ation, for we often set to shocking boys who number of the slain! How many of us can say in our hearts, before God, that we are say in our hearts, before God, that we are with Moses, and Joshua, and Caleb, and the sous of Levi; that we are warking by faith, and not by sight; and that we have not in our hearts turned back to Egypt?

ing would undoubtedly have being burned, our wheat early enough. If we would cut

and both it and the straw would be of better press, wince grow on ianu more or less quality, and jumped at people passing by, until Myers unhitched him, when he walked across the sidewalk and, would save its being lodged by a storm, or would be great. It is altogether probability to the save its being lodged by a storm, or would be great. It is altogether probability to the state of the sidewalk and would save its being lodged by a storm, or would be great. It is altogether probability that the state of the sidewalk and the straw would be of better press, wince grow on ianu more or less quality. And by carting thus earlier we under water. Like the coral builders, they have worked slowly, but in thousands of centuries the change wrought would be great. It is altogether probability that the straw would be of better press. stood on the trap door which covers the cellarway under Joe Vogelbacher's saloon, but the rotten board's broke, letting the horse partly into the cellar. A crowd of well in the shock or stack as if it had not in time be added to the mainland,—Ar-kansaw Traveler.

THE GOLDEN CALE.

Mrs. J. M. West, in the Household, has -- this to say about them: The secret of suc- LESSON II, THIRD QUARTER, INTERcess in the deep setting process of raising NATIONAL SERIES, JULY 8. ream lies in the rapid cooling of the mark, it must be strained soon after milk- 1 the Text of the Lesson Is to Be Found

will not raise all the cream. The most [Condensed from Lesson Heiper Quarterly, by salishactory result is obtained where a sufficient of H. S. Hoffman, Philadelphia, publisher.] ficient quantity of nee is put into the was "And Moses turned and went down ter just before mitking, so that the tem- from the mount." In our last lesson we perature will not run above 50 in ten saw Moses going up into the mount; after hours. At least this is our conclusion.

No. This process is claimed to be labor saving for women, and so it is. It not only requires less labor to manufacture the butter, but puts much of the hard work upon a stronger shoulders. With the same conditions of setting cream will rise in any distinct of the cloud and was there forty days. Just where he left Joshua, and what Joshua did these forty

ditions of setting cream will rise in any cans. The conveniences and economy are the points to make, and so long as there are stationary cans from which the milk is drawn from the bottom and then the cream. I can discover no advantage in having one that must be litted every time; and while the cream can be perfectly sard at the bottagh, I see uo use of the waste necessarily occasioned by dipping the cream from the top. I know of several kinds of homemade creameries, but considering the expense, the disadvantages and the unsatisfactory results, I see to economy in using one. We use the Champion; but whatever kind you buy anoid long tubes, spare corners, or any month of the constitution of the pool in this work and took with him up to the mixets of the cloud and waster here before and the unsatisfactory results, I see to spare them.

Moses went into the mixts of the cloud and what Joshua did these to forty days. We are to teld. But we are teld that after 60d had given Moses the instructions concerning the tabernacle and priesthood with the finger of God flow. Within with the finger of God many and the unsatisfactory results, I see to spare them.

The Work of God—the Writing of God. Within with the finger of God, but the tables Moses hewed, and took with him up to the mount flowt y 1.55. The second set of tables in the ark were also written by 60d, but the tables Moses hewed, and took with him up to the mount flowt y 1.55. The second set of tables in the ark were also written by 60d, but the tables Moses hewed, and took with him up to

Champion; but whatever kind you buy avoid long tubes, square corners, or any discretized discretization of the cans, for they often need at which the holiness of God requires of those washing with a cloth on the outside. With stationary cans the men strain the milk "in a minute," and children can draw the milk and wash them. Our boys, aged ten and twelve, regularly empty and wash the cans tor the milk of thirty cows, while they are being driven into the stables and the first two pairs filled with milk. I should put no part of butters and the creamery is a uniform quality of the law for word marking in the ark were also written by God, but the tables Moses hewed, and took with him up to the mount (Deut. x, 1-5). The righteourness set forth in these ten commandments is that which the holiness of God requires of those which the holiness of God requires of these and there should be set forth in these ten commandments is that which the holiness of God requires of those which the holiness of God requires of the mount four the which the holines of God requires of the mount four the which the holines of God requires of those which the holines of God requires of the mount four the which the holines of God requires of the mount four the which the holines of God requires of the mount four the milk of the mount four the milk of the mount four the milk of the mount four the mi

Sunday being a splendid day for driver shocking. Simply standing sheares on ending, a number of couples from neighbor is not shocking. The best hands ought to ing towns drove into the village.

A number of our citizens drove to find and know how the work should be done.

There is a science of good seed overy side of us today the laws of God into the specific continually broken, and yet the people seem perfectly happy, and "because sentence against an evil week is not executed speedily, therefore the heart of the sons of ment is full yet in them to do evil." (Eccl. village).

A similar of our eithers directly and the stands of the control of

The grass in Oak Grove cemetery has been mown and the place now looks, much been mown and the place now looks, much better than it did when the tall grass hetter than it did when the tall grass in Oak Grove cemetery has been mown and the place now looks, much better than it did when the tall grass in the pense of doing this work is more than overbalanced by the improvement it overbalanced by the improvement it overbalanced by the agood idea here as in many of the other, drawing up any loose whisps that they may be under the cap sheaves for convenience in loading, the shocks of the shocks of the shocks.

Stand is to set the sheaves firmly in the stubble and give them the right inclination, and his sexues were in vain. The Lord was very angry with Aaron to have destroyed him; and prayed for Aaron also the same very angry with Aaron to have destroyed him; and prayed for Aaron also the same were in vain.
