Breathes there a man whose soul is dead—who never to himself hath said—I will my local paper take—both for my own and family's sake? If such there be, let him repent—and have the paper to him sent—and if he'd pass a happy winter—he in advance should pay the printer."

Prophet Hicks gives the following dismal prediction for the winter: The winter of 1896-97 will be very long and cold, with much snow in all localities where snow is a factor. Blizzards will be numerous, highways will be blocked, all to be followed by much rain-fall and high water most of the year. Do not be in haste to get in spring crops. Plant large and late varieties of corn. Provide good shelter for self and stock and do not forget the suffering, hungry and poor of our land.

Here is one of Charles Hemphill's "16 to 1" stories. "A man stepped into a saloon kept by a german and called for a glass of beer. After it had been drawn but and set on the bar the purchase laid down a gold dollar in payment. The german had never seen one of the coins and inquired what it was. 'Why, that is a gold dollar,' said he. 'Was that a chenuine gold dollar?' asked the Teuton. 'Certainly sir,' answered the other, and the keeper of the place turned to his cash register, rang up a nickel and hauled out \$15.95 in change."—Times.

A lady at Pentecost writes the Adrian Times: Once on visiting some friends in January, what did they entertain me with but fresh, sweet grapes. I inquired from whence they came, and was told they had chosen a fine day, when grapes were nice and ripe, gone to the vines with boxes and paper, picked nice bunches, carefully handling them, discarding all imperfect and green ones, wrapped the bunches carefully in paper, and placed them in a box. They put them in layer after layer, until the box was filled, then fastened the cover on and placed them in a cool room or cellar. My hostess told me they had buried them in the garden until midwinter and then taken them out fresh and perfect.
